The Polish catholics of St. Stanislaus parish, Bay City, seem to be having all kinds of fun among themselves. Fr. Matkowski and his assistant, Fr. Truski, had some trouble a short time ago, which resulted in the congregation despoising the elder priest. Last Sunday Bishop Richter, of Grand Rapids, attempted to reinstate Fr. Matkowski, but Truski's followers assailed them and tore their clothing and the bishop and priest finally departed amidst hooting jeering. The bishop says he will not make another attempt to replace Fr. Matkowski in charge of his church till next Sunday, when he hopes for police protection.

Drowned.

Last Friday forenoon Simon Stepinski, a well known Polish citizen of this city was drowned while fishing in the W. S. & L. Co.'s boom. No one saw him fall, but from all appearances he lost his balance by the handle of his dip net breaking while dipping for minnows. His 14-year-old son was fishing on the opposite side of the dock, and on missing his father, discovered his hat floating in the boom. The boy gave the alarm and those who arrived soon located the body in about seven or eight feet of water, and it was recovered by the aid of a pike pole. Coroner G. S. Darling impanelled a jury and after a careful examination a verdict was rendered of accidental drowning.

The funeral was held at the Catholic church last Sunday and largely attended. The deceased was universally respected and leaves a wife and several sons to mourn his loss.

Ridiculous.

The directions on the high price cans are the same as on Calumet cans viz; "Two teaspoonfuls to a quart of flour," but they say, one can of high price will go three times as far as any other. Can any claim be more ridiculous? Another claim made in favor of high price baking powder is still more ridiculous, viz: That any baking powder sold at a less price than theirs must be dangerously adulterated.

Attention, Builders.

From this date, during the summer of 1896, I will keep in stock a quantity of the best No. 2 shingles in Michigan for the money. For prices and information inquire at my residence, or of Suple Brabon.

NO PETTY QUIBBLES.

Can Save Delinquent Michigan Taxpayers.

LANSING, Mich., May 13.—The supreme court yesterday decided that technical objections shall not stand in the way of selling lands for delinquent taxes.

Muskegon's delinquents petitioned to set aside the decree of sale for the taxes of 1892, holding that the hearing was defective in that it did not state the year in which the taxes were assessed. But the principal objection was that the auditor-general designated the Muskegon Chronicle as the paper to publish delinquent tax notices, and the publication was made in the Muskegon Weekly Chronicle. The circuit judge held that the publication was not sufficient and set aside the hearing.

The supreme court, however, holds that the publication was sufficient, inasmuch as the auditor-general and county treasurer, to whom the duty is entrusted, examined the publication and found it correct. And they have final say, according to the Michigan law.

Crop Report.

The Secretary of state's crop report issued last Friday says:

The weather in April was very favorable and crops of all kinds made good progress. Not more than two or three per cent of the wheat sowed will be plowed up because winter killed, or otherwise destroyed. With few exceptions the reports show no damage by insects. The average condition of wheat in the southern and central counties and the state is the highest reported in five years. The figures are: Southern counties, 91; central and northern counties, 94, and state 92. In 1894 the figures were 89 in the southern and central counties, 95 in the northern, and 90 for the state. The average yield per acre in 1894 was 16.86 bushels on 1,272,170 acres.

The amount of wheat reported marketed by farmers in April, is 468,634 bushels as compared with 810,226 bushels in April, 1895, and the amount in the nine months, August-April, is 7,781,870 bushels, as compared with 8,670,541 bushels in the same months last year.

In the southern counties 30 per cent, and in the state an average of 26 per cent of the meadows will be plowed up. Owing to the drouth the seeding of last year was very generally lost, and there are very few clover meadows in the state. Timothy meadows are making fine growth. The average condition of meadows is 81 in the southern counties, 91 in the central, 95 in the northern and 85 for the state.

The prospect is good for heavy crops of apples and peaches. The average percentage for the state is 96 for apples, and 84 for peaches. The average in the southern counties is 95 for apples and 83 for peaches; central counties 99 for apples, and 87 for peaches, and northern 98 for apples, and 88 for peaches.

Calumet Baking Powder

has turned the tables on high price baking powders. The directions on High Price cans are the same as on Calumet cans, viz.: 2 teaspoonfuls to a quart of flour, but they say that one can of High Price will go three times as far as any other. Can any claim be more ridiculous? The frantic cry of adulteration, danger and poison made by the high price baking powder people is a blind to intimidate the public and induce them to pay fancy prices for their goods—also to divert attention from this defect in their own goods.

Calumet Baking Powder is safe. Food baked with Calumet is absolutely free from Rochelle Salts, Alum, Lime, Ammonia or any injurious substance.

The Endeavor Societies of the Presbyterian and Congregational churches held a very enjoyable and profitable meeting at the Presbyterian church last Sunday evening. Miss Mable Bannan gave a very fine report of the 10th district convention which was held at Gaylord.

A young lady walked in to a store in Angola, so the story goes, and on selecting a piece of cloth inquired what it was worth. "Four kisses per yard," replied the fresh clerk. The young lady was abashed for a moment and then replied that she would take four yards. The cloth was cut off, nicely wrapped up and handed to the fair purchaser, who received it with a smile, and said: "Send the bill around to my grandmother, she will settle it."—*Ec.*

The fifth annual convention of the Bay City District Epworth League will be held at West Branch, May 15th and 17th. Among the attractions and profitable features are a lecture by Prof. F. S. The word "kiss" was up for parsing in a school the other day, and here is the way it was done by a young and buxom girl: "Kiss" is a noun though it is generally used as a conjunction. It is never declined. It is more common than proper. It is not very singular and generally used in the plural number and it agrees with me."—*Ec.*

We don't believe a word of it, but as the story goes, a young man and lady went to one of the churches in this city a few Sunday evenings ago, and while the collection plate was being held for them to contribute, the young man went through all his pockets and being unable to find any coin of the realm, remarked to the collector in a whisper that he had changed his pants and had no money, and the young man nearly fell off his seat when the young lady remarked that she was in the same fix.—*Ec.*

A printing office is considered by some folks a tough place, and the newspaper worker a mighty bad man. Statistics, however, do not bear out that idea. Of 3,890 convicts in the state penitentiary of Texas, there is not a printer or newspaper man, while there are ministers, doctors, bankers, barbers, photographers, barkeepers, cooks and members of professions and callings. The printer gets a bad name because the nature of his business teaches him to detest shams, and he scorns the hypocrite.

A word to the wise is sufficient. Trade at Friedman's.

A couple of years ago there was loud complaint from bicyclers about "road hogs," but the hog was always a man driving a buggy or wagon, who refused to turn out, and drove the wheelman into the ditch. The trouble now is that many bicycle riders offend in the same way. The law of the road, per. 1456, sec. 1, Howell's annotated statutes, is very plain on this point. It reads: "Whenever any persons shall meet each other on any bridge or road, traveling with carriages, wagons, carts, sleds, sleighs or other vehicles, each person shall seasonably drive his carriage or other vehicle to the right of the middle of the traveled part of such bridge or road, so that the respective carriages or other vehicles aforesaid may pass each other without interference." The word "vehicles" has been decided in all the courts to include bicycles. The law fixes a penalty of \$20 for each offense, besides which the offender is liable to the party injured for all damages.—*Evening News.*

It has been very uncertain thus far this spring as to just what boats would run on the shore route this season. Last week it was reported that the Arundell, Faxton and Sailor Boy would all be "in it," but it now appears that arrangements have been made, whereby the Faxton will go to Detroit-Port Huron route, and that the Arundell and Sailor Boy will run here. The Faxton made her last trip Wednesday. The Arundell will commence running next Monday between Bay City and Alpena, and the Sailor Boy will continue between this point and Bay City. This will give us a daily boat to and from Bay City.

Crimson Clover.

The Michigan Experiment Station issued the following bulletin May 1st: Returns from seventeen counties in the Lower Peninsula indicate that Crimson Clover passed the winter of 1895-6 much better than the preceding winter. The steady cold during March this year was favorable, but the variable weather of the last few days of that month and the first week in April destroyed some pieces that were in good condition up to that time. On sandy lands, particularly in the western part of the state, Crimson Clover which had a good start last fall has in many cases passed the winter and spring with little or no injury. On heavy soils in exposed situations it has usually killed out. On the college farm several seedings of July and August on sandy soil, some of it low, passed the winter safely and are now looking fairly well, while another piece sown later on heavy soil in a young peach orchard is fully three fourths killed, the injury being mainly done during the first week in April.

The reports indicate that many still practice seeding in the spring, notwithstanding that directions are generally given to sow in summer or early fall. The results from spring seeding have in some cases been more favorable than might have been expected, particularly when sown on rather low, damp soils, and cut for hay or pastured before reaching maturity. In such cases some pieces have made good summer and fall pasture. The best results on the whole however have come from midsummer seeding, giving the plants a good start before winter. Last summer being very dry, many seedings failed to catch, or the young plants died from drouth before becoming well established.

We would again state that Crimson Clover is an annual and that its use as a general farm crop in Michigan appears to be extremely limited. Only in rare situations can it be depended upon for hay in this state, the chances being especially small when sown in the spring. As a catch crop for fertilizing purposes, particularly in orchards, it possesses greater promise and in certain favorable soils and situations it now seems likely to prove of permanent value.

NOTICE!

The places for stands for the season of 1896, for the stallions "MICHIGAN BOY" and "SANDOW" will be: Tuesday nights, W. P. W.'s barn, Alabaster; Wednesday afternoon and night, Prescott's barn, Tawas City; Thursday afternoon and night, Thos. Low's, Hemlock Road; Friday night, W. P. W.'s barn, and thence to their own stable at Au Gres, where they will remain until the following Tuesday morning. This route will be continued during the season, health and weather permitting.

The registered and standard trotting stallion "Michigan Boy," No. 14322, in A. T. R., will stand for a limited number of mares, at \$10 to insure.

The French and Shire horse "Sandow" is six years old, a jet black, with heavy mane and tail, weighing about 1,700 pounds, heavy, blocky build. Farmers wishing to raise good heavy work horses, will do well to look him over before making a selection. Terms to insure, \$8.00.

Weak, Irritable, Tired

"I Was No Good on Earth."

Dr. Miles' Nervine strengthens the weak, builds up the broken down constitution, and permanently cures every kind of nervous disease.

"About one year ago I was afflicted with nervousness, sleeplessness, creeping sensation in my legs, slight palpitation of my heart, distracting confusion of the mind, serious loss or lapse of memory. Weighted down with care and worry. I completely lost appetite and felt my vitality wearing out. I was weak, irritable and tired. My weight was reduced to 160 lbs., in fact I was no good, on earth."

A friend brought me Dr. Miles' book, "New and Startling Facts," and I finally decided to try a bottle of Dr. Miles' Restorative Nervine. Before I had taken one bottle I could sleep as well as a 10-yr.-old boy. My appetite returned greatly increased.

When I had taken the sixth bottle my weight increased to 176 lbs., the sensation in my legs was gone; my nerves steadied completely; my memory was fully restored. My brain seemed clearer than ever. I felt as good as any man on earth. Dr. Miles' Restorative Nervine is a great medicine. I assure you."

Augusta, Me. WALTER R. BURBANK.
Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1.00 bottles for \$5, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.
