Many people are asking why Capt. F. G. Appley, of Pawtucket, R. I., who is rowing to the World's Fair in a boat weighing only 28 pounds, came 300 miles out of his regular course in order to land at this town? It was because he learned of T. Simon's popular prices, and came to purchase a pair of shoes. Few business men are so well known as that enterprising merchant.

Fans should be used with moderation. A church-goer contracted rheumatism from sitting in the next pew to a lady who is in the habit of fanning herself violently. The patient declares that he is the victim of fan articism.—Ex.

Here is a conundrum that a lady asked the other evening: "Why is the wind blind?" And here is the answer she gave after everybody acknowledged their inability to guess it: "The wind is a breeze; a breeze is a zephyr; a zephyr is a yarn; a yarn is a tale; a tale is an attachment; attachment is love and love is blind." Do you wonder no one solved the puzzle?—Ex.

Birt Livingston land lord of the hotel at Alabaster has leased the Commercial house at Grayling and will move to that place in a few days. Birt has a large circle of friends in this vicinity who regret exceedingly his departure, and who will join the HERALD in wishing him success in his new field. Mr. Livingston thoroughly understands the hotel business and will give the citizens of Grayling a first class house.

Last Sunday the house of Wm. Duby, situated on the Bay Shore, about three miles south of this village, was destroyed by fire. It is supposed that the fire was

started by Mr. Duby's little two year old son who got hold of some matches. Mr. Duby only succeeded in saving a portion of his household effects, which was on the lower floor. His loss will reach between four and five hundred dollars, with no insurance. The loss is a severe one on Mr. Duby.

A number of changes were made yesterday in the force of the propeller Lora. Will Putnam, who has been with the steamer Metropolis all summer, has been appointed steward, and Pat Haggarty, porter. Dunk Lewis is now clerk, a position which he filled acceptably on the Metropolis and Arundel for many years. The appointments are good ones and will be satisfactory to patrons of the line. All are Bay City men.—Bay City Tribune.

The double or reply card in use will be continued with the size folded reduced to that of international cards. These two cards will take the place of the small or ladies' card, the medium and the large card and the large return card.

A perfect town is that in which you see the farmers patronize the home merchants, the merchants advertise in the local papers, the laborers spend the money they earn with their own tradesmen, and all animated by a spirit that they will not purchase articles abroad if they can be purchased at home. The spirit of reciprocity between business men and laborers, farmers and manufacturers results every time in making a town a satisfactory one in which to do business.

While the W. S. & L. Co.'s mill was closed for repairs on their battery of boilers, Mr. W. M. Webster who operates the stove and heading mill, was called up to Mr. John W. King's shingle mill to do some repairs and adjust his shingle machinery. At this business Mr. Webster has served his apprenticeship. He has returned to his post of duty here, after leaving everything in first-class working order to the satisfaction of Mr. King.

If you have a sign over your door you are an advertiser. The sign is intended to advertise your business to passers-by. An advertisement in a reliable newspaper is only so many thousand signs spread over a great many miles. You can't carry everybody to your sign, but the newspaper can carry your sign to everybody. The wide awake business men realize this, and the man who constantly keeps his sign before the

thousands is the man who does the business, because he invites the thousands to come and do business with him and they appreciate the courtesy.

Saturday, Aug. 5th '93, marks the 16th anniversary of the organization of the of the Cong'l Church of Tawas City, and a quarter of a Century since the first public prayer meeting, the first Bible class, and the organization of the first Church in Tawas City. Lyon a former Pastor will deliver the anniversary address, and it is expected that several who were formerly connected with the Church will be present, either in person, or by letter. The religious history of the Tawas will be present by an early pioneer, and many valuable, and interesting reminiscences will be given. All are cordially invited to attend at this a matter of interest to all.

## Keating Case.

One of the most important cases ever before the courts of this county will probably be tried in the circuit court, next week. On the 24th day of September, 1891, the "Cannon Ball," Loon Lake train was derailed at the switch near Hales Station, on the D. B. C. & A. R. R., and Thomas Keating a passenger was seriously and permanently injured. An account of the wreck was given in the HERALD at the time. A log on one of the log cars of the train, rolled off and hit the block of the switch, which broke the switch and threw it open, and three of the log cars and the passenger coach were thrown from the track. One of the rails was driven up through the bottom of the coach and struck Keating on the chest and head, five of his ribs were broken and his head and spine injured. He had a narrow escape from instant death and was permanently injured. He brought suit for \$50,000. The attorneys engaged in the case are Chas. A. Jahraus, of Tawas, M. J. Connine, of Au Sable, and Hon W. H. H. Russell, of Detroit, for plaintiff. For the defense, A. M. Henry, Col. Atkinson, of Detroit, and Judge Kelly, of Alpena.

James Collins, formerly editor of the Alpena Journal, has been admitted to the bar at Alpena.

Charles Woods, of West Branch, is running camps, cutting and putting logs into Twin Lakes for Bliss & VanAuken, of Saginaw, and the Smalleys, of Bay City. He says he has 10,000,000 feet in the Lakes. Bliss & VanAuken have 40,000,000 feet and Smalleys 25,000,000 to cut, all of which will be railed to the Saginaw river.—Saginawian.

Judge Sharp holds the first term of court, a special one, in his district at Gaylord on August 15. Then comes a special term at Grayling a week later, followed by the regular terms of Arenac and Rosecommon counties, so that it is not likely we will have any court in this county until the regular October term.—West Branch Democrat

Tommy Brown, an Au Sable boy, 10 years of age, was drowned in Penoyers' Bayou in front of the mill, although he had been warned of the danger by a workman in charge. The latter was temporarily absent after a drink of water, and when he returned the boy's hat was floating in the bayou. The body was recovered about three-quarters of an hour later.

W. W. Richardson, of Marquette, returned to Bay City this morning from Cleveland, where he has been looking over the lumber market. He reports the business very quiet, and predicts it will be more so before it brightens. The prices in the Marquette country are lower than last January but no lower than a year ago. Manufacturers who find no demand, think there is nothing to gain by cutting rates.—Bay City Tribune.

A gentleman claiming to represent the Harper Publishing Co., has been in town for a week past, making historical researches. He made trips through this and adjoining counties, locating and investigating old forks and indications of ancient habitation. He claims to be preparing a work for publication, and when finished will be a book containing much valuable information concerning the earlier inhabitants of the American continent, and useful as a reference work.—West Branch Herald Times

Several days ago a large number of suits were commenced in justice courts at Bay City and at Midland against people who had signed notes for a bonus for the Bay City and Battle Creek Railroad. The road was to be built through to Battle Creek, but the notes were all made payable when it was completed as far as Midland. Suit was commenced against some of the signers over a year ago, and they carried the case to the Supreme Court, where they were decided in favor of the holders of the notes.

## Michigan Crops.

Detroit, July 25.—The weekly crop report received to-day by the Michigan weather bureau says: Generally favorable weather has continued to prevail and no reports of any serious damage to any crop has been received. The farmers have been busy cutting, stacking and threshing oats and wheat. Some localities report a lack of rain during the week, but as rain would have retarded harvest work and damage all the hay unsecured, it probably was just as well that the week was dry. Potatoes still promise well, also garden struck and fruits.

In the northern section the past week has given fine growing weather and the crops in general are doing well. Haying is finished, except in the upper peninsula and is a

good crop, well secured. Wheat and oats are doing as well as can be expected, and corn is extra good in most localities. Potatoes are growing vigorously. Berry picking has begun and the outlook for a large yield is favorable. Fires have done some damage to crops in the vicinity of Marquette.

The weather in the central section the past week was all that could be desired for harvesting and farmers generally have been cutting, stacking and housing grain or hay. Corn is maturing fast under the influence of the warm weather. Rain is needed for pasture and root crops, although potatoes are not suffering yet.

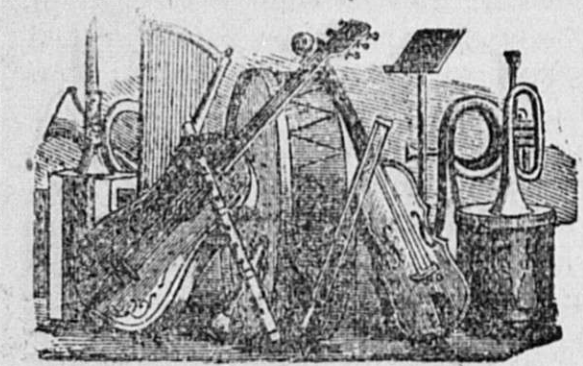

In the western part of Oakland county grasshoppers have done some damage, and clover and pastures need rain badly. Wheat and oats show rust in portions of St. Clair county, but not to any serious extent. Fruits are well advanced.

In all the counties of the southern section the week just passed has been a favorable one for farming operations. Occasional light showers would have been beneficial to corn, pastures and root crops. Timothy and clover have been hurt by drought and grasshoppers in Hillsdale and Lenawee counties. Harvesting has been rushed rapidly and most of the grain is stacked. Threshing has also been quite general. The quality is good and they yield in some counties nearly an average. Potatoes, celery and other root crops are reported in good shape, but needing rain. Beans have been injured by weevil.

# BALD HEADS

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

## SKOOKUM ROOT HAIR GROWER

Is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" contains neither minerals nor oils. It is not a Dye, but a delightfully cooling and refreshing Tonic. By stimulating the follicles, it stops falling hair, cures dandruff and grows hair on bald heads. Keep the scalp clean, healthy and free from irritating eruptions, by the use of Skookum Skin Soap. It destroys parasitic insects, which feed on and destroy the hair. If your druggist cannot supply you, send direct to us, and we will forward prepaid, on receipt of price. Grower, \$1.00 per bottle; 6 for \$5.00. Soap, 50c. per jar; 6 for \$2.50.

THE FLINT & PERE MARQUETTE RAIL AND WATER LINES offer the public a way to reach Chicago, that for comfort, far surpasses the all rail lines, to say nothing of the difference of fare in it favor, an item well worthy of consideration.

Passengers are landed in Chicago in the morning after a night's refreshing and invigorating rest in a commodious state room in a first-class steamship. The experienced traveler need not be told of the advantages of a rail and boat route, for summer travel, over the all rail route with its crowded, dusty sleeping cars, and very little thought on the part of the inexperienced, will convince him of the same. Ask you local ticket agent for rates and time of trains.

Many people are asking why Capt. F. G. Appley, of Pawtucket, R. I., who is rowing to the World's Fair in a boat weighing only 28 pounds, came 300 miles out of his regular course in order to land at this town? It was because he learned of T. Simon's popular prices, and came to purchase a pair of shoes. Few business men are so well known as that enterprising merchant.

Here is a conundrum that a lady asked the other evening: "Why is the wind blind?" And here is the answer she gave after everybody acknowledged their inability to guess it: "The wind is a breeze; a breeze is a zephyr; a zephyr is a yarn; a yarn is a tale; a tale is an attachment; attachment is love and love is blind." Do you wonder no one solved the puzzle?—Ex.

Birt Livingston land lord of the hotel at Alabaster has leased the Commercial house at Grayling and will move to that place in a few days. Last Sunday the house of Wm. Doby, situated on the Bay Shore, about three miles south of this village, was destroyed by fire. It is supposed that the fire was

A perfect town is that in which you see the farmers patronize the home merchants, the merchants advertise in the local papers, the laborers spend the money they earn with their own tradesmen, and all animated by a spirit that they will not purchase articles abroad if they can be purchased at home. The spirit of reciprocity between business men and laborers, farmers and manufacturers results every time in making a town a satisfactory one in which to do business.

While the W. S. & L. Co.'s mill was closed for repairs on their battery of boilers, Mr. W. M. Webster who operates the stove and heading mill, was called up to Mr. John W. He has returned to his post of duty here, after leaving everything in first-class working order to the satisfaction of Mr. King.

If you have a sign over your door you are an advertiser. The sign is intended to advertise your business to passers-by. An advertisement in a reliable newspaper is only so many thousand signs spread over a great many miles. You can't carry everybody to your sign, but the newspaper can carry your sign to everybody. The wide awake business men realize this, and the man who constantly keeps his sign before the

thousands is the man who does the business, because he invites the thousands to come and do business with him and they appreciate the courtesy.

## Keating Case.

One of the most important cases ever before the courts of this county will probably be tried in the circuit court, next week. On the 24th day of September, 1891, the "Cannon Ball," Loon Lake train was derailed at the switch near Hales Station, on the D. B. C. & A. R. R., and Thomas Keating a passenger was seriously and permanently injured. An account of the wreck was given in the HERALD at the time. A log on one of the log cars of the train, rolled off and hit the block of the switch, which broke the switch and threw it open, and three of the log cars and the passenger coach were thrown from the track. One of the rails was driven up through the bottom of the coach and struck Keating on the chest and head, five of his ribs were broken and his head and spine injured. He had a narrow escape from instant death and was permanently injured. He brought suit for \$50,000. The attorneys engaged in the case are Chas. A. Jahraus, of Tawas, M. J. Connine, of AuSable, and Hon W. H. H. Russell, of Detroit, for plaintiff. For the defense, A. M. Henry, Col. Atkinson, of Detroit, and Judge Kelly, of Alpena.

James Collins, formerly editor of the Alpena Journal, has been admitted to the bar at Alpena.

Charles Woods, of West Branch, is running camps, cutting and putting logs into Twin Lakes for Bliss & VanAuken, of Saginaw, and the Smalleys, of Bay City. He says he has 10,000,000 feet in the Lakes. Bliss & VanAuken have 40,000,000 feet and Smalleys 25,000,000 to cut, all of which will be railed to the Saginaw river.—Saginawian.

Judge Sharp, holds the first term of court, a special one, in his district at Gaylord on August 15. Then comes a special term at Grayling a week later, followed by the regular terms of Arenac and Roscommon counties, so that it is not likely we will have any court in this county until the regular October term.—West Branch Democrat

Tommy Brown, an Au Sable boy, 10 years of age, was drowned in Penoyers' Bayou in front of the mill, although he had been warned of the danger by a workman in charge. The latter was temporarily absent after a drink of water, and when he returned the boy's hat was floating in the bayou. The body was recovered about three-quarters of an hour later.

W. W. Richardson, of Marquette, returned to Bay City this morning from Cleveland, where he has been looking over the lumber market. He reports the business very quiet, and predicts it will be more so before it brightens. The prices in the Marquette country are lower than last January but no lower than a year ago. Manufacturers who find no demand, think there is nothing to gain by cutting rates.—Bay City Tribune.

Save days ago a large number of suits were commenced in justice courts at Bay City and at Midland against people who had signed notes for a bonus for the Bay City and Battle Creek Railroad. The road was to be built through to Battle Creek, but the notes were all made payable when it was completed as far as Midland. Suit was commenced against some of the signers over a year ago, and they carried the case to the Supreme Court, where they were decided in favor of the holders of the notes.

Michigan Crops.

Detroit, July 25.—The weekly crop report received to-day by the Michigan weather bureau says: Generally favorable weather has continued to prevail and no reports of any serious damage to any crop has been received. The farmers have been busy cutting, stacking and threshing oats and wheat. Some localities report a lack of rain during the week, but as rain would have retarded harvest work and damage all the hay unsecured, it probably was just as well that the week was dry. Potatoes still promise well, also garden struck and fruits.

In the northern section the past week has given fine growing weather, and the crops in general are doing well. Haying is finished, except in the upper peninsula and is a

good crop, well secured. Wheat and oats are doing as well as can be expected, and corn is extra good in most localities. Potatoes are growing vigorously, Berry picking has begun and the outlook for a large yield is favorable. Fires have done some damage to crops in the vicinity of Marquette.

The weather in the central section the past week was all that could be desired for harvesting and farmers generally have been cutting, stacking and housing grain or hay. Corn is maturing fast under the influence of the warm weather. Rain is needed for pasture and root crops, although potatoes are not suffering yet.

In the western part of Oakland county grasshoppers have done some damage, and clover and pastures need rain badly. Wheat and oats show rust in portions of St. Clair county, but not to any serious extent. Fruits are well advanced.

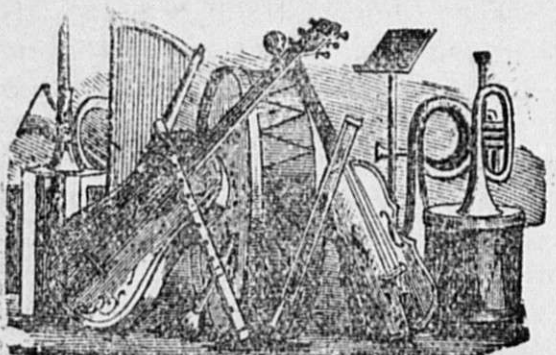

In all the counties of the southern section the week just passed has been a favorable one for farming operations. Occasional light showers would have been beneficial to corn, pastures and root crops. Timothy and clover have been hurt by drought and grasshoppers in Hillsdale and Lenawee counties. Harvesting has been rushed rapidly and most of the grain is stocked. Threshing has also been quite general. The quality is good and they yield in some counties nearly an average. Potatoes, celery and other root crops are reported in good shape, but needing rain. Beans have been injured by weevil.
