Chicago. He was accompanied by his
nephew, Matthew Harting, who was a
guest at his home for a couple of days.
Efforts are being made to have the
question of state-wide prohibition sub-
mitted to the people of this state at the
general election in 1914. The first peti-
tion asking for the submission was filed
with the secretary of state last week.
There were 22 births and six deaths
in Iosco county during the month of
May, according to the report issued by
the secretary of state. Arenac county
reported 19 births and 14 deaths. In
the state there were 5,856 births and
3,443 deaths.
It is estimated that the apportionment
of primary school money in the state
this month will be at the rate of \$7.35
per capita. 182 districts in the state
will not participate, on account of hav-
ing money enough on hand to provide
for the next two years.
Scoutmaster Moffet has received an
invitation for the Boy Scouts to give an
exhibition drill at the chaquetaqua to be
held in Alpena August 5 to 11. A meet-
ing of the troop will be held after church
on Sunday evening to decide whether the
invitation shall be accepted or not.
Work on the cement basement under
A. C. Brown's building is progressing
nicely and will soon be completed.
When the improvements on the build-
ings on that side of the street are finished
and the cement walk laid a great im-
provement in appearance will be notice-
able.
What might have been a serious fire
was averted Wednesday morning when
Mrs. Alex McRae discovered an incipient
blaze in a pile of wood alongside
Rudolph Stark's planing mill. By
prompt action the blaze was extinguish-
ed without any serious damage being
done.
Dr. W. N. Yeager, the dentist, will
be at his office, over Wuggazer's drug
store, in this city, Tuesday, Wednesday
and Thursday, Aug. 5th, 6th and 7th.
All kinds of dental work done and all
work guaranteed. Special attention to
crown and bridge work. Painless ex-
traction. adv.
The county road commissioners have
adopted as a county road the mile of
road running east of Hale, which will be
known as the Esmond county road. It
was given this name in honor of E. V.
Esmond, who was one of the earliest
settlers of that locality, having moved
there in 1871, when his nearest neighbor
was nine miles away.
J. M. Waterbury showed us this week
a sample of red top grown on Ernest
Brown's farm, which is certainly a fine
example of what can be done with this
kind of grass in Iosco county. The
sample was about four feet high and
was soft and tender, making the finest
kind of hay. Our farmers will do well
to investigate the possibilities of this
grass.
It is very gratifying to note the many
improvements that our citizens are mak-
ing in their property. We have heard
the remark a number of times that there
has been more activity along this line
during the past few months than in a
number of years previous. This is as
it should be, for every improvement
made in private property adds just so
much to the beauty of our city and its
desirability as a permanent residence.

That \$100,000 Bond Issue.
Three weeks from next Monday the
qualified electors of Iosco county will be
given an opportunity to vote upon a
bond issue of \$100,000, the money to be
expended in improving the roads through-
out the county. The general sentiment
seems to be in favor of bonding, and in-
deed the benefits to be derived are so
obvious that a little consideration should
convince any man that it is the best
thing that could be done.
It is estimated that the money derived
from the sale of these bonds, together
with the reward that would be received
from the state, would build between 35
and 40 miles of good stone road. The
benefit to be derived from this amount
of road properly placed in Iosco county
can only be estimated, but there is no
question but that the addition to our
road facilities would be a big boost to
the county at large.
The great objection to a bond issue
among those who oppose it is the fear
that it will greatly increase taxes. As a
matter of fact there would be no appreci-
able increase in taxes, as a sinking fund
would undoubtedly be created and the
amount raised for this purpose and to
take care of the interest on the bonds
would not be a great deal more than we
are now paying, and we would have the
benefit of the 35 or 40 miles of good
roads in the early future, whereas under
the present system it will be many years
before that amount of road is built.
At the present time a farmer in taking
his produce to market is forced to load
his wagon according to the poorest piece
of road over which he will have to travel
to reach that market. If he had a good
road all the way from his farm gate to
town he could haul from one and one-
half to three times the tonnage that is
now possible, with a proportionate re-
duction in his marketing expense. This
feature alone is worth consideration, let
alone the saving in wear and tear on his
wagon and the extra exertions of his
team.
The idea of bonding for road improve-
ment is not a new venture in this state,
and the results where it has been tried
have fully justified the expectations of
its promoters. A large number of coun-
ties have bonded for sums ranging from
\$100,000 to \$500,000 and these counties
now have an excellent system of roads
from which the present generation will
receive a portion of the benefit and for
which the next generation will pay its
proportionate share, as is only just.
The bonding question should carry by
a big majority at the election on August
11, and it will do so if the electors of
Iosco county will inform themselves on
the matter and weigh the advantages to
be gained. Don't accept the word of
any one man, but post yourself on what
has been done elsewhere and then get
out and boost for the proposition with
all your might.

Cattle Thieves Caught.
Harvey Sissler and Wm. Coberly,
who have been conducting a campaign
of cattle stealing in the vicinity of Turn-
er and Twining for some time past, were
arrested last Monday by the sheriff of
Arenac county and are now awaiting tri-
al in the jail at West Branch. These
men have made a practice of stealing
cattle and selling them to shippers and
until recently have escaped detection.
It is claimed that now, however, there is
evidence enough to convict them and
stock owners in that locality will be con-
siderably relieved.

Flying Boat Sighted.
Tuesday evening a large number of
our citizens had an opportunity to see
one of the hydro-aeroplanes which have
been engaged in the race from Chicago
to Detroit. The machine driven by
Beckwith Havens, with J. B. VerPlanck,
owner, as passenger, passed Tawas Point
at about 7:05 and hummed away in the
distance toward Bay City. The race had
been declared off, but these gentle-
men had concluded to finish the cruise
on their own account. The machine
carries an eight cylinder engine and the
noise made by the exhaust could be
plainly heard though they were
several miles away. They appeared to
be flying between 150 and 200 feet
above the water. The trip from Alpena
was made in just an hour, and the es-
timated speed of the machine when
passing the Point was between sixty and
seventy miles an hour.

Annual School Meeting.
Considerable interest was manifested
in the annual school meeting for this
district which was held at the high
school building Monday evening. A
total of 48 votes were cast on some
questions.
John A. Mark was elected to succeed
himself as trustee, his term having ex-
pired.
The question of free text books was
lost by a considerable majority. In our
opinion this is to be deplored, for under
the circumstances it would seem that
free text books would be the best thing
possible in the schools of the district.
An attempt was made to force the
issue of reducing our school year from
ten months to nine, but the effort was
unsuccessful. The annual report of the
trustees was read and adopted and will
be found in another column of this
paper.

STATEMENT

Of the County Road Commissioners to the Peo-
ple of Iosco County :

In accordance with a certain resolution adopted by the
Board of Supervisors during its last session, we, the Coun-
ty Road Commissioners, submit the following :

RESOLUTION.

RESOLVED, That the County Road Commissioners
be requested to immediately prepare plans for the
distribution of moneys for road purposes in Iosco
County in the event the bond issue of \$100,000.00
is allowed by the electors at the coming special elec-
tion, to be called for the purpose, and that said Board
of Road Commissioners be requested further to deter-
mine what amount will be spent in each township in
said county for the purpose of good roads and lines
of proposed roads, as nearly as possible, and publish
the same in the Iosco County Gazette, Tawas Herald
and Oscoda Press weekly for a period of two weeks
preceding said special election.

The foregoing resolution was adopted after the Board
of Supervisors of this county had decided to submit the
question of issuing bonds in the sum of \$100,000.00 to
raise money for the construction and maintenance of
county roads.

In attempting to submit a statement to the people of
this county relative to the good roads proposition, it was
found to be absolutely impossible on account of time and
impracticability to determine at this time each route for
each road in each township, because we feel that we should
receive the advice and counsel from the people of each
township as to their desires in the building of these roads
before the exact routes were laid out for any; and before
any lines are established the Commission will be pleased
to receive suggestions and go over the ground carefully
in each township, in order to place the county roads in
the best locality in each township and to do the most
good to the largest number of inhabitants.

The following table will show the amounts of county
road taxes spread on the several townships and cities for
the past eight years and will also show the amount in
money the several townships have received in county roads
up to this year:

	Road Tax.	Roads built.
Alabaster Township	\$3296.86	\$3632.87
AuSable "	3074.97	None
Baldwin "	1360.80	5696.67
Burleigh "	2634.22	None
Grant "	1623.59	9001.62
Oscoda "	3578.27	3044.88
Plainfield "	3548.84	None
Reno "	2610.49	9201.62
Sherman "	2245.30	5735.55
Tawas "	3837.63	7259.70
Wilber "	1638.50	None
City of AuSable	682.93	None
City of East Tawas	4096.02	None
City of Tawas City	2882.53	None
City of Whitmore (6 yrs.)	598.99	None

From the foregoing table it will seem that many
townships have received a large amount in roads in ex-
cess of the amount of money paid in taxes, while other
townships have paid their proportion of taxes without
receiving any roads as yet in return, and this seemed
to be the correct basis upon which to apportion the sev-
eral amounts for the different townships, and in con-
sideration of the foregoing statement, we, the Commis-
sioners, have decided on a distribution of the \$100,000.00
as follows:

Alabaster Township	\$7000.00
AuSable "	5000.00
Baldwin "	7000.00
Burleigh "	15000.00
Grant "	7000.00
Oscoda "	5000.00
Plainfield "	15000.00
Reno "	10000.00
Sherman "	7000.00
Tawas "	8000.00
Wilber "	10000.00
Expenses, tools etc	4000.00

It should be added that the foregoing table of fig-
ures are estimated amounts, as it will be the policy of
the Commission to complete lines of roads in each town-
ship and connect roads as much as possible, thereby
making continuous routes of good roads from place to
place.

For each mile of road built with the money obtained
from the bonds to be issued, the state will pay to this
county a certain award for the building of roads, ac-
cording to the kind of roads built, and it will be the
policy of the Commission to add to the apportionment
of each township the extra sum received from the state
in awards to be given each township nearly doubling
the amount in good roads that is tabled above in the
apportionment.

The Commission is not in a position at the present
time to advise the people of the exact route of the state
trunk line through this county, as the State Highway
Commissioner has not as yet designated the route, but
when this route is designated and established, whatever
roads are built along said route and in accordance with
the specifications laid down by the State Highway Com-
missioner, the different townships through which the
trunk line passes will receive an award from the state
of \$2000.00 per mile for each mile built, and this money
will be apportioned the particular townships through
which the trunk line passes, thereby increasing consid-
erably the amount of money to be spent in each township.

From the table first given in this statement, it will
be found that the different cities in this county have
contributed during the last eight years in taxes for good
roads in this county, the sum of \$8260.47, and under
the law none of this money could be spent inside of the

LOCAL and GENERAL

Mrs. Wm. Charters of Whittemore spent Monday at the home of her daughter, Mrs. Wm. Leslie.

Miss Frances McMillan returned Tuesday to her home near Twining, after a weeks visit with Mrs. Chas. Nelem.

Mrs. Jos. Martin of Alabaster left Tuesday for a visit with her daughter, Mrs. Harry Preston, and other relatives at Battle Creek.

Mrs. E. B. VanHorn and daughter, Hattie, left Monday for a two weeks visit with her son, Charley, and other relatives and friends at Bay City.

Rev. Moffet occupied the pulpit of the First Baptist church at Alpena last Sunday. Rev. Wm. Roberts, pastor of that church occupied Rev. Moffet's pulpit and preached two very good sermons. Rev. Moffet will exchange with Rev. Bailey of Lincoln in the near future.

A person who cannot swim, fearing the water, very naturally tenses his muscles as he struggles to keep his head above the water, until he is as hard as a rock, and like a rock he sinks. Whereas the swimmer, having no fear, relaxes his muscles, and hence becomes buoyant. The explanation is a simple physical one. Tense, taut muscles increase the specific gravity of the body and makes it sink in water. Loose, relaxed muscles give an ordinary supply of air in the lungs, will make the body float.

It has been frequently suggested and the suggestion is a good one, for every farmer to place his name and the name of his farm on his road-gate. Not only would persons driving to a place more easily find it, but it would add more pleasure and interest to people driving from place to place. This last result would have special effect with regard to well kept and pretty houses. An observing person will seldom pass a beautiful farm without desiring to know who its enterprising owner.

We have heard a number of complaints regarding the noise and disturbance created by the practice of Sunday ball playing, both in Tawas City and elsewhere. The writer is as enthusiastic over base ball as the average man, but he does not favor Sunday ball playing, and we see no reason why a crowd of people should be allowed to congregate at a base ball game and make a disturbance for which they would lay themselves liable to arrest if participated in elsewhere on Sunday. In fact, every person who takes part in such a game or attends the same does lay himself liable to arrest and fine according to the statute law of Michigan, which reads as follows: "No person shall keep open his shop, warehouse, or workhouse, or shall do any manner of labor, business or work, or be present at any dancing, or any public diversions, show, or entertainment, or take part in any sport, game or play on the first day of the week. ***** And every person so offending shall be punished by fine not exceeding ten dollars for each offence."—Michigan Statutes 5912, Section 1. The law is plain and we see no reason why one portion of the people should be exempt from its workings any more than another.

Troop 1, Tawas City Boy Scouts, Attention.

Be on the lookout for a boy whose description is as follows: Name, William W. Tomlinson; age 17. Is about four feet four to six inches in height; light, fair complexion, light brown hair, blue eyes and a prominent nose. Little finger on left hand is missing just above where nail would be; is left handed except in writing; has a rather deep, heavy voice. In walking has a long stride and carries his head very much protruded, a peculiar carriage for a boy and very noticeable. Has always lived and worked on a farm and would show characteristics of that work. Wore a cap, clothes of mixed color and a flannel shirt. Time might have made a change in his clothes.

If found by you telephone Scoutmaster Moffett or telegraph Wm. W. Campbell, Lockport, N. Y., or Wm. S. Hall, Madison, Conn.

Rid Your Children of Worms

You can change fretful, ill-tempered children into healthy, happy youngsters, by ridding them of worms. Tossing, rolling, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in stomach and bowels, feverishness and bad breath, are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brisbin, of Elgin, Ill., says: "I have entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis. J. M. Wuggazer & Co., Tawas City, Jas. E. Dillon, East Tawas. adv.

Forest Notes.

France has spent \$33,000,000 in planting trees on the water sheds of important rivers. According to the Canadian forestry association 50 per cent of Canada is capable of growing nothing but timber crops.

Ammonia bombs are being tried out on some of the national forests for the purpose of extinguishing forest fires. They are said to have worked well in the case of brush fires where the fire-fighters find difficulty in getting near enough to the burning area to beat out the flames. Each bomb exploded will extinguish fire in a circle of about five yards in diameter.

The Western Pacific Railway has instructed its engineers to report fires along the right-of-way where it traverses the Plumas national forest, California. The location of fires is indicated on a card dropped by the engineer or fireman to the next section crew met after the fire is discovered. It is then the duty of part of the section crew to go back on handcars or speeders and put out the blaze.

More persons make use of the national forests in Utah than in any other state. Nearly 27 per cent of all the permits for sheep and cattle grazing on the forests are taken out in this state. This does not mean, however, that Utah carries one-fourth of all the national forest cattle and sheep; it happens that many small grazing interests make use of the forests there; and individual flocks and herds are larger elsewhere.

For Cuts, Burns and Bruises

In every home there should be a box of Bucklen's Arnica Salve, ready to apply in every case of burns, cuts, wounds or scalds. J. H. Polanco, Delvalle, Tex., R. No. 2, writes: "Bucklen's Arnica Salve saved my little girl's cut foot. No one believed it could be cured." The world's best salve. Only 25c. Recommended by J. M. Wuggazer & Co., Tawas City, Jas. E. Dillon of East Tawas. adv.

It is Your Town.

What makes a town? People and business. You are one of the people. What you buy helps make the business. The more you buy the better the business; the more business the better the town.

You want the town to grow and improve, don't you? Then you should help it grow by increasing its business as much as you can. Every time you send elsewhere for goods you give your town a blow. Enough of these blows will ultimately kill the town.

The mail order houses do nothing for your town except try to kill it. Are you helping them? You are if you send your money to them for goods that you could buy at home. If you are more interested in the growth of Chicago or New York than you are in the prosperity of your town and your own neighbors, then continue to send to mail order houses for goods. If you want your own town to thrive, spend your money where you make it.

Yawning is Healthful.

Yawning may be rude—especially in company—but it is a good thing for you to do.

For one thing it ventilates the lungs. When you take an ordinary breath the lungs are not completely filled, nor are they thoroughly emptied by an ordinary respiration. There is a certain quantity of air left in the lungs always which physiologists call "residual air."

This air in time becomes foul and affects the blood, and through the blood, the nerve centers. Certain nerves get tickled as it were, and the result is a yawn, stretching the lungs to their fullest extent, filling them with clean, fresh air and driving the foul air out.

That's one reason why it is so good to yawn. For another, yawning opens the stretches and ventilates all the various passages leading to the lungs. You will perhaps be surprised to know that yawning is even beneficial to your hearing.

The cracking sound which you so often hear when giving an extra big yawn is due to the stretching and opening of the Eustachian tubes. These tubes communicate between the ear and the back of the throat. If they are congested, which happens when you have a bad cold in the head, people complain of deafness.

If you feel inclined to yawn, then do so. It is nature's way of cleaning out your lungs and air passages.—Pearson's Weekly.

The King of All Laxatives

For constipation, headaches, indigestion and dyspepsia, use Dr. King's New Life Pills. Paul Matbulka, of Buffalo, N. Y., says they are the "King of all laxatives. They are a blessing to all my family and I always keep a box at home." Get a box and get well. Price 25c. Recommended by J. M. Wuggazer & Co., Tawas City, and Jas. E. Dillon, East Tawas. adv.
