The Akron Two-Row Beet Cultivator

Has been designed particularly to meet the needs of the sugar beet raiser and embodies the suggestions of the most advanced farmers in the sugar beet belt. It is equipped with gangs having a parallel movement and having extra strong lifting springs, the gangs are controlled very easily. The center gang is fitted with seven 11/2 inch double pointed shovels and the outside gangs with four each. These shovels attach to the standards with a block and set screw so the shovels can be set to throw the soil to or away from the plant as may be desired. The standards to which the shoyels fasten are adjustable up and down. The gangs are hinged and adjustable in width and so attached to the axle that the distance between them can be adjusted to work perfectly in either wide or narrow rows.

We carry in stock EIGHT STYLES of Cultivators; one-horse and two-horse, walking and riding cultivators, and will be pleased to show you. We certainly can please you as to style, quality and Yours Truely,

Road Controversy.

The county road commissioners are lines along the Indian Lake (Plank) road straightened out. Many of the fences are set out into the road and some of the land owners object to moving them back. Why this should be is the few feet of land needed, and which rightly belongs to the road. The commissioners are very much disgusted by the proceedings and unless their reto law they will undoubtedly abandon the road in its present condition. The law relative to road lines is as follows, be wholly in the right:

"All highways regularly established in pursuance of existing laws, all roads that shall have been used as such fo ten years or more, whether any record or other proof exists that they were eve established as highways or not, and a roads which have been or which ma hereafter be laid out and not recorded and which shall have been used eigh years or more, shall be deemed publi highways, subject to be altered or dis continued according to the provisions this act. All highways that are or tha may become such by time and use shall be four rods in width, and when they are situated on section or quarte section lines, such lines shall be the center of such roads, and the land b longing to such roads shall be two roads in width on each side of such lines.

We Rent Pianos for Summer Homes

You must have music in your summer home if you are to regize all that the season offers in enjoyment and recreation. There will be stormy days; yet they will not be dull and tiresome if there is music-then there's the evenings; music would complete the day's pleasures; would rest and refresh after a day on the lake or river, or in the woods. Would you entertain?everyone enjoys music. Would you arrange a dance-a Piano is a necessity. Are there young people in the family who are studying music? To be without a means of practice during their summer outing will seriously interfere with their progress.
