A BIG CUT IN PRICES IS NOW ON AT FRIEDMANS.

Will the Senators Yield.

On the subject of electing the Senators by direct vote there is no doubt as to the wish of the people. There is hardly any question on which public sentiment is so nearly unanimous as it is on this important reform in our political system.

There is no reason to doubt that the House of Representatives, itself the expression of a direct vote, will always be found in accord with the popular will on this question.

The only difficulty in the way, and it is a serious one, is the difficulty of obtaining the consent of two-thirds of the Senators to the proposed constitution amendment. It is not merely that pocket-borough Senators and plutocratic Senators would find it more difficult to get a majority of the popular vote than it is to get a majority of the legislative vote. They would in many cases find it impossible, and it would be idle to expect such Senators to sacrifice themselves in an altruistic recognition of reform. They are not constructed on that pattern.

They may be expected to fight the reform to the bitter end. The only way to overcome their opposition is to force the fighting on them. Merely to show the abstract merits of the question would be to risk losing the case by default. Nothing but an active, forceful and aggressive agitation will suffice to bring these Senators to the recognition of the popular will. The motto of the movement should be "agitation, agitation, agitation!" *N. Y. World.*

A Communication.

At the Tawas township Republican caucus, held at the Cheese Factory, last Thursday, after the business of nominating the township officers was accomplished, the meeting resolved itself into a committee of the whole to inquire into the causes of our heavy burden of taxation.

It was unanimously agreed that in the administration of our county business in the past, sufficient economy had not been shown, as was made manifest from the high salaries paid to county officers, the amount paid for the support of the poor fund, the host of paid deputy sheriffs, &c., &c., &c.

The action of the board of supervisors in cutting down the sheriff's salary was commended and the wish expressed that the good work would be continued, until the tax consumers were upon an equality of income with the majority of the tax payers.

The tax payers of the county are asked to join with us in helping to enforce economy in the discharge of our county business.

The following committee was appointed to devise ways and means for agitating the question and bringing it before the board of Supervisors: Rube Wade, Judge Laidlaw and P. C. Goldie, chairman.

It was also resolved to ask our local papers to publish the result of our discussion. P. C. GOLDIE,

The Presidential campaign upon which the country has already entered, presents the most complex political situation which has been witnessed in the United States since the Civil War. The Republican and Democratic parties are shaken to their center by clashing opinions upon the silver question. The Populist party, and the possibility if not probability of a distinct free coinage party with a Presidential ticket of its own, serve to increase the confusion and perplexity in which even intelligent and candid observers find themselves. It is at such a time that the reader of Public Opinion appreciates the value of a paper that gives him a fair, unbiased, well-proportioned statement from week to week of the facts and of the drift of discussion. Public Opinion gives its readers a great deal more than this, but this is the thing for which it will be especially sought during the next eight months. Send a postal card to the Public Opinion Co., New York City, for sample copy and premium offers.

Labor Commissioner Morse will this year make an investigation of the amount of forest remaining in Michigan. Supervisors will be asked to inquire into the amount, in acres, of timber in their townships at the time of taking the assessment. Michigan was formerly famous for its timber—both in quantity and quality. Now our pine is nearly all gone and enormous inroads have been made on our hardwood forests. Many people ascribe the climatic changes in our seasons to the removal of the forests. The investigation is most important, and every person should be interested in assisting to make it accurate.

The Art Amateur for April appears in the form of a special blue and white Easter number, a new design, incorporated with the old, gives to the cover, which is printed in a range of delft blues, a remarkably effective and handsome appearance. The supplements and the advertisements are also printed in blue. The contents are appropriated to the season of Easter; a beautiful head of the Christ forming the frontispiece, and the supplements containing designs for a Easter stole, as Alms Dish Mat, and for the decoration of Easter eggs. The entire number is furthermore permeated with spring motives in every department of decoration; flower-painting, in water-color, drawing for landscape painting, and "How to draw the Bicycle" in one section, and "The Blue Flowers of Early Spring" and "Catkins in Decoration" in the china painting department being all in harmony with the spirit of the year. "The Strolling Critic" resumes his pen and gives valuable notes and sketches concerning interior decoration; good examples for wood-carvers and workers in bent iron, with full descriptive treatments abound. The supplements, one by Mrs. F. V. Redmond, a brilliant lesson in "still life" will be popular with students of water-color, and the other a blue and white picture. "In the Scheldt" by C. Volkmar will be welcomed by china painters and others, fully sustain the reputation enjoyed by the Art Amateur in this department. Altogether the April number is particularly "live" and "up to date" and shows that now is the time to avail of the special \$2.00 offer which the proprietor is making to six months subscribers. (Montague Marks, 23 Union Square, New York. Price 35 cents, or \$4.00 per annum.)

A J RODMAN,
W M A SINCLAIR,
GEO KEONIG,
GEO E OAKES,
N ROBINSON,
Committee.

Moved by Jackson and supported by Aldred that the report of the committee on claims and accounts be adopted. Carried, all members present voting yes.

To the Honorable board of supervisors of Iosco county.
Your committee whom was referred the communication from the state board of corrections and charities, relative to the employment of prisoners confined in the county jail report as follows:

We have inquired into the matter and find the number of prisoners confined in the jail, who would be liable to work under the statute, is so small that in our opinion it would be unprofitable for the county to adopt the recommendation of the state board of corrections and charities and in the present condition of the finances of the county, we recommend that no action on the matter be taken this year.

C E WILCOX,
J A JACKSON,
A E SHARPE,
Committee.

Moved by Koenig and supported by Robinson that the foregoing report of committee be adopted. Carried, all members present voting yes.

Moved by Yockey and supported by Koenig that the bill of Mrs. D. B. McDonald for \$2.60 be allowed. Carried, all voting yes.

BE IT RESOLVED that vote of thanks be and is hereby tendered to Thomas G. McCausland, chairman of this honorable board, in due recognition for the fairness, gentility and capability which he has exhibited as executive of this board for the present year.

Moved by Jackson and supported by Sinclair that the foregoing resolution be adopted. Carried, all members present voting yes.

To the Honorable board of supervisors:
Your committee on mileage and per diem respectfully submit the following as their report recommending the allowance of the several amounts as given below, and that the clerk be authorized to draw orders for the same:

Moved by Jackson and supported by Yockey that the report of the committee on mileage and per diem be adopted. Carried, all voting yes.

WHEREAS it appears from statement made to this board, that the state has charged to Iosco County a large sum for collection charges and interest which was not properly chargeable to said county, and that on a fair and equitable adjustment of accounts between the county and state there is now a considerable balance due from the state to Iosco county.

RESOLVED that the County treasurer be and is hereby instructed to refuse the payment of the state tax collected this year to the state, until such accounts are fairly adjusted and settled.

Moved by Mount and supported by Anschuetz that the foregoing resolution be adopted. Carried, all voting yes.

Thereupon the board adjourned without day.
