Mr. McLennan came to San Francisco as a delegate from the Manila Typographical Union to attend the annual convention of the International Typographical Union held in August, and since then has been making an extended tour of the United States. He will visit his old home at Tawas City before returning to Manila. —Bay City Times.

The board of supervisors adjourned last Friday until next Monday in order that some of the assessment rolls which were lost or destroyed at the time of the AuSable fire might be secured. Before adjourning they voted the annual membership of the Northeastern Michigan Development Bureau and elected Len J. Patterson and C. T. Prescott as the directors for the ensuing year from this county.
An exchange tells a story of a boy who went to market with a sack of rabbits, and lingered around town all day. When asked by his mother why he had not sold the rabbits, he said no one asked him what was in the sack. This is the way some merchants attempt to do business, and it generally winds up with a sheriff's sale. Tell the people what you have got through the columns of a reputable newspaper.
When the people can be made to understand that it actually costs more in time and money to travel over a poor road than it does over a good one, they will be less inclined to begrudge the expense of good roads, and what is more important still, will be willing and anxious to put the business of road making into the hands of intelligent men who understand the business. Poor roads are the expensive things that curse a country district.
Hallowe'en in sight, parents should not neglect to impress upon their children the fact that there are many innocent and harmless forms of Hallowe'en fun and that they should not carry their pranks to the extent of causing damage or annoyance to others. Already little heads are getting together and 'de gangs' are planning on what mischief they are going to get into; so at any time now a little lecture along this line would not be out of order.
"Just at this time the country needs a new religion that will make a man pay his debts," says the Methodist Advocate. "Shouting and giving testimony doesn't settle accounts with God or man. We bounce right into a fellow and put him out of the church if he goes to a ball or a theater, but never say a word to the man who never pays his debts. The latter are doing the church more harm than the dancers and drunkards, for there are more of them in the church."
The Public Domain Commission have in the State Nursery Higgins Lake Forest Reserve, Roscommon county a few thousand of the following varieties of seedlings which they will dispose of to those who desire to plant them in Michigan. The price per thousand is just enough to cover the actual cost of production and includes the packing, boxing and delivery to the railroad station. Seedlings can be ordered in as large or small quantity as desired and shipments will be made as long as the weather will permit. Full remittance should accompany each order. Direct all communications to A. C. Carton, Lansing, Michigan.
Rates to Detroit For State Teachers Association.
D. & M. Ry. will sell tickets at one and one-half fare for round trip on November 1 and 2, good returning up to and including November 6. Fare from Tawas City is \$5.95. Train 4 arrives Detroit 3:15 p. m. enabling passengers to locate boarding houses, etc. before dark, and then have the entire evening at their disposal. See D & M agents.
It's Equal Don't Exist.
No one has ever made a salve, ointment to balm to compare with Buckle's Arnica salve. It's the one perfect healer of cuts, corns, burns, bruises, sores, scalds, boils, ulcers, eczema, salt rheum. For sore eyes, cold sores, chapped hands or sprains its supreme. Unrivaled for piles, Only 25c at J. M. Wuggazer & Co.'s and Jas. E. Dillon's.
Driving Horses for Sale.
Five driving horses for sale at reasonable prices. H. M. Loud's Sons Company, AuSable, Michigan.
Lame back is one of the most common forms of muscular rheumatism. A few applications of Chamberlain's Liniment will give relief. For sale by all dealers.

The Schlechte Mill Sold.
It is announced that the Schlechte flour mill in this city has within the past few days been sold to Messrs. Bostford & Barrett, of Detroit, and that the new proprietors will begin at once to get it in condition to do business. The mill has been practically idle for the past two or three years and will require a thorough overhauling.
The new owners announce that they will be in the market to purchase all kinds of farm produce, including grain, hay, potatoes, etc., and invite the farmers of Isoco and adjoining counties to see them before selling.
The starting up of this mill again will be a good thing not only for the city but the surrounding country, and we welcome the gentlemen to our city and bespeak for them a liberal support.
The C. E. Convention.
The twelfth district Christian Endeavor convention at Ellake last Saturday and Sunday was well attended and a most profitable and enjoyable meeting was the result. The next meeting will be held at Standish. The following officers were elected for the ensuing year:
President—J. H. Nisbit, Twining.
Secretary and Treasurer—William O'Brien, Alpena.
Forward Supt.—Mrs. O. S. Nicholls, Long Lake.
Vice-Presidents—Hugh Cole, Alpena; W. H. Price, Whittemore; M. F. Parker, Standish.
Tawas City M. E. Church.
Public worship Sunday morning at 10:30, sermon by the pastor, "Public Profitable Investment." Sunday school at close of morning service.
Prayer meeting Wednesday evening, Admission free.
Ladies' Aid meeting Thursday afternoon. Everybody welcome.
W. A. GREGORY, Pastor.
Hunters' Rates to Upper Peninsula Points.
Tickets to points on D. S. S. & A. Ry. and St. P. & S. S. M. Ry. (Soo Line) will be sold October 2nd to November 30, good returning until December 15. See D. & M. agents for rates. Agents will inform passengers what articles can and what cannot be checked as baggage. Arrange as far in advance as possible for tickets can baggage checks.
Drilling With Diamonds.
A diamond bit for rock drilling is quite an expensive article. Its value, however, will undergo fluctuations, dependent upon the price of the diamonds. Perhaps \$800 is a fair value for a bit. The diamond used is exceedingly hard—harder than those usually used as jewelry. Their carat price is considerable, averaging, say, \$60 a carat. The diamonds used will weigh from one to two carats, so that eight have a value ranging from \$480 to \$960, on the average. The loss of a bit means so many diamonds gone and may lead to difficulty with the hole. The diamond is not tough, but brittle. It will withstand heavy pressure if applied evenly and without shock. It can readily be seen that drilling through seamy rock may become quite unfavorable. If there is much quartz present the abrasion may become excessive. Under ordinary conditions, however, the wear on the diamonds, while considerable, is by no means prohibitive.—Cassier's Magazine.
Special Privilege.
Rev. Lyman Powell of Northampton has a bright little son who is very much frightened in thunderstorms, says the Cosmopolitan. One day a heavy shower came up when the little fellow had wandered away from the house. His father, who was watching for him, saw him come running toward home as the first drops fell. He looked terrified and his lips were moving.
"What were you saying?" asked his father.
"I was reminding God that I am a minister's son." the boy replied.
Estray Notice.
There came into my inclosure, on the Hemlock road, on August 7, 1911, two cows, one Jersey and one red with some white. Owner can have same by calling on me and paying for their keep and this notice.

CATCHES MAN-EATING SHARK
Italian Battles for Hours Before Big Fish is Landed—Odd Collection In Its Stomach.
Boston.—Leonardo Romano brought in this morning a 200-pound man-eating shark with which he fought from 10 o'clock in the morning until after dark the other evening. Romano was hauling his trawl off Middlebank, when the head of the blue-back shark came over the gunwale. As the shark made a quick turn and swung his tail square into Romano's face, the fisherman swatted it with one of the oars. The shark wriggled back into the water before the oar struck the spot for which it was intended, and Romano splintered his oar.
The Italian took some rope and, forming a slip-noose, tried to drop it over the shark's head. The nearest he came to it after repeated trials was to drop half the coil into the shark's mouth.
The Italian was alone in the boat. He would have cut the trawl lose, but as the monster was attached to one of the first hooks, to do so would have meant to lose all his gear and fish. Romano hitched the trawl line to a cleat and started his gasoline engine, hoping that the shark would either get tired out or possibly ground up by the propeller. The sharp swished his tail into the propeller and the engine stopped running. The Italian had then been struggling with the fish for over an hour, and the big monster was about "all in" by this time. After much maneuvering, the fisherman got the noose over its head. Once the noose was drawn tight, it was an easy matter to choke the shark to death. Romano helped the fish to its end with his short-handled fish knife.
Besides the coil of rope there was taken from the shark's stomach this morning three full-grown codfish, one tinker mackerel, four haddock, a section of a swordfish's sword, part of a tin can, a man's cap, seven fish hooks, a clay pipe and a boot.
TEA NOT GROWN IN CEYLON
Land Where Cheaper Grades Were Produced Now Given Up to Cultivation of Rubber Trees.
London.—The tea tasters in Ming-cing lane are in for a hotter time of it than usual, and those who know anything concerning that mysterious art are fully aware that at the best it is anything but a sinecure.
They are being called upon to exercise more than their usual amount of ingenuity in the matching, in both taste and appearance, various Ceylon grown teas of the cheaper grade. The explanation lies in the fact that the "low country" districts in Ceylon, the birthplace of cheap teas, have been sacrificed for the planting of rubber trees.
A broker said that the housewife would not, because of this, be called upon to pay more for her pound of Ceylon tea. "The public," he said, "has become so used to the low-priced article that it would never pay a substantial rise. It simply means that the tea tasters will have to be a little more cunning than usual and match exactly the Ceylon grown tea."
COUPLE GIVE KISSING SHOW
Large Crowd Gathers and Enjoys Osculations at Piasa Chautauqua—Girl Was Pretty.
St. Louis.—Piasa Chautauqua was aroused soon after the arrival of the steamer Alton, by a volley of smacks. Several men and women ran down to the river and beheld a young woman and a swain in blue serge, sitting close together on the beach. One of his hands was clasped firmly in hers.
With regularity he popped his lips upon hers and each kiss was so vigorous as to be audible. In a few minutes the news spread throughout the resort. Swimming pools and walking paths were deserted and scores of persons flocked to points of vantage.
In reply to jeers the young man cried: "You fellows are only jealous. Don't you wish it were you?" The enraptured pair remained absorbed in one another until it was time to take the steamer back to St. Louis. The girl was a brunette about 22 years old and was prettily dressed. The man seemed a few years older.
Importance Recognized.
"Do you think that man fully appreciates the importance of the office to which we have elected him?" said one constituent.
"I guess he does," replied the other. "The first thing he did was to say it ought to command a larger salary."
By Degrees.
"We want our product known from the Atlantic to the Pacific."
"Start a big advertising campaign."
"But we haven't much money."
"In that case I'd start at Panama where it isn't so far from the Atlantic to the Pacific, and work gradually up."

The National Progressive Republican League has endorsed Senator LaFollete for the presidency and will endeavor to defeat Taft in the convention. The interests may prefer another nominee to Taft, but it is not the Wisconsin senator.

It is now lawful to kill quail. But really these coy little birds are such good friends of the farmer that they ought not to be killed at all. The insects they destroy make them valuable co-laborers with every tiller of the soil.

Whether it is because litigants are becoming more opulent and so able to pay for litigation, or whether it is for some other reason, the supreme court of the United States is becoming so clogged with business that it is difficult to get decisions within the lifetime of litigants. The creation of new courts to help care for this press of business does not seem to give any appreciable relief.

That business management is needed in the navy department was evident by the news recently made public of a discrepancy of more than three million dollars in the accounts of the Washington navy yard. This may be only apparent and the result of bad bookkeeping, but it requires an explanation and at the same time emphasizes the importance of having real men at the head of all departments.

The principal uses of cobalt in the United States are in making glass and pottery. A beautiful blue is given to glass by the oxide of cobalt. Sympathetic inks, according to a report of the United States geological survey, are made from cobalt acetate, chloride, and nitrate that are colored when heated or colorless when cold. This interesting phenomenon is due to the change in color of the salts on the absorption of water. When dry they are blue and easily seen on paper; when damp they are pink, and when dilute, colorless. A puzzling application of this principle may be in a doll whose dress is blue in dry weather but changes to pink when subjected to dampness, as in wet weather or when the doll is held in the steam of a tea kettle. Artificial flowers are made to show the same effect.

Continuation of Advice on "Forest Fires."

The annual crop of advice on how to prevent or stop forest fires has been unusually large this year, considering there has been no forest fires worth while.

This advice has come from all sources and to a large extent from journals in large cities where highly organized fire departments are frequently unable to cope with fires which destroy "fire-proof" buildings.

Forest fires in Michigan are nearly a thing of the past, as are the forests. After the lumbering is over the brush and debris left on the ground are bound to burn during a dry spell—but these are only brush fires. Fires of this character caused havoc by being driven into AuSable and Oscoda during high winds, and although these cities built of lumber had good fire protection the flames could not be controlled when under headway. The burning of these cities was erroneously termed by some newspapers a forest fire. Then at Millersburg and Onaway we heard of forest fires—but it was only another case of fires spreading in old slashings, etc., not in real forests. Since the fires we are told that much of the land burned over is being cleared for farms at very little expense. It is the old story of Sanilac county after the big fires, when fine farms quickly sprung into existence. In Gladwin and other north Michigan counties we have had the same experience. Land cleared of debris by fires after lumbering has made farms quickly. This class of fires could be prevented from causing material damage if the brush and other inflammable material were burned piecemeal between dry times, and the moral is plain—to prevent fires from running, remove the rubbish by building more fires—at a time when you can watch them and see that no damage is done.

Farms will follow and danger from these so-called forest fires will be removed.

Do not let the fire traps remain until a dry spell.—Gladwin Record.

VERITABLE SLAVE TO DUTY

Mr. Billtops Shows He Could Get Mrs. Billtops to Take a Nap Occasionally.

"After my vacation on Sunday, and in fact after my vacation on various other days, I have had Mr. Billtops, 'to take a little nap' and I take those naps very early in the morning, so that my head drops back on the pillow and the first thing you know I am in the land of dreams, dozing away very comfortably as I did after dinner last night for instance."

"But last night when I had waked up and had my feet across the table at Mrs. Billtops' sitting on the other side sewing, and she said to her, as I guess I have said a thousand times, 'My dear, I think I must have dropped asleep.' 'Then she said to me, 'I never could take a nap like that. Sometimes I fall asleep over my work, and sometimes I go to sleep over the newspaper, but to sit down and deliberately let myself go to sleep like that is something I could never do. I should think it was a sin.'"

"And that's the trouble with Mrs. Billtops, that's the trouble she's got too sensitive a conscience. She thinks she must be doing something all the time."

"There are so many things to be done and she thinks it her duty to keep always at work, never to waste a minute's time. She's a slave to duty, and idleness in any form she looks upon as a sin. She's very lenient with all the rest of us, very kind and gentle, but to herself she denies all luxury."

"I wish that I could persuade Mrs. Billtops to take a little nap occasionally."

Averts Awful Tragedy.

Timely advice given Mrs. C. Willoughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies, failed, her aunt urged her to take Dr. King's New Discovery, "I have been using it for some time," she wrote "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by J. M. Wuggazer & Co., and Jas. E. Dillon.

POLITENESS OUT OF PLACE

Old Lawyer Did Not Want His Client to Think He Could Get Free Advice.

Politeness is politeness, but business is just business. One of the clerks of the supreme court tried to combine the two the other day, but hereafter he is going to attend strictly to business. He was anxious to destroy the common belief of many persons who visit the New York county courthouse that little courtesy is shown by the attaches to those seeking information. The clerk was standing in the corridor on the second floor when two men came along, one of them gray haired. The younger one asked the elder the way out of the building. The clerk heard the query and at once told the questioner several ways he could get out. The older man turned on the clerk with the injunction to mind his own business, adding that he had been in the building before the clerk was born and could himself answer his companion. A little later the old man looked up the clerk and apologized, explaining that the man who wanted to know how to get out of the building was his client and that he did not want him to get the idea that he could receive free advice. "If he gets that notion," said the old practitioner, "I'll lose him as a client."

Biliousness is due to a disordered condition of the stomach. Chamberlain's Tablets are essentially a stomach medicine, intended especially to act on that organ to cleanse it, strengthen it, tone and invigorate it, to regulate the liver and to banish biliousness positively and effectually. Read and Reflect.

If the reader, says the Providence Journal, after perusing the following description of the probable mode of the formation of the earth, given by an English scientific writer in a new volume, does not understand the process, he had better leave this "internal spherulic vacuity" and go where bigger words are used: "A formal idea of the heaven and earth may be obtained by imagining the heaven as at first an effluvia generation from a monocentral point, occupying, or creating and occupying space; the earth, as the arrest or end of such generating action, with the gradual relaxation of central tension and abnegation of such center, the consequence being the formation of a huge internal spherulic vacuity, termed in the Genetic record 'earth.'"

The best plaster. A piece of flannel dampened with Chamberlain's Liniment and bound on over the affected parts is superior to a plaster and costs only one tenth as much. For sale by all dealers.

KILLING OFF THE MOSQUITO

Much Has Been Done With Crude Petroleum, and the Fish Experiment Works Well.

According to those who have given much time to the question of destroying the mosquito, considerable progress has been made in that direction in the last few years. Many of the breeding places have been wiped out in New Jersey and Staten Island, but unfortunately enough still remain to give the insects plenty of chance to multiply. Crude petroleum has been used with good effect in places where the drainage is bad, but this, of course, can bring only a temporary cessation of breeding.

The fish experiment is said to have been used successfully in the Barbados. All the swamps and ponds were stocked some years ago with a species of fish that feed on the larvae of the mosquito. These fishes multiply rapidly and thrive in the West Indian waters. In a short time there were millions of them in the swamps and ponds, and it was observed that mosquitoes were comparatively scarce in the islands.

The success of this experiment led to the stocking of standing waters in Jamaica a year or two ago, and the health authorities of that island report a considerable diminution of fever as a result of the destruction of the mosquito larvae.

Is The World Growing Better?

Many things go to prove that it is. The way thousands are trying to help others is proof. Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufferers, everywhere, to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. They're the best tonic and finest liver and kidney remedy that's made. Try them. You'll see. 50c at J. M. Wuggazer & Co.'s and Jas. E. Dillon's.

BUILDS LARGEST OF NESTS

Jungle Fowl of Australia Constructs a Substantial Mound About Fifteen Feet High.

The jungle fowl of Australia is the bird that builds the largest and most substantial of all nests. It seeks out a secluded spot and then begins the work that will keep it busy for a stretch of weeks, according to naturalists who have studied the bird of Australia. It gathers leaves, grass, twigs and dozens of other materials, weaving them together so skillfully as to construct a mound that is qualified to withstand any stress of weather.

The bird toils away until its mound is about 15 feet high, the circumference at the base being often 150 feet. At the apex the nest is made, and from this perch the bird is able to see the approach of any one of its jungle foes in time to take defensive measures.

The bush turkey of Australia also adopts similar methods in building its nest, although the foundation is not so large. Instead of making a moundlike base, the turkey constructs one in the shape of a pyramid. Naturalists say that it takes the combined strength of several men to move one of these big nests.

Gives Aid to Strikers.

Sometimes liver, kidneys and bowels seem to go on a strike and refuse to work right. Then you need those pleasant little strike-breakers—Dr. King's New Life Pills—to give them natural aid and gently compel proper action. Excellent health soon follows. Try them. 25c at J. M. Wuggazer's & Co.'s and Jas. E. Dillon's.

Union of 69,000 Teachers.

The National Union of Teachers of England and Wales, which is neither an incorporated professional institute nor a trade union, but combines the best features of each, with certain functions peculiarly its own, "is the most wonderful organization of teachers in the world. Beginning with a modest group of 400 in 1870, it now enrolls a membership of more than 69,000 teachers, nearly three-quarters of all the certificated teachers in the country. The conference is relatively rarely attended by members in their individual capacity, but practically all the people one sees there are sent as representatives from the various local associations, in accordance with a formal scheme of representation. Even this brings together a gathering of some two thousand people.

It's Equal Don't Exist.

No one has ever made a salve, ointment to balm to compare with Bucklen's Arnica salve. It's the one perfect healer of cuts, corns, burns, bruises, sores, scalds, boils, ulcers, eczema, salt rheum. TOMB OF SEMINOLE CHIEF

Traveler Tells of Amusing Inscription On an Old Monument In St. Augustine, Fla.

"Recently," said a traveler, "while in the old town of St. Augustine, Fla., my attention was attracted by a magnificent specimen of a bibiscus tree in full blossom. It was growing in the rear of a drug store on the southwest corner of Orange and Cordova streets. "Stopping for a moment to admire it I was surprised to discover beneath its branches an old stone monument, evidently of great antiquity, almost completely concealed by its blossoms. "The monument bears no date, and persistent inquiry failed to elicit any information as to its origin or history. "It is about four feet in height, and bears the following epitaph on its side:

"NOTIS
This werry elaborate
Pile
Is erected in memery
of Tolomato
A seminoole ingine chief
Whooos wigwarm studd on
This spot and surroundings
Wee cherris his memery
As he was a good harted chief
He wood knot take your

You are not experimenting on yourself when you take Chamberlain's Cough Remedy for a cold, as that preparation has won its great reputation and extensive sale by its remarkable cures of colds, and can always be depended upon. It is equally valuable for adults and children and may be given to young children with implicit confidence as it contains no harmful drug. Sold by all dealers.

The Buying Power of \$1.75.

A little money sometimes buys a good deal. For instance take the subscription price of The Youth's Companion for a year—\$1.75. If all the good reading in the 52 weekly issues of the paper were published in book form, according to its kind, it would make about thirty volumes of fiction, science, essays by famous writers, household management and economics, sports and pastimes, natural history, anecdotes, humor etc. The serial stories alone would fill several volumes. Among these is Ralph Paine's great story of the Boxer Rebellion in China, "The Cross and the Dragon." Another is by J. W. Schultz, who was adopted by the Blackfeet when a boy. It is called "The Quest of a Fish-Dog Skin." Another is a glorious girl's story by C. A. Stephens, called "Julia Sylvester." It is a story of a "Mercer" girl in the pioneer days of Oregon and Washington—and that is only part of the serials.

It will cost you nothing to send for the beautiful announcement of The Companion for 1912, and we will send with it sample copies of the paper.

Do not forget that the new subscribers for 1912 receive a gift of The Companion's Calendar for 1912, lithographed in ten colors and gold, and all the issues for the remaining weeks of 1911 free from the time the subscription is received.

Only \$1.75 now, but on January 1, 1912, the price will be advanced to \$2.00. THE YOUTH'S COMPANION, 144 Berkeley St., Boston, Mass. New Subscriptions received at this office.

FOUR USEFUL RECIPES

HOW TO MAKE BATTER CASES FOR VARIOUS MIXTURES.

Full Instructions for Cooking Swiss Steak, Potato Waffles and Boiled Meat Pudding.

Mixing Batter Cases—Beat up one egg, add a quarter of a teaspoonful of salt, half a cupful of milk, one cupful of flour and a dessert-spoonful of olive oil. Mix till smooth and glossy. Add three tablespoonfuls of milk and allow to stand in a cool place for one hour. Dip a timbale iron into hot fat, let it stand for two or three minutes, then drain and dip into the batter to half an inch of the top of the iron; return at once to the fat and hold there until the batter is crisp and lightly colored, then remove from the iron and turn upside down on paper to drain. All kinds of sweet and savory mixtures may be served in these batter cases.

Swiss Steak—One pound of steak, one cupful of flour, salt and pepper, four skinned tomatoes, one sliced onion, water. Have the steak cut two inches thick, and pound into it the flour with the sanitary steak shredder. Put the steak into a skillet, with some lard, and brown on both sides. Then cover with water, adding the sliced onions, tomatoes sliced and cover closely and let simmer for three hours. Just before the steak is done add salt and pepper to taste. When done the gravy is already made and is delicious. Swiss steak is best when prepared with the sanitary steak shredder, as it makes it so very tender and very juicy. The shredder weighs half a pound, and may also be used for other purposes that will readily suggest themselves to the intelligent housewife, as a fruit or vegetable chopper, potato masher or noodle cutter, each impression cutting a noodle 24 inches long. It is practically indestructible, and will last a lifetime.

Potato Waffles—Peel some potatoes thinly and slice them on a potato slicer. Allow them to lie in cold water for half an hour, then dry them thoroughly. Fry them a few at a time in smoking hot fat, drain, sprinkle over with a little salt and pepper, and serve at once.

Boiled Meat Pudding—Sift half a pound of flour into a basin, add to it a pinch of salt and one teaspoonful of baking powder, then chop a quarter of a pound of suet very finely and mix it in, rubbing it into the flour with the fingers. Add as much cold water as will wet it, and make it up into a stiff piece of paste, then roll it out on a floured board into a round piece. Grease a pudding mold, line it neatly with the paste, which cut even around the edges; mix together on a plate one teaspoonful flour, one teaspoonful of salt and a half a teaspoonful of pepper. Cut one pound of lean meat in thin slices, dip them in the seasoning and place them in the mold, and pour in a teacupful of water for gravy. Wet the edges of the paste on the mold, roll out the scraps that remain large enough to cover the dish, place it on, press down at the edges and sprinkle a little flour over the top. Now dip a pudding cloth in boiling water, tie it tightly over the top, and plunge the pudding in plenty of boiling water, then boil it for two and three-quarter hours. Remove the cloth, and turn the pudding over on a dish. Liver and bacon mixed, or mutton, makes a good pudding of this kind.

Ham Potatoes.

Cut the odd pieces of a boiled ham in small cubes. Slice boiled potatoes while hot and place a layer on the bottom of a baking dish. Add a layer of ham and a few fried sliced onions if desired, and alternate until full, with potatoes dotted with generous lumps of butter forming the top layer. Place in oven to heat thoroughly, heat three eggs with three cups of milk and seasoning to taste. Pour over the ham and potatoes, dust with dry bread crumbs and place in the oven until the eggs partially set. This is a meal in itself.

Sugared Cherries.

Sugared cherries are delicious. Use large, firm cherries for this dish. Have in front of you a soup plate containing the whites of three eggs mixed with five tablespoonfuls of cold water, another plate filled with sifted powdered sugar at your right, the bowl of cherries at your left. Dip each cherry in the water and white of egg, turn it over and over in the sugar and lay on a chilled platter to dry. When all are done sift more powdered sugar over the fruit and arrange carefully on a glass dish.

Cheese Custard.

Cut bread into slices, one inch thick; remove the crusts and cut into cubes. Butter baking dish and put in a layer of bread cubes, then a layer of grated cheese; proceed until two cups of cheese have been used. Mix together one beaten egg, one-half teaspoon of salt, one-fourth spoonful of paprika and one and one-half cups of milk. Pour over cheese and bake until nicely browned. Serve at once.

Canned Grapes.

Make a heavy sirup and have glass jars hot, fill full of grapes, pour sirup over grapes, seal as usual, and the grapes will keep perfectly and be whole and taste like fresh fruit.

GOOD NEWS FOR PIANOLESS HOMES—

Grinnell Bros.' Great Sale of Summer Resort Pianos To CONTINUE a FEW DAYS

At the time this sensational Clearance opened we expected that our floors would be cleared of the Rental Pianos and the sale brought to a close Saturday evening; but a continuance is necessary—due to the fact that the instruments coming in last week found us with our repair and finishing departments crowded to the limit. There was no chance to offer these Rental Pianos earlier, for we make it a fixed rule that every instrument shall have a thorough overhauling, and, like all the others, these last instruments could not be placed on our floors until they had been carefully inspected, adjusted and tuned. However, they are now ready for your most critical investigation—they embrace the best makes, the handsomest designs, and among them are some of

The Greatest Bargains of the Sale

Most of these are Pianos which had been retained to the very end of the season. On these, of course, a greater amount of rent has been received than on those coming back earlier—and you get the benefit. This sale must be terminated soon—we are not stopping with the reduction of the rent alone; additional discounts are made, and the values presented are not only fully equal to those first offered, but in many instances are even greater.

The following list, in addition to the Rental Pianos, includes Sample Pianos, instruments taken in exchange, etc. All are in good condition, having been through our Repair Rooms, and, you will note, are offered in many cases at **LESS THAN HALF ORIGINAL PRICE.** You owe it to your own interests to see this immense stock at the very earliest opportunity.

Old Mr. Owl is known to have left his hermitage in the green timber of the distant swamp, and has been seen prowling around the barn and hen house, by the dim light of the moon.

The report of a snow storm in Montana which left several inches of the beautiful(?) on the ground in the month of October, served as a check to some in this locality who had the "western fever."

NORTHWESTERN UNITED DOCTORS

—OF—
MINNEAPOLIS, MINN.

An Association of Prominent Physicians Giving FREE Medical Services to the Sick and Medicines at Cost.

Comprising a Full Staff of Specialists Treating Diseases Scientifically and Without Operation.

COMING to Tawas City, at Iosco Hotel, Friday, Oct. 27, One Day Only.

The Northwestern United Doctors duly organized and licensed by the state for the purpose of treating diseases, deformities and all curable ailments without surgical operation. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in this locality, that at last treatments have been discovered that are absolutely sure and certain in their effect.

By their developed system no more operations for appendicitis, gall stones, tumors, goiter, piles or cancer. They were among the first in America to do away with the knife, blood and pain in the successful treatment and cure of these dangerous diseases.

Diseases of the stomach, intestines, liver, skin, nerves, heart, spleen, kidneys and bladder. rheumatism, sciatica, diabetes, bedwetting, leg ulcers, epilepsy, or fits, etc., all treated with gratifying success. Consumption, asthma, bronchitis and catarrhal diseases absolutely cured with combination of medicine, hygiene, diet, exercise and the important uses and advantages of clothes, occupation, etc. Many cases of deafness are frequently cured in sixty days. Loss of sight, blindness, cataract, granulated lids and old weak, watery, sore eyes treated after a fashion that knows no fail. In long standing, deep-seated, chronic diseases of men and women, and slow growths and undeveloped children's diseases, a treatment that is absolutely certain in its effects can be had and depended upon. Thousands of patients throughout the Northwest attest the ability of the Northwestern United Doctors to cure these dread diseases.

No matter what your ailment may be, no matter what others have told you, no matter what experience you have had with other physicians, it will be to your advantage to treat with the Northwestern United Doctors Specialists. Even if your case is incurable they will give you such advice that will relieve you and stay the disease. There is no string tied to this proposition, they mean just what they say and will do to your advantage what they contend. Every specialist is prominent in his line and stands at the head of the profession.

Do not put off this duty you owe yourself, your friends, and your relatives, as a visit this time costs you nothing and may save your life.
If you have kidney or bladder trouble, bring a two-ounce bottle of your urine for chemical analysis and microscopic examination.
Remember this free offer is for this trip only.
Hours 9 A. M. to 8 P. M.
Married ladies must come with their husbands and minors with their parents.

The best plaster. A piece of flannel dampened with Chamberlain's Liniment and bound on over the affected parts is superior to a plaster and costs only one tenth as much. For sale by all dealers.

Hemlock Slivers.

The M. B. M. Club met at the home of Miss Mabel Andre Wednesday evening, October 18, and organized by electing the following officers: President—Mabel Andre. Vice-Pres.—Margaret McGill. Sec'y-Tres.—Alma Ferrister.

The club is composed of eight young ladies, all of whom were present. A few of the most ambitious industriously plied their needles, while the others talked and criticized the busy ones. It is told that one of the young ladies broke thru a bridge while on her way to the meeting. Of course there were no bones broken as the bridge sustained all the injuries. Miss Andre furnished instrumental music, and the meeting closed with a vocal solo, "Sing Me to Sleep," by Miss Eye Sauve.

Gives Aid to Strikers.

Sometimes liver, kidneys and bowels seem to go on a strike and refuse to work right. Then you need those pleasant little strike-breakers—Dr. King's New Life Pills—to give them natural aid and gently compel proper action. Excellent health soon follows. Try them. 25c at J. M. Wuggazer's & Co.'s and Jas. E. Dillon's.

Power.

"Water power is coming to play a great part in the industries of this country."
"Yes," replied Mr. Ara Grett, "especially in Wall street."

Some Women Have No Hearts

A Cleveland man was complaining the other day about the lack of sympathy in the world.
And then he offered a personal example.

He said he went home from his business on a recent afternoon and received a great scare on the way. He was still trembling when he entered the house.

"Well, Mary," he said, as he dropped into a chair, "I got a bad scare just now. As I went around the end of the car at the corner a big touring car went by me like a wild thing, and say, it was so close when it passed that the hubs of the wheels brushed my pants!"

Did his wife turn pale at this recital? Did she express joy and thankfulness over his narrow escape?
No, she didn't.
She just looked him over and said: "Well, your pants certainly needed brushing!"
