The Cost of Good Roads.
 From one end of the country to the other the people are awakening to the fact that good roads pay—or, rather, to the fact that where bad roads prevail, the people have to pay. Last year was the biggest in the history of the United States so far as the expenditure of money for roads was concerned, and it is believed that this year will go ahead of last year. Certainly the many bills passed by and pending before state legislatures is an assurance that if this year doesn't break the record, next year will.
 New York led all the other states last year in the matter of amount spent, with eight million dollars to her credit. Texas came second, with an expenditure of seven millions. California authorized an expenditure of eighteen million, but only a small part of it was actually used. Little Connecticut, hardly as large as some of the counties in other states, spent nearly two million dollars in road improvement, while Ohio, with her vast mileage of roads, spent only half a million dollars.
 Here is a list of some of the states that spent considerable amounts, compiled by the Good Roads association:
 New York \$8,000,000, New Jersey \$2,000,000, Pennsylvania \$1,000,000, Ohio \$500,000, Arizona \$200,000, California (authorized) \$18,000,000, Colorado \$1,396,000, Connecticut \$1,800,000, Delaware \$304,000, Georgia \$3,000,000, Kansas \$600,000, Maine \$420,000, Maryland \$1,477,000, Massachusetts \$950,000, Minnesota \$80,000, Missouri \$100,000, New Hampshire \$800,000, North Carolina \$800,000, Rhode Island \$400,000, Texas \$7,000,000, Utah \$125,000, Vermont \$250,000, Virginia \$850,000, Washington \$300,000, West Virginia \$1,150,000, Wisconsin \$2,000,000.
 Great as the amount appears to be, it is not enough. Considering the value of the roads after they are built, and the enhanced value of the property of the community twice the amount would not be too much to spend every year until we have the greatest system of roads in this country that there is on earth.—Bay City Times.

Notice of Board of Review.
 Notice is hereby given that the Board of Review and equalization of the city of Tawas City will meet at the city hall, in said city, on Monday, May 15, 1911 at 8 o'clock in the forenoon of said day, and will continue in session at least four days successively and at least six hours each day, for the purpose of reviewing and equalizing the tax roll of said city for the year 1911.
 At which time and place any person or persons desiring so to do may examine his, her or their assessments on said rolls, and may show cause, if any exist, why the valuation should be changed.
 Dated at Tawas City, May 1, 1911.
 JOHN B. KING, City Clerk.

Do Ghosts Haunt Swamps?
 "No, never. It's foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy, only 50c at J. E. Dillon and J. M. Wuggazer & Co.

Point Lookout Growing.
 Paul Brashaw and Charles G. Griffith, of Pigeon, are busy surveying the 40 acres on the west of old Point Lookout. W. J. Orr will plat the 40 mentioned and cut it up into summer residence lots as soon as possible, and place them on the market for sale. They expect to have the work completed within the next 60 days.

A Burglar's Awful Deed
 may not paralyze a home so completely as a mother's long illness. But Dr. King's New Life Pills are a splendid remedy for women. "They gave me wonderful benefit in constipation and female trouble," wrote Mrs. M. C. Dunlap, of Leadhill, Tenn. If ailing, try them. 25c at J. E. Dillon and J. M. Wuggazer & Co.

Poor Attention to Detail.
 Critic—"My dear sir, your story is very much lacking in attention to detail. Here you say: 'He watched with admiration the fashionable beauty as she went up the street with free, graceful, swinging steps.'" Author—"Well, what's the matter with that?" "If she was a fashionable beauty, how could she walk that way today?"

Lumber—Do you need some lumber for a barn or other builds? I have a large quantity of excellent lumber for sale at reasonable prices.

TAWAS CITY, MICH., May 5, 1911

The vernacular of our great national
game seems to be enriched already this
season with a number of additional
phrases.

People who borrow a local paper to
read because they are too closefisted to
subscribe would be loudest in their
lamentations if no paper was published.

If a town is worth living in it is worth
supporting. The aim of every dweller
in every town should be the advance-
ment of its material, social and moral
interests.

What some people call trusting in
providence is nothing but laziness. The
man who thinks providence will help
him without any effort on his own part
speedily finds out his mistake.

While in theory it has always been
true that the law is no respecter of per-
sons, yet in actual working the rich man
has generally had the advantage over
his poor neighbor. There are hopeful
signs that this will not continue.

It is quite a time since any of the
Goulds, Vanderbilts and other conspic-
uous members of so-called high society
have come into the limelight through
some scandal. Does it mean that morals
are improving in that circle? There was
certainly need of it.

One principal reason why farmers
throughout the country find it hard to
get help is the long hours of work. That
seems to discount all the advantages a
farm position offers. Men in the cities
may not live so well but they have shorter
hours of labor and that evidently
counts.

The D. A. R. seems to have imbibed
some of the warlike characteristics of
their ancestors for it seems impossible
for them to have an annual meeting
without engaging in a conflict. The
choice of a president seems to be about
as strenuous an affair as was ever any
battle in the revolution.

A few years ago, when several state
legislatures were reducing railroad pas-
senger rates, it was said by advocates
of the reduction that the railroad com-
panies would find it to their advantage.
So far as concerns Illinois and a few
other states that prediction has come
true with a gratifying increase in divid-
ends.

Many people lose heart easily in the
battle of life and give up the struggle
if conditions become unfavorable. This
accounts partly for the large number
which, every year, commit suicide. A
little more courage and heart and the
rough corners of adversity would be
safely passed, and once passed life
would be the stronger.

The man who acts honestly simply be-
cause he believes it is the best policy is
not honest at heart. The man who in
this matter is actuated by motives of
policy rather than of principle in effect
declares that if honesty were not finan-
cially best for him he would not practice
it. The man thus acting plays fast and
loose with business morality.

It would be untair to say that our
large cities are maelstroms of vice. But
the report of the Chicago municipal
commission appointed to investigate
moral conditions in that city does show
an enormous amount of iniquity. Inci-
dentally one lesson that parents in
small country places should take more
to heart is the safeguarding of their
children, too many of whom are induced
to go to the city by the alluring descrip-
tions and promises made by agents of
vice. They go in their innocence but
learn when it is too late the life to which
they are lured.

In some of the state legislatures a
good deal of heat has been displayed in
debate and accusations of insincerity
and duplicity have been made during
the warmth of controversy. It is gen-
erally best to credit those who differ
from us as being as sincere as ourselves.
Most men have their political convictions
and they believe them to be right.
Common fairness demands that the tol-
erance and respect which one man de-
mands for his own views he should con-
cede to others. And it is well to remem-
ber that whatever may be the diversity of
views most people are honest and seek
the welfare of their country or commu-
nity, as the case may be.

We bestrew the caskets with flowers,
make post-mortem eulogies, and inscribe
eloquent epitaphs upon the tombstones
of dead friends, and all that is well.

But as a rule we do not give enough
flowers nor speak enough words of ap-
preciation while they are alive. One
need never fear in bestowing judicious
praise upon others. Usually there is
plenty of criticism to balance the ac-
count and keep them humble.

It is a rare day when some university
professor does not make some startling
and radical assertion with the desire,
apparently, of getting talked about.
Usually this distinction falls to the uni-
versity of one of our great cities, but
the latest effusion comes from a Har-
vard professor. His assertion that
women are mentally inferior to man and
is closer to the savage state strikes most
people as being ludicrously absurd.

The craze for aviation does not seem
to be so pronounced as it was before
death took such a toll of daring bird-
men. This does not necessarily mean
that people have lost interest or that
the science of aeronautics will not make
great advance. What it probably does
mean is that the past tragedies have
given aviators a saner view and that
instead of making foolhardy flights at-
tention will be given mainly to making
aviation more practical and serviceable.

Home is not a matter of so many
square feet or of so many rooms in a
house. It is a matter of love, consid-
eration, reciprocal feeling and mutual
helpfulness. A house may be exten-
sively built and sumptuously furnished,
and in it may dwell a family. But it
would be a misnomer to call it a home
if discord, suspicion and selfishness are
supreme. So then, whether the house
be large or small, richly or scantily fur-
nished, it is love, carrying with it the
other qualities, that makes the home
with all its attendant blessings.

A Quality That Needs Cultivating.

The Santa Fe railroad has done a
good thing in issuing a circular enjoin-
ing its conductors and other officials to
exercise courtesy toward passengers.
Not that the subordinate officials of that
road are sinners above others in their
demeanor toward the public. As a rule
the men employed in responsible posi-
tions on all the railroads are considerate
and obliging, yet there is room for
improvement, not only on railroad
and steamboat lines, but also in all
concerns where employees come into
contact with the public. In the police
force of some of our large cities there
is oftentimes a painful lack of civility,
to say nothing of courtesy.

It is admitted that the patience of
many officials is often sorely tried by
the foolish questions frequently put to
them and by the fussiness which many
people show. At the same time it must
be remembered that what seem foolish
questions to the initiated do not seem
foolish to the people putting them. It
would be well for every public servant
in discharging his duties to bear in mind
that it is well to put oneself in the other
person's place. This would result in a
greater forbearance and courtesy in
dealing with others.

If by courtesy is meant the giving to
others what is their due and giving it
in kindly spirit, then it is a quality
which may well be practiced more wide-
ly than at present. In the mad rush
that characterizes this age many people
are not sufficiently considerate of the
rights and feelings of others. There is
too frequently a brusqueness of speech
and manner which hurts. The old fash-
ioned courtesy of our forefathers may
have been a little too elaborate, but
some return of it would be welcome.

CIVIC IMPROVEMENT

Conducted by the Twentieth Century Club of Tawas City

We think the words "cleaning up" are thoroughly understood by the people of Tawas City, and that all should be congratulated on the neat appearance of yards and streets.

Ash piles, tin cans, etc., have disappeared as by magic and in their places we see rake tracks, ruins of bonfires, and freshly spaded earth.

Though many of the houses are sadly in need of paint, very few show signs of actual neglect on the part of women and children who are working so faithfully to make attractive the homes that are dear to them. The vine over the porch, the neatly kept flower beds, the closely mown lawn all speak favorably of the occupants of any home, beautify the street, and gladden the heart and eye of all who chance to see them. While it may not be right to judge man by the clothes he wears, most of us do so to a certain extent and go even farther when we judge the interior of a house by the exterior.

It should not be necessary to draw your attention to the waste paper on the more public streets for you should all have eyes that see. A year ago the ladies of The Twentieth Century Club had wire baskets made and placed in public places and asked people to drop scraps into these receptacles instead of carelessly on the street. The condition of the baskets today show how little they have been appreciated and the papers blowing around the streets to the annoyance of many prove how lightly the wishes or even rights of other people are regarded. A piece of paper is only a small thing, but a few dozen hand bills, newspaper wrappers, and letter ends thrown around promiscuously detract greatly from the appearance of an otherwise beautiful city.

As a suggestion—if the city would provide a place for the dumping of the rubbish that no one knows what to do with, much of the unsightliness of our streets—particularly the lake front—would be removed. These are just some of the "little things" which if thoughtfully cared for will do much toward making for us "A City Beautiful."

As we are unconsciously influenced by our surroundings it is important that, for the development of our higher and better selves and the cultivation of character in the children growing up in our city, we make those surroundings as pleasant as possible.

Then do your little part. Plant a tree; train a vine over the back fence; rake the tin cans out of the ditch; paint the house—perhaps. But do not think that it does not matter. Little beginnings often lead to the accomplishment of great things, and some day we may have water works, an auditorium, an attractive lake front and all of the "needs" to which our attention has been called.

Northeastern Michigan Development Bureau Notes.

In Beaver Creek township, Crawford Co., a unique and altogether practical method of helping the new settler get some land cleared has come to light.

The task of clearing new land is by no means the easiest and most entertaining proposition on earth, and the new settler, removed from friends and conditions to which years of association had made him familiar, working alone in a field from which the logs and brush have to be removed, the land stumped and snagged, is liable to experience the pangs of homesickness and, when feeling a little blue, to say "what's the use" pack his goods and leave the country, placing another black mark against the land man for selling land to a man without first investigating his past life to find out whether he would make good as a farmer.

Much more lonely is likely to be the lot of the woman, coming strange into a new community. The women are not as free to mix as the men, consequently, if care is not taken the new settler is liable to find, just as he is getting the best of the natural obstacles on his new farm, that he has a lonesome and discontented wife on his hands longing for human companionship and whose mind is reverting to her old neighbors and acquaintances. This one cause has left many a new farm deserted.

However, in Beaver Creek a young people's association was formed for the purpose of amusement and education during the winter months of 1909-10. As summer came on and the busy time approached, it seemed as if the regular Friday meeting would have to be discontinued until someone made the proposition that they get together every Friday the same as usual but that each man bring his team and tools and something to eat and that they clear land.

The idea worked famously and during the summer of 1910 they met at 17 farms and cleared altogether 126 acres of land, averaging 8 acres per farm.

Twenty-five men with 5 or 6 teams of horses, appearing at a new settler's place on a Friday morning, each bringing his own lunch so as not to make a burden on the woman of the house, would seem to him a most cheering sight. He, of course, would have to return the compliment but think of the lonely hours avoided. In the merry, jesting, joshing crowd, the competitive spirit is seen to show and there is more work done and done amid a good deal of lively fun.

And the women came too and helped the woman at the house. They talked, sewed, quilted, laughed and sang putting a bright spot in what is liable to become a rather monotonous life.

George A. Bellmore, of Wellington, Mich., was at the head of the association and can give ideas as to the details of working out such a scheme. It would be a good thing if these kind of associations were prevalent in the newer settlements of Northeastern Michigan.

LOCAL OPTION LAW.

To Whom it may concern:

At the request of quite a number of citizens of Isosco County, the Prosecuting Attorney and Sheriff desire to place before the public at this time, a brief statement of what the so called Local Option law consists. The statute allowing any and all of the several Counties of the state of Michigan to put in force the Local Option law, was passed by our legislature in the year 1889 and numbered Act 207, and which went into effect on Oct. 2d, of the same year. This Act contained originally twenty-four sections, most of which have been amended, by the succeeding laws passed in the years 1899, 1903 and 1909, and the Local Option law as amended, now reads as follows:

Section 1. (1909.) It shall be unlawful for any person directly or indirectly, himself or by his clerk, agent or employe, to manufacture, sell, keep for sale, give away or furnish any vinous, malt, brewed, fermented, spiritous or intoxicating liquors, or any mixed liquor, or beverages, any part of which is intoxicating, or keep a saloon or any other place where any such liquors are manufactured, sold, stored for sale, given away or furnished in any county of this State on and after the first day of May next following after the adoption by the board of supervisors of such county of a resolution prohibiting the same, as provided by section thirteen of act number two hundred seven of the public acts of eighteen hundred eighty-nine, as amended, so long as said resolution remains unrevoked; PROVIDED, HOWEVER, That the provisions of this section shall not apply to druggists, or registered pharmacists, selling any such liquors under and in compliance with the restrictions and requirements imposed upon them by the general laws of this State and sections twenty-five and twenty-six of this act as amended.

Section 16. (1909.) Any person, who himself, or by his clerk, agent or employe, shall violate any of the provisions of this act shall, for the first offense, be deemed guilty of a misdemeanor and upon conviction thereof be sentenced to pay a fine of not less than fifty dollars nor more than two hundred dollars, and the costs of his prosecution, and to imprisonment in the county jail not less than 20 days nor more than six months, in the discretion of the court.

For the second and every subsequent offense so committed, whether in the same or any other county in this State where the provisions of this act are operative, he shall, upon conviction thereof, in any court of competent jurisdiction be sentenced to pay a fine of not less than one hundred dollars nor more than five hundred dollars, and to imprisonment in the State House of Correction and Reformatory at Ionia for a term of not less than six months nor more than two years, in the discretion of the court.

Section 25. (1909) (Abbreviated.) Every druggist in the county shall make or swear to, or cause to be made and sworn to, a true written or printed statement, signed and duly sworn to by himself or clerk, on Monday of each and every week, giving the full name and residence of every person procuring liquor at his drug store during the last week, the kind and quantity, the date of procuring same and the object for which each purchase was made, and to deliver to the Prosecuting Attorney personally or by mail, such statements; and shall also make or cause to be made and sworn to, a true statement on the first Monday of every month, giving the number of consignments of liquors received since making his last previous monthly statement, the dates when such consignments of liquors were received and the kind and quantity, and the names of the persons from whom he purchased same, and to deliver or mail such statements to the Prosecuting attorney.

Section 15. (1903) (Abbreviated.) Wine may be sold for sacramental purposes. Druggists or registered pharmacists may sell pure alcohol for medicinal, art, scientific and mechanical purposes. Sale may be made of wine or cider from home grown fruit in quantities of not less than five gallons, wine or cider may be manufactured and sold at wholesale, or wine or cider manufactured in this county may be sold to parties who reside outside of said county.

Section 26. (1909) (Abbreviated.) Every druggist is permitted to sell intoxicating liquors for medicinal purposes only on a written (not printed or typewritten) prescription of a regular practicing physician. This section also provides for what prescriptions must state and also for the record to be made of such sales by the druggist or his clerk in a book to be kept for that purpose by druggists; and further, that every prescription so received shall be cancelled in a certain way when filled; and further, that a true copy of all such prescriptions shall be filed with the Prosecuting Attorney by the druggist at the same time of filing his report of sales. Pure alcohol and other liquors may be sold for art, chemical, scientific or mechanical purposes, when written application is made by a person under oath that the purchase is made for the above named purposes. All such statements so received and filed, shall be cancelled, signed and filed in the manner herein before prescribed for medicinal purposes. Blank forms for reports, etc., may be received from the County Clerk by druggists making application therefor.

Section 27. [1909] [Abbreviated.] Provides for any person making a sworn complaint or affidavit that he has reason to believe and does believe that any of the liquors mentioned in Section One of this act, are being manufactured, sold, furnished or given away as a beverage, or kept for the purpose of any of the foregoing, or stored temporarily or otherwise, and such person may designate any officer having power to serve criminal process to search the premises so designated, and if found, to seize the same and safely keep them for future evidence.

Section 29 [1909] [Abbreviated] Provides for the issuance of search warrants for discovery of liquors, etc.

Section 33. [1909] No warrant shall be issued to search a private residence occupied as such unless it or some part of it is used as a store or shop, hotel or boarding house, or for any other purpose than a private residence or unless such residence is a place of public resort.

Section 36. 1909 All shipments of any of the liquors referred to in section One of this act from any point within the state consigned to any point within any county wherein the provisions of this act are in operation to be paid for on delivery, commonly called C. O. D. shipments, shall be held to be sales made at the place of destination in violation of the provisions of this act.

Section 38. (1909) (Abbreviated.) The keeping or having in any house or building, or in any room or place occupied by any person, corporation, club, association or society, except a private residence occupied as such, of any of the liquors mentioned in Section one of this act for the purpose of selling, giving away or furnishing to those frequenting such place, or to others, shall be held to be the keeping of a place where intoxicating liquors are sold, furnished or given away.

Section 39. (1909) (Abbreviated.) Provides that when any person is found intoxicated, the Justice may compel him by subpoena to testify when, where and from whom he procured the intoxicating liquor, upon complaint by any person on oath.

All of the foregoing sections of the law apply more directly to the enforcement of it after it has been adopted in any particular county. A careful study of these provisions will aid materially any person to properly obey the law, and which we trust will be beneficial to the county at large in so advising all persons what their rights and liabilities are under the law.

It may be apropos at this time to say that every citizen of a county is entitled to the right to express his opinion of the benefit or

injury to be caused by the adoption of any particular law, and proposed laws are rightfully criticized and inspected before passage, but it is a fundamental principle of our government that a majority may make laws for the government of all, and it matters little what our private opinions are of the so called Local Option law before it was adopted by this county. A majority of votes have been legally recorded in favor of its passage and it is now a law for the government of conduct of all persons in relation to intoxicating liquors, and is no longer a matter of public opinion as to whether it is a good law or a bad one.

The passage and adoption of any law is only the first step towards the end sought. The enforcement is the second and most difficult one. It is the intention of the undersigned officers of Isosco county to properly enforce this law in question and to lend their best efforts in that direction. Every citizen of the county also has a duty to perform in this relation and it is expected that each citizen will see to it that every known violation is properly reported to the officers of the county. It is also hoped and expected that every citizen will cheerfully conform to the provisions of this law, thereby saving the tax-payers in general from expense in prosecutions, and saving himself from the penalty of the violation.

The office of Prosecuting Attorney will be at the disposal of any citizen in Isosco county so far as making and filing complaints are concerned, and the same will receive prompt and vigorous attention. The office of the Sheriff will likewise be open to all citizens for complaints and an honest endeavor made to enforce the law in this instance as in all others.

Very respectfully yours,

A. W. BLACK, Prosecuting Attorney.
GEO. H. HADWIN, Sheriff.

State of Michigan, In County of Iosco. To the honorable Board of Supervisors: Gentlemen:—Your petitioners, residents and taxpayers of the county of Iosco, directors of an association known as the Reno Farmers' Telephone Company, petition for right of way privileges along the highways of said county, subject to such restrictions as may be imposed by the highway commissioners of the several townships and counties. Said telephone company is intended to bring the farmers of Iosco county into telephonic communication, directly or indirectly, benefit every resident of this community. We respectfully ask your honorable body to grant our request. (Signed) Mark Robinson, President, John Degrow, Secretary. Moved by Anschuetz supported by McDonald that communication be accepted and made a special order of business for 9 a. m. tomorrow. Carried by unanimous vote. To the Hon. Board of Supervisors of Iosco County: Gentlemen:—I, George Schroeder, county drain commissioner of Iosco county, under the advice of the prosecuting attorney, do hereby submit the following as my report in regard to a certain drain known and designated as County Line A Drain, commencing at the intersection of the line of Section 21 of Township 20 N. R. 7 E. and running in a westerly course north the said county line between the townships of Whitney and Alafather. In regard to said drain, I find a certain application for the locating and establishing of a drain on file, bearing date of June 19, 1907, from Whitney township, Arenac county, describing the route similar as outlined above, and on the strength of this application it seems that there was a survey or part of a survey made at this date. I find no opinion on record by the former county drain commissioners as to the necessity of establishing the above said drain, as required by law at that time. I also have on file another application, bearing date of August 27, 1910, from the township of Whitney, Arenac county, and attached to my report for your inspection. I find that there was no joint meeting of the township boards of said Whitney and Sherman townships, and the necessity of said drain, which the law requires, as the townships mentioned are affected by the drain described, within petition. There is no record made of this application in my records. Now, then, under the above conditions, I find that a survey has been made of the drain herein named with an expense of \$70 74, which amount includes expenses of survey made during the years 1907 and 1910. And now under the existing circumstances as outlined in this report, I find that the county drain commissioners of Iosco county have filed their first order of determination, but the same has not been recorded in any office, nor has any other papers pertaining to said drain been recorded. I, therefore, do not feel justified in continuing the same until such time as the matter has been brought to your notice and of the prosecuting attorney for your consideration of the same, and I recommend that the same be referred to you for your consideration of the same, and for your further explanation in this matter. I herewith attach all the papers in my possession pertaining to said drain to this my report. Dated at Sherman township, Mich., this 8th day of April, 1911. George W. Schroeder, Co. Drain Comm'r for the Co. of Iosco. Moved by Anschuetz supported by Beardslee that chair appoint a special committee on drains and ditches and that communication of county drain commissioner Schroeder be referred to said committee. Carried by unanimous vote. Thereupon, the chair appointed as said committee: Supervisors Abbott, Allen, Merschel, Hull and Lindsay. Moved by Anschuetz supported by McDonald that chair appoint a committee of 3 to investigate requests of county officers for supplies, and report to the board at 10 o'clock on tomorrow. Carried by unanimous vote. Thereupon the chair appointed the following as said committee: supervisors McCaig, Anschuetz and LaBerge. To the Hon. Board of Supervisors: Your committee No. 2, on claims and accounts respectfully submit the following as their report, recommending the allowances of the several amounts as given below, and that the clerk be authorized to draw orders for the same. John W. Tait, justice fees 15 Wm. Murray, transient officer's fees 27 15 G. H. Hadwin, meals for prisoners 23 60 G. H. Hadwin, sheriff's expenses 92 00 G. H. Hadwin, 1 day service on street 3 00 Gus C. Karus, Benj. Frost, Sr., Jas. LaBerge, Committee. Moved by LaBerge supported by Prescott that report of committee No. 2 on claims and accounts be accepted and adopted. Carried, Yeas 13, nays 0. Thereupon the board adjourned until tomorrow at 9 o'clock. GEO. SUTHERLAND, Chm. JNO. A. MARK, Clerk. Wednesday, April 12, 1911. The board of supervisors of Iosco county met in the court house, in the city of Tawas City, in said county, on Wednesday, April 12, 1911, pursuant to adjournment from yesterday. Board called to order at 9 a. m., by chairman Geo. Sutherland, who ordered the clerk to call the roll. Present—Supervisors Abbott, Allen, Anschuetz, Bartlett, Beardslee, Brown, French, Frost, Hull, Karus, Jordan, Lindsay, LaBerge, McCaig, Merschel, Muncy, Myles, Oliver, Prescott, Robinson, Rollin, Sutherland, Williams—23. Quorum present. The clerk read the minutes of yesterday's proceedings, and there being no objection they were declared by the chairman unanimously approved as read. The special order of business set for this date, viz: The consideration of the request of the Reno Farmers' Telephone Co., was called up by the chairman. Moved by Lindsay supported by Beardslee that request of the Reno Farmers' Telephone Co. be granted. Motion ruled out of order by the chairman on the ground that the board of supervisors has no jurisdiction over the roads of the townships and municipalities. Board was given a recess subject to call of the chair. Board called to order at 10:30 a. m. To the Hon. Board of Supervisors of Iosco County: Gentlemen—Your committee No. 1 on

Saving Money on the Farm. The modern way of saving money on the farm is now conceded to be by the use of a SILO. It is no longer an experiment but a proven fact that the farmer who has even five head of stock to feed is losing money if he does not have a SILO. A properly built SILO is a money maker, and the best is always the cheapest. We would be pleased to figure with you on a SILO. We sell the SAGINAW SILO, which is built on scientific principles by the pioneer SILO builder.
