PROCLAMATION.

Do you take pride in our city? Of course you do.
Then let us inaugurate a cleaning up day.

Springtime should be a reminder to all of the necessity of cleaning up yards and the usual accumulation of garbage, ash piles, vegetable refuse, manure piles, etc., which necessarily accumulate during the winter months and which should be removed from the premises of every home.

Neglect to do this not only results in untidy and unattractive homes, but if these accumulations are left upon the surface until the coming of rains and warm weather they become a source of filth and a menace to health. Any cess pools or places where garbage is removed can be disinfected by sprinkling air-slaked lime over same. You can get some for that purpose free by applying to the marshal.

I hereby designate

THURSDAY, MAY 2nd
as cleaning up day, and if the weather is favorable it is hoped that everyone will take hold and clean up, for a day spent in this way will give greater returns in health and happiness than any other day in the whole year.

This proclamation is issued by order of the state board of health.

FRANK F. TAYLOR,
Mayor.

Don't let the spring go by without planting something that will be permanent. Teach the children to each plant a tree, care for it and learn to love it. Show them the value of trees, not only commercially, but for comfort, beauty and health.

Last evening at their hall in East Tawas, Baldwin Lodge I. O. O. F. No. 377 and Irene Rebekah Lodge No. 137, celebrated the 88th anniversary of the organization of the order in America. An excellent program was rendered and a sumptuous banquet was served to about 100 members of the order and their friends. All report a very pleasant evening.

August Goedecke, of Tawas township, and Miss Ella, daughter of Mr. and Mrs. Michael Kendall, of Grant township, were united in marriage, at the Emmanuel Lutheran church, in this city, Wednesday afternoon, by Rev. Henning. A wedding supper was served at the home of the bride's parents in the evening which was attended by the immediate relatives and a few invited friends.

Superintendent Hopkins, of the Bay City Sugar Co., has returned from East Tawas, where he loaded two car loads of pipe from the dismantled Tawas Sugar Co. plant for Waverly, Ia. The piping was all that was left of the Tawas factory equipment, and is to be used with the machinery from the Michigan plant, of this city, which has all been shipped to Waverly.—Bay City Tribune.

A Verdict of \$5,000.

The adjourned term of circuit court convened Monday with Judge Connine presiding. The case of Sophia Shall, administratrix, vs. D. & M. Ry. Co., for damages for the death of her husband, Alex Shall, who was killed by the cars at the sugar factory last summer was taken up for trial.

Hon. Devere Hall, of Bay City, appeared for the plaintiff, while Hon. John C. Weadock, of Bay City, and C. A. Jahraus, of this city, were the attorneys for the railroad. The taking of testimony and the arguments occupied the attention of the court until 4:30 Wednesday afternoon, at which time the case was given to the jury. After deliberating until 10:30 that evening the jury returned a verdict for the plaintiff for the sum of \$5,000. The case was most ably handled by the attorneys for both sides. The defendants gave notice of an appeal and the case will undoubtedly go to the supreme court.

Yesterday the case of John Quosky vs. Frank Avendt to recover money claimed to be due on a note was commenced. A. W. Black and C. A. Jahraus are attorneys for the plaintiff, and James Donnelly, of Bay City, is for the defendants.

In the above case the jury returned a verdict in favor of the plaintiff for \$176.85 and costs.

State Canvass is Complete.

Lansing, April 24.—The completion of the state canvass by the board of state canvassers shows that Judges Carpenter and McAlvay received at the recent election a majority of 112,000.

The vote was as follows: Justice W. L. Carpenter, R., 225,558; Justice Aaron V. McAlvay, R., 220,044; George P. Stone, D., 114,567; John R. Carr, D., 112,233. The total vote cast was 712,314.

For regents of the university Frank B. Leland, R., received 216,775 votes, running about 10,000 behind the supreme court justices. Junius E. Beal, R., received 219,226; Woodbridge N. Ferris, D., 121,541; Henry A. Harmon, D., 112,934.

The vote for member of the state board of education was as follows: William A. Cotton, R., 221,829; Stanley E. Parkill, D., 113,179.

The amendments to the state constitution were all carried, the vote being as follows:

Relative to teaching mechanical trades in the state prisons: For, 167,163; against, 84,831.

Relative to boards of county auditors in Bay, Cheboygan and St. Clair counties: For, 98,259; against, 62,008.

Relative to the compensation of circuit judges in Ingham, Jackson and Isabella districts: For, 94,585; against, 61,550.

Our Overworked Legislators.

We notice that a bill has been introduced for a constitutional amendment to give our legislators more pay. For many years we have heard the wail go up that the pay of the legislators was too small. The constitution provides the members shall receive \$3.00 per day, "for each day of actual service." But in these days of graft, the state officials have construed this to mean \$3.00 per day for every day in the week, Sundays and all, whether the legislature is in session or not.

The legislature met this year on the second day of January, and during the month of January each member received thirty days pay, \$90 for each one for his services during the month of January. Now let us examine how much service was rendered. During the month of January the legislature was in session thirteen days out of thirty. A few years ago Secretary Chilson, of the senate, who is quite a reformer in his way, commenced to record on the legislative records the exact hour at which the legislature assembled and adjourned. He, evidently, desired to show the people how much real service was performed. The method has been adopted by Secretary Pierce, of the house, so that by referring to the legislative records, we can tell exactly how many hours our over-worked members put in.

As we said above, in the month of January the legislature was in session during thirteen days, and from an examination of the records, we find that during these thirteen days the state senate was in actual session a total of eleven hours, or just a trifle over one day's work, for which each member received \$90. Now the house is always a hard working body and, of course, they out-worked the senate. During the thirteen days in which the house was in session in January, the total number of hours they worked during the month was exactly fifteen hours, or a day and a half for each member, for which each received \$90. Of course, legislative friends will say that they were just getting started in January and that is not a good month to show what they really could do, so we will give our readers the February record, which shows, of course, a decided increase. During the month of February each legislative body was in session fifteen days out of the twenty-eight. During these fifteen days, according to the record the senate put in a total of seventeen hours and five minutes, for which each member received \$84. The house, being much more industrious, during the month of February put in a total of twenty-two hours and twenty-five minutes, for which each member received \$84. Of course, the members will say that during these months they were absent from Lansing visiting state institutions, but for each of these days they received besides their mileage, \$6 per day. The members from the upper peninsula received \$5 per day during the session. The total amount paid to members of the legislature alone for less than four day's actual work during these two months was \$25,000, besides this all the employees except the pages, draw \$3.00 per day and some employees drew very

much more, and the number of employees in the senate largely exceeds the number of senators, and in the house nearly equals the number of representatives, so that the pay roll alone for the senate and house in January and February was upwards of \$50,000.

The total amount of labor performed by both bodies for which they received this \$50,000, amounted to sixty-five hours and thirty minutes. We will leave it to our readers to say whether the state got value received for that \$50,000, and whether their wages ought to be increased?—Michigan Patron.

Road Law.

The senate at Lansing has a bill under consideration making important changes in the road law, that is of considerable importance and interest to farmers and others in this locality, as well as all over the state. The bill was introduced by Senator Ely, and has been favorably reported by the committee to which it was referred. It involves the adoption of a plan in vogue in the New England states, and if it goes into effect Michigan will take a big jump ahead along good road lines. The salient features of the bill are:

Cash, divided into two funds, one raised on all property outside of incorporated villages for road repairs and must be expended on the roads benefitting property taxed; the other fund a highway improvement fund raised on all property in the township, including the villages, and which can be used as the township board may direct in improving bridges and highways in any part of the township.

A cut in taxes of 33 1/3 per cent. While it has been possible to levy a tax of 1 per cent statute labor and one-half of 1 per cent in cash, this

bill cuts off one-third, making it possible only to levy one-half of one per cent for road repair and one-half of 1 per cent for permanent improvement, but it is conceded by everybody that with cash the township highway commissioner will be able to do three times as much good as he could do with the work-tax plan.

The township highway commissioner's wages are raised to \$2 a day and may be more if the township board decides.

The township highway commissioner and one overseer of highways constitute the road department of the township, and there is but one district.

A Woman is Not a "Person"

A most amusing incident recently occurred in St. Johns, New Brunswick, where a Miss Mable French, after passing her examination with high honors, was denied permission to practise law in the supreme court because according to the "Act" only "persons" were allowed to practise law, and women were not "persons"—"only men were persons."

Soon after a woman was arrested for drunkenness, and on trial pleaded "not guilty," being "a woman" and "not a person"—therefore not amenable to the law. The magistrate found the law to read "that any person found drunk was liable to fine or imprisonment;" and ruled that according to the decision of the supreme court "women were not persons, and could not be imprisoned nor fined," so the prisoner was discharged.

As a result the legislature promptly passed an "Act" designating women as persons," so Miss French was allowed her degree in law.

But no study of woman's political progress can be just that does not take into account her rapid and enormous development in the faculty of organization, and in intelligent interest in public concerns. These are absolutely essential to the formation of a democracy, to the wise and safe exercise of the suffrage; and it is precisely in these that the phenomenal record of the woman's movement is most clear.

The strongest proof of woman's long inferiority is her lack of association; only in religious bodies was she allowed to organize; and the strongest proof of her rapid approach to equality is in the uncounted thousands who now gather together in clubs and societies of every description, charitable, reformatory, educational, social, political; and of all sizes, from the handful of the "Ladies Literary" to the International Council of Women, which in 1899 represented through its many constituent national organizations a membership of six million. In the next quinquennial meeting of 1904 the National Councils joining had doubled in number, but the sum of their respective memberships is not at hand.—Charlotte Perkins Gilman in the May Woman's Home Companion.

Grange Roll Call.

There is no better method to bring diffident, backward members to "say something" on a subject under discussion in the grange than the roll call and the question box. After a general grange discussion has been concluded bring out those who have not spoken by a roll call or by placing some questions previously prepared in a question box and asking these diffident members to give their opinions on them. Get them once started and you may develop much talent that is now latent. This is a hint to lecturers.

A Michigan Method.

To encourage the addition of members in granges already established a master's elegant official badge will be given to each grange that adds fifteen new members before April 1. If the grange adds twenty or twenty-five new members during that time, it will receive a master's badge of more elaborate design and greater value in proportion to the members added.

A Profitable Enterprise.

Report of Houlton (Me.) grange store for six months ending Jan. 1: Aggregate sales, \$50,492.89; stock on hand, \$7,607.23; cost of running store, \$379.79; flour and sugar sold without profit, flour \$4,682.07, sugar \$4,810.12; balance goods sold at advance of 5 per cent, \$41,550.10; invested in goods, \$8,006.07. The store pays spot cash and is clear of debt.

Doing Business Again.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chiholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best tonic medicine on earth. Guaranteed by G. S. Darling and J. M. Wugazer & Co. druggists, 50c.

"Now, Maria, how do these boys know we are going to a whist party?"—New York Herald.

A Little in Doubt.

"I suppose you are glad to see the interest your boy takes in his books." "Yes," answered Farmer Corntassel. "I shouldn't be surprised if one of these days he knew as much as the college professors themselves. The only thing is that college professors don't look to me as if they got as much enjoyment out of life as a lot of people that haven't near as much knowledge."—Washington Star.

Your Right To Good Clothes

It's a man's natural right to wear good clothes—to wear clothes that make him look as well as other men,—clothes that make him look his best. And it is his natural right not only to get such clothes, but to get them at proper, low prices.

Only all wool materials find their way into CLOTHCRAFT—no shoddy, no unreliable fabrics are good enough for you or good enough for CLOTHCRAFT. The shrinking of CLOTHCRAFT material is thorough, by the special CLOTHCRAFT process. Every detail of the designing, making and finishing—from first to last—is what it ought to be to give you satisfaction. Snug collars, flat lapels, modern concaved shoulders, unbreakable fronts are all marks of CLOTHCRAFT quality.

Your own eyes will show you when you come to look,—your own experience of their wear will further convince you. But remember the CLOTHCRAFT label—it's your clothing insurance policy.

And call for a copy of the Clothcraft Spring Style Book.

A Bargain if Taken at Once.

The old Robinson farm in Baldwin
township; 120 acres of excellent land,
with good house, barns and other
outbuildings, orchard and good well,
65 acres improved, three and one-
half miles from either of the Tawas.
Will sell cheap for cash or on reason-
able terms. Inquire of W. J. Robin-
son, Tawas City, Mich.

Wasting Bait.
"George," she said, "before we were
married you were always giving me
presents. Why don't you ever bring
me anything now?"
"My dear," replied George, "did you
ever hear of a fisherman giving bait
to a fish he had caught?" Then the
kettle boiled over.—Tit-Bits.

His Mark.
Mrs. Souker—We're too late, Johnnie.
Your father's left the public house and
gone home.—Pick-Me-Up.

Baby Up to Now.
"Oh, for a pair of scales," he said; "the
baby must be weighed!"
Yet none around the place were found,
and all were sore dismayed,
For babies must be weighed at once; the
neighbors must be told,
Yet who would take an infant out, the
weather being cold?

Then rose the aged grandpapa and got
into the game.
He had a scheme to tip the beam with
baby on the same.
No plan was his that flickers up and in
its weakness falls—
He'd listen for that rasping screech and in
the leeman's scales.

The leeman in his flannel shirt protested,
but in vain;
They weighed that infant on his scales
and hefted it again.
And, lo, even of the greatest freak that
on the earth abounds,
That baby tilted off the scales at forty-
seven pounds! —Dallas News.

"Pneumonia's Deadly Work"
had so seriously affected my right
lung," writes Mrs. Fannie Connor, of
Rural Route 1, Georgetown, Tenn.,
"that I coughed continuously night
and day and the neighbors' prediction
—consumption—seem inevitable until
my husband brought home a bottle of
Dr. King's New Discovery, which in
my case proved to be the only real
cough cure and restorer of weak, sore
lungs." When all other remedies ut-
terly fail, you may still win in the bat-
tle against lung and throat trouble
with New Discovery the real cure.

The State Fair.

The Michigan State Fair will be
held at Detroit, August 23 to Sept.
6, 1907.

The premium list will be improved
and the classification enlarged.
Transportation facilities will be in-
creased and improved and every
effort made to secure delivery of ex-
hibits at the fair grounds promptly,
and also to prevent delay in re-ship-
ment. Exhibitors can rest assured
that this will be done.

Every effort will be made to secure
as large an attendance as possible
from throughout the state, thus
making it more valuable to exhibit-
ors. The fair will not be open on
Sunday this year.

Store Teeth Went Mad.

"Once," said W. H. Crane, the
wrinkles deepening on his solemn
countenance, "when I was playing in
'Romeo and Juliet,' a young fellow
in the company playing a small part
in the first act was called upon to use
the ancient sign of contempt—that
of snapping his thumb nail on his
front teeth.

"Well, this young man had false
teeth, and one night they became
loose, and when he snapped his
thumb nail they flew into the or-
chestra. While the audience laugh-
ed a little, the little drummer on the
end got them and placed them in his
back pocket. The people's mirth,
however, was turned to horror
when the drummer sat down. He
jumped up quickly, went into convul-
sions and expired."

Crane paused and a friend asked:
"What was the matter?"
"Well," drawled the comedian,
"without a smile, 'the drummer sat
down on the teeth, they bit him and
he died of hydrophobia.'"—San Fran-
cisco Chronicle.

Bitten by a Spider.

Through blood poisoning caused by a
spider bite, John Washington of Bos-
queville, Tex., would have lost his leg,
which became a mass of running sores,
had he not been persuaded to try
Bucklen's Arnica Salve. He writes:
"The first application relieved, and
four boxes healed all the sores." Heals
every sore. 25c. at G. S. Darling and
