The city authorities have been at work this week constructing a cinder path along the west side of Bay street, and Mayor Ferguson informs us that when it is finished the ordinance relative to bicycle riding on the sidewalk will be strictly enforced.

The Herald was misinformed last week when it stated that Mrs. Joshua Roberts had returned from Detroit. She is still in that city and writes that she will not return until some time next week. Mr. and Mrs. McGill have been residents of the Tawas for many years and have many friends here who will regret to see them leave.

The Herald is in receipt of a copy of a communication from the United States Forestry department, forwarded to us by W. B. Piper, forest supervisor at East Tawas, relative to the removal of the poles of the AuSable Electric Co. from land belonging to the United States.

In this communication it is stated that the electric company were not compelled to move their poles, but that they were advised as to the steps to be taken by which they could occupy the lands under lease. The letter states that no order was issued for the removal of the poles, the matter being left to the option of the company, who evidently preferred to move the poles rather than comply with the terms under which a lease could be issued them.

### Dan Bucholz.

The body of Daniel Bucholz, whose death was recorded in the Herald last week, was brought home last Saturday by his father and the funeral was held from the Emmanuel Lutheran church Monday afternoon, Rev. C. C. Henning officiating. Interment was made in the Lutheran cemetery on the Plank road.

Dan Bucholz was born in Tawas City, Nov. 25, 1893, and was therefore 20 years, 4 months and 15 days of age at the time of his death. He had lived in Tawas City all his life, except the past year, which he had spent in Louisville, Ky., working at the tinsmith trade.

His death, which occurred Thursday, April 9, at 4 o'clock p. m., was the result of injuries received when he was struck by a train the Saturday previous.

Besides the bereaved father and mother, Mr. and Mrs. Julius Bucholz, he is survived by six brothers and two sisters, all of whom were present at the funeral. Other relatives who were also present were Mrs. Killian and Alex. Killian and wife of Detroit and Mrs. Loyal Baldwin also of Detroit.

### Card of Thanks.

We wish to thank our relatives and many friends of Tawas City, Detroit and Alabaster who so kindly assisted us during our recent sad bereavement, and so thoughtfully endeavored to lessen the burden of our grief. Especially do we thank them for the beautiful flowers, in addition to their many deeds of kindness. Mere words of ours cannot express what our hearts are filled to overflowing with at this time.

MR. and MRS. JULIUS BUCHOLZ and Family.

### Communication to Whoever It May Concern.

Since Mrs. North and myself have been the chosen target for the gossiping people of East Tawas, I wish to say that we spend our time at home minding our own business and troubling no one. We are trying to do what good we can in the world, not evil, and if any one has any thing to say about us we wish that they would kindly come to us and we will be only too glad to help find just where the error is. You will find us at home any evening, as we always spend our evenings at home together. The only feeling we have for those who are trying to injure us is a feeling of regret that so many are always ready to believe the evil side of life, instead of being more just to each other. Actions always speak louder than words. Respectfully, adv MR. and MRS. BERT NORTH.

In the Oscoda Press, April 10, William McGillivray, editor, makes disparaging reference to the strength of Iosco county Progressives.

His article is taken good-naturedly as an effort in the direction of partisan politics. It's only approach toward the serious is a tendency to disregard refined English, always considered an asset to the acceptable family newspaper.

Evidently Mr. McGillivray did not so much intend to trespass upon the Progressives as to divert public attention from the Republican election returns in Iosco.

For instance, in Mr. McGillivray's own precinct of Oscoda the Republicans did not even place a ticket. This is true elsewhere including Alabaster, Plainfield and Sherman.

In the latter the Republican party has always gone to the polls, but this year no caucus was held. Instead a Progressive caucus was held casting one-half the total vote of the township and in the election the Progressives captured control of the township board and came within two votes of electing the supervisor as well.

Republicans failed to elect supervisors in Plainfield, Burleigh, Sherman, Tawas township and so on, and in East Tawas the Republicans were overwhelmed, a prominent Progressive being elected mayor, and a Progressive was made city attorney.

Indeed, some of the Republican editors find it difficult to report on that party's election returns and therefore side-step it by shying a pebble at the Progressives. Perhaps the most bold is the editor of the Bay City Tribune, Republican, who announced: "G. O. P. Sweep Local Elections," and in the lower headlines explained, "Republicans Win One and Lose One," and in the tabulated returns showed that the Bay City Republicans elected six alderman out of eighteen.

An amazing "sweep!" And so it is in Iosco county.

It should not be considered cause for uneasiness on the part of Mr. McGillivray that the Progressives will have a full county ticket this fall, or that they had precinct tickets in number five to one over any previous year. It merely demonstrates steady, healthy growth. True, it disproves the statement that the Progressives are "going back," but it should be remembered that the Progressive were not responsible for that untimely statement in the first place.

No affront is taken from Mr. McGillivray's article and none is intended in this. We merely change the focus and increase the voltage.

TAWAS CITY, MICH., APR. 17, 1914

It really looks as though severe measures were to be taken by the United States government to enforce the demands against Huerta. President Wilson has demanded that a salute be fired by the Mexican ships to the American flag as an apology for the arrest of a number of U. S. marines at Tampico last week. Huerta has shown no haste to comply with the demand and the entire Atlantic fleet has been ordered to Tampico. Perhaps the Mexicans will yet have a taste of American shot and shell.

Dame Rumor has it that Ex-Governor Chas. S. Osborn will return to Michigan in the near future and enter the lists for the nomination for governor. The republican party is looking for some candidate who will unite the warring factions of the party and Osborn has been suggested as the man who can most nearly accomplish this delicate task. Mayor Geo. Ellis of Grand Rapids has announced that he will be a candidate for the nomination for governor, but he is not looked upon with favor by many of the leaders.

The execution of the four gunmen in New York state the first of the week has started the old discussion as to whether capital punishment is justified, or whether, indeed, it is a punishment at all. Most people fail to see that it is any the less a murder to deprive a man of his life by official order and under the supervision of state authorities than if he is killed by his next door neighbor in a moment of passion.

Governor Ferris has not definitely announced that he will be a candidate for re-election, but he has intimated that if the desire of his friends is unanimous enough he will consent to enter the race. There is no doubt but that if he will accept the nomination he will be the candidate of his party without opposition.

All discussion of the Mexican situation, the canal tolls act and other matters of minor importance will have to take a back seat. The base ball season is now open.

## OUR SCRAP BASKET

### We Should Worry

Like a promise, and go broke.

### If—

You do not read the ads in every issue of this paper you pass up many an opportunity.

The "army of the unemployed" isn't watchful, the farmers are liable to take a flank movement just at this time of year and drive them into work.

### Home-Grown Daffydils.

Dear Daffy:

Sorry to hear your banker was crooked as a snake and skipped with the funds. Probably he was an adder. DIL.

### Wise and Otherwise.

Better keep 'em on until May first.

About the only way to do the new dances correctly is to do them differently from any one else.

The more exposed women wear their throats in winter, the heavier fur muffis they seem to want for their hands.

In spite of the demand for a "Paint us Week," most of the men are not anxious to have their wives observe it.

### The Week in History.

Monday 13th—Famine riots in London, 1795.

Tuesday, 14th—Lincoln assassinated, 1865.

Wednesday, 15th—Titanic sank, 1,476 lost, 1912.

Thursday, 16th—First India railway opened, 1853.

Friday, 17th—J. P. Morgan born, 1837.

Saturday, 18th—Paul Revere's ride, 1775.

Sunday, 19th—Battle of Lexington, 1775.

### Of Interest to Women.

There is a revival of cross-stitch in artistic needlework.

Some new sashes are made of brocade velvet, ribbon, moire or silk.

Pretty collars, guimpes and chemisettes are made of net, in white or cream.

When starching children's pinafores add a small piece of sugar to the boiled starch. This will make them iron more easily and leave beautiful gloss on them.

For an appetizing salad a couple of green peppers, mix them with three tablespoonfuls of chopped chives and serve on white lettuce leaves with French dressing.

The new spring hats have trimmings set on at every conceivable angle. The chief thing is that they should look as if the hat were a distant relation.

When shutting up a house for a long time, pack the silver in dry flour and keep the forks, knives and spoons together, arranging in layers with flour in between. The silver will remain perfectly bright and untarnished.

Very attractive rainy day hats are made of velvet and satin, reversible.

Beaded girdles in Oriental coloring are another fad of the present day.

### The Sex Problem.

The scoundrel who hornswoogled several thousand farmers into sending him 10 cents for a "Potato Bug Killer," forwarding in return a couple of shingles with directions to place the bug between them and press hard, had nothing on

the clever crook who advertised in the German newspapers a book entitled, "What Every Girl Should Know Before Marriage."

Seventy-five thousand girls took the bait and received a cook book. Someone has remarked that they were not as badly fooled as they would have been had they received a work exploiting the sex question that they probably expected for their money.

Following the first two or three powerfully written and appealing stories that shocked the world into a realization of what "white slavery" really is, there has come a flood of vapid stuff, weak, distorted, and much of it untrue. It will have its little day and be forgotten. Signs are not lacking that the reading public is beginning to tire of it already.

### Try It and See.

How many persons do you know?

A Chicago professor has declared that 600 is the largest number a man can know personally, carrying the names in his head. If you think the professor is wrong, just sit down at your desk or table and write down the names of all the persons you know and who know you, in—say five hours. Those who have the patience to try out their popularity with their own memories will find that the names will come to their minds thick and fast for the first hundred or so, but after that, if they think out one in a minute they will be "going some."

### Candidate for Sheriff.

I wish to announce to the electors of Iosco county that I will be a candidate for the nomination for the office of sheriff on the republican ticket at the August primaries. Your support will be duly appreciated. I was born and raised in Iosco county and have been a taxpayer here for the past 27 years.

adv-17 WALTER E. LAIDLAW.

### To The Voters of Iosco County.

I wish to announce that I am a candidate for the office of county treasurer on the republican ticket, and will appreciate your support at the primary election to be held August 25 1914.

Respectfully Yours,  
EDWARD L. KING.

### For Register of Deeds.

I wish to announce to the voters of Iosco county that I shall be a candidate for the nomination for the office of register of deeds on the progressive ticket at the August primaries, and respectfully ask for your support.

adv R. D. CULTER.

### For County Treasurer.

I wish to announce to the electors of Iosco county my candidacy for the nomination for county treasurer on the progressive ticket. Your support at the August primaries will be greatly appreciated.

Yours respectfully,  
CHESTER J. DOBSON.

### For Sheriff.

I desire to announce to the electors of Iosco county my candidacy for nomination as sheriff on the democratic ticket at the primary election, August, 1914, and respectfully ask for your support.

### Brevities.

You can not get a bushel of service out of a peck of ability.

Keep an eye on the job ahead, but keep the other eye and both hands on the job you have.

The man who insists on giving other people a piece of his mind is usually a man who has little mind to spare.

There would be a lot more fun and a lot more work in the world if people realized earlier in life that work is the best kind of fun.

The ability to believe is stronger in some than in others, but no man ever rose very high who did not believe in something with all his might.

The old injunction, "Pay as you go," is better read, "Pay before you go." Too many persons do not count the cost of dancing till the piper puts in his bill.—Youth's Companion.

### A Communication.

Hale, Mich., April 13, 1914.  
Editor of Tawas Herald,  
Tawas City Mich.:

Dear Sir:—The total amount of highway tax paid by townships, county and state reward for the year 1901 up to and including 1911, was \$37,784,216.14. No person who paid any part of this tax ever expected to receive a net dividend from the same. The use of the roads built with this money was all of the benefits that they expected, or cared to receive.

The supreme court of the United States has said that no matter by whom the railroads were built, whether by private individuals or corporations, they are public highways.

In the year 1910 the net income of the railroads operating in and through Michigan was \$99,673,009.06. This sum was left after paying all expenses of operating the roads, including taxes. Now if the profits of the railroads of 1910 is a fair average of their profits from 1910 to and including 1911, the people who patronize these roads have paid to the stockholders of the same \$99,673,009.06. If this profit had been paid into the highway funds there could have been built 249,182 miles of stone roads, costing \$4,000 per mile.

How long is it going to be before the people will wake up and see the necessity of government ownership of the railroads. Then the item of profit will be cut out of the operating of the railroads the same as it is out of the money invested in our public highways.

E. V. ESMOND.

Arrangements have just been made for the sale of 40,000,000 feet of timber on the Tongass national forest in Alaska. This forest is cut up by bays and inlets, some of which give an opportunity for taking the timber from the mill to the decks of ocean-going steamers. The Tongass forest is now self-supporting, its lumber product being used largely in local industries, much going into boxes for canned salmon.

# FIRE SALE!

I wish to announce to the public that as my store building was damaged by fire, and some of my stock from water and from being moved from the store, and as the general condition of the front street store buildings is such that it is prohibitive to carry adequate insurance, the rate being sixty dollars per thousand, I have therefore decided, after being in the mercantile business in East Tawas for the past 27 years, to sell out my entire stock of merchandise consisting of

## Dry Goods, Clothing, Shoes, Furnishing Goods, Hats, Caps, Etc.

and go into general banking at East Tawas, along with my lumber business at Tawas City. As soon as the stock is sold I expect to remodel my store building and use it exclusively for banking purposes. It is impossible at this time to state the general reduction in price on all the stock, but it will be cut down low enough to be an inducement to the public to take advantage of this sale, as I wish to close out all the goods as soon as possible.

Sale Will Commence on Monday, April 20, and will be for cash only

amination, May 14 and 15. Both teachers and pupils are examined in agriculture. Part of language work will be based on three minute talks by teachers and pupils.  
Next teachers' meeting will be held in the court house, Tawas City, Saturday, April 25, at 1 p. m. standard time. This meeting will review "Reading Circle Work" for the year. Credits for teachers' examination given at this meeting.  
Teachers already know that reading for April examination is based on "Silas Marner" (George Eliot.) Familiarize yourself with the principal events of George Eliot's life, her leading books, the elements that go to make her a great author, the setting, plot and leading character of the story, the reasons why we read and study the story, some of her distinguished contemporaries.  
**Districts May Purchase Only Books on Approved List.**  
The State Superintendent of Public Instruction, with the co-operation of the state librarian, is required by law to prepare lists of books suitable for township and district libraries. These lists will be ready for distribution in about a month, and copies

will be furnished to each township and school officer entrusted with the care and custody of their respective libraries. From these lists the school officers are to select and purchase books for their libraries. This law, however, does not apply to city school libraries. The law is without doubt one of the most important school laws passed by the last legislature. No school plant is ideal without a library of well-selected books. The selection of not only good books but books adapted to the age of the child is vital. The list as prepared is arranged according to subject and indexed by both title and author.

**Teachers' Examination.**  
The next regular teachers' examination will be held in the court house, Tawas City, Thursday, Friday and Saturday, April 30 and May 1 and 2.  
Reading for this examination will be based upon George Eliot's "Silas Marner." J. A. CAMPBELL, Commissioner.

**Eighth Grade Examination.**  
Pupils, eighth grade examination will be held May 14 and 15 at the following places: Alabaster, Hale Grant, town hall, Oscoda, Whittemore, and court house, Tawas City. In addition to the usual subjects, boys between 12 and 18 years of age, may take the state fair examination. The winner is entitled to have all expenses paid to state fair in September. Reading based on "Vision of Sir Launfal" (Lowell.)  
Respectfully,  
J. A. CAMPBELL, adv

The readers of this paper will be pleased to learn that there is at least one cure for that disease has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## Some of the Superior Points of ROYAL FENCE

Royal Fence is made of heavy wires which resist corrosion longer than small wires, and on account of the larger surface will admit of a better coat of galvanizing.

The upright or stay wires are locked to the horizontal wires by the famous "Royal Loop," without cutting the stay wires.

The wire used in Royal Fence is thoroughly galvanized by the most modern process.

Royal Fence will yield to contraction and expansion in hot and cold weather, and will stretch over uneven ground.

Royal Fence is made of hard, springy steel of a special grade selected for the purpose after years of experience in the use of fence under varying conditions.

The stay or upright wires are continuous from top to bottom, secured to the horizontal wires by the Royal loop, the whole forming a fabric of greatest strength and ample flexibility—the best of the continuous stay fences.

Royal Fence has big wire construction. In specifications No. 1 both top and bottom bars are No. 9, intermediate No. 11 and stays No. 11. Large wires are better than small ones; they are stronger more serviceable and longer lived.

Royal Fence is adapted for every farm use, as well as for ranch, parks, gardens and poultry yards. Every inch of it has the service quality.
