RAILROAD MEN MEET.

D. & M. to Build a Bridge Across the Saginaw River.

Bay City, Mich., Dec. 4.—J. D. Hawks, vice-president and general manager of the Detroit & Mackinaw Railroad, came to town last night and this morning met W. H. Tousey, a director of the Flint & Pere Marquette Railroad, in the Fraser house. The two made an engagement with J. E. Kinnane, president of the Business Men's Association, and went to his office. Here Mr. Hawks said that his company was ready to operate under a resolution adopted by the association, and that in ten days his surveyors would begin work in this city for a bridge across Saginaw river, and would gradually work their way to Standish. The close association of Mr. Tousey with Mr. Hawks, is taken by some to mean that the Flint & Pere Marquette is to receive the new comer with open arms, and that the two roads will run in connection.

THE reception accorded Eugene V. Debs, on his release from jail, should strike terror to Pullman and others of his class.

THOSE of you who voted for the present state administration, should find no fault with the enormous state tax you have to pay this year.

CONGRESS assembled again Monday. Reed, of Maine was elected speaker of the house. Rev. Henry N. Couden, the blind Universalist minister, of Port Huron, was elected chaplain.

BOTH houses of congress received President Cleveland's annual message Tuesday. The message is in the president's usual strong, plain language, and contains much worth reading.

LAST Tuesday President Cleveland nominated Rufus W. Peckham, of New York, as Associate Justice of the Supreme Court, to fill the vacancy caused by the death of Howell E. Jackson.

PRESIDENT FLANNIGAN, of the Michigan Federation of Labor, at the meeting at Saginaw, Tuesday, roasted the last legislature to a turn, for failing to pass any bills advocated by the laboring men.

THE Bay City Times-Press draws a striking picture of the attempt made to enforce the compulsory school law, and of that to enforce the liquor law, and adds that was the same effort made on the latter, certain parents would be able to buy shoes and books so that their children could attend school.

Warning to Girls

Scarcely a day passes without its newspaper story of some young woman who met a man so interesting that she thought she couldn't live without him, so she married him in haste and afterwards learned that he was an convict or brute, or already had a wife or two from whom he had separated without the formality of a legal divorce. In such cases the blame is laid upon the man, who generally deserves more abuse than he gets. But, girls, look at the manner seriously a few minutes and see if the trouble might not have been avoided if you had not been in too much of a hurry.

Marriage means partnership for life decrees of divorce are merely exceptions that prove the rule. Would any man enter into a business partnership with as little knowledge of the other party as you seem satisfied with? Well, no—not unless he were a sweet-souled lunatic. Talk is cheap girls; it can be made to order as fast as the tongue can run, especially when these is a pretty face to inspire it and two ears willing to receive it.

Don't fear that some other girl will get the fellow unless you secure him at once. A fish that any other can catch isn't worth throwing a line for. Play him to find out whether he amounts to anything. If he becomes impatient and dashes away, why, follow Dogberry—thank God that you are rid of knave.—Ladies' Every Saturday.

Infectious Diseases Among Poultry.

Some valuable investigation of these have been made by the United States bureau of animal industry (Dr Theobald Smith and Dr V. A. Moor) The importance of the poultry industry, and the heavy losses occasioned by disease among fowls, warrant a continuance of this work. The present bulletin (No 8 of the bureau) confirms what has previously appeared in our columns concerning an infectious bowel disease among turkeys. No effective remedy has yet been found, though disinfection is urged of all quarters where any diseased birds have been kept. The best solution is one ounce of corrosive sublimate in eight gallons of water, applied with a broom or mop, after standing 24 hours. It is very poisonous, and loses its virtue in proportion to the amount of dirt present, hence the house, woodwork, etc. should be cleaned before applying the disinfectant, and the manure covered with lime. The report contains an interesting paper on three outbreaks of fowl cholera and a hog-cholera-like disease in pigeons.

The most important feature is the report on diphtheria in fowls. Dr. Moore holds that the so-called fowl roup, influenza, and sometimes cholera are one and the same. In the early stages of this disease, the exudations frequently of a serous or mucous character, and often fowls die before the diphtheria condition appears. The disease usually runs a slow, chronic course, from which the majority of afflicted fowls recover, although it may run a rapid, fatal course. Treatment consists largely in disinfecting the premises, letting in sunlight, and giving the fowls plenty of exercise, pure drinking water, dry quarters and good food; also in removing the mucus in advanced stages. This trouble can probably be prevented entirely by such sanitary methods, if precautions are taken not to introduce the disease by buying affected fowls. The diphtheria germ in fowls is in no way like that in man, but it is claimed to be possible for diphtheritic fowls to transmit the disease to children, and vice versa. This disease is not to be confounded with true fowl cholera.—Orange Judd Farmer.

HEART DISEASE, like

many other ailments when they have taken hold of the system, never gets better of its own accord, but constantly grows worse. There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and don't know what to take for it, as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyesville, Ohio who writes June 19, 1894, as follows:

"I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured. I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I couldn't lie down nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking Dr. Miles' New Cure for the Heart and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I haven't lost a day since. I am 56 years old, 6 ft. 4 1/2 inches and weigh 250 lbs. I believe I am fully cured, and I am now only anxious that everyone shall know of your wonderful remedies."

Dyesville, Ohio. SILAS FARLEY.

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1.00 per bottle for \$5.00 or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

A local newspaper is a photograph of the town it represents, and is the only evidence its foreign readers have of its prosperity. In order to make the impression good, every business man should be represented in its columns by a standing advertisement, be it great or small.—Ex.

The girl who indulges in the dizzy waltz will hear with interest that the heads of society have decided that sitting out a waltz this winter will be more fashionable than dancing—the only difference is you sit instead of dance. The man's right arm is around the girl's waist, while his left hand holds her right. Her head is placed lovingly on his shoulder and all you have to do is to listen to the music. Now that is something like it. It is a nuisance to have to gallop a mile or so in order to get a hug or two. A room full of people sitting around the sofa hugging to music is more to our notion.—Lapeer Democrat.

The meeting of the Tawas City Relief League which was to have been held yesterday afternoon, was postponed on account of the W. C. T. U. meeting. The meeting will be held at Mrs. L. B. Smith's next Tuesday afternoon at 2 o'clock.

The Tawas City Relief League are again looking after the needs of the destitute this winter, and any aid given them will be thankfully received. Those having old (clean) clothes can leave them with Mrs. L. B. Smith, or Miss E. A. Conover. Our citizens should give this society all the aid possible.

The itinerant dealer is of no earthly use to a town. He gives nothing to churches or public enterprises and pays nothing for public expenses. He has nothing in common with our people. He can swindle you and often he does. He can cheat with impunity. The home merchant has a reputation to sustain. He bears his share of the expenses of the town. When a subscription is passed he is one of the first to be approached. He builds a house and makes other permanent improvements that embrace the value of our property. He helps pay for the churches in which we worship and the school to which we send our children. He cannot afford to misrepresent his goods or swindle his customers. Self interest alone prevents this. It is not difficult to decide which of the two classes of dealers should receive the support and patronage of the people.—Ex.

Ladies capes and jackets at manufacturer's prices at Friedman's.

Two very important facts in connection with the new era of magazines are illustrated in the December Cosmopolitan. Its fiction is by Stevenson, the last story written before his death, "Quida," Sarah Grand, Zang will, and the beginning of James Lane Allen's new Kentucky realistic story, "Butterflies." Probably no stronger array of fiction has ever been presented in any magazine—money could not buy better. Nor has any magazine ever had a larger number of really distinguished artists engaged upon the illustration of a single number. The reader might be puzzled to know how such a number can be made at the price of ten cents. But the magazine itself affords the solution. It contains 139 pages of advertising, which, as the publishers announce, is from \$4,000 to \$8,000 more net cash advertising than was ever before printed in any magazine, of any kind, and in any country. It breaks the world's record in the publishing business. Moreover, the cost of the artists and authors who appear in this number is divided amongst 400,000 copies, bringing the cost per copy proportionately low. The Cosmopolitan thinks that the ten cent magazine, bringing, as it does, the best in art and literature into all classes, in an educational movement second in importance only to that of the public schools.

A big Indian with all the native cunning went into a Charlevoix store for a plug of tobacco. He wanted "some good stuff, bes' kine chew," and finally came to a package labeled "Nip and Tuck." "What you call 'um dis?" said Mr. Injun. "That's Nip and Tuck; the best kind, strong." "All right, me nip um and tuck 'um in my pocket." He suited the action to the word, by grasping a big handful and shoving it down his trousers, and was out of the door before the astonished merchant could draw a long breath.
