Deputy-Sheriff Chase went to AuSable Wednesday night and arrested Frank Sharkey on a charge of attempted assault. Sharkey smashed in the door of a residence in AuSable and attempted to assault a widow woman who lived in the house. He is now confined in the county jail and will probably be tried at the approaching term of court.

Mrs. R. M. Forsyth and daughter report that the Sunday school convention last week at Benton Harbor was a great success. Arenac county was honored by having J. H. Nisbet of Maple Ridge elected state vice-president of the association. About \$3,000 was taken up in collection and \$7,500 more pledged for state work. The convention next year will be held in Adrian in November.—Arenac Independent.

Michigan is gradually waking up to the necessity of medical and dental inspection in the schools. Saginaw, E. S., is the latest recruit in the ranks of progressive districts which have dental inspection. Medical examination in the Rochester, N. Y., schools brought out the fact that 25 children of every 100 had enlarged tonsils or adenoids, 75 of each 100 had enlarged glands and 70 of every 100 had deformed or broken noses.

BE KIND TO YOUR HORSE and all Dumb Creatures—it shows the Gentleman.

Bradley—McLaughlin.

A very pretty home wedding occurred on Thanksgiving day at the home of Thomas Bradley, when his eldest daughter, Edyth Grace, became the bride of Mr. Thomas McLaughlin, in the presence of the near relatives and a few close friends.

At high noon to the strain of a wedding march played by Miss Lucy Louch, the party took their place under a wedding arch of evergreen and caryanthemums, where Rev. John Pinches pronounced the words that made the couple man and wife. The bride was given away by her father, while her brother, Will, and her sister, Miss Ina, acted as best man and bridesmaid. A beautiful solo was rendered by Miss Effie Graham.

Immediately after the ceremony a wedding dinner was served, the table being handsomely decorated with flowers and streamers of yellow, white and pink, extending from the ceiling to the table. The bride was the recipient of many beautiful presents as tokens of the esteem in which she is held.

The bride has been a resident of Iosco county all her life. She is a graduate of the Tawas City high school and the Iosco county normal, and has been a teacher in the schools of this county for some time. She has a host of friends who extend their best wishes for a long and happy married life.

The happy couple left on the afternoon train for a short wedding trip. They will return here for a short stay before leaving for their future home at East Chicago, Ind., where the groom has an excellent position.

Provost—O'Toole.

The wedding of two popular East Tawas young people was solemnized at St. Joseph's church Wednesday morning, when Anna, daughter of Mr. and Mrs. Eugene Provost, was united in the holy bonds of matrimony to Gregory O'Toole by Rev. E. A. Kinney, in the presence of the near relatives and a few friends of the contracting parties.

After the ceremony a wedding breakfast was served at the home of the bride's parents, the rooms being nicely decorated for the occasion. The bride was the recipient of many handsome and useful presents.

The couple are well and favorably known in the Tawas, the groom having lived here for about four years and being employed as a machinist in the D. & M. Ry. shops, while Miss Provost was employed as stenographer in the offices of the same company.

The happy couple left the same day on a wedding trip to Toledo and Cleveland, and will also visit Mr. O'Toole's home in Alpena before returning to East Tawas to make their home.

The Herald joins with their many friends in extending congratulations and best wishes.

Lecture Course Assured.

A meeting of the Tawas City Citizens' Lecture Course association was held at the office of County Clerk Mark last Friday evening. The election of officers was held, and the following officers were elected for the ensuing year:

President—John A. Mark.
Vice-President—Len J. Patterson.
Secretary-Treasurer—Ford Bradish.
The association voted to accept a contract left by the representative of the Chautauqua Managers' association, who was here last week. The course which the contract calls for consists of four numbers and promises to be the best course ever given in Tawas City. The attractions comprising the course are: Schildkret's Hungarian Orchestra, Miss Maud Willis, reader, Kuehn Concert Co., and Lou J. Beauchamp, humorous lecturer. These numbers are among the best on the platform today and patrons of the course will receive full value for their money.

The price of the season tickets has been placed at \$1.00, which puts them within the reach of all. A nominal fee of 10 cents additional will be charged for reserved seats at each entertainment.

The dates of the entertainments have not yet been fixed, but the first one will occur about the middle of December, and the others will follow at intervals of about a month. The sale of season tickets will begin in the near future and it is hoped that every citizen will purchase one or more and thus help along a movement which is an unquestioned benefit to the city.

TAWAS CITY, MICH., Nov 28, 1913

American troops are held in readiness on the Mexican border to cross the line at a moment's notice if such a course becomes necessary to protect the lives of Americans in that turbulent country. It is sincerely to be hoped that such a course does not become necessary, for if the soldiers cross the line it is almost a certainty that some of them will never come back alive. Practically the only American interests in Mexico are those of the money barons who have investments in various lines in that country, and who care nothing as to how many lives are sacrificed if only their valuable property may be protected and their precious dollars saved. The American people whose lives are in danger are mostly employes of these magnates, for the moneyed men themselves would never risk their precious necks by venturing into a country so turbulent and torn with strife as Mexico is at present.

The county authorities of Alpena county are considering the practicability of working the short term prisoners confined in the county jail to work on the roads, and the question will be submitted to the board of supervisors at the January session. This plan has been tried out successfully in other counties in Michigan, and if Alpena puts the plan into operation it will undoubtedly cause an immediate decrease in the number of "regulars" who get sent up every fall for from 60 to 90 days, which gives them a good warm berth through the cold weather. There is no reason why any county should feed and house a number of this class of undesirables without receiving any benefit, and a little hard labor will cure a good many tramps of the habit.

Another investigation of the cold storage business is threatened by congress. It is averred that meat and dairy products are being piled up in cold storage warehouses and held there to continue and increase the present high prices of these products.

Where It Hurts.

We do not know how much money is sent out of this city to buy things that could be bought here at home. We know there is some.

The important thing is whether the amount that is being sent away is less or more, is decreasing or increasing.

If the percentage of such money is decreasing, very well. If it is increasing the city is in a bad way.

If it was 2 per cent year before last and 2½ per cent last year, and is likely to be 3 per cent this year, it is easy to see which way this city is going.

If that kind of trading is increasing, the value of property in this town is decreasing. Business property is worth less. The homes of this city are worth less.

The bleeding of patients has been discontinued—in some localities the bleeding of towns goes on.

There are people who are saving cents in price and losing dollars in quality, and incidentally decreasing the value of their property and their labor.

Some people realize that mail order buying hurts the local merchant, but they say there is no reason why they should worry about him. Certainly not. What they ought to worry about is themselves.

Notice to Clergymen.

Clergymen in charge of churches located on the Detroit & Mackinac Rv., also clergymen in charge of churches adjacent to Detroit & Mackinac Rv., when such points are not located on other railroads, are requested to send as early as possible their full names and addressed to W. G. MacEdward, C. P. A., Detroit & Mackinac Rv., Bay City, Mich. adv-50

Postal Notes.

The C. O. D. feature of the parcel post system is gaining in popularity rapidly.

The postal saving system is gaining friends steadily as its advantages become better known. All who wish to start a safe savings account should post themselves as to its advantages.

Under a recent ruling of the Postoffice Department rural carriers are not obliged to accept mail matter unless stamps are attached. Money should never be left in mail boxes. Patrons of mail routes should always provide themselves with postage stamps.

The new parcel post regulations which allow the mailing of packages weighing 20 pounds in the first and second zones and the reduction of the rate have greatly increased this class of matter. Twenty pounds may now be mailed to any point within the first two zones at a cost of 25 cents. Lighter packages at a less rate.

The holiday "rush" will soon be on, and those who contemplate making use of the mails in sending Christmas gifts will find it greatly to their advantage to mail their packages early, and such action will be greatly appreciated by postmasters. The department allows Christmas packages to be marked: "Not to be opened until Christmas."

Parcel Post Don't's.

Don't seal your packages, but make sure it is strongly and carefully wrapped to insure the contents against breakage if fragile.

Don't fail to put your name on the parcel, as well as the name of the person to whom the package is sent. This will insure its return to you in case it cannot be delivered.

Among articles barred, in addition to that which is unavailable from obviously objectionable reasons, are:

Intoxicating liquors, poisons (excepting when part of medicinal preparations not in themselves unavailable), live animals, explosives, matches, disease germs, scabs, pistols, revolvers, raw hides or pelts.

Fresh meats may be shipped only within the first zone.

Eggs may be sent anywhere if properly packed. Each egg must be wrapped separately.

Circuit Court Jurors.

Following is the panel of jurors drawn for the December term of the Isosco county circuit court, which convenes December 16th:

Alabaster township, Arthur Spring.

A Consumptive Cough.

A cough that bothers you continually is one of the danger signals which warns of consumption. Dr. King's New Discovery stop the cough, loosen the chest, banish fever and let you sleep peacefully. The first dose checks the symptoms and gives prompt relief. Mrs. A. F. Mertz, of Glen Ellyn, Iowa, writes: "Dr. King's New Discovery cured a stubborn cough after six weeks' doctoring failed to help." Try it, as it will do the same for you. Best medicine for coughs, colds, throat and lung troubles. Money back if it fails. Price 50c and \$1.00. Recommended by J. M. Wuggazer & Co. and Jas. E. Dillon. adv

The Panama canal commission has requested the forest service to inspect the timber being creosoted at Seattle and Tacoma for the commission.

Object of Advertising.

The object of advertising is to impress your name and business upon the public mind. In order to do this you must put your ad in a paper where it will be read, and you must keep everlastingly at it. You can no more build up a permanent and prosperous business by spasmodic advertising than you can build up a permanent and exalted character by spasmodic virtue. You must keep constantly at it until you burn your name into the public mind so that every time the people think of buying anything in your line they think of your name first. That is the drawing power. That is the psychology of advertising.

Speaking of advertising generally, I want to say that it is the mightiest factor in the business world. It is the mainspring, the motive power, in our modern industrial competition. It is the one great business builder of the civilized world.

Advertising builds skyscrapers! It creates telephone and telegraph lines; it constructs steam and trolley railroads, and it multiplies mammoth department stores.

Its potency and power extend far beyond human needs and necessities. It increases and multiplies human wants, refines and intensifies human desires. It gives timid and hesitating people the courage to buy what they want, but which under different circumstances they could easily get along without.

It makes two flowers grow and bloom in the business world where only one grew and bloomed before. It hypnotizes the intelligent man and woman into a liberal and progressive mental attitude and prompts them to surround themselves with modern conveniences and comforts. It puts vacuum cleaners in the house, books in the library and pictures on the wall. It is the civilizer and the beautifier of the home, the schoolmaster of culture and the mother of civilization.

Will A. Reeves Will Commence a SACRIFICE SALE TUESDAY, DECEMBER 2nd ON HIS ENTIRE STOCK

We are forced to throw our stock upon the market and at the mercy of the people to get relief. We realize the fact that a sale at this time means a great loss to us for we shall cut and slash the prices on everything. Nothing reserved. For the few weeks there has been an epidemic of so called sales in this city. We will not quote prices on a few job lots, odds and ends to deceive the public. But we will cut the prices on every article in this stock, including goods bought for this fall and winter trade and all our holiday goods, giving the people a chance to buy their Christmas goods at cut prices.

Lycoming Rubbers
MEN'S DUCK LUMBER JACK
 "ROLLED EDGE"
 This rubber is made of the finest grade of duck, coated with rubber on both sides. It is to be worn over a heavy woolen sock and intended for hard service. You will find this as comfortable on the foot as a leather shoe and absolutely waterproof. The strip of cashmerette on the top is of excellent advantage, making it soft and pliable where it buckles around the ankle and prevents chafing of the sock.

OUR SCHOOL COLUMN
 Devoted to the interests of the Schools of Iosco County

The course of study suggests suitable stories and poems for each grade. Stories should be told and poems memorized by the language classes. Call upon the dull, slow pupils more often than upon the bright, quick pupils. There should be no attempt to teach technical grammar below the seventh grade. Read carefully at least once a week suggestions to teachers at beginning of course of study. Suggestions from the course of study: Fundamentals, loyalty, thoroughness, accuracy, speed. Short lessons well prepared are better than long ones poorly prepared. Be definite in assigning lessons. We received a very interesting letter from Claude Jennings, our state fair boy, telling of the many interesting things he heard and saw. Use the topic method in teaching geography and history. Teach pupils to talk connectedly on a topic for several minutes without interruption. Remember that the skillful teacher is not a talking teacher. There should be a minimum amount of talk on the part of the teacher and the maximum on the part of the pupil. State manuals will be distributed as quickly as possible. They are unusually attractive and beneficial this year. What a fund of information they contain for the class in civics. We trust that more boys than ever will enter the state fair contest, and assure all competitors that it is worth the effort. We trust all schools had a short program Wednesday afternoon. We have numberless reasons to be thankful this year. Try these problems: What will it cost to floor your longest room at home with oak flooring 2 1/2 inches wide at \$3.75 per hundred? Your school room, with pine flooring at \$2.50 per hundred? What would a tin roof for your school room cost at \$3.50 per square and \$1.50 per square for laying it? Make and keep in a book provided for that purpose an outline of what you expect to accomplish in each of your classes during each day. Specify the subject to be studied, the ground to be gone over, devices you will use each day, topics you desire to emphasize, what you will do and how and why. We desire to emphasize the value of oral training, and wish to discourage the excessive amount of written work on the part of the pupils. The ability of a person, young or old, to stand on his feet and in the presence of others state clearly what he knows or thinks is of great value to the individual. This kind of ability will remain undeveloped if too much written work is assigned.

Alabaster School Notes.
 We are having examinations this week. The eighth grade got their new class pins. They are very pretty. Grace Anderson, Clara Mielock and Hilda Hagland were visitors Monday morning. The school book case arrived last week, but it was so badly damaged that it had to be sent back. Monday morning when the train came in all the pupils from the grammar and high schools went to the K. O. T. M. M. hall, where the Farmer's Institute was held. In the forenoon the state speaker, Mr. Moore, gave a short talk about the "Soil and Its Improvements." Dinner was then served, and afterwards Mr. Moore talked about the "Farmer's Garden." Mr. Campbell also gave a talk about "Agriculture in our Schools." In the evening session there was one local speaker, Mr. J. E. Anderson. Mr. Moore talked about "Live Stock Improvements," and Mr. Campbell about our "Heritage of American Ideals." The school gave a short program.

Whittemore School Notes.
 The bookkeeping class is proceeding nicely. The fund of the society is growing rapidly. The boys are talking of organizing a troop of "boy scouts." The girls of the upper room are painting some beautiful pictures. We had a visitor from Cleveland, Ohio, this week, (John Jinkins). The pupils are getting a great benefit from the study of commercial law. Some seats were changed for the benefit of the bookkeeping class. President Henry Sase resigned, and Vera Hurford was elected to take the office. Committees were appointed by the new president as follows: Executive committee, Ara Flynn, Annie Leslie

and Herbert Maxwell; decorating and cleaning up committee, Henry Sase, Aaron Flynn, Gertie Webster, Gradson Bruce, Pearl Ostrander, Stella Barium, Phebe Lail, Celia Abbott, Mary Mourin, Amy Sheffer, Annie Washburn and Bessie Leslie.

Vine School Notes.
 This is examination week in both rooms. Emma Rapp is absent on account of sickness. The teachers and pupils enjoyed a holiday last Friday. Miss Martha Chester visited the primary room Monday. Andrew and Daniel Sherman are still absent on account of chicken pox. Edgar Bradford and Clara Lietz of the primary room have the chicken pox. Clarence and Gladys Gates of the primary room have left school because they have removed from this district. The teachers think that they will have to practice moderating their voices some, since a portion of the partition has been removed. A Waterbury heating system was installed last Friday. It can be highly recommended as a splendid heating and ventilating system by the teachers.

Lumbering Greatest Manufacturing Industry.
 According to E. T. Allen of Portland, Oregon, lumbering is the greatest American manufacturing industry and is exceeded only by agriculture in supplying the essentials of life. In an address before the conservation congress Mr. Allen called attention to the comparative lack of the public's knowledge of the economics of subjects which touch each individual so closely as forestry and lumbering. Mr. Allen is forester of the Western Forestry and Conservation Association, an organization of lumbermen whose principal activity is the protection of their holdings from fire. A large part of the association's efforts are directed to making the public realize the loss which each individual suffers, directly and indirectly, from forest destruction. In this connection he pointed out that forest preservation can not be conducted wholly by business managers or boards of directors. "It is a mutual co-operative enterprise," he said, "requiring daily participation by all concerned. The American forest policy must exist not because a few say it should, but because a majority of citizens understand what is needed and why it is needed and put the policy into effect." "The only reason the average citizen does not realize the importance of forestry and does not give it the same active and intelligent interest that he gives his home town problem is that he can not see it so clearly. The very intensity and importance of the lumber industry causes its several processes of growing, manufacturing and distributing to be conducted separately, and this confuses the public mind. Different communities see different parts of the whole process, but get no thorough grasp of forest economics. "In many a little German village the whole community sees the forest grown, cut, manufactured, and used. Those who do not actually participate serve or supply those who do. Their forestry needs no propaganda. The people could not understand the need for it any more than of propaganda for raising wheat and making bread. "We talk too much about forests as though they were an end in themselves. We might just as well talk only of land when trying to improve agricultural conditions, or of water when urging the protection and propagation of food fishes. The average citizen must be brought to consider all forest production and all forest use as little or no different from the production and use of any necessary crop, obviously to be encouraged and stabilized on a permanent basis profitable to all concerned. Whether he is a private citizen or a law maker serving private citizens, he must be familiar with all the factors. As long as he thinks an uncut forest is forestry, and that such forestry is good and all lumbering bad, there will be no real progress. "There is little trouble in passing laws for the protection and advance of agriculture, horticulture and dairying, because people understand the governing conditions of these industries and see the point of such laws readily. "To succeed in the United States forestry must be so allied with lumbering that neither forester, lumberman, nor public makes any distinction. This being true, the need is to teach the principles of the business from start to finish. Every process, its cost, and its relation to other processes and to the final price of the product should be common knowledge. The education of the public along these lines is the greatest need in forestry today."

Forest Notes.
 Eastern manufacturers are looking to the northwest for hardwoods for the manufacture of clothes-pins. Birch is particularly wanted. Of the 2,000,000 trees to be planted on the national forests of Montana and northern Idaho during the present fiscal year, one-half have been set out this fall and the rest will be put in next spring. The net receipts from the national forests of Washington and Oregon during the past four months amounted to \$115,620, an increase of 17 per cent over receipts for the same period last year. A thoroughly up-to-date saw-mill, with a capacity of 60,000 board feet a day, has been erected on the south coast of Mindanao island. It is of American make throughout, and uses the modern band-saw. This is only one of several such mills in the Philippines.

GET MONEY FOR BOOKS.
School Districts Which Have Voted for Libraries Receive Apportionment.

Library money is now apportioned to the various school districts which have voted to establish libraries on the first day of August instead of in June. The library fund is made up of the penal fines paid into each county and is distributed according to the number of children on the census lists. Contrary to general opinion, it does not cost the school district anything to establish a library. After the vote is taken at an annual or special meeting, and the fact is reported to the Department of Public Instruction on the annual report, the district receives its share of the library fund. Library money can be used only for the purchase of books and the subscriptions to suitable magazines and newspapers. There is nothing to prevent a school board using general fund money for these purposes, whether or not the district has voted for a library. Educators today appreciate the fact that a good library is the most valuable equipment in a schoolroom.

LOCAL AND GENERAL

Newspaper Gathered by the Herald Reporter

A lurid reflection on the sky to the north Wednesday evening caused many people to believe that a big fire was raging in that direction. Inquiry, however, revealed the fact that the fire was not so bad as it appeared to be. The reflection was caused by a fire in the swamp a few miles north of East Tawas and reports stated that no serious damage would result.

Stewart Warren, deputy state game warden, whose home is at Standish, attempted to violate the game laws which he was supposed to uphold, and now finds himself in bad with the department. Warren was at South Branch last week and tried to ship some birds from there to his wife at Standish. The package was seized at Hale by Sheriff Johnson, who immediately notified the state game warden. Warren was at once suspended and the charge is being investigated. He will probably be tried for his violation of the law and made to pay the same penalty as any other law breaker.

A famous doctor says: "Eat a good bowl of mush and milk for your breakfast and you will not need any medicine." Indian corn contains a large amount of nitrogen, has qualities largely assimilated, and is fattening. It is cheap and has great nutritive properties as well. A course of Indian meal in the shape of mush, Johnny cake, hoe cake, corn bread, etc., followed by copious draughts of water, or, better still, cow's milk, to which, if inclined to dyspepsia, a little lime water may be added, will make life, now a burden, worth living, and you need no other treatment to correct your nervousness and brighten your vision and give you sweet and peaceful sleep.

If you have helped a neighbor or taught him how to smile; if you have learned to labor in brave and patient style; if you believe that singing is better far than wringing your hands and tear drops springing, your journey is worth while. If you are trying to sidestep sin and guile; and you are still denying your hands to custom vile; if you believe that toiling is better far than soiling your soul with futile broiling, your journey is worth while. If you are sure that growling is badly out of style; if you're aware that scowling is but a sign of bile; if you, since you were married, have always homeward carried a heart with grouch unharmed, your journey is worth while. If you are a cranky person, with edges like a file; if you are prone to cursing and using language vile; if you make folks unhappy because your temper's snappy, and you are cross and scrappy, your journey's not worth while.—Selected.

TOUCH SYSTEM IS SUCCESS

Private Known as "Lucky Bill" Tells Comrade How to Secure a Pension From the Government.

Private William McDermott, better known to his comrades at "Lucky Bill," was being examined by the regular army surgeon in order to have his claim for a pension verified. In his right hand he carried a heavy stick which he used as a support. Each step was accompanied with a conspicuous limp, while his face was contorted almost beyond recognition, as with pain.

"What's the matter with your leg?" asked the surgeon.

"Shot, just below the knee," returned "Lucky Bill."

The surgeon examined the injured limb, winked at his assistant, and turned again to the applicant.

"Why, man, there's nothing wrong with your leg," he said. "Your wound is almost entirely healed, and while it may cause you to limp a little it will never hinder you from making a living."

"Oh, yes, it will," argued Bill. "But how?" asked the surgeon.

Bill hesitated a moment. Then his face brightened. "I'm a song-and-dance artist," he said; "maybe you can tell how I'm going to dance with a stiff leg?"

Bill got his pension.

When he returned to camp a friend asked him how he made out.

"First rate," answered Bill; "why don't you go over?"

"I would if I had been injured," answered his friend.

"You lost the tip of your index finger, didn't you?" said Bill. "Just tell them you are a typewriter and use the touch system."

Saved His Foot.

H. D. Ely, of Bantam, O., suffered from a horrible ulcer on his foot for four years. Doctor advised amputation, but he refused, and reluctantly tried Bucklen's Arnica Salve as a last resort. He then wrote: "I used your salve and my foot was soon completely cured." Best remedy for burns, cuts, bruises and eczema. Get a box today. Only 25c. Recommended by J. M. Waggazzer & Co. and Jas. E. HOUSEKEEPERS Must be Watchful

For great efforts are being made in this vicinity to sell baking powders of inferior class, made from alum acids and lime phosphates, both undesirable to those who require high-grade cream of tartar baking powder to make clean and healthful food.

The official Government tests have shown Royal Baking Powder to be a pure, healthful, grape cream of tartar baking powder, of highest strength, and care should be taken to prevent the substitution of any other brand in its place.

Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any other baking powder in the world.
