Young men's straw hats, dress shirts, collars and ties—goods that are right up to the minute, at Nels Brabant's. Stephen Smith was called to Copleston, Ont., Can., Monday by the serious illness of his sister, Mrs. John Goeck. Miss Muriel Murphy, who has been teaching near Charlotte the past year, returned home Thursday to spend her vacation. Miss Ina Bradley returned home Tuesday, from Charlotte, having closed her school near that place for the summer vacation. John Samuelson, the Watkins Remedy man, left Monday for his home at Harrisville, after having completed calls on patrons in this county. The Herald telephone has been changed to our new location and those desiring to call the office can do so by ringing the old number, 68. Mrs. Wm. Ruell left Sunday night for Two Harbors, Minn., where she will join her husband. She was accompanied by her brother, Fred Yax. Tax Commissioners Barnes and Kearney were in the city last Friday looking over the work the field men have been doing in this county during the past month. Ladies' shoes at Brabant's. Five beauties in White Nubuck, Tan Nubuck, Patent Colt, Tan Calf and Vici Kid, for the ones who are particular about their footwear. The Zion Lutheran church has arranged to have services in the English language regularly once a month hereafter. The first of these services will be held Sunday evening at 7:45, local time. Everybody welcome. Julius Koaster died at his home in Tawas township last Friday. The remains were taken to his former home in Chicago for interment Saturday evening. The deceased was a resident of East Tawas a number of years until he purchased a farm a couple of years ago. He was about 55 years of age and is survived by a widow and one daughter. William Britton and O. P. Eggleston, the representatives of the state tax commission who have been working in this county for four weeks, completed their labors last Friday and left Saturday. The gentlemen have gone over the county thoroughly, and while the valuation has been greatly increased the general opinion is that the equalization, both as to the property and townships, is the best ever had in the county. Miles Main, who is pitching for the Buffalo club this season, was hit on the head by a batted ball Tuesday in a game with the Montreal club. Hospital physicians fear that he will be permanently deaf and temporarily blind, as an X-ray examination shows that both ear-drums were seriously injured and the optic nerve affected. At the best, he will be out of the game for many weeks.

Mesdames D. I. Pearsall and H. E. Nunn of Hale were in the city yesterday. J. E. Laidlaw of Gladstone came Monday evening for a visit with relatives and friends in this vicinity. Anthony Schneider and mother of Sherman were in the city yesterday visiting his sister, Mrs. John Jordan. Special attention to crown and bridge work. Painless extraction. H. C. McKinnon, wife and little daughter, of Harrisville, returned home yesterday after a short visit at the home of Mrs. McK.'s mother, Mrs. Grigg. They were accompanied by Harold Colegrove, who will visit for a short time in Harrisville. Mr. McKinnon is recovering from a five weeks illness. On June 2 Miss Maud Mosher, acting postmistress of the Tawas City postoffice, received a communication from the U. S. postoffice department informing her of a \$100.00 raise in the salary of this office. The credit for the raise is largely due to the faithful work of Miss Mosher, who has been in full charge of the office since the death of Postmaster Kelly last December.

FOREWORD

It is with the greatest pleasure that the undersigned assumes the position of editor and publisher of the Tawas Herald. We feel that in coming to Tawas City we are coming among friends and acquaintances with whom it will be a pleasure to be associated both in a business and social way. As was stated in the Herald last week, we were connected with the paper for some years in the capacity of foreman, and in that position had an opportunity to become more or less acquainted with the patrons of the Herald. With these patrons we expect to assume closer relations in our new capacity as editor of the Herald, and trust that our method of conducting the business will merit a continuance and increase in their patronage.

As a newspaper, we shall strive to keep the Herald at the same high standard that has been maintained in the past, giving a true and correct record of the happenings in our city and surrounding country. It has been said that the heart-throbs of a community may be measured by its newspaper, and if this be true we shall endeavor to prove to the outside world that the citizens of Isosco county have good red blood in their systems and that they are in no immediate danger of death from heart disease. In keeping up the efficiency of the news columns of the Herald we ask the aid and co-operation of every subscriber to the paper, and especially that of the able corps of country correspondents for whom Mr. Patterson had such high words of praise.

Politically, the Herald will be conducted along strictly independent lines. By this we do not mean that the paper will be silent on questions affecting the welfare of the people. On the contrary, we shall strive to keep informed on such matters, and our editorial utterances will be made with a strict impartiality as between men or political parties. No party or politician will have any voice in the policy of the Herald, and for all unsigned articles not appearing as advertising matter, the editor will assume full responsibility. During political campaigns all parties will be granted the use of our columns upon equal terms, the editor reserving the right, however, to refuse any matter which he considers undesirable.

In conclusion we wish to extend to our many friends and readers a cordial invitation to visit us in our new quarters in the Waterbury building, opposite Prescott's store, where we assure you of a hearty welcome. We hope and trust that our future relations will be mutually helpful and beneficial, and that neither the writer of this article nor the readers of the Herald will ever have cause to regret the business change which has just taken place.

Yours very truly,
JAS. E. BALLARD.

Memorial Day Fittingly Observed.

Suitable exercises were held at the cemetery in this city last Friday in remembrance of the old veterans who have answered their last roll call and gone to join their comrades in the great army of the dead. The few remaining veterans assembled at the court house, where automobiles had been provided to carry them to the cemetery. The Boy Scouts were also in evidence, commanded by Scout Master Moffet, and marched from the court house to the cemetery. At the school house the column was reinforced by the school children, who formed the larger portion of the line and who participated in the exercises.

Short addresses were delivered by N. C. Hartingh, sr., and Rev. O. E. Moffet. Several patriotic songs were rendered by the children and G. G. Hood sang "The Sword of Bunker Hill" in a feeling manner. The song, "America," concluded the program, after which the graves of the old soldiers were decorated by a band of little girls in the usual way. And right here we want to say a good word for the Boy Scouts. Their presence at the exercises gave just that touch of the military necessary to make them complete. The boys are well drilled and they conducted themselves in a gentlemanly manner all through. The Boy Scout movement is one which is growing throughout the country and the Tawas City organization, while not so large as many others, will be able to hold their own with similar companies anywhere.

Girls Wanted—To work in the silk mills. Clean, light work; good wages; steady employment. For particulars as to work, wages and conditions, address Belding Bros. & Company, Belding, Mich.

Farmers' Institute Prizes.

At the annual Round-Up meeting of the Isosco County Farmers' Institute the following prizes will be given: Wheat, one quart, 1st and 2nd prizes. Oats, one quart, 1st and 2nd prizes. Dent corn, one dozen ears, 1st and 2nd prizes. Flint corn, one dozen ears, 1st and 2nd prizes. White beans, one quart, 1st and 2nd prizes. Winter apples, one plate, 1st and 2nd prizes. Potatoes, one peck, 1st and 2d prizes. Rutabagas, one-half dozen, 1st and 2nd prizes. White carrots, one-half dozen, 1st and 2nd prizes. Sugar beets, one-half dozen, 1st and 2nd prizes. Onions, one-half peck, 1st and 2nd prizes. Butter, one roll, 1st and 2nd prizes. Garden beets, one-half dozen, 1st and 2nd prizes. Home-made bread, one loaf, 1st and 2nd prizes. Amount of each prize will be given later. The above list was prepared by a special committee elected at the last Round-Up. Respectfully,
J. A. CAMPBELL.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed, and is almost certain to be needed, before the summer is over. It has no superior for the purposes for which it is intended. Buy it now. For sale by all dealers.

New Store for East Tawas.

H. N. Butler of Onaway was in the Tawas the past week completing arrangements for opening a new general store in East Tawas. The new store will be run under the firm name of H. N. Butler & Co., J. E. Gumm, the well known Onaway merchant, being the other member of the firm.

The store will be located in the building formerly occupied by F. F. French in the bank block, East Tawas, and will carry a full and complete line of dry goods, clothing, boots and shoes, and ladies' and misses' ready-to-wear garments, and will be up-to-date in every particular.

Regarding Mr. Butler, who will have full charge of the business of the new firm, the Onaway Inter-Lake has the following to say:

"Mr. Butler came to Onaway seven years ago from Flint in answer to an advertisement for a clerk, and on the very day of his arrival went to work in the Gumm department store, where, by strict fidelity and sterling character, he won not only the confidence of his employer but the high esteem of the community in general, who now seriously regret his departure. The people of East Tawas and surrounding country can bank on Herman living up to this recommendation in every particular, and also his able and popular partner, J. E. Gumm, will see that the store is supplied with the best the market affords."

We wish the new firm every success in their venture, and are glad to welcome Mr. Butler to the business fraternity of the Tawas.

An Open Letter.

To the Assessing Officers and Taxpayers of Isosco County: The state tax commission has just returned from an informal visit to your county, where they had a conference with their representatives and met many of your citizens. Our representatives have visited every township in your county and counseled with all your assessing officers, and their report to us is they have everywhere been received in the kindest way, and that their recommendations as to cash values have been received in good faith and followed in almost every instance. We believe also that the various boards of review now in session will practically agree with the supervisors, and will not lose sight of the idea of cash value in all assessments.

What visits we have been able to have with taxpayers in the limited time we were in the county were equally satisfactory, and indicated that your people welcomed the idea of an assessment at cash value. We regret to say that in one city of your county the assessment, in our judgment, has not been made or reviewed on the basis of cash value, and in justice to the supervisors who have made a proper assessment, the state tax commission will be compelled to make a complete new assessment of that city, placing it on the cash value basis.

Our representatives will return to your county after your boards of review have finished their work, and if it is apparent that any material departure has been made in any township from cash value basis, we will be in duty bound to make a re-assessment of that township. We do not, however, expect to find that necessary in any township.

Again expressing our satisfaction with the work done by your assessing officers, and our appreciation of the assistance extended to our representatives who have counseled with them, we remain, Very respectfully,
ORLANDO F. BARNES,
THOMAS D. KEARNEY,
Board of State Tax Commissioners.

Can't Keep It Secret.

The splendid work of Chamberlain's Tablets is daily becoming more widely known. No such grand remedy for stomach and liver troubles has ever been known. For sale by all dealers.

The national Maine monument in memory of the 267 officers and men who were lost with the battleship Maine in Havana harbor 15 years ago, was dedicated at New York on Memorial day with appropriate exercises. Many noted citizens participated in the exercises, which were preceded by a big military parade.

Eighth Grade Graduation.

Eighth grade diplomas for the following territory will be presented to the lucky candidates in the court house, Tawas City, the evening of June 13; Oscoda, East Tawas, Tawas City, Alabaster, Grant, Baldwin, Wilber, Tawas township.

Diplomas for the western part of the county will be presented at "Commencement" of Whittemore schools.

Splendid programs are being prepared for above occasions. All cordially invited.

J. A. CAMPBELL.

The Athletics went out to Sand Lake last Friday and won a game from the Hemlock road team just while they rested. Seven innings were enough to convince the Hemlockers that they weren't in it, although the Tawas boys scored only twice after the second inning. The score:

The T. C. H. S.-E. T. H. S. game at Tawas Beach last Thursday ended in the fourth inning with the score 8 to 0 in favor of East Tawas. It seems that the Tawas City boys protested against Barkman umpiring, and were told by the East Tawas boys that if during the game they did not like his work they would change for another. Barkman's work did pan out very raw indeed in some instances, and when East Tawas was asked to change they refused. Result—game ended with two out in the last half of the fourth. A game will be played Saturday, but whether or not it is for the pennant is for the board of control to decide.

TAWAS CITY, MICH., June 6, 1913

Teddy Roosevelt won his suit against Editor George A. Newett, who had charged him with being drunk, using profanity and lying. He was awarded six cents damages. But even that does not square him with the republican party, nor clear him of the charge of being an expert bluffer.

The whole civilized world will rejoice that the Balkan war is ended and a treaty of peace signed. War may be all right among uncivilized barbarians, but educated people have come to feel for it an abhorrence which was unknown a century ago.

France is waking up to the fact that low wages have a great influence on the moral character of her citizens and is conducting an investigation into the conditions of the sweat shop workers. Surely the world do move.

The season of the fool and the rowboat is here again and already several victims have been claimed. In this respect at least the world does not seem to be growing any wiser.

It is no longer considered good form to speak about "the writer's fertile pen." Fertile typewriter or dictagraph is more up-to-date.

How Good Roads Spread.

The magnitude of the good roads movement in the United States is indicated in a yearbook issued by the American Highway Association. From this publication it appears that up to December 31, 1912, the amount of bonds issued for road improvement was: State, \$136,878,000; county and township, \$155,633,955, making a total of \$292,511,955. As the work is going on steadily in various directions it is safe to assume that the aggregate now exceeds \$300,000,000, and is likely to be much larger.

These figures afford striking proof of the extent to which the American people have become aroused to the importance of better roadways. And this awakening has taken place within a comparatively short time. Fifteen or twenty years ago it was almost impossible to interest the general public in the subject.

That there is still abundant opportunity for expending money and effort is shown by the exhibit of public roads throughout the country. The mileage is placed at 2,219,905, of which nine or ten per cent can be set down as "improved." A great deal is to be done before all our highways are properly mended.—Ex.

Most Children Have Worms.

Many mothers think their children are suffering from indigestion, headache, nervousness, weakness, costiveness, when they are victims of that most common of all children's ailments—worms. Peevish, ill-tempered, fretful children, who toss and grind their teeth, with bad breath and colicky pains, have all the symptoms of having worms, and should be given Kickapoo Worm Killer, a pleasant candy lozenge, which expels worms, regulates the bowels, tones up the system, and makes children well and happy. Kickapoo Worm Killer is guaranteed. All druggists or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis. For sale by J. M. Wuggazer & Co., Tawas City, and Jas. E. California and the Japanese.

Japanese statesmen understand very well the situation on the Pacific coast of the United States. They know that it is the aim of the people of California and adjacent states to build up a homogeneous American civilization, as free as possible from the difficulties that arise out of labor conflicts between races having wholly different standards. The great agitation against Chinese labor in California had come at a period, some forty years or more ago, when there was practically no Japanese labor in the foreign market. The problem of Chinese immigration was frankly settled by treaties, in which China acceded to the exclusion of her laborers. After the war with Russia, the industrial situation in Japan was difficult, and thousands of men, discharged from the volunteer armies, were out of work. The steamship companies were only too eager to transport them across the Pacific, and employers all along the western coast of America found them available by reason of their skill and reliability. Thus arose the new situation.

In these days of cheap ocean transportation, surplus labor readily moves to fields of profitable employment. Hundreds of thousands of laborers are constantly crossing the Atlantic to the eastern part of the United States, returning to Europe from time to time with their earnings. It is a widely current opinion among those who have studied the question, that this vast migration from Europe ought to be checked. But the movement of Japanese to our coast states, though relatively very small, differs not only in degree but somewhat in kind. Thus there is a wide difference between the poorer class of laborers from eastern Europe, and the average American population of our middle west or south. The children of these people, however, wholly drop their native languages, lose every particle of interest in the country where their parents were born, and become as completely American, so far as their own national self-consciousness is concerned, as if their ancestors had settled at Jamestown or Plymouth in the early days. It may prove, in the future, that we shall also assimilate in like fashion some of the immigrants who have come to our shores from Japan. But nothing of this kind is in prospect at present. The exceptions are too few to be noted.—From "The Progress of the World," in the American Review of Reviews for June.

Forest Fires to Be Reported by Rural Mail Carriers.

The official Postal Guide for May calls the attention of postmasters and rural carriers to an order of the postoffice department that the carriers report to the proper authorities if forest fires detected along their routes. This order was issued at the request of the secretary of agriculture.

For several years in some sections of the country a sort of informal understanding has existed between national forest rangers and mail carriers with the idea of securing increased fire protection. The marked effectiveness of this cooperation was a strong argument in favor of its extension and official sanction, and was in part responsible for the request of the secretary of agriculture which resulted in the order by the postoffice department.

The plan is for the carrier to report a fire to the nearest forest officer on his route, or, if no officer lives on the route, to have him notified by some responsible citizen. State and national foresters are supplied with post road maps and with postal guides containing the addresses of the different postmasters. The postmasters in turn are supplied by the foresters with the names, addresses and telephone call numbers of forest officers residing on or near the carriers' routes.

Co-operation between rural carriers and federal forest officers will take place in Florida, Arkansas, South Dakota, Wyoming, Colorado, New Mexico, Arizona, Utah, Montana, Idaho, Washington, Oregon and California. Co-operation with state officers is given in all New England states, and in New York, New Jersey, Pennsylvania, Maryland, West Virginia, Tennessee, Kentucky, Michigan, Wisconsin, Minnesota, Idaho, Washington, Oregon and California, all these states having established fire protective systems.

Cleveland Institute

Of Medicine and Surgery
ONE DAY ONLY
8 a. m. to 5 p. m.

This institution, composed of a group of regularly graduated Physicians, licensed and legally registered under the laws of the State, visit our city for the first time in order to introduce the latest methods and discoveries in medicine, and give to those who call, consultation, examination and advice absolutely free. These specialists will diagnose your case and give you the benefit of their expert skill and medical knowledge free of charge. There is no experiment or guesswork at your expense—you will be told whether you can be cured or not. If your case is curable you will be put under treatment immediately. If incurable, they will give you such advice as may prolong your life. The treatment, if given, brings quick relief, and ultimately cures. Being prepared to cope with each individual case, the System is thoroughly prepared for the treatment in a direct and natural manner, and improvement is noticed at once. The worst cases are treated without inconvenience to the patients or interference with their daily occupation. Only those not treated by local Physicians are invited. All old methods and remedies used for ages by the medical world have been discarded by these specialists. Testimonials will be shown you, upon request, of thousands cured in sixteen different States of the Union. No matter how complicated, or what the nature of your sickness may be, it makes no difference of how long standing, or what you may have been told. Do not get discouraged, but go and see these gentlemen.

REMEMBER, there will be no charge, either for consultation or examination. We will tell you exactly where your difficulty lies. If you suspect kidney or bladder trouble, bring a two-ounce bottle of your urine for chemical and microscopic examination. Only diseases of long standing, such as Nervous Heart, Stomach and Lung trouble, Catarrh, Disease of the Kidneys, Deafness due to Catarrh treated by an entirely new method, and hearing in many cases is restored at once. "Pittsburgh Perfect" Fence

CONSIDER SIZE OF WIRE When Buying Fence
DON'T BE FOOLED by Weight per Rod or Roll

There's no "banker" about weight per roll when you buy "Pittsburgh Perfect" because it is constructed without using extra wire to make the fence-joints. The extra weight of the joints in all wrapped, clamped, twisted or tied fences supplies no extra strength, but actually weakens these fences by persistently dragging down the panels, wearing them out before their time and making you buy more before you should. "Pittsburgh Perfect," the only fence with Electrically Welded Joints, is a one-piece fabric of unequalled strength, durability and economy, because we eliminate the expense of extra wire, and put this money into extra quality.

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN

Every Rod Guaranteed

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

PLAN CELEBRATION.

Teachers Urged to Arrange Perry Day Program.

Perry Day is to be officially observed by the schools of Michigan on Sept. 10, the hundredth anniversary of that notable victory of Perry and his fleet on Lake Erie. The importance of this victory to Michigan is incalculable, so the department of public instruction is earnestly urging that Perry Day shall be fittingly observed in every schoolroom in the state. Teachers will necessarily have to begin planning their programs at once in order to be ready for the 10th of September, as the date comes right at the beginning of the fall term.

It is suggested that the program be of a patriotic nature, with suitable tributes to Perry and his heroes predominating. As the event is associated so closely with the history of the United States and of Michigan, the program is expected to give zest to the regular school program.

The legislature of Michigan at the recent session appropriated \$30,000 toward the million dollar memorial which is being erected at Put-in-Bay. The accepted design, when completed as contemplated, will cover, with its plaza, almost all of the reservation dedicated as a park to the memorial. The plaza, rising in a gradual ascent from the water's edge to the level height of 12 feet, is 758 feet long and 461 feet wide. The Doric column in the center is 335 feet in height, from the base to the light on the tripod surmounting the cap, which is 300 feet high, with a spectator's gallery reached by electric elevators from the crypt at the base, where the bones of the dead in the battle of Lake Erie will be interred. The column is 45 feet in diameter at the base and 35 feet at the top—the highest monument in the world, with the exception of the Washington monument at the national capital, and the highest column without exception. The material used in the column will be granite.

Iosco County Schools Field Day at Tawas Beach.

Saturday, June 7th. Special train will leave Alabaster 9:00 a. m., Robinson 9:03 a. m., Slingerland 9:05 a. m., Tawas City 9:28 a. m., East Tawas 9:33 a. m., arrive Tawas Beach 9:40 a. m., returning leave Tawas Beach 7:00 p. m. The rates are as follows: From Alabaster, Robinson and Slingerland, 50 cents for adults and 25 cents for children; from Tawas City, 15 cents for adults and 10 cents for children; from East Tawas 10 cents for adults and 5 cents for children. Children's rates will apply to those between five and twelve; the adult rate will apply to all those over twelve years of age. All passengers excepting those getting on at Robinson and Slingerland must purchase tickets before boarding the train, else they will have to pay full fare.

Guaranteed Eczema Remedy.

The constant itching, burning, redness, rash and disagreeable effects of eczema, tetter, salt rheum, itch, piles and irritating skin eruptions can be readily cured and the skin made clear and smooth with Dr. Hobson's Eczema Ointment. Mr. J. C. Evland, of Bath, Ill., says: "I had eczema twenty-five years and had tried everything. All failed. When I found Dr. Hobson's Eczema Ointment I found a cure." This ointment is the formula of a physician, and has been in use for years—not an experiment. That is why we can guarantee it. All druggists or by mail. Price 50c. Pfeiffer Chemical Co., Philadelphia and St. Louis. For sale by J. M. Wiggazer & Co., Tawas City, and Jas. E. Dillon, East Tawas.

\$22,000 for Trunk Road.

More than \$22,000 has been appropriated in various townships and counties along the proposed route for the construction and repair of pieces of road in connection with the trunk highway from Bay City to Mackinac, passing through Alpena, to do the work on which a mammoth bee will be held along the route on Monday, June 9, according to the reports of the county chairmen and delegates who attended the meeting of the Lake Huron Good Roads association at Tawas. Enthusiasm is growing as the time for the big bee draws near, and W. H. LeRoy, County Road Commissioner Burton and H. K. Gustin, who attended the meeting as representatives from Alpena, declare it looks as if at least 5,000 men will be at work on bee day.

Among others at the meeting were ten delegates from Ogemaw county, which had not been previously heard from. The highway passes through only one township in Ogemaw, but the entire county will put its shoulder to the wheel and assist in the bee in that one township.

The building of this highway means much to the Northeastern Development Bureau, as it affects the territory which the bureau is endeavoring to advertise and settle. Mr. Marston, the secretary of the bureau, is a very enthusiastic worker in the cause, and as is every other member, very optimistic over the results it will have in furthering the object and work of the bureau.

Not only will the counties through which the road passes be called on for work at the bee on the Lake Huron road, June 9, but adjoining counties, which will benefit from the highway, will be called on and will probably respond generously, according to W. H. LeRoy, president of the Alpena branch of the Lake Huron Good Roads association, which has in hand the project for the highway.

"I have been through Montmorency county, for instance," says Mr. LeRoy, "and find an excellent spirit of co-operation there. At cross roads or forks, signs will be placed telling tourists how they may reach these towns not on the direct line of the Huron road, and adjoining counties will benefit from this as well as from the general development of the section."

The townships of Alpena county have already been organized for the big bee. Every township in the county, even those through which the road will not pass directly, has been organized.

James R. Snody, president of the Lake Huron association, says:

"I am very much surprised and delighted at the enthusiasm manifest in every county through which we expect to improve the roads. If the interest is kept up we will not only have one good road running from Bay City to Mackinac, but in a very short time several of them."—Michigan Good Roads.

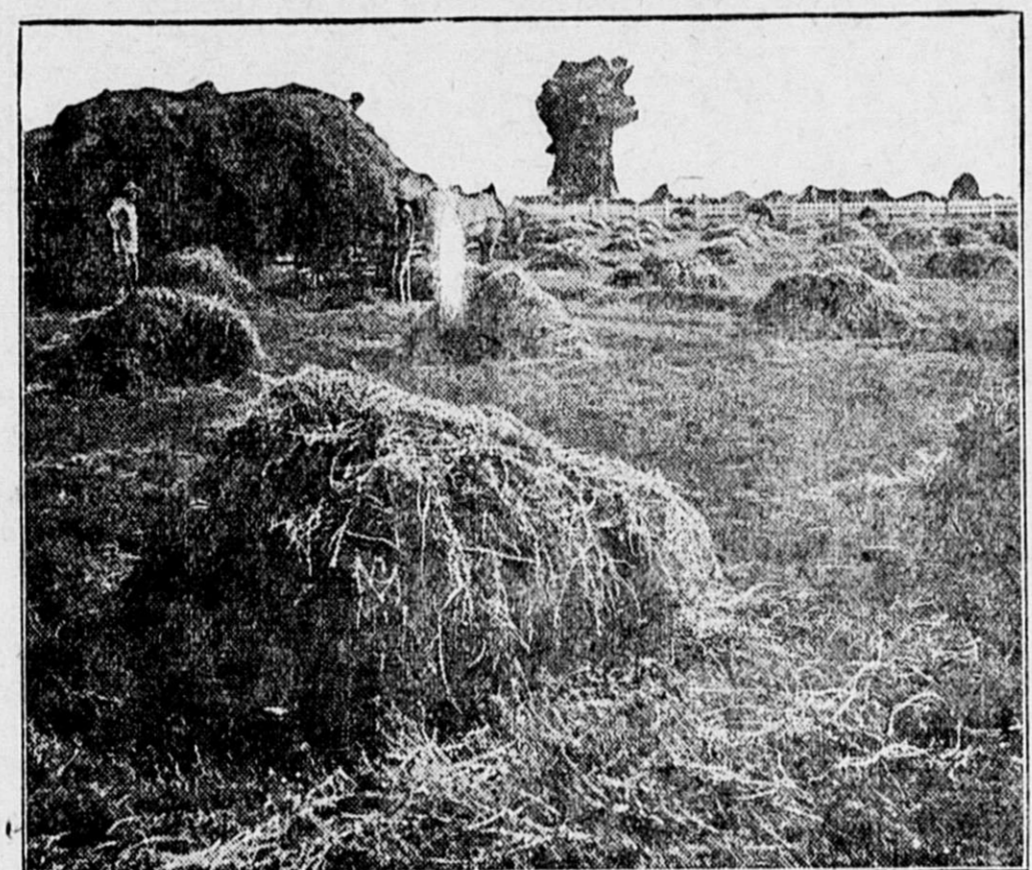

Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

RAISING ALFALFA IN ILLINOIS

Charles E. Yanney of McLean county, on the George S. Hanna Place, has some remarkable results with alfalfa. He got a good stand on six acres by breaking the ground the last of July, disking it three times, harrowing and cross-harrowing two or three times, dragging twice, sowing 20 pounds per acre of seed broadcast, harrowing it in and rolling the ground. This was in 1906. The alfalfa grew about four inches high that fall and was not cut. In 1907, it yielded about two tons per acre, but in addition 150 pigs were pastured on this alfalfa from the time of the first cutting until December. The pigs were bought when

Second Cutting of Alfalfa.

they weighed 45, 50 and 60 pounds, and when they were weighed in the middle of December they averaged 125 pounds. Counting a gain of 75 pounds per head and allowing \$100.00 for about 200 bushels of corn fed to the hogs, and figuring the pork at 5 cents per pound, these hogs returned \$462.00; the hay was worth \$195.00, total \$657.00 from six acres or \$109.50 per acre. Contrary to the results in many other cases this pasturing did not hurt the alfalfa and was repeated without harm the next year.

In 1909, this piece of alfalfa yielded 3½ tons per acre in three cuttings and pastured 83 hogs from the time the alfalfa was four inches high in the spring until August 14, when 66 head were sold, and from then till frost it pastured the remaining 17

hogs and 25 pigs bought at that time. It is estimated that the 83 hogs which weighed 75 or 80 pounds in the spring made a gain of 75 pounds per head. The ones sold in August averaged 182 pounds and those kept till later 225. Counting only 80 hogs and nothing for the pigs, they returned, after paying for the 250 bushels of corn fed, \$420.00 to the credit of the alfalfa alone; the hay was worth \$273.00; total \$693.00, or \$115.50 per acre. This alfalfa was not injured by this extra hard treatment but some parts of it were frozen out last winter, and this spring the field was disking and cross-disked and the thin spots reseeded, securing a fair stand. While many doubt that alfalfa is suited to Illinois, not having examined the evi-

dence, and many more hesitate to start this new delicate crop, Mr. Yanney and hundreds of others are getting splendid results from it.

Coburn on Alfalfa.

"The cultivation and feeding of alfalfa mark the highest development of modern agriculture. Alfalfa is one of nature's choicest gifts to man; it is the preserver and the conservator of the homestead. It does not fall from old age. It loves the sunshine, converting the sunbeams into gold coin in the pockets of the thrifty husbandman. It is the greatest mortgage-lifter yet discovered."

Alfalfa is most valuable in the Corn Belt, because the Corn Belt has an abundance of starch and is short in protein.

TWO NOTED AUTHORITIES ON ALFALFA

In speaking of his experience in the growing of alfalfa, the Hon. A. P. Grout of Winchester, Ill., one of the largest alfalfa growers in the state, has this to say:

"My success at first in growing alfalfa was not startling, but on the contrary I met with many discouragements. Had it not been for the doddies, (sheep and hogs) that seemed so fond of it, and thrived so well on the small quantities I was able to furnish them, it is doubtful if I would have kept up the struggle. A knowledge of its wonderful feeding value gained by experience was the incentive that urged me on.

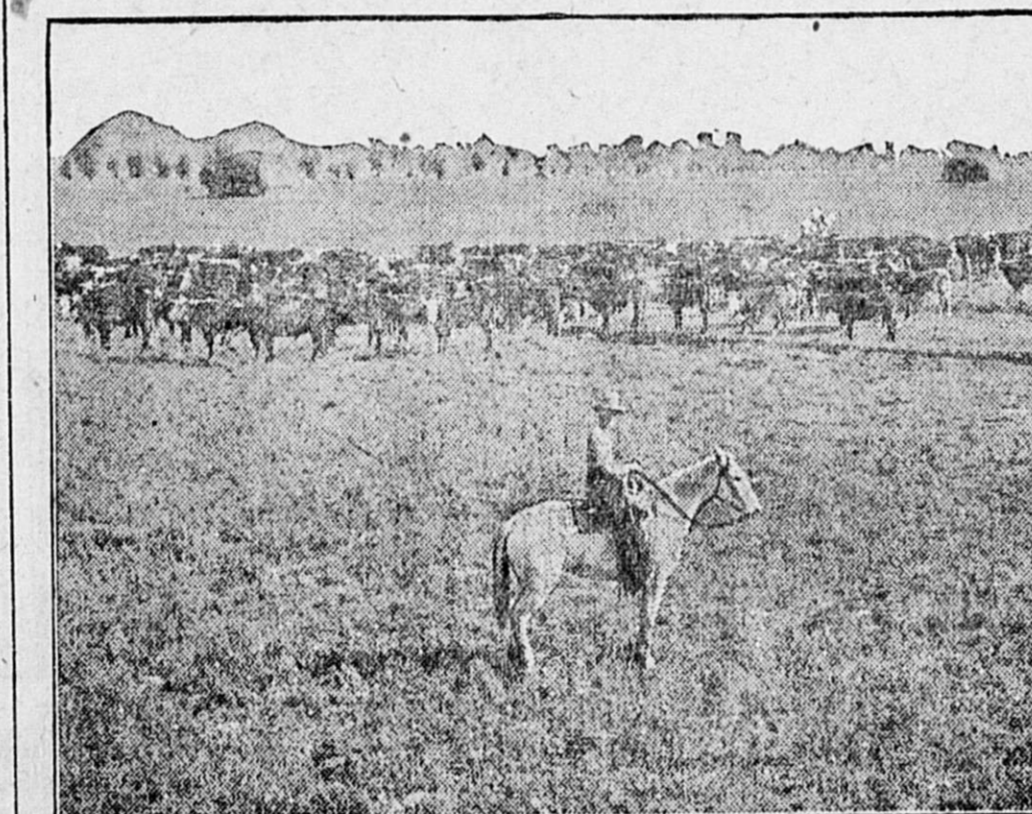

The time has come in my experience, and I believe in the experience of every alfalfa grower, when just as

knowledge of alfalfa, and encourage its cultivation and use by the farmers of Illinois. To be instrumental in bringing into general use a plant which will add untold wealth, not only to the farm, but to every other interest, will be far more creditable and more deserving of honor than that usually accorded for any public service."

Joe Wing Believes in Alfalfa.

Joseph E. Wing of Ohio, who has 160 acres of alfalfa, and who is one of the best known authorities on this crop in the United States, says:

"Alfalfa is a perennial enduring on well drained soil from five to fifty years with one sowing. It may be cut from three to five times a year and will yield in the region of the

Beef Cattle on Alfalfa Field.

certain and favorable results are expected from seeding to alfalfa as from any other crop.

"It is not so much the soil, the climate or the location, as in knowing how. That fact has been clearly demonstrated.

"In my judgment, alfalfa is the most valuable farm crop that can be grown in Illinois, and yet comparatively little is known about it in the state. I know of nothing that will do more for the development of the state or add more to its wealth than a thorough knowledge and understanding of alfalfa.

"I do not know of any greater or more valuable service that the few successful alfalfa growers, who have learned the lesson, can render their state than to spread far and wide a

corn belt from three to six tons of hay per acre. The composition of alfalfa hay is such that it has almost the same nutritive value as wheat bran, and may be substituted for wheat bran in the feed ration with good results. As a feed for all classes of live stock it is unequaled. Every animal upon the farm loves alfalfa and thrives upon it. As a pasture plant for hogs it has no equal in the amount which animals will gain from an acre of it, as much as 600 pounds of pork per acre being frequently reported where hogs have grazed it. It is also the best horse pasture known, and it sometimes is used as a pasture for sheep and cows, although one must observe due care in pasturing it with these animals, since they may bloat."
