**CARD OF THANKS.**—We desire to ex-  
press our most sincere thanks to our  
many friends who so kindly assisted us  
during our late bereavement.  
**MR. AND MRS. T. SIMON**  
**AND FAMILY.**

The funeral services of John Curry  
were conducted at the Congregational  
church by Rev. R. T. W. Webb, of East  
Tawas, last Sunday afternoon, and were  
largely attended. The remains were in-  
terred in the Tawas City Cemetery.

Feeble and capricious appetites are  
best regulated by the use of Ayer's  
Cathartic Pills. They do not debilitate,  
by excessive stimulation; but cause the  
stomach, liver and bowels to perform  
their functions properly. As an after-din-  
ner pill, they are unequalled.

The steam heating apparatus in the  
courthouse is now in running order and  
gives good satisfaction. It is highly ap-  
preciated by the county officials. The  
work was done by the Sullivan Plumbing  
& Heating Co., of Bay City, which is a  
sufficient guarantee that it is done in a  
workman like manner.

Smith Alabaster Tent No. 447, K. O.  
T. M., will give a grand New Year ball  
at the hotel in Alabaster, Monday even-  
ing, January 1. Good music will be in  
attendance. Bill, including supper, \$1.  
A cordial invitation is extended to all.  
The fact that the party is given by the  
Alabaster Maccabees is a sufficient guar-  
antee that a good time will be had.

Died, on Wednesday, Dec. 13, at the  
residence of her son, Niel McDonald, in  
this village, Mrs. Mary McDonald, aged  
73 years. Mrs. McDonald has been a  
resident of this village for the past 20  
years. She leaves seven children, four  
sons and three daughter, besides a large  
number of relatives and friends to mourn  
her death. The funeral services were con-  
ducted from the East Tawas Catholic  
church this forenoon.

Alex Bonefant was acquitted in the  
circuit court this week in the case which  
has been pending against him for some-  
time, in which he was charged with  
keeping his saloon open after hours.  
John Masterson and John Martin, who  
were village officers at the time, swore  
positively to the offense, but the jury  
said not guilty.—Oscoda Press.

Rebecca, the eldest daughter of Mr.  
and Mrs. T. Simon, of this village, died  
at the home of her uncle in New York  
City, Wednesday, Nov. 29, 1893, aged  
18 years and three months. Miss Simon  
had been spending the summer in New  
York, and intended to start for home the  
day previous to her death, but was taken  
suddenly ill the previous Saturday, and  
only lived four days. Rebecca, was a  
graduate of the Tawas City schools, and  
leaves a large circle of friends here who  
sincerely mourn her early death, and  
who join us in extending the bereaved  
parents, brothers and sisters, the most  
sincere sympathies in this loss of their  
beloved daughter and sister.

A newspaper has 5,000 readers for each  
1,000 subscribers. A merchant who puts  
out 1,000 hand bills gets possibly three or  
four hundred people to read them—that  
is if the boy who is trusted to distribute  
them does not chuck them under the  
sidewalk. The handbills cost as much as  
a half-column advertisement in the  
home newspaper. All the women and  
girls and half the men and boys read the  
advertisements. Result: The merchant  
who uses the newspaper has 3,500 more  
readers to each 1000 of its paper's readers.  
There is no estimating the amount of  
business that advertising does bring to  
the merchant, but that each dollar in-  
vested in advertising brings to the in-  
vestor from \$5 to \$20 worth of business  
there can be no doubt.—Ex.

McKINLEY pretended to give free sugar to the people. The claim was false. He gave free sugar to the sugar trust, but left half a cent tax on the sugar we use on our tables, and gave a bounty out of the national treasury to sugar growers. The new bill wipes out the bounty and takes half the tariff off refined sugar. As quick as the debts contracted by the billion dollar congress can be paid, the other half must go. —Rantia Post.

In the workmen in iron mines and iron mills are getting better wages under a high tariff, why is it that they are always at the point of starvation when the mines and mills are closed, as they are every few years? If they get enough to lay aside for a rainy day, why are they dependent upon the public for subsistence when the rainy day comes? Simply because it is the owner and manufacturer who receive the benefit of a tariff, and not the laborer. —Jackson Patriot.

AFTER a test of more than thirty years the result of a high protective tariff can be measured with some degree of accuracy. Half the wealth of the nation is centralized in the hands of 80,000 men, and they are rapidly absorbing the balance. Small operators in a manufacturing way are completely frozen out, and the field is monopolized by trusts and combines. A very large proportion of the mighty army of workmen for whom the tariff legislation has been ostensibly made are in a state of want and dependence upon charity. Only when this inevitable and distressing state of affairs appeared in sight did the people demand a change. Until it is brought about and there is time for the fruit of reformation to mature, the ills of an iniquitous system must be endured. —Free Press.

## TARIFFS AND WAGES.

When the steel rail trust, in an effort to accommodate supply to demand and to maintain trust prices, orders two or three mills to shut down while three or four others are kept running, dividing the profits of business between all alike, no sympathy is wasted by protectionist writers and orators upon workmen thrown out of employment. They do not in such cases give the matter a thought. But there is immediate clamor now that the tariff on rails is likely to be reduced, and threats are heard of consequent wage reductions.

The tariff will not be cut down so that it shall not cover the difference between home and foreign wages. The domestic rail makers will still

have their market, with the advantage of free iron ore to cheapen the cost of production. There will be no diminution to the number of men needed to make steel rails, and no necessary reduction of the wage rate. The lowered tariff will only operate to protect consumers against the extortion of banded monopolies by narrowing the limit of possible overcharge.

The time has passed when intelligent men can be further imposed upon as to the necessity of wage reduction whenever it may be proposed to modify excessive tariff rates that are a standing invitation and inducement to the plunder of customers. —Philadelphia Record.

## WOOL HIGHER.

Concurrent with the announcement in the new tariff bill wool will be placed on the free list, there was an advance of the price in all our markets. The advance was larger in the west than in the east, showing a general confidence in better prices as soon as the tariff restrictions upon trade are removed. The Boston Herald market report says of the trade last week: "Manufacturers have shown decidedly more interest, and have taken some big lots of wool. In several cases they have bought this wool for the reason that it is cheap. They have not been in need of it at once in their mills. On the contrary, manufacturers have just bought large lines of wool whose mills are stopped or only partially running. They believe, evidently, that the wool at the prices they have paid is a bargain, even in the event of free wool." In Ohio and Pennsylvania fine wool has advanced 1½ and two cents a pound within a week. Michigan X is in better demand with a sale of 100,000 pounds at 21 cents, and delaine at 23½ cents on a firmer market. The heaviest movement, however, is in Texas and territory which is selling lower than any other wool of the same grade grown in the world. California is quoted from 5 to 9 cents a pound cheaper than foreign carpet wool in Boston, and is 4 cents a pound lower than shoddy. When the new tariff law, removing taxes from raw materials, becomes a fixed fact prices will go higher. Restricting trade by legislation is the worst policy for the farmers of this country ever invented. Thirty years experience proves it. Jackson Patriot.

## A FRIENDLY TALK WITH FARMERS.

The editor of the Jackson Patriot who has made a profound study of all matters pertaining to agricultural conditions and causes, and who is admitted to be one of the best posted men in the state, publishes the following friendly hint to farmers:

"Laying aside prejudices and the desire to get the advantage of others by law, if farmers will study the financial and commercial conditions that make wheat sell for 54 cents a bushel and reduced the price of farms by one-half, they can find out what is hurting them. Study the money question, the tax question, the trade question, and do not believe anything the office-seeking politician tells you until you are satisfied that it is true. You are being skinned, just as you have been for twenty years, and are told that the cause of low prices is over production, lack of confidence and so forth. See if you cannot find in high taxes, in tariffs to prevent trade, in bad money legislation, in something that has actually taken place, not in any theory as to future

legislation, causes of the results you complain of. Do a little economic reading and thinking, and apply to the legislation of the past twenty years the test of experience."

## Crop Report.

Sec'y of State Jochim has issued the following crop report, showing condition December 1:

The reports this month, with rare exception, show that while wheat has made small growth, the plant, December 1, was in fairly healthy condition. The small growth is due to late sowing and dry weather. For the southern counties, the average condition is reported at 84 per cent; for the central 89 per cent, and for the northern 96 per cent, comparison being with vitality and growth of average years. The corresponding figures one year ago were 82, 83 and 97. The presence of insects is noted by a few correspondents, but the injury done by them, if any, is hardly perceptible. The ground has been well covered with snow since the 2d of December. The total number of bushels of wheat reported marketed in November is 1,704,351. The number of bushels reported marketed in the four months August-November is 6,858,871, which is 678,825 bushels less than reported marketed in the same months last year.

Pasture last fall has not been good, particularly in the southern counties; and the condition of live stock is reported from five to seven points below a full average. Stock is practically free from disease of any kind.

People who have tried it, say that there is no better medicine for dyspepsia than Ayer's Sarsaparilla. It may not give one the stomach of an ostrich, but it so strengthens the alimentary organs that digestion of ordinary food becomes easy and natural.

The following from an exchange contains a lot of truth boiled down: One of our ministers told a great truth when he said: "Find a gossip and you will find a liar." And you'll find the worst kind of a liar at that. The gossip is a curse to the community in which he or she lives.

During the past season 35,000,000 feet of lumber have been shipped from East Tawas and Tawas City, and 50,000,000 feet was sawed; and 100,000,000 feet of logs were rafted here from other points. There are now on dock, nearly all of which is sold, 12,500,000 feet of lumber.

## A Hundred Ton Magazine Order.

An event in periodical literature, not without its significance to the general public as showing the growth of the reading classes, was the receipt on the 9th of November by the Cosmopolitan Magazine of the order given below. A single order from a news company for one hundred tons of magazines! That is almost an event in the history of the world. A like order has never before been made, and if past ratios be maintained it means considerably more than half a million circulation for the December Cosmopolitan. Yet, when the list of authors and artists in the December number is examined, one is not so much surprised. It contains the only known unpublished manuscript of De Maupassant, illustrated by Pierre, perhaps the most famous of European illustrators; After the World's Fair, by Paul Bourget, John S. Ingalls, William Dean Howells, Lyman J. Gage, Arthur Sherburne Hardy, Mark Twain, Robert Grant and others nearly as famous, and nearly two hundred illustrations, to which the following artists contribute: Hopkinson Smith, Kemble, Harry Fenn, F. O. Small, Attwood, Henckel, Dan Beard, Reinhart and Remington. Think of having the World's fair done by such expensive men as Howells, Mark Twain and Paul Bourget, and sending such artists as Charles S. Reinhart to Chicago for a single number of a magazine to be sold for only 15 cents, or by subscription 12 1/2 cents. A book publisher, preparing such a book would not dare incur these expenses short of \$5.00 a copy. Is it not a revolution that is an improvement upon old methods a revolution of vast importance to the reading public? The order to which reference is made reads as follows: "Publisher Cosmopolitan, Dear Sir:—of the 200,000 copies of December number to be sent us, please send as follows: 172,650 copies regular edition, 27,250 copies R. E. edition. Yours respectfully, The American News Company."

## THE TOLEDO WEEKLY BLADE.

And book Containing all the Nasby Letters for One Dollar.

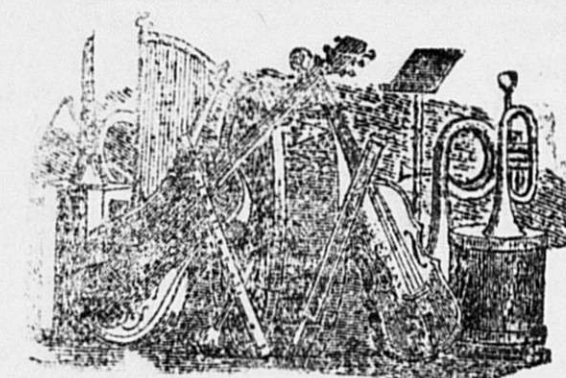

In answer to a general demand from all parts of the United States, the TOLEDO BLADE has published in one volume a cloth bound, all of the "Nasby Letters," ever written by the late D. R. Locke, omitting perhaps a few unimportant letters on local or forgotten topics. Only a few of these letters were ever published in book form. Everybody has read some of them, but who has read all of them? The book contains over 500 large pages, and all the Nasby Letters written during a period of twenty-five years; also a portrait of D. R. Locke from his last photograph. It would sell at one dollar or more, but will never be placed on sale. One hundred thousand copies are now being printed and bound and one copy will be sent postpaid by mail free to every person who this winter remits one dollar for the WEEKLY BLADE one year. Every body invited to send for a specimen copy of the WEEKLY BLADE, which will give a full description of the book "The Nasby Letters."

THE TOLEDO WEEKLY BLADE is the best and most popular weekly newspaper published in this country. It has the largest circulation of any weekly newspaper, and goes to every state, territory and nearly every county of the Union. Only one dollar a year, including the above mentioned book free. Send postal to THE BLADE, Toledo, Ohio, for a free specimen copy of the paper. Send the addresses of your friends also.

## For Sale

Owing to the fact that car rates to West Duluth are high I have concluded to sell my entire lumbering outfit, which consists of everything in the shape of camp equipage including horses, sleighs, and everything down to an alarm clock. The outfit is stored at E. Laidlaw's where it may be examined. It may be had cheap for cash.

## Here's the Idea

Of the Non-pull-out Bow  
The great watch saver. Saves the watch from thieves and falls—cannot be pulled off the case—costs nothing extra.

The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the grooves, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

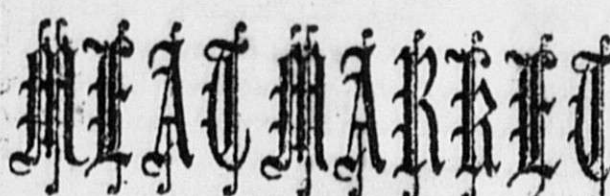

Can only be had with cases stamped with this trade mark.

Jas. Boss Filled Watch Cases are now fitted with this great bow (ring). They look and wear like solid gold cases. Cost only about half as much, and are guaranteed for twenty years. Sold only through watch dealers. Remember the name
