We wish we could impress on all our advertisers the importance of getting the copy of their advertisements to us not later than Wednesday morning (Tuesday is better), of each week. Their advertisements would then receive much more careful attention as to composition, etc.  
Pigeon, Huron County, furnishes a good illustration of what progression in road building brings. Recently Winsor township, in which Pigeon is located, voted to bond for \$75,000 to build good roads all over the township. No sooner was the fact made public than the Michigan Sugar Company, while hesitating as to whether or not it would locate a sugar plant at Pigeon made up its mind in a hurry, and the township will benefit by the erection and operation of a million dollar beet sugar plant, and the taxpayers of the village will get back their road tax a hundred-fold.

BE KIND TO YOUR HORSES and all Dumb Creatures—it shows the Gentleman.

### A Bad Wreck.

The D. & M. south bound passenger, which leaves here at 7:14 in the evening, was wrecked at Toboco beach about six miles north of Bay City Tuesday evening, by running into a large field of ice which had been forced out of the bay by the strong north east wind and had piled up over the track for a distance of nearly ten rods, to a height of six or eight feet.

Engineer Frank McCray, of Alpena, was pulling the train which was probably running at 40 miles an hour when he discovered the ice field, and notwithstanding that the emergency breaks were applied the heavy train plowed into the ice for some distance before derailing. The engine, baggage, mail and smoking cars left the track, and the engine was completely wrecked.

Fortunately no one was killed. Engineer McCray, and Fireman John McGarry, were both badly injured. McCray was caught under the wrecked cab of his engine, and besides being badly bruised was burned about the head and shoulders by escaping steam. McGarry was thrown fully 40 feet from the wreck and was badly bruised. Fortunately Dr. Petty, of AuGres, and Dr. Lawrence, of Pinconning, were on the train and the injured men received prompt medical attention.

No other severe injuries were received by those on the train, altho the passengers were considerably shaken up. A relief train was dispatched from Bay City, and the passengers taken to that city, and the injured men removed to Mercy hospital.

### Lutheran Conference.

Wednesday and Thursday a Lutheran conference was held at the parsonage of the Zion congregation in this city. The attendants were: Rev. E. A. Bartush, of Alpena; Rev. J. D. Drukenmiller, of Rogers City; Rev. P. Kretzmann, of Sanborn; Rev. H. Potzger, of Royston; Rev. C. C. Henning, Rev. F. Sievers, Prof. M. C. Grueber and Prof. A. Wanderssee, of this city. Rev. H. Essig, of Belknap, and Rev. A. Zeile, of Dafoe were absent.

Three regular sessions were held. Several interesting papers of much importance were read, and serious questions of practical nature discussed. The communion services Wednesday evening were conducted by Rev. Drukenmiller and Rev. Potzger. Thursday several hours of the forenoon were devoted to a visitation of the parochial school.

Hospitality was extended by Mr. and Mrs. G. E. Gaul, Mr. and Mrs. Ed Woizeschke jr., and Rev. and Mrs. Sievers.  
The conference adjourned late Thursday evening to meet again in August at Belknap.

### Suggestive Questions On the Sunday School Lesson by Rev. Dr. Linscott for the International Press Bible Question Club.

Copyright, 1911, by Rev. T. S. Linscott, D. D.

April 14, 1912.

[Copyright, 1911, by Rev. T. S. Linscott, D. D.]  
The Use of the Sabbath. Mark ii:23; iii:6.

Golden Text—The Sabbath was made for man, and not man for the Sabbath. Mark ii:27.

(1) Verses 23-24—What are the Old Testament laws for keeping the Sabbath day? Ex. xxiii:12; xxii:14-16; Deut. v:14. (2) What is the origin of the Sabbath day, and what was its original purpose? Gen. ii:2-3; Deut. xxxiv:21.

(3) Was it true or not, and why, that Jesus did break the letter of the Sabbath law.

(4) Verses 25-26—Did Jesus have the right to change or modify the Sabbath law or any other law? Give your reason.

(5) With the exception of natural law, are there ever cases when it is necessary to break the letter of the law in order to keep its spirit? Give your reason.

(6) What are facts concerning this reference to David? See Ex. xxix:32-33; 1 Sam. xxi:6.

(7) How do you reconcile the inference from the words of Jesus that David did right in eating the shew bread, notwithstanding it was an unlawful act? See Lev. xxiv:5-9.

(8) If David and Jesus had the right to suspend Scriptural laws when the circumstances seemed to them to justify it, what are our rights under similar circumstances?

(9) Verses 27-28—Jesus here states in substance that the Sabbath law must bend to man's real welfare. Why would he, or not, have said the same thing about every other law?

(10) Does God give to every holy man the same right as Jesus had over the Sabbath law and presumably every other law? Why or why not?

(11) Verses 1-2—What was the reason that the Pharisees hated Jesus and sought how they might destroy him?

(12) Verses 5-4—How may we decide with certainty as to what we should or should not do on the Sabbath day? (This is one of the questions which may be answered in writing by members of the club.)

(13) Would you, for example, say that the engineer of the through express on the Sabbath day may please God at his work just as much as the minister in the pulpit? Why?

(14) Why did they not answer Jesus' question?

(15) A poor boy came to church on a cold Sunday with no buttons on his coat. A good sister took him into the vestry and sewed buttons on. Did she do right or not, and why?

(16) Verses 5-6—When is it right to be angry?

(17) Why did Jesus cure people miraculously in those days and not in these?

Lesson for Sunday, April 21, 1912, The Appointment of the Twelve. Mark iii:7-19; Matt. v:13-16.

### Boosting for Michigan.

More money can be made by raising beans in Michigan than by raising corn in Indiana. Michigan is second in sugar beets; an apple orchard in this state is better than an insurance policy because its dividends are collected while the owners live and at the same time it remains as a heritage to his widow and children when he dies. Orchards here are in their prime at fifty years of age, while in the west they stop bearing at twenty years. These were among the points brought out by John I. Gibson in a lecture here last night.

The farmers of Michigan know these facts and many others equally significant; what is needed is the spread of the knowledge among city men, women and children. In the west both city and country residents are primed with statistics about agricultural and horticultural development of the state, and these statistics provocation. This should be true in Michigan; visitors from other states should be told what Michigan has done and can do.

The trouble with Michigan has been that its citizens have been too modest; they are not inclined to the aggressive and bold statements of the westerners. Such an attitude is a mistake. Today the states which are forging ahead are those in which every citizen is a boosting committee of one.

But in order to boost we have to know the facts; such lectures as that given by Mr. Gibson last night supply them; all over the state talks along similar lines are given. They are valueless, though, unless they stir resident, of this state to carry the message of optimism wherever they go.—EX.

Dr. Linscott, send in your request to this office, giving the date of the lesson and the number of the question you wish answered. ### Teachers' Attention!

The eight grade examination in reading for May, 1912, will be based on Longfellow's "The Courtship of Miles Standish."

Reading for teachers' examination in April will be based on "Hudson's Introduction to the Study of Literature. This is an especially strong book. It is very comprehensive and of especial interest and value to all teachers.

School Law and Topic of Course of Study will be part of the reading.

One half of the second grade examination in botany will be based on Warren's "Elements of Agriculture."

The third book of the Reading Circle Course is "The Personal Equation," by Lawrence McTurman. This book will inspire for better work; not only teachers, but all who read the book.

In addition to credits given above, 100 per cent will be allowed in Theory and Art those taking this course.

Respectfully,

J. A. CAMPBELL  
Commissioner.

### Why He Was Late.

"What made you so late?"

"I met Smithson."

"Well, that is no reason why you should be an hour late in getting home to supper."

"I know, but I asked him how he was feeling, and he insisted on telling me all about his stomach trouble."

"Did you tell him to take Chamberlain's Tablets?"

"Sure that is what he needs."

Sold by all dealers.

### For Rent.

## Valuable Prizes for Bible Study.

We call the attention of our readers to the "Suggestive Questions on the Sunday School Lesson" in this issue. They only need to be read to be appreciated, and if read carefully, comparing the questions with the Scripture upon which they are based, they will not fail to impress the reader with their great significance.

These questions are inspiring sermons, addresses, and newspaper articles, in hundreds of towns; they are a stimulus and help to thousands of Bible Class Teachers and students. The man on the street reads and discusses them with his chums; they are read in the homes of the people and afford interesting subject for profitable discussion. Almost any one question will suggest as much thought to the average reader, as would take a newspaper column to express, and the thought will be his own.

The questions are not dry tones, they are fresh, interesting, and suggestive, and one can learn from them, by way of suggestion, more than by reading an entire magazine devoted to the philosophy of every day life.

These questions cover the all-around needs of human nature, while they are a wonderful help in elucidating, and enforcing the Bible lesson what they are based.

Don't fail to read them from now on, and be ready to start in the easy Bible contest which is to commence in a few weeks, and thus you may hope to win one of the beautiful gold medals.

See our announcement last week and those that are to follow. Subscribe for the Herald today and get in line with this popular bible study movement.

**Hemlock Slivers.**

Through what is commonly called the long winter months the young people of the Hemlock Road have been engaged in the literary works suggested by the name Shakespeare.

As naturally supposed, their labors have not been in vain, and their Annual Banquet held last Friday evening in the commodious home of Mr. and Mrs. J. K. Crissman, while proving one of the most pleasant social evenings imaginable, bore emphatic testimony to the enterprise

of the Club in planning such an elaborate celebration, as well as to the advance actually made in understanding and interpreting the great Elizabethan poet. The guests, who arrived early, were in erudite and merry making spirit.

The table decorations were characteristically royal, suggesting Macbeth's court. "There had we now our country's honor roofed," but neither Banguo nor the murderers were there.

Those present were, beside the genial host and hostess, Mr. and Mrs. John Andre and daughters, Mabel and Ethel. Mr. and Mrs. G. W. Ferrister and daughter Alma. Mrs. May Tambling, Thomas Scarlett, Miss Helen Scarlett, Henry Smith, Roy Smith, Mary Smith, Sandy Kennedy, Harry Latham, May Graham and J. B. Brown. Miss Myrtle McKenna, of AuSable, was a guest of honor.

Recitals of classic scenes and impersonations were given by Rev. J. B. Brown, Mrs. Crissman, Miss Ferrister and Miss McKenna. The Misses Andre rendered pleasing musical numbers.

The litterateurs readily united in singing, "The Fellers Kick My Dawg Around," as a slight relaxation from their studies.

The Club, in an eloquent speech given by the hostess, presented their teacher, Rev. J. B. Brown with a token of love in the form of a brown leather Gladstone and hoped that in his travels he would be reminded of his Shakespeare boys and girls. He looked his appreciation but did not attempt to express it. "It overcame him like a summer cloud" and "his looks encountered them with his heart's thanks."

Covers were placed for 24 guests at the banquet table. Pretty favors of carnations engirt with Midsummer Night's Dream, pastoral couplets ornamented each, suggesting "the sauce of ceremony to the meat."

"Kind good nights to all" were exchanged at a late hour, and the pleasing banquet became a fact in history.
