cellent condition.

pulling down prices.

the village Wednesday.

Notwithstanding the dampness in the  
atmosphere Wednesday Sheriff Cox and

fine string of trout.

Simon's sample line of Carpets, Rugs,  
Curtains etc. is by far the largest ever  
shown the Tawas. Remember they  
are here for only 15 days.

James Barranger left for Saginaw  
Saturday where he has secured a per-  
manent position. He will move his  
family there in a few weeks.

There is a considerable talk of a race  
between T. P. Brown's new pacer and  
Cox & Bennett's gray. Whether it is a  
"bluff" or not remains to be seen.

The Prescott mill started Tuesday  
noon, but owing to a slight breakage in  
the machinery it was shut down Wednes-  
day noon, but started again this morning,  
and will run as long as logs can be se-  
cured.

Photographer A. G. Emery has opened a

Prescott's mill yard one day this week  
drawn on the Second National Bank of  
Bay City, for \$250.00 in favor of E. L.  
McGill, dated in 1883. As the check is  
over eleven years old it is probably  
worthless.

in need of a horse is invited to call and

Owing to the big coal strikes the D., B.  
& A. has been obliged to use wood on  
their freight engines this week. The  
firemen hope coal famine won't last very  
long.

Simon has received from the largest  
carpet House in the country a full lin-  
e of their samples of Carpets, Rugs, Cur-  
tains etc. which he will have on sale for

zine will introduce the well knowd news-  
paper correspondent and magazine writer,  
Julian Ralph, to the world in the new  
guise of a poet.

out nine miles caught forty-one fine trout  
and were home at 7.30 p. m.

All Carpets bought at  
Simon's are matched and  
sewed ready for laying.

The temperance lecture given by Prof.  
Williams Tuesday evening at the Conger-  
gational church was well attended. Mr.  
Williams is a pleasing and forcible  
speaker, and handled his subject in a  
masterly manner. An unsuccessful  
effort was made to organize a lodge of  
I. O. G. T.

N. C. Hartingh has purchased the fine  
sailing yacht "Camauche" of Detroit  
parties. This is one of the finest  
pleasure yatches on the Detroit river and  
"Nick" expects to be able to out sail any  
thing in these parts. She arrived here  
Sunday.

Prof. Putnam, of Kalamazoo, who will  
conduct the Teachers' Institute at Au  
Sable, the first week in June, has been  
the Tawas this week and will remain  
here until the institute. He visited our  
school Tuesday forenoon, and has promis-  
ed them another visit.

The Tawas Athletic Club are making  
arrangements to an entertainment to be  
given the fore part of June, the proceeds  
of which will go toward furnishing the  
reading room of their club. The services  
of Herbert L. Cope have been secured  
and a first-class entertainment is being  
arranged. Watch for announcements.

The sprayer is a necessary imple-  
ment on all farms. A few years ago it  
was almost unknown. It permits of a  
fine spray, which reaches every portion  
of the plant, and does better work than  
a sprinkler. It can be used on trees and  
vines and permits of reaching the potato  
beetles more effectively.

An exchange says that Limberger  
cheese laid away in cupboards or refrig-  
erators, will drive away ants. We have  
no doubt that it will and at the same  
time drive away uncles and cousins as  
well, and make the whole family feel like  
moving out. You can try it if you wish,  
ladies, but don't do it on our recom-  
mendation.

Michigan is remarkably well adapted  
to dairying, and yet, because the business  
has never received the close attention  
necessary to make it a success, the aver-  
age price there obtained for butter is  
three to four cents less per pound than  
in the neighboring states Illinois and  
Wisconsin. Michigan produces annually  
45,000,000 pounds of butter, for which  
she receives more than a million dollars  
less than Wisconsin obtains for the 40,-  
000,000 pounds made in the latter state.

Bargains in Ladies capes and jackets  
at Friedman's.

If ever a man feels like "a poor worm  
of the dust," it is when he suffers from  
that tired feeling. Ayer's Sarsaparilly  
removes this discouraging physical con-  
dition and imparts the thrill of new life  
and energy to every nerve, tissue, muscle  
and fibre of the whole body.

The Propeller Ossifrage will here after  
make three trips per week on the Bay  
City-Alpena route, going up Mondays,  
Wednesday and Fridays, and down Tues-  
days, Thursday and Saturdays. She  
leaves this place at 6 o'clock p. m. on the  
up trip, and at 12 m. on the down trip.

Unless your envelope states the num-  
ber of day you wish your letter held, the  
Postmaster, by a new ruling, will hold it  
thirty days instead of ten. This is im-  
portant to men who do not wish their  
letters, when not delivered, detained  
over five or ten days. Have your en-  
velopes printed at this office and have  
them done correctly.

A sample sheet of the new money  
orders which will come into use after  
July 1 has been received at the postoffice  
here. The order is like the one formerly  
used by the American Express company,  
the order being torn off so as to leave the  
amount shown on the left hand side.  
The stub goes to the department. A  
letter of advice is sent to the postmaster  
on whom the order is drawn, as now.

For "The Bay City District Epworth  
League" Convention, to be held at East  
Tawas, May 23rd and 24th, 1894. The  
D. B. C. & A. will sell round trip tickets  
from all points on their road to East  
Tawas, at one and one third. Fare tick-  
ets good going only on May 23 and 24,  
and returning not later than May 24th  
1894.

T. G. WINNETT, G. P. A.

"Our Country Cousin," the new play  
written for Frank Jones (popularly  
known as "Si Perkins.") by Charles H.  
Flemming, Esq., affords a much wider  
scope for the characteristic line of work  
made famous by that clever comedian.  
The action of the play begins at the  
Homestead Farm, West Virginia, and in-  
troduces a plot replete with the keenest  
possible human interest, interspersed  
with intensely dramatic situations, and a  
touch of that peculiar rural comedy  
which never fails to awaken the delight  
of an audience. "Our Country Cousin"  
is a most emphatic success, and will un-  
doubtedly occupy the boards for many  
seasons, and become equally as popular  
as "Si Perkins." At opera house East,  
Tawas, June 5th.

## DRESSMAKING

Mrs. W. S. Wharton and Miss Cora  
Amiot have opened dressmaking parlors  
at the residence of Mrs. Wharton, on  
Seventh Ave., and are prepared to do  
dressmaking at reasonable rates.

The New York World never waits to  
be driven along the path of progress by  
sharp competition, but keeps so far in  
the lead that competition is an impossi-  
bility. The reputation of The Weekly  
World as the greatest Democratic paper  
published is fully established. It is  
Democratic in principle, Democratic in  
policy, Democratic in its sympathies. It  
is not blindly or dishonestly partisan.  
It will not support bad men or bad  
measures. Its work is for the people, the  
whole people, and not for any class or  
faction. It will be found at all times  
fighting for the great cardinal principles  
of the Democratic party, but never for  
the selfish ends of any ring or individual.  
Its miscellaneous articles are fresh, well  
selected and interesting. Its pages de-  
voted to Home, Fashion and Agriculture  
are replete with articles of valuable and  
interesting information to all. The  
"Tariff Mule" articles now running in  
The Weekly World have become cele-  
brated on account of the plain, practical  
way in which the tariff question is pre-  
sented. It is a large 12-page, 8-column  
paper for only \$1.00 a year. We have  
succeeded in making special arrange-  
ments by which we can furnish Herald  
and The Weekly World one year both for  
only \$2.00. Address Herald, Tawas City  
Mich.

Entered at the Postoffice at Tawas City, Michigan, as second-class matter.

Mr. Gladstone believes that free trade will soon be universal. The old gentleman must expect a radical change of sentiment in the U. S. Senate.

TARIFF reform is what is wanted from Congress, and any measure that gives it, even if it fails to go as far as many democrats would like, will be endorsed by democrats at large.

THE New Market Manufacturing Co., of New Hampshire is so pleased over the business outlook, now that speedy tariff legislation is assured, that it has added 10 per cent to the wages of its employees.

THE republicans assert that the democratic amendments to the tariff bill will make it a protective measure, but somehow we notice that the protectionist Senators are just as much opposed to the bill as ever.

WHEN the g. o. p. organs were required to give some notice in their news columns to the strike of foreign born workmen in the Pennsylvania coke regions, their editorial utterance were singularly free from the canting phrase, "American for Americans!" Strange, was n't it?

It remains to be seen whether the Southern States will thank Baron Blanc, Italian minister of Foreign Affairs, for having, in a statement to the Italian Chamber of Deputies, advised his countrymen to come to the U. S. and to settle in the Southern States. The Italians are not regarded as ideal immigrants in this country.

MASSACHUSETTS is out of debt as a result of three years of Gov. Russell's prudent administration of its affairs. Ohio is nearly three millions in debt as a result of three years of Gov. McKinley's wasteful administration. Yet republicans characterize the former as a "free trade dreamer" and the latter as the "greatest practical statesman of the age."

THE history of this country under McKinleyism has been "Homestead" lockouts, strikes, idle workmen and business stagnation, and, now an army of unemployed at the doors of the Capitol asking Congress to do something for them. This should be an inspiration to the democrats to quickly enact the measure the people elected them to pass.—Oceana Herald.

WRECKED COMMERCE.

Prior to the coming in to power of the republican party, under the low tariff adopted and maintained by the democrats, in 1856, American ships carried more than 75 per cent, of all the imports and exports to and from this country, and now they carry but 12 per cent. After thirty years of republican hostility to commerce, manifested in its tariff laws, it is a matter of surprise that even this small percentage is left. American capital is prohibited from buying foreign built ships, and our tariff laws prevent building them at home.

It has been again and again stated and demonstrated that if New England be given free coal and iron ores, she can build ships as cheaply as they can be built on the Clyde or on the Mersey. We strangle the iron industries of New England and put a high restrictive tariff on trade, which render shipbuilding impossible and ship owning and sailing unprofitable, for the benefit of the iron and coal barons of Pennsylvania, and then tax the people to pay subsidies to steamship lines. We do this, too, at a time when there are millions of idle workmen in the country seeking employment and finding none. Nine-tenths of the subsidies we are now paying to steamships go to three lines, the owners of which are millionaires, and which are huge monopolies. Such is republican statesmanship. No sophistry can excuse or palliate the badness of this wretched policy.—Jackson Patriot.

POPULIST STATE CONVENTION.

The People's Party of Michigan will hold a State Convention at Mead's Hall, in the city of Lansing, Wednesday, July 4, 1894, at 2:00 o'clock, p. m., for the purpose of placing in nomination candidates for state officers, for the transaction of such other business as may properly come before the convention. Each county will be entitled to one delegate for each fifty votes cast for Weaver and Field at the last national election. To illustrate: Montcalm county cast seven hundred votes at that election, and hence will be entitled to fourteen delegates.

Hold the county convention early and let there be a full representation of delegates from every county in the state with properly authorized credentials.

The People's Party at the last national election cast upwards of one-tenth of the entire vote of the country, although the young party was but four months of age. Their issues are fully set forth in the Omaha platform, the more important features of which may be epitomized as follows: We demand the free and unlimited coinage of silver and gold at the present legal ratio—sixteen to one; we demand that the amount of circulating medium be speedily increased to not less than fifty dollars per capita; we demand a graduated income tax.

The convention being held on the 4th of July the people can avail themselves of one-half rates on all railroads the 3rd, and 4th and 5th. An excellent program will be arranged for the occasion with Hon. Jerry Simpson or Senator Peffer and Gen. Weaver as speakers, as well as others of national repute. It is desired that a rousing meeting be held on the evening of the 3rd and public exercises in the forenoon of the 4th. Let the spirit of independence breathed by our forefathers in '76 pervade the people of Michigan in '94 that they may come from the four corners of the state and join in the commemoration of this American day and pledge themselves to the new era of independence devoutly prayed for by the vast majority of the people, and may the gathering deal a telling blow to the Cæsar, be he of Lombard or Wall Street.

A. W. NICHOLS, Chairman.
HENRY I. ALLEN, Secretary.
Greenville, Mich., May 6, 1894.

Michigan Boy.

The Registered and Standard bred trotting stallion, MICHIGAN BOY, No. 14922, will make the season of 1894 at the following places: Monday nights, Kinney Bros., Alabaster; Tuesday noon, M. Miner, Plank Road; Tuesday night, Thos. Lowe, Hemlock Road; Wednesday noon, Wm. McDonald, Reno. And will proceed from there by way of Whittemore, Maple Ridge, Omer, Arenac, to his own stable at Boom farm, AuGres, and will remain there until the following Monday noon. This route will be continued during the season of 1894, ending July 1st, health and weather permitting. MICHIGAN BOY is a brown color, is a son of California, a grandson of Sultan, weighing 1100 pounds, 16 hands high. Parties desiring to raise stylish road horses are requested to call and look him over before making a selection. HARRY RICHARDS, Prop and Groom, AuGres, Mich.

FEED ANIMALS SEPERATELY.

Farmers do an injury to their stock and to themselves as well where they feed all their animals together in the yard. Not only does it waste feed, but the stronger ones get the most and the younger and weaker ones will scarcely obtain enough for maintenance, sometimes. This, of course, stunts the growth of the young animals and gives to stronger ones superfluous flesh.

We do not like the custom of feeding hay on the racks in the yard unless the racks are so made as to make it almost impossible for hay to be drawn out under feet. It is a wasteful method at best. During winter and early spring it is better to put the cattle up in stables and feed them each meal than to allow them to roam about the yard trampling their fodder under feet.—Ex.

**CHRISTIAN ENDEAVOR.**

The thirteenth international Christian Endeavor convention, to be held in Cleveland July 11-14, will be the greatest gathering of the kind ever held. Cleveland Endeavorers are hard at work laying plans for the proper care and entertainment of the expected thousands. The five Christian Endeavor districts of the city have been divided into sections, each section representing a state. Some church will be made headquarters for the section and will be open all day for the convention of delegates from that state. Here committees can meet, friends confer and announcements be made. Most of the delegates will be cared for in the delightful homes of Cleveland, the hotels being able to accommodate comparatively few. Every home where delegates are quartered will display in the window a large Christian Endeavor monogram, the name of the state from where the person comes being hung below it.

The committee of '94 are planning for anywhere from 25,000 to 40,000 delegates. Norman E. Hills, 372 Sibley street, Cleveland, O., is chairman of the entertainment committee and the only person to whom Endeavorers should write for all particulars in this line. Up to date over 10,000 applications have been received from those who wish accommodation and several states have been assigned headquarters.

**The Big Circus Day of all the Year.**

As old "Rough and Ready" would have put it, "all the world and all the rest of mankind" hereabouts are pictorially and editorially advised of the hilarious fact that Sells Brothers' Big Show of the World is to give afternoon and evening exhibitions at Bay City on Thursday May 24 preceded by a grand free morning street parade of unusual liberality and attractiveness. The various interesting and amusing exhibitions massed under twelve huge tents need not be enumerated, but it is pertinent to say that one and all will be forthcoming, as Sells Brothers are honest and impartial managers, who wisely regard one man's money as good as another's, and everywhere, and at every performance, return precisely the same and satisfactory equivalent for the price of admission. This is not the custom with one or more shows of boasted metropolitan reputation, which give much better exhibitions in New York City and Philadelphia than elsewhere; and having thus scored favorable and misleading notices, foist upon what they are pleased to term us "ruralites" cut-down performances, inferior performers and cheap, tawdry displays. It, furthermore, is a fact that the really great artists which only appear with them for a few days in the cities named are always engaged by Sells Brothers for the entire season, making their big circus salary list far the most expensive of any on the road. We need not comment upon the radical difference in policy and presentation. It shows for itself, and should be condemned in the one case and encouraged in the other by all who despise a cheat and believe in a square dealing.

While abroad Sells Brothers added notably to its special attractions by purchasing in Australia, East India and elsewhere, many exceedingly rare and royal wild beasts, birds and reptiles; among them five tremendous Tigers, any one of which is big enough to swallow any other one heretofore exhibited; a whole drove of giant Kangaroos of varied hue; a flock of splendid, full-grown and baby Emms; prodigious constricting serpents, singular apes, and superbly-plumaged language-gifted birds. In truth, great and proportionately successful efforts have been made to gather from every clime the most valuable and unique promoters of instruction and entertainment in living form, and the grand result cannot fall to universally profit and please. Reduced price of admission, twenty-five cents to all combined shows. Special excursion rates issued on all lines of travel.

**The Best Medicine.**

J. O. WILSON, Contractor and Builder, Sulphur Springs, Texas, thus speaks of Ayer's Pills:  
 "Ayer's Pills are the best medicine I ever tried; and, in my judgment, no better general remedy could be devised. I have used them in my family and employes for more than twenty years. To my certain knowledge, many cases of the following complaints have been completely and permanently cured by the use of Ayer's Pills alone: Third day chills, dumb ague, bilious fever, sick headache, rheumatism, flux, dyspepsia, constipation, and hard colds. I know that a moderate use of Ayer's Pills, continued for a few days or weeks, as the nature of the complaint required, would be found an absolute cure for the disorders I have named above."  
 "I have been selling medicine for eight years, and I can safely say that Ayer's Pills give better satisfaction than any other Pill I ever sold."—J. J. Perry, Spottsylvania C. H., Va.

**ALABASTER.**

Our village school closes this week. The farmers around our village, are very busy with their spring work. The steamer Ossifrage calls at Alabaster on Wednesdays and Fridays. Finney Carr was called to Detroit, by the severe illness of his wife, this week. Mr. Charles Ormsbee, at one time engineer of the East Tawas water works, will remove his family to Indian Fields Tuscola Co., where he has a good position.

**SHERMAN.**

Nellie Parent is this week at Standish decorating her deceased husband's grave. School in Dist. No. 3 is progressing nicely under the tutelage of Miss Marsi. John F. Pringle and Smith Gregory made the Tawas a business call this week. Unless frosts interpose the fruit crop promises to be excellent also the garden stuffs. J. A. Jackson and Geo. A. Pringle have been appointed census enumerators for this town. Two good and qualified men.

Farming is progressing here this year with a vigorous interest and the seeding is of a much greater variety than ever before.

John Henry is doing a big stroke of farming and has moved his family into his elegant farm dwelling. He will make farming his main business.

**FROM OUR EXCHANGES.**

Bay City has a case of small-pox. The village council of Oscoda has accepted eleven saloon keepers bonds at \$300 each.

J. A. Stewart, of Port Huron, has been elected to succeed Supt. Smith of the Bay City schools.

Ed. A. Ruel, of Alpena, has been appointed deputy United States marshal by Marshal Winney.

Alpena school board is considering a cut of about 5 per cent in teachers salaries for the coming year.

Mayor J. C. Boughton, a well known citizen of West Bay City, died at New Orleans last Monday.

Oscoda is afflicted with chicken thieves. An injection of buck shot is the best known remedy.

The Saginaw Valley Homeopathic Medical Association will hold its next meeting at Bay City, Tuesday June 12.

The Tamarack Club, of Alpena gave their annual Minsteral show Monday evening. The Echo says it was the best show ever seen in that city.

James Allen was convicted of simple larceny before Justice Deitz, of AuSable last week and sentenced to 90 days in the Detroit house of correction.

William Pikorzewski, a nine year old Alpena boy, was killed last Friday night by falling under a train which he attempted to get onto while in motion.

A colt was foaled in Oscoda Monday which, though well formed in other respects, had no nose or eyes. Andrew McLearn, owner of the dam, had the colt killed.—Press.

"The flowers that bloom in the Spring" are not more vigorous than are those persons who purify their blood with Ayer's Sarsaparilla. The fabled Elixer Vitae could scarcely impart greater vivacity to the countenance than this wonderful medicine.

Last Sunday Rev. Frank J. Chase pastor of the Universalist church at Bay City, created a sensation by renouncing

his faith in that doctrine. Mr. Chase has not fully decided which church he will hereafter affiliate with but it will probably be the Congregational.

The little five year old son of Patrick Ryan, of Alpena, was killed last Friday by having a heavy box fall on him. It seem the little fellow was playing in a shed adjoining his home and in some way pulled a box over on to himself in such a manner as to choke him to death. Mr. Ryan, who is news agent on the D. B. C. & A. has the sympathies of his many friends along the line, in his sad bereavement.

David Ward, the pine land baron, who has been for some time grading a road-bed through his pine from Frederic on the Michigan Central to Alba, has purchased seventy cars of steel rail which are now being delivered at Frederic. The rails are 65 pounds to the yard, which is heavier than those used on the Michigan Central. He has also bought two 45-ton engines and the work of putting down the rail will be commenced immediately. Mr. Ward owns 200,000 acres of pine and hard wood in the counties of Antrim, Emmet, Kalkaska, Crawford, Otsego, Montmorency, upon which it is estimated there is 2000,000,000 ft. of timber.

A Black River correspondent to the Alpena Echo furnishes the following:—The night police of this bustling burg woke up Saturday night and started to make the rounds. When he reached the residence of F. J. Hill he was startled by the sounds of footsteps, heavy dull tramping, as if made by the muffled feet of the midnight robber. The chief cautiously crept toward the house, club and gun ready for action; the sounds were still there—he determined upon immediate action and grasping his weapons with a firmer grasp and clearing the road before him for a hasty retreat, he softly opened the door and struck a quick match—judge of his surprise in finding the intruder the family bovine which had in some mysterious manner got into the house and could not get out.

A Washington dispatch of Monday says:—The supreme court to-day affirmed the judgment of the circuit court for the eastern district of Michigan in the case of Henry M. Loud vs. the Pomona Land and Water company. There was an agreement by Loud to purchase certain lands in California and shares of stock in the irrigation company, exclusive right of way for laying pipe for the conveyance of water on land being reserved to the irrigation company. Loud claimed it represented to him that shares in the irrigation company gave him the right to water for his land, and that the representations proved false in that sufficient water to irrigate these lands was not represented by the shares of the company. The circuit court decided against Loud. Justice Jackson affirmed the decision on the ground that the allegations of want of title to the stock in the irrigation company representing water rights were not supported by proof.

**The Beginning of the Associated Press.**

The Associated Press is the pioneer of all the great news-gathering system of the world, and it originated in the usual small way. A set of pigeon boxes, now old and partially dismantled, situated at the foot of Fulton Street, on the East River, yet exists in evidence of the first attempt made by newspaper proprietors to band together for the purpose of increasing the facilities for getting news. Another pigeon-cote, at Avesink Highlands, still standing and situated close to where the Western Union Telegraph Company's observation tower now stands,

marks the spot from which the pigeons were dispatched to the Fulton Street boxes with news of the shipping that was coming into harbor. This was but the beginning of things destined to lead finally to the mighty system which now covers the whole globe.—From "How News is Gathered," Demorest's Magazine for June.
