#### The Supervisors.

The county board of supervisors have been in session this week. On Monday expert accountant Dresser, who has been auditing the books of Pierce, Sage's land agent has spent the county treasurer's office for a period covering 12 years, submitted his Geo. L. Wakeman spent a few days report, which is very extensive. The report compliments the men who have J. Rolland and wife paid Mrs. Price had charge of the office during that time. The expert finds no defficencies of any amount the only ones being two or three clerical errors, which amount to nothing. There are a few persons in the county who believe the hireing of Mr. Dresser, was an useless expense, but we are of the opinion that they will agree that the money Mrs. Green is enjoying the pleasure was well spent if they will examine of a visit of two of her brothers and the new system of keeping accounts which has been adopted, and the simplifications of doing business, which have been adopted on his recommendation. The report in full will be published in the official proceedings.

Wednesday afternoon the board took up the election of a member of school examiners and a county poor commissioner, after fifteen unsuccessful ballots for examiner the election was put over until Thursday morning. There were two candidates for the office of examiner, F. F. Mr. Hickingbottom and family French of East Tawas, and W. #### MURDER AND SUICIDE.

Lester Burton, formerly of this City, Kills his Wife and then Himself.

At Flint on Thursday afternoon of last week occured a tragedy that resulted in the death of two former residents of this city. The following dispatch to the Detroit Free Press of ast Friday gives the particulare:

"One of the most blood curdling tragedies that Flint has seen in years occured about 4 o'clock this afternoon. The participants in the awful affair were Mr. and Mrs. Lester L. Burton, both of whom are now lying cold in death. The hand that sent two souls into eternity in an instant was that of Mr. Burton, who killed his wife by sending three bullets into her body and then placed the revolver to his own head and sent a bullet crashing through his brain. The news of the shooting, which was done in the parlors of the Dayton house, on Detroit street, spread rapidly and in a few moments there were thousands of people gathered about the scene of the murder, anxious to learn something about the terrible deed.

On the six of August last Mrs. Burton filed a bill in the Circuit Court of divorce from her husband on account of extreme cruelty. Upon the same day she made a criminal complaint before justice Swayzee against him for an aggravated case of assault and battery. He was arrested, but upon his promise to leave the city and not interfere with her any more this complaint was withdrawn. Burton then went to Chicago, where he remained until about ten days ago, when he went to the hotel which his wife was running and partook of the hospatalties of the house with the utmost freedom and good cheer on his part. People who knew him were heard to remark how sociable he was, and he never looked better during his five years' residence in this city. However he had murder in his heart and jealously in his brain, and with the aid of a revolver be made quick work of his poor unfortunate yictim.

Coroner Beagle wss called to take charge of the bodies, a jury was imnaneled and viewed the remains, after which the dead bodies were laid side by side and taken to an undertaking establishment."

SPEAKING of his authorship of section 22, Senator Elkins says he is proud of it. Elkins is proud of a good many things that would make a Missouri horse trader ashamed of himself.

The McKinley administration run the government, in debt about four million of dollars, during September which, compared with the same month of last year is just about doubled a good showing.

THE Dingley tarriff bill continued its work of piling up a defict during September. The total income during the past month was \$7,943,100, 28. During the same period in 1896, under the Wilson law, it was \$11,374, 116-28. At this rate, how much of a surplus will the McKinley administration have at the end of its four years?

and sowing wheat this fall, for it says that the conditions that make wheat high this serson are not likely to prevail next season, and hay will probably be higher and wheat lower. We thought it was the Dingley bill that made things hum and that it was likely to last forever, it was so suc cessful,—Cheboygan Democrat.

coming to and whence are we tending? Ex-president Harrison claimed that that the Lord assisted him in his election, and now senator Hanna in a speech the other day at Benton, Ohio, proclaimed boldy and unqualifidely that the Lord was a republican. Well we were taught the Lord's prayer by our mother and have always leaned for aid and protection on the Lord to the extent our wicked nature would allow, but if we thought the Lord had joined the republican party then our faith would begin to flicker. -Albion Mirror.

In an interview on the unfavorable reply anticipated from Great Britain to the International Bi-metallic Envoys, Senator Teller savs: "I have all along said that France might be willing to open her mints, but that she would ask more concessions to silver than Great Britain would be willing to grant, and so the conference would come to naught. Moreover, I believe even if England should open the mints of India to the free coinage of silver as France, requests, and France should open her mints and the Bank of England should hold one-fifth of its reserves in silver, the present administration would do nothing for silver in this country."

NEW laws went into effect recently which effect the fees of the County Register, Treasurer and Clerk. In the Register's office hereafter, attach- to the election, when it is well known ments on real estate will have to be that Boss Hanna billed him weeks recorded instead of filed. The former ago for a speech in Cincinnati. price was 25 cents per filing, but under the new law the charge will be the same as for other legal papers, 11 cents a folio. In the Treasure'rs effice for issuing certificates showing the taxes on properity for five years preceding the date of the instrument, the fees will be 15 cents instead of 25 cents. In the Clerk's office 75 cents will be charged for a hunter's license, 50 cents of which will go to the Cour. ty Treasurer to pay any bills that i may be incurred by deputy game warden. If there is a surplus left in the Treasurer's hands it will be paid to the state game warden to go towards defraying the expense of his

#### WASHINGTON LETTER.

OCTORER, 11th. 1897.

That Mr. McKinley is being duped by the government of Spain is the opinion of nearly everybody, except Mr. McKinley and the members of his cabinet. Spain is playing for time and a plenty of it, and it is likely to get it too, unless this country rudely awakens the administration from its dream and demands that Spain be made to fish or cut bait. It is difficult to find an intelligent person who does not believe that the change of ministry in Spain was brought about solely for the purpose of securing delay in replying to the proposition submitted by the United States, and if the game worked well then, there is no reason that it will not be worked again, or at any rate attemped, when Minister Woodford tries to prod the new ministry for a reply. Spain is also trying to secure the support of the bread and butter brigade in this country by hinting at a commercial monopoly to be granted us as soon as peace is restored to Cuba under the new home rule scheme. These things may catch Mr. McKinley, but they do not catch those who knows the actual situation in Cuba. Spain wil have nothing to do with the commerce of Cuba when there is a restoration of bussness and trade on the island, because its hold upon the island will be gone. Mr. McKinley cannot change the ultimate result in Cuba, but he can hurry up matters, if so THE Detroit Journal lambasted the disposed. If he allows Spain to pull farmers who are plowing up medows the wool over his eyes by the recall of Yerington's College, Butcher Weyler, and indefinite talk about Home Rule concessions to the Cubans, which every schoolboy in the United States knows will not be accepted, he will simply lose a great opportunity to please the people of this country, regardless of party. He probably has not forgotten how difficult it was to prevent Congress forcing this issue last spring. It will be ALAS, and what is this county impossible, if nothing has been done by the time Congress reassembles in

> December. The single gold standard advocates composing the so-called monetary conference, which has reassembled in Washington after a recess, are, perhaps unconsiciously, doing the silver men a great favor by trying to force the administration into the advocacy and on the country, at the coming session of Cougress. Nothing would please the silver men so well as to see this issue forced to the from by an attempt to jam legislation through Congress. Without the active assistance of the administration, it cannot be done. Left to himself, Mr. Mc-Kinley would let the financial question severely alone, but with this commission hammering away at him from the outside and Secretary Gage from the inside, he may give in and recommend financial legislation in his annual message to congress. If the support of Czar Reed be secured, any sort of a bill can be passed by the House, but that is where it will stop. The silver men command the situation in the senate, and nothing which they oppose can get through that

It is enough to cause a smile on the of a wooden Indian to listen to the official announcement that Mr. Mc-Kinley is going to Ohio to yote, but is in doubt as to whether he will accept either of the several invitations that have been extended to him to make a speech in the state previous

Pagan Bob Ingersoll had influence enough with Mr. McKinley to pull down a nice plum for one of his nephews, - "Fools rush" in" etc. There has been more or less comment in Washington on the fact that Senator Foraker, of Ohio, was the only republican of national prominence who could be induced to take part in the republican mass meeing in New York, held to ratify the nomination of Ex-Secretary Tracy by Boss Platt and Mr. McKinley. Ex-President Harrison positively declined. although Tracy is his personal friend and was a member of his Cabinet; Chauncey Deprew conveniently manged to have other engagements, and Czar Reed politely refused to go. This means that these men are "on to" the Platt-McKinley game and are too smart to get themselves mixed up in it. Why Foraker went to New York is one of the hard things to answer. After his shabby treatment in Ohio by Boss Hanna, he was probably flattered when Boss Platt asked him to speak at the New York meeting and accepted the invitation off hand. .

Remember this is the last offer of free treatment. On future visits new patients will be charged the usual fees, and the above offer will not be made again. MANHOOD RESTORED.

It is not necessary to enter into any lengthy discussion of the evils or consequences of sexual excess or self-abuse. Every one knows the fearful results of these violations of nature's laws. The latter vice, especially, never fails to stamp its mark on its viccims. The glassy eye, the pimpled skin, the irritable or morose disposition; the nervous, shame-faced manner attended by distressing bashftlness and timidity, the weak shrunken organs and the failing mind, tell the tale of secret vice to every watchful eye. Dr. J. C. Clarendon, chief medical director of the Doctors of Rational Medicine, takes patients in this class under his own personal care. He has probably had a larger experience in diseases of the sexual and nervous system than any living physician, He is a kinely gentleman whom no one need fear to consult on diseases of a private nature. His business is to cure and he welcomes all patients with a hearty sincerity that banishes all restraint.

#### Wrecked Hopes.

It will be remembered that mention was made a few weeks since that Dr. D. C. Phillips, who is quite well known here, had started from Chicago, with the little 49 ton schooner Myrtle Camp, for the Sandwich Islands. The New York World of last Friday contained a picture of the boat and a write up of her proposed trip, stating that she was fitting out for her voyage around Cape Horn. Now come the news of the wrecking of the boat. The following is from Tuesday's Detroit Journal:

"Don C. Phillips, it will be remembered, recently started out for an ocean voyage to the Sandwich Islands, says the Ann Arbor Times, having leased the schoner Myrtle Camp. The boat was well stocked up and it was the intention to cruise around the southern waters for couple Buy your flour and feed at the of years. His scheme, however, was F. F. French, of East Tawas has prices, and make the profit which terday a telegram was received from New York from Don Phillips, stating that his boat had been wrecked and "everything lost." No particulass are known as to where the ship went on the rocks, but that Mr. Phillips is safe is a matter of congratulation. A most curious thing about the accident is that James Phillips, a brother, about a week ago had a dream in which he was in some way placed where he could see the Myrtle Camp go upon the rock and dashed to pieces. It will be a most wonderful thing if the time of the dream and the time of the shipwreck should turn out to be exactly coincident.

wheat in the state last May as shown by the supervisors' returns was 1,513, 919; the average yield per acre as found by threshing is 16.46 bushels, and the total yield in the state 24,-925;007 bushels. The total yield is found by multiplying the number of acres in each county by the average per acre in the same county and footing the products. The average per acre in the southern counties is 17.74 bushels; in the central, 13.35 bushels, and in the northern, 9.33 bushels. These averages are based upon a re- Sheep sheared in 1896, 1,333,127; turn of 117.250 acres threshed in the pounds of wool, 8,392,742; average southern counties, more than 30,000 per head, 5.30 pounds. in the central counties and more than 4000 in the northern counties.

The total number of bushels of wheat reported marketed by farmers since the September report was published is 2,447,282, and in the two months, August-September, 3,635, 032. This is 1,463,775 bushels more than reported marketed in the same months last year.

Oats are estimated to yield 25.79 bushels per acre, barley 2!.18 bushels, and corn 64 bushels of ears, per acre. This estimate for corn is about three. bushels less than the average yield in 1896. The yield of oats is from threshers records Considerable corn fodder has been injured by frost.
