An item is going the rounds of the press to the effect that whisky is being manufactured out of old rags. We see nothing remarkable about this. Every one knows that nearly all the old rags in the country are manufactured out of whisky, and there is no apparent reason why the process of conversion may not work as well from rags to whisky as from whisky to rags.

Sheep killing dogs got into the flocks of John Preston, and Chas Wright, of this township, Monday, killing one and wounding four for Mr. Preston and killing three and wounding one for Mr. Wright. We understand supervisor Murphy has taken the necessary steps to adjust the same, and further that all dogs in the township be assessed and the tax collected.

"Address no stranger or allow no stranger to address you," is the advice of the chief of the Chicago detective force to all visitors. He adds: "The price of safety in this city at present is to keep your mouth shut in the presents of those you do not know. If you want to know anything wait until you see a policeman. It is probable that Chicago is the most unsafe place in the world just now, to make chance acquaintances."

An exchange prints this prescription for getting rid of flies: A half teaspoonful of black pepper, finely ground, mixed with double the quantity of brown sugar, the compound to be moistened with cream. The flies will generally eat greedily of the mixture, if placed where they can easily reach it, but it will be their last meal, for the least bit of it to a fly is rank poison. If watched they will often be seen to drop dead within a few feet of the plate which they have just left, and some of the heartiest eaters do not live to leave the plate.

Smoke the "A. S." cigar. Pure Havana. Manufactured by A. Schill, East Tawas.

The Saginaw Courier-Herald of June 16, says: "The crowds who attended Wixom's show yesterday afternoon and evening got the full worth of their money! It must have taken much patience and skill to have trained, so well, horses, dogs and goats to make them so obedient to the master's will as those of Mat Wixom's. The gymnasts, acrobats and jugglers are marvels to behold." This great 25 cent railroad show will exhibit at Tawas City next Monday.

About four o'clock last Sunday afternoon the large barns on the farm of Barney Blust, about two miles out on the Meadow Road, were burned together with a fine team of horses, and some other stock, and nearly all his farming machinery, including self-binder, mower, etc., The loss will amount to fully \$2,000 with no insurance. The fire was started by a young son of Mr. Blust's who was playing with matches. Mr. Blust and wife were away from home and did not return until the barn was in ashes. The loss is a severe one on Mr. B., who is one of the most enterprising hard working farmers in this township. He has the sympathy of all.

Countless items of news are lost to the newspaper by the modesty of people who hesitate to tell a reporter of matters concerning themselves, not because they do not want it to appear in print, but are afraid some one will think they are pushing themselves forward. Such an idea is wrong. From a reportorial standpoint the man who stops a newspaper man on the street and kindly informs him that he has been to Chicago, that he is going to get married, or that his wife is entertaining friends from a distance, is the dearest man on this mundane sphere. Would that his like was on the increase throughout this broad land.

A Pioneer Society.

What Tawas City should have is an organization of our older citizens—a pioneer society. This is a matter which has been talked, but no effort has been made toward organizing. There are a large number of citizens hereabouts who have served many years of hardships, and some very interesting stories can be told of the early history of Tawas City. Old citizens have seen it grow from a handful of people into a thriving city. They have seen the woods which surrounded the place disappear and the country develop into the finest farms in the state. They should organize themselves into a society and hold meetings once a year where the pioneers could renew acquaintances and talk over old days. Set the ball rolling gentlemen; and let's see a good organization here at once. It only needs a starter.

WAKE UP!

A CITIZENS' MEETING IS WHAT SHOULD BE HAD AT ONCE.

Golden Opportunities are Passing By.

"What the citizens of Tawa, City should do," said a prominent Bay City contractor to the Herald a few days ago, "is to hold a citizens meeting and make a bid for some of the numerous mills which are now looking for new locations. Tawas City has all the natural advantages and only needs a little enterprise to make it THE town on the Huron shore."

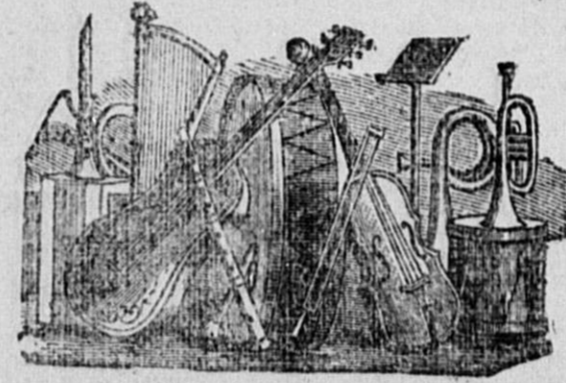

During the past few weeks the HERALD has had the opportunity of talking with several gentlemen connected with several large manufacturing industries now located in the central and southern part of the State, and finds they are very anxious to locate on the lake shore where they can take advantage of cheaper transportation, and the great question now before us is why can Tawas citizens afford to hold back when only a little energy and perhaps sacrifice at first, on the part of every citizen, would in the end bring permanent improvement with the increase of labor and industry, in offering some inducements to one or more of the industries to locate here.

Every one of the two thousand persons now located in Tawas City would rejoice to see the city push ahead. How is this to be brought about? Certainly the outcome will be nought if we leave all for our neighbors to plan, and look on in amazement and criticize every point named.

Tawas City has now reached the point where it can offer outside parties inducements to locate here. During the past two or three years the city has let many things pass by that would greatly improve our pleasant and well located plan for business, but simply because our citizens have stood bravely under the burden of taxation and further tax for outside booms would not seem fair. Now that we have reached a resting place, let us do what we can for our own benefit and improvement.

Does not every citizen in Tawas City enjoy seeing a large stately passenger or freight vessel steam proudly into our harbor, for what does it represent? More labor for our citizens which, of course increases the capital as well. But again difficulties confront us, for we have not the inducements to offer the different transportation companies; if our docks were extended fifty or sixty feet so the larger boats could gain ready access to our port, then arrangements could readily be made with the different steam navigation companies, whose boats are to large to make this port with the present facilities our dockage afford them.

Many things present themselves to the HERALD which if taken up, and improved would greatly better our business as well social interests. This can not be done unless every citizen shows an interest in every improvement, and when all unite something will be accomplished for in unity their is strength

OBITUARY.

In the providence of God, Alexander Fuller Brown has been taken to his final rest, and Baldwin Lodge F. & A. M. of East Tawas, with Tawas City Lodge, thus recorded their appreciation of their brother's worth and life.

Mr. Brown was born at Durham, Canada, April 1856, and spent the first thirty years of his life in that country, chiefly in Montreal. He came to Michigan twenty-six years ago, residing in Flint and Holly. He then removed to Tawas in the service of Mr. Cameron, millman, and later with Mr. Hale. He was with Mr. Hale, the proprietor of the D. B. C. & A. R. R., which was at first a logging line. He joined the railway service and faithfully served it for the last eleven years of his life.

Mr. Brown was a gentleman of great general intelligence, of obliging manners and fidelity in all he undertook. He was always at his post when needed. He regarded the interests of his employers of greater importance than his own, and in him the railroad has lost one of its most faithful employees. He was naturally kind hearted and generous, and whatever was for the general benefit of the people, he was ready to take part in. He became an entered apprentice in St. Lawrence Lodge, Montreal, No. 640, F. & A. M., in the year 5685, and was raised to the Masters' degree Sept. 27th, 5870. He was a visiting member both of Baldwin and Tawas City Lodges, and took an interest in all Masonic work. Of the Protestant Episcopal church he was a devoted member and earnest worker. He was a true Christian and his death was a Christian's death. We mourn his death, but cherish his memory in our hearts. We rejoice in his faith in a risen Saviour, and in the hope of a better life beyond.

"Forever with the Lord,
Amen, so let it be;
Life from the dead is in that work,
'Tis immortality."

By order of Baldwin Lodge, with Tawas City Lodge, F. & A. M., the above is transmitted to his mother lodge, a copy sent to his widow, and also published in the local papers.

Sherman News.

The saddest event in the history of the township of Sherman occurred about six o'clock Saturday evening, June 24. It was the sudden and unexpected death of young Mathias Schneider. First affected with the mumps, malaria fever set in, his heart became affected, and in a short time death swooped down upon him. The doleful news spread rapidly and at its sound and echo the neighborhood were shocked, sorrow touched the heart of every one, and tears flowed from the eyes of young and old. The admired one was uncommonly bright and intelligent, possessed a very friendly and devoted disposition. Although a country boy in his 23rd year of age, he acquired good common education. He taught our schools with great success for several terms. He held the office of township clerk for two years, with ability and distinction. He was a natural born artist, he was an educated and scientific artist and controlled over 300 colonies of bees. Mr. Schneider displayed good business talent, was modestly ambitious and fast becoming a figure in local politics. He was modestly and earnestly striving to ascent the mount of fame. He leaves father, mother, five brothers, four sisters and a large circle of relatives to mourn his loss. The crowning pride and joy of his family and relatives, a gem in society and an admiration to all acquaintances, many years will have gone by before the memory of Mathias Schneider will grow dim.

H. N. Laird of Reno township, has purchased a couple of windmills, which will soon be erected at his farm, to take their place among the many other improvements which are being constantly added to the premises.

Some of our people have already commenced haying, and report a heavy crop, even exceeding that of last year. All farm crops in this vicinity are in excellent condition, a fact which is not at all surprising when we consider the quality of the land.

Our physician, Mr. Ludlum, is moving from here to take up his abode in some other burg where he expects to find a more inviting prospects. May success attend his efforts of the genial Dr.

Speaking of doctors, Whittemore is now without one and I beg permission to inform the public that there is room here for a good physician, one who is wide awake and well versed in physic. No quacks need apply.

Reno News.

(Received to late for last week.)

Hay, wheat and fruit promises a dandy crop.

Nearly all our people are getting out a tan bark.

A new girl in Burleigh. She is at George Hunts. Has not been weighed yet.

Washburn and son have bought a very fine colt and are now teaching it to draw a top buggy. Get there Ern.

E. Crego has bought another three year old colt, making him two good teams—what a man has to have when he has 75 acres of land to till.

From three to five livery stables in Whittemore. That is the place to get a rig cheap. Howard has added a fine three year old colt to his livery.

School closed on the 23d inst. in District No. 3, with a grand picnic, after a very successful term of four months. Miss Sarah McLennan, of Tawas, has been teacher and gave the best satisfaction.

Mr. Duplanty takes the government lines at Whittemore. Mr. Colvin says he is not sorry, as he has a good business. He has a big store well filled and sells cheap. What more can our people ask.

J. W. Balcom has gone to the far north to make preparations for moving his shingle mill to Ishpeming, where he has bought a big tract of pine. Good luck to you J. W. You have been a good citizen and we are sorry to lose you.

Neighboring Notes.

Edward E. Hartwick, of Grayling, is the only Michigan student to graduate from the West Point military academy this year.

Sam Solomon, late of this city, is in luck. He has secured a position at \$2,500 a year for a pants factory at Ludington as head cutter and has also become engaged to the daughter of the head of the institution, a Miss Mendleson.—Monitor.

In the suit at Harrisville of S. J. McNally against Geo. L. Colwell to recover the value of his lumber, destroyed by fire in 1888 while piled upon defendant's docks, a jury has returned a verdict for plaintiff for \$3,448, which represents the full value of the lumber and interest at 6 per cent from the date of the fire.

Grayling Democrat: Wm. Morrison, the trunk thief, who was sent from this county in January, 1893, to the penitentiary at Jackson for a period of three years, scaled the prison walls on Sunday night and made his escape. A reward of \$50 is offered for his capture and return. Those who were present in the court here when Morrison received his sentence will now call to mind his significant remark to the Judge, to wit: "I will never serve my sentence out."

James G. Wheeler who sufficiently recovered from a fall from the M. E. church steeple, to be able to oversee the moving of Davis's harness shop building, was standing near the building Thursday afternoon, when the building gave a sudden jolt tipping over a chimney, several of the brick striking him on the head. At this writing he lies in Dr. McGurk's office, apparently in a dangerous condition. Mr. Wheeler is indeed unfortunate and is justly entitled to the sympathy of all.—Standish Independent.

It is estimated that between 50,000 and 75,000 fruit trees have been set out in the different counties on the Huron shore north of Saginaw Bay this spring, principally plum, apple and pear. Investment in fruit in this section is certain to bring large returns, and people are evidently coming to this conclusion. The indications now are that in a few years northern Michigan will be the finest fruit country in the entire northwest. Every man who is so situated that he can afford it should secure a piece of land and set it out in fruit.—It will pay.—Alpena Pioneer.

ALPENA, Mich., June 26.—The Moltor cases were on call when the circuit court opened this morning. Judge Kelly ordered a new panel of 24 jurymen to be drawn and report to-morrow at 10 a. m. Atty-Gen. Ellis is on hand, and it is probable that all of the famous cases will be cleared away this term. August Furman will be the first one to stand trial. Ropke, who gave the thing away on the start, is still confined in the county jail. The trial of Furman promises to be as interesting as that of Grossman. Attorneys Burnham and Emerick will appear for Furman, and Ellis and McNamara for the people.

The entertainment given in the Masonic block last Wednesday evening, under the auspices of the Girl's Friendly society, of St. John's church, was a decided success. The artistic way in which the hall was decorated reflected great credit on the decoration committee, the Arctic booth where ice cream was disposed of being one of the most attractive features. The collection of antiquities and curios was really very good, and the ladies wish to heartily thank those of the townspeople who so kindly lent their treasures. The program consisted of a series of tableaux, vocal and instrumental music. Professor C. R. Lingle, of East Tawas, deserves special mention for the excellent way in which he rendered his selections on cornet and mandolin.—Au Sable Monitor.

Last fall Frank Arthur made an attempt to secure a flowing well at his hotel in Rose City. A pipe was sunk, and considerable time was spent in trying to get a flow. All attempts were in vain however, and the job was abandoned. Last week work was again commenced to secure water, and the result was almost fruitless, only a small flow being obtained. Last Saturday night while all were asleep, Mr. Arthur was awakened by a peculiar sound in the rear of the house. He went out to investigate, and the sight which met his gaze was astonishing. The pipe—a two inch one—which had been sunk for water had been sending forth a column of water several feet above the service, and with a quantity of small stones and gravel making a noise not unlike a small geyser. Mr. Arthur was jubilant over his find. He thinks there is sufficient force to send the water all through the hotel, and will have the same piped at once. A well of this kind is worth hundreds of dollars to a building of this kind.—West Branch Herald-Times.
