Next Monday.

The voters of Iosco county will on next Monday settle the question of whether Iosco county shall have saloons or no saloons for the coming two years. Personally the editor of the Herald believes we should have no saloons. We are unable to find one good reason for their continuation. Thousands of dollars go to their support each year, while the only returns are misery and want. In looking over our county we can all see many good men, indeed, if it were not for whiskey." A majority of these would be good men, indeed, if it were not for the saloon.
 We can see many a young man on the downward path because of the open saloon. Had it not been for this temptation they would have been a credit to the community. There are hundreds of boys growing up, who have not been tempted. Protect them by closing the saloon.
 Iosco county will be a big gainer if you vote "yes" next Monday.

Iosco County Voters, Attention.

Gentlemen:—I wish to address you in this way in regard to the question to be decided by your vote next Monday, April 3rd. It is entirely up to you, gentlemen, and your vote will be the one thing that settles for two years whether we are to continue to have saloons in Iosco county or not. The women and children who suffer hardships because you voted two years ago to keep the saloons have nothing to say Monday—you represent them when you vote. What do they think of the saloon? Two years ago less than a hundred votes changed from "wet" to "dry" would have carried the county for Local Option. By how much majority do you think it would go dry if the women could also vote on this great question that is so disturbing the whole nation? I believe it would be close to 2,000 majority, as nine-tenths of the women would vote yes to drive out the saloons if they could. Call it one thousand. Is it right to keep this county wet when over two-thirds of the inhabitants want it dry?
 It is up to you to say next Monday, when you enter the voting booth where the question is finally decided, with no one but yourself to say whether you vote yes or no, don't forget the women and children whom you represent and vote YES FOR LOCAL OPTION.
 Two years ago this question was rather new to us but you are now familiar with the arguments for the saloon. Those arguments are all played out and the saloon men know it! That is one reason why they are so quiet this year. The tax argument doesn't work any more, because the liquor men have to rake the country over with a fine tooth comb to find any place where taxes have raised after the saloons disappeared. On the other hand, there are any number of places where the rate has not changed the least bit. There are also any number of places where the taxes have decreased. I know of one case where some land in Arenac county was taxed \$59.00 when the county was wet. Since it went dry the taxes were reduced to \$50.00. Another man that I know owns land in Sanilac county, which also voted out the saloons. His taxes were reduced one-third after the county went dry. This same man was in Alcona county ten days ago at a funeral and talked with men from several townships. They said their taxes have not raised. The city of Portsmouth, Ohio, voted out 59 saloons two years ago, each of which was paying \$1,000.00 for a license. The tax rate was not changed, but the next year \$20,000.00 more came in. Why? Because more people had money and were able and willing to pay

"DRUNKARDS COME FROM FATHERLAND"
 Anti-Saloon League

The Anti-Saloon League of Michigan has offered an insult to citizens of foreign birth.

In an article on page 9 of the American Issue (Michigan edition), March 11, 1911, the Anti-Saloon League charges much of the increase in liquor drinking to the immigrants from Europe. Here is the last and most offensive sentence in the article:

"The time is already at hand when the moral forces of the nation must give attention not only to the passage of no-license laws in the several states, but also to the amendment of our present federal laws which permit the yearly importation of hundreds of drunkards and drunkard-makers from other lands."

WILL YOU SWALLOW SUCH AN INSULT?

"Flour Is Cheapest and Best Food." Uncle Sam

After making a most careful study of the food situation Uncle Sam reports in his Department of Agriculture Bulletin, No. 142, that one pound of wheat flour costing 2 1/2 to 3 cents produces more energy and muscle than two pounds of meat costing 15 cents to 20 cents per pound.

Stott Flour

Eat more bread, cake, biscuits, etc., made of Stott's, the cleanest and most reliable of flours, and high prices will cause you little worry.
 If your grocer doesn't keep Stott Flour, write us. We'll tell you where to get it.
