Nels Brabbon had the fingers of his right hand badly smashed by being caught between two timbers, while at work on the new flouring mill last Monday.

The East Tawas Epitmoist made its appearance last Thursday. It is a neat six-column folio, published by C. W. Terry, formerly of this office. We wish Charlie success.

G. W. Lufkin, the collector for the creamery company, left Monday for Mt. Clemens, and Mr. D. B. Smith, of Cassopolis, is here closing up the business with the Association.

Rev. C. L. Wuggazer of the Lutheran Zion church, left Monday noon for Chicago. He will also go to St. Louis, Mo. where he will attend as a delegate to the triannual delegate Synode.

The work on the new flouring mill is being pushed on rapidly as possible, under the unfavorable conditions in which Mr. Watson found it. The frame is now up, and the work will hereafter be more rapid.

Farmers and gardeners can not be too careful in selecting seeds for spring planting. Remember that Keonig & Murphy have just secured a full assortment of new seeds. See their "adv." in another column.

The Epitmoist of last week contains a write up of the Tawas, in which it represents the car shops as being located in East Tawas. While we are willing to give our sister all she is entitled to, we shall have to object to this claim. The car shops are located in Tawas City.

Don't bite at the offer to send a fine steel engraving of the Landing of Columbus upon receipt of \$1, unless you wish to pay that price for a two-cent Columbian postage stamp. Those who have invested find it more expensive than buying at the postoffice.

Town pride is a good thing to have. It is the keynote to industrial advancement and the banner of success. No town can get along unless the citizens have pride which will make them work to keep it abreast of the other towns of the county. If they don't care what becomes of the town it will degenerate very rapidly.—Caro Democrat.

While there are so many manufacturing industries looking for new locations and so many inducements are being offered for concerns of this kind, it might be well for the business men of Tawas City to get a hustle on and see if we have not some inducements to offer that would bring one or two of them here. They'll surely not come without an invitation.

Light prints four and a half cents a yard at Friedman's.

A very pleasant time was reported at the party given by the Tawas Social Club last Friday evening, although the attendance was small owing to the very stormy weather.

Engineer Frank Allen and Fireman Lake had a narrow escape Wednesday, while working on the Loon Lake branch. A car of cedar standing on the siding was so near the main line as to collide with the engine. The engineer and fireman both jumped receiving slight injuries.

The latest report in regard to the Bay City-Alpena line of boats is that the steamer Dove, owned by Capt. Holt, may be refitted and placed on this line. The Dove was damaged by fire about two years ago and has not been in commission since.

The passenger was an hour and a quarter late Monday noon in going down, on account of an accident which occurred near Mud Lake Junction. A train of empty flat cars in charge of Pat O'Brien was going up, when in passing over a switch-rod it broke and let eleven of the cars off the track.

Commissioner Blust and Supervisor Murphy spent Wednesday wading swamps up on the "townline," laying out a road on sec. 4, town 21-7. During the past year this proposed road has been the subject of many heated discussions, but we are informed it has now been decided that the road will be laid out along the north and south quarter line of said section.

Man's life is a game of cards. First it is "cribbage." Next he tries to "go it alone" in a sort of "out, shuffle and deal" pace. Then he raises the "duce" while his mother "takes a hand in," and, contrary to Hoyle, "beats the little joker with her five." Then with his "diamonds" he wins the "queen of hearts." Tired of playing a "Lone hand," he expresses a desire to "assist his fair partner," "throws out his cards" and his clergyman takes a \$10 bill out of him for a "pair." She "orders him up" to build the fires. Like a "knave" he joins the "clubs," where he often gets "high," which is "low," too. If he keeps "straight" he is sometimes "flush." He grows old and "bluff," sees a "deal" of trouble, when he at last "shuffles" off his mortal coil and "passes in his creaks," and he is "raked in by a spade." Life's game is ended and he waits the summons of Gabriel's "trump," which shall "order him up."—Clarion Pa., Democrat.

After rapping up several guests, this man finally peered out of the darkness of his room and confessed that he had tied a towel around the electric light, and the latter had scorched it. "I tried to blow it out," he said, "but it wouldn't go out."

It is sickening to read the "highfalutin" articles about "hauling down the United States flag" at Honolulu. SOME people affect surprise at Secretary Hoke Smith's declaration that politics will cut no figure in the conduct of the business of the Pension, Census, and other important bureaux of his department. It is but in keeping with President Cleveland's words and record. Other things being equal, every good Democrat naturally prefer that the offices be filled by democrats, but he does not expect them to allow politics to influence them in the transaction of public business.

NEXT Monday President Cleveland will press the little electric button which will put in motion the vast machinery of the World's Fair at Chicago. This simple act will be followed by such a buzzing and whirling of wheels and flashing of lights as was never before witnessed. It will start the enormous Allis engine and cause one hundred thousand incandescent electric lights to show forth in all their brilliancy. It is estimated that upwards of half a million people will witness the opening of this great event.

A CHANGE seems to be coming over many of the leading American political economists of the country. Charles Frances Adams, in some remarks the other day before the Massachusetts Legislative Committee on Taxation, made the statement that he was fast coming to the conclusion that the best solution of the tax system of Massachusetts—the

one that would be more equitable and draw the largest amount of capital to the state—is to adopt the single tax plan of taxation. He said that he had not made the theories of Mr. Henry George on that subject a special study, but from what he could gather in that line from the newspapers, he was in favor of Mr. George's views of taxation.

Why Are You Interested.

"What makes a person interesting?" It cannot be intellectual brilliancy, for we have all know men whose minds were stored with the best thought of the world, yet wholly failed to interest us, women whose brains were developed by the widest culture, yet were unable to appear other than dry-as-dust catalogues of knowledge. Think of the people who interest you and study their qualities and how few you find possessing just the same traits. It is all a matter of magnetic-soul currents, possibly. Why not? We can hardly dispute that some human bodies convey electricity much more readily than others. In almost any gathering of a dozen persons at least one will be found who possesses this strange power, the touch of whose hand can cause a sensation like that of touching an electric battery. Is there anything impossible in the theory that souls have their electric currents, which pass more or less freely to and fro according to the individual power as conductor? Then we have but to assume that the person who "interests" us is one whose soul current mingles freely with our own. This is perhaps a more-satisfactory explanation than the more commonly received one of animal magnetism, a quality on a lower plane and infinitely less subtle in character.—Boston Advertiser.

The board was called to order by the chairman, who ordered the roll call Present: Supervisors Duplanty, Latham, Ferrister, Balcom, Murphy, Rodman and Jackson. There being no quorum the board adjourned until 1 o'clock p. m.

At 1 o'clock p. m., the board met pursuant to adjournment and was called to order by chairman and roll call ordered. Present: Supervisors Henry, Betz, Johnson, Slingerland, Sloat, Duplanty, Dillon, Latham, Yockey, Ferrister, Balcom, Murphy, Rodman and Jackson. Quorum present.

Minutes of January 11, 1893, read and approved.

The following communication was received and read and on motion was ordered spread at length upon the journal and referred to the committee on salaries, viz:

EAST TAWAS, Mich., March 20, 1893.

To the Board of Supervisors of Iosco county, GENTLEMEN:—Acting upon the privilege which I have always tried to be governed, that of using every available opportunity for serving the Public Schools, I hereby submit the following report for consideration by your honorable body: The plans for the improvement of our schools outlined in a previous report are being executed with a fair degree of progress. I have delivered two lectures on education and the needs of our schools and three more will be delivered within three weeks from the present time on the same topic. Three meetings of the teachers have been held in which our teachers have exhibited not only a willingness, but are anxious to cooperate with me in carrying out these plans.

Though there is but a limited amount in our county institute fund, the full allowance of state aid has been promised by the Superintendent of Public Instruction, who has appointed a State Teachers Institute to be held at Tawas City during the week beginning April 3. It is of the utmost importance that every teacher in the county attend it as this institute will be conducted on a new plan and it will represent a model school. Classes will be organized and recitations conducted by the leading educators of this State. Methods of instruction drill and discipline will be taught not by lecture merely but by actual class work. Free evening lectures on popular subjects will be given and on Wednesday evening April 6th a Citizens meeting will be held at which meeting we and especially desiring that every school board in the county be represented. The advertisement you may give this Institute and any effort you may make in your respective townships to secure a full attendance will aid us very much in improving the condition of our schools and it will be duly appreciated, by your willing servant.

J. K. OSGERBY.

Moved and supported, That the committee on salaries of county officers be instructed to ascertain the number of schools in this county under the supervision of the school commissioner, and to ascertain what salary has been paid the commissioner, and by what authority. Motion carried.

The following communication was received and read:

To the Supervisors of Iosco County,

GENTLEMEN:—With a sense of deep regret I place in your hands my resignation as a county school examiner. My action is occasioned solely because I cannot spare time to conscientiously perform the duties of the office.

Respectfully,
WM. McFARLAND.

On motion the resignation of Wm. McFarland was accepted.

Moved and supported that the following resolution, offered by Henry supported Yockey, be adopted:

Resolved: That a special committee, consisting of Clerk, Sheriff and Judge of Probate, be appointed to ascertain the advisability of placing a furnace, a steam or hot water apparatus for the court house and jail; to learn how much, if any, cheaper the buildings could be heated; the cost of putting in the same, and to report at next meeting of this board. Carried. 13 yeas, nays 0.

Motion made and supported that the clerk write to the prosecuting attorney and get his advice as to having a new jury list drawn from the different townships and wards in the county so that a jury may be drawn for the May term of court. Carried.

Ours is an old and reliable publishing house, endorsed by all the leading newspapers. We have received hundreds of testimonials from pleased patrons during the past five years: "I had beautiful flowers from the seeds you sent me two years ago, and from experience know the seeds are exactly as advertised."—Mrs. M. C. Baynes, Dana, W. V. "Myself and friends have sent for various things advertised by you, and have found them to be entirely satisfactory."—M. J. Davis, Brooklyn, N. Y. "Mrs. Henry (a regular subscriber), and Grace Greenwood, each ordered our seeds last season. Do not count this offer with the catch-penny schemes of unscrupulous persons. Write today, don't put it off! Six subscriptions and six Seed Collections sent for 60 cents.

SPECIAL OFFER! To any lady sending us 12 cents for above offer, and naming the paper in which she saw this advertisement, we will send her, in addition to all the above, one packet of the celebrated Eckford Sweet Peas, embracing the newest varieties, including Borlotti, King of the North, Splendor, The Queen, Orange Prize, Apple Blossom, etc. Sweet Peas are the most popular and fashionable bouquet flowers now cultivated, and in Eckford Varieties which we offer, are the largest, finest and most celebrated known. They grow to a height of 6 feet, and produce for three months a continuous profusion of fragrant blooms of the most brilliant coloring.

ANOTHER GREAT OFFER! Upon receipt of thirty cents above described, we will send The Ladies' World for One Year, together with our magnificent Collection of Choice Flower Seeds above described, handsomely bound, extensively advertised and justly celebrated Eckford Sweet Peas.
