THE ELECTION.

DEMOCRATIC GAINS THROUGHOUT THE STATE.

The Result in This City Mixed.

The result of the spring elections throughout Michigan cannot fail to give much encouragement to the democracy of the state, as it has made great gains in every locality.

The most gratifying result being in Saginaw, where a most decided victory was won from the republicans and A. P. A.'s. They also carry Cheboygan, Flint, Battle Creek, Bay City, Mt. Pleasant, Petoskey, Grand Haven, Pontiac, Mt. Clements, Ionia, Traverse City, Adrian, Ludington, Clare, Niles, Mason and several other cities.

TAWAS CITY.

The result of the election in this city is considerably mixed up. What should have been a straight democratic victory was so near a defeat that there is no glory in it. Trading did the work. The democrats elected M. Murphy, mayor and J. W. Minor, clerk, and the republicans elected J. H. DuPraw, treasurer; John W. King and W. B. Kelly, justices.

M. MURPHY, MAYOR.

The republicans elected a supervisor and alderman in the First and Third wards, and the democrats in the Second. The fight in the First was a three cornered one, there being a "stump" candidate for both supervisor and alderman, the result being a split of the democratic vote and the election of both republican nominees. Below we give the vote by wards:

	1st.	2d.	3d.

How to Insure Dividends in the Farmer's Bank.

The farmer's land has been very aptly described as his bank, and the farmer should remember that it is a bank of deposit. No matter how large the deposit in a bank may be, constant drafts on it, without fresh

deposits, are bound to exhaust it in time. Those who work their land year after year, and make no provision for keeping up the soil, are drawing on their capital, when they should draw only on their dividends. A good piece of land will pay good dividends so long as its capital is kept unimpaired. This condition is secured by deposits of manure and other approved fertilizers, at proper intervals. Neglect these provisions and failure is sure to follow—the drafts on the bank have gone to protest because the account is overdrawn.—*Western Plowman.*

Murat Halstead's Work.

An estimate of the amount of newspaper writing he has actually done could hardly be accurate, but in response to some inquiries he remarked the other day that he had undoubtedly averaged more than a million words a year for more than forty years. If printed in book form, his newspaper writing would certainly have amounted to a library of not less than five hundred good-sized volumes. His versatile talent was shown last month when, alongside of his letters and dispatches in the Journal concerning the Cuban military and political situation, there appeared day after day his letters to the Standard Union upon the manners and customs of Havana, and the lighter incidents of life in that tropical town.—*"Murat Halstead, Journalist,"* by Albert Shaw, in the April Review of Reviews.

Dental Notice.

I have resumed my dental practice in East Tawas, having dispensed with the services of my operator, Dr. Olp. I have the formula for the best local anaesthetic for the extraction of teeth. It is used by all the leading dentists in large cities. It is harmless, and the majority of the teeth can be extracted without pain.

New ideas in crowns and bridge work. Sets of teeth made that will fit. All kinds of filling inserted. You may rely on having good work done at a modern cost.

HEART DISEASE, like many other ailments when they have taken hold of the system, never gets better of its own accord, but constantly grows worse. There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and don't know what to take for it, as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyesville, Ohio who writes June 19, 1894, as follows:

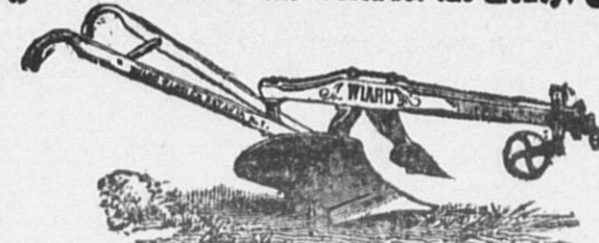

"I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured. I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I couldn't lie down nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking **Dr. Miles' New Cure for the Heart** and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I haven't lost a day since. I am 56 years old, 6 ft. 4 1/2 inches and weigh 250 lbs. I believe I am fully cured, and I am now only anxious that everyone shall know of your wonderful remedies."

Dyesville, Ohio. SILAS FARLEY.

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1, 6 bottles for \$5, or \$10 will be sent, prepaid on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

The Easter Number of the New York Ledger has a remarkably beautiful design on its cover—a girl holding down a bough of apple blossoms that completely enshroud the youthful figure, which treads upon spring flowers and grasses. This number of the Ledger has a charming story, entitled "Her Easter Gown," by the author of "Jack's Easter Hymn," on its first page; an interesting article on "The Moral and Religious Character of Abraham Lincoln," by Rev. S. T. Willis; together with the Woman's World, Answers to Correspondents, children's column, short stories and much interesting miscellany. The price of the Easter number is 5 cents.

Under the head of "English Response to the Appeal of International Arbitration," the Review of Reviews publishes about 30 letters from such representatives Englishmen as Lord Rosebery, A. J. Balfour, Mr. Gladstone, James Bryce, Herbert Spencer, William Watson, George Meredith, Prof. Norman Lockyer, the Archbishop of Canterbury, the Bishop of Durham, Cardinal Vaughan, John E. Millias, G. F. Watts, Alma Tadema, Wilson Barrett, H. M. Stanley, and Henry Norman. These letters were read at the great Anglo-American demonstration, held in London on March 3, and gave expression to a remarkable unanimity of opinion on the desirability of arbitration as a means of settling international disputes.

It is curious to note how much greater interest apparently attaches itself to a single line adverse criticism than to a full page of complimentary matter, says Profitable Advertising. This seems to be the final test as to whether a publication is actually read. The man who oftentimes should be most interested in the general welfare of a periodical will, if he is a possible advertiser, urge that the sheet isn't read, that it has no value, etc. And yet should a line of well-merited, well intended criticism emanate from its pages he would be quick advised of its existence, and made aware not only of the fact that the paper had a large circulation, but that he had in consequence been deeply injured. Such is human nature! Too quick to note the failures, too slow to appreciate the virtues of our fellow men.
