CHURCH NEWS.

Dr. Parkhurst is learning to ride the bicycle.

The first bible printed in the point alphabet for the blind has just been issued in Louisville, Ky. It contains 1839 pages.

The Y. P. S. C. E., will hold a business meeting at the church this Friday evening. All members are requested to attend.

Chicago clergymen have formed a club to instruct prospective missionaries in foreign languages by means of the phonograph.

The remembrance of the Divine Heart of Jesus is a source of consolation and joy; oh, how good it is to make one's dwelling therein.—St. Bernard.

There is always danger to those who have to talk much about religion that the religion may become that of the head rather than the true religion of the heart.—Catholic Register.

London has what is called the Police Court Mission. It is a most commendable work, and might well be imitated in our country. This institution is under the auspices of the church of England Temperance Society. Its last annual report shows splendid results. Its workers made 12,460 visits to the police courts, 2,823 persons were helped to live honestly and soberly, 1,207 girls and women were rescued from a life of shame, clothing was furnished in 1,533 cases and many persons were helped. The mission has also founded a labor home for men, and a shelter for boys. The clergy of London are unanimous in their approval of the movement, and the police court magistrates find it possible to exercise humanity in the administration of the law.—New York World.

OUR NEIGHBORS.

GATHERED BY OUR SPECIAL CORRESPONDENTS.

SHERMAN.

Ed Higgins made a few calls in East Tawas Tuesday.

Mrs. Goodwin, mother of Mrs. G. A. Pringle is visiting the latter.

Election, like March winds is watching in full force across the continent.

Frank McGrady came up from Rosconmon Tuesday, returning Wednesday.

Minnie Shippy closed a highly successful term of school in district No. 3, this township, last Friday. Miss Shippy has gained the love and esteem of both parents and pupils, who wish her success in her every effort knowing that a teachers life is not all sunshine.

Supt. of schools, A. C. Kay visited our schools on Thursday and Friday of last week and reports them as progressing finely. We believe Mr. Kay to be the right man in the right place, and hope every voter in Sherman when casting their vote will remember that Mr. Kay is not burdened with other duties, and in all fair dealing is the man best fitted for the office of county school inspector.

Miss Bertha Pringle closed her school in district No. 2 on Wednesday of this week. Miss Bertha is one of the most promising young teachers of this county, this being her first term her success is all that could be asked and even surprising to some of the older teachers who have visited her school. We are to be congratulated on having three such good teachers during this last term.

SCRIBLER.

PRESCOTT.

C. E. Cannon contemplates removing his family to Columbus, Ohio.

Mott Cannon took his departure for Indianapolis, Ind., this week.

Zach David was in Bay City last week purchasing a car load of horses.

Will McDonald, has been at West Branch this week, on township business.

Mrs. J. B. Hettinger, of Dearborne, Wayne County, died last week, after an illness of a few days.

James Orr, who has been seriously ill for the last two weeks, with inflammation on the lungs, is somewhat better.

C. E. Cannon has served his connection with the Keystone Milling Co. Having sold out his interests in the firm to Barney Mills.

George H. Knight is constructing a new dwelling house, on Lincoln Street, having disposed of his residence, on Washington Street.

Pierce & McCassey have the agency of the Deering Harvesting Machines, and will doubtless receive a fair share of public patronage.

The settlers did not manifest much interest in the Republican caucus, held here Tuesday of last week. It was attended principally by camp men.

The People's Caucus held here Saturday was largely attended by the settlers, not by camp men. The following nominations were made: Supervisor, Wm. Maurer; clerk, Frank Pierce; treasurer, Chas. E. Francis; highway commissioner, Henry Richardson; school inspector, Archie McMillen; justice, L. B. Fletcher.

City Election.

Next Friday will occur the first city election for Tawas City. Every citizen should take it upon himself to see that the best men are elected to the offices. In order to do this every good citizen should attend his ward caucus, and see that good men are nominated and then go to the polls on April 5th and see that they are elected.

None but active, wide-awake men should be elected, men who will spend their time in looking out for the best interests of our city, and men who have advanced ideas.

Every man who has the interest of Tawas City at heart will see that his name is on the register of his ward before next Saturday night and will be on hand Friday, April 5th, to cast his vote for men who will advance the interests of our city. Do not fail in this important duty.

THE COL RADO EXPERIMENT.

The Women Most Directly Concerned Express Opinions as to Its Results.

The three women legislators of Colorado are essentially womanly women and do not at all correspond to the usual description of women suffragists.

The session of the legislature had hardly settled down into working order before it became apparent that the advent of the women had a marked effect upon the conduct of affairs.

"I doubted the expediency of this departure," said Mrs. Klock, member from Arapahoe, to The Sunday Post-Dispatch correspondent, "partly because of our inexperience and partly because of lack of ability to justly and properly perform the duties intrusted to us, but after two weeks of actual experience I am now fully convinced that in legislative assemblies women have a position where they can do a great deal for humanity.

"There are but three of us here, but next time there will be more. Three can do something, if necessary. We can protest, but anyway we can assist, so far as we are able, to legislate in the best interests of the commonwealth."

"Well, I can frankly say that I did not like it at first," said Mrs. Holly of Pueblo. "I thought we had made a great mistake, but now I am satisfied that we can do something, and I begin to take a great interest in this work."

"Like it?" repeated Mrs. Cressingham of Denver. "I should say I do. It is exhilarating and exciting. I find that the men are disposed to treat us fairly, but they are fast growing to find out that we are not to be depended upon to enter into deals or connive at caucus tricks, and we may be left undisturbed.

"After the struggle over clerkships ended, over which there was a little unpleasantness, matters have gone on smoothly enough. In committees we get along harmoniously, and I am sure we shall make a success of our experiment.

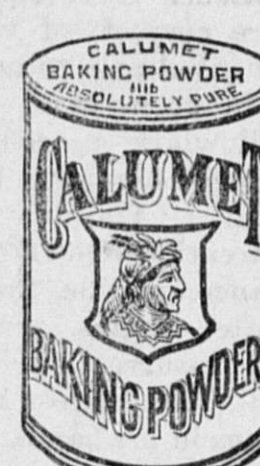

"We know that the suffrage movement may be injured by indiscreet action on our part, and we have to be very careful. What would pass entirely unnoticed in men will be made prominent enough when we are to be considered, so that the position we occupy is not the most easy to fill. I am afraid more of ridicule and misrepresentation than of anything else."—St. Louis Post-Dispatch.

Rev. Mrs. Sprague.

Rev. Mrs. Lila Frost Sprague, who was ordained with her husband, Rev. Leslie W. Sprague, in All Souls' church, Chicago, in 1890, and who has served the Universalist church at Monroe, Wis., as associate pastor with her husband, also the Unitarian church of Pomona, Cal., has not, owing to maternal duties, been doing active pastoral service for two years except as pulpit supply. But Mrs. Sprague now again goes on the list of woman ministers in active work. She was called in February by the trustees of the Second Unitarian church of San Francisco, of which Mr. Sprague has been pastor for two years, to act as assistant pastor and was duly authorized to represent the church in all the pastoral offices and to relieve Mr. Sprague of part of the pulpit work. In addition to this she was chosen to superintend the Sunday school. Mrs. Sprague is the first to officially occupy the pulpit in the metropolis of the Pacific.—San Francisco Letter.

In the Illinois legislature the bill to give women township suffrage has been defeated by one vote.

SCHOOL COMMISSIONER.

Election comes Monday, and has been urged before, again when we urge you to think well before you cast your ballot for the office of county commissioner of schools. Of all the offices filled at this election, the one under discussion effects the greatest number of houses, every family which numbers among its members persons between the ages of five and twenty must be affected by this office.

To-day we have among us, as pupils in our schools, those who are to be in years to come our leading citizens. Some may possibly be leaders in our state or national affairs. We all know that a man's ability and usefulness depends almost entirely upon his education. It is our duty to provide this coming generation with the best means of education within our power, and a sure way of doing this is to go to the polls next Monday, and putting all chance aside (to do so you may have to put party prejudices in the same place) and vote for a man you know will fill the position as it should be filled.

Let us take a glance at what has been going on in an educational way in this county during the past two years. Then we may judge as to whether or not the present incumbent, Mr. A. C. Kay, is qualified to educate our youth in the way we wish it or not, if we find he is, then by all means let us continue him in the office, for then we will know it is well filled.

When Mr. Kay came into this office two years ago, there was no organization among the teachers, no system of study for teachers who wished to improve themselves, an official visit to the district schools was a rarity, and the extent of ambition of the great majority of teachers was simply to get a 3rd grade certificate, and there stop. A summer normal where our teachers could get instruction for a better certificate, without leaving home was not dreamed of.

Mr. Kays first move on entering upon his duties, was to get a regular series of meetings for the teachers of the county. In doing this he had to work against the authoritative discouragement of several principles and school boards, but he was successful, all the progressive teachers of the county attended these meetings.

The international reading circle was then introduced and it has held regular meetings since.

During Mr. Kays term the district schools, for the first time in their history, have been faithfully and conscientiously visited. Not a single school has been missed, and most have been visited several times. He has devoted at least three days a week to his work, and his office has been in fact not in theory alone, the center of all educational affairs in the county.

Reader, can you see where any other man in the county will give as much time to his work as Mr. Kay has given? Can you see how his opponent, an active teacher, can fill the office as well as Mr. Kay has?

Let those interested in the above problem injure their brains in solving it we offer this solution. Mr. Osgerby has all of his Saturdays to himself also the Christmas and Easter vacations. He might visit schools then. But most district schools do not keep Saturdays, all have Christmas vacations and most of them are out before March, and do not commence the spring term until the middle of April. So he could not visit then either. We will give it up. We cannot see how the East Tawas board will allow Mr. Osgerby to wander around the country visiting schools a month, when they are paying him \$110 a month to devote his energies to East Tawas

schools. If they do they are not doing their duty as a school board, that is all their is about it.

The normal Mr. Kay organized last summer helped a number of our teachers to a better certificate, not as an unsuccessful candidate for the nomination of school commissioner has said, through favoritism but through long days work during the hottest part of the summer, and if Mr. Kay is given the office again, more teachers will be given a chance to improve again this summer. It depends upon you Mr. voter.

To-day our county second on the list of counties containing first grade teachers. Under the law all first grade certificates are issued from Lansing, by the state superintendent. So far but 50 of these new certificates have been issued, and the county having the most is Mecosta, which has seven, our county comes next with five. Several other counties have three or four each.

Don't let anyone delude you into the idea that this is the result of favoritism either, for these certificates do not bear any commissioners standing. They are marked by Mr. Pattengill, and are signed with his name.

All the facts shown here give us an insight of the state of affairs in the county in an educational way. We have certainly made much progress in the last two years. Voters, A. C. Kay did more to make this as it is than any man in the county. Don't forget it next Monday.

It is a principle of county politics to give a good man two terms. Friends does not Mr. Kay deserve two terms? Can any man do better than he has done? Do not be led aside from your judgement by party prejudice. Vote for one you know is a good man.

The opposing candidate is a man of culture, and his work in East Tawas proves he is a good organizer, yet is not Mr. Kay equally as good. Taken together these two candidates are the two best men in the county for the office, but Mr. Kay deserves the office this time on the ground at least of what he has done. Reader, what think you. *.*

The Grass Crop.

The value of the grass crop is being better appreciated with each year. Farmers have been slow to understand that the grasses of the country are the principal source of wealth, and have not paid as much attention to that matter as they should. Since baling hay has become a great industry more care has been taken of the meadows, but there is room for improvement in this direction yet. The hay crop is one that costs less to harvest than almost any other crop on the farm, and every farmer should so care for their meadows that the largest possible crop may be grown on them. The demand for hay is large and constantly growing, and there has never been a time when it was not profitable to grow. With the modern appliances it is entirely possible for the farmer, with the help of one man, to put up more hay than could have been put up by ten men a few years ago. No class of machinery is more complete than grass cutting machines now are, and within a few years almost perfect machines have been placed on the market for gathering the hay after it is cut and cured. In a great many sections where wheat is now grown at a loss, some of the grasses or clovers might be substituted and made into hay and sold at a much larger profit than can be realized from any other crop. If hay is not king now, it is at least heir apparent to the highest place in the agricultural kingdom.—Austin Goode in Hay There.

DON'T STOP TOBACCO

IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about BACO-CURO. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box or 3 boxes (30 days treatment and guaranteed cure.) \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. Booklets and proofs free. Eureka Chemical & Mfg Co., La Crosse, Wis.

Office of THE PIONEER PRESS COMPANY, C. W. HORNICK, Supt.
Eureka Chemical and Mfg Co., La Crosse, Wis. St. Paul, Minn., Sept. 7, 1894.

Dear Sir:—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured; I am in perfect health, and my horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.

Yours very truly,
C. W. HORNICK.

LOU M. BENTON.

The republicans will hold their Ward caucus to-morrow evening at 7 o'clock and their city convention at 8 o'clock the same evening. The first ward caucus will be held at Prescott's old store building; the second ward at the store building lately vacated by Mrs. Hurlburt and the third ward at the village hall. The city convention will be held at the village hall.

"The Beautiful Models of Paris," in the March Cosmopolitan, satisfy a long-felt curiosity in regard to the women who have been posing for the world's famous paintings. The Cosmopolitan has carefully gathered a collection of the most famous of these portraits and used them to illustrate an interesting article by a distinguished French critic, Fr. Thiebault Sisson. Nor does the beauty of the originals fall short of the ideal on the painter's canvass. In the same number is a delightful article about the famed sea-girt isle, for so many centuries a fortress and prison—Mount-Saint-Michael. "Pearl diving and its Perils," by an English naval officer, written from personal experiences, is perhaps the most thrilling tale of exploration of the ocean's depths ever put on paper. The fiction of this number is unusually entertaining.

Mr. I. L. Newmann received a letter from Mr. Speare, the fore part of the week, dated Wayne hotel, Detroit in which Mr. Speare stated that he had interviewed Schloss Bros. & Co., who own considerable property in Au Sable, and that they had intimated to him that they would take from \$15,000 to \$20,000 worth of stock in the pulp factory, one half to be paid for in cash and one half in real estate.—Oscoda Press.

As a rule those who are most firmly of the opinion that marriage is a failure are people who were never married while those who talk most about finance are men who never had a dollar, the possession of which was due their own financial sagacity, and the men who know best how to run a newspaper are those who never saw the inside of a printing office. All three classes have much to answer for. If it were not for these men the editors life would be a happy one.—Ee.

When you go to the polls next Monday, cast your vote for Alexander C. Kay for county school commissioner. Mr. Kay has, during the two years he has held this position, raised the standing of our teachers and schools to the front rank. It is not a matter of party, but as to what will be to the best interests of our schools. Is it better to have a man in this position who can and will devote his time to the work, or one whose time is otherwise employed? Vote for Mr. Kay and you will make no mistake.

An exchange makes the following pointed remarks: One reason why many a prayer is not answered is because there are too many articles asked for in one petition. If you want bread pray for bread. Don't wander around asking for plum pudding, a mortgage and a post office. If you are lazy and waiting for some one to take you by the hand and steer potatoes into your mouth, pray for common sense, energy and push. There is science in prayer. A little work is good to throw in at times to keep you from drying up.

Monday's Election.

Next Monday is the annual spring election, and is of more than passing importance, as there is a justice of the supreme court, two regents of the state university and a county commissioner of schools to be elected in addition to the regular township ticket. The voters of this city are placed in a peculiar position, as regards to voting the township ticket. The polling place for Tawas township will be at the town hall and the present town board will be the election board. Considerable doubt is expressed as to whether or not voters in the city limits will have a right to vote for township officers. While, possibly they may have the legal right they certainly have no moral right to east a vote for any nominee on the township ticket. And we believe the election board should refuse all such township ballots, and that they should vote only state and county tickets. We believe there are but few, if any, who will wish or attempt to vote township tickets, as all just men will recognize the right of the residents of Tawas township to govern themselves.

However, it is the duty of every voter to go to the polls next Monday and cast his ballot for state and county officers, and also on the amendments to the state constitution.

Ward Caucuses.

The democrats of Tawas City will hold ward caucuses for the purpose of nominating ward officers and delegates to the city convention, at the following named places, at 7:30 o'clock this, Friday, evening:

First ward—in Prescott's old store building.

Second ward—In store building recently vacated by Mrs. M. D. Hurlbert.

Third ward—In the village hall.

The city convention will be held at the village hall Saturday afternoon at 2 o'clock.

The republican ward caucuses will be held at the same places above named, on Saturday evening, at 7 o'clock. The republican city convention will be held at the village hall at 8 o'clock, Saturday evening.
