#### CHURCH NEWS.

There are in London 375 Congregational churches, seating 220,000 people.

Michigan Adventists are giving away their watches and other earthly possessions because their prophet tells them they will be translated to heaven on masse on March 5, 1896.—*N. Y. World.*

Reports from all parts of the country show a wonderful religious movement in nearly all churches. Especially is this true in the South and West, where large additions to the churches have been received.

The appropriations of the Methodist Episcopal Church for foreign missions for the year are \$592,492 and for home \$478,205; for the debt last year, \$185,764, and miscellaneous, \$119,000, making a total of \$1,365,909.

A new evangelizing organization has been established in London, called the "Gray Ladies." The women comprising the society are not Sisters of Charity, nor are they deaconesses. They are merely a band of Christians who desire to help the poor and the outcast, and are willing to pay \$50 a year for board and lodging in the house presided over by the Mother of Gray Ladies, and also to work gratis under some parochial clergyman. There are no restrictions to personal liberty, except that all shall dress in gray.—*N. Y. World.*

The following amendments to the state constitution of the Y. P. S. C. E. will be voted on at the Bay City convention: To provide for a Junior Superintendent and a Missionary Superintendent. To combine the work of the Statistical Secretary with that of the Corresponding Secretary, placing all the secretarial work in the hands,

and under the direction of one General Secretary. To provide, in place of Directors, denominational Vice-Presidents, who shall, with the officers of the Union, constitute a Board of Trustees. To provide for a first Vice-President, who, with the President, General Secretary, Treasurer, Junior Superintendent and Missionary Superintendent, shall constitute the Executive Committee.

### Y. P. S. C. E.

The coming Convention to be held at Bay City.

B. R. Hoobler, Chairman of the Press Committee, has issued the following circular to all Michigan Endeavors:

The Convention dates are settled—they are March 26th, 27 and 28th. Are you coming? You will want to when we tell you of the good things in store for those who come. A word about our program. The convention will open with a prayer meeting at 4:30 Tuesday afternoon, followed by a rousing session that evening. Next morning three sunrise prayer meetings with forenoon, afternoon and evening sessions. Thursday morning, 7 o'clock consecration meeting, with three sessions, same as Wednesday, ending in an inspiring farewell service. Two days and a half filled full of good things—many new features introduced.

A provisional program will be issued a little later, giving a full outline—watch for it. Free entertainment will be furnished under the following conditions: All persons must be members of some Christian Endeavor society. The names must be sent by your Corresponding Secretary to W. K. Hough, Chairman Entertainment Committee, care Y. M. C. A., Bay City, Mich., on or before March 20th. Upon receipt of the names, cards bearing numbers will be returned to your Corresponding Secretary to be handed you. Upon presentation of this card properly signed, at Entertainment Bureau, First Presbyterian Church, a slip showing your place of assignment will be furnished you. The plan is the same as that used by the Detroit committee.

On account of the large amount of work incident to providing free entertainment, it is greatly desired that all Endeavors send in their names at the earliest possible date.

The main sessions of the Convention will be held in the beautiful Presbyterian Church, corner of Center avenue and Jackson street. This church has a seating capacity of 1,500 and will be an excellent place of meeting. Overflow meetings will be held each evening in the first Baptist church, which also has a large seating capacity. These churches are located within two blocks of each other, in the center part of the city, and street cars from any part of the city will bring you to the door of either church.

A trained chorus of 75 to 100 voices led by a capable director, a soloist of exceptional ability, together with the delegates, will inspire the Convention with song. We want this Convention to be known as the "Singing Convention," and are planning accordingly.

A unique Convention badge will be furnished at a small cost, which will serve as a souvenir of the "best Convention yet."

"White Caps," as usual, will receive you at all trains, and give you a welcome long to be remembered, and not only the "White Caps," but all are anxiously awaiting the time when we can prove the words which were displayed on our banner when

we asked you for the Convention, "Welcome, Michigan Endeavors, to the Bay Cities, '95."

Read carefully the request of the Entertainment Committee, as it is very important.

Decide to come—send in your name—then bear the Convention constantly on your heart in prayer, and then come and receive a spiritual uplift.

Our city is yours, our homes are yours, our hearts our yours, Come and occupy them for a season. We've said enough.

"The South before and after the War," was the subject of a lecture by Mr. Macduff, at the opera house Wednesday evening, under the auspices of the L. L. C. The lecturer held the interests of his audience for about two hours, touching upon the various phases and conditions of human life; the origin of slavery and its introduction into the American colonies, and its final abolition as a result of the Civil War. His stories of southern life in ante bellum days were very amusing.

## A Sign of Peace

is the downcome of war time prices.

The during-the-war price of baking powder was 45 to 50 cents a pound. Cream of tartar was then 49 cents a pound, soda, 6 cents. Cream of tartar is now 18 cents, soda, less than 2½ cents.

Still the would-be monopolists want the same "war" prices (45 to 50c. a pound) for their products.

## CALUMET Baking Powder

is sold at a "peace price"—brings peace to homes where the high priced baking powders have been breeding dyspepsia and disagreement.

\$1,000 to you if you find Calumet isn't perfectly pure. A pinch of it has power enough to do a pound of leavening.

THE 53d congress is now a thing of the past. Notwithstanding all the abuse heaped upon it, it was not half so bad as some would have us believe.

THE democracy of Michigan again put itself on record, at Saginaw, last week, as being on the right side of the money question. It declared in emphatic tones in favor of the free and unlimited coinage of silver at the ratio of 16 to 1.

At the Democratic State Convention last week John W. McGrath was unanimously re-nominated for the office of Justice of the Supreme Court. This unanimous nomination is a just recognition of the ability of one of the ablest men who has ever sat on the supreme bench of Michigan. During Mr. McGrath's term as one of the Justices of highest court of the state his decisions have been, clear, forcible and just. His re-election will be a credit and honor to the state.

Oh, how many sad lives we might brighten if we would only scatter seeds of kindness all-around the way. We often keep back the word of encouragement, the smile or look of love until it is too late, then we think of what we might have done. Don't wait until your friends are dead before you offer the words their hungry hearts can understand. Speak to them tenderly and you may guide them to the way of right and duty. Your own heart will be happy as theirs. Don't forget the sweet maxim; "A little word in kindness spoken will often heal a heart that's broken." Try it.—*Ex.*

SECRETARY of State Gardner issued a census bulletin last Thursday showing the number of farms of Michigan, classified as to tenure, and dairy statistics of the state. The total number of farms is 177,952, of which 149,003 are cultivated by the owners, 9,127 rented for a fix money rental and 19,732 rented on shares. Compared with the census of 1894, there is an increase in the total number, 10,579 in the number cultivated by owners, 3,470 in the number rented for money and 6,523 in the number rented on shares. During the census year a total of 212,070,373 gallons of milk was produced on farms. The value of the milk and cream sold was \$2,970,385. A total of 48,951,378 pounds of butter and 206,660 pounds of cheese was made.

GERMANY is alarmed at the possibilities of the beet sugar industry in America. The remarkable success which has been achieved by our factories at Chino and Watsonville, Cal, has attracted the attention of the sugar industry in Germany. They realize that should this industry become thoroughly established in the United States, it would develop so rapidly as to entirely supply the American market, which is now depended upon by France, Germany and Cuba to take their surplus of sugar. This also explains the tremendous efforts that Germany has made to secure the repeal of the one-tenth of a cent differential duty on her sugar. With a permanent and liberal policy toward the sugar industry, the Orange Judd Farmer has long been confident that the United States could produce its own sugar. We have frequently made the statement and still believe it, that had the sugar schedule of the of 1890 remained undisturbed, the close of the present decade would have seen American sugar a competitor in foreign markets. The reduction in the price of machinery for beet sugar mills, as well as the decline in values of all other supplies, makes the risk of the sugar industry much

less than was formerly the case, and it only needs to be given a show to become a large and profitable business, paying handsome returns on the actual capital invested and giving the farmer more money for his time and labor than he now receives from any of the staple crops.—*Orange Judd Farmer.*

### Life-Saving Stations.

It is officially announced that Lieut S. M. Landrey, of the revenue cutter service, has been detailed as assistant inspector of the ninth and tenth life-saving district, and will soon be in Detroit to relieve Lieut J. C. Moore who has been filling that position three years. Lieut. Landrey is about 30 years old, and a graduate of the training ship Salom P. Chase, which makes its headquarters at New Bedford, Mass. He graduated in 1888. The master of the bark at that time was Capt. Daniel B. Hodgson, now commander of the revenue cutter Fessenden. Daniel Hodgson, says Lieut. Landrey is a fine fellow and will make a capital inspector. His field of operations will comprise Lakes Superior, Huron Erie and possible Ontario. It is not known where Lieut. Moore will be ordered, or whether he has received any instructions yet.

### Food That Dries The Milk.

A good cow will not be hurt in her milking by any of the ordinary foods in use, if given in moderation. But there are cows that will rather turn their food into milk, and such cows may be dried by overfeeding such strong food as cornmeal and other grain. Bran will not be apt to dry a cow under any circumstances, and thus it is a safer food than meal for such cows as are apt to fatten when well fed. Every owner of cows should carefully test each one to discover her character in this direction, for it is very true that a large proportion of cows kept do not pay for their feeding, and, of course, are not profitable. More cows of this inferior kind for milk and butter will be commonly found among the shorthorns.—*Germantown Telegraph.*

### A little Talk on Advice.

There's no end to the advice given to women these days. "Do this," "don't do that," and the worst is, even were one inclined to follow the instructions given, the teachers don't agree. Somebody has just discovered that gloves wrinkle the hands and are bad for the nerves. The discovery comes too late to help those unfortunates who are dead, and who never knew why their hands became wrinkled; and it is a little late for a generation educated to believe a woman not properly dressed unless immaculately gloved. But, of course, we believe it, even if like "Little Lord Fauntleroy," we "don't quite think it's true." But how about those English ladies called "gentlewomen," who always wear mitts or gloves, even in the house, and whose hands are proverbially soft and smooth?

### Logical.

One of our practical dairymen says: "The farm cheese-maker, like the farm butter-maker, can make a much better cheese than it is possible for the factory to make, even though the factory man is honest, for he can be sure of having good milk from healthy cows. The factory, getting the milk from hundreds of cows, is sure to get some bad milk, some diseased milk, and more or less essence of manure in the milk. The farm cheese-maker need have none of this kind of milk. It requires skill to make good cheese, but if the peasants of Europe can acquire that skill there surely ought to be nothing to hinder an American farmer from acquiring it."—*Farmer's Home.*

Eureka Chemical and M'fg Co., La Crosse, Wis. St. Paul, Minn., Sept. 7, 1894.  
Dear Sir,—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.  
Yours very truly,  
C. W. HORNIKE.

The legislature has flunked in the matter of ordering a general reregistration for the approaching April election. A number of the senators were of the opinion that a re-registration would lose the republican party thousands of votes in the country districts, hence the bill will not be reported out of the committee until after election. The only way for the constitutional amendment, in reference to the qualification of voters can be put in effect is to have the challengers of each party challenge those who may not have the right to vote under the amendment.

Treasurer—George Koenig.  
Assessor—A. F. Zeiter.

Under the new law passed by the present legislature the street commissioner and constable are appointed, and not elected, this accounts for the fact that no nominations were made.

Next Monday it is the duty of every good citizen to go to the polls, and see that men are elected that have the best interests of our village at heart.

Both parties have nominated excellent tickets and are worthy of your hearty support.

### Obituary.

Daniel Simpson, after many months of illness departed this life, Sunday, March 3d, 1895.

The funeral services were held at his residence, March 5th, Rev. P. Schermerhorn officiating. Text, Heb. 9:27 and 28.

Mr. Simpson was born in Scotland, Oct. 25th, 1810. Removed to Canada when young, was joined in marriage with Miss Jessie Murrey, 53 years ago the 3d day of last November. He was father of one son and one daughter, both deceased.

From Canada they removed to this country where the last 30 years of his life was spent. It was his desire that he be buried on his farm, and the place of his selection was a slight elevation, under the shade of a beautiful white birch tree.

A strange coincidence in his birth and death was, that he was born and died on Sunday. Just as last Sabbath was closing, and the evening shades were gathering about him, so closed his physical vision amid the shadows of death. He leaves a loving and dutiful companion, adopted children, also other relatives and friends to mourn his loss. \* \* \*

### Then And Now.

There was a time when he who would keep informed of the progress of knowledge, the record of discovery and invention, and the currents of human thought, could and indeed must rely chiefly if not wholly upon books. That day has passed. Books we must still read, as the crystallization and permanent embodiment of human thought and knowledge. But to-day it is the newspaper, the magazine, the periodical review, upon which we must chiefly depend if we would follow closely the intellectual movement of the day. And now a new difficulty has risen. The newspaper and periodical literature has become so multitudinous and bulky as to be a heavy burden to the busy man or woman, while even the person who has leisure and inclination to read widely is often unable to get access to the current publications. Especially the smaller cities, villages, and rural districts is the lack of such opportunity felt. It is felt by the clergyman, the teacher, the lawyer, the physician the merchant, the artisan, the farmer and the cultured and thoughtful woman of the household. With all these and many other classes of persons the great practical literary question is: How can I best supplement my indispensable home paper? It was to answer this question and meet this demand that Public Opinion (now published in New York City) was founded nine years ago. It selects the best, condenses it to the last degree, and serves it in convenient and attractive form. The Public Opinion Co., New York City.

### SCHOOL NOTES.

Maggie Murphy is in school again. Johnnie Steward is in school again. Martha McDonald is in school again. John Myles made us a short visit last week.

Iva Bagley is a new scholar at the ward school. Will Waterbury is a new pupil for the high school.

Arthur and Kittie Keiser are absent from school this week. Emma Howey was out of school part of this week, on account of sickness.

The pupils of the twelfth grade will finish Algebra in about three weeks. A good deal of interest is being manifested by the advance pupils in the review work.

Rev. Cope, of East Tawas, and Mr. Boone, of Detroit, were callers at the high school. The ninth, tenth, eleventh and twelfth grades are preparing for teacher's examination.

Miss Anna Kehoe and Miss Nina Henderson visited the high school Tuesday afternoon. Miss Dunn and Miss Funk purchased sets of Columbia Cyclopedia this week of Mr. Boone.

Miss Minnie McDonald will return to Tawas, the 26th, for the purpose of attending school. Mr. Boone is agent for the Columbia Cyclopedia, and we hope that he will persuade the school board to buy a set for the use of the school.

Owing to the general review which the scholars are now making for the term examination in March, the school notes this week are few and far between. On the 19th of February a member of the 12th grade, on being asked who the school board were, replied that (he or she) doubted the fact of our having any, for the reason that they were never seen.

Saturday at 5 o'clock the sheriff took possession of the stock of goods owned by Stern & Son, of Harrisville, by virtue of a writ of attachment in favor of Lawrence Webster & Co., of New York. Morse Marks, of Au Sable, got out a writ of replevin, claiming the goods to be his property, and F. A. Beede, as coroner, took them from the sheriff. As soon as an inventory is taken it is reported other creditors stand ready to attach them again, claiming fraud on the part of Stern & Son in giving Marks a bill of sale of their stock. The stock of goods has been in litigation since November last. There is some talk of a settlement. Dafee & Gustin, attorneys for Lawrence & Webster, want 100 cents on the dollar and all costs.
