The person who furnishes items for a newspaper is always a valuable friend to the editor. Many persons hesitate about sending items to the newspaper regarding the movements of friends, lest the editor should think them anxious to see their name in print. He will think nothing of the kind, but on the contrary he is always glad to get such items. Many seemingly unimportant notes when printed are news to a large number of readers.

Have you an idea? It may be valuable. Is it patentable? Write Dubois & Dubois, long established Patent Attorneys, Washington, D. C.

Good roads cannot be made without putting three things into them—good material, brains, and money. Without good stuff to work with, brains and money are helpless; with good material and no brains, the money spent is worse than wasted, and you may have the material and the brains and no money to work with, and you can do nothing.—Manchester N. H. Union.

The Harlem Associated Heirs' Title Co. is the name of an organization with head quarters at Washington, which has been organized for the purpose of proving their title to a large tract of New York real estate, situated along East and Harlem rivers from 72d street to Spuyten Duyvel and along the Hudson river to 130th street, and valued at about \$100,000,000. The claims are based on Royal Patents issued to Colonial Governors Nichols and Dougan. This association are pushing their claims and will undoubtedly secure a large amount. DR. BRIGGS seems to have taken the part of the parrot in the "monkey and parrot" time in the Presbyterian assembly.

THE legislature has adjourned, and by so doing recorded about the only act accomplished by it which was in the interests of the people of this state.

THE appropriations of the legislature of '93, amounted to \$3,719,839.47. This is the largest amount ever appropriated by a Michigan legislature. Tax payers, how do you like it.

Gov. McKINLEY says the Republican party needs neither a eulogy nor an apology. We believe the Governor is right. An obituary is the only thing needed by the G. O. P. since November 8.

A ONE dollar bill having written on its margin, "the last of a great fortune," which was recently received by a bank, must have been part of the big Treasury surplus that was turned over to the republicans, March 4, 1889.

HAVING by its financial policy brought the country as near to a financial panic as it could, the republican party, through its chosen mouthpieces, now has the audacity to charge the democratic administration with the responsibility for the present financial condition of the country. The people of this country are not idiots.

HON. CHARLES FOSTER, whose financial misfortunes are everywhere regretted, paid very dearly for the honor of being Secretary of the Treasury. It was while he held that position, that his business affairs got in a bad way. But he will forfeit the sympathy he now has if he persists in his silly attempt to make the present administration responsible for his failure.

THE bill reorganizing the militia forces of the state and raising the tax levied for military purposes by about \$22,000, has become a law. The military board as now constituted is abolished, and the heads of the three state military departments compose a board on which each will audit his own departmental accounts. The name "state troops" is changed to "Michigan National Guards." A resolution authorizing the board to establish a state camp of instruction this year at or near Chicago, the cost to be limited to the usual cost of a camp at Island Lake, was also adopted.

## The Fairest Method.

The Legislature of Michigan, which is now Republican, has repealed the law for the election of presidential electors by districts. This was the law of which we heard so much during the last campaign and which enabled the Democrats to elect five of their electors in 1892. The Legislature of 1891 happened to be Democratic and the district measure was adopted, of course, for a partisan purpose, and is now re-

pealed for a partisan purpose. But it is, nevertheless, the fairest method and the one under which it would be next to impossible to elect a President against the wishes of a majority of the people, as has been done a number of times under the the prevailing method.—Baltimore Sun.

## The New Tax Law.

The principal features of the new general tax law may be summed up as follows: A repeal of the mortgage tax law; authorizing township treasurers to make levies for taxes in other counties; provides for court proceedings, but eliminates all the expensive machinery of collection; provides for an order of publication by the court which is made equivalent to a personal service; provides that all lands which have been delinquent for five years or more and which have been inspected and reported of little value, shall be conveyed to the state by the auditor general and stricken from the assessment rolls; they are then to be sold to home steaders in parcels of not less than 240 acres, and when so sold to be returned to the assessment rolls. It is stipulated, however, that the inspection is only to be made on the request of the township board. It also restores the state system of collections, and gives the auditor general power to award the tax lists to partisan papers. It also provides for a "cheap list" to clean up state tax lands lists. No conveyance of lands can be recorded under this bill until a certificate can be produced showing that all taxes for five years prior have been paid.—Times-Press.

All of the whitefish fry in the U. S. hatchery in this city have been planted where they will do the most good, the last plant being made last Saturday. In all 17,000,000 fry were planted.—Pioneer

Considerable damage has been done in different parts of Ogemaw county by forest fires. Two mills and six houses with their entire contents on the Hauptman branch, have been destroyed. Two mills and one dwelling house in Churchill township have shared the same fate.

A charge has taken in the management of the Courier-Herald company Hon. R. G. Horr retiring, and the following officers being elected for the ensuing year: E. D. Cowles, president; R. G. Evans, vice-president and business manager; F. Cowles; secretary-treasurer.

Mrs. A. H. Spencer, age 60, milked 6 cows as usual last Friday morning. After that she did the thousand and one chores a woman is expected to do on a farm in the spring. Then she walked six miles to Harrisville to do some shopping and walked home again. Of such hardy material are pioneer women made.—Harrisville Review.

The Knights of Pythias, will go in a body to the World's Fair on July 9th for a week's stay. A few outsiders will probably accompany them. They will leave by boat on Sunday, the 9th, reaching Chicago Monday morning, and will then leave Chicago Saturday night, reaching home Sunday.—AuSable Monitor.

A movement is on foot by the Women's Relief Corps of Michigan to build a home at Saginaw for old soldiers and their wives. The Relief Corps of this city pledged themselves to give \$25 toward the project, and will use the proceeds of the refreshments sold in the Beebe block Tuesday afternoon, Memorial day, for this purpose.—Alpena Pioneer.

There is a hitch again in the trial of the log lein cases in the Circuit Court in which Judge Simpson is interest. On two occasions Judge Simpson has paid the expenses of Judge Kelly to set in the cases, but on both occasions they have gone over for good reasons. Judge Simpson refuses to pay any more expense and it is probable the cases will be taken to another Circuit for trial.

## The Champion Plaster.

The Western Plaster Works, of Alabaster, received the following unsolicited letter from the American Bronze Co., the largest manufacturers of bronze work in the United States:

Western Plaster Works.  
GENTLEMEN:—Your invoice for last car load of plaster received. Thanks for prompt shipment as we need it, having used a large amount of it lately.

We wish to add that we are pleased that we gave the Champion Plaster a trial as we have found it what we needed to strengthen our French sand moulds. In casting the Montana Statue, Justice, we used it as it required the strongest backing to hold the silver firmly in pouring and cooling, and the casting came out of the mould perfect, not a crack or blister in it. In using plaster that is as strong as this has proved to be, we feel confident of every pouring.

Respectfully Yours,

AMERICAN BRONZE CO.
