There is nothing which does a place more hurt," said a visitor in town, "than the knocker, and I have found some of them here. They are fellows who delight in telling visitors to this community that there are more desirable places in which to live than this place, and all that sort of thing. Such fellows, no matter what they may think, are not doing themselves or the community any good. It would seem that they would take a tumble to themselves, and if they do not like the place, get out. Tawas City is a fine place, admirably located and possessing all the qualifications that go towards the building of a large and bustling city."

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. ## Are You Interested in Our Schools?

It has been suggested on different occasions and by a number of people that a great amount of good could be accomplished for our city schools if the parents, teachers and school board could meet together and talk over educational matters. Almost every patron of the school has some suggestion to offer on all occasions, many of which contain much merit. That much good can be accomplished for the benefit of the schools by co-operation is admitted by all. By teachers and parents becoming better acquainted matters will be much better understood and more easily adjusted.

To this end the school board of the Tawas City schools extends an invitation to every patron of the school to meet at the High School building at 7 o'clock, Friday evening, September 13, at which meeting the teachers of the school and the members of the board will be present.

Let all show their interest in the schools and their children by being present promptly at the time specified. By order of SCHOOL BOARD.

## Primary Results.

The county board of canvassers met Tuesday and were in session until yesterday, when they adjourned to next Monday, at which time a recount of the votes cast in No. 2 precinct of Oscoda township, for the office of sheriff will be held. This recount is on the petition of Louis Pringle, who was defeated on the face of the returns by seven majority in the county, by Collie Johnson.

## State May Have a Big Exhibit.

T. F. Marston, secretary of the Northeastern Michigan Development Bureau, was in Detroit Tuesday in conference with state officials who are considering the advisability of entering a Michigan exhibit in the big New York land and development show which is to be held during the coming winter. Mr. McClurg, manager of the New York association which is arranging for the big land show, conferred with the Michigan men. Members of the state board of agriculture were present. On completion of the discussion it was considered wise to raise at least \$10,000 for the purpose of placing a creditable exhibit of Michigan's food and grain products, and the task of securing the funds was left with the public domain commission. The state board of agriculture will attend to the matter of securing the various products, which will be shipped to New York in time to be placed in the exhibition halls.—Bay City Tribune.

## Crop Improvement

Not more acres but more from each acre.

### COUNTY ORGANIZATION.

Suggestions to Counties Wishing to Become Available for Aid from Crop Improvement Committee.

**By Bert Ball.**  
[National Crop Improvement Service.]  
For the benefit of counties wishing to qualify for this fund the Crop Improvement Committee suggests the following procedure:

**Meeting of All Interested.**  
First. That a joint meeting be called by the commercial organization or organizations, to which there will be invited editors, railroad men, road commissioners, superintendent of county schools, superintendent of the county farm, the county supervisors (commissioners of county courts, as the case may be), bankers, millers, manufacturers, grain buyers, officers of all farmers and breeders' organizations, the leading farmers and land owners in each township, explaining the nature of the movement, and showing how, if proper methods of agriculture and marketing are introduced, that an annual increase of at least one-half million dollars may be added to the revenue of the county.

**Crop Improvement Committee.**  
Second. That a committee on crop improvement and county development be appointed by the president of the commercial club; that the members of this committee shall act ex-officio as chairman of the sub-committees on Finance, Ways and Means, Membership, Grain, Good Roads, Marketing, Agriculture in the schools, Dairy Inspection, Landlord and tenant, etc.

**Farmers Join Commercial Club.**  
Third. That a special section be added to the constitution and by-laws of the commercial club providing for an agricultural membership at a nominal fee per year, in order to obtain a widespread special membership.

Fourth. That the local fund raised for this purpose may be secured by subscription from the bankers, manufacturers, millers, grain dealers, land owners and business in general in the county.

For further information apply to Bert Ball, Crop Improvement Committee, Chicago.

### PRACTICAL EDUCATION.

Begin with the Boys and Girls Before Prejudice and Self-Satisfaction Have Stifled Interest in Better Things.

**By B. J. Horchem.**  
[National Crop Improvement Service.]  
Begin the work of crop improvement with the boys and girls. Begin before prejudice and self-satisfaction have stifled interest in better things. In their school work give them as early as possible a knowledge of such fundamental facts and technical terms as will enable them to read and understand the literature connected with their profession. Seek by every possible means to cultivate a willingness to accept the authority of experts and act in accordance therewith. Teach them how to have access to the stores of knowledge which are far too vast for any one individual to gain by personal experience. Interest them in the subject, show them how they may personally profit through their knowledge and then where circumstances arise that bring an end to their school life, then education will not cease, but they will continue to grow and be better farmers, better citizens and better men and women as time goes on.

### RYE A SURE CROP.

Excellent for Pasturage and Adds Humus to the Soil.

[National Crop Improvement Service.]  
Rye will stand cold weather much better than oats and furnish grazing for a longer period.

Rye is a sure crop. It is a good plan to drill rye in the corn field with a one horse drill. Sufficient light will penetrate through the corn to encourage growth, until the corn is cut, thus leaving the field open to the coming crop. Farmers will find this an excellent method, to practice to insure pasturage when it is most needed. After it has been pastured in the fall, it may furnish early spring pasturage, or it may be turned over for fertilizer. Rye is valuable for adding humus to the soil.

### GRAIN OF POVERTY.

[National Crop Improvement Service.]  
Rye is sometimes called the "grain of poverty," because better adapted to poor soils and unfavorable climates than the other cereals. While rye will thrive on poor soil, and yields well on light, sandy land, it should not be assumed that it does best on that kind of soil. Rye will respond as readily in yield to good tillage and good soil as any of the grain crops. A black loam, clay loam or sandy loam is especially favorably to the crop. Good drainage is necessary to successful rye growing.

### DISK OR HARROW.

[National Crop Improvement Service.]  
The seed bed should be prepared by plowing the land as early in the summer as the previous crop can be removed. August 1st is none too early. After plowing, the land should be immediately gone over with a harrow, disk or other suitable implement. It is important that the furrow slice be made compact and reduced to fine tilth before it has had time to dry out.

## Many Driven From Home.

Every year, in many parts of the country, thousands are driven from their homes by coughs and lung diseases. Friends and business are left behind for other climates, but this is costly and not always sure. A better way—the way of multitudes—is to use Dr. King's New Discovery and cure yourself at home. Stay right there, with your friends, and take this safe medicine. Throat and lung troubles find quick relief, and health returns. Its help in coughs, colds, grip, croup, whooping-cough and sore lungs make it a positive blessing. 50c and \$1.00. Trial bottle free. Guaranteed by J. M. Wuggazer & Co., Tawas City, and Jas. E. Dillon, of East Tawas.

Already Accomplished.  
A reader asked the sage for advice, saying:  
"I am engaged to Kate Murphy, but my former fiancée, Kate Dooley, threatens to sue me for breach of promise. Can you advise me how to extricate myself from this difficulty?"  
The reply of the sage was short. It ran:  
"My dear reader, if I may say so, you seem to have extra-kated yourself already!"

**Terrible Ordeal.**  
"It was perfectly frightful," said Chubbleigh. "There we ran at top speed around the corner, and the first thing I knew we dashed plumb into that grocer's wagon. I guess it must have held a hundred dozen eggs."  
"Oh, well, that wasn't so bad, was it?" said Hicks. "You could afford to pay for 'em, couldn't you?"  
"Oh, it wasn't that," said Chubbleigh, with a shudder. "But I don't believe there was a good egg in the whole lot."
