M. Murphy received his commission as postmaster for Tawas City, last Saturday, and will take possession of the office Oct. 1, that being the commencement of a new quarter. The citizens of this village can depend on Mr. Murphy giving them first-class service. It is very amusing to see how much some people in the county know about the issuing of post office commissions.

Counterfeits of the new quarter dollar are in circulation. They have a fairly good ring, but can readily be detected by the unfinished condition of their rims, the milling of which is imperfect and which are noticeably smaller than those of the genuine coin.

CARD OF THANKS—To the many kind friends and neighbors, who kindly assisted us during the illness of our mother, Mrs. Marcellia Stiles, we wish to return our most sincere feeling of gratitude.

Respectfully,

MR. AND MRS. FRANK WOODS.

An exchange tells of a woman who bought a new-fangled coffee pot from a pedler. In the evening she showed it to her husband, a hardware dealer, who told her he kept the same thing in his store for half the price she paid. "Well," said she, "why don't you advertise? Nobody ever knows what you have for sale."

E. D. Schermerhorn, the carriage painter, of this village, will have a fine exhibit of carriages, buggies, and cutters at the fair next week. Mr. S. can supply you with anything in the line of vehicles, etc., that you may want. If you have a rig that needs a coat of paint he will do it for you in first-class style and at reasonable rates.

Next Wednesday and Thursday occurs the annual fair of the Iosco Co. Agricultural society. Everything promises a first-class exhibit, and one that should be patronized by every citizen of the county. The county fair is the place for farmers to obtain a large amount of practical knowledge by examining the products of others, and exchanging ideas. Don't miss the fair.

Among the exhibits at the fair next week will be the patent window scene of C. D. Bennett and L. I. Halsey. This is beyond doubt the neatest arrangement in the shape of a window screen yet invented. It must be seen to be appreciated. These gentlemen have spent much time on this invention and can have the consultation of knowing they have the best on the market.

On Saturday evening last the home of Rev. and Mrs. S. G. Taylor was raided by the members of the Eworth League. The occupants thereof were completely taken by surprise and at once surrendered, turning their pleasant home over to the invaders for the time being. The Leaguers at once began to make merry and it soon became

evident that their invasion was for no desperate purpose. They had come simply to show in a slight degree the high esteem in which they hold Mr. Taylor and his estimable wife. Before their departure as a token of remembrance and appreciation, Mr. T. was presented with a fine suit of clothes and Mrs. T. with a pair of silk mittens and fifteen dollars in money.—Grayling Democrat.

John August Benson, who was sent to Jackson prison last December, from this county for the murder of Olson, at Au Sable, killed himself last Friday, by cutting the jugular vein with a small knife. When discovered the body was cold and life had departed six hours before. He went to bed as usual and covered his head with his blanket. A ghastly sight was presented when covering was removed. The knife was clutched in both hands and embedded in the neck.

The Detroit conference of the M. E. church which closed Tuesday made the following appointments which will be of interest to our readers: Presiding Elder of the Bay City district, W. Woodham; Tawas City, N. E. McLean; East Tawas R. L. Cope; Grayling, S. G. Taylor; Gaylord, H. Culver; West Bay City, 4th Ave. church, W. H. Allman; Oscoda, F. L. Osborne. Rev. Castor goes to Midford, and Rev. C. B. Steel, Woodward ave. church, Detroit; Rev. L. Wingle, of Au Gres, goes to Indian River.

The following from an agricultural exchange will be of interest to many of our farmer readers who have got stumps to get rid of: "With one-and-a-quarter inch auger bore a hole in the middle of the stump, making it eighteen inches deep; put in twenty ounces of salt-peter, fill the hole with water and plug it tightly. In the spring take out the plug, pour into the hole a half pint of crude petroleum and set it on fire. In such a way the actual working time consumed in destroying twenty-five stumps will be only two or three days.

Saturday last, in the Wilber settlement, Barney Long done some good work with his steam thrasher. In seven hours and moved his machine and set twice, he thrashed 700 bushels of grain. 380 being for James Symes, and 320 for James Merrick. The following practical men are in charge of the machinery: Martin Long, engineer; Anson Monaker, feeder; Will Long, on separator; and Barney, the prop., is chief.

Fred W. Latham's steam thrasher done some good work in Alabaster township, Saturday last. In 3 hours and 38 minutes, they set the machine twice and thrashed 500 bushels of grain. Joseph Martin, 260 bushels and Collie Johnson, 240. The following men are in charge of his machine: Ed. Irish, engineer; John Gerard, feeder; Guy Latham, separator; Fred W. keeps his eye on the boys.

We have no report as yet this season, from Frank Chamber's steam thrasher. But we learn it is doing first-class work in this township and vicinity.

WONDER if there are any republicans now who believe that the democrats are afraid to tackle that hydra-headed monster of iniquity—the tariff.

FROM the amount of wind that Peffer can put in circulation during a session of the Senate he must have a young Kansas cyclone concealed somewhere about his person.—Free Press.

SENATOR Sherman took a needless bit of trouble when he denied having eulogized President Cleveland. Everybody knows that Senator Sherman eulogizes only one man—John Sherman.

SOME of those who appeared before the House Ways and Means committee at Washington would better have remained away, so far as their personal interests are concerned. They gave protection dead away.

SECRETARY MORTON is a believer in democratic economy in government expenditures. His estimate of the amount needed to run the Agricultural department during the next fiscal year is \$367,000 less than Secretary Rusk's last estimate.

THE republicans made a bold attempt to frighten the democrats of the House into letting the Federal election laws alone. But it was no go; those iniquitous laws must be gotten rid of, and the democrats in the House know that the work cannot be done to soon.

THE committee on banking and currency has authorized a favorable report on a bill prohibiting the officers of national banks from borrowing money from the banks with which they are connected, except when their loans and securities which they offer have been passed upon and agreed to buy a year and nay vote of the directors.

THERE is plenty of wheat, corn, oats, potatoes, cotton, pork, beef and other produce in this country, but so little money, that everybody is suffering from hard times, and a vast number of working men are out of employment. It should be remembered, however, that every financial law on our statute books was placed there by republicans.

THE opening of the Cherokee strip was dearly paid for with sacrificed human lives, each life dear to someone and each heart palpitating to the last with hope of increased prosperity in the new territory. There is an object lesson in the deaths of these victims of "man's inhumanity to man." They show us how thin the veneer of our civilization is.

EX-SECRETARY Charles Foster certainly exhibited "gall" when he wrote to Secretary Carlisle requesting him to overlook a "little indiscretion" in the shape of his having assigned a U. S. Treasury agent to work at the New York republican headquarters, during the Presidential campaign, while drawing a government salary. If Mr. Foster calls money from the government under false pretenses a "little indiscretion" it would be interesting to know what he would call an old-fashioned highway robbery or burglary.

IT is no longer necessary to urge people to go to the world's fair. They are going in an ever-increasing flood. Those who braved the heat and went earlier had a much better opportunity for seeing the exhibits and studying them with profit. Those who go now have more comfortable weather but less comfort in the crowded buildings. But the people themselves are a sight and every day has its special show

to attract sightseers, and no matter how great the crowd they cannot obstruct a view of the buildings, which would be well worth all the travel and cost had there been nothing else to see.—Times Press.

JAMES K. WRIGHT of Grayling, has been appointed receiver of the U. S. land office, at that place. This is an appointment that will give universal satisfaction to the democrats of this section of Michigan. Mr. Wright is one of the most energetic, hardworking democrats of the 10th congressional district. He was Register in the same office under Mr. Cleveland's last administration and was an efficient, painstaking officer. It will be a relief to those who have business to do at the land office to know such a man is again installed there. During the past four years the affairs of this office have been conducted in anything but a satisfactory manner.

## The True Doctrine.

President Cleveland, in his letter of acceptance last year, defined felicitously what McKinleyism is, when he said:

"The dogma is now boldly presented that tariff taxation is justifiable for the express purpose and intent of thereby promoting special interests and enterprises. Such a proposition is clearly contrary to the spirit of our Constitution, and so directly encourages the disturbance by selfishness and greed of patriotic sentiment that its statement would rudely shock our people if they had not already been insidiously allured from the safe landmarks of principle."

The purpose of a tariff is revenue. John Sherman once made the remark that it would be impossible to lay a tariff for revenue that would not afford sufficient protection to American industry. McKinleyism sacrifices revenue to protection: the true tariff doctrine of our day, in adjusting duties for revenue affords protection. We have no doubt that in ending the reign of McKinleyism in law, thus will be remembered. Gen. Garfield, another distinguished Republican, declared that he favored protection as an agency to bring about free trade. Cleveland and Sherman and Garfield are all really in unison on this point, and are all against McKinleyism.—Boston Herald.

## Protected To Death.

To every intelligent and careful observer it is plain that our highly protected industries are suffering the most, and the degree of protection is a very accurate gauge of their depression. The wool and woolen industry is protected the highest and is the dearest of the lot. Iron is heavily protected at all stages from the crude ore to the finished product and is terribly depressed. Charles T. Davis calls attention in the Chicago Herald to the fact that the least protected industries, especially those that have free raw materials, are the most prosperous. Look at the leather industry—it has free hides, free raw materials. Look at the paper industry—it has free rags and other raw materials. Look at the silk industry—it, too, has free raw materials. Do we hear of the terrible collapse of these industries such as are occurring in those "protected" by special class legislation? No these three industries are firm and solid because they are now conducted on a rational basis, and the rational basis of all business in this country must eventually be that of absolute freedom of trade. Freedom for the manufacture to buy his raw materials in any and all the markets of the world and hence be able to manufacture his products so low as to be able to sell them in every clime where the people have the means to pay for such products and the desire to consume them. The time has now come when the government must take its hands from off our manufacturing industries and cease to be a paternal government. People must recognize the fact that "protection" in any and all of its forms is robbery pure and simple—robbery of the many in the interest of the few, and that while this plundering is conducted not openly, but insidiously, that it is nevertheless pillage. A "protective" tariff increases the cost of living, decreases the purchasing power of money, invites financial

crisis and engenders industrial depression, thus throwing tens of thousands of men out of employment and inviting poverty, crime and death. It is the most cruel because the most secret form of robbery ever devised by unholy greed and support by cowardly avarice—unholy because it violates the golden rule and cowardly because it seeks the protection of law for its gratification.—Jackson Patriot.

## To The Public.

PETOSKEY, Sept. 15, '93.

Owing to misunderstanding and difficulty that has already arisen on account of the wording of Act No. 186 of 1893, the following explanation will be of interest:

The act purports to amend Act No. 159 of 1891 so as to forbid fishing "in any of the inland lakes and streams of this state" in any manner except with hook and line. But it only amends section one of the law 1891, without changing its title, which is: "An Act to regulate the taking and catching of fish in the inland lakes of this state," instead of "inland waters," as incorrectly given in act of 1893. The old title therefore still remains as the title of the law, and as the provision of the Act of 1893 in regard to streams is not expressed in that title, it is contrary to Art. IV, Sec. 20 of the Constitution of Michigan.

I therefore hold that where there is no local act, fishing in streams is still governed by section 4 and 5 in the general fish law, Act 111 of 1893, which permits the spearing of certain fish in streams, and also taking them with dip net.

The mistake was evidently due to an attempt in the closing hours of the session to change Senator Mear's bill relative to Clam Lakes into a law governing the whole state.

## State Crop Report.

The past week has made a noticeable improvement in the crop condition of the northern and central sections, in the southern section the rains have been too light to make any material difference. The output of fruits has been very large thus far and will probably continue so until the end of season.

Northern section—Reports from correspondents this week indicate that the weather has been favorable for crops and pastures. Heavy rains have softened the ground and put it in shape for plowing. Late potatoes have been benefited in some localities. Pastures show a decided improvement. Corn and buckwheat are about all cut, and farmers are digging potatoes. In some of the counties of this section the yield of potatoes are very good.

Central section—A general improvement in crop conditions has occurred during the past week, owing to the soaking rains and warmer weather. Pastures are beginning to show green again, and garden vegetables, potatoes, onions and turnips have been benefited.

Corn husking has been general and a large amount of potatoes and other vegetables have been prepared for the market. Heavy shipments are being made daily of peaches and other fruits and grapes are about ready for market. The ground is about ready for plowing in all counties.

Southern section—Farm work is still backward in this section. Little or no seeding has been done, except in Berrien County where it is well advanced, and in most counties the ground is still hard. Some corn husking has been done and yield reported light. Pastures show a little improvement.

Pears, plums and grapes are being marketed.

In some localities farmers have delayed seeding on account of the fly.

The bean crop is about harvested.

## A Little Daughter

Of a Church of England minister cured of a distressing rash, by Ayer's Sarsaparilla. Mr. RICHARD BIRKS, the well-known Druggist, 207 McGill st., Montreal, P. Q., says:

### Wonderful Cures

I have sold Ayer's Family Medicines for 40 years, and have heard nothing but good said of them. I know of many performed by Ayer's Sarsaparilla, one in particular being that of a little daughter of a Church of England minister. The child was literally covered from head to foot with a red and exceedingly troublesome rash, from which she had suffered for two or three years, in spite of the best medical treatment available. Her father was in great distress about the case, and, at my recommendation, at last began to administer Ayer's Sarsaparilla, two bottles of which effected a complete cure, much to her relief and her father's delight. I am sure, were he here to-day, he would testify in the strongest terms as to the merits of

Unless your envelope states the number of days you wish your letter held, the postmaster, by new ruling, will hold them 30 days instead of 10. This is important to business men who do not want their letters when not delivered, detained over five or ten days.

The city papers are all right if you want them, but it is the local paper that advertises your business, your schools, your churches, your numerous societies, sympathies with you in your affliction and rejoices with you in your prosperity. In short it is your local paper that mentions the thousand and one items in which you are interested during the year, and which you do not find in the city papers.—Ex.

Lawrence Wild, of 1415 Smith street, this city, was locked up by the police last evening, a warrant for his arrest having been sent here from East Tawas. The complaining witness is a woman of Tawas, who charges Wild with having stolen a dog belonging to her. The woman keeps a house of questionable character and the dog was stolen while Wild and several other men were at the place a short time ago. The dog in question is a little rat and tan, for which Wild says he would not give over 50 cents, but the woman says she valued the canine at \$100 and will see to it that the guilty party is punished for the suffering she has experienced because of the separation. The sheriff of Tawas has been notified of Wild's arrest and was expected here this afternoon. Wild has been working at Tawas and will be taken back for trial. He admits having seen the dog, but denies having stolen it.—Bay City Times Press. We understand the matter was settled by Wild returning the dog and paying all costs.

The A. P. A. organization, known as the "Bald Heads," which was organized here last fall for a political scheme, has entirely died out of existence. The fact that it was organized here for a political purpose and especially aiming with a view to injure our worthy Representative in Congress, Hon T. A. E. Weadock in his campaign, is quite evident, as no A. P. A. meeting has been held here since the election was over last fall. Notwithstanding the fact that one radical, hot headed A. P. A. member who is being also a pious church member suggested at a meeting, that a speaker from outside should be secured to address an A. P. A. meeting here again, in order to hold the members together, and to induce more to come.

BONAFIDE.

The social held at the house of Wm. Vance in Reno last Friday evening was a decided success both financially and socially. A large number were present among which were to be seen a few of the Whittemore people, your worthy scribe making one of the worthy. The supper was grand and consisted of such staple articles as roast chicken, chicken pie, boiled ham, together with all the delicacies of the season and ice cream. Grapes, peaches and etc. for desert. After partaking of which are started for home where we arrived quite easy after an enjoyable ride. All honors to Mr. and Mrs. Vance who did everything possible to entertain their guests.

### To the World's Fair.

THE FLINT & PERE MARQUETTE RAIL AND WATER LINES offer the public a way to reach Chicago, that for comfort, far surpasses the all rail lines, to say nothing of the difference of fare in its favor, an item well worthy of consideration.

Passengers are landed in Chicago in the morning after a night's refreshing and invigorating rest in a commodious state room on a first-class steamship. The experienced traveler need not be told of the advantages of a rail and boat route, for summer travel, over the all rail route with its crowded, dusty sleeping cars, and very little thought on the part of the inexperienced, will convince him of the same. Ask your local ticket agent for rates and time of trains.

Religion in Hillman is advancing a pace. The Methodists and Roman Catholics are building churches and the Presbyterians will soon have the old court house converted into a proper place for divine purposes.

Alpena post office boasts holding first place for accuracy among the 600 second class post offices in the country. A friendly rivalry among the post offices for first place might improve the service somewhat.

Missaukee county was fortunate in having more than her share of rain this season, and as a consequence has little to complain of in regard to the quantity of crops harvested, and not a particle of fault to find as regards quality.

A Universal Beautifier.—Harmless, effective, and agreeable, Ayer's Hair Vigor has taken high rank among toilet articles. This preparation causes thin, weak hair to become abundant, strong, and healthy, and restores gray hair to its original color.

Judge Swan of the U. S. Court has decided against the state in its suit against the Jackson, Lansing & Saginaw R. R. Co. to recover about \$100,000 worth of land which it is claimed belonged to the state by virtue of the swamp land grant of 1850.

Edward Thal, of Gladwin, has been bound over to the circuit court for trial on a charge of embezzlement. He has been manager of store owned by a Standish man for the past year, and the latter claims that Thal is short \$1,500 in his accounts.

The Pine River Lumber Company, of Kilmaster, capital \$10,000, and Gustin Stock Farm Company, of Bay City, capital \$10,000, have filed articles of incorporation with the Secretary of the State at Lansing. Both companies will operate in this county.—(Harrisville Review).

Interviews with the representatives of Saginaw's twelve banking institutions bring out the fact that business of all kinds is slow but steadily improving. Deposits have commenced to pick up more rapidly than before and a general feeling of confidence pervades the community.—Bay City Times Press.

Justice Field of the U. S. Supreme Court sent Granger Hill of Oscoda a book entitled "Early Days of California and Attempted the Assassination of Justice Field." Albert Wilson, who was arrested in this city on July 12, on the suspicion that he was the murderer of Mary Marshall, who was shot and killed on Mar. 10, 1889, at Warwick, Ont., and who subsequently confessed to the crime, was tried in Sarnia last week, and the jury rendered a verdict that he was insane at the time. According to the laws of Canada, a man is once criminally insane, and therefore Wilson will be committed to the insane asylum for criminals for the balance of his life.—Saginawan.

The village of Fife Lake is in a fever of excitement over the discovery of an oil well on the farm of W. W. Lewis located within a mile of the town. Mr. Lewis for several years has had a celery garden in the center of which is a mineral spring. For the past two weeks the water has been highly impregnated with crude petroleum which oozes from the spring and leaves a sediment on the sides. Experts claim that oil can be produced in good quantities. Mr. Lewis has made arrangements with a well driller to commence work within a week upon his land in the hopes of receiving good returns.

PETOSKEY, Sept. 25.—Abram Wilsey, a laborer who has been working in the Rice tannery, shot his wife four times with a revolver Saturday afternoon, and was himself instantly killed by a young man named Henry Sik, who had boarded with them for some time. The Wilseys parted by mutual consent three years ago. Wilsey went to the boarding house and after vainly trying to induce his wife to live with him, he drew a revolver and fired four shots, all taking effect and producing probably fatal injuries. The young boarded rushed into the room and dodging behind the door, fired twice, one ball going through Wilsey's body and the other striking him in the forehead.

By stimulating the follicles, it stops falling hair, cures dandruff and grows hair on bald heads.

Keep the scalp clean, healthy and free from irritating eruptions, by the use of Skookum Skin Soap. It destroys parasitic insects, which feed on and destroy the hair.
