Memorial Day.

Arrangements are being made for the proper observance of Memorial Day in this city on Thursday next. The program will be conducted under the direction of the schools of the city. The exercises will be held at the cemetery, weather permitting.

The line of march will form at the High School building at 9 o'clock local time, and it is urged that all citizens attend. At the cemetery the program will consist of short addresses and patriotic songs by the schools and citizens, and the placing of garlands of flowers on the graves of our departed soldiery. Conveyances will be supplied by the committee for the old soldiers, soldiers' wives and widows.

This is the one day in the year when all citizens should turn out and assist in the most patriotic services of the year—the honoring of our dead soldiers through whose valiant service we are to-day permitted to enjoy a citizenship in the greatest Nation on the earth. The coming generations should by these services be taught what true patriotism and loyalty to country means.

In case of stormy weather the exercises will be held at the high school building.

McGillivray, of Oscoda, was here Tuesday and organized the boys of our city schools into Forest Scouts, as exploited by the Michigan game, fish and forestry department. Idea Exploded Long Ago.
In the search for a cure for consumption a Maryland physician thinks he has found one in snake poison. His procedure is to sterilize it and use it as an injection, the poison immediately killing the bacilli, according to program.

Our old friend Colonel Macaroni, to whose memoirs we are indebted, wrote nearly a hundred years ago:
"Naples, like other places, has its 'old school' in medicine. According to the olden pharmacopoeia viper broth is recommended as most restorative and nutritious to debilitated and consumptive persons. Hence, every apothecary's shop is furnished with a large chest, containing some scores of living vipers, and, of course, there is such a trade as that of viper catchers. 'I need not inform my intelligent readers that the virtue of viper broth exists alone in the imaginations, or, rather, in the moldy writings, of the long since departed prescribers.'"

His Definition.

A southern congressman recently met for the first time in some years an aged dandy who was formerly in the representative's service. During their converse the congressman learned the interesting fact that his old servant had, in his advanced age, learned to read.
"Well, now, Sam," remarked the former master, "that makes things interesting for you, doesn't it? You should find pleasant companionship in books and papers."
"Yessah," oracularly assented the old man. "Readin' is shore a great thing sah. I has given de matter considerable consideration, sah, an' I is prepared to say, sah, dat readin' is de power of hearin' with de eyes."—Lippincott's.

Our City Schools.

The annual commencement exercises of our city schools and the Isoco County Normal will be held Friday evening, June 21. The commencement address will be delivered by Prof. Claude S. Larzalare, of the Mt. Pleasant Normal. There are but two members of the High School class this year,

Some Flood.

This section was visited by the greatest rain fall this week that has ever been known here. Heavy rains fell Sunday, Monday and Tuesday, and about two o'clock Wednesday morning a real cloud-burst visited us. The result was that all low lands were covered with from one to four feet of water. In this city Dead creek and the river were the highest ever known, two bridges on the creek being carried away. Gardens were washed out and much damage done to the streets.

The damage to the crops, roads and bridges in the county will amount many thousand dollars.
Several bad washouts occurred on the D. & M. Ry. between here and Turner and on the Prescott branch.

It all happened in the first inning, with two down Moore walked Pherson. Then on a pop fly to short Murphy and Musolf ran together, losing the ball, and by the time the smoke cleared away Pherson was across the plate and Thomson on third. Then hits by Halligan, Applin and Parker netted three more runs when Parker was out trying to make second on a single. The feature of the game was in the eighth inning when with four hits East Tawas scored only one run.

Newsey Little Paragraphs Gathered from Exchanges

A new school house is being built at Millersburg.

The Michigan Central will build a new depot at Midland this summer.

J. F. Moloney, of Cheboygan, is putting out 400 apple trees on his farm at Riggsville this spring.

The South Branch Ranch Co., of Crawford county, is setting out 4,000 apple trees this season.

The contract has been awarded for building the new \$12,000 school house at Harrisville and the work commenced.

A farmer named John Valencourt and his son, residing near Auburn, were both badly bitten by a mad dog Sunday morning.

The Alpena Chamber of Commerce is making an effort to increase its membership. They have secured the services of Wm. McComb, a professional civic evangelist.

Casmir Kelly, a Pole residing ten miles east of Gaylord, was shot and killed Saturday night while engaged in a drunken row with his brother-in-law, Stanley Johnson.

In the immediate vicinity of the village of Roscommon more than 15,000 fruit trees are being set out this season, while the number in that county will be several times that.

Lame back is usually caused by rheumatism of the muscles of the back, for which you will find nothing better than Chamberlain's Liniment. For sale by all dealers.

Saginaw parties have commenced putting down a test well on the Mundy-Field farm north of that city in an effort to substantiate the belief that oil or gas exists there. They expect to go down 3,000 feet.

The Otsego County Advance is putting up a good stiff kick because a lot of drunken loafers are allowed to monopolize the Gaylord depot, affording many disgusting and shocking sights for women, children and decent people who have business there.

It would surprise you to know of the great good that is being done by Chamberlain's Tablets. Darius Downey, of Newberg Junction, N. B., writes, "My wife has been using Chamberlain's Tablets and finds them effectual and doing her lots of good." If you have any trouble with your stomach or bowels give them a trial. For sale by all dealers.

A new firm, Stearns & Newton, has been organized at Saginaw, composed of H. L. Stearns, of Detroit, and F. W. Newton, manager of the Northern Credit Co. Offices will be maintained at 606 Bearinger building. Both members of the firm are well known in northern Michigan. Mr. Stearns having served four years as prosecuting attorney of Montmorency county, and Mr. Newton has for years transacted business in the northeastern part of the state.

Helps a Judge in Bad Fix.

Justice Eli Cherry, of Gillis Mills, Tenn., was plainly worried. A bad sore on his leg had baffled several doctors and long resisted all remedies. "I thought it was a cancer," he wrote. "At last I used Bucklen's Arnica Salve, and was completely cured." Cures burns, boils, ulcers, cuts, bruises and piles. 25 cents at J. M. Wuggazer & Co.'s, Tawas City, and Jas. E. Dillon's, East Tawas.

Watch it Grow.

Under the persistent advertising of the Northeastern Development association and its newspaper supporters that section of the state of which Bay City is the "Gate City," is attracting wide attention. Last week 5,000 acres in Cheboygan were sold to Detroit parties and the association is seeking to place 40,000 acres more for colonization purposes. Lewis & Co., a real estate firm of Council Bluffs, Iowa, has become so interested in Northeastern Michigan it has located a representative in Onaway who is buying several thousand acres of land in Presque Isle county. It has been demonstrated by actual experience that land worth \$10 an acre in northeastern Michigan, will produce more crops than \$70 acre land in Iowa.

There are other considerations of moment which involve the section north-east of Bay City with more than ordinary interest at the moment. J. H. Teare, representing the United Fuel Supply Company, of Sarnia, Ont., has asked the Public Domain commission of Michigan to make a contract with his company giving it the right to explore 7,000 acres of state lands for oil and gas, the state to get a royalty of 10 per cent of the output. It is stated that about 40,000 acres in Montmorency and adjacent counties is likely looking country in which to prospect for oil and gas, in fact there are wells now which give off a considerable amount of natural gas, while oil has been found in certain places. Mr. Teare, himself a practical oil and gas man, says that experts of 25 years experience are satisfied with the prospect as one worthy of exploration. If any strikes are made there will be a boom in the upper section of the lower peninsula that will make the rest of the state sit up and take notice. The fact that the Standard Oil Company is back of the company which will make the exploration is evidence that the proposition is no ordinary wildcat oil and mine scheme.—Bay City Tribune.

Strong Words for the Suggestive Questions on the Sunday School Lessons.

The wonderful words of praise for the I. P. B. Q. C., published last week, have created widespread interest in our Local Club, so we decide to give brief extracts from a few more letters:

President H. L. Nave, D. D., Albany College, Oregon: "I consider your questions intensely practical and stimulating to thought." Rev. G. A. Humphries, pastor Presbyterian church, Tamaqua, Pa.: "No praise is too great to bestow upon your wisely-conceived plan and its excellent execution. The questions are gems. Their comprehensiveness appeals to me." Grant L. Rice, Secretary of New York State Sunday School Association: "The strong feature of being suggestive is of great value; I wish every paper, whether daily, weekly, or monthly, would print these questions." Rev. Walter Bennett, Bradford, Pa.: "I would like to say that their exceeding suggestiveness interests me. They elevate the lesson from the minute letter commentary to that higher and more profitable way of taking the great spiritual ideals involved." Rev. J. E. Squires, Centenary M. E. Church, San Francisco, Cal.: "Am much delighted indeed that you have secured the insertion of these questions in the 'Examiner.' I shall gladly help in all possible ways to encourage the matter, and am sure my fellow-pastors will do the same." Rev. E. L. Dresser, Genoa, N. Y.: "I have complimented the editor of the 'Tribune' on having the questions in, and gave the paper quite a send off in my pulpit last Sunday." Rev. D. H. Glass, pastor M. E. church, Chelsea, Mich.: "I have a class of fifty men and find it very easy to arouse animated and profitable discussion by the use of your questions. I prize them, not alone for their intrinsic value, but for the training they afford one in the art of questioning."

The Demons of the Swamp

are mosquitos. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell, of Lucama, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50c. at J. M. Wuggazer & Co's, Tawas City, and Jas. E. Northeastern Michigan Development Bureau

Notes from the Secretary's Office

Who can beat the following, either in Michigan or elsewhere? This is on an eighty acre farm costing one hundred dollars an acre. We have the name or the owner but for various reasons he does not wish this published, but the figures are right. Last year there was sold from this eighty acres:

Hogs	\$ 132.60
Wheat	63.87
Hay	212.40
Beans	603.00
Beets, 15 acres	1830.27
Clover Seed	108.00
Total sold	\$2950.14
Increase of stock raised	\$338.
Also product of five cows and forty hens.	

Cows would probably feed from what grew on the farm and therefore we would be perfectly safe in crediting them with the low average of \$60.00 apiece. This gives total of \$3588.14. In addition the farm produced, undoubtedly much of the living expenses of the owner and of course also furnished him house rent and perhaps fuel.

Many from this vicinity attended the funeral of our former townsman, George Armstrong, at Emery Junction, last Sunday. Mr. Armstrong was a resident of this city for many years and was highly respected.

The heaviest rain known in this locality in 20 years visited us early Wednesday morning. It was a cloud burst for a few minutes. Much damage was done to crops and many culverts and pieces of road were washed out.

During the storm Tuesday night lightning burned out the telephones in Albert Blumenau's and Edgar Louks' stores. In Mr. Louks' it set the window casing on fire and burned some papers hanging on the casing. Fortunately the fire went out thus saving a destructive fire.

They all went for a joy ride The air 'twas damp and hollow Tho' the auto was new And the passengers few Misfortune seemed bound to follow.

They were spinning along so gaily Without a thought of care But such as is luck The auto got stuck So the chauffeur stopped to repair.

He rather reluctantly got out To see what could be the matter, But clambered back in While the rigs passed by him Pretending to try to back her.

But seeing they could not wait longer

And no duty could they shirk Tho' some were quite stout The ladies got out And proceeded to get to work.

Attired in beautiful spring suits And auto scarfs fit for a queen They pushed with their might For in this sad plight Those ladies did not wish to be seen.

They worked with unusual energy Got their dresses all dirty—but lo, 'Twas not all in vain For they succeeded again In making the infernal thing go.

Then he took it to the creek to get water While the ladies walked with good will.

Now why had they not ought to? Had they not helped the auto In climbing that perplexing old hill?

The Demons of the Swamp

are mosquitos. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell, of Lucama, N.
