The shingle mill has a capacity of upwards of 30,000 per day. Mr. King expects to commence running next Monday. S. C. Williams, of this village, has had charge of the work, which is a sufficient guarantee the work is done in a first-class manner.

A farmer who knows what he is talking about, hits the nail on the head when he says that nothing pays better than good country roads. It costs something to secure them, but they are the arteries which connect village and country, along which the life currents of business, prosperity, safety and solid comfort perpetually flow. Bad roads full of chuck holes, slough and bottomless mud, kill time, teams and temper. Be sure then that money thus intelligently expended is wisely invested and sure to realize future satisfactory results.

Take a drive through the country and carry a pine stick with you. Cut a notch every time you see a piece of farm machinery standing out of doors unprotected, wind cracked, paint washed off and frons rusting. We will wager your pine stick gives out before your team gets tired. Implement dealers and manufactures are not making much fuss about this. It suits them all right, if it suits the farmer. This is the grossest kind of carelessness, and if every farmer would build a cheap, straw covered shed, for tools or impliments to shed rain, wind and sunlight and use it, they would save hundreds of dollars annually.

The Huron's Pride and J. & C cigars, genuine Havanas, are for sale at the following Tawas City firms:

Tas. Hamilton,  
Thos. Curry,  
A. G. VanWey,  
Dr. G. S. Darling,  
Murphy Bros.,  
C. H. Prescott & Son.

All residents of the village of Tawas City and Tawas township, whether tax payers or not, who wish to have the birth of their children made a matter of record, will confer a favor by making out a list, or calling at my office, and leaving the names of your children born in the year 1892, that is to say between January 1, 1892 and January 1, 1893. By attending to this matter before July 1, 1893, you will confer a favor on me and perhaps a consolation to yourselves. Respectfully submitted.

**A Literary Sensation.**

"Uncle Tom's Cabin" has certainly "broke loose!" The copyright of this most famous of American novels, by Mrs. Stowe, has recently expired, which frees its publication from the monopoly of the high priced publishers, and though in anticipation of this fact they have within a few months greatly reduced its price, now that it is really "unchained" the consequences are something surprising. John B. Alden, publisher, of the New York, issues several editions, selling them only direct (not through agents or book sellers); one in good type, paper covers, for 5 cents, sent post-paid, or the same bound in cloth for 10 cents with postage 7 cents extra; also an excellent large-type edition, on fine paper, handsomely bound in cloth for 25 cents, postage 10 cents. Surely a copy of "Uncle Tom's Cabin" will soon be found in every home where it is not already. Mr. Allen sends a 32 page pamphlet describing many of his publications free, or a catalogue of 128 pages of choice books, a veritable "literary gold mine" for book-lovers, for 2 cents. Address JOHN B. ALLEN, Publisher, 57 Rose St., New York.

It is agreed upon all sides that the only real danger that threatens the country at the present time is due to an uncertainty on the part of the people. It was feared that in case they should be kept in doubt there might be a panic and consequent financial disaster. President Cleveland has done his full share toward removing all this doubt and uncertainty, and it is not at all rash to predict that the common sense of the American people will do the rest, and the present financial flurry will soon be a thing of the past. —Washington Star.

The attempt of republican organ and politicians to blame the Democratic party for the present hard times is in perfect keeping with the hypocrisy which has characterized them for more than a generation past. The Democratic party has been predicting for years that just such a state of affairs as now exist would be the outgrowth of the robber tariff and the Sherman act, both the creatures of republican legislation. Now that it has come this hypocritical party attempts to escape the responsibility of their own outrageous work by shouldering it into a party which has not had the power to make or unmake a law for more than a quarter of a century. But the people are not fools as the republican organs and politicians think they are.—Northern Democrat.

The Extra Session.

We call this a most memorable utterance, because it appears at a time when it will—provided our nation has not entirely lost its reason—have a great influence on the public mind, and tend to check that feeling of oppression, which is death to enterprise and trade. It is an appeal to the common sense of the country to exert its sway over politicians who have been playing with the silver question until they have bought business to the verge of disaster. We see in it no signs of the compromising spirit for which Mr. Cleveland has been arraigned by unscrupulous partisan organs; but on the contrary, a firm, a buoyant belief that the "only menace to the country's well fare and prosperity" will soon be a thing of the past. —Boston Transcript.

Good Roads Wanted.

Under the operations of the new law which was carried by the amendments to the constitution last spring the people of any country can, if they so decide, build and maintain highways at the country expense. The new law may not be the best in the world, but it will give those counties which appreciate good roads and are willing to pay for them, an opportunity of doing so.

The town people will doubtless object, or some of them will, at any move being made to build country roads, for they will say that they are being taxed to build highways for the country. While this is in a measure true, yet every penny

which any resident of the towns may pay out for highway improvement, will come back a hundred times in the increased traffic that towns will receive from the territory tributary.

People are prone to grumble at their taxes, anyway. Yet the highway tax, if judiciously expended, is the most beneficial, perhaps, in the way of direct returns, of any of the moneys paid to the tax gatherer. Under our present system, however, the money is many times wasted in "improvements" which are a detriment instead of a benefit to the highways.

If a good round tax was raised, for the purpose of making permanent roads, the yearly tax thereafter would be insignificant, to keep it in good repair. It may not perhaps be wise for us to adopt the county system for building and repairing our highways, but we believe it would be profitable in the long run, though the first cost might be greater than would be advisable at present.

In the meantime our highway commissioners would do well to post up a little on the subject of road making. It will cost them nothing, and it may result in an improvement in our highways.—Petoskey Democrat.

Michigan Crops.

DETROIT, June 29.—The weekly crop report issued by the Michigan weather bureau to-day says:

In the northern section the warm weather and absence of any excessive rainfall during the past week has improved the condition of the ground and crops and the outlook at present is very favorable. Potatoes are doing finely and market produce, fruits and berries are promising a heavy yield. Grass and pastures could be improved by a little more rain, also strawberries.

The growth of all crops in the western central counties during the past seven days has been very rapid. The rains been timely and not severe and the sunshine and heat have made a strong growth possible. The prospects of a large yield of hay is very good and pastures are in excellent condition. Late small grains are being sown.

In Genesee and Tuscola counties and the northern portion of St. Clair county the crops have been somewhat backward owing to heavy rains soaking the clay soil and keeping it to wet and cold.

In the fruit counties of this section the prospects seems very favorable for a large crop of pears, plums and apricots, but apples are below the average. Stock generally is in prime condition. Some planting is being done and a good deal of buckwheat and beans are being put in ground plowed for corn. There is some complaint of smutty wheat in Lapeer county.

In the southern section all crops are pushing forward rapidly and the weather is all that could be desired. Corn has a good stand and growing finely. The cultivation of corn has been the work of the farmer during the past week in some counties. In Monroe county there is some complaint from those on heavy clay soil that they have had too much rain during the week previous, and the sudden dry, hot weather has crusted the corn ground so that it cannot grow. Wheat is coming on nicely, and in some localities hay will be ready to cut by the 21st. Grass promises a full crop. A very heavy crop of strawberries will commence to ripen next week. All kinds of fruit is in splendid condition.

The Frank Tucker

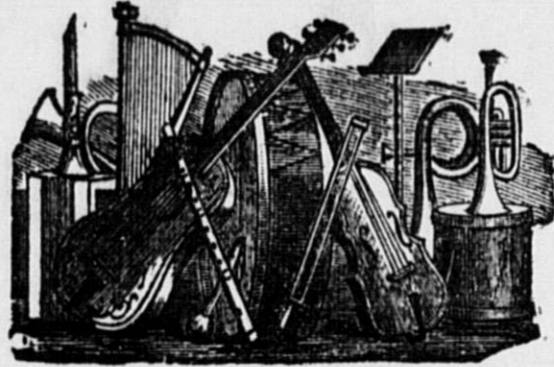

Theatre Co. has been at the East Tawas opera house this week, and has given the people some excellent amusement. Mr. Tucker has an excellent company, while his band and orchestra are the best that has ever visited this place. The company went to Oscoda today for the balance of the week. Mr. Tucker has always been a favorite here, and can depend on a warm welcome on his next visit.

Ladies, Mrs. Wm. Dennis has just received a large line of summer millinery, consisting of lace braids, leghorns hats of all shapes, and new fancy imported hats. Also a large assortment of sailors, poke bonnets, etc. A nice line of lace drapery flouncing, in black or white silk or cotton. Having received these goods so late in the season, she will make a special sale for the next two weeks in order to dispose of them.

An East Tawas correspondent to the Bay City Times-Press says there is considerable indignation expressed by our citizens concerning the intention of the Detroit, Bay City & Alpena railroad company to cut down the beautiful shade trees which are now standing in front of the passenger depot. Our citizens think that the company has no more right than a private individual, and a petition is in circulation asking the council not to grant permission to allow the trees to be cut down.

The Presque Isle County Democrat has been sold to F. D. Larke. The paper will hereafter preach McKinleyism.

Bay City now has a bicycle manufactory, turning out 100 wheels per month, in full blast. It should be able to supply the demand in this part of the country.

The largest raft that ever passed up the Saginaw river went up Wednesday. It consisted of over 1,000,000 feet and was taken to the Bliss & Alger mill on Crow Island.

A new departure for Presque Isle county forests products in the market is that of cedar grape and hop poles. They are being purchased by eastern people and bring a good price.

Alfred Cadron, of St. Ignace, who some time ago was presented with a United States medal for saving several people from drowning at Bois Blanc Island, is now serving a six months sentence for breaking into a store.

A small saw mill four miles south of Sanford, on the Flint & Pere Marquette railroad, owned and operated by H. J. Yates & Son, of Saginaw, was totally destroyed by fire early Thursday morning. Loss \$2,000. No insurance.

Marie Trombley, who last winter filed the charge of the illegitimate parentage of her babe against "Little Jake" Seligman, of Saginaw; has left town with her parents. Before she left she wrote a letter to Jake, asking him to meet her. She also told her attorney to drop the case.

Joseph Ottley of Au Sable was quite badly injured Thursday while at work in the Loud Co.'s cedar yard. A log rolled from the top of a pile, striking him on the back of the head. Mr. Ottley was unable to speak for several hours after receiving the blow. He will be laid up for some time.—The Press.

Dr. Fraser extracted the ball and reports the boy on the mend.—Roscomman Democrat.
