According to the plans the line of march will form at the court house at 8:30 a.m. (standard time), and march to the cemetery, where a program of addresses and music will be furnished, and the graves of the soldier dead decorated.

Arrangements are being made to have autos for the old soldiers, their wives and the soldiers' widows. The schools, boy scouts and citizens are requested to join in the line of march.

The committees in charge of arrangements have their work well in hand, and everything points to one of the most appropriate observations of the day ever had in this city. Let every citizen turn out and help in paying tribute to those men who answered their country's call in its hour of need.

### I. C. S. A. A.

T.C.H.S. demonstrated their right to the leadership of the league by defeating Oscoda handily last Saturday in Shien Park. Murphy kept the Oscoda hits scattered, and Tawas City's errors were not at critical moments, as were Oscoda's. Extra base hits were a potent factor for the winners, Moore starring with a triple and a double. This game showed that the high school boys are entitled to the lead—their other two games were won on base ball luck alone—and the boys expect to have no trouble in defeating E.T.H.S. May 31st at Tawas Beach. Next Saturday Oscoda takes on East Tawas at Oscoda. Murphy starred when he slid under McKenna after coming in from 2nd on an infield error. Box score:

### Card of Thanks.

We desire thru the Herald to express our thanks to the people of Hemlock Baptist church for their kindness to us after the loss of our house and goods by fire. Our bed clothing, dishes and most of our furniture were destroyed, but thru your thoughtfulness and kindness, together with the help of friends in Tawas, we were able to set up for ourselves once more.

We appreciate the kindly, thoughtful spirit you have shown more than the gifts, tho they were quite necessary for our comfort.

REV. AND MRS. MOFFET.

### If They Start Anything--!

The threat of the Wilson administration to make an object lesson of any powerful person or corporation that attempts to intimidate the country or the government by conspiring to curtail commerce on the ground that the new tariff has "ruined" business, is justified both as a partisan and patriotic move. It has the express sanction of the President himself who, previous to his election, threatened "to hang on a gibbet higher than Haman's" any interest that tried to "start something" in the way of an artificial tariff panic.

The President's warning is justified, because such things have been done before, and his party with its tariff reform principles has been the chief victim. True, any administration which cares more for the people than for the conservation of the illegitimate privileges of big business, is open to the same mode of attack—it was tried on Roosevelt, to discredit him. But as a rule, it has been worked so successfully on democrats, and, as we see now, sometimes, without any adequate reason in truth, that it easily becomes one of the big things the democrat party has to avoid in order to do its full "meed" of service to the country and retain for itself a fair chance to acquit itself creditably.

The President's warning is justified, also, because there have been rumors and threats of panic rumbling thru congress during the whole tariff debate. Some old line republicans, who haven't turned their calendars since 1880, have used such language and expressed themselves with so great assurance, that it has almost seemed that some of them are going to be bitterly disappointed if a real and terrible panic does not ensue. Moreover, the greediest beneficiaries of the tariff law, the most remorseful opponents of just tariff revision, have openly declared—beforehand, mind you!—their intent to stop business because of their presumed inability to continue under a just system of taxes. Two or three of the extreme high tariff papers of the east are doing their best to create an atmosphere favorable to business uncertainty by making the announcement of such shutdowns—beforehand, mind you!—the "feature" of each day's news.

This appearance of a willingness in some quarters to go thru the motions of

a panic anyway, justifies the President in threatening to use the full power of the government to expose and punish the interests that want to "start something."

Heretofore, it has been in the power of a few men to reverse the decision of the whole people of the United States, and to make them appear as fools. We didn't know how it was done until a long time afterward. In fact we didn't know a very great deal about it until we began to investigate "the treason of the senate."

Now, the people of the United States deliberately and decisively declared for a certain tariff policy last November. Woodrow Wilson and his party pledged themselves to carry out the people's orders. They are trying to do it. What the president is determined upon is this: If the people are wiser than the special interests, they are going to have a chance to demonstrate that wisdom; but if the special interests are to show that they are wiser than the people, then they will be compelled to prove that wisdom before the whole country, and under such a government pressure as was never exerted before. That means that no political panic bluff goes this time. The man who needlessly curtails his country's prosperity will be treated according to the degree of treason to the national interest that his action involves.

The man who tries to make the people suffer needlessly because of their vote last fall will be called out before the nation, and if he is found to be a lying, greedy traitor in time of peace, as some men are in time of war, his name will head a new list of those who sought to harm their country.

And it may be laid pretty well to heart that, with the President's reiterated warning ringing out over the country, nobody is going to be over-anxious to qualify for charter membership in this new company of financial Benedict Arnold's.—Detroit News.

### Washington Letter.

Washington, D. C., May 20.—(Special)—Senator James A. O'Gorman, of New York, who has been an uncompromising advocate of free tolls for American ships on the Panama Canal, does not believe that the senate has changed its attitude on the question in the least, and it will continue to oppose any

## MEMORIAL DAY PROCLAMATION.

Decoration and Memorial Day has come to mean more to the American people than any other day set apart for paying tribute to patriotism. It is a day that recalls sacred memories. These memories become more sacred with every added year, because the ranks of the Grand Army of the Republic are becoming thinner and thinner. Those who are with us now will soon join the Grand Army of the Dead. To the earlier Decoration Days have been added new memories of thousands of Spanish American War veterans who laid down their lives for a more glorious America.

Let the people of Michigan make next Decoration Day the most beautiful in all her history. This should not be a day for recreation and amusement, but rather a day for consecration. Flowers for the dead betoken a kindly spirit, but flowers for the living of the Grand Army of the Republic are an expression of love and valor.

The thirtieth of May is set apart for appropriate exercises in every school house and church in Michigan, whereby our boys and girls may be encouraged to cherish an abiding love for both our heroic dead and our heroic living.

Therefore, I, Woodbridge N. Ferris, Governor of the State of Michigan, do hereby issue this, my Proclamation, and heartily urge the observance of Friday, May 30, 1913, as Decoration and Memorial Day.

WOODBIDGE N. FERRIS, Governor.

measure that seeks to repeal that provision of the act providing for the government of the Canal Zone. "The canal has been built on American soil, by American money—we own it," said Senator O'Gorman, "and we will continue to operate it for the benefit of the people. Any other course would be despicable, and any other construction of the Hay-Pauncefote treaty would be shameful."

The ship Fram, selected by Capt. Roald Amundsen to carry him and his party to the North Pole next fall will be the first vessel other than a United States warship to pass thru the Panama Canal. Col. Goethals, builder of the waterway, and Secretary of War Garrison have given the explorer this permission, but because of the possibility of landslides no definite time for the actual transit of the little vessel can be set.

In a letter to Secretary Garrison, Capt. Amundsen says: "I naturally understand that the passage of the vessel is entirely dependent upon the condition of the slides, but I also realize that even if the same should delay me for a few months it would still be of immensely more advantage for the Fram to pass thru the canal than to go around South America."

The universal recognition of Mothers' Day, in which all classes of citizens, from the President of the United States down to the humblest toiler, joined in tender remembrance of the "sweetest woman in the world—my mother," as Speaker Clark feelingly described the spirit of the day, would seem to indicate that the world, or at least our portion of the world, is moving forward to better things. The unanimous adoption of the resolution introduced by Congressman Heflin, of Alabama, last week calling upon the President of the United States, the senators and representatives "and all others in authority" to honor Mother's Day by wearing a white carnation or other white flower, was a fine contrast to the treatment accorded the resolution of ex-Senator Burkett, of Nebraska, who introduced a similar measure several years ago in the upper branch of congress. It was laughed out of the senate, some of the staid members of the body insisting that there should be a Father's Day, a Grandfather's Day and a Grandmother's Day. Senator Burkett made a speech in favor of the resolution which, since that time, has become a classic. Now Congressman Heflin comes along, introduces a resolution, and it is passed unanimously, thereby fixing for all time Mother's Day.

Among the newcomers in the senate who will be heard from during the debates on the tariff bill and whose intellect is as keen as a razor edge, is Judge Nathan Goff, of West Virginia, 70 years old, sound as hickory timber, able, eloquent and scholarly. He was once condemned to die as a hostage in Libby prison. "If the Federals shoot another Confederate officer we'll hang you," said the Confederate commander. "If it is right that he should be shot they'll shoot him," said Goff. "I don't want to die but I won't beg." When Goff was released his representations as to the manner in which Federal prisoners were treated in Libby led to President Lincoln's threat of retaliation if conditions were not improved. He was a member of the house a dozen or more years back and was secretary of the navy under President Hayes.

## "Pittsburgh Perfect" Fence

Gives the Farmer a Big Boost in making His Farm Prosperous

Did you ever notice that a prosperous farm is invariably well fenced, and is usually divided into small fields by a fence "horse-high, hog-tight and bull-strong"? Why is it?

Because the prosperous farmer realizes that good fences are as necessary to successful farming as fertile seeds, efficient labor and proper machinery. But the wise farmer investigates before he invests. Others just buy and are often "sold."

"Pittsburgh Perfect" Fence is made with but one end in view—to give best service for the longest time at least cost. Investigating it costs nothing. Investing in it pays.

Every Rod Guaranteed

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

## Comparative Digestibility of Food

Made with different Baking Powders

### From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with  
Royal Cream of Tartar Powder:  
**100 Per Cent. Digested**

Bread made with  
phosphate powder:  
**68 1/4 Per Cent. Digested**

Bread made with  
alum powder:  
**67 3/4 Per Cent. Digested**

These tests, which are absolutely reliable and un-rejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

## Death Toll Large.

Washington, May 20.—Defective railroad equipment and tracks were responsible for 68 per cent of all derailments in the United States during July, August and September, 1912, and during those three months there were 935 more train accidents, including 901 more collisions and derailments than there were during the same months of 1911.

All train accidents on steam roads during that time killed 288 and injured 4,598, an increase of 87 in killed and 315 in injured in the corresponding period of the year before. These facts are disclosed in the accident bulletin of the interstate commerce commission for the quarter ended Sept. 30, 1912.

Accidents of other kinds, including those sustained by employees while at work, not including "industrial accidents," make the number of casualties 2,995 killed and 22,447 injured, a total increase of 237 killed and 3,340 injured. The damage to equipment and roadway by the accidents aggregated \$3,366,401, a large increase.

It was found by the commission that of the derailments 10 per cent were due to broken rails and 31 per cent to defective wheels.

## A CHI-NAMEL Demonstration that is Different

You can ask the demonstrator to show you any Chi-Namel product you may be interested in, actually applied.

For instance—White Enamel, Porch Furniture Enamel, Gold and Aluminum Paint, Varnish Remover (the kind that softens old varnish so it can be removed with a common scrub brush and clear water) Floor Wax, Furniture Polish, Mission Stains, Colored Varnishes for staining and varnishing with one application.

She will not merely show you the package containing these materials, but show it in the brush, and applied before your eyes—in fact you can take the brush and apply it yourself.

You can see the actual colors—see how easy it is to apply—how all brush marks disappear before it hardens.

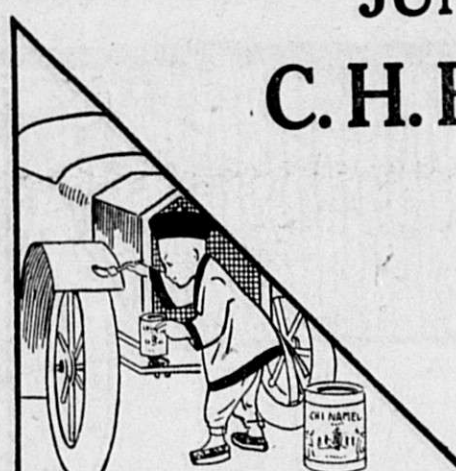

This will be a demonstration worth while for anyone who is responsible for the care and good appearance of the interior of a home.

By asking for a demonstration of any particular Chi-Namel product you will not place yourself under obligation to buy; this demonstration is to acquaint the public with the use and economy of Chi-Namel in the home.

## Honesty Increasing

On her return from marketing, the young matron of the upper West side said to a caller: "I believe the sense of honesty is increasing in New York, at least in this locality. This morning I called the attention of a salesman to a small mistake he had made in giving me change, the mistake being in my favor. The proprietor, who was standing near, said to me: 'You're honest. You'll get along all right.' Not so many years ago the thought that seemed far too prevalent in this country was that only some clever form of dishonesty could get along all right. The merchant who could trick a customer was supposed to be the smart fellow, and it was assumed an honest person was sure to get the little end of everything. I am delighted to find even one man who realizes that honesty is actually indispensable to success, and it is especially pleasing to find him in a place where I can deal with him regularly."

Remarkable Success of These Treated Physicians in the Treatment of Chronic Diseases  
Offer Their Services Free of Charge.

The United Doctors, licensed by the State of Michigan for the treatment of deformities and all nervous and chronic diseases of men, women and children, offer to all who call on this trip, consultation, examination, advice free, making no charge whatever, except the actual cost of treatment. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends, and thus prove to the sick and afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

These doctors are among America's leading stomach and nerve specialists, and are experts in the treatment of chronic diseases, and so great and wonderful have been their results that in many cases it is hard to find the dividing line between skill and miracle.  
Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys or bladder, rheumatism, sciatica, diabetes, bed wetting, tape worm, leg ulcers, weak lungs and those afflicted with long standing, deep seated, chronic diseases that have baffled the skill of the family physicians, should not fail to call. Deafness often has been cured in sixty days.

According to their system no more operations for appendicitis, gall stones, tumors, gotters, piles, etc., as these diseases are treated without operation or hypodermic injection. They were among the first in America to earn the name of "Bloodless Surgeons," by doing away with the knife, with blood and with all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder troubles bring a two-ounce bottle of your urine for chemical analysis and microscopic examination.  
No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit at this time may help you.

Worn-out or run-down men or women, no matter what your ailment, consult them. It costs you nothing.  
Remember, this last free offer is for this visit only.  
Married ladies come with their husbands, and minors with parents.
