A. Kimball and his young son, of Standish, aged about 14 years, were accidentally shot last Tuesday by a hunter at Deep River, 2½ miles north of Standish. Mr. Kimball received several bird shot in his neck and side. The boy is seriously hurt.

These are "bon" fire days. Lawns and yards are being raked of the fallen leaves, and these are gathered up and burned along with other refuse. Every fall a large number of fires are reported to the State Fire Marshall as having been caused by "bon" fires. Care should be used not to light fires near any building, or when the wind is blowing. Don't let children or incompetent persons attend to the fires, and don't leave them until you are sure they are all burned out.

Tawas City residents enjoyed a beautiful Sunday this week, the sun shining on "both sides of the street." It was very comfortable without an overcoat. But—think, ye natives! of the glorious weather they were having on the same sabbath day in old Detroit, Mich., where the thermometer registered 66° above. It was the warmest Sunday for October in that section in a number of years.

The examination for assistant forest ranger in the forest service, U. S. Department of Agriculture, was held in East Tawas, Oct. 19 and 20 last. The following men took this examination: Ed. H. Stickney, of Tawas City; Earl F. Blank, of Sault Ste. Marie; Gerald Hunter, of Newberry; Ernest Hanes, of Lansing; Cornelius Closson, of Edmore; H. L. Anderson, of Stanwood; N. W. McDonald, of Engadine; John Martindale and J. R. Apsey, of East Tawas. The examination was in charge of Supervisor W. B. Piper.

## SAD AND FATAL ACCIDENT

### Joseph Bouchard Killed by the Accidental Discharge of a Gun in His Brother's Hands.

Joseph, the 18-year-old son of Mr. and Mrs. Napoleon Bouchard, of Tawas township, died at 5 o'clock last Tuesday evening from a gun shot wound received a couple of hours previous.

The particulars, as gleaned by the Herald, are as follows: Joseph, with his brother, Leonard, were husking corn, and, seeing a number of partridges during the forenoon, they took their gun to the field with them in the afternoon. About 3 o'clock they saw a squirrel on the fence, and decided to attempt to capture it. Leonard took the gun, and was running a short distance behind his brother, when he fell over some corn stalks, and the gun was discharged, the charge of bird shot hitting Joseph in the back, and tearing a hole through his lungs.

The wounded boy was taken to the house by his brother and grandfather, Joseph Brabant. Word was at once phoned to his father, who was in the city, and who, with Dr. Stealy, of East Tawas, hurried home, where they arrived while the young man was yet alive, but nothing could be done to save his life. He retained consciousness until the last, and conversed with those about him.

Besides the father and mother, six brothers and one sister, and a large circle of relatives and friends, are left to mourn his untimely death. The entire community extend to the sorrowing family their sincere sympathy.

The funeral was held from St. Joseph's Catholic church, East Tawas, Wednesday morning, Rev. F. Albin officiating, and was attended by a large concourse of sorrowing friends.

## Obituary.

George A. Redhead was born at Lapeer, Mich., June 22, 1855, and passed from this life at the home of his daughter, Mrs. L. D. Jacobs, in Detroit, October 14, 1914.

Mr. Redhead has followed the occupation of filer in saw mills since early boyhood. The family came to this city eighteen years ago, and have since made this city their home, although of recent years the deceased was away much of the time. He came from Raber, in the Upper Peninsula, last June, suffering from a severe attack of stomach trouble, from which he never recovered.

The deceased was held in high esteem by a large circle of friends, being a man of sterling qualities, who was universally respected.

There are left to mourn his death four daughters—Mrs. L. D. Jacobs, of Detroit; Mrs. W. H. Hartley, of Bay City; Mrs. F. M. Saunders, of Hawks, and Miss Edith, at home, and two sons—Audley, of Detroit, and Roy, who is serving in the U. S. regular army, and now stationed at Vera Cruz, Mexico. One brother, John B. Redhead, of Crawford county, also survives.

The remains were brought to this city, and the funeral was held from the home Friday afternoon at 2 o'clock, Rev. Frazee, of East Tawas, officiating. He was laid at rest in the city cemetery, beside his wife, who died in November, 1907.

## Base Ball Next Sunday.

BIG LEAGUERS VS. TAWAS CITY CLUB.  
At Tawas Beach ball park next Sunday the Tawas City ball club will take on Miles Mains, of the Detroit Tigers, Pitcher Cadore, of the Brooklyn Nationals, and Shortstop Roach, of the Buffalo International League team, supported by local players of both Tawasess. The proceeds will go toward putting our ball field in shape for next year.  
This is the best chance you've had to compare the relative merits of big leaguers with our own "bush-leaguers." Come and see them in action.

## Auction Advertising.

The season for auction sales is again at hand. If you are planning on sale and want the best results for your money, get some of those neat-color auction posters at the Herald office, and also have the sale advertised in the paper. We have different designs in the posters and are sure we can please you.

## Inducement for Fruit Raising.

Many fruit growers have felt some discouragement this fall, says the Saginaw Courier-Herald, owing to the cutting off of markets by the war. Apple culture, in particular, is receiving a hard blow for this year. In wartime, Europe is buying little food but grain. The decline in value of exported fruits affects systematically the markets for all fruits. This temporary condition is not the slightest reason for discouragement.

It is a matter of everyday observation that the consumption of fruit is increasing enormously. Formerly fruit was a luxury, now it is a necessity. People do not eat very much more grain than they used to. Fruit is one of the principal substitutes.

The old-fashioned family had meat for breakfast—steak, sausage, hash, warmed-over roasts. Now they cost too much. The same families today are eating fruit, cereal, hot muffins and eggs. Doctors all talk fruit eating. It is the food of the future.

Our farmers will do well to plant more fruit. The demand for fruit gains from three directions, from increase of population at home, better knowledge abroad of our fruits, and the change in the diet of our people.

There is one old-fashioned fallacy that must be avoided. The old-time farmer used to think he could plant fruit trees and they would care for themselves. On the contrary, they need culture just like any crop. The farmer who cares for apple trees scientifically gets \$3 to \$5 a barrel for the fruit, where his father got \$1.50. Similar gains are made in all other kinds of fruit culture.

## Card of Thanks.

We wish to extend our heartfelt thanks to the choir and to our friends for their sympathy, assistance and floral offerings during the illness and death of our father, George E. Redhead.

## Grand Election Night Ball.

A grand ball will be given in the Star theater, November 3 (election night). Music will be furnished by full orchestra. A chicken pie supper will be served the same evening at the Bay Side Hotel. Tickets, including supper, \$1.50. All come and enjoy a merry evening. Lee Force and Charles Quick, floor managers. adv-43

## Notice.

I have just purchased the stock at the corner millinery store, opposite the Wilson elevator, and will place everything on sale at once, to close out the stock. There are some fine bargains in feathers, flowers and ribbons. Also an up-to-date line of HATS—the BEST line in the two cities. Everything must be closed out this season. There will be \$5, 10, 15 and 25 cent lots of trimming. Also all children's hats are to be closed out at a sacrifice. Come in and look the stock over, and get some of these GOOD bargains. There will be no more after these are gone. We have children's felts at 25 cents, and other goods are marked accordingly.  
adv-43 MRS. J. A. McCLURE.

## Notice.

I have returned to Tawas City and have resumed my practice in my office in Huston block. Consultation free.

McDonald, of Midland, and Rev. J. Keiss, of Grayling.

### DEATH OF MAURICE ELSTER.

Maurice Elster, a former resident of East Tawas, died at Harper's hospital, Detroit, Tuesday morning at 9:00 o'clock. Mr. Elster had been suffering with cancer of the stomach for the past six months and was operated upon twice within the last few weeks, the last operation taking place a week ago. Relatives here received word that he was improving and the telegram announcing his death came as a shock to friends and relatives.

The deceased was brought to the home of Mrs. Wyatt Misener, early Thursday morning, and the funeral will be held this (Friday) afternoon at 2 o'clock, Rev. Reithmier officiating. Interment was at Tawas City cemetery. He was 58 years of age, and lived in East Tawas for thirty years, and moved with his family to Detroit three years ago, where they have resided since. He leaves a widow and two sons, Alvin and Paul, in Detroit, and two daughters, Mrs. Fred Byer, of Detroit, and Mrs. Wyatt Misener, of this city. The deceased was well known and respected by all the residents of the Tawasess, and his sorrowing relatives have our most heartfelt sympathy.

### SOMETHING MORE ABOUT W. A. FRENCH.

Welcomed to his new field of endeavor by a large and appreciative audience of Boise City music lovers, Ward French, the new supervisor of music at the high school, assisted by his wife, Mrs. Virginia French, gave an excellent song recital at the Congregational church last night. The Sunday school room of the church was opened to accommodate the crowd which overflowed the church auditorium proper.

Mr. French has a baritone voice, rich in quality, and of great range. He is at his best in his higher tones, which are true, full of volume, and sung with a wealth of expression. Of the heavier numbers the two which were sung to best advantage were Haydn's "She Never Told Her Love," and "Pilgrim's Song," by Tschaiakowsky. In the lighter numbers of the program those two which pleased the audience most, both of which were sung with a wealth of sympathetic expression, were Greig's "To a Water Lily," and "A Fairy Love," by Willoughby.

Mrs. Virginia French, as an accompanist, aided exceedingly well in the rounding out of all the numbers of the program. At the close of the recital an informal reception was held for the new comers to the Boise music circles.—The Boise City (Idaho) Evening Capital News, Sept. 30.

### AN EAST TAWAS MAIDEN MARRIES.

Miss Amelia T. Wallner, daughter of Mr. and Mrs. Wenzell Wallner, was united in marriage to Mr. John McLean, of Detroit, on Monday morning. The ceremony was performed at St. Joseph's Catholic church at six o'clock, Rev. Father Albin officiating.

Mrs. Hattie Moore, of Saginaw, sister of the bride, acted as bridesmaid, and Mr. W. Moore attended the groom. The bride was tastefully attired in pale blue silk crepe de chene, and the bridesmaid wore lavender silk poplin.

After the ceremony a dainty wedding breakfast was served at the home of the bride. Only the relatives and a few of the intimate friends of the bride were present.

Mr. and Mrs. McLean left on the morning train last Monday for Detroit, where they will reside. The well wishes of many friends go with them.

The bride is well known among the young people of this city, having always lived in East Tawas until the last few years, which she spent in Saginaw and Detroit.

Mr. and Mrs. W. Moore and daughter, Arlene, of Saginaw, and Rudolph Binder, of Detroit, were out-of-town guests for the occasion.

## Illiteracy Among Farmers.

The need of more and better rural schools in this state is made manifest by conditions revealed in a recent census report showing the percentage of illiterates among the native white farming class of Michigan. The figures show that the percentage of illiteracy in the rural districts of this state is twice that in the cities and villages. Michigan has 74,800 illiterates, and 37,228 of them live on the farms. There are 21,515 boys and men and 15,713 girls and women on the farms of this state that can neither read nor write.

## Beer and the War Tax.

The war revenue tax of approximately \$50,000,000 on the annual output of beer is agreeable to the brewers of St. Louis, Mo., although this industry already pays a yearly internal revenue tax of \$165,000,000. The stamp tax on negotiable instruments, stocks and bonds, deeds, bills of lading, pullman car and steamship tickets and insurance policies is expected to yield \$30,000,000, and the remainder will be raised by a levy on tobacco, patent medicines, perfumes, cosmetics, theater and amusement tickets, etc. The beer tax will yield a revenue more than ten times greater than that of any other single commodity.

## The Town Pump.

A good place to feel the pulse of civic life is at the public drinking trough. The ebb and flow of animal life, as it quenches its thirst at the public fountain gives us an estimate of the wealth, population and prosperity of the community, the character, habits and occupations of its people, and the utility, pleasure and hardships of its citizens. There is no better place to study the progress of the community than at the town pump.

Every village in Michigan should have a town pump, and every city with water works should have a drinking fountain, where a stream of pure running water freely dispenses Adams' ale to the thirsty populace. Pure water and plenty of it, is a good community builder.

## The Friends of the Farmer.

The plan of the Saint Louis banker to assist the cotton farmers of the South is a further indication of the nation-wide interest which is being manifested in the problems of the men who follow the plow.

The movement is not intended as a plan for purchasing cotton, but is designed rather to make available a fund of \$150,000,000 to loan on cotton, at not to exceed six cents per pound, for the purpose of making cotton a liquid asset, stabilizing its price and bringing about normal conditions again.

It has been said that it takes great calamities to develop our friends and the present crisis is proof positive that the farmer has friends in every line of industry who are willing to share his misfortunes and lighten his burdens. Strong men are strong only as they co-operate with other men, and the spirit of friendliness on the part of the business man towards the farmer augurs well for the future of the agricultural interests of the nation.

## Forest Notes.

Wireless telegraphy is being used in Canada in reporting on forest fires.

The best excelsior is made from basswood, or linden. Aspen and cottonwood, however, supply nearly half of the total amount manufactured.

The King of England has given permission to have a part of the royal estate placed at the disposal of the school of forestry at Cambridge university for purposes of experiment and demonstration.

William Penn, in his "Charter of Rights," provided that for every five acres of forest cleared one acre should be left in woods. Foresters maintain that on an average one-fifth of every farm should now be in timber.

Recent experiments indicate that round timbers of all the pines of Englemann spruce, Douglas fir, western larch and tamarack, can be readily treated with preservatives, but that the firs, hemlocks, redwood and Sitka spruce in the round do not take treatment easily. This information should be of value to persons who contemplate preservative treatment of round posts, poles, or mine props.

## Qualifications Necessary for a Prosecuting Attorney.

ALBERT W. BLACK.

Any person seeking the office of Prosecuting Attorney in Iosco county should be—

1. A tax payer.
2. He should be an able lawyer.
3. He should have demonstrated his ability by actual work in Iosco county, so the people could judge for themselves as to his qualifications.
4. He should have lived long enough in Iosco county so the people can see what kind of a man he is.
5. He should have an interest in Iosco county that would make it necessary for him to economize in every way possible because he would be paying his share of the burden.
6. He should be able to try all cases in court himself, without securing extra help to do so.
7. He should show his ability to the people by actual work in Iosco county, so that the people could safely trust him with their important affairs.

In order that each voter should vote for his own best interests in the coming election it would be well to apply the above qualifications to the nominees of the various parties for the office of Prosecuting Attorney.

## HOLDS CABBAGE REAL ESTATE

Pennsylvania Judge Renders a Decision That Seems to Border on the Ludicrous.

Wonders never cease in American law, remarks the Pittsburgh Press. Here comes a judge in our own state, trying a case of a man who entered his neighbor's garden and pinched a head of cabbage. The judge decides that it was not larceny of personal property at all, and hence not a basis of criminal action; but the cabbage heads are real estate, and that the neighbor's remedy is to bring a civil action contesting title. We have eaten garden truck—spinach and lettuce, for instance—which tasted like real estate. But we never knew before that to steal it was not theft. And after a cabbage head is eaten what good is the title? Now, if it had been a franchise or an election that was stolen, it would have been less surprising in the law to let the culprit go free; but who would ever have thought that the science of judicial hair-splitting would finally be successfully invoked to protect a plain, every-day cabbage thief?

## GLASS UTENSILS.

A New York glass manufacturer is experimenting with the making of cooking utensils of glass. Already glass percolators and stewpans have been made which, although they rest on the flames, give no evidence of cracking and have proved heat-resisting and nonexpansive. These utensils are apparently not affected in any way by the intense heat under them or by the contrasting temperatures of the articles which they contain. Glass is for many reasons superior to either enamel or aluminum, being affected by none of the acids or alkalis formed or used in cooking and not subject to the insanitary cracking which is characteristic of most enameled ware.

## A FLIMSINESS.

## L. E. Lincoln Consents to Become a Candidate for Member of Legislature.

Served Four Years, and on Ways and Means Committee Saved State Many Dollars. Ability and Experience of Arenac County Man Unquestioned.

(From the Au Gres Enterprise.)

Electors of the Iosco county legislative district can count themselves fortunate in that Lansing E. Lincoln, of Omer, has concluded to become a candidate for representative. It was only after considerable urging that the gentleman permitted his name to go on the ticket, and those acquainted with his unusual abilities will hail the event with much satisfaction.

Lansing Lincoln was a member of the Michigan legislature four years—from 1884—and the writer personally knows the record he made and his career during those stormy days. The writer of this article at that time was editor of the State Republican, a prominent Lansing daily newspaper. The new legislature was no sooner organized than Mr. Lincoln's splendid executive abilities were recognized, and he was named member of the ways and means committee, the most important committee of all the long list and one that demands the greatest study and most careful care, so to speak. From a standpoint of honorable recognition the ways and means committee is second to that of speaker of the house, for it is the fundamental support of this branch of the legislature, and on it depends the reputation and standing of the particular legislative session, of which it is a part.

## LINCOLN DUGGED POLITICAL GRAVES.

And the newly elected speaker builded well when Lansing E. Lincoln was made a ways and means committee member, for he straightway began to do things. He began digging, with the result that he finally succeeded in digging the graves of a coterie of political corporationists, and although he soon had a swarm of moneyed hornets about his ears, he buried them beyond resurrection.

Mr. Lincoln succeeded in gaining the hatred of every questionable political hanger-on, but at the same time he succeeded in stopping the ruthless spend-thrift methods then in vogue. The writer recollects the time when Lansing E. Lincoln battled almost alone in the Michigan legislature for what he knew was right. He was a good fighter. His command of language, his unanswerable arguments, as he made the big house echo with his words, won him the day, until he became easily the most prominent and the most popular member of the House legislative branch.

## CALLED HIM "HAYSEED" LINCOLN.

While during his membership Mr. Lincoln guarded with scrupulous care the interests of the tax-payer generally, his efforts were chiefly directed in behalf of the farmer, until his political enemies dubbed him "Hayseed" Lincoln. But the hayseed member only thrived on such abuse, continuing to "swat" extravagant measures, and to do his best by those who elected him.

To those living in this representative district who are unacquainted with Lansing E. Lincoln, The Enterprise will briefly state he is a resident of Omer. His business is that of a farmer and stockman. He has followed these lines many years, with office headquarters for sometime at Buffalo.

Mr. Lincoln is widely known throughout this part of New York, and in this portion of Michigan for the deep interest he takes in good roads. Indeed, he is always hammering away with state officials and those in authority to secure improved thoroughfares, until "Good Roads" Lincoln has supplanted the sobriquet of "Hayseed" Lincoln.

Mr. Lincoln is not a man of wealth. He makes plenty of money, but much of it goes in experimental farming and to better the conditions of his farmer neighbors.

## LINCOLN STOPPED REBEL BULLET.

As spry as a youngster, Mr. Lincoln is nevertheless a veteran of the Civil War, and though he seldom discusses the subject, he carries around in his anatomy an ounce of rebel lead.

With the above recital of the qualifications of Lansing E. Lincoln for the office of representative of the Iosco legislative district, The Enterprise will conclude by asking electors to give him their votes and undivided support.

With Mr. Lincoln as a member of the Michigan House, the district will be heard from during the next session. Member Lincoln will see to that—and he has the unusual advantage of having been a former member, and knows the game to a science.

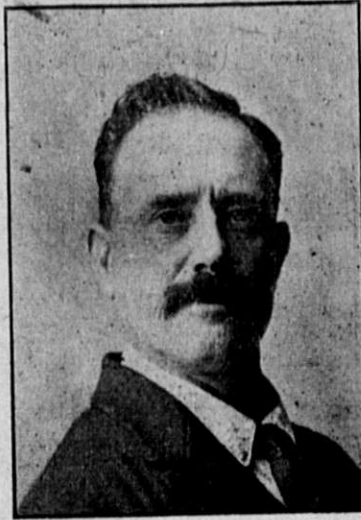

In the possible defeat of Lansing E. Lincoln the district will be the loser. In his election the district will be the gainer beyond words. adv-43

**Facts Worth Knowing.**  
**THE REINDEER INDUSTRY IN ALASKA.**  
 The extent of the reindeer industry in Alaska under the United States bureau of education is indicated by the fact that it covers a territory as long as from Maine to South Carolina. If a line were drawn through the 54 herds it would stretch more than 5,000 miles. There are over 38,000 reindeer in these herds, two-thirds of them owned by the natives, is estimated at \$600,000, and from them during the past year was derived an income of \$25,000, in addition to meat and hides consumed by the natives themselves.

**Wearing New Pants.**  
 It isn't always safe to ridicule and poke fun at the humble and long suffering members of the country newspaper fraternity. Down at Riley county, Kansas, a young lady made some "fresh" comments because the local editor wore a large patch on the "caboose" of his trousers. Another gossip told the editor about the slander, and he promptly proceeded to GET EVEN with the "smart" young lady. He sued her father for \$18, which he owed for back subscription—got the money, and is now wearing a new pair of pants and patent leather shoes.

**Kitchen Kinks.**  
 Young vegetables are superior in flavor and texture to mature ones.  
 To save your coal bill dissolve a pound of common washing soda in a gallon of boiling water, and sprinkle the solution over the coals. The heat and brightness of the fire will be better than ever, while burning at about half the usual rate.  
 The following is an excellent way to clean a mincing machine. It is very difficult to dry the inside—therefore, it is best to grind stale pieces of bread through it. This will collect all grease, fat and skin from the small knives. Wipe with a clean cloth.  
 To clean a gas oven dissolve some rough potash in a little cold water, and paint the inside of the oven all over with it, using a very old brush, as the polish ruins it. Leave this on over night, and the next morning wash it off with warm water. All the grease and burnt bits will come away, leaving the oven perfectly clean.

**Of Interest to Women.**  
 Grease spots on marble may be removed by applying powdered magnesia. Soot may easily be swept from carpets by sprinkling lavishly with salt before sweeping.  
 Soak ink stains in sour milk, and should a stain remain rinse in a solution of chloride of lime.  
 Do your canning in a well-kept, well-dusted room. It's the dust that gets into the jar that spoils preserves.  
 To remove iron rust from linen or cotton goods, boil a small quantity of rhubarb, and dip in that portion of the material which is spotted.  
 The successful business man always looks ahead, and plans according to what he sees, the successful housekeeper also looks ahead to spy out the rocks on which the good ship household economy may split. A good beginning in household economy may be made in the linen closet. Let us look over our stock of linens, the napkins, table cloths and towels, look for the thin places in them and the small holes. Darn these carefully, and thus extend the usefulness of many of the pieces that would otherwise have to be replaced.

## EAT MORE POTATOES

### Michigan Produced Last Year More Potatoes Than Any Other State.

According to the Federal census the state of Michigan last year produced more potatoes than any other state in the Union, and the three states—Michigan, New York and Wisconsin—produced over 60 per cent of all the potatoes used in the United States. The potato crop of this state this year is exceptionally good, and it is the one food stuff now in use which is selling at a very low price.

Potatoes in the potato districts of Michigan are at present wholesaling from 30 to 40 cents a bushel, and they are by far the cheapest form of starchy foods which are necessary in the human system to produce heat and energy. The following statements relative to the food and medicinal value of the potato are taken from an article by Dr. J. H. Kellogg, of Battle Creek.

He says that the potato is more easily digested and appropriated by the body than the starches of wheat, corn and other cereals. In laboratory tests it was found that potato starch digested in less than one-sixth of the time of cereal starch. One-fourth of the weight of the potato is food substance, nine-elevenths of which consists of starch. Of the remainder, three-fifths is protein and two-fifths alkaline salts, in combination with citric and malic acids, the acids of the lemon and the apple. The potato is deficient in protein and fats, which can be easily supplied by other foods.

Nearly 5 per cent of the dry substance of the potato consists of salts, chiefly of potash. These salts tend to purify the blood from the acids caused by the use of meats, which are the chief cause of hardening of the arteries, gout, rheumatism, Bright's disease and apoplexy. These salts of the potato are located just under the skin, and for that reason potatoes should not be pared before being cooked.

The potato has a high nutritive value. One pound of baked potato has the same food value as 5 1/2 ounces of beef, one pound of chicken, 10 pints of beef tea, or seven ounces of bread. The potato is not rich in protein, and this should be supplied to the ration by the addition of milk or eggs. Half a pint of rich milk will thus balance a pound of baked potato. The potato is the most valuable of all known foods in furnishing alkalizing salts to purify the blood, and the free use of the potato combats chronic intestinal poisoning.

In view of the fact that potatoes today constitute the cheapest food stuff on the market, and the further fact that the prosperity of Michigan is dependent largely upon the potato farmer of the state, we deem it timely to advise the people of Michigan to EAT MORE POTATOES, and thus contribute to the physical and financial gain of the state and the individual.

JAMES W. HELME,  
 State Dairy and Food Commissioner.

**The Auto on the Farm.**  
 It is quite a common sight in this state to see farmers drive to the harvest field in automobiles. It takes a "wad" of money to buy an automobile, and it takes good roads, as well as gasoline, to run them.  
 A joy ride in the harvest fields of this state is one of the most exhilarating experiences that is available on this continent and one that would charm a tourist and convince a home-seeker. A speedway lined with growing crops and blooded stock is a landscape that one seldom tours in a lifetime. In mapping out automobile routes the Michigan harvest fields should be given a prominent position. Why not a "See Rural America First" campaign?

**A Factory on the Farm.**  
 A silo is a factory on the farm, and therefore lends itself to co-operation of the commercial and agricultural interests. The farmer gets the profit of both producer and consumer.

We need more of these twin agencies of prosperity on the farms of Michigan, and business men cannot render a better service to their communities than in encouraging the building of silos. The silo is a great business educator. It arouses the spirit of enterprise, develops business ingenuity and awakens the joy of ownership.

A farmer can build a silo for two or three hundred dollars, and it will, under ordinary conditions, pay a dividend of 40 per cent where it is run to capacity.

**The Auto on the Farm.**  
 It is quite a common sight in this state to see farmers drive to the harvest field in automobiles. It takes a "wad" of money to buy an automobile, and it takes good roads, as well as gasoline, to run them.  
 A joy ride in the harvest fields of this state is one of the most exhilarating experiences that is available on this continent and one that would charm a tourist and convince a home-seeker. A speedway lined with growing crops and blooded stock is a landscape that one seldom tours in a lifetime. In mapping out automobile routes the Michigan harvest fields should be given a prominent position. Why not a "See Rural America First" campaign?

**Wise and Otherwise.**  
 Men are just now discussing which looks better—a derby or a soft felt.  
 The very unamiable Mr. Villa appears to be too energetic a man for Mexico. He ought to be over in Europe.  
 There is indignation among some of the tourists that they had to come home from Europe by ordinary first cabin accommodations.  
 Soccer football is growing more and more popular in this country, in spite of the fact that comparatively few people are injured in playing it.  
 A Chicago magazine offers a one hundred prize for the best poem. Any one can make a dollar or two at his regular occupation by not stopping to take part in this competition.

**Your Fall Cold Needs Attention.**  
 No use to fuss and try to wear it out. It will wear you out instead. Take Dr. King's New Discovery, relief follows quickly. It checks your cold and soothes your cough away. Pleasant, antiseptic and healing. Children like it. Get a 50c bottle of Dr. King's New Discovery and keep it in the house. "Our family cough and cold doctor," writes Lewis Chamberlain, Manchester, Ohio. Money back if not satisfied, but it nearly always helps.

## TO ALL ENGAGED IN DAIRY BUSINESS

Making butter on the farm is rapidly becoming a thing of the past. Any housewife knows what it means of drudgery to make good butter, and what difficulties she encounters in her attempt to find a satisfactory market for her product. Her outlet is limited. The creamery has every large city on the continent within its reach. The creamery is plugging every day for the interests of the dairy farmer as well as for its own.

We are now in the midst of our third season and business is humming. Prices are good and the outlook fine. We are making nearly four times as much butter as we did in 1912. That also means that we are able to handle your cream to the very best advantage for you. Come and see us or ship us a can. We know we can please you.

We are selling the "Diablo," a separator of the Highest Merit, at prices that you would pay for mail-order and other inferior machines.

## —WILL STRIKE— 100,000 MICHIGAN HOMES

**ARE YOU AWARE** that if the proposed Amendment to the Constitution of the State of Michigan, to be known as Section 10, and to be voted upon on Election Day, November 3, 1914, is adopted, its provisions will strike One Hundred Thousand Michigan homes, and affect the interests of Three Hundred Fifty Thousand Michigan citizens, who are carrying Fraternal protection? The citizens of this State must look to the Insurance Department for protection in all insurance matters. The Insurance Department supervises all Insurance Companies, and seeks to keep fraudulent companies out of this State. Let us look to the Department for information in this crisis.

### READ, BROTHER, AND PONDER WELL

Commissioner Winship, of the Michigan State Insurance Department, says:  
 "The adoption of the proposed Amendment would, in my opinion, limit Fraternal Societies to the payment of Death Benefits only, and would destroy State supervision."  
 Rufus M. Potts, Superintendent of Insurance for Illinois, says:  
 "Permit me to say that I have carefully examined this Amendment and am of the opinion that it is a vicious piece of legislation."  
 Judges, eminent Lawyers, numerous Insurance Commissioners, well-known Fraternalists, and Citizens generally, condemn the provisions of the proposed Amendment. Every Fraternal Society, including Railway Organizations, Trade Unions and Commercial Travelers, have taken up arms against the proposed Amendment. If the Fraternal System is to be preserved, THE AMENDMENT MUST BE DEFEATED. Do your part, Brother, at the Polls, Tuesday, Nov. 3.

### Recipe for Long Youth.

Old age can be cured. The prescription is a simple one: mix open air and a hobby, shake well, and take many hours a day as possible. No one begins to age until he is bored, and the first gray hair comes when a man suddenly thinks to himself: "What's the use?" Then is the time when a hobby makes life interesting again.—Lippincott's.

### Whistling Develops Lungs.

A doctor has discovered that whistling is good for the health. It fills the lungs with invigorating oxygen, and this revivifies flagging spirits and flabby muscles. Boys are prone to be broader chested than girls, and better constructed for deep muscular tones because of the lung exercise which accompanies whistling, and one of the first things they try to do when they've passed babyhood is to whistle.

### Good Word for Religion.

This is a broad-minded age, and the gentleman on the last tram, who was in what one may define as the talkative stage, shared the characteristics of the times. "I've nothing to say against 'im even if he does belong to P. S. A. I'm no bigot, not a bit of it. An I say this, that, considerin' all things, I've not found these religious chaps to be worse than ordinary fellows like you an' me."—Manchester Guardian.

### Famous Regiment.

The Buffs, the famous old "Nutmackers," of which the king of Denmark was appointed colonel-in-chief on his recent visit to England, are one of the oldest corps in the British army. They were evolved from the old trained band in the days of Elizabeth, and because of this ancient connection with the capital they have the privilege of marching through the city of London with fixed bayonets, beating drums and flying colors.

### Dwarf Trees.

The Chinese influence on interior decoration extends to the wonderful dwarf trees which, once almost prohibitively expensive, are now to be had at really popular prices, commencing at about 60 cents for diminutive yews and cedars that look as if they had come out of a "Kewpie's" garden. Stately oaks, sycamores, cedars, standing at least 20 inches high, are wonderful with their gnarled and twisted branches and close foliage; they appear like ancient forest trees viewed from afar and through the "wrong end" of a telescope.

### Supervisors' Proceedings.

Bay City, Mich., Oct. 6, 914.

To the Hon. Board of Supervisors: Gentlemen: The executive committee of the North Eastern Michigan Development Bureau at its last session devoted some time to the question of finance for the Bureau for the year of 1915.

As you are aware the Executive Committee is now composed of one representative from each of the counties of the district, hence very careful consideration was given as to the amount to be asked from each county.

For Isoco county one-eighth of one mill on the assessed valuation was decided upon, which amount your committee is most respectfully petitioned to grant.

Yours respectfully,  
Executive Com. N. E. Mich. Dev. Bureau,  
Per T. F. Marston, Sec'y & Mgr.

Moved by Searle supported by Schneider that communication be laid on the table. Carried. Yeas—Anschutz, Bartlett, Burt, Carlson, Culter, Davidson, Hottis, Nunn, Searle, Schneider, Westervelt.—11. Nays—Belknap, Dickinson, Hartingh, Lockhart, McAuliff, Misener, Myles, Oates.—8

Chair referred same to com. on Finance and Apportionment.

To the Hon. Board of Supervisors: Gentlemen:—You are hereby notified that at a meeting of the board of county road commissioners of Isoco county, held at the Court House in the City of Tawas City, said county on Saturday the 19th day of September 1914, the following resolution was passed:

Moved by Grant supported by Luce that the Board of Supervisors of Isoco county be requested to spread a tax of three dollars per one thousand dollars of the assessed valuation of Isoco county for the year 1915, on the several tax rolls of the county for county road purposes to be expended as follows: Two and one-half miles of Barleigh-Reno Truck Line road, \$7,000. One mile on west line of section 31, Wilbur county road, \$2,200. One-half mile of gravel near Mines corner, Wilbur road, \$1,000. To finish Van Etan Lake and Grant-Sherman roads, \$2,167. Total \$1,000 Carried. Yeas—Grant and Luce—2. Nays—0.

I certify above to be a true copy.

Juo A. Mark, Clerk of Board.

Moved by Anschutz supported by Davidson that communication be referred to committee on Finance and Apportionment. Carried. Yeas—Anschutz, Belknap, Burt, Culter, Davidson, Dickinson, Hartingh, Hottis, Lockhart, Misener.—10. Nays—Bartlett, Carlson, McAuliff, Myles, Nunn, Searle, Schneider, Westervelt.—8.

Tawas City, Mich, Sept 28, 1914.

To the Hon Board of Supervisors: Gentlemen:—The School Board of Dist No 7 of Tawas City and Tawas Twp. in said county, hereby estimate the cost of the County Normal Training Class the ensuing year:

Teachers' wages	\$140.00
Supplies	100.00
Amt rec'd from State under provisions of Act 20, P. A. 1905	1,000.00
Surplus to be paid by the district	850.00

Under the provisions of Act No 20 Public Acts 1905 the county is liable for one-half the above amount, said district respectfully asks that one-half said amount to wit; the sum of \$250 be appropriated to the use of said district as the county's share of said expense of said Normal School.

Yours respectfully,  
Fred School Dist No 7,  
By J. B. King, Sec'y

Moved by Myles supported by Hottis, that communication be received and clerk draw a warrant for the same viz., \$250. Carried. Yeas—Anschutz, Bartlett, Belknap, Burt, Carlson, Culter, Dickinson, Hartingh, Hottis, Lockhart, McAuliff, Misener, Myles, Oates, Searle, Schneider, Westervelt, Davidson.—19. Nays—0.

Tawas City, Mich, Oct. 11, 1914.

W V Froel and L J Patterson, being sworn, each for himself, do hereby under oath certify that they are respectively the president and secretary of the Isoco County Agricultural Society; that such society has been duly organized by the inhabitants of said county and established for the encouragement and advancement of agriculture, manufactures and the mechanic arts, and the same is now in existence and active operation, and holds a yearly fair or exhibition to further the interest of said society and the objects for which it was organized.

William V. Froel, President.  
Len J. Patterson, Secretary

Subscribed and sworn to before me this 11th day of October, 1914.

Joseph C. Dimmick,  
Notary Public.

My commission expires February 7, 1915.

Moved by Anschutz supported by Hottis that communication be referred to committee on Finance and Apportionment. Carried by unanimous vote.

Report of Prosecuting Attorney to Board of Supervisors in the case of Brown vs. Hadwin.

To the Hon. Board of Supervisors: I desire to report to you at this time that the case commenced against Ex-Sheriff Geo. H. Hadwin by Crosby Brown in the Circuit Court for this county for 1913 for false imprisonment was an outgrowth of an attempt on the part of Sheriff Hadwin and myself to enforce the local option law in this county during the closing months of Mr. Hadwin's administration as sheriff and while the local option law was in force in this county. This case was tried twice in the circuit court and taken to the Supreme court by the plaintiff Brown. On October 2nd the Supreme Court decided the case in favor of Mr. Hadwin.

At the request of Mr Hadwin I acted as his attorney throughout the entire case and believed that I was only doing my duty as Prosecuting Attorney in protecting officials acting under the law. However, the case was a civil case and under the law it would have been proper for Mr. Hadwin to have paid me attorney fees and then requested your Honorable Board to allow and pay such bills of his expense as he might be put to in connection with this case because both he and the Prosecuting Attorney were acting officially and as officers of Isoco county at the time that gave rise to the case. When the case was first tried in the circuit court there were some expenses paid by Mr. Hadwin that were incidental to the trial of the case but could not be recovered in any way from the plaintiff. This county paid those expenses at that time. At no time did I request Mr. Hadwin to pay me any attorney fees for my service in the case and in this report I desire to state that I do not intend to charge Mr. Hadwin for any attorney fees but in the event the county to pay either Mr. Hadwin or me for any attorney fees in connection with the case.

Dated October 6, 1914. A. W. BLACK,  
Prosecuting Attorney.

Moved by Searle supported by Nunn that communication be received and spread on the minutes. Carried by unanimous vote.

Thereupon on motion Board took a recess until 1:30 p. m.

Afternoon Session.

Board called to order at 1:30 by the chairman.

Quorum present.

By the courtesy of the board, Mr T F Marston, secretary of the Northeastern Michigan Development Bureau, addressed the board on the work and aims of said bureau.

Clerk placed before the board the bids of the following banks as depositories of county funds: Ealy McKay & Co. of Tawas City; Ealy McKay & Co. of East Tawas; Ealy McKay & Co. of Hale; Hale Exchange Bank of Hale; Isoco County Bank, Whittemore; Bank of Whittemore, Whittemore; and Geo. D. McNichol & Co. of Oscoda. Each bank offered two per cent per annum on daily average balances, and to furnish surety bonds for same.

Moved by Belknap supported by Misener that bids be referred to a special committee of three to be appointed by the chair.

Motion carried whereupon chair appointed as such committee Hartingh, Misener, and Carlson.

Supervisors Anschutz and Searle made a verbal report of their work before the State Board of Equalization as representatives of Isoco county.

The meeting then gave our representatives a unanimous rising vote of thanks for their good work at Lansing.

To the honorable board of supervisors: Your committee on county farm would respectfully submit this as their report:

That on the 4th day of September, 1914 we visited the county farm for the purpose of ascertaining the amount of stock, crops, buildings, etc.

We found on the farm 5 good work horses, 1 thoroughbred Ho-stein bull, 2 grade Holstein heifers, 8 grade cows, 4 spring calves, 1 yearling calf, 1 thoroughbred Berkshire boar, 1 thoroughbred B. Berkshire pig, 1 tier with red Yorkshires, 2 grade sows with 17 pigs, 19 shot 15 small pig, 24 tons of hay 7 tons of straw, 35 bushels of oats and barley, 30 tons of corn, 30 tons of silage, left over from 1913, 25 acres of beans, estimated yield about 300 bushels; 200 acres of potatoes, 175 bushes, about 20 bushes of apples, (mostly harvest) 1 seed drill, 2 mowers, 1 binder, one 2-horse cultivator, 1 gang plow, 2 common plows, 1 hay tedder, 1 disc, 1 roller, 1 shoe horse cultivator, 2 harrows, 2 wagons, 1 buggy, 1 set of sleds, 1 fan, 1 mill.

We find that the water plant built a year ago, has not been in good running order, and respectfully recommend that immediate steps be taken to have contractors to carry out the terms and conditions of their contract to avoid further loss to the county.

The recommendation of building a cistnet for the main by the committee of 1913 was not built in conformity of said recommendation.

We recommend that a suitable woodshed and ice house be built.

We recommend that more stock be kept to feed coarse fodder and improve soil fertility of farm.

We also recommend that the grounds around the house be plowed and leveled and a suitable lawn made, also the Cemetery be kept clean from brush, etc.

There are 10 inmates, 8 male 2 females.

Dated Tawas twisp this 10th day of Sept. 1914.

Thomas Davison,  
Geo. C. Anschutz,  
Committee.

P. S. Your committee was informed that a water pump has been placed in the water plant last week, and results are somewhat improved.

Moved by Anschutz supported by Burt, that report of committee on county farm be accepted and adopted. Carried. Yeas—Anschutz, Bartlett, Burt, Carlson, Davidson, Dickinson, Hartingh, McAuliff, Myles, Nunn, Oates, Searle, Schneider, Westervelt.—14. Nays—0.

To the Hon. Board of Supervisors: Your committee on drains and ditches respectfully reports that they did on the 28th day of September, 1914, proceed to view the several drains under construction in Sherman township, to wit:

Burleigh-Grant commencing at section 31 Twp. 4 North, Range 4 east thence through section 35, 38 and across northeast corner of 34, a distance of 1400 feet or there about, is nearly completed and will cost \$3.20 per rod.

Prince drain, length 680 and 38-10 rods long, is completed, (except through sandy soil) good. Said portion through sandy soil will be redressed by order of Drain Com'r. Total cost, \$75.37.

County line drain between Isoco and Arenac counties completed, length 173 and 14-100 chains, Total cost, \$1,468.46, one-half of said cost to be paid by Arenac twisp adjoining.

East Branch river drain: 419 rods of said river a new water channel of 27 feet in width was made by dredging at a cost of \$8.40 per rod. Total cost of dredging was \$3,520 (from Jordan Bridge D & M R R) and all that drainage was removed at a cost of \$247.25. Surveying and other expenses \$44.06 making a grand total of \$4,311.30.

All of said drains has reclaimed a great many acres of fine farming land which in a short time will add much to the wealth of Isoco county.

The cost of said drains considering all conditions are reasonable and credit is due to Drain Com'r Geo. Schneider in the manner he has conducted his work.

Hans Carlson,  
Thomas Davison,  
Geo. C. Anschutz,  
Committee on Drains and Ditches.

### PROFIT IN STUDY OF WORDS

Much Can Be Accomplished by Devoting a Short Time Each Day to the Subject.

The study of words; it may sound to you a dry thing, yet I promise you it is not—very far from it. And this brings me to suggest that the habit of one of the great writers of studying carefully from a good dictionary five words each day is one from which we might all of us get a good deal of profit. Or, take a good book of synonyms, for instance, and learn from it each day five words somewhat similar, comparing and weighing carefully the meanings and values of them. Notice the degrees of force in the following: To dislike, to hate, to loathe, to detest, to abhor—each note struck is a little stronger, higher, we might say, like an ascending crescendo scale. So, to instruct, to teach, to educate are each quite different in meaning, with great nicety of difference. So, rebuke, reprimand, censure, blame are all of one color, but of how different shades of meaning. So, too, misfortune, calamity, disaster; so, weak, feeble, decrepit; and what delicate difference between fame and renown, or feminine and womanly and womanish?—Exchange.

### WOMAN'S REASON

Hubby—I never knew any good to come of keeping Lent.

Wifey—Why, my dear, look at Mrs. Jones. She was cleaning a fish and found a diamond ring in its inside.

### DANCING FIFTY YEARS AGO.

A correspondent appeals to hostesses to make introductions fashionable at London's best dances. This to help the young woman who is "compelled to sit out dances." Half a century ago and the young woman would not have been allowed even to sit out these dances. G. W. E. Russell tells of the restrictions which hedged in the fashionable miss:

"Young women were only allowed to waltz with their brothers or cousins. Their acquaintances were limited to square dances. No sitting out at a ball was permitted. At the end of each dance the man took his partner back to her chaperon, to whom he made a bow as he restored her charge."—London Times.

### NAMED.

"Who is that powerful giant who looks like a modern Samson?" asked the stranger.

"That is Percival Algernon Cyril Milk," replied the native.

"And who is the delicate, sissifid looking chap with him?" asked the stranger.

"That's John L. Sullivan Hercules Strong," replied the native.

### PHYSICAL CULTURE.

Lady Customer—You have made my new traveling gown entirely too light.

Dressmaker—You are wrong, madam, it just fits you.

Lady Customer—Yes, it just fits now, but it won't in Europe. You know how travel broadens one.

### FASHIONABLE GRIEF.

Husband—Our boy is becoming very wild.

Wife—Yes, I fear he will bring my purple hairs in sorrow to the grave.

### THE REASON.

"Does your son belong to any esoteric society at college?"

"No, he don't. My boy don't drink."
