A MAMMOTH PICNIC.

"The Huron Shore Sunday School Picnic Association."

It has become customary for the Sunday Schools in many of the cities and towns of this portion of Michigan to hold an annual picnic at Tawas Beach. On August 6th, while three Sunday Schools were having their annual picnic at the above named place, the idea was conceived of having a Picnic Association formed. With this end in view the following committee was chosen to formulate plans:— Rev. J. Pearson; Rev. H. A. Sheldon; Rev. E. O. Sutherland; Rev. E. King; Rev. A. C. Kay; Rev. W. M. Ward; E. Rawden; J. W. Tait; G. A. Prescott; J. M. Waterbury; J. E. Whittemore; Arthur Evans; A. A. Ellsworth.

The committee met at Tawas City at the call of the chairman and made the following recommendations:

1. That an organization be effected to comprise the Sunday Schools of Arenac, Ioseo, Alcona, Ogemaw, Oscoda, Alpena, Presque Isle, and Cheboygan counties, or such parts of the above counties that are tributary to the D. & M. R. R.

2. The following officers were nominated for the first year with the understanding that when endorsed by the schools, said officers are to be considered duly elected:

President, C. B. Williams; Secretary, W. A. Prince; Treasurer, J. E. Whittemore.

Executive Committee: Chairman of committee on transportation, J. M. Waterbury; chairman of committee on local arrangements, Rev. J. Pearson; G. L. Cornville, Dr. J. H. Botz, Rev. H. A. Sheldon.

District Vice-Presidents: Rev. E. Sedweek, Cheboygan; Rev. E. L. Little, Alpena; Lawyer Smith, Harrisville; W. H. Price, Whittemore; Rev. Somers, Omer.

After this has been endorsed by a sufficient number of Sunday Schools, further arrangements will be made.

REV. J. PEARSON, Chairman.
A. A. ELLSWORTH, Secretary.

Yachting Technicities.

A yacht on the starboard tack—that is, with the wind blowing on the right hand side of her sails when she is close hauled—shall have the right of way over the yacht on the opposite, or port, tack.

A yacht close hauled on either tack shall have the right of way over the yacht sailing free—that is, with the wind on the quarter, or astern.

A yacht overtaking the other shall not be compelled to alter her course by the luffing of her rival. A yacht has overtaken another when she has established an overlap, when she is in such a position with regard to the overtaken boat that she cannot bear away without fouling her.

If an overlap has been established and the yacht to leeward is in danger of going ashore or fouling a buoy or other obstruction it is her privilege to haul the yacht to windward and order her about. The windward yacht must then go on the other tack in order to give the leeward yacht fair way, but the leeward yacht must at the same time go about on the new tack.

Stoll Forming a Big Stable.

J. S. Stoll, the wealthy distiller and brother to the late R. P. Stoll, ex-president of the Kentucky Trotting Horse Breeders' association, has gone into the thoroughbred breeding business with a view to embarking in such an enterprise on quite an extensive scale.

Indications are that this new recruit to the ranks of the thoroughbred horse owners is not going into the business of breeding for the market, but will ultimately have a stable of horses of his own breeding and race them on the turf in his own colors. Stoll, with recent additions in the purchase of fillies at the New York yearling sales, now has twenty mares as a beginning of his new stud in Lexington, Ky., which is quite a collection, considering the fact that he is picking his mares and made his first thoroughbred purchases only last winter.

A Pomona's Lofly Ideals.

A recent meeting of the Chautauqua county (N. Y.) Pomona grange was held in the Volusia M. E. church at an altitude of 1,557 feet, says an exchange. The response to the address of welcome was made by Louis McKinstry, editor of the Fredonia Censor, first lecturer of the first grange ever regularly organized.

Two Killed, Eight Injured,

By an Explosion of Dynamite in the M. C. Yards at West Bay City.

Bay City, Sept. 14.—With a roar that was heard for miles around, half a ton of dynamite loaded in a Michigan Central freight car exploded in the west side freight yards at 7:20 Sunday morning, killing two men instantly and injuring eight other persons. Twenty-three freight cars, an engine and seven houses near the track were wrecked.

In the same car were packed household goods, a consignment of Lee-Remington rifles returned by the military company at Sault Ste. Marie to Washington in return for the new issue of Krag-Joergensen and a large quantity of butter. The cause of the explosion is not known but it is alleged that an inexperienced billing clerk had supervised the loading of the car and placed the dynamite in with the other goods. A train was being made up and the shock of coupling is thought to have jarred the boxes of explosives.

The second car back of the car which contained the dynamite, contained it is said, a ton of dynamite and giant powder but did not explode.

Whittemore.

The explosion of dynamite at Bay City Monday, was felt here quite perceptibly.

Potatoes are rotting in the fields and will be almost a total loss on low grounds.

Those farmers who raised sugar beets and took good care of them, will have the money making crop this year.

It would take thousands of dollars to cover the loss sustained by pea growers in this locality, owing to the heavy rains.

Irving Beardslee left at the post office this week a yellow peach that measured 9 1/2 inches in circumference. E. L. Clary left at the same place, a white peach that measured 9 3/4 inches. This goes to prove that Ioseco county, and especially Burleigh township, can and does grow fruit with the best of them.

Sunday morning, about one o'clock, our villagers were aroused from their slumbers by the ringing of church bells, but we were unable to find any trace of a fire. After an investigation in the morning, it was found that a window in the M. E. church had been pried open and part of the sash broken. Some of our orchards have been raised of late, and considerable fruit destroyed. Such kind of lawlessness is unusual in our village and unless some effort is made toward law and order, it will lead to acts more bold.

Hale Lake Husks.

E. G. Shattuck is in Tawas this week, acting as juror.

Fred Livingstone has gone to Rose City to work in the saw mill.

Miss Ethel Guest spent Sunday at the Londo settlement with her parents.

Messrs. McFarland and Wilson, of Flint, spent Sunday looking over their land interests at Long lake.

Mrs. N. Ballard has left on a visit to her old home in the southern part of the state.

Mr. and Mrs. Brooks, of Battle Creek, are visiting at the parental home of J. N. Self and wife.

R. Keith is building a house and barn on his eighty recently purchased from the Ioseco Land Co.

Mrs. P. H. Hammond, who has been very ill for some time, is but little improved at this writing.

So many attended the fair at Tawas this week, that we dare not mention their names for want of space.

Albert Featherston, who has been working on his son's new house, was suddenly called to Detroit this week.

William Dier and wife, who have been visiting their old home in Indiana, also at Albion, are expected home soon.

The farmers who were fortunate to harvest their peas before the flood, are loading them into a car for the Rice Seed Co., of Detroit.

Maurice Moore gave his many friends the privilege of holding a dance in his new home which he has nearly completed. A large crowd attended and a good time is reported.

Rev. J. W. Koyle, who has passed a very successful year here as pastor of the M. E. church, preached his farewell sermon Sunday evening. He left Tuesday for conference. He has a host of friends here and it is hoped by both old and young that he is returned to us for another year of successful labor.

What is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache, or Liver trouble. Dr. King's New Life Pills quickly re-adjusts this. It's gentle, yet thorough. Only 25c at G. S. Darling and J. E. Dillon, Druggists.

Card of Thanks

We wish to express our heartfelt thanks for the many acts of kindness and sympathy extended to us during our recent bereavement.
MR. and MRS. JAS. BAGLEY.

THE FAIR.

A Good Show Notwithstanding the Wet Weather.

CONTINUED OVER FRIDAY.

The 29th annual fair of the Ioseco County Agricultural Society opened Tuesday under the most unfavorable conditions owing to the heavy rains. Wednesday morning the management decided to continue it over to Friday, thus giving four days.

The entries are up to the average in nearly all departments and will fall but little short of last year, on the whole. Had the weather been favorable it would have been the greatest fair ever held. The stock show is the lightest in a number of years, many entries failing to arrive.

Floral Hall is fairly well filled, the fruit exhibit being the greatest ever. In the grain and vegetable department the entries are about 10 per cent less than last year. The culinary and fancy work department are up to their usual high standard. With good weather today the prospects are that the fair will pay all expenses.

FAIR NOTES

Stands and fakirs galore.

The race program will be carried out today.

The fancy work department contains a handsome exhibit of fine work.

The fruit exhibit is the largest and best ever shown at any fair in this county.

The Tawas Sugar Co., have established headquarters on the grounds, and are offering the farmers some good premiums for the largest beets exhibited.

The stock exhibit shows that our farmers are rapidly improving the condition of their herds, and the quality improves each year. The exhibit is a fine one and up to that of other years.

The Subordinate Grange.

If a grange fails to be interesting or attractive no sense of duty will long prompt members to attend. The membership of the grange is composed of a class of persons whose lives are given to labor and who usually are surfeited with brain wearying cares and business at home and who value the grange for the recreation and pleasant times it affords them as much as for the pecuniary benefits and intellectual development it brings. It has been the mistake of many well meaning officers to stuff their members with intellectual nutrition without sweetening, flavoring or salting and then blame the subjects because their appetite palls.—S E. Strode.

Importance of a Grange Home.

The grange is in no sense a migratory institution, as is proved by its ritualistic and fixed forms of work. No grange can hold successful meetings within the full intents of the Order, says Mr. George B. Horton, unless it secures or provides for itself a fixed and regular place for holding meetings. Said place should be such as to permit the seating and working of the grange in full form as provided in the ritual. If from necessity a grange is meeting here and there or in such place that the members cannot in fact conduct a real grange the members should consider it a first and imperative duty to the life of the grange to secure or build some kind of a structure which the members may call their grange home. This place may be ever so humble and entirely within the limits of the possibilities of the members to provide, but in and around it can be gathered and fixed the evidences of permanency.

Not a Political Organization.

The grange is not a political organization, but it is within its province to speak out boldly on all questions of vital importance to its members whenever necessary to do so. The grange is a potent factor in fashioning governmental affairs at the present day.

The secretary of the Oklahoma territorial board of agriculture is taking steps to introduce the grange into the territory with a view to benefiting agricultural interests there.

Miss Winnifred DuPraw has resigned her position as teacher in the primary department of the high school, to accept a like position in the schools at Flint. Miss Margaret Murphy will act as teacher at the high school, while Miss Mack, of East Tawas, has been engaged to teach in the primary department of the Ward school.

Myron Phelps has purchased the Yockey house, of AuSable, and will have the place open for business about October 1st. The place will be thoroughly remodeled and refurnished and be strictly up-to-date in every particular. Frank Burt, who has so many friends in the Tawases, will be its manager.

Miss Owen, the fashionable milliner of East Tawas, announces that her fall and winter stock of millinery has arrived and is open to your inspection. Every department was never so full of elegance yoked with sensible economy now. The most satisfied customers are those who trade at this popular store. Your presence and opinion is courted.

Will and Gordon Urquhart, who have been visiting their parents at East Tawas the past month, left today for their ranch in the Northwest. Their mother Mrs. A. J. Urquhart and sister Miss Ethel, accompanied them. They have a host of friends in the Tawases who will regret their departure, but will wish them success and happiness in their new home.

THE GRANGE

AN IDEAL GRANGE HALL.

Its Size, General Plan and Equipment Described.
(Special Correspondence.)

Since years of experience have developed the real home work of the grange the up to date grange hall must conform to the demands of such progress. For years it has been conceded to be of benefit if the subordinate grange had in its own name and control a place called "home." Because of the grange confining its membership to those chiefly interested in agricultural pursuits this home naturally takes itself out in the country. That it may represent the grange to the passerby the surrounding grounds should be ample for sheds for horses, with a good variety of trees and a lawn to accommodate gatherings of people as occasion may require. The entire outside premises should be kept in an inviting condition.

As to the grange hall itself, the outside design should be in harmony with the uses for which it is built, and this suggests a harmonizing of both church and schoolhouse architecture. To meet all requirements the building should be at least 24 by 60 feet on the ground, with eighteen foot posts on the sides. This will permit the lower part of the building to be eight feet from floor to ceiling and leave nine foot sides for the upper room, which, with an arched ceiling from a system of collar joists, will give a good effect. The lower part of the hall should be divided to accommodate hallway, entrance, kitchen, stairway and a large assembly room, which is also suitable for a banquet hall, and, inasmuch as children under fourteen years of age must now be provided for, this room becomes a very proper place for them, and during the lecturer's hour they can sit with their parents in the grange. This large room below, being warm and light, is very convenient for all members in which to hang their wraps on hook rails around the outer walls. Still further, this large lower room can be used for all common entertainments, and especially is it suitable for this when it has a platform or stage at one end, with suitable scenery.

The upper story of the building should be divided into stair landing, anteroom, property closet, a nursery and the grange hall proper. While the lower rooms should have naked floors, the stairway and all floors above should be carpeted and the grange hall should have finished and decorated walls and be as well furnished as the sitting room of a well to do farmer's home. Annexes for libraries and court scenes should also be provided. Such a grange building will cost about \$1,000 to \$1,200.

A grange contemplating the building of a hall or home of this kind can start with the following subscription list:

"We, the undersigned members of _____ grange, agree to give the amounts of hard labor, team labor, material and money set opposite our respective names for the purpose of building a grange hall at such place and time and in accordance with such plans as the grange may specify."

Such a subscription will give a start which, in the hands of a good building committee, can be made to go a long way toward securing the desired object. It is generally necessary to lend a few hundred dollars to finish and furnish, all of which can be paid off with suppers and entertainments of various kinds.

It will be noted that in planning the rooms the children and babes are provided for. This is to encourage the mothers to go to the grange. The children, woven into the lecturer's hour programme, make the ideal entertainment. Where the children are thus well cared for the parents will become interested. GEORGE B. HORTON.

Importance of the Grange.

The system of grange work is so broad and so varied and so excellent in its conception that it appeals to the practical common sense, good judgment and interest of all law abiding rural citizens, and it has awakened the well wishes of all classes of people throughout our land. Its conception is grand, its precepts pure, its teachings true, its efforts high, its motives noble, and its plans are wise. Such an organization cannot fail in its endeavor, and it will attract the best and noblest to its support. The grange is a character builder, a home maker, an educator and a social benefactor. It is very closely connected with the home, the church and the school, the four forming one vast intellectual chain which brings us the richest fruits of our land.—Michigan Patron.

The Grange in New Zealand.

E. W. Westgate, master Kansas state grange, has received a letter from the United States consul at Auckland, New Zealand, asking in behalf of prominent agriculturists there a copy of the constitution and bylaws of his state grange. It seems from this that the grange has already reached around the globe.

LATEST FASHION NOTES.

CHARMING NEGLIGE OF PEAU DE FOIE.

Every woman appreciates a pretty negligee and nothing could be more charming than this creation of peau de soie, trimmed with heavy gemipure in the new champagne tint. The front is mousseline de soie, shirred over heavy cords at intervals. The neck is round, not very low. The fronts of the negligee are loose and fall away from the sides where they are tacked at the under arm seams. The plait in the back falls from the neck and is embellished with an elaborate design of lace. The sleeves are finished with a cape-like face at the top

and a full mousseline de soie under-sleeve ending in a deep cuff of peau de soie. The model is carried out in any of the champagne tints, white or coral or pale rose. The best material to use for such a garment is crepe de chine peau de soie which combined with the use of Cortecelli sewing silk will invariably result in a dainty little negligee.

Red is still a favorite color for hats, red tulle hats trimmed with poppies being quite the thing. A black tulle hat, worn well back on the head has for its principal trimming two very large spread white wings. A hat of fancy straw for young girls may be bound with velvet and have a large white pompon on one side. The turban is very popular, the brim often being covered with flowers and sometimes being left plain, or with a stiff wing on one side.

AuSable River Dead-Heads.

Chris Yockey made a short call in town Tuesday as he was enroute to his home in AuSable from Grayling, where he had been getting his dead-head drive started.

Chris has purchased all the dead-heads in the AuSable river, except those bearing the Loud Co's mark and last year he pulled 35,000 logs from the bottom of the river, between the Oaker bridge and J. E. Perry's. They will scale about 2,000,000 feet. He has a crew of twenty two men at work on the drive.

This spring Mr. Yockey started a crew at Mr. Perry's to pull the dead-heads from there to AuSable, these will be left on the banks to dry out until next season when they will be driven down the river to AuSable.—Mio Mail-Telegram.

A Boy's Wild Ride For Life.

With family around expecting him to die, and a son riling for life, 18 miles, to get Dr King's New Discovery for Consumption, Coughs, and Colds, W. H. Brown, of Leesville, Ind., endured death's agonies from asthma; but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night". Like marvelous cures of Consumption, Pneumonia, Bronchitis, Coughs, Colds and Grip prove its matchless merit for all Throat and Lung troubles, Guaranteed bottles 50c and \$1.00. Trial bottles free at G. S. Darling's and J. E. Dillon's drug stores.

A Letter From The South.

Mr. Editor—

Can you afford a few moments of your time? It has not been often that I have visited you of late, though your visits to me have been quite regular and very much appreciated.

Permit me first of all to express our sympathy with those afflicted ones, news of whose bereavement has come to us through your journal, and whom we knew while living among you. No country or clime is exempt from the work of the destroyer, and more have fallen in Tawas and vicinity than have been called away here within the circle of our knowledge. One only has been removed from our congregation and school. A little golden-haired, curly headed, sweet faced, soft voiced Hazel Wright, eight years old. Taken ill at church on Lord's day evening with a light chill, yet no alarm felt in her behalf till on Thursday or Friday, but at a few minutes of 5 o'clock the next Lord's day, she had crossed to the unseen country. Her father's yard and ours join, and the houses are but forty feet away, but no one tells us how far this little girl has gone.

In times of such sadness the consolation Christ gives is above all price. May those there who mourn receive to their hearts the "strong consolation" brought into this sinful world by him who was and is "mighty to save."

Our summer here has been very favorable the long-timed residents say, neither too hot nor too dry. The last of June, and most of July, were too continuously warm for our comfort, although the nights became some cooler and so favored sleep.

Small fruits, peaches, plums, pears and apples, have not been abundant, probably because of late cool weather and some light freezes about blooming time. Cantaloupes and watermelons were shipped away in large quantities.

Some of the expressions of the people seem to us a little strange. To tell of something that is excellent many say "mighty nice," "mighty good" or "mighty great." You have a call we will suppose, or have done a little business in store or shop, have said your "good day" and turned to leave, but you here a voice say—"Come back" or "come back again." At first thought you suppose something more is to be said or that you have left something, presently it comes to you that the meaning simply is "call again" or "come again."

Colored people are quite numerous—about one in three—are seen on the streets. They mainly live in parts of the town by themselves, and not interspersed with the whites. Most of their homes are poor, and some are but mere hovels. Not a few of the men and women, appear well-dressed and cleanly. They have separate schools and churches. There is a Baptist, a Methodist, and Feet-Washing Baptist church among them. The Baptist church, is painted without and within and has quite a neat and pleasant look. Have been in the Baptist meetings three times. Preached to them last Thursday evening from Jan. 2: 1, 2. They are to baptize some thirteen, I think, next Lord's day p. m.

You will excuse me now, Mr. Editor, mayhap I will call again some day.

A. WATERBURY.

Willie Fitzgerald.

Willie Fitzgerald has shown that he is very much in the pugilistic arena. Like Dave Sullivan, he is a boy just on the threshold of championship form, but has not been able to enter. He thrashed Joe Tipman so handily and easily in Philadelphia that he may have a look in at Joe Gans—some time. You can't tell. Gans may go back.

Boxing in Oakland.

Good news for the knuckle dusters originates in Oakland, Cal. The new ordinance for the regulation of boxing bouts has been passed by the city council. Three clubs will be licensed to hold boxing bouts.

The SPORTING WORLD

Career of Dan Patch, 1:59.
Two years ago champion Dan Patch, the most famous pacer in history, was an unknown quantity. In that year, 1901, he came the length of the grand circuit, winning twelve straight races, and only in one instance did he lose even a heat. It was a showing never before made by a harness champion, and he closed with a record of 2:04 1/2. Great as was that campaign, it was eclipsed by the brilliant one that stands to the credit of the horse last year. Beginning at Windsor, Ont., in July, he won the 2:04 class pace in straight

DAN PATCH, 1:59.

heats, and at Detroit he won again. At Cleveland he was again a winner, pacing each heat faster than 2:04.

In the first attempt at Columbus he paced in 2:00 1/2, and then he went to Brighton Beach, New York, and repeated the figures.

At Readville he clipped off a half second, and at Providence he passed the two minute mark and established his record of 1:59 1/2.

Then at Philadelphia a few days later he paced a mile in an even two minutes, and again at Readville in September he paced the mile in 1:59 1/2, equalling the coveted mark. As late as November he paced three separate miles in 2:01, 2:01 1/2 and 2:00 1/2, which closed his season. In all he was started seventeen times. Three miles were paced in 2 minutes and better, eleven were paced in 2:01 and better and fifteen in 2:05 and better.

His recent mile in 1:59 at Brighton Beach was the fastest time for the distance ever made by a harness horse.

No other horse, living or dead, has equaled this page in turf history. This year he paced a half mile in 58 1/2 seconds. Recently he stepped a half mile over the Empire City (Yonkers, N. Y.) track in 58 1/2 seconds, with the last quarter in 28 1/2 seconds.

Speedy Morning Star.

Daye McClary says that he has driven his green pacer Morning Star, by Star Pointer, 1:59 1/2, a mile better than 2:11, last quarter better than 31 seconds.

DR. ANDREW B. SPINNEY

FORMERLY OF DETROIT. PROPRIETOR OF REED CITY SANITARIUM THE OLD RELIABLE SPECIALIST

DO YOU WANT FREE CONSULTATION AND CORRECT OPINION OF YOUR CASE.

If you are poor your treatment is free. If you are discouraged and we can cure you, we will wait for our pay until you are well. Come and see us; this is your last chance.

We live to do good, are honest with all. Forty-five years' experience free. This trip and today only.

The above is the picture of the only Dr. A. B. Spinney in this state. His history is as follows: Fifteen years in private practice, twelve of these in East Tawas, Mich., with as large a practice as any physician then had. Two years professor of Detroit Homeopathic College and twenty-two years in Detroit. Had charge of Alma Sanitarium eighteen months; Ypsilanti one year, and for the past seven years has owned a sanitarium at Reed City. On December 13, 1902, his sanitarium was burned, loss fifteen thousand dollars; but in forty-eight hours he had bought another and is in good shape for business again. He will rebuild in the spring. There is a firm in Detroit calling themselves Spinney & Co., but the founder of the same has been dead for over two years, and they have no right to the name of Spinney. We are coming to your town on date and at place mentioned and are willing to give you our time and the benefit of our forty-four years' experience, free.

It matters not how long you have been sick, or what your ailment, our consultation and advice is free, and our opinions are always the result of careful examinations and a life long experience. The patient is always told the truth and upon just what he can rely. To all who are poor we give treatment absolutely free, only charging cost of medicine. Charges at hospital free, only charging exact amount of board while patient is receiving.

Any person suffering from PILES or any curable disease we will wait for our pay until cured, if you will secure us. Have you been sick for years and are you discouraged? Come to us and we will cure you. Our prices are the lowest of any chronic disease specialists in the state. Charges at the sanitarium only actual cost. We treat all forms of chronic diseases, but special attention is given to the treatment of the following long standing diseases, viz.: Nasal Catarrh, Polypus, Mucous and Tuberular Diseases of the Throat, Foreign Growths in the Larynx, Laryngitis, Bronchitis, Bronchial Consumption, Spitting of Blood, Loss of Voice, Enlarged Tonsils, Insipient Consumption, Asthma, Diseases of the Heart, General Debility, Diseases Peculiar to Women, Neuralgia and all forms of Nervous Diseases, Diseases of the Kidneys and Bladder, Strictures, Constipation, Piles, Fissure, Fistula, Irritable and Indolent Ulcers, Hip Diseases, Scrofula, Blood and Skin Diseases, Surgical Diseases of all forms, the Eye, Ear, Face and Internal Organs, including Deformities, Club Feet, Cross-Eyes, Tumors, Heri-Lips, etc.; also Jaundice, Dyspepsia, Diarrhea, and all forms of Liver, Stomach and Bowel Diseases.

Remarkable Cures Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail or express, but personal consultation is preferred.

Remember Date of visit. Come early crowded. A friendly call as you are suffering; it has made life new to thousands who have been pronounced beyond hope. Bring sample of your urine, for examination. Address all mail to
