Tuesday was the 15th birthday of Miss Francis Wilson, and 14 of her girl friends gathered, at her home that evening to assist her in celebrating the event. Games and music formed the program and all present had a fine time.

Will Woyahn left Monday for Milwaukee, Wis. He will visit there and at Waukesha for a few days and then go to Coleman, Wis., where he has been called as pastor of the German Lutheran church. The best wishes of Will's many Tawas City friends go with him to his new field.

The Rose City baseball team cancelled their Tawas City game, played East Tawas last Sunday, and lost to the tune of 21 to 0. Schollar held them to four hits, while his team mates got 13 singles and 2 doubles, as well as getting hit and bases on balls. Thirteen runs in the first was a good start for our neighbors.

The plea of the packers that the high prices of meats are caused by a scarcity of cattle falls rather flat when it becomes known that they are paying less for live stock today than a short time ago. A responsible man who is in a position to know informs the Herald that the prices offered in the livestock market this week are from 40 to 60 cents per hundred less than they were two weeks ago. This proves that the advance in price is purely arbitrary on the part of the packers, and it is to be hoped that the investigations now going on will result in the prosecution and punishment of the ones responsible.

A. W. Black, fire insurance, adv. Miss Belle McRae visited friends at Mclvor over Sunday.

Benj. Frost, jr., of Hale, was in the city on business Monday.

The East Tawas baseball team has two games scheduled for Saturday and Sunday, Aug. 22 and 23, with the Harrisville team. The Saturday game will start at 2 p. m. and the Sunday game at 2:30 p. m., standard time.

Mr. and Mrs. H. N. Butler of East Tawas have been in Flint this week attending a reunion of the Butler family. The reunion was held in one of the beautiful parks of that city, and over 500 representatives of the family were expected to be present.

Dr. W. N. Yeager, the dentist, will be at his office, over Wuggazer's drug store, in this city, Tuesday, Wednesday and Thursday, Sept. 1st, 2nd and 3rd. All kinds of dental work done and all work guaranteed. Special attention to crown and bridge work. Painless extraction. adv.

A mission festival will be held at the Zion Lutheran church next Sunday. Revs. Rutkowski of Bay City, Wienlander of Alpena, and Hagen of Pinconning will be present, and will be the speakers of the day. Three services will be held, the evening service being in English, and beginning at 7:45.

Right now is the time when the Canada thistle and other noxious weeds are going to seed and sowing broadcast the germs which will produce a larger crop next year. The law specifically provides that these weeds shall be cut down and destroyed, but little attention seems to be paid to these provisions, either by owners of property or highway commissioners, if one is to judge by the luxurious crop which may be seen along the highways in many parts of the county.

Plenty of rain this week.

E. W. Thornton of Hale was a visitor in the city Wednesday.

R. D. Brown of Hale was in the city on business Wednesday.

Mr. and Mrs. John Trainor of Onaway have been guests of his parents, Mr. and Mrs. P. Trainor, this week.

Miss Rhoda Braddock returned Wednesday to Fort Wayne, Ind., after a two weeks visit at the home of her parents here.

Master E. D. Slawson, jr., returned Saturday to his home at Bay City after a week's visit at the home of Dr. A. B. Carson.

Married, by Rev. O. E. Moffet at his residence on Wednesday, August 19, George W. Brown and Miss Maud E. Noble, both of Alabaster.

John Jordan of Sherman was in the city on business Wednesday. John is taking a short vacation from his work with the tax commission.

Capt. Atlee Mark wants all his players at Shien park next Sunday at 2:00 p. m. There will be some kind of a game for practice at least.

Mrs. Wm. Fairbairn left Monday for Springfield, Ohio, after spending some weeks at the M's. Her guest, Miss Rebecca Chew, left the same day for Toledo.

Joseph Swinger of Cleveland, Ohio, was in the city on business a day or two this week. Mr. Swinger is one of the owners of the Cleveland ranch in Reno township.

Mrs. James McRae and children of Madison, Wis., arrived Wednesday for a couple of weeks visit at the home of her husband's parents, Mr. and Mrs. Alex. McRae.

Wm. F. Johnson, progressive candidate for state senator, was in the city Wednesday strengthening his political fences. Fred is a live wire and will make a good man for the position if elected.

While at Bay City last Sunday Atlee Mark started negotiations for a ball game between the fast Pastime Club of that city and the home boys to be played Sunday, August 30. Further particulars next week.

Mr. and Mrs. James Chambers of Pine River came Saturday evening for a visit at the home of T. D. Shepard on the Townline. Mr. Chambers returned Sunday evening, but his wife remained for a week's visit.

Mesdame Nemitz, Sonnaberg and Frey returned Monday to their homes in Detroit, after a week's visit at the home of Rev. H. Reithmeier. The two first named are mother and sister respectively of Mrs. Reithmeier.

While Peter Trainor's cows were being driven home from pasture Monday evening the most valuable one of the lot was accidentally struck by an automobile, injuring the animal so that it was necessary to kill it. This is a hard blow to Mr. Trainor, being the fourth cow he has lost this summer.

One of the severest electric storms of the season was experienced Monday evening. We have heard of no damage done in this county, but in Bay City the electric lighting system, controlled by the street railway power plant, was put out of commission, and the street cars were compelled to suspend operations for about an hour.

## PRICE OF MEAT GOING UP.

### Dairy and Food Dept. Issues Valuable Bulletin on Substitutes.

Mr. High-Priced-Meat after doing several amateur aerial stunts during the past year, has finally joined the professional ranks and made an out-of-sight ascension and gone to Europe. Now that the Balloon has gone out of sight, there is nothing for the spectator to do but look around and wonder what to do about it.

The public should at once get educated on what constitutes a cheap balanced ration for the human animal. Two kinds of foods are necessary for human life, the carbohydrates which furnish heat and energy and the proteins which repair the bodily waste. The first are obtained by starchy or fat foods, and are easily and cheaply obtained from potatoes and the cereals. Protein to repair bodily waste has generally been obtained through meat, but there are other sources of protein much cheaper. A working man needs three ounces of protein daily to repair the bodily wastes. Before the balloon went up this could be obtained in beef steak for 17 cents.

Some vegetable foods contain a large amount of protein. Three ounces of protein, in the form of beans, can be obtained for one-third what it costs in beef steak. The moral to the housewife is to feed the "old man" more beans and less beef steak. Peas and lentils are also rich in protein. A quart of milk has more food value than a pound of meat, and is more easily digested. Cheese has a much greater food value than meat—pound for pound. Canned salmon has a much greater food value than any meat, and costs less.

Meat is not necessary for human existence. This is maintained by as great an authority as Dr. Kellogg of Battle Creek, who has raised a family of 22 children, and ought to know from experience.

Potatoes and corn meal are the cheapest forms of starchy foods. Michigan produces more beans and potatoes than any state in the Union, and is third in the production of cheese and milk. The Michigan people ought not to be embarrassed because meat has taken a flyer. Moreover, beef is often tubercular. Pork has at times the trichina worm, and mutton is often "measly," and sometimes contains the germ of the tape worm, so we are missing a lot of things if we don't eat meat.

In anticipation of the war this department has had printed 20,000 copies of a bulletin on "Foods and Food Values," which can be had free on application. It shows the food value of all common foods. From it the housewife can figure out a balanced ration that will keep the human engine going without paying 40 cents a pound for beef steak.

If we all cut out a greater part of the meat we eat we will have better health, and at the same time put a hole in the high-priced meat balloon with the old gun, "lack of demand," that will make it come down within reach again. Education of food consumers on food values is the most available remedy at present for the high cost of living.

JAMES W. HELME,  
State Dairy and Food  
Commissioner.

### Forester's Examination.

Information has been received at the office of the forest supervisor at East Tawas that the civil service examination for assistant forest ranger this year will be held on October 19 and 20, and that the examination will be conducted at East Tawas, Mich. A supply of announcements and application blanks will be available at the office of the forest supervisor in a short time. The dates mentioned above have only been tentatively agreed upon at the present time, but no change in them will be made unless there should be very urgent reason for it. Men of good character and qualifications are urged to take the examination.

### Pope Pius X Is Dead.

Dispatches from Rome Wednesday announced the death of Pope Pius X, the supreme pontiff of the Catholic church. The pope was unceasing in his efforts to prevent the war which is now raging in Europe, and it is stated that he died of a broken heart because of his failure.

## What a Newspaper Does for a Town.

The value of a live, energetic newspaper to any town or city is absolutely impossible of estimation. There are so many ways that the good newspaper promotes the interest of the city or individual citizens where it is published that it would be like trying to number the sands of the sea to enumerate them. It is the true friend of the city or town and every resident thereof, and stands ready to fight the battles even of individual citizens in a way that no other agency has either the nerve or the courage to do. It stands as a great bulwark of defense for the city and for the people.

But this is only one feature. There's another that is seldom given much thought, and that is that the newspapers of any town or city are a paying investment for such place as industrial institutions. People welcome with open arms and loud acclaim any factory costing a few thousand dollars, and they think the town is wonderfully fortunate in securing a plant that will give employment to a number of people. Sometimes they even put up a bonus to secure such a plant. There are many newspapers which give employment to a number of people, and nothing is thought of it.

The money that comes to the paper is spent in the town or city where it is published. None of it goes away except for ink and paper, and some other supplies that cannot be bought at home. The newspaper is essentially a home institution. It works day and night to build up its home town and state, and spends its money freely with home people. It is published on strict business principles these days, and that is the reason for the growth and prosperity that has come to many papers during the past few years.

As a business enterprise a good newspaper is about the best industry that any town has, and its publishers ask nothing but a square deal.—Osceola County Herald.

### School Day at the Fair.

The Iosco County Fair officials announce that Thursday, Sept. 24, will be "school day" at the fair, and that the pupils of all schools of Iosco county will be admitted to the grounds free when accompanied by their teacher, or bearing certificates properly signed by teacher.

The special feature of school day will be the ball game between the base ball teams of the Tawas City and Oscoda high schools for possession of the handsome silver trophy cup now held by the Tawas City boys. This cup has been contributed by the Agricultural Society, and will become the property of the school winning it three times, and is held by the school winning each year's game until the next fair. Tawas City won it last year, but the Oscoda boys propose to make a hard try to get it this year.

Other athletic games in which the school boys are interested will be held on this day.

### Nation Facing Meat Famine.

Economic experts of the Federal Government are giving the high cost of living problem thoughtful consideration, and are investigating the high prices of meat. The department of agriculture has just completed a census of the meat-producing animals of the United States, and finds that there has been a decrease of 4,183,000 head and an increase of \$176,530,000 in value during the past year. On January 1, 1914, the herd numbered 144,507,000, compared with 148,690,000 head a year ago.

The bulk of the nation's decreased meat supply is the swine herd. Compared with last year the number of hogs in the United States has diminished 2,185,000 head; cattle, 175,000 head, and sheep, 1,763,000 head. The major portion of the increased values is credited to the beef animals. The value of all cattle, excluding milch cows, when compared with last year, shows an increase of \$166,688,000. Swine have gained \$9,842,000 in value, while sheep have depreciated \$1,476,000.

## Michigan Leads in Firewood Consumption.

Washington, D. C., August 19.—The farmers of Michigan spend more money for firewood than those of any other state. There are 2,539,000 cords of wood, valued at \$10,663,000, consumed on the farms of Michigan annually, according to a report which has just been issued by the United States department of agriculture. The total yearly firewood consumption in this state is 3,700,000 cords, with a value of \$16,567,000. The consumption in the cities of this state is 1,124,000 cords, and 37,600 cords are used in the mineral operations of Michigan each year.

In Continental United States the annual consumption of firewood amounts to 85,937,000 cords, valued at \$250,000,000. Of this amount 69,961,000 cords are used on the farms, 14,222,000 cords in the cities of the nation and 1,751,000 cords are used in the mines of the United States. The average value of wood consumed in the United States is \$2.91 per cord, and \$4.48 in this state. The average consumption per farm in the United States is 11 cords per annum.

## Diseases Play Havoc With Michigan Hogs.

Washington, D. C., August 19.—Diseases caused the swine breeders of Michigan to lose 81,400 hogs, valued at \$1,101,000, last year, according to a report which has just been issued by the department of agriculture.

This is an average death rate of 62 per 1,000 head. During the year 1912 the ratio was 40 per 1,000 head, and a total of 52,500 were lost. The latest census reports, which are dated January 1, 1914, show that there are 1,313,000 head of hogs in Michigan, and they are valued at \$16,150,000, or \$12.30 per head.

The farmers of the entire nation last year lost 7,004,800 head of hogs from disease. Their total value was \$75,000,000, and the death rate 119 per 1,000.

## The Michigan Farm Laborer.

Washington, D. C., August 19.—The farm laborers of Michigan work on an average of 9 hours and 34 minutes per day, according to a report which has just been issued by the United States department of agriculture. Michigan farms employ 117,000 laborers, and the average monthly compensation is \$24.90, with board, and \$35.00 if the laborer boards himself. These figures relate to the year 1913. The average wage for farm labor in Continental United States is \$13.85 per month, with board, and \$19.97 without board.

## Michigan Horses Worth \$139 Each.

Washington, D. C., August 19.—The Michigan horse is now worth \$139 per head, according to a report just issued by the United States department of agriculture, while a year ago his average value was \$137.

There are 653,000 horses on the farms of Michigan, and they are valued at \$90,767,000. Compared with other states Michigan ranks 14th in the number of horses.

In 1910 the number of horses in this state was 610,000, and had an aggregate value of \$76,860,000.

In the entire United States there are 20,962,000 horses, and they are worth \$2,291,638,000, or \$109.32 each.

## Value of Organization.

There is a growing tendency in small places for business men to get apart or separate into factions. This is one of the worst possible things that can happen. It has a bad effect, it gives a wrong impression to the public and gets nothing. We are all human in this world, and have all the weaknesses and failings of the human family, but there are none of us so bad but that the association and good fellowship will develop some mighty good traits of character. We really don't know how much we are going to love our neighbor until we begin to get acquainted with him more intimately. This is one of the advantages of the business men's club. It gets neighbors together, and the results is always beneficial to the whole town.—Vassar Pioneer.

## Farm Facts.

Those who till the soil are the chosen people of God.

Farming is as old as the human race, and is yet in its infancy.

Success is bound to come to the farmer who plans while he plows.

No civilization has ever advanced beyond its agricultural development.

No farmer is successful who thinks more of his barn than he does of his home.

The development of the farmer himself must precede the full development of the ground he tills.

The most beautiful fact in the farmer's work is that everything he plants is a lesson in faith.

The best farmer does not bother about getting ahead of his neighbor. His great business is to get ahead of himself.

We must give to the people who live on the farm the same educational advantages for their children as those of the cities enjoy.

The country clergy is an agency of much potentiality because the rural life movement is religious as well as industrial and social.

There should be a social and an industrial survey of every community. The pastor, the teacher and the school and church officials are they who should make such a survey.

In a recent survey of a community in New England the average annual income of 154 farmers who have a common school education was \$229, while the average net income of 122 farmers of the same locality with a high school education was \$482 annually. This education was worth to each farmer who possessed it \$253 each year.

## Why Not Tag Michigan Bachelors?

A great many state legislatures have given consideration to bills taxing bachelors, and many convincing arguments have been presented why men who escape matrimony should pay a penalty, but why not tag them as a more painless and effective method of extermination? If the bachelors were tagged the widows could easily find them and Cupid would do the rest.

The bachelor is naturally timid, but under the encouraging influences of a merry widow he can be easily led to the altar, for there is no more helpless craft afloat than a lovesick swain who has passed the age of discretion and the little imp that plays ping-pong with human hearts, has no more capable ally than a woman who loves at second sight, for experience makes Cupid subtle and bold.

The women have tag days to promote most every other public enterprise, and why not a tag day for bachelors? We have in this state approximately one hundred thousand bachelors and an equal number of widows. Why not get them together and solve two vexatious problems with one marriage license?

TAWAS CITY, MICH., AUG. 21, 1914

The malignant circular sent out by the enemies of Gilbert A. Currie to injure his candidacy in the primary campaign, and which was mentioned in the Herald last week, has been receiving the condemnation it deserved from papers in all parts of the district. Some of the papers lay the authorship of this scurrilous scheme at the door of a certain discredited "machine" politician who makes his home in Bay City and who has been repudiated by his party because of his dirty and vicious politics. This man is actively engaged in advancing the candidacy of one of the other candidates, but it is inconceivable that the candidate himself can have knowledge of the crooked measures being taken by his henchman. If he has such knowledge and willingly permits such measures to be used he is unworthy of the least consideration at the hands of the voters of the Tenth district, and should meet such an overwhelming defeat at the primaries next Tuesday that he would ever after realize that slanderous and defamatory attacks such as were used in the days of boss rule have no place in a political campaign today.

Prompt action is being taken by the U. S. department of justice to investigate the action of those men who control the food supply of the country and who have without reason advanced prices to a point where they have become a burden to the poorer classes throughout the nation. It has been intimated that enough evidence has already been collected to warrant criminal prosecution in some cases. It is a sad commentary on the commercial interests that they should choose such a flimsy pretext to increase the burdens of the poor in a year of such bountiful crops and when the prices of food-stuffs should be decreasing instead of going higher. But it is reassuring to find that the men at the head of the nation's affairs are on the watch to protect the people's interests and to curb the greed and avarice of the robber barons.

One result of the war in Europe, according to a bulletin issued by the department of the interior, will be to encourage the production in the United States of many of the chemicals used in the manufacturing industries, and in the developing of the mineral resources of the country. We have depended, heretofore, in a large degree upon European countries for many of the things which we might produce ourselves and now that necessity compels, the production of these articles at home will be stimulated. A temporary scarcity of some things will be noticeable and will cause a higher price for the time being, but in the end we will become independent of other sources of supply and prices will attain a stable basis.

Because Mayor George E. Ellis of Grand Rapids has in times past shown his friendliness to union labor and has antagonized the saloon element in that city, the non-union forces and liquor dealers have combined to work against him in his campaign for the nomination for governor. Under the title of the "Good Government League," they are sending broadcast over the state vicious and slanderous circulars attacking the reputation of Mr. Ellis. Their allegations, however, are not borne out by his reputation as mayor, and is just another

indication of the lengths to which certain elements will go to defeat a man who opposes their indefensible methods.

The comparison of the arts of peace with those of war was never more forcibly exemplified than by the opening of the Panama canal to the shipping of the world just at a time when the Old World nations are plunged in war. The cost of the canal has been but a mere fraction of what that of the war will be, yet the one will be of inestimable benefit to the world for all time, while the other will cause a destruction from which it will take several decades for the countries concerned to recover.

### Business Men in Politics.

There never was a time in the history of the country when it was more important that business men take an active interest in politics. It has come to a time when ward politicians, who knew no more about business than the man in the moon, assume to regulate the business interests of the country.

It is the business of every business man, every manufacturer and every farmer to get into politics and stay there until he has a square deal. There is no division between the manufacturer and his employees—they are paramount, and one cannot succeed without the other. If the manufacturer has nothing to do his workmen have nothing to do either.

All sorts of business is being attacked by cheap demagogues. Business men are uncertain and growing timid. While they are handicapped the paralysis will continue to grow. The good markets of the farmers depend very largely on the general business prosperity of the country. Business men must get away from their desks long enough to lend a hand in politics.—Detroit Courier.

### For Prosecuting Attorney.

To the Voters of Iosco County:— I hereby announce that I am a candidate on the progressive ticket for the nomination as prosecuting attorney, to be voted for at the primaries on August 25.

I respectfully solicit your support under the promise that if I should be successful at the election I shall give to the office the very best administration that 18 years in active practice as a lawyer in Michigan has given me in knowledge and experience. I am confident that I can save the county considerable money in that capacity.

I have recently learned from a reliable source that within the last ten days a report has been put in circulation throughout the county to the effect that the condition of my health was such as to prevent me even making the ordinary campaign. I desire to say that while it is true I have during the past month visited the university hospital at Ann Arbor for treatment, I assure you that I am at present enjoying the best of health, for which I am truly thankful, and daily traveling from place to place about the county in an endeavor to meet as many of the good people of the county as possible personally.

Sincerely yours,  
The Lawyer at Whittemore,  
adv-34 WILLIAM H. FLYNN.

### For County Clerk.

I am a candidate for the progressive nomination for county clerk and will appreciate your support at the primaries on Aug. 25.

CHARLES H. CONKLIN,  
adv-34 East Tawas.

### Louis L. Kelley,

Candidate for State Senator, 28th District, For Second Term.

I stand for an honest, economical administration of state affairs.

A careful study of every measure presented and a conscientious vote thereon. Strict attention to business.

An honest representation of the interests of the people.

I refer you to my record in the legislature, both in the house and in the senate. adv-34

### Infection and Insect Bites Dangerous.

Mosquitoes, flies and other insects, which breed quickly in garbage pails, ponds of stagnant water, barns, musty places, etc., are carriers of disease. Every time they bite you they inject poison into your system, from which some dread disease may result. Get a bottle of Sloan's Liniment. It is antiseptic, and a few drops will neutralize the infection caused by the insect bites or rusty nails. Sloan's Liniment disinfects cuts, bruises and sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c. At your druggist. adv

# HON. G. A. CURRIE DESERVES TO WIN

Remarkable Record of This Young Statesman Commands Respect and Recognition of Every Citizen of Tenth District.

## GRANT SLOCUM ENDORSES CURRIE

Millions are expended annually by the federal government for rivers and harbors. Why not assist townships and counties in building roads?

They are growing this year on the Currie farm a large acreage of beets. Why not trust the producer to secure proper legislation to encourage the industry?

Farmers! Send a man to Washington who will try to secure for you the co-operation of the federal government in establishing a system of agricultural credits.

"Of unimpeachable integrity, an honest representation of the common people, a parliamentarian of marked ability, free from subservience to any special interest, and already possessed of a legislative record that challenges the admiration and commendation of every thoughtful citizen, Gilbert A. Currie, of Midland, is just the man needed in Congress to represent the Tenth District," says the Marion Dispatch.

Could an endorsement be better than the foregoing? The thought therein expressed is the positive opinion of everyone who has followed the career of this young statesman.

Currie believes absolutely in the average every day citizen, and his sympathy is with this class because he is of it. Born on a farm in Midland township, in 1882, Currie at the age of twenty-three was chosen to represent the farmers, among whom he was born. On the board of supervisors, he fought every corrupt practice that had crept into the affairs of his home county and fearlessly opposed all kinds of machine tactics, corruption and graft. After three years as supervisor, Mr. Currie was elected to the Legislature. Three times he has been returned to the legislature by the people of his home county and he is the present speaker of the House of Representatives.

Mr. Currie was identified with the passage of every genuine Progressive measure brought before the House. He aided the passage of a bill taxing telegraph, telephone and express companies upon the same basis as other properties, and the state last year collected over \$300,000.00 extra from these sources. Introduced and secured the passage of better Railroad Commission Bill, better protecting the interests of shippers and producers. Introduced and secured passage of bill decreasing express rates. Introduced and secured passage of the bill providing for payment by banks of interest on county funds, which resulted in the payment of hundreds of dollars into the treasury of every county in the state.

The worst element in politics in his home county has always fought Currie and now the machine politicians of the Tenth District are opposing him. Why? Because the political ringsters will have no influence with Currie at Washington, and they know it. Currie will go to the National Capital as he did to the State Capital, as your representative.

Hon. Grant Slocum Endorses Currie. "From my own personal experience in connection with legislation in this state, I believe that Mr. Currie has done as much, or more, than any other man toward the enactment of the beneficial laws which have been passed during his service in the Legislature, and I believe the interests of all the people of the Tenth District will be best served by his election."

Michigan Patron. Concerning Mr. Currie, the Michigan Patron says: "He represents no interest but those of the people. He has fought the worst kind of machine politics for years. His private life, and public record are without a flaw."

Lansing State Journal Endorsement. "Any statesman with the qualities which Michigan knows Mr. Currie possesses is needed in the service of the state at Washington. It falls to the lot of the Tenth District to take advantage of an opportunity to send this kind of a man to Congress."

"For the sake of the state at large, which is judged at Washington by the calibre of the men who represent it, it is to be hoped that the Tenth District nominates and elects Gilbert A. Currie."

Herald Times, West Branch for Currie. "The Herald-Times favors the nomination of Gilbert A. Currie for Congress. It takes this position because, among all the candidates, Mr. Currie stands out distinctly as the representative of the average every day citizen."

"He is not backed by the politicians, nor money, but is depending upon men of his type to interest themselves in his candidacy. He has no paid agents out talking for him, and the old time politicians looking for money will be found against him. Every man in this county who has watched this young man fight his way up from a farmer boy to his present position as Speaker of the House, opposed by a group of political ringsters with money, admire him for his courage and ability."

Grand Rapids News. "The people of Michigan owe Gilbert A. Currie, of Midland, speaker of the house of representatives, a vote of thanks for the able manner in which he presided over the legislative assembly. The speaker deserves a great share of the credit for making the last session the most profitable one to the state that has been held in a quarter of a century."

## Open Letter to the People of Iosco County.

As the campaign for nominations in the various political parties is about to close on primary election day, August 25th, it seems proper at this time that I address this letter to the voters of Iosco county.

I am a candidate for nomination for the office of prosecuting attorney by the republican party, and respectfully ask that those desiring to vote for me be sure and place a cross in front of my name, which will appear upon the ballot.

On account of attending to the duties of my office it has been absolutely impossible for me to see each and every voter in the county. Business of much importance has necessitated my remaining in or near the office almost the entire time.

On the other hand it has seemed to me that my acquaintanceship throughout the county and an actual knowledge on the part of the voters of my methods, work and past record, has made it unnecessary that a house to house canvass be made. It has always been my opinion that it is not what a candidate says about himself just preceding an election that entitles him to the support of the voters, rather it is an inquiry as to who the man is, what he has been, what ability he has shown, and—is he honest.

More than ten years ago I moved into Iosco county, and have been engaged in the actual practice of law since that time. Fortunately or unfortunately it was necessary that I work and earn my own education, unaided by wealthy parents, but assisted and helped by a few warm personal friends, and, having decided to make Iosco county my home, settled here permanently. To equip myself with the knowledge necessary for my business it has been necessary for me to work hard and study hard, even after my admission to the bar, to properly

ALBERT W. BLACK

compete with those who had more advantages to start with than I. It is satisfying to me at this time to know that even my most bitter enemies do not attack my ability or efficiency in the office that I am now holding.

My record as a citizen in this county and as prosecuting attorney is and has been open for inspection. That I have been honored by the people of this county in no small degree has been highly gratifying to me, and even now whether I hold public office again or not, I extend my thanks to all the public for their loyal support to me in the past. Under our free American institutions any one legally qualified may seek public office and rightly so, and it is entirely proper that the people express their free choice as to who shall be their county officers. At the solicitation of many friends I entered the present campaign for re-nomination. I have conducted a clean and proper campaign. No instance can be found where I have made any attack on any other candidate seeking this office, and I shall not deviate from that rule in this campaign, or any other.

My opponent, Mr. Snyder of Tawas City, has seen fit to conduct his campaign along opposite lines and, as I am informed, has circulated statements regarding me that are slanderous and untrue, and has offered to the people of Iosco county his attack on me as a reason why he should be nominated, even going so far as to circulate typewritten sheets of statements regarding me that are unfounded and untrue, as I have been informed, in many places. If these statements were true it seems to me they should have been published in the newspapers of this county at a proper time and in a proper way, so that I could have made an answer to them in like manner.

In many cases my friends have not been allowed to see these papers and they have been circulated in an underhand manner among the voters, but it seems to me that the people of this county know me as a man and as a public officer from past acquaintanceship, and that it will be impossible for any person to fool them or mislead them by methods of this kind in the present campaign. Therefore, I believe that the free and wise choice of the voters will not be subverted or turned aside by statements that can be easily disproved by any inquiring person. Also, I believe in the justice and fairness of the people to decide correctly between that which is

right and wrong. I am not unmindful at this time that the present campaign is only one of the incidents in my life here and my earnest wish is that in the end, after my work is finished and completed, there will be those who will say that I have tried and tried hard to follow the prayer of Blackstone in my social and business relations with all the people: "Untainted by the guilty bribe, Uncurs'd amidst the harpy tribe; No widow's cry to wound my ear, My honor and my conscience clear; Thus may I calmly meet my end, Thus to the grave in peace descend."

I desire at this time to acknowledge the many complimentary and pleasing things that have been said about me during the present campaign by friends and acquaintances who are interested in my re-election.

Yours respectfully,  
adv ALBERT W. BLACK.

## FREDERICK C. MARTINDALE

Candidate for Nomination for Governor on the Republican Ticket

To the Voters of Michigan

Fellow Citizens: I am glad to address in this direct way a greeting to the voters of Michigan and say a word regarding my candidacy for the Republican nomination for governor.

You have at different times honored me with your confidence and entrusted me with important political duties. It has always been my highest endeavor to faithfully discharge every trust.

I feel that you will look upon my past record of service as a better guarantee of my future actions than any promises that I might make. The best guarantee any man can give that he will do well the larger things entrusted to his care is that he has done well the smaller things.

I am willing at all times and upon all questions to trust to the judgement of the people. If my official conduct in the past has met with your approval, then I ask for your vote for the Republican nomination for Governor.

I urge every voter to attend the primary on August 25th and any support that you may give me at that time, I assure you I will appreciate.

Sincerely yours,  
FREDERICK C. MARTINDALE.

REPUBLICANS HAVE THE OPPORTUNITY OF CASTING A BALLOT FOR THE NOMINATION OF

CONGRESSMAN GEORGE A. LOUD  
Who Has Faithfully and Well Represented This District.

Congressman Loud has not confined all his efforts to the interests of one or two counties, but has been the energetic and faithful representative of all the counties of his district.

The requests and communications of all of his constituents have received prompt attention.

He has secured more appropriations for public works in his district than any and all other congressmen who have represented it.

The needs of the old soldiers in every county in the district have received his most careful attention.

He is in favor of national aid for all rural route highways, which means a great benefit to all townships in his district, and supported such a bill.

Congressman Loud's platform includes:

- A protective tariff, which measures the cost of production at home and abroad.
- The regulation of big business to prevent monopoly.

Legislation to prevent the centralization of wealth in a few hands.

A tax to be applied at death of the holder on large estates.

Federal supervision of railroad, express, sleeping car, telephone and telegraph companies.

Conservation of natural resources.

Against any legislation likely to disturb the beet sugar industry.

He always favored primary elections.

## RECORD TO BE PROUD OF

Col. George A. Loud went to Gladwin yesterday. He has long been very popular in Gladwin, as he is in other counties in the district he so long and ably represented in congress.

His services in congress were of such a character that it would be eminently to the advantage of the Tenth district to send him to represent it in congress for the ensuing two years.

There will be important measures before the next congress in which the people of the district will be vitally concerned, and the value of an experienced congressional legislator cannot be over-estimated.

Col. Loud stands squarely for a protective tariff. He believes in promoting and encouraging home industry. The tariff is bound to be a paramount issue in congress the next two years.

The enviable congressional record of Col. Loud during his ten years' service gained for him the confidence of his fellow citizens, as well as the respect of his colleagues in the house, and he was regarded as a strong and useful member, just such as will be essential in the next congress.

The people in the main appreciate the fact that experience and length of service is a most important and leading factor in the influence and standing of a successful member of congress.

Col. Loud has always been loyal and faithful to his district, his state, his country and his flag.

He has been active in promoting every legitimate cause in which his people are concerned. He has been a friend of the soldiers of the Civil and Spanish-American wars. He is thoroughly familiar with the various departments in Washington, knows how to get things, has been popular in congress, and with due deference to his competitors, he is in every way the most experienced, the best equipped man that could be sent to the lower branch of congress to represent all of the people of his district in the next congress.

This is the verdict of men who recognize the enormous duties devolving upon a successful congressman.—Bay City Tribune, Aug. 6.

some chance to get to the head of the mathematic class.

## Kitchen Kinks.

If a tablespoonful of vinegar is put in the saucepan just before straining the potatoes it will take all the blackness out and make them white and fluffy.

Directly after tea is spilled on a tablecloth cover the stain with common salt. Leave for a while, and when the cloth is washed all stains will have disappeared.

To improve the flavor of currants and sultanas which are to be used for cakes, place them in a bowl, pour boiling water over them, and leave to soak all night. The fruit swells to twice its former size, but should be dried in the oven before being added to the other ingredients.

## Of Interest to Women.

To clean window glass use warm water and borax—no soap. Wipe dry and polish with newspaper.

Cut bread in one-half inch slices, trim and shape as desired, and spread with any soft cheese. Place two slices together, toast on both sides and serve.

Sal-ammoniac will clean a furred kettle. Fill the kettle with cold water, add a little sal-ammoniac to it and boil. All the fur will dissolve. Well rinse the kettle afterward.

Blocks of camphor in corners of damp rooms will effectually banish damp in a very short time, even when fires have proved ineffectual. They should be simply laid on paper, or on the bare shelves of a damp room or linen closet. The blocks gradually decrease in size, and when they finally disappear should be replaced until their purpose is served.

## Constipation Causes Sickness.

Don't permit yourself to become constipated, as your system immediately begins to absorb poison from the backed-up waste matter. Use Dr. King's New Life Pills and keep well. There is no better safeguard against illness. Just take one dose tonight. Only 25c. At your druggist.

## Mortgage Sale.

Default having been made in the conditions of a certain mortgage, dated April 30th, 1913, executed by Walter Edwards and Harriet Edwards, his wife, to William G. Richards, and recorded in the office of the Register of Deeds for Iosco county in Liber 19 of mortgages, page 223, on the 8th day of December, A. D. 1913, and no suit or proceeding having been instituted at law or in chancery to recover the debt secured by said mortgage, or any part thereof, and there being claimed to be due thereon at the date hereof the sum of two hundred sixteen dollars, and twenty-five dollars attorney fee.

Notice is hereby given that at 10 o'clock a. m. of the 28th day of September, A. D. 1914, at the front door of the court house, in the city of Tawas City, that being the place of holding the Circuit Court for the county of Iosco, the said mortgage will be foreclosed by a sale of the premises at public auction to the highest bidder. The said premises are described as the north half of the northwest quarter and the northwest quarter of the northeast quarter of section 24, town 21 north, of range 5 east, township of Burleigh, Iosco county, Michigan.

## Registration Notice.

Notice is hereby given to the qualified electors of the city of Tawas City, state of Michigan, that at the place of holding the general primary election in the several wards or election districts of said city, on Tuesday, Aug. 25, 1914, the board of primary election inspectors, in accordance with the provisions of Act No. 251, public Acts of 1906, as amended, will register the name of any person who shall on that day appear and make oath or affirmation to the effect that he is a qualified elector in such ward or election district, or when they personally know him to be such. Any person registered on any primary election, as above prescribed, shall be entitled to vote at the succeeding election without other registration.

Any qualified elector may be registered and be eligible to vote at any primary election if he shall appear in person before the city clerk and take oath required as to qualifications for registration, and request that his name be registered. Blank forms for this form of registration can be obtained at the city clerk's office.

JOHN B. KING,  
Clerk of Said City,  
Dated July 31, A. D. 1914. 34

## Primary Election.

Notice is hereby given that a general primary election will be held for the several wards of the city of Tawas City, state of Michigan, on Tuesday, Aug. 25, 1914, at the following place in said city, viz., City Hall, (the above being the place for holding the elections for the several wards of said city), for the purpose of nominating by direct vote candidates by each of the several political parties for the following offices, viz.:

State—One candidate for representative in congress for the congressional district of which said city forms a part.

State—One candidate for governor and one candidate for lieutenant-governor.

Legislative—One candidate for senator in the state legislature for the senatorial district of which said voting precinct forms a part; one candidate for representative in the state legislature for the representative district of which said voting precinct forms a part.

County—One candidate for each of the following county offices, viz., sheriff, clerk, treasurer, register of deeds, prosecuting attorney, surveyor, drain commissioner and two candidates for coroner.

Members State Central Committee—There may also be elected two members of the state central committee of each political party, for the congressional district of which this voting precinct forms a part.

Delegates to County Convention—There shall also be elected as many delegates to the county conventions of the several political parties as shall equal the number of electors in the ward or election district of which this voting precinct forms a part. The delegates to the county convention shall be elected by the voters at said election under the heading, Delegates to County Conventions. The board of primary election inspectors will furnish delegates with credentials, entitling them to seats in the county convention, except that where there is more than one precinct in a ward or district and the county committee require the election of delegates from the ward or district as a whole, such delegates should be admitted without credentials. Names of candidates for delegates to county conventions will not appear on the official primary ballots, but will be written or pasted in by the voter, in the place designated on said ballots.

The polls of said election will open at 7 o'clock in the forenoon, and will remain open until 5 o'clock, standard time, in the afternoon of said day of election.

### Facts Worth Knowing.

FORMULA FOR TELLING A GIRL'S AGE.  
Girls of marriageable age do not like to tell how old they are, but you can find out by following the subjoined instructions—the young lady doing the figuring. Tell her to put down the number of the month in which she was born, then to multiply it by 50, then to add her age, then to subtract 365, then to add 115; then tell her to tell you the amount she has left. The two figures to the right will tell you her age, and the remainder the month of her birth. For example, the amount is 822. She is 22 years old and was born in the eighth month (August.) Try it.

### Wise and Otherwise.

It certainly is hard work to be a senator and have to go up to the capitol every day and sleep in those stuffy chairs. Nothing makes a boy enjoy a good deep swimming hole better than the consciousness that mother is worrying about him at home.  
That German aviator that went up 24,606 feet, probably looked down to earth and wondered why these motorists will take such chances.  
There seems to be a good many people who believe that all railroad directors should be put into jail until they can prove themselves innocent.

**OBITUARY—DAVID W. LOVE.**

Died August 10th, 1914, aged 81 years, 1 month and 13 days, at his farm in Plainfield township, near Hale, Mich.

He was born in Leon township, Cattaraugus county, New York state, June 28, 1833. He came to Tyrone, Livingston county, Mich., in 1839, when a small boy.

He was married to Miss Emmaliza Westervelt of Tyrone, Mich., Jan. 1, 1854, moving to Isoco county, in October, 1871. He settled on the present farm in 1883, and leaves a wife, two sons, near relations and friends to mourn his loss.

The funeral service was held from

the Baptist church in Hale, Mich., Rev. Fox officiating, and the deceased was laid to rest August 12, 1914, in Plainfield cemetery.

## TO ALL ENGAGED IN DAIRY BUSINESS

Making butter on the farm is rapidly becoming a thing of the past. Any housewife knows what it means of drudgery to make good butter, and what difficulties she encounters in her attempt to find a satisfactory market for her product. Her outlet is limited. The creamery has every large city on the continent within its reach. The creamery is plugging every day for the interests of the dairy farmer as well as for its own.

We are now in the midst of our third season and business is humming. Prices are good and the outlook fine. We are making nearly four times as much butter as we did in 1912. That also means that we are able to handle your cream to the very best advantage for you. Come and see us or ship us a can. We know we can please you.

We are selling the "Diabolo," a separator of the Highest Merit, at prices that you would pay for mail-order and other inferior machines.
