Washington Letter.

The black wings of the foul bird, scandal are flapping ominously over this administration, which has been lauded by Republicans for its purity and honesty ter visited with his friend Rev. J. ever since it came into power. No won- Brueck, pastor of St. Joseph's church der that Mr. Harrison, who, to "render · under Ceasar that which is Ceasar's", is a man of great personal purity and sterling honesty, is shocked at some of the most recent exposures Any honest man would be. And what makes the matter worse, is that prominent members of Mr. Harrison's own party have shown up some of the worst things. For instance, it was a Republican Senator, Manderson of Nebraska, who on the floor of the Senate proclaimed, and produced the documents to prove that the authorities of the Indian Bureau have for several months been trying to compel the army officer. who is acting Indian Agent at Pine Ridge Agency, to accept and distribute 120,000 pounds of bacon which had been sent to the agency by a Chicago contractor and refused by the army officer, because of its being unfit to eat. How Mr. Harrison must enjoy reading the letters from the saintly Indian Commissioner (who signalized his entrance into Office, several years ago, by creating a scandal, in connection with saddling his wife's travelling expenses on the Government, besides getting her a salary by appointing her his private secretary), to the honest army officers in behalf of the dishonest contractor.

F It was also a Republican Senator-Chandler of New Hampshire-who, as chairman of the Senate committee on Immigration, first directed public attention to the fact that officials of the Tresury department had authorized the expenditure of \$350,000 more than there was any legal authority for spending, on the buildings, etc., at the Government Imigrant Statian on Ellis Island, in New York Harbor, an expenditure which the House and Senate Committees on Immigration are now jointly engaged in investigation, for the purpose of placing the responsibility therefor upon some one official, if possible. It cannot be charged that politics had anything to do with exposing either of these charming specimens of official crookedness. The Pension Office scandal Mr. Harrison has had with him so long that he has probably almost become accustomed to it: but some of Raum's admissions, to say nothing of the testimony of others to the House Committee now engaged in investigating that office, must have made very interesting reading for Mr. Harrison.

The first step towards the tariff reform, which the Democratic party will ask the voters of the country to endorse next November, will have been taken when the House passes the Springer free wool bill this week, and others will follow in une season. If the Republican Senate sees fit to refuse to pass these bills, so much the worse for the Republican par y.

Silver rumors are thick just now, probably because of the agitation in the Senate caused by the debate brought on by Senator Morgan's resolution and challenge to the Senators to define their positions. In spite of all that is said it is very doubtful whether the Senate will go to the extent From Bay City to Port Huron, Deof voting on Senator Stewart's free coinage bill. It certainly will not, if the influence of the administration is strong enough to prevent it. The most interesting rumor is one that says more than eighty members of the House have entered into an agreement to filibuster continuously on everything, except tariff bills, unless the Committee on rules will report another rule setting a date for the consideration of the Bland free coinage bill. Further than that such a request has been made of the Committee, the rumor cannot be confirmed.

A Victory for the Republicans -- They Elected their Entire Ticket.

The annual election of Baldwin Twp., held in the village hall here on Monday last passed off very quietly. Candidates on both tickets were good men, and men who beheved in doing business in a business-like manner, so their was no boistrous struggling for victory on either si le.

Gorton's Minstrels.

What promises to be an exceptionally neat burnt cork performance, will be given by the above company at East Tawas Opera House Tuesday evening, Apr. 12th. The press do so sooner. where the show has been is unanimous in speaking of the company in the highest terms for presenting clean high-class minstrelsy.

The following is from the Terrytown, N. Y. "Sunny Side" of Oct. 23: The performance last night by Gorton's Minstrels was greeted by a large and fashionable audience, and well merited the liberal patronage it received, for it was chaste, refined and mirth-provoking throughout, and much above the average exhibition of burned cork artists. The music, vocal and instrumental, was of an order of excellence.

The fact that it was a stormy night prevented many from attending that perhaps otherwise would have been present.

Quite a spirited meeting, we understand, of the Agricultural Society members took place at the court house recently, at the eall of the president. At the annual meeting iast fall, C. R. Jackson was chosen for the third time as secretary, and the sum of \$50 was voted him for his faithfulness in the society's interest. We are practically disinterested in this matter, but Mr. Jackson is a resident of East Tawas, and it is a "part of our business" to something of the duties of Secretary of the Iosco Co. Arg'l Soc'y, we assume the right to speak briefly on this subject. The duties of Sec'y require almost the exclusive attention of that officer for a number of weeks before and after the fair, and necessitates the employment of assistants also. Mr. Jackson did not ask for the office a third time, but said he could not attend to its, duties for nothing another year, and that he would be satisfied if some one else were elected ...
