HON. J. H. GEAR was this week elected U.S. Senator from Iowa, by the republicans of that state ..

- GREED of employers to grow rich has had more to do with reducing wages in this country than the fear of tariff legislation.

THE appointment of Hon. Chas. R. Henry, as postmaster at Au Sable, gives satisfaction throughout the county. Mr. Henry has been, a hard worker for the interests of democracy in this county, and receives a just recognition for his services. His qualifications for the position are too well known to need repeating here.

THE McKinley bill has been in force three years. It increased the tariff on wool. Wool has steadily declined every since. Every woolgrower knows it .. Why longer depress the industry? Off with the wool tariff, and let American wool have a chance for wider use. You can't fool the farmer any longer on wool. Free wool can't get prices any lower .- Adrian Press.

EVERY day or two the public hears of a petition, "several thousand strong," against a reform of the tariff, signed by the dependent workingmen of the chief beneficiaries of McKinleyism. Since when have petitions been permitted to reverse elections? The voters of the country have commanded a reduction of the tariff in two general elections, each time by more than 1,300,000 majority. No perfunctory and interested petitions can cancel those commands .- N. Y. World,

In the tariff debate yesterday Congressmen Burrows sent to the clerk's desk and had read letters from Constantine and other points in Michigan "showing that the wool growers are driving their sheep to the slaughter pens by thousands." Considering the depressing effect of the McKinley tariff on the wool market this is not surprising. Since the passage of that measure wool has fallen from 26 and 28 cents to 12 and 15 cents. The next year after the passage of the bill wool dropped 8 to 10 cents a pound. This was twelve months before the democratic victory of 1892, and wool has been going down ever since. The manufacturers, to preserve the high rates of protection they were given by that bill are striving to pull the wool over the eyes of the farmers and make them believe the interests of the manufacturers and wool grows ers are indentical. They know they can do as they have been doing for. the past two years, use a large amounts of shoddy, and pay the American farmers what they please for their clips. Yet it may be doubted whether "the farmers are driving their sheep to the slaughter pens by thousands," for the Chicago A LARGE number of manufactur- live stock market quotes sheep ers are making a pile of money out steady at \$3 to \$3.75 and lambs of their employes by cutting their \$4.50 to \$4.85, which shows that the market is not overstalked .- Bay City Times-Press.

S. P. SMITH, of Towanda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constigation, kidney trouble, and indigestion, so that mys constitution sectords to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling, advertisement. I believe this preparation of Barsaparilla to be the best in the market to-day."
