Curtains etc. is by far the largest ever
shown the Tawas, Remember they
are here for only 15 days.

Another scheme to beat the unsuspecting
farmer. A man comes along and offers
to sell the right for a new fangled
wagon tongue. If the farmer does not
bite readily, the tongue is left with him.
A confederate then comes along and gets
stuck on the pattern and offers \$400 for
it. The farmer sends \$250 to man No 1
for the right, and the job is done.

Prof. S. D. Williams state lecturer of
the I. O. G. T., will give a free entertainment
at the Congregational church in
this village Tuesday evening, consisting
of temperance solos and a lecture,
"Hard times and the relation of the
liquor traffic to it," will be the subject
of his lecture. All who desire to hear a
fair and logical discussion of the liquor
question and lovers of good singing are
invited to attend.

All Carpets bought at
Simon's are matched and
sewed ready for laying.

Last Friday evening Herbert L. Cope
gave an entertainment at the M. E.
church for the benefit of the Erworth
League. This is the first time Mr. Cope
has appeared in our village as an elocutionist,
and to say that he gave satisfaction
is putting it mildly. His selections
were rendered in a manner that could
not fail to please the most exacting
critic. He will always receive a hearty
welcome from the citizens of Tawas City.

An exchange says: "The person that
stands on the street corner looking
around for something to gossip about, or
to find some fault with, can always find
what he is looking for. But what a life
he lives! His soul shrivels and withers
until it is shown in his manner and looks.
For such a person, life has lost its savor.
He becomes sour, misanthropic and whining.
He passes from bad to worse and sees
no good in anybody. His taxes are
always too high, no matter how low they
may be, and he curses his neighbor because
his neighbor is prosperous and enjoys
life. In fact he hates himself; is a
menace to a town's prosperity, a foe to
God, and no good to the devil."

The man who isn't in love with his
town is destitute of that public spirit
which is characteristic of every genuine
American. He lives without enjoying
life and after his final journey to the
cemetery has been made, his memory is
not long cherished save by a few faithful
souls whose love blinded them to his
selfishness. One should always reserve a
considerable place in his affections for
the town of which he is a resident. He
should be interested in its progress, fertile
in expedients to benefit it, and thoroughly
convinced that it is the best town in
the whole world. That is the reason so
many of our western towns have had
such an astonishing growth. The people
want to win material success, but they
are vain enough to know that the town
must make its own way if they are
to succeed. There is room in Tawas of
local patriotism.

Simon has received from the largest
carpet House in the country a full line
of their samples of Carpets, Rugs, Cur-
tains etc. which he will have on sale for
15 days only.

The Doby trial was finished in the Circuit
court last Friday and the jury
brought in a verdict of guilty. The next
case taken up was that of Frank J. Walker,
et. al. vs. B. F. Smith which lasted
until Tuesday afternoon. The jury gave
Walker a verdict of upwards of \$800.
Motions were made for new trials for
both Doby and Mead, hence the Judge
deferred passing sentence upon them until
June 12 when court re-convenes.

Wednesday forenoon Willie, the seven
year old son of Mr. and Mrs. George
Brown, was playing on the river bank
near his home in "Haletown" when he
accidentally fell into the water, and was
drowned, before he could be rescued.
The body was recovered in a short time
but all efforts to restore him were with-
out avail. The bereaved parents have
the sympathies of the entire community
in their sad bereavement. The funeral
services will be held today.

The New York World never waits to
be driven along the path of progress by
sharp competition, but keeps so far in
the lead that competition is an impossibility.
The reputation of The Weekly
World as the greatest Democratic paper
published is fully established. It is
Democratic in principle, Democratic in
policy, Democratic in its sympathies. It
is not blindly or dishonestly partisan.
It will not support bad men or bad
measures. Its work is for the people, the
whole people, and not for any class or
faction. It will be found at all times
fighting for the great cardinal principles
of the Democratic party, but never for
the selfish ends of any ring or individual.
Its miscellaneous articles are fresh, well
selected and interesting. Its pages de-
voted to Home, Fashion and Agriculture
are replete with articles of valuable and
interesting information to all. The
"Tariff Mule" articles now running in
The Weekly World have become celebrated
on account of the plain, practical
way in which the tariff question is pre-
sented. It is a large 12-page, 8-column
paper for only \$1.00 a year. We have
succeeded in making special arrange-
ments by which we can furnish Herald
and The Weekly World one year both for
only \$2.00. Address Herald, Tawas City
Mich.

Teacher's Institute.

The State Teachers' Institute for
Iosco county will be held at AuSable,
commencing at 10 o'clock, a. m., Monday,
June 4, and closing at 4 p. m., Friday,
June 8. Commr. A. C. Kay, East Tawas,
Local Committee.

There is no doubt as to the value of a
good live institute. Experience proves
that as a rule the most successful, alert,
progressive teachers are those who avail
themselves of the work given at such
meetings.

The persons in charge of the instruction
at these institutes are those who
have had practical experience in school
work, and know how to impart to others
a portion of what they have gained in
experience. Effort has been put forth
to give the county the best institute ever
held.

The work will combine professional
and academic instruction. The institute
will be divided into sections, and the in-
structors will conduct classes for the
purpose of reviewing some studies, and
also to illustrate certain methods of in-
struction. The workers have been urged
to arrange for calisthenic exercises, sing-
ing, marching and the like, so as to make
the work move off cheerily and without
fatigue.

The time for study at the institute will
be necessarily limited, and in order to
permit the most profitable of class ex-
ercises the following topics are suggested

so that those who purpose attending may
make some preparation:

ARITHMETIC—(1) Fractions, (2) percent-
age, (3) mensuration, (4) evolution.

GRAMMAR—(1) Relative clauses, (2) in-
finitives, (3) participles, (4) objective com-
plements.

GEOGRAPHY—(1) Michigan, (2) model
outline of South America, (3) commercial
geography of the United States.

HISTORY—(1) The Mexican War, (2) the
constitution, (3) Civil War, (4) political
parties, (5) important current events.

PHYSIOLOGY—(1) The heart, (2) health
lessons—see manual for country schools,
(3) ventilation, (4) digestion.

CIVIL GOVERNMENT—(1) Executive
officers of Nation, State, county, city vil-
lage, (2) compare make-up and duties of
Congress and Legislature, (3) how amend-
ments are made to State and National
constitutions, (4) taxes.

PEDAGOGY—The fourth and fifth
chapter of Putnam's Primer, or its equi-
valent.

READING AND ORTHOGRAPHY—Long-
fellow's Evangeline. A spelling match
will be conducted on the names of the
states and territories and fifty technical
words of grammar and physiology.

The preceding topics are given to aid
in a proper preparation for the work.
Bring any text-books. Be thinking and
studying along the lines of the topics
suggested, and even a week's institute
may be made very profitable with class
work and lectures combined.

The institute law allows teachers,
whose schools are in session at the time
appointed for the County Institute, held
under the direction of the State Superin-
tendent, to close their schools during the
continuance of such institute without
forfeiting their wages for as many half
days as they are in attendance at the in-
stitute.

There will be no enrollment fee, and it
would seem as if every wide-awake ped-
agog, or would-be pedagog, would ar-
range to attend every session.

Full particulars in regard to board,
etc., may be obtained upon application
to the local committee.

HENRY R. PATTENGLL,
Supt. of Public Instruction.

The republicans are beginning to hedge on the confidence with which they have been predicting the election of a majority of the next House.

The republican editor who can laud the work done by his party in the New York legislature, at the session just closed, is either a knave or a fool.

CONGRESS might easily do a worse thing than to so change the law so as to give the President authority to veto any part of a bill without having to veto the whole bill, as at present.

With the men for whom he did most when in office throwing cold water on it all the time, Mr. Harrison's boom cannot be expected to have a healthy growth, notwithstanding his grip on the Indiana machine.

OUR republican exchanges have been full of the Indiana municipal elections for the past week, but we have failed to notice any mention of the election of a congressman from the third Ohio district, which also occurred last week. Strange!

LAST fall McKinley carried the third Ohio district by 600 majority for governor. Last week Mr. Sorg, democrat, was elected to congress in the same district by about 2,000 majority. Yet our republican brethren tell us that the country has a sufficiency of democratic rule. Evidently they are mistaken.

THE Moorewood Tin Plate Co., which has four mills at Gas City, Ind., has determined upon putting in four additional mills. A plant will also be put in for the manufacture of steel billets. Republican papers will please not copy. They might be called upon to reconcile it with their oft-repeated assertions that the Wilson bill is ruining, even before any one knows what it will finally be, the industries of the country.

If the Democratic administration is responsible for the financial panic, why was it that nearly all the bank failures occurred within four months after Harrison went out of office, and that for the past ten months there have been comparatively very few? The Democratic party has been in power all the time, and matters in this respect ought to have grown worse instead of better, in order to prove the republican theory just and logical.

THE McKinley high protective tariff is in full operation, and is likely to be for a long time if eastern pseudo democrats can have their way. Still all is not lovely among the workmen of the country. A lockout in Chicago will throw 60,000 men out; a number of strikes are reported in the eastern states; the Pennsylvania coke region is thronged with striking workmen; hundreds of men are leaving California to seek employment; and these disturbances are increasing daily—all high tariff experiences.—Jackson Patriot

Gov. Rich, last Saturday appointed John Patton, Jr. of Grand Rapids, to succeed the late F. B. Stockbridge, as U. S. senator from Michigan.

THE superstitious will fancy they see one of their pet theories confirmed in the death of Senator Stockbridge, of Michigan. That theory is that distinguished public men of all sorts die in threes. It has long been applied to cardinals, and there is a disposition to extend it to other prominent personages. A year ago last January, James G. Blaine, R. B. Hayes and Ben Butler died in a few weeks of one another. Stockbridge is the third senator to die within two months, the others being Col. Quitt, of Georgia, and Vance, of North Carolina. But what the superstitious regard as a supernatural phenomenon, the sensible will consider only a strange coincidence.—Rochester Herald.

ONE AGAINST THIRTY-SEVEN.

The caucus of democratic senators at Washington last Thursday night seems to have measured the influence and importance of Senator David B. Hill to a nicety. The question was upon the passage of the tariff bill. Thirty-eight senators were present. Thirty-seven voted to push the measure to passage. Senator Hill voted against it.

The mind of this cheap statesman from New York is not of sufficient breadth to comprehend more than one idea at a time. Just at present the idea dominating him is that as the income tax would bear most heavily upon New Yorkers he can make a political capital for himself by opposing it. He sets up the pettifogging plea that because 30 per cent of the tax would be paid by New Yorkers it is a sectional tax. He conveniently ignores the fact that the tax is levied upon the theory that a man's share in the burden of taxation should be in proportion to his wealth, not in proportion to the number of his fingers or the number of his children. If 30 per cent of the people enjoying incomes in excess of \$4,000 live in New York that state will pay 30 per cent of the income tax and justly.

Hill's objections to this most righteous and popular measure are the merest quibbles. He says it was not recommended in the democratic platform. True, but a tariff for revenue only was recommended in that platform, and he has declared for protection. The repeal of the state bank tax is recommended in that platform and he will most assuredly oppose that measure when it reaches the senate. He says the income tax is not necessary for revenue purposes, but does not note that it was an essential part of the revenue program until the senate committee, at the behest of the Sugar trust aided by Hill, replaced a tax upon sugar. The sugar tax will be paid, seven-tenths of it, by the poor. The Hill type of statesmanship demands the retention of this burdensome impost and the remission of the proposed tax of \$2 on every \$100 of income over and above \$4,000 annually. The sugar tax should be struck out; the income tax retained.

The overwhelming vote by which the senatorial caucus repudiated Hill and his ideas fairly expresses the sentiment of the democratic party and must have impressed even a man of his cold and brazen disposition. Nor can he fall back upon the belief that he has a solid constituency behind him in New York. The night of the caucus there was a

mass meeting in New York, at which a speaker declared the income tax the fairest, most just, and most equitable of all methods of taxation and was applauded to the echo. And even in that stronghold of plutocracy a rival speaker, a millionaire lawyer, was not permitted to denounce the income tax without violent protest from a hearer who cried, cheers: "We are paying the taxes while you people are robbing us!"

Senator Hill is out of touch with the times and the people. Though in public life, he is not a public man. He's a dead cock in the pit.—Chicago Times.

THE KINGDOM OF HOME.

Let home stand first. No matter how high your ambition, no matter how far your talents or your influence may reach, before everything else build up a true home. Be not its slave; be its minister. Let it not be enough that it is swept and garnished, that its silver is brilliant, that its food is delicious, but feed the love in it. Then from its walls shall come forth the true woman and the true man.

What honor can be greater than to found such a home. What dignity higher than to reign its honored mistress. What is the ability to speak from a public platform or the wisdom that can command a seat on the judge's bench, compared to that which can insure and preside over a true home? To be the guiding star, the ruling spirit in such a home is higher than to rule an empire.

A Little Daughter

Of a Church of England minister cured of a distressing rash, by Ayer's Sarsaparilla. Mr. RICHARD BIRKS, the well-known Druggist, 207 McGill st., Montreal, P. Q., says:

I have sold Ayer's Family Medicines for 40 years, and have heard nothing but good said of them. I know of many

Wonderful Cures

performed by Ayer's Sarsaparilla, one in particular being that of a little daughter of a Church of England minister. The child was literally covered from head to foot with a red and exceedingly troublesome rash, from which she had suffered for two or three years, in spite of the best medical treatment available. Her father was in great distress about the case, and, at my recommendation, at last began to administer Ayer's Sarsaparilla, two bottles of which effected a complete cure, much to her relief and her father's delight. I am sure, were he here to-day, he would testify in the strongest terms as to the merits of

Insomnia is fearfully on the increase. The rush and excitement of modern life so tax the nervous system that multitudes of people are deprived of good and sufficient sleep, with ruinous consequences to the nerves. Remember, Ayer's Sarsaparilla makes the weak strong.

Do you know that an editor can stop and ask a hundred persons "What is the news?" and ninety out of a hundred of them will reply "Nothing special," and yet fifty out of that number undoubtedly know of some item of news which they desire to see published and not finding it in the next paper are much disappointed. Don't be afraid to tell the editor all the items of news.

CROP REPORT.

The following May crop report has been issued by the secretary of state:

Temperature and rainfall were both favorable during April, and the growing wheat made fairly good progress. The average condition May 1, in the southern and central counties was 89 per cent, northern 96 per cent, and State 90 per cent, comparison being with vitality and growth of average years. One year ago the average condition in the southern counties was 73 per cent and central 79 per cent, and the crop of 1893 was estimated in October at 23,690,693 bushels, an average of 15 bushels per acre for the State. In 1892 the average condition May 1, in the southern counties was 84 per cent, and central 81 per cent, and the total yield in the State was 25,284,218 bushels, an average of 15.59 bushels per acre. In 1891 the average condition May 1, in the southern counties was 104 per cent, and in the central 99 per cent, and the crop of that year was 28,039,483 bushels, an average of 18.49 bushels per acre. Nearly 69 per cent of the total crop in the State is grown in the southern and central counties.

The total number of bushels of wheat reported marketed by farmers in April is 1,189,602, and in the nine months, August-April 12,613,198, which is 271,580 bushels more than reported marketed in the same months last year. At 19 elevators and mills from which reports have been received, there was on wheat marketed during the month.

Timothy and June grass meadows are in prime condition. The state-

ment that they never looked better at this time of year occurs frequently in correspondents' notes. Clover that was seeded last year promises an average crop, but old clover is about all destroyed, probably in most cases by the clover root borer. Various names as "grubs," "crown-worms," "insects," "green, brown and yellow worms," "root borers," "small black bug that eats the clover roots off," etc., are given in the reports. One correspondent in Livingston county reports from eight to forty little green worms, about one-fourth of an inch long, around each clover stool. It is estimated that one-fourth of the clover in the southern counties will be plowed up. The average condition of what remains ranges from 81 per cent in the southern counties to 98 per cent in the northern counties.

The present outlook for an average crop of apples is encouraging. The figures for the southern counties are 74 per cent, central and northern 94 per cent and State 88 per cent. Perhaps promise from five-eighths to three-fourths of a full average crop.

The Big Circus Day of all the Year.

As old "Rough and Ready" would have put it, "all the world and all the rest of mankind" hereabouts are pictorially and editorially advised of the hilarious fact that Sells Brothers' Big Show or the World is to give afternoon and evening exhibitions at Bay City on Thursday May 24 preceded by a grand free morning street parade of unusual liberality and attractiveness. The various interesting and amusing exhibitions massed under twelve huge tents need not be enumerated, but it is pertinent to say that one and all will be forthcoming, as Sells Brothers are honest and impartial managers, who wisely regard one man's money as good as another's, and everywhere, and at every performance, return precisely the same and satisfactory equivalent for the price of admission. This is not the custom with one or more shows of boasted metropolitan reputation, which give much better exhibitions in New York City and Philadelphia than elsewhere; and having thus scored favorable and misleading notices, foist upon what they are pleased to term us "ruralites" cut-down performances, inferior performers and cheap, tawdry displays. It, furthermore, is a fact that the really great artists which only appear with them for a few days in the cities named are always engaged by Sells Brothers for the entire season, making their big circus salary list far the most expensive of any on the road. We need not comment upon the tactical difference in policy and presentation. It shows for itself, and should be condemned in the one case and encouraged in the other by all who despise a cheat and believe in a square dealing.

While abroad Sells Brothers added notably to its special attractions by purchasing in Australia, East India and elsewhere, many exceedingly rare and royal wild beasts, birds and reptiles; among them five tremendous Tigers, any one of which is big enough to swallow any other one heretofore exhibited; a whole drove of giant Kangaroos of varied hue; a flock of splendid, full-grown and baby Emms; prodigious constricting serpents, singular apes, and superbly-plumaged language-gifted birds. In truth, great and proportionately successful efforts have been made to gather from every clime the most valuable and unique promoters of instruction and entertainment in living form, and the grand result cannot fail to universally profit and please. Reduced price of admission, twenty-five cents to all combined shows. Special excursion rates issued on all lines of travel.

Michigan Boy.

The Registered and Standard bred trotting stallion, MICHIGAN BOY, No. 14322, will make the season of 1894 at the following places: Monday nights, Kinney Bros., Alabaster; Tuesday noon, M. Miner, Plank Road; Tuesday night, Thos. Lowe, Hemlock Road; Wednesday noon, Wm. McDonald, Reno. And will proceed from there by way of Whittemore, Maple Ridge, Omer, Arenac, to his own stable at Boom farm, AuGres, and will remain there until the following Monday noon. HALE LAKE.

G. W. Teed is improving his farm this spring by chopping and clearing a large piece of green timber land. O! he is a hustler.

Lee Gardner has been going the round of the township last week, taking the assessment.

The dance given last Friday night in the hall, was well attended and an enjoyable time was had.

Sportsmen who like to fish cannot find a better place than at Hale Lake among the numerous lakes and creeks. A number of the speckled beauties have been caught here.

The little village of Hale is growing. Every house being occupied at present, and G. M. Moore is erecting a neat little house near the Town Hall.

Rev. I. B. Nunn has placed a very neat fence along the front of his farm; no tops of the posts left untrimmed, but every thing finished in the proper way.

FROM OUR EXCHANGES.

Standish had a \$3,500 fire last week. Sells Bros. circus will exhibit at Bay City May 24.

The Bay City council have decided to build a \$25,000 fire tug.

The new Central M. E. church, at Bay City, was dedicated Sunday.

J. R. Henry has been elected president of the AuSable board of education.

A lodge of the Knights of the Golden Cross was organized at Standish last week.

Mrs. Frank Crawford, of Presque Isle county, who was charged with poisoning her husband has been discharged.

Jas. E. Dudley, of West Branch, has changed the name of his paper from the West Branch Democrat, to the Journal.

It is estimated that 70,000 fruit trees, mostly plum, have been set out in Alpena, Alcona and Presque Isle counties this spring.

The comptrollers of the currency has authorized "The Old Second Bank of Bay City Mich." to begin business with a capital of \$100,000.

The new schooner Grampan was launched at Davidson's ship yards, West Bay City, Saturday. She is 220 feet keel and 38 feet beam.

The Gaylord Herald says ex-Commissioner of the state land office J. G. Berry will be a candidate for renomination this fall. Here's gall for you.

Saginaw has been struck by the reform club and Monday evening the council made reductions to the amount of \$4,500 in the salaries of city officials.

The Alpena Driving Park Association are making big preparations for their August meeting which promises to be the best race meeting ever held in Northern Michigan.

Last Friday a north bound freight train on the M. C. was badly wrecked near Roscommon by the breaking of an axle. A tramp who was stealing a ride was badly injured.

Thirteen million three hundred and eighty-nine thousand feet of lumber had been shipped from Alpena up to May 3. At that date last season only 9,559,000 feet had been shipped.

Bessie H. Bedloe, Burlington, Vt., had a disease of the scalp, causing her hair to become very harsh and dry, and to fall so freely that she scarcely dared to comb it. Ayer's Hair Vigor gave her a healthy scalp, removed the dandruff, and made the hair thick and glossy.

Guy Field, of Saginaw, was so funny he couldn't restrain himself. He got a snake—ha! ha!—and poked it into the

whiskers of every man he met. It was such fun, until one old man not only knocked him down, but had him fined \$5 for breaking the peace.

The office of C. L. Bingham, justice of the peace, at Pinconning, was burned Tuesday night. All his books and records, and the liquor bonds of the village saloonkeepers, together with the township library, were destroyed. The loss is estimated at about \$1,000.

A number of families from some of the largest towns of the state have recently settled in Cadwell township, Missaukee Co., and it is said that more will follow. The Plain Dealer, of Lake City, says that they are welcome and that there is room for a thousand more in the county.

A young damsel living in the suburbs of West Branch ate leaks one day this week and then came to town. She remained in the postoffice fifteen minutes and it took the postmaster four hours with the use of a dollar's worth of disinfectants to fumigate the room.—Herald-Times.

Saginaw. Irwin Buchanan, aged seventy-six, was sitting in the yard of his home in this city on Tuesday awaiting the announcement of his dinner. When he arose to go into the house, he suddenly dropped dead. It is believed that the man died of heart disease. Mr. Buchanan had resided in Saginaw thirty-four years.

One day last week a farmer who lives about two miles from Harbor Springs, while plowing turned out a strange looking, glittering piece of rock. Taking the rock or quartz to Petoskey, he had it analyzed and revealed 14 grains of pure gold out of 14 ounces of quartz. The people are greatly excited over the find, and prospectors are flocking there from all directions.

A young daughter of Theodore Gokey, of Cheboygan, was burned to death the other day. Mr. Gokey was working in a cedar camp near Hammond's Bay, and had his family with him. His little daughter and a companion started a bonfire and the girl's cloths caught fire. Her companion hastened for assistance, but by the time help arrived the poor girl had burned to death.

At a regular meeting of the AuSable common council last Monday the following officers were elected for the ensuing year: Mayor pro tem, Henry N. Laud; city attorney, Charles R. Henry; city physician, Dr. J. F. Hovis; engineer of the fire department, James Quinn; night watchman, Joseph Crecline; fire warden, Dan B. McDonald; city scavenger, Cornelius Lahert; poundmaster, Ed Cambell. A number of saloon men presented bonds to the council, calling for a \$300 license. The bonds were not acted on, and the dealers were given to understand that unless they presented a bond calling for a \$500 license, they would have to close up their business.

A very singular incident happened on board the steamer State of Michigan Tuesday as the boat was nearing Baker's dock at this place. A lady aboard the boat was the owner of a valuable Scotch terrier dog which had crawled through the forward chalk line hole out upon the fender rail and had walked to within four feet of the bow on the boat. The dog could not go ahead neither could it turn around, and the passengers expected each moment to see it fall into the river. A negro employe, however, let himself out of a port hole and after several attempts rescued the dog. It is said the dog at that time showed no preference for color, and kissed the cheek of its negro rescuer with as much fever as it did that of its fair lady owner.—Cheboygan Democrat.

The Bay Co. Ministerial Assoc., whose members were severely attacked by Sam Bettes, the "cowboy preacher," so-called while he held services at the Washington avenue rink, in Bay City, is doing everything in its power to contract the work of Bettes since his departure from the city. The association first issued a proclamation to the churches of Michigan in which Bettes' work in Bay City was referred to in unfavorable terms and the churches of the state were warned not to have anything to do with him. At the session of the association the affidavits of Mrs. H. A. Gowan and her daughter Alice were read, and it was resolved to send them to the Freewill Baptist Association, from which Bettes is an accredited preacher. These affidavits refer to certain actions of Bettes and an unknown woman in Mrs. Gowan's house, in which Bettes boarded. The affidavits are of a very sensational character.
