> Dr. Parkhurst, the story of his life and his remarkable war against the official protection of vice and crime in New York City, will be the subject of an authoritative article in McClure's Magazine for April. The article will be illustrated with several portraits of Dr. Parkhurst. An exchange asks if you ever noticed

> that when a man drops a piece of meat on the floor, no matter how clean the floor may be, he will either give it a kick or pick it up and lay it to one side. He will never eat it. But let him drop his plug of tobacco on the street, no matter how dirty the street may be, he will pick it up, give it a careless wipe on his coat or on the bosom of his pants and then take a tig chew from it with a keener relish than ever.

> At a "Peoples" caucus, held in Reno last Saturday, the following township ticket was nominated: Supervisor, Frank Horton; clerk, Sam'l Hutchenson; treasurer, Harry Laird; highway commissioner, John McDougal; school inspector, Joseph Lindsley; justice (full term), William Charters; justice (vac.), William Latter; member board of review, Joseph Lindsley. Another ticket wil be nominated at a caucus which has been called for next Saturday evening.

> After considerable trouble and disap pointment the Epworth League have again arranged with the Ariel Ladies Sextette to give a concert here, and they will be at the M. E. church Saturday evening, March 31. The League advertised this company some months ago, but owing to the illness of some of the members of the company the engagement was cancelled, and Harvard Quartette engaged instead, which company also failed to materalize. The ridiculous adherence to conventional introduction, which prevents some very fastidious people from recognizing strangers, is thus commented on by an exchange: We envey neither the man nor the woman who cannot speak to a fellow creature out of their own circle or to anybody without the formality of an introduction. There is no computing the amount of profit as well as pleasure such persons lose by hedging themselves in with this stupid fence of fastidiousness. We have always found more of this feeling among persons who were more touchey on their social position than among those self-respecting persons who thought nothing about it. A great deal of intelligence is floating around the world without being labeled, and those men or women who have the good sense to recognize this fact and act upon it, not only are educating themselves, but confering that pleasure which we all are bound by the common ties of humanity to exchange with one another. It seems to us that it is only the snob and pretender who take a different view of this question.

Time only demonstrates more fforceably that that un-American institution known as the United States Senate should be abolished. This, lhowever, probably cannot be accomplished during the present generattion, and consequently the next best thing to be done is to elect senators Iby a direct vote of the people. Under the present system of electnng United States senators the people are practically without representation in the upper branch of congress. That body is at present llargely composed of and controlled lby a few millionaires who have purchased their seats by the most profligate, ruthless and demoraliziing expenditure of their ill-gotten wealth.

THE three republican state officers whom the governor is trying to lbounce from office are not disposed tto suffer the disgrace alone. We Thave already referred to their exposure of Gov. Rich for signing warrants and pardons in blank, and they also get after Auditor Gen. Turner for robbing the state by a Big expense account. They publish a list of items paid the auditor general from Feb. 15th, 1893, up to Oct. 25th, 1893, the whole amounting to \$1,398.24, nearly every dollar of which was unnecessary and not contemplated by the law. Auditor General Stone's entire expenses paid By the state during his two years in office did not exceed \$300, and the greater part of this was due to the state equalization board, which was an unusual expense. The law compels corporations paying specific taxes to pay them at Lansing, but the present auditor general has been charging the state railroad fare and other traveling expenses, and big hotel bills under the pretense of collecting these taxes. The figures which his fellow republicans publish indicate that he has been drawing about a hundred dollars a month more from the state for his personal expenses than his predecessor did. The tax payers of Michigan are paying dearly for defeating the «democrats in '92.—Petoskey Demoerat.

LORDS AND SENATORS.

In his address to an anti-house of lords meeting of 80,000 London workingmen in Hyde Park Sunday John Burns, M. P., declared for a single chamber-the commons. He rather retain the lords, worse than useless as they are, than erect an elective senate. "The senate is a failure everywhere," he said, and cited the agitation against the French senate and the "hopeless corruption" of the United States senate in proof of his statment.

Yet it is not also true that there is sufficient leaven of corruption in the chamber to taint the whole mass? THE USE OF OATS.

In feeding oats, especialy the whole grain, much depends upon the nature of the hull or chaff. It is not always the heaviest grain which gives the best results. That which is much above the standard weight has most often a rough, gritty chaff which so acts on the stomach as to expel much of the grain in an undigested state.

The hull, however soft its texture, is always laxative, and a moderate degree of laxativeness is beneficial, especially to breeding animals, but there is no gain in passing through the heaviest grain in a nearly whole state. Better use a light grain, which will be more thoroughly digested. It is commonly supposed that the oat which sells for the highest prices is the best feed, but it is not always the case.

There is money in sheep-raising in England, and there certainly should be some in the United States. The Englishman has not only free wool but free trade in every department of farming, yet his sheep are his protection against bankruptcy. The difference lies in the fact that in England there is great pains-taking in the sheep husbandry. Nothis given the best food, care and shelter. As a result mutton is said the British workingmen would highly esteemed there, as it deserves to be, for special pains have been bestowed on its sweetness and flavor.

In the United States, on the other hand, little or nothing has been done for sheep. These animals will bear a good deal of neglect and still live though the will not thrive; hence the farmers here have proceeded to test the popular theory that a sheep will live on nothing, by making it a general weed and thistle Americans, can we flatly deny his exterminator. "A rabbit" were the mysterious words on the invitations issued by a society bachelor for a few intimate men and women friends to pass an evening with him. Some of the uninitiated did not realize the full significance of the occasion however, until, after some excellent music and a game of progressive hearts, small tables were brought in, each equipped with a chafing-dish and the other paraphernalia and ingredients for a genuine Walsh rarebit, which expert members of a popular chafing-dish club proceeded to concoct. No Vote on the County Road System this Spring.

The Resolution did not Pass at the last Meeting of the Board.

At yesterday afternoon session of board of supervisors, Supervisor Duplanty and Murphy called the attention of the board of Supervisors to the fact that an error had been made in the matter of adopting of the E. H. Whedon goes to Saginaw resolution regarding the county road system, at the last meeting of the board and that it did not receive the necessary two-thirds vote. The following resolution was drafted by the prosecuting attorney, and on motion of Duplanty supported by Murphy was unanimously adopted:

Whereas, it appears that a resolution was offered and voted upon at the last meeting of this Board, submitting to the electors of this county the question of the adoption of the county road system, to be voted on at the April election 1894;

Whereas, said resolution received 10 yea votes and 4 nay votes, on this board and was considered carried and so acted upon by this board, upon the belief in good faith that the adoption of such resolution required only a two-thirds vote of all members present, instead of two-thirds vote of all members elect as provided by law, and whereas the County Clerk of this county has taken justifiable steps under said resolution to give notice of such election; and whereas, it appearing to the board that said resolution was not legally passed by this board, inasmuch as two-thirds of all members elect of this board did not vote in favor of the same.

Therefore, Be it resolved, that the County Clerk has only done his duty under such resolution, and further

question to the electors be withdrawn, to the undersigned. and the County Clerk be instructed to withhold from the electors of the county all facilities for voting on the adoption of such county road system.

A Racking Cough

Cured by Ayer's Cherry Pectoral. Mrs. P. D. Hall, 217 Genessee St., Lockport, N. Y., says:

"Over thirty years ago, I remember hearing my father describe the wonderful curative effects of Ayer's Cherry Pectoral. During a recent attack of La Grippe, which assumed the form of a catarrh, soreness of the lungs, accompanied by an aggravating cough, I used various remedies and prescriptions. While some of these medicines partially alleviated the coughing during the day, none of them afforded me any relief from that spasmodic action of the lungs which would seize me the moment I attempted to lie down at night. After ten or twelve such nights, I was

Nearly in Despair,

and had about decided to sit up all night in my easy chair, and procure what sleep I could in that way. It then occurred to me that I had a bottle of Ayer's Cherry Pectoral. I took a spoonful of this preparation in a little water, and was able to lie down without coughing. In a few moments, I fell asleep, and awoke in the morning greatly refreshed and feeling much better. I took a teaspoonful of the Pectoral every night for a week, then gradually decreased the dose, and in two weeks my cough was cured."

Marine News.

The schooner Hunter Savidge will start loading lumber at the Minor Lumber company dock to-morrow morning for Detroit. This will be an early clearance for a lumber vessel.—Alpena Echo.

Coal freights will be yery low, and it is estimated on account of the 80 cents ore rate. there will be three vessels for every cargo of grain that is offered. This of course means low grain rates.

Cleveland World: The marine outlook for the season is the poorest that has ever been know at this time of the year. Many owners have declared their intention of not starting their boats until June 1. and a few of them say they will not fit up their vessels at all, until there is a marked improvement in freight.

It is usual that the captains are engaged by the year and paid for the entire time, whether the boat is in use or tied to the dock. This season on account of the very poor prospects, some of the owners have engaged their captains with the understanding that they are to be paid while employed, and if the vessel is | Hamilton. obliged to tie up on account of low rates, the salaries will cease.

The contracts for ore from the head of Lake Superior that have been made are at an 80 per cent rate. This is the lowest ever known. Last season there were contracts at \$1, and vessel owners complained on account of this rate, but they would now be very glad to make contracts at that figure. A few contracts Chas. Goodwillie. at the 80 cent figure have been closed by Cleveland and Detroit owners, but many refuse to touch the business at this rate. The ore that has been sold will be carried largely by vessels controlled by the ore companies, and, consequently, the amount taken by outsiders is not large.

Bay City vessel owners are not the least bit enthusiastic over the outlook in the lumber trade the coming season, and a large number of them have made no move, as yet, towards fitting out their vessels. They say that they will do nothing until assured cargoes. The time Gratwick, Smith & Fryer are closing was when the Saginaw river was the was formerly shipped out direct from the mills, is now being worked up in box factories an planing mills here and then be accepted and adopted, and the several shipped by rail.
