E. M. Moore, of Wixom, has been in the county this week, and with Secretary Campbell, of the County Institute Society, has been holding one day farmers' institutes. He reports excellent meetings at each place and a large attendance. A message received here Tuesday evening announced the death of Mrs. C. H. Prescott, sr., at her home in Cleveland. The aged lady was attacked by pneumonia a week previous. Hon. G. Prescott left Wednesday to attend the funeral.

During the next few weeks the Herald will mail statements to all subscribers whose subscription has expired. Under the present postoffice ruling we are required to keep our subscriptions paid up, and we hope that each one will give this matter their prompt attention. The one day farmers' institute will be held at the court house tomorrow, Saturday. The evening session will be held at the high school in connection with the regular monthly patrons meeting. Mr. E. M. Moore, of Wixom, will be the speaker, and those who fail to attend will miss a treat.

The old boat was taken from Saginaw to Chicago last summer, and last week, while her machinery was being removed, sank. Sunday night while being occupied by some hobos she was set on fire and burned. Two of the hobos lost their lives. L. W. Oviatte was down from Hale last Friday. Mr. Oviatte is the gentleman who purchased the big Smith ranch west of Hale last spring. He informs us that during the past season he has cleared 100 acres ready for the plow and has 60 acres of it seeded to wheat and rye. He also has 400 acres underbrushed and ready to break in the spring. In the course of the next year he will probably have the largest farm under cultivation in the county.

F. S. Carr Dead.

F. S. Carr, of Prescott, who was taken to Ann Arbor about four weeks ago for medical treatment, died at the U. of M. hospital, in that city last Saturday evening. The remains were brought to the home of Thomas Bradley, in this city, Monday, and the funeral was held from the M. E. church Wednesday morning at 10:30, Rev. W. A. Gregory officiating.

The deceased was born at Redford, Michigan, February 18, 1858, and came to Prescott when about 25 years of age, and has been a resident of this section since that time. He was twice married, his second marriage being to Miss Mary VanPatten in this city in April, 1896. A son, Milo, and two daughters, Mrs. Leo Dirks, of Detroit, and Eleanor and the bereaved widow are left to mourn the loss of a kind and affectionate husband and father. One brother, Orin Carr, of Howell, and one sister, Mrs. Fred Kersher, of Detroit, also survive him.

Mr. Carr had a large circle of friends in this locality, and was held in high esteem by all who knew him. A delegation of ten members of the Odd Fellows' lodge of Prescott attended the funeral.

Steven's School.

Miss Mae Sims paid this school a visit on Friday last. School began again last week after a short illness of the teacher. The boys have enjoyed the ice on the ponds near the schoolyard.

The fifth grade arithmetic class is struggling with division of fractions. The fourth grade have completed their physiologies and are now reviewing. School will be closed Dec. 12th and 13th on account of the Teachers' Institute at East Tawas.

The eighth grade is commencing the study of "Snow-Bound," preparatory to the spring examination. Edwin Woods has been absent this week on account of poisoning, caused by running a rusty nail in his foot.

His Preference for Home. Oliver Wendell Holmes Unable to Get Any Real Pleasure in the Vaunted "Tavern."

Don't talk to me about taverns! There is just one genuine, clean, decent, palatable thing occasionally to be had in them—namely, a boiled egg. The soups taste pretty good sometimes, but their sources are involved in a darker mystery than that of the Nile. Omelettes taste as if they had been carried in the waiter's hat, or fried in an old boot. I ordered scrambled eggs one day. It must be that they had been scrambled for by somebody, but who—who in the possession of a sound reason could have scrambled for what I had set before me under that name? Butter! I am wondering why the taverns always keep it until it is old. Fool that I am! As if the taverns did not know that if it was good it would be eaten, which is not what they want. Then the waiters, with their napkins—what don't they do with those napkins! Mention any one thing of which you think you can say with truth, "That they do not do."

Every six months a tavern should burn to the ground, with all its traps, its "properties," its beds and pots and kettles and start afresh from its ashes like John Phoenix-Squibb. No, give me home, or a home like mine, where all is clean and sweet, where coffee has pre-existed in the berry and tea has still faint recollections of the pigstails that dangled about the plant from which it was picked, where butter has not the prevailing character which Pope assigned to Denmark, where soup could look you in the face if it had "eyes" (which it has not), and where the comely Anne or the gracious Margaret takes the place of these napkin bearing animals.—Oliver Wendell Holmes.

She Knew. The city girl, on her first vacation in the country, was sitting at the side of the first bean she had ever had, looking at the first full moon she had ever seen in a perfectly clear sky. "Billy," she squealed ecstatically, "how perfectly delightfully dear, and yet how horribly sweetly sad is the music of those toadstools, out there in the woods!" "Why, darling," breathed William, who had been in the country before, once—"you can't mean 'toadstools.' The noise you hear is being made by crickets."

"Of course," answered the city girl—"you know what I mean. I get the names mixed up. I knew it was something to sit on!"

Basket Ball.

Tawas City's seeming indifference in the first half, coupled with inability to get foul baskets, was the cause of their defeat by East Tawas by a score of 19 to 12, in the opera house, East Tawas, Thanksgiving night. Out of twenty-two chances only four foul baskets were "rung."

This is the first year for Maller and Swartz, and they were almost lost on the floor. But there are more games coming, and the fans will see these two men to the front, as far as speed is concerned. Murphy, altho light, shows that he is a comer. A. Mark played his usual aggressive game, limiting A. Dillon, East Tawas, best man, to two field baskets. J. Mark showed up well, getting three of the four goals made. Ford Bradish, in the second half, was the star, outplaying any two men on either team. It is conceded that had he gone in the first half, Tawas City would have won, but—well, we will meet again.

All-in-all, the game was well played, only seven fouls being called on Tawas City. This shows the good training given by Coach Bradish in this respect, and spectators of the game commented greatly on the fact. The work of Koffman and McKenna as officials was fine, their strictness eliminating the roughness that is so objectionable to basket ball. Tawas City Lineup East Tawas J. Mark.....Right Forward.....Staudacher Murphy.....Left Forward.....Dillon & McGuire Maller & Bradish.....Center.....MacGuire & Dillon A. Mark.....Right Guard.....Parker Swartz.....Left Guard.....Nolen Score—first half—East Tawas 12, Tawas City 1. Field Goals—J. Mark 3, Bradish 1, Staudacher 3, Dillon 2, MacGuire 2. Goals from fouls—J. Stepanski-Stoddard.

At St. Anne's church at 5 o'clock Wednesday morning, took place the wedding of Miss Loretta Stoddard and Walter Stepanski. Rev. Dean Flannery performed the ceremony. The bride was attended by Miss May Ayotte and the groom by his nephew, Leonard Stepanski.

The bride wore a gown of grey satin and a white picture hat and carried a white prayer book. The bridesmaid wore pink satin and a white picture hat. A wedding breakfast was served at the home of the bride's parents, Mr. and Mrs. L. J. Stoddard on Eighth street, to only immediate relatives and friends.

The bride is a well known young woman, having always lived in Alpena. She has been employed by the Rogers Bros. Seed Co. for nine years as floor woman and three years as cashier for the Royal theater. She is very popular. The groom formerly lived in Alpena, being employed by the D. & M. for a number of years. He is now foreman of a section crew at Bay City. Mr. and Mrs. Stepanski left Wednesday evening for a wedding trip to Detroit, returning about the middle of December to Bay City, where they will make their home. —Alpena News.

TAWAS CITY, MICH., Dec. 6, 1912

Federal office-holders who supported the bull moose during the recent campaign are now wondering where they are at. President Taft has commenced his revenge by removing two U. S. marshals, and it is strongly intimated that all others who left the G. O. P. to assist Roosevelt will receive the same treatment.

It is estimated that from eighteen to twenty of the members of the legislature elected on the republican ticket will bolt the party caucus and cast their future to the "Bull Moose" party. This will not be encouraging news to William Alden Smith in his desire to return to the U. S. senate, as there were but enough elected as republicans to give him a majority if they all stuck.

Gov-elect Ferris promises a short message dealing with important matters pertaining to advanced legislation. If he can secure the adoption of the progressive legislation which he plans Mr. Ferris will have established a reputation as a doer of things which will place him in the ranks of the leading men of our nation. He certainly deserves success in his efforts.

The belief that our whole government is nothing less than a big political machine made purposely for politicians to get into office and to hold office after they once get in, is strengthened by the recent report of a big postal deficit, which is caused by the general use of the franking privileges during the past year. The postal service handled 310,245,000 pieces of franked mail during the year, which weighed 61,377,000 pounds. Postage at the ordinary rate on this amount would have netted the government \$20,000,000. But the item of postage is just a fraction of what it has cost the dear people to learn of the wonderful (?) work of saving the country our office-holders have been doing in the past. The item of preparing, compiling and printing these tons of speeches and documents has cost millions and millions more, and we all help pay for it. It's no wonder its hard work to root the office-holders out.—Cheboygan Democrat.

Stone Says Farmers Get Stung.

George P. Stone, of Ithaca, who some time ago alleged that the Michigan Sugar company was controlled by the trust, and pointed out that it was endeavoring to pay dividends on a capital apparently grossly inflated, has something to say concerning the alleged trust's latest plan to cut the price of beets.

Mr. Stone says: "In the last issue of the National Farmer of Bay City, the organ of the sugar trust, is a denial of the report published in Detroit papers to the effect that it is proposed to cut the price of beets in the 1913 contract, \$1 a ton.

"However, it concedes that it is the intention of the factories to do away with the guarantee clause of \$5 a ton and give only \$4.50 for 12 per cent beets. This is the National Farmer's reason for cutting out the guarantee. After the \$5 guarantee was placed in the contracts it was found that some farmers selected soil for their beet fields and cared for their crop in such a way that a high tonnage, but a low percentage, of sugar would be produced.

"Now, why should the farmer want to produce a heavy tonnage of low-test beets? To do so would be directly to oppose his own interests. The truth is that every grower does his best to select such soil and use such tillage as will produce the heaviest tonnage of the highest test beets. This is a very unreasonable excuse for the sugar trust to cut out the guarantee clause. Let us see if we cannot find the true reason why the trust cut out the guarantee.

"The grower is engaged in selling sugar to the factory, unextracted from the beet. When he sold a ton of 12 per cent beets, he sold 240 pounds of sugar for \$5. This was \$2.08 per hundred.

"When the test is 15 per cent he receives \$2 per hundred; when the test is 18 per cent, he receives only \$1.90 per hundred under the sale. Thus it will be seen that the higher the test the less per pound the grower gets for his beets.

"The added price on the low grade beets was only fairness to the grower who is compelled to handle the increased tonnage and gets nothing therefor ex-

cept the little difference made by the guarantee. It should be noticed that the factory gets a benefit for the tonnage in pulp and can well afford to pay \$5 for 12 per cent beets.

"This shows the true reason why it has cut out the guarantee clause. It wants to force the farmer to raise the highest test beets possible, because the higher the test the lower his profits, and the greater the profits of the trust.

"In other words, it wishes to increase its huge profits at the expense of the grower, whose margin of profit is now so small that one unfavorable season will sweep away the gains from two favorable ones."

The Worth of Good Roads.

When the various ways in which good roads benefit a community are examined, a complex situation is found in which many actions and reactions take place. When good roads reduce the cost of hauling, adjacent land becomes more valuable; there is a corresponding tendency of population to increase, and, in its turn, this tendency strengthens the demand for more good roads; social conditions improve; and the life of the community is influenced in numerous ways. It is not always correct to say that good roads are the primary cause of increase in property valuation. It is, however, proper to conclude that improved roads and an increased property valuation are inseparable. Doubtless the pressure of population around New York City has increased property valuation, and it may have created the demand for improved highways, but it is equally certain that in many instances improved road conditions have preceded and caused an increase in land valuations and a growth of population.—Government Bulletin.

Could Shout for Joy.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatism, Electric Bitters have no equal. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at J. M. Wuggazer & Co.'s, Tawas City, and Jas. E. Dillon, of East Tawas.

War on "Tussock."

Supt. Doelle, of the Houghton schools, has just completed an interesting experiment which the state school officials have been watching with considerable interest. Mr. Doelle offered prizes to the children of his school for killing the tussock moth, which develops into a worm extremely dangerous to trees. About 250 school children participated in the contest, and \$30 in prizes was distributed among them. The children destroyed more than 10,000 nests, which would average 300 eggs to the nest. Scientists estimate that the moths destroyed would easily kill several hundred trees. It is likely the scheme will be tried in other parts of the state where the trees are attacked by the moth.

Drives Off a Terror.

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In any attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place, Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cts. and \$1.00. Trial bottle free at J. M. Wuggazer & Co.'s, Tawas City, and Jas. E. Dillon, of East Tawas.

Parcels Post to Be Instituted January 1st.

As the time for putting the Parcels Post system into operation approaches, many inquiries are made among patrons of the various postoffices throughout the country as to how it is to be organized and the rights and privileges of patrons.

Up to date Postmaster Kelly has received no comprehensive order on the matter, but some information on the subject is contained in the Postal Guide just received, which is official, and further information, probably correct, is obtained from the Postmaster's Advocate, a monthly magazine for postal employees.

The official guide lays down the following rules:

"Prior to January 1, every postmaster will receive a Parcels Post Guide and map. The map will show the eight postal zones on which the rates for the various offices are based. The guide will contain full information as to the area in which each postoffice is located and the regulations by the Postmaster-General.

"Parcels Post stamps will be used to each postmaster, and after January 1, 1913, ordinary stamps are not good for the transportation of parcels under the Parcels Post system. This is very important and is emphasized in the guide.

"That distinctive parcel post stamps must be used on all fourth-class matter, beginning January 1, 1913, and that such matter bearing ordinary postage stamps will be treated as 'Held for Postage.'

"That parcels will be mailable only at postoffices, branch postoffices, lettered and local-named stations, and such numbered stations as may be designated by the postmaster.

"That all parcels must bear the return card of the sender; otherwise they will not be accepted for mailing."

For the purpose of computing distances there are established nine zones, comprising territory within a prescribed radius of the sending office; for example, the first zone will include the district properly within the jurisdiction of the rural and city delivery of the sending office. In like manner the second zone will comprise all territory within a radius of 50 miles, the third 150 miles, and in proportionately increasing radius until the ninth zone, which includes everything above 1,800 miles.

The rates charged are, of course, proportionate with the weight of the article and the distance to be sent. Rate for the first zone may be regarded as a reliable criterion, being five cents for the first pound, with one cent added for each additional pound, the maximum 11 pounds for the first zone being 15 cents.

The following rate table, which has been prepared by the postoffice department, will be of help to the individual computing the rate of postage necessary to carry a specific article for a given distance:

Zone—	1st lb.	Additional lb.	11 lbs.
Rural and city delivery	\$.05	\$.01	\$.05
Within 50 miles	.05	.03	.08
Within 100 miles	.06	.04	.10
Within 150 miles	.07	.05	.12
Within 200 miles	.08	.06	.14
Within 300 miles	.09	.07	.16
Within 400 miles	.10	.08	.18
Within 500 miles	.11	.09	.20
Within 600 miles	.12	.10	.22
Within 700 miles	.13	.11	.24
Within 800 miles	.14	.12	.26
Within 900 miles	.15	.13	.28
Within 1000 miles	.16	.14	.30
Within 1200 miles	.18	.16	.34
Within 1400 miles	.20	.18	.38
Within 1600 miles	.22	.20	.42
Within 1800 miles	.24	.22	.46
More than 1800 miles	.26	.24	.50

Parcels post mail matter will include anything, provided it can be done up in a package not exceeding 11 pounds in weight, nor greater than 72 inches in length and girth combined, nor of form likely to injure a postal employe or damage other mail matter; the contents, however, cannot be of a character perishable within a period reasonably required for transportation and delivery. The minimum weight permissible in parcels post is four ounces, and the maximum weight 11 pounds.

All kinds of weather the past week.

E. V. Esmond, of Hale, was in Reno Wednesday.

Rev. Doverspike is at Whittemore this week engaged in revival work with Rev. Southwell.

Rev. W. R. Blachford, of East Tawas, held Episcopal service at the Taft school house on Wednesday evening of this week.

The revival meetings held at the Taft school-house closed last week, and Rev. Smith is now engaged in revival work at Lupton.

Mrs. J. M. Johnston returned from Detroit last Saturday, where she was called by the serious illness of her mother, Mrs. Gillespie. The lady at last reports was no better.

Mr. and Mrs. Chas. Westervelt and children, of Wilber, visited at the home of John Westervelt the first of the week. They expect to move to Flint in the near future.

JUST A MERE SUGGESTION

Huby's Plait, However, Threatened to Develop into a First-Class Family Spat.

"Gertrude!"

"Yes, John."

"We've been married long enough now to talk plainly to each other."

"What's the matter now?"

"If I do something you don't like I want you to tell me of it, and if you do things I don't like I think I ought to tell you of them, too."

"I suppose I don't suit you at all?"

"Yes you do, but I think we ought to talk over our likes and dislikes. In that way we can get along so much better."

"John, I want you to understand right now that I was brought up every bit as well as you, and know how to behave. And as to my cooking, I can do as well as your mother ever did."

"I had hoped that you wouldn't lose your temper. But if you're going to act this way we may as well drop the matter right here."

"What is the matter, anyhow?"

"I only wanted to suggest that when you darn my socks it would be better for me if you would tie the knots on the outside, instead of the inside."

Aid to the Unlovely.

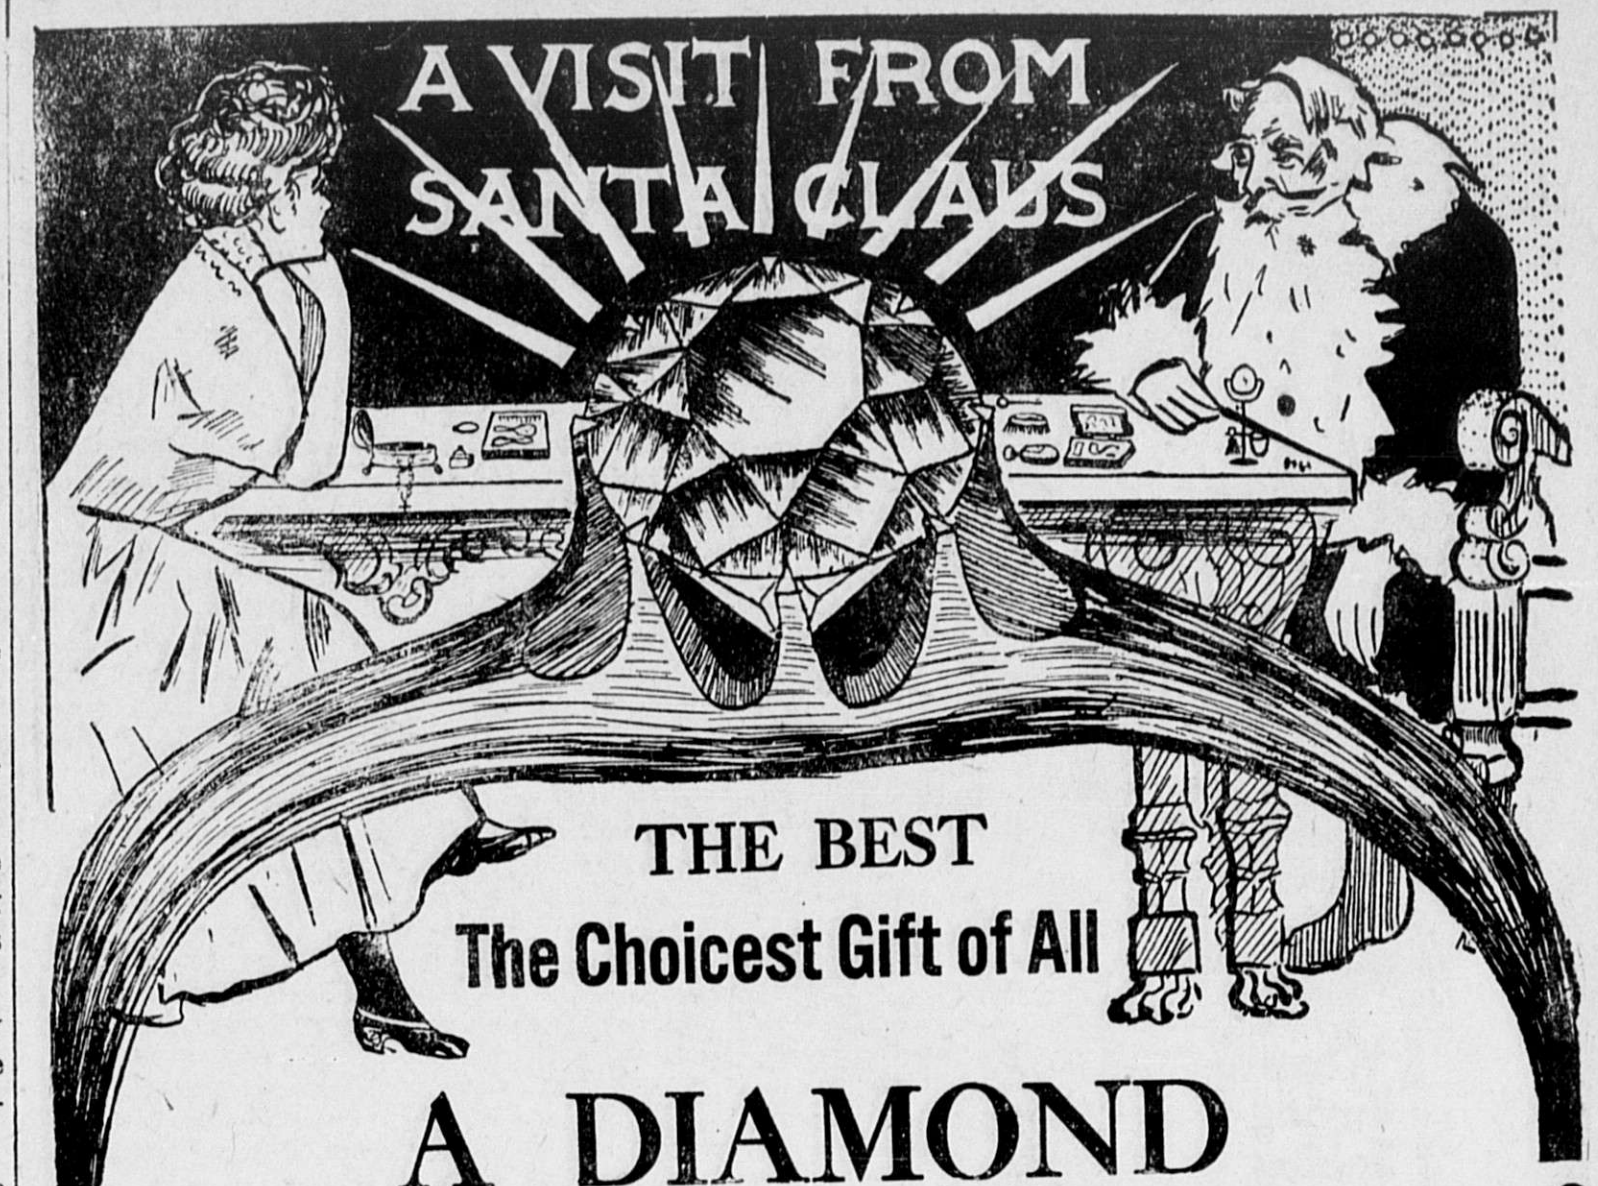

"I try to be an efficient city directory," said the hotel clerk, "but balk at recommending a beauty doctor to women guests."

"That is one of the first things they want to know. Churches, theaters, even dressmakers can wait a few days, but the beauty doctor is an immediate necessity. Unfortunately, they do not get much satisfaction out of me. Any number of beauty specialists leave cards for distribution, but so many of them have been mixed up in lawsuits that I feel squeamish about delivering their cards. To satisfy my own conscience and the women at the same time I hand out a bunch of advertisements with the remark that I guess they are about all alike."

"Then they can pay their money and take their choice, and if they lose their hair and complexion, they can't come back on me for damages."

Famous Stage Beauties

look with horror on Skin Eruptions, Blotches, Sores or Pimples. They don't have them, nor will any one who uses Bucklen's Arnica Salve. It glorifies the face. Eczema or Salt Rheum vanish before it. It cures sore lips, chapped hands, chilblains; heals burns, cuts and bruises. Unequaled for piles. Only 25c at J. M. Wuggazer & Co.'s, Tawas City, and Jas. E. Dillon, of East Tawas.
