CHURCH NEWS.

Chicago now numbers 128 Methodist churches. The last one was dedicated a short time ago.

There are 514 societies of Christian Endeavor in Connecticut, with 35,000 members, and 180 junior societies with a membership of more than 7,000.

The Board of Home Missions of the Presbyterian Church reports total receipts for ten months of \$571,969, a gain of \$118,987 over the receipts for the corresponding period last year.

In spite of all its troubles, Madagascar has sent an appeal to the British and Foreign Bible Society for more Bibles. Ten thousand copies of St. Luke were requested and sent to the Northern Committee and 5,000 to the Southern.

The Chicago Bible Society, fifty-three years organized, has raised and expended over \$280,000 in its work, and has supplied over 600,000 copies of the Scriptures to the people. It is now appealing for funds to erect a Bible House.

Young Women's Christian Associations are making good progress in Germany. A society, which erected a home for factory girls in Berlin, and intends building a second one now, has appointed a pastor as secretary for the work.

The B. Y. P. U. is making rapid progress in Alabama. Nearly every important church in the State has a Union. It is proposed to hold a State Convention soon, either in Mobile or Montgomery. Churches in both cities have issued cordial invitations.

Dr. A. A. Fulton, writing to "The Interior" from Canton, China, says: Four Christian Endeavor societies in three years, by use of two cents a

week plan have reached 27,000 patients and preached to more than 100,000 persons in 1,114 villages. I send the three years' report. They have just started on a fourth years' work. If every society in our church used this plan, we should have \$250,000 per year.

FOR RELIGIOUS TOLERANCE.

The New York World contains the following: A movement among the clergy and churches of all denominations, Protestant and Catholic, in Bay City, Mich., has caused no little sensation. A Congregational minister, in his thanksgiving Day sermon, deprecated bigotry and intolerance and wished that all Christians of whatever sect might come together and mutually understand and help one another. The remarks were made public and commended by a prominent Catholic priest. Others took up the suggestion, informal meetings were held, and soon a public meeting was called at the opera house, at which a great audience of leading citizens were present. Catholics and Protestants made addresses, the miscellaneous congregation sang familiar hymns, and an organization was perfected. Shortly after the clergy-men got together and adopted a platform which for tolerance, good sense and Christian spirit, is most commendable. This rather novel action is universally commented on and generally received with favor.

Right in line with the note above comes the report that a movement is on foot looking towards a union of all churches of every faith in New York City. A great deal of interest is taken in the plans, although no public announcement will be made until something decisive is done. The idea is to work coherently for the promulgating of the Gospel among non-churchgoers. The movement will be along lines entirely different from anything ever before tried.

The Grand Marais Herald, has a big roast for an East Tawas man, in its last issue. We have not seen the article in question, but it must be a hot one, judging from the description given us,

At the village election last Monday the citizens ticket with an exception, carried the day with the following result:

President—W. M. Locke.
Trustees—Luce, Goodale and La-Barge,
Clerk—G. N. Benton.
Assessor—E. Kunze.
Treasurer—W. A. G. Flynn.

Walt Warren has acquired a half interest in the Wozner meat market. Beefsteak, mutton, chop, pork, bologna?

Saturday evening about 8 o'clock fire was discovered on the second floor of the house occupied by J. J. Holmes, just north of the old Miner house barn. Mrs. Holmes, who is a nervous little woman, organized herself into a temporary fire brigade, and with a couple of pails of water and a dipper, quipped the incipient conflagration before the fire department arrived on the scene.

Election Tickets.

For the April election, the State and County tickets will be on one ballot and the Township ticket on a separate ballot.

The first will be printed under the direction of the county board of Election Commissioners, and a proof must be on file with the County Clerk at least ten days before election.

The Township tickets will be printed under the direction of the township board, and a proof must be on file with the township Clerk, at least five days before election.

The HERALD office is prepared to execute all orders for tickets in a satisfactory manner.

THE salaries of the superintendents of the Life-saving service has been equalized. This was done in some instances by increasing the pay and in others decreasing it. The salaries of the superintendents of the Ninth district composed of Lakes Ontario and Erie; the Tenth, composed of Lakes Huron and Superior, and the Eleventh Lake Michigan, have been reduced from \$1,800 to \$1,600, while the salaries of the four superintendents along the coast of the eastern states have been increased to \$1,600. The reduction of salaries of superintendents along the lakes will no doubt cause much indignation.

THE March crop report contains the startling statement that before March 1, the entire wheat crop of Michigan 1894 had been exhausted and that the people are now using the reserves of previous years. The product reported in October, 1894, was 21,657,646 bushels; of this amount 1,662,000 bushels were used for seed, 6,627,000 for bread for farmers, 8,006,618 were sold and 4,758,000 fed to stock, leaving a balance of 574,031 bushels, which are easily wiped out by unreported sales. The amount of wheat marketed by farmers each month is much less than in the same month of the year before, thus confirming the conclusion of the crop report. From August to February the decrease was 2,278,421 bushels.

THE announcement from Ottawa that the Canadian government has decided that booms consisting of sticks and chains, when imported into Canada from the United States for the purpose of enclosing, confining or towing to the United States logs of timber of Canadian growth are to be free from customs duty is of the greatest importance. It means in effect, that our mills which depend upon Canadian logs for their operation will be enabled to run continuously for years to come, unless the government should suddenly decide to reverse its decision, which is not probable now. The action of the Canadian authorities was dependent upon admission to this country free of duty of Canadian made boomsticks and chains.

American Meats Vouched For.

Secretary Morton makes the following statement relative to the meat trade of the United States with certain foreign countries:

"Export American beef is of such a high quality that a parliamentary committee in England, in the year 1893, reported that in some of the most fashionable and aristocratic markets of London it was frequently sold as 'prime Scotch and English meat.' In fact, the committee said that in some of the large meat-selling establishments in the aristocratic West End of London there was practically no other than American meat sold. Yet it was called 'English and Scotch.'"

"The prices of American dressed beef per 100 pounds at the Central meat market of London December 31, 1894, were as follows: American beef killed in England, \$10.12½ cwt. to \$10.87½. Refrigerator American beef \$11.12½ to \$12.12½ per cwt, for hind-quarters; for forequarters, \$7.50 to \$8.

"The United Kingdom of Great Britain received during the first nine months of 1894, 305,910 beef cattle from the United States and paid \$26,500,000 for the same. During the same year Great Britain took 243,244,000 pounds of bacon from the United States at a valuation of \$26,800,000. For the nine months ending September 30, 1894, the United States exported into the Kingdom of Great Britain 222,675,000 pounds of

bacon, as against 179,000,000 pounds during the corresponding months of 1893. Thus it is observed that the bacon trade between the United States and Great Britain was increased about 45,000,000 pounds during the year 1894. But during the year 1894 Germany took from the United States altogether of live cattle, up to the close of December 31, only 6198 head, Belgium took during the same period of time of live cattle 4,633 head, while France consumed, of American cattle, 13,441 head.

"From January 1, 1895, to February 19, 1895, the date of the last report made to the United States Department of Agriculture, France had taken 18,335 head of live cattle. During the calendar year 1894 France took of America beef, salted and canned, 7,763,379 pounds, at a valuation of \$621,682. During the same period of the same kind of beef, Germany took \$992,757 worth. During the six months ending December 31, Germany took of pork products 9,431,535 pounds, and France received from the United States of the same products in the same time, 3,903,704 pounds. The meat producers of the United States send only the very best grades of live cattle and dressed and cured meats to the European markets.

"It is claimed by the United States international dealers in meats that all the hue and cry against the edibility of America meats and all the charges made against the sanitary conditions of America live cattle are inspired by the land owning protectionists of Germany and France. They desire, it is said, to make cattle and meat higher in the German and French markets by making cattle and beef scarcer.

The herds of cattle and swine, in fact all the domestic animals of the United States, are in splendid sanitary condition. There has not been a case of pleuro-pneumonia in the United States or Territories during the last three years. There are no contagious infectious, or communicable diseases now prevalent among the domestic animals in any State or Territory of the Union. There has not been and will not be shipped to any European port any animal or the products of any animal which has not been inspected and declared healthy, wholesome, and edible. The United States will continue to furnish all meatless Europe with the best and cheapest pork and beef in the world."

Secretary Morton has received a report in regard to the demand for American horses in the United Kingdom. This report shows that from 15,000 to 25,000 horses are imported annually into that country, most of which have in the past come from the continent of Europe.—*Prairie Farmer.*

Reading For Country Homes.

Calling at a delightful home in an Illinois city, occupied by a family of wealth and literary tastes, the writer was interested to find two or three magazines and reviews, each in neat, home-made heavy paper covers and with a list of other magazines and papers, and also a list of names of ladies forming the club which subscribed for the collection. The lady of the house spoke of the arrangement as working very nicely. The saving of expense, although not so important to her as to many, was named, as one advantage. The stimulus to more extensive and careful reading, the help which comes from having a number of intelligent people reading the same things and they having subjects of interest to all to talk about when they meet are other obvious advantages. This is not given as a new or especially rare thing. But the incident suggested the thought that this plan of co-operation in securing reading matter is not nearly so common as would be desirable. If a lady of wealth thought it helpful, certainly the plan is worth consideration by the many families in villages and on farms where money is not plentiful, yet where there is, it ought to be, a desire for good reading. There would be more inconvenience in exchanging papers or magazines in the country than in cities and villages, but they could be passed from one neighbor to another at intervals of a week, for

instance, without much trouble. If a half-dozen or eight or ten families made up the club, the payment by each of the price of one good magazine, or high-class literary paper would secure to all a good supply of reading for all the year. One would not care to get "news" in this way, but magazines and educational, scientific reviews or the best of the literary or religious weeklies have nearly equal value whether read when they are fresh from the press or a week or a month later. Something of the same work may be done in the matter of book buying. Lending books is typically annoying work. But if there is a regular system, where each person is equally a borrower and a lender, more care will be taken to keep the books in good condition and to return them at the time agreed upon. Books of many kinds, as well as many papers and magazine, are cheaper than ever before. Good ones should be more widely read than ever before.—*Prairie Farmer.*

DON'T STOP TOBACCO

IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about BACO-CURO. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box or 3 boxes (30 days treatment and guaranteed cure.) \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. Dear Sir.—I have been a tobacco fiend for many years and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.

Yours very truly,
C. W. HORNICK.

 "Here, Benny" said Mr. Bloom-bumper to his young son, as the latter started to church, "is a five-cent piece and a quarter. You can put which you please in the contribution box." Benny thanked his papa and went to church. Curious to know which coin Benny had given, his papa asked him when he returned and then he replied. "Well papa, it is this way: The preacher said the Lord loveth a cheerful giver, and I knew I could give a nickle a great deal more cheerefully than I could a quarter, so I put the nickle in."
 Robert Burdette in delivering a lecture before a large audience, gave them the following good advice: When you feel like saying unpleasant things about mankind, get away from the crowd for a little while every day and think. Stand on one side and let the world run by, while you get well acquainted with yourself, and see what kind of a person you are. Ask yourself hard, cold questions about yourself, ascertain from proper sources if you are always honest, if you always tell the square, perfect truth, if your life is as upright at 11 o'clock at night as during the afternoon, if your are as good a temperance man on a fishing excursion as you are at a Sunday school picnic, if you are as good when away from home influences as while at home, in short, if you are this sort of a man, then and not until then, are you qualified to criticize your neighbors.

A CITY!

It Was Thus Decided At The Citizens Meeting Last Evening.

WITHOUT A DESENTING VOICE.

Pursuant to a call issue a citizens meeting was held at the village hall last evening to consider the advisability of incorporating the village into a city. The town hall was packed, fully 200 of the representative citizens being present.
 Wm. Nisbet was made chairman and M. Murphy secretary of the meeting. Speeches were made by A. H. Phinney, A. G. VanWey, W. B. Kelly, C. A. Jahraus, Supervisor Murphy, Dr. Darling and others, all favoring the proposition. No opposition was manifested and when a vote was taken it was unanimous in favor of incorporation.

A committee of six was appointed to draft a bill to be presented to the legislature at once with instructions to have the bill passed immediately so as to hold the first city election at the same time of the coming spring election. The following compose the committee: W. B. Kelly, M. Murphy, G. L. Cornville, G. S. Darling, A. H. Phinney, and J. M. Waterbury.

Village Election.

For the first time in the history of our village party lines were drawn at the charter election last Monday. But very little interest was manifested and the result was mixed. The majority ranged from one on president to 30 on clerk. The following were elected:

President—M. Murphy.
 Clerk—E. A. Crandall.
 Treasurer—J. M. Walker.
 Assessor—A. F. Zeiter.
 Trustees—Henry Funk, James Hamilton and G. E. Gaul.

Circuit court was in session at the court house in AuSable Tuesday and Wednesday. The case of George D. McKay vs. Township of Oscoda and the case of the Gratwick, Smith & Fryer Lumber Co. vs. The Township of Oscoda, were tried. In these cases the plaintiffs sued for the recovery of taxes of 1892 paid under protest. The basis of their claims was that about \$50,000 worth of lumber, which was assessed by the supervisor, but against which the board of review ordered no tax spread, was wrongly left off the tax roll, and that consequently the taxes on other property was increased unjustly. The claim of the defendant township was that the board of review acted honestly and according to their best judgment, and that in such a case no recovery could be had. Judge Sharpe agreed with the plaintiffs and directed a verdict in favor of McKay, for \$388, and one for about \$300 in favor of the Gratwick, Smith & Fryer Co., the being the amounts which the plaintiffs paid in excess of what they would have paid had the tax been spread against the \$50,000 worth of lumber. The cases will probably be appealed to the supreme court.—Oscoda Press.
