COUNTY ROAD SYSTEM

A Few Extracts from the Law Relative to Commissioners and Taxes.

For the benefit of those of our readers who are not familiar with the proposed county road system we give below a few of the important points of act No. 149, of the Public Acts of 1893, under which proposition is made. We believe a careful examination of the law will convince every one that it will be beneficial to adopt this system.

"In any county where the county road system shall be adopted, a board of county road commissioners, not exceeding five in number, shall be elected by the people of such county. The number of county road commissioners shall be fixed by the board of supervisors."

Said board of county road commissioners may lay out such new roads within the county as they deem necessary. Such roads shall be not less than two rods wide. Said board may also change the width or the location or straighten the line of any road over which they take jurisdiction. If in the laying out, widening, changing or straightening of any road, it shall become necessary to take private property, the said board shall cause a survey of such proposed road to be made, together with an accurate description of the lands required therefor. Thereupon they shall endeavor to agree with each owner, resident of said county, for the purchase of a right of way over his land included within such description. If they are able to agree with the owner thereof, they may purchase the same and pay therefor out of the funds under their control, and such lands shall then be conveyed to the county for the use and purpose of a road.

"On or before the first day of October of each year, said board of county road commissioners shall determine the amount of tax to be raised for such year in said determination to be entered upon their records. Such tax shall not exceed two dollars on each one thousand dollars of the assessed valuation upon the assessment rolls of the county for the preceding year, nor shall it exceed one dollar on each one thousand dollars of such valuation, without authority therefor being first given by the board of supervisors of the county. At the annual meeting of the board of supervisors held in October, the county clerk shall lay said determination before the board of supervisors, and such board of supervisors shall thereupon apportion such tax between the several townships and cities of said county according to their equalized valuation, and the supervisors or other assessing officers in such townships and cities shall levy and apportion the taxes so apportioned to their respective townships and cities, upon the tax rolls of such townships and cities respectively, upon which the county taxes are assessed. The taxes so assessed shall be carried out upon the tax rolls in a separate column to be headed 'county road tax,' and shall be collected and paid to the county treasurer, the same as other county taxes. All the provisions of law relating to the assessment, levy, collection and return of county taxes and the sale of property delinquent therefor, shall apply to taxes to be raised pursuant to this act. The county treasurer shall keep a separate account of the taxes collected and moneys received under this act, and shall pay the same out upon the order of such board of county road commissioners and upon warrants signed by the chairman and countersigned by the clerk of the board. All moneys raised under the provisions of this act shall be expended by such board of county road commissioners exclusively for the purposes herein mentioned."

"Said board of county road commissioners shall have no power to contract indebtedness for any amount in excess of the moneys credited to such board and actually in the hands of the county treasurer: Provided, That the board may incur liability upon contracts after a tax is voted, to an amount not exceeding one-half the said tax."

East Tawas Nominations.

There is but one ticket in the field in East Tawas this spring—the republican. The nominations are as follows:

Mayor—C. W. Luce.

Clerk—J. W. Tait.

Treasurer—J. G. Dimmick.

Justice—J. W. Tata.

The first ward ticket is: Supervisor, F. F. Faytor; alderman, W. O. Emery; constable, Joseph Kibler.

Second ward: Supervisor, J. A. Grant; alderman, James LaBerge; constable, D. E. Emerson.

Third ward: Supervisor, Wm. Warren; alderman, G. E. Oakes; constable, Jake Loffman.

Frank Dease is running as a stump candidate for supervisor of the third ward, against Will Warren, the regular nominee.

CITY NOMINATIONS.

A List of the Men Who Ask for Your Votes Next Monday.

The democratic caucuses held Monday evening were well attended and excellent nominations were made. In the

CITY CONVENTION.

The republican city convention met Tuesday evening and made the following nominations:

Mayor—George W. Mount.

Clerk—Orlando Elliott.

Treasurer—James H. Nisbet.

From the two tickets nominated the voters should, with a little good judgement, be able to select a set of officers for our city who will give us a careful, economical administration of affairs, and it is to be hoped that such will be the result of next Monday's election.

For a quick remedy and one that is perfectly safe for children let us recommend One Minute Cough Cure. It is excellent for croup, hoarsemess, tickling in the throat and coughs. Dr. G. S. Darling.

Voters Attention.

Notice is hereby given that under the provisions of an act passed by the legislature, amending the charter of the city of Tawas City, the Board of Registration for all wards of the city will meet at the City Hall, on

SATURDAY, APRIL 1, A. D., 1899,
between the hours of 8 o'clock a. m. and 8 o'clock p. m., for the purpose of registering all qualified voters.

Also, that under the provisions of the aforesaid act, that the election for all wards of said city will be held at the City Hall, on

MONDAY, APRIL 3, A. D., 1899,
Other provisions for said registration and election being in accordance to previously published notices.

Dated at Tawas City, March 30, 1899.

ONE of the first effects of the organization of trusts is apparent in the decreased patronage of the hotels. One traveling agent now covers the territory of five or six, and many salesmen are thrown out of work. This is but one of the local results of the creation of trusts.—*Lansing Journal*

THAT the republican party is the friend of trusts will not be much longer denied. Senator McMillan has boldly come out as their champion, says that they are "judicious combinations," and says that workmen must depend upon trusts, instead of "protection," to raise their wages.—*Petoskey Democrat*.

FIRE and light, fetching and carrying, public intercommunication, food and drink—these are essentials with which the gigantic monopolies now organized to levy public tribute propose to deal on a tremendous scale and at first hand. Competition is to be not only restricted but absolutely destroyed, and the judicial objection to combinations in restraint of trade is to be met by the affirmation that trade is absolutely unrestrained, being all under the control of a single huge and all powerful agency of production and distribution.—*Philadelphia Record*.

ONE of the wonders of this century is "liquified air." Air is liquified at a very low temperature, so low that ice gives off steam when in contact with the liquid. The possibilities of wonderful discovery are great, and the power generated can be used in the same way as that of steam or electricity. After the first cost of producing, it can be produced at a nominal cost and would make more of a revolution than electricity did as a motive power, as it can be used to reproduce more liquified air and renders unnecessary the carrying of large quantities of fuel by steamers for making steam, and locomotive engines would not need tenders. The liquified air can be taken up with a dipper like water, but on exposure to the air it disappears.—*Ex.*

PROF. RUSSELL of the geological department of the University of Michigan has recently made an examination of marl-lands in the southern part of the state, and found a remarkably favorable condition. The marl, mixed with ordinary clay, is used in the manufacture of Portland cement, and Michigan will evidently take a leading place in this industry. The marl occurs as a highly calcareous or limy mud or ooze in the bottom of lakes and in marshes. It usually contains shells and appears light colored or nearly white on drying, but is sometimes darkened by organic matter. The swamps where the marl occurs are usually considered as of little value, but they are really worth more per acre than the best of agricultural land, and at the present time are in demand.

If you have a cough, throat irritation, weak lungs, pain in the chest, difficult breathing, croup or hoarseness, let us suggest One Minute Cough Cure. Always reliable and safe. Dr. G. S. Darling.

Unite for Action in 1900.

The Nonconformist says that the opponents of republicanism are all agreed on the following political propositions:

Direct legislation.
The money question.
The bank question.
Opposition to bonds.
An income tax.
A maximum freight law.
Election of senators by vote of the people.

It might, The Democrat doubts not, have added:

"Opposition to trusts."

With unanimity on these fundamental propositions there should be no difficulty in all getting together under one tent. Leaders in Nebraska's party councils who oppose united action on such a platform when defeat will be the result of anything except united action, should be relegated to the rear ranks and those who realize that "in union there is strength" should be placed in control. Those who fully realize this will not allow personal ambitions or jealousies to stand in the way of united action to defeat the party that has invited the embrace of the trusts and fallen.—*Grand Rapids Democrat*.

OUR NEIGHBORS.

Notwithstanding the prolonged winter weather, work on the Black River branch of the D. & M. is progressing favorably. Eight of the twelve miles of right of way has been cut out and three miles graded. A force of 75 men and eighteen teams are at work on the line.—*Onaway Democrat*.

S. R. Hoobler who has been taking sugar beet and chicory contracts, reports that about four hundred and fifty acres of beets have been contracted for in Arenac county, three hundred and fifty acres of which he was interested in, the balance were taken by outside parties, also that about sixty acres of chicory will be raised in the county the coming season. He has contracted for one hundred and eighty acres of chicory in all, most of which is in Iosco county in the townships of Sherman and Grant. The Rifle River and Augres flats are said to be especially adapted to its growth.—*Standish Independent*.

J. Sheer, Sedalia, Mo., conductor on electric street car line, writes that his little daughter was very low with croup, and her life saved after all physicians had failed, only by using One Minute Cough Cure. Dr. G. S. Darling.

The following nominations have been made in Reno township: The republican ticket is as follows: Supervisor, Charles E. Thompson; clerk, Frank Horton; treasurer, Ethan H. Thompson; school inspector, William Vance; justice of the peace, 4 years, William Latter; highway commissioner, Ernest Crego; member board of review, 2 years, Mark Robinson; drain commissioner, William Hamilton. The union ticket is as follows: Supervisor, Benjamin Corbett; clerk, Elmer E. O'Dell; treasurer, John A. Syze; school inspector, George Charters; justice of the peace, 4 years, Samuel Hutchinson; highway commissioner Benjamin Charters; drain commissioner, James Charters.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills. Dr. G. S. Darling.

A Harrisville justice of the peace in performing a marriage ceremony, appeared to be thinking of swearing an officer, as he used the following language—in a case where the groom was arrested and brought before him: "Are you willing to marry this girl?" pointing to the complainant. The answer was "Yes sir." "Then stand up, and repeat after me." Then he used the following formula: "You both do solemnly swear that you will support the constitution of the United states and the constitution of this state and that you will perform the duties of man and wife to the best of your ability so help you both; now by virtue of the power and authority in me vested by the statute in such cases, made and provided, I pronounce you man and wife. My fee \$2.

The following nominations have been made in Baldwin township. Republican ticket is as follows: Supervisor Willard Robinson, clerk Francis H. Frasier; treasurer, John Sullivan; highway commissioner, John Burgenson; justice of the peace, (to fill vacancy,) Nils Polson; justice of the peace, full term, Charles L. Martin; member board of review, Charles Karus; school inspector, Gustave C. Karus. The democrat ticket is as follows: Supervisor, Andrew Arnold; clerk, John Carlson; treasurer, August Topp; highway commissioner, William Karziski; justice of the peace (to fill vacancy,) William Bishoff; justice of the peace (full term,) Andrew Sass; member board of review, Thomas Glendon; school inspector, Martin V. Saunders.

AT THE CITY HALL

Is Where all Voters of the City will Vote.

Under the provisions of the act passed by both houses of the legislature and signed by the governor, amending the charter of Tawas City, all elections will hereafter be held at the city hall, instead of in the various wards, as heretofore. This bill provides that the three aldermen whose terms of office last expires shall constitute the board of registration for the city and shall meet at the city hall on the Saturday preceding election and there register the voters of each ward in a separate registration book.

The election under this law is held at the city hall, for all wards, each ward having a separate ballot box and poll list. The board of election inspectors is composed of three aldermen chosen by the city council, one from each ward. These three choose two more electors, making a board of five members.

We endeavored to secure a copy of the act for publication but were unable to do so. The principal benefit claimed for the bill is the great saving in the cost of holding an election, as it will only require about one-third the number of inspectors of election and gate keepers that were required under the general election law.

The fact for all voters to remember is that they must go to the city hall next Saturday to register, if their name is not on the register of the ward in which they now reside. Also that they must go to the same place next Monday when they wish to cast their vote. No polling place will be held in either the First or Second ward.
