## POSTAL SAVINGS

The Growth of Postal Savings Has Been Steady Since the European War.

The war in Europe is proving a big boon to postal savings in this country. boys lunge at it. Well, when they con- From the very day hostilities opened scraping noise that sounded something for our fleet as 25 ap- nected it went, but they didn't connect across the seas the postal savings receipts like a human voice. But, weak as its began to increase by leaps and bounds Roach handled short, and once in a and withdrawals fell off, a result quite while both third and second, as though contrary to the predictions of many well- The modern machines can talk a wringing applause from the fans often. tion, saw lines of feverish depositors at any woman. postoffice pay windows anxious to again return their savings to the boot-leg and scoops them off of the ground and body-belt depositories, whence they brings them out of the clouds as though came before intrusted to Uncle Sam. Cadore had more fun batting and base the absolute confidence of the American met his eyes, in the ability and purpose Halligan handled himself well, as did tions, not only among the nations of the earth, but with the humblest citizen of pecting ever since.

Two important results have followed; catches bringing the plaudits of the thousands of people, largely of foreign abroad, are now patrons of our postal A throw by Ernie Moeller from deep savings system, and enormous sums of actual cash have been released for com-

portant gap between the tin-can de pository and the factory paymaster. On July 1st, when affairs were running smoothly here and abroad, and the transmission of money across the intic was safe and expeditious, there approximately \$43,000,000 of postal savings standing to the credit of about 388,000 depositors Since then over \$10,000,000 of deposits have been added and the numbers of depositors has increased enormously.

This unprecedented gain is the more striking when it is considered that the net gain in the last three months larger than the gain for the entire fiscal year of 1914. Scores of offices have done more postal saving business since the war has been going on than was done by them during the previous existence of the service. The increases are confined to no special localities, but have been felt in every nook and corner to Musolf. Umpires - Burtzloff and of the country. New York City alone made a gain in September of more than a million, while Brooklyn showed a relatively big increase. Chicago reported a larger gain in the past three months than for the previous twelve months. More than 7,000 new accounts were opened during the period, bringing the number of depositors in that city up

The unexpected increase in postal savings business has not only added greatly to the general administrative duties of the system, but has brought up many new and interesting problems which have called for the the careful personal consideration of Postmaster-General Burleson and Governor Dockery, third assistant postmaster-general. But their task has been lightened somewhat by the promptness of depository banks in furnishing additional security to meet the abnormal deposits. A num- doubtedly suffered more heavily in killed ber of the very largest banks in the and wounded, while the allies have lost country, which have heretofore declined the greatest number in prisoners. to qualify as depositories for postal savings funds, are now among the eager! applicants for them.

TAWAS CITY, MICH., OCT. 30, 1914

#### War and Play-Prohibit Guns Not Games.

Cruel, murderous war, with its sickening waste in world-wide proportions and in method most brutal and barbarous, falling upon us with unbelievable suddeness and now already prolonged into pitiful exhaustion and the disappointments of hopes deferred, still rages in Europe with as little promise of peace as when it began. The international honor of treaty agreements flung to the winds, neutral territory invaded and outraged, and the regulations of war wickedly violated, cruel bombs hurled from the air into innocent peaceful villages of helpless women and children, devastating stupendously, mangling wickedly, murdering devilishly, destroying everywhere and everything, sparing not even the sacred cathedrals, containing the irrecoverable artistic and spiritual assets of a hundred years, defaming and degrading the very moral instincts of all participants, and transforming civilized peoples into a barbarous horde-Julius Caesar without the inheritance of Christian influences, never lost more utterly his sense of humanity or of rudimentary

ately declared, "My thought is of as a candidate for that particular office. America." To the true and ingenious American nothing is useless, nothing in his loyal support in the past, and solicitevery event an occasion for self improve- tion, I am, ment. What, therefore, shall America gain from this bestial European war?

First.—The incarnation of America's most sublime idea, that there are no Germans, or French, or English, or Belgians here. That irrespective lineage or birth, or previous governmental or religious allegiance, every citizen of the United States is an integral part of one great united nation, and is first, last, and all the time, a loyal American.

years have failed so utterly to secure. his office Investigate his record Our foreign trade will be doubled, and before voting otherwise. new home industries will be stimulated. We shall have learned through necessity to make many of the commodities we now import, and we will supply practically the whole western hemisphere with American products.

Third.-It will be impressed upon us once for all that contrary to certain political demagogues, peace can never be preserved by preparation for war; that militarism is not protective but provocative. Instead, therefore, of the manufacture of the siege-guns for the destruction of life, we will manufacture goods for the preservation and comfort of life. Instead of instruments of torture we will make instruments of pleasure, Instead of the accoutrements of war we will arm our citizens with accoutrements of play. Instead of employing the surplus energies of our youth in the nonproductive activities of devastation and ruin, we will give them those wholesome recreations which increase their capacity for toil. Instead of sending our favor of the Progressive nominee, An X placed In front of my name which young men away to weary marches, Chester J. I will appreciate the support of the experience we had together at Lansing, voters of this county regardless of party and I am sure the good people of your affiliation, inasmuch as the office of legislative district will make no mistake a true sense a political office. My official resent them. You have had legislative record is open for inspection and has experience which will be of material help in that event, and, better than all, you have the interests of those good people at heart because you are one of them, and I remember my first acquaintance with you at Lansing was such as to impress upon my mind the fact that you believe in the rule of the people, that you believe in fair treatment for both the employer and the employed, that you believe in a system of equitable taxation, where all wealth will contribute its just proportion of the burdens of government.

"In fact, as I now remember your work at Lansing, when we were here years ago, I can readily understand how you became naturally affiliated with the National Progressive Party when it came into existence in 1912."-AuGres Enterprise.

## To the Voters of Iosco County. Are you in favor of the following laws:

the shipper of farm products a square deal-(endorsed by the Grange and Gleaners.)

2. The blue sky law, that prevents the sale of worthless securities in the state-Bricker-Follett-Hinkley-Copley law.) 3. Giving the state railroad commis-

sion authority to compel more rapid transportation of livestock on the railroads-(vetoed by the governor.) 4. Compelling the water power com-

panies to pay their just share of the taxes-(passed the House-for lack of time could not get it through the Senate.) I am in favor of the following laws: 1. The use of convicts to crush lime-

stone for agricultural and highway purposes on the limestone properties owned by the state.

Compelling the manufacturing companies to sell each part and parcel of their machines at a price that shall not exceed the usual retail price of the assembled machines-(a law of this kind will reduce the cost of repair on all machinery fully 100 per cent.)

I pledge to you, Mr. Voter, if reelected as your state representative my best efforts to place these laws upon the statute books.

And-the same faithfulness as in the past in looking after your interests. Thanks for your past support, and hope to be favored again.

E. B. FOLLETT, Republican candidate for the office of State Representative, Iosco District.

# Rifle Shooting Becoming A Popular National Sport

Its Unique Advantages For Either City or Country---How to Start a Club. as Told by an Expert Rifleman---An Inexpensive Sport For Outdoors or Indoors, Day or Evening---Men, Boys, Women and Girls Participate--- A Common Recreation In Europe and the Orient.

By GENERAL GEORGE W. WINGATE, President Public Schools Athletic

League, New York City. OPULAR interest in small bore rifle shooting is so rapidly increasing that there can be little question but that within a very short time it will have taken a leading place among the favorite sports of America. There are a good many reasons for this remarkable growth. As a sport, rifle shooting possesses several device solves the problem, and artificial unique advantages, in addition to the light is no hindrance to good marksgeneral benefits to those practicing it, manship. The workers in the stores, which it shares with other forms of shops and offices, therefore, are not exrecreation. It is a sport for evening cluded from this alluring pastime, as well as the daytime, for winter as which is another reason for its growwell as summer. Its inexpensiveness ing popularity. Rifle shooting, morehas helped make it attractive to people over, is possible at all seasons of the both in city and in country. In this, year, for even an outdoor range can as in many other respects, small bore be protected in winter so that its use rifle shooting is exceedingly demo- need not be interrupted.

ing sport, which develops skill and ment of a system of handicapping the idea. The interest is not merely local is difficult to arrange in other sports. or national, but international. The small bore (22 caliber) rifle is used, as cal strength or prowess like athletic best adapted to short range target sports. But it does demand mental shooting purposes.

Shooting Around the World.

Across the water-meaning both the hence its great value to boys and Atlantic and the Pacific-this kind of young men. Learning to hold a rifle rifle shooting has attained a remarka- without letting it wabble and to pull ble and constantly increasing popular- the trigger without jerking it means ity in the different civilized countries, self-discipline. It is discipline in ithaving as loyal a following in the self. Rifle shooting requires a great Orient as in Europe. The Japanese have deal of practice all the year around. taken it up with the seriousness that This develops will power, determinamight be expected from that nation. In the British isles there are now at least 5.000 rifle clubs-sporting organizations, not military-the membership figures reaching half a million. Switzerland has 3,600 shooting clubs, with the man shooting, and he must be able a total membership of 214,000. Other to keep his hand steady and his judgcontinental countries, like Germany, France and Austria, have also shared largely in the results of this worldwide sporting movement, and throughout Europe in summer or winter, day or night, the crack of the 22 calibers is heard at the ranges. Beyond the equator conditions are the same. South Africa and Australia are equally interested in the sport, and the distance between their rifle ranges is short. Go down to that wonderful country, Argentina, and you will find there that rifle shooting is esteemed in the front rank among the national sports.

favor all the way from coast to coast. lowed to handle firearms, would shoot Four thousand lads in the high schools of New York city are now shooting "the gun that wasn't loaded." The enthusiastically under equally enthusi- newspapers every little while print acastic instruction. The Young Men's counts of such accidents. But that is an Christian Association in many places argument in favor of organized rifle has made rifle shooting a part of the shooting, not against it. How do firetraining which it gives to boys in the arms accidents usually occur? Through as a first class range can be installed body who has had no instruction and

Rifle shooting does not call for physiand physical control in marked degree and develops these qualities; tion and stick-to-it-iveness. It also more than almost any other sport develops concentration, self control and "cold nerve." Many are the matches where victory or defeat depends on ment cool under the hard strain of an exciting competition. There is more individual work in this sport than in any other. In baseball or football it is teamwork that counts. One man may have an off day and not make much difference to the team, but this is not true in shooting. Rifle practice develops clean living and temperance. The rifleman has to say goodby to bad habits if he has them.

A Change of Opinion.

The old idea that it is dangerous to let Son Johnny have a rifle is fast disappearing. Once every mother firmly Here in our own country it is finding believed that Johnny, if he were alhimself or somebody else, perhaps with formative period of their lives. This the carelessness of somebody who does has not been a difficult step, especially not know how to handle firearms, somefor \$150 and after the small initial ex- training in their care and use. Johnny pense has been provided can be made may be forbidden to have a rifle, but to do considerably more than pay its he is allowed to go camping with other own way. Especially in the smaller boys. Somebody sneaks a cheap firetowns the idea has developed and arm into camp. None of them know how it should be used, and one after In country communities it is usually the other proceeds to "fool with it."

a suitable location for an outdoor A small bore rifle club usually starts range, and where, as is the case in with one man. This man owns a rifle. most of such places, the opportunities and, though he enjoys shooting for its of recreation are limited the young peo- own sake, he feels that there would be ple in more than one instance have much more pleasure and profit in it if taken up the game almost as a matter he could get some other riflemen toof social self protection. The more

will start off. Put the proposition on a platform of neighborhood pride and court newspaper publicity.

Finance, organization and management of the club are simple enough if one keeps in mind certain principles that bring success. To provide money for ranges, rent and equipment the club usually issues bonds in small denominations and should have little difficulty in selling them to members. These bonds carry interest at 5 or 6 per cent standard distance for indoor ranges. and are to be bought back by the club as funds accumulate. With good management, providing constant interest for members by matches and other events, it is a simple matter to have a club out of debt in a year with fine almost invariably lack that comfort quarters and equipment. With a fairly and convenience so essential to the large membership the difficulties of raising capital and maintaining an in- and, of course, can only be used for a come are relatively small. The fact is pose that you have secured fifty mem- that while the present clubs consist bers at the start (not a large number mainly of enthusiasts prepared to subto get together in a small town or a mit to almost any inconveniences in

designing a range, therefore, you are not necessarily limited to seventy-five feet. In fact, ranges which admit of shooting at several longer distances, such as 50 and 100 yards, afford more variety and are on many grounds preferable. While, however, seventyfive foot ranges can often be built in some existing building at relatively little cost, longer distances mean outdoor shooting and specially constructed ranges for making such shooting possible at all seasons. For this reason, though clubs are strongly advised to make such arrangements at the beginning that they can eventually provide sufficient target accommodation for a large membership and expand their

selves to an energetic management.

The team the desirability of a comfortable, at- breaking all its opponents' disks first tractive pavilion in conjunction with a wins, the losing team is knocked out comfortable, pleasant and easily accessible range.

In addition to butts and clubhouse the club should provide a few club rifies and telescopes for the general use of members. A small charge of say 5 cents per day for the loan of these will provide a fund which will eventually pay their original cost and subsequent repairs and renewals.

Points on Handicapping.

One of the most important items of successful club management is handicapping. Nature has failed to endow

too much spare time during daylight successful in inducing about '10 per even in summer and none in winter, cent of one club to shoot every week While in summer baseball, trips to the for nine years might be adopted with woods, etc., constitute counter attrac- idvantage. The basis of this is a weektions, in winter the want of something ly handicap sweepstakes in which the with which to employ the idle hour is entry fees, 10 cents per competitor, are often strongly felt; hence the club will divided in the ratio of one prize for be wise that construts its range so about every five competitors. and the last team in wins the match. This is not only exciting fun, but splendid practice, and affords interest for spectators. The latter is important, as an ordinary target match is not attractive to a gallery. It is otherwise when the progress of the match is made visible by the breaking of the

Prizes and "Pot Hunters."

Competitions imply prizes and prizes cost money. A very few club funds will admit of devoting more than a very nominal sum to this purpose. Fortunately large sums are unnecessary, and an entry fee of 5 or 10 cents will generally provide a fund out of which a few inexpensive prizes, more as mementoes of the event than as rewards, can be awarded, and these should be sufficient. If money and valuable prizes are shot for the crack marksmen are apt to degenerate into Gadwin, Iosco, Isabella, Mecosta, Midland, Ogewhat they call "pot hunters" in England-that is, experts who seldom shoot unless there is a rich stake to be won. These are objectionable, not only as opposed to the principles of amateur sport, but because such people deter others from competing. But that danger can be easily obviated. Skill and democracy are the keynotes as rifle shooting is organized today. Prizes are kept down to inexpensive trinkets. In England the standard prize seems to be a silver spoon, worth perhaps a dollar. In cases where wealthy men have offered valuable prizes to encourage competition among clubs the riflemen have said that they would much rather have improved ranges and facilities for practice.

Special matches, particularly shoulder to shoulder matches with neighboring clubs, are interesting and furnish an indirect motive for practice, inasmuch as the honor of shooting for in the State Legislature for the losco Representaone's club is generally coveted. Telegraphic and mail matches are a somewhat less interesting substitute for shoulder to shoulder matches.

Match teams are usually selected and controlled by the club captain, who should be elected annually. Unselfish enthusiasm and a suave temperament are more essential qualifications in a captain than great skill in shooting. Indeed, it is on many grounds preferable that the captain himself should not shoot in matches. In selecting a team he should give preference to consistent shots rather than to those who are in the habit of alternating more brilliant performances with bad breaks, and when meeting weak opponents should take the opportunity of encouraging the more promising of his improving members by including them in his team.

Hats Off to the Ladies.

Your club should be conducted for all classes and give everybody ample scope, according to his skill. The women and girls can give tone to the club by their presence, even though they are on the range but one night a week. They are splendid organizers, too, and the club that has their co-operation and interest is fortunate.

Women and girls now participate in bowling everywhere, and rifle shootprovide a working capital of \$250, and ality of mankind neither possesses ex- us all with equal ability, and no ing calls for far less physical exernerves and good thinking. Women's work in sewing and similar feminine occupations makes their eyes truer than those of most men. With a little practice they learn to shoot very well. In the New York high schools many of the girls qualify as "marksmen." Make your appeal remembering that women are proud of their achievements as women. Man is individualistic. What men as a sex are doing in the world doesn't interest him very keenly because he has pride chiefly in what one man is doing, and that is himself, or what a group of fellows do who make up his crowd. But women will join the organization as women and work for it on that basis.

Community Life. A good rifle club should be someof shots in the competition. For ex- thing more than an organization for ample, if A in a few targets scores the benefit of its members alone. 282 points in thirty shots, the average It can be made a very fine influence value per shot is 9.4. Mortgage Sale.

WHEREAS, David Londo and Tobyas Londo, both county. Michigan, made and executed a certain mortgage, bearing date the 3rd day of May, A. D. 1911, to the State Bank of Croswell, which was recorded in the office of the register of deeds of losco county on the fourth day of May, A. D. 1911,

And whereas the amount claimed to be due on aid mortgage at this date is \$4,728.90, and no suit or proceeding has been instituted at law to reover the debt now remaining secured thereby, or my part thereof.

And whereas, default has been made in the payment of the money secured by said mortgage, whereby the power of sale contained therein has become operative.

Now, therefore, notice is hereby given that, by

virtue of said power of sale, and in pursuance thereof, and of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the mortgaged premises, at public vendue, to the highest bidder, at the front door of the court house at Tawas City, in said county of Iosco, that being the place of holding circuit court within said county, on the 18th day of January, A. D. 1915, at 3 o'clock in the afternoon. The premises described in said mortgage are as follows: Lots three (3), four (4) and five (5) of Section thirty (30), and the northwest quarter of the northwest quarter of Section thirty-one (31), all in township twenty-three (23) north, of range

### Facts Worth Knowing.

THE PANAMA CANAL.

The United States began the construction of the Panama canal May 4,

January 1, 1915.

Estimated cost is \$375,000,000. A force of about 36,000 men have

been employed.

It is estimated that 5,000,000 cubic yards of concrete were used.

Excavations made by the French has saved the United States about one year's

work on the canal. Ten million dollars were paid to the

Republic of Panama for the Panama Canal Zone, the area of which is 436 square miles. In going from New York to San Fran-

cisco, 7,873 miles are saved by passing through the canal.

The Pacific entrance is about 221/2 miles west of the Atlantic entrance.

The length of the canal from deep water in the Pacific to deep water in the Atlantic is 50 miles.

In passing through the Panama canal ships are elevated 85 feet.

Three hundred feet is the minimum

## Wise and Otherwise.

Indian clubs are said to be good for the liver. Social clubs are not.

### Awful Queer.

The longer I linger the more I discern that this world of ours is an awful queer concern. It's a crime to pick a man's pocket, but it's perfectly right to pick a man's wages on Saturday night, for the laws are constructed wherever I've been, that the workers are made for the grafters to skin. If you murder in war than your valor is sung-if you privately murder you're doomed to be hung. If a man tells the truth then the people get tired; if he tells them a myth why they say he is inspired. It's a funny old world wherever you turn; it's a devilish twisted and awful queer concern; it's badly mixed up and it's all out of tune, and must be a sight to the man in the moon.

## Field Sports.

When you keep a boy interested in football, baseball, tennis, and the like, you lessen the chances that he will get

Saturday, October 31.—Luther posts his interested in things not so good for him. The Youth's Companion, since its enlargement, gives generous space to this matter of athletic training, and gets the

best coaches in the country to write for it. ## A MERE INCIDENT

"Well, Mike, an' how's the new b'y?" inquired the other fireman.

head, and then replied: "Oh, be Hivins, the finest in the wor-r-ld! Father Casey was in this mor-r-nin', an' he says ter me, 'Mike

Ferrel, says he,

'ye have the big-

blue shirt over his

an' that's no lie,' says he. "I'm worrited about Norah, though; she ain't a bit well," Mike continued, the happy look of the proud father giving way to the troubled one of the

husband and provider. "I don't like the way the docther looks at her," he said. "She's not sthrong, poor gyur-r-l. I had a bit o' money saved up for this, but Katy got diphtheria an' that tuck it all, so now I haven't a cint; an' I'm owin' a good

bit around, too. "Ah, well," he continued philosophically, as he picked up the heavy slicebar and tackled the first of his dirty fires, "it's good I have a stiddy job." After the fires were cleaned and the

fire-room washed down, Mike remarked to his mate: "I ain't had a wink o' sleep these two nights; I'm fitter ter be home in today than afore these b'ilers.

with this rotten coal; but I dassen't lose no time now for a spell." The conversation was interrupted by the opening of the engine-room doora bare crack. A hand and the griz-

zled beard of old Ferguson, the chief, protruded for a brief instant. "Hey, ketch this!" he called in a stage whisper, as he flung his pipe into the yawning emptiness of the fireroom with a fatalistic confidence that

was inspiring. It seemed as if the entire plant always ran with clock-like smoothness precision until the very minute the superintendent entered on his in-If there is a reason to believe that the remaining weeks of 1914, also The spection tour; then the most unexpected things would happen, giving that fiery-tempered official occasion to berate all concerned. Now, Mike could hear his high-pitched voice, reading the riot act to the chief inside.

After half an hour, the tumult within having subsided, it was believed "His Nibs" had gone without bothering their department, an always hoped for, but seldom realized, experience.

Mike threw his brass-cleaning equipthe wall. He was completely worn out. The fire-room was warm and the air heavy with evaporation from the wet floor. Almost immediately he dozed

off, standing upright as he was. flung wide open. A tall, bony, stoop- finish. shouldered man, his face nearly hidden by a fiery red broom of a beard, stood don't keep her for breeding purposes squarely in the doorway, both hands as there is positively no profit in in his overcoat pockets, glaring sav- breeding to this class. In the first

agely into the fire-room. The super's eyes at once nailed the sleeping man. Not a facial quiver betrayed his intentions. Slowly, deliberately, he entered the fire-room and traversed its length, scanning every detail with a quick, comprehensive

A long, bony finger shot out from the superintendent's side and bored a hole between Mike's ribs. The big fireman's eyes came open slowly, and, to a disinterested spectator, the transformation that passed over his features would have appeared comical. "Hey, how long have you been

"S-o-r-r?" asked bewildered Mike. "How long have you worked here?" "Goin' on eight years, s-o-r-r."

"What time do you get relieved?" "At twilve o'clock, s-o-r-r."

"All right; when you go out, you stay out, do you hear?"

"Yis, s-o-r-r." As the superintendent flitted away to deal to Darby and the coal-passer their respective doses of venom, it suddenly dawned upon Mike that he was discharged. The spirit of murder welled up in his heart, but he restrained it. Nobody had ever accomplished anything by an appeal to His Nibs, except to add to that amiable gentleman's gratification-but Mike's

need was desperate. For the sake of Norah and the baby, he would humble himself. Choking over two and a half pounds more at back the desire to kill, he feigned hu- three months of age than the gain of mility and approached the tyrant.

"Av ye plase, s-o-r-r, Mr .-- " talk from you; your steam is two pounds low now."

away from me; you're drunk." appetite for blood merely whetted.

bency, he kept muttering to himself: get lambs. "An' me wid on'y wan day's pay

airned." When the relief came in at noon. Billy Doyle slapped him on the shoul- sential to successful breeding, and if

about? Have His Nibs been troo?" wearily: "He have."

## HEAVY HORSE IS PROFITABLE

Farmer in These Days Cannot Afford to Spend Time With Light Team -Labor Too Scarce.

For both farm work and for sale, the heavy horse is a good money maker. In past years the so-called "fast horse" was the ideal animal, but now the automobile on the farm has driven the running horse out of busi- to vote. ness. The carriage horse of today state, to be known as Sec. 10, relative to the incoris a heavier animal than in days poration, regulation and supervision of fraternal

in the field, or who hauls loads on the

Three Good Draft Mares.

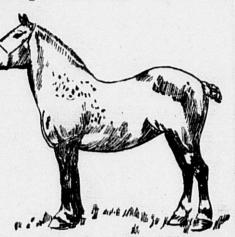

road, cannot afford to spend his time with a light team that can draw only a small load. Labor is too scarce and high priced. Deeper plowing and more work must be done on the same acreage. It is imperative that heavier teams must be used.

For a number of years the weight of best selling horses on city markets has steadily increased. Only a few years ago horses weighing from 1,200 to 1,400 pounds each were considered large enough for heavy teaming. Now the demand is for horses weighing from 1,600 pounds to a ton. No city company can afford to hire an expensive man to drive a light team. Increased supply and commercial products has brought this condition.

For these reasons the heavy horse the importing and breeding of heavy horses has been taken up on a large scale. But the demand for heavy horses has always exceeded the supply. Good heavy drafters weighing a citizen of the United States two years and six around 1,800 pounds find ready sale months prior to said last named day, and every civilized male inhabitant of Indian descent, a at over \$300 and real choice ones of this class in the largest cities bring from \$400 to \$500.

There is every evidence that the ment in a corner and leaned against heavy horse is the coming work animal for both farm and city and that good prices will hold, if not increase, for years to come. The farmer who is in the field for

making side money from his horses Suddenly the engine-room door was will be wise to breed for weight and H you own an undersized mare

place, it will be a miracle if the colts from them ever gain sufficient size to make what is termed a marketable horse. Too many farmers breed to these undersized mares and in conse quence fail most signally in horse raising-that is, from a business point

## PURE-BRED VS. SCRUB RAMS

Results of Test Made at Missouri University Show Poor Animals Curtail the Incomes.

The University of Missouri has published a circular giving results of a test in which pure-bred rams were compared with scrub rams as producers of lambs. The average gain of lambs sired by a pure-bred ram was lambs sired by a scrub ram at four months of age. And the scrub lambs "Get out-get out-I don't want any ate 59 per cent. more grain than the lambs from a pure-bred sire. On the market the better-bred lambs brought "But, s-o-r-r, I on'y wanted ter ax \$7.35 per hundredweight, while the scrubs brought \$4.50 per hundred-"Shut up-shut up, I tell ye-get weight. The use of pure-bred sires has been advocated for so long and the Having thus glibly pronounced the economy of using such rams has been doom of a family, His Nibs hastened so repeatedly demonstrated that it to the office of the chief lineman, his would seem that such tests were no longer necessary. But still many As Mike packed up the traps that sheep-raisers deliberately curtail poshad accumulated in his closet during sible incomes from their flocks by his more than seven years' incum- using cheap rams-anything that can

## ALL ENGAGED DAIRY BUSINESS

Making butter on the farm is rapidly becoming a thing of the past. Any housewife knows what it means of drudgery to make good butter, and what difficulties she encounters in her attempt to find a satisfactory market for her product. Her outlet is limited. The creamery has every large city on the continent within its reach. The creamery is plugging every day for the interests of the dairy farmer as well as for its own.

We are now in the midst of our third season and business is humming. Prices are good and the outlook fine. We are making nearly four times as much butter as we did in 1912. That also means that we are able to handle your cream to the very best advantage for you. Come and see us or ship us a can. We know we can please you.

Highest Merit, at prices that you would pay for mail-order and other inferior machines. The Iosco Creamery Company

The Tawas Herald, \$1.50 Per Year

Tuesday, Oct 13, 1914.

The board of supervisors of the county of Tawas City, said county, on Tuesday, October 13, 1914, pursuant to adjournment from

Present-Supervisors Auschuetz, Bartlett Burt, Belknap, Carlson, Cowley, Culter, Davison, Dickinson, French, Hartingh, Hot-Nunn, Oakes, Searle, Schneider, Westervelt.

The clerk read the minutes of yesterday's proceedings and there being no objection

mously approved. The clerk read a communication from the Michigan Trunk Line Highway Association asking for an appropriation of \$25.00

that communication be laid on the table Carried by unanimous vote.

ANNUAL REPORT OF COUNTY DRAIN COM-MISSIONER.

To the Hon, Board of Supervisors:

along said sec. line on east side about ed to Arenac county. 100 rods, thence across sec. 20 in a 2. The McMullen drain: commen- Oct 1st, 1914, By Balance

to have the driftwood removed from county surveyor.

4. The Burleigh drain, commencing on the west bank of the AuGres river, the said point of beginning is south 33 degrees 15 min. east 1500 feet of the 1 post between secs. 30 and 31, T 21 N, R 6 east, thence running in a northwesterly direction to the town line between Sherman and Burleigh townships, thence across feet north of corner of secs. 26, 27, 34, and 35. Total length of drain is 16,608 feet. Contractor on this drain branch running in a northerly direcsame according to specifications.

The following named drains have during the year, for the reasons given n e corner of the se 1/4 of s w 1/4 of in each instance, to wit:

1. The Alabaster drain, commencing 80 rods north and 20 feet east of the sec. corner of sec. 21, 22, 27, and 28, thence south between sec. 21 and 22, 27, and 28, 33, and 34, to the county line, T 21 north, R 7 E, thence west along north side of county line to the corner of sec. 1 and 2, Whitney twp., side of said sec. line to the sec. corners of secs. 11, 12, 13 and 14, thence east 30 feet north of sec. line be-This being an inter-county drain tra-I could not get Mr. Agans to do any. found practicable will then proceed to thing further towards establishing establish same. I. Sawyer to the preliminary work of quired by law.

this drain, who on Jan. 5th and 6th, proceedings had thus far in regard to mencing at the sec. corners of secs. this drain, and also went over the 20, 21, 28 and 29, Sherman twp., route of drain line with myself and thence running south on west side of Ine board of supervisors of the city of Mr. Agans, and after submitting his said sec. line road between secs. 28, report to the State highway com'r, 29, 32 and 33, to the west branch of said State highway com'r ordered me AuGres river, said drain not establishesterday.

Board called to order by chair and roll to have that part of drain in Arenac ed for the reason that petitioners did co. of which Mr. Agons had the sur. not get the required number of signvey made, resurveyed, as Mr. Agans ers. as required by law. did not follow the route as given in And I do hereby certify that the above tois, Lockhart, McAuliff, Misener, Myles, application for said drain, and also neglected having profile made show ing elevations on that part of drain in gun under my supervision, or applied Arenac county. Said re-survey in for during the year now ending, and they were declared by the chairman unani Arenac county was completed on June that the financial statement of each 27th, and as soon as possible there- drain submitted herewith is true and after forwarded map profile and other correct. All of which is respectfulpapers pertaining to said drain to the State hwy. comr., who on July 31, Moved by Myles supported by Anschuetz 1914, made his determination, determining that said drain was necessary and conducive to public health, con-

venience, and welfare. And whereas, the drain commissioner of Arenac Gentlemen-In compliance with county and myself could not agree on the provisions of the statute in such the just per cent. that each county case made and provided, I have the should bear of the whole cost of drain. honor to submit my annual report as I therefore on the 20th day of August, County Drain Commissioner of said 1914, appealed to the State hwy. county of losco, covering the period comr. to set the per cent. that each from Oct. 1, 1913, to Oct. 1, 1914: county should bear, after sending an The following named drains were engineer from his department to look left unfinished at the date of my last over the assessment district in both report, to wit: the County Line drain, counties, did on the 8th day of Sepcommencing on the west bank of the tember make his determination that west branch of AuGres river, on the losco county shall bear 46 per cent. north side of county line road be- and Arenac county 54 per ct. of the tween Turner and Sherman twps., cost of said drain, which I consider thence running west along said county a fair and impartial decision. Since line road a distance of 173.14 chains. that time I have tried to get the drain Said drain has been completed and ac- comr. of Arenac co. to proceed in cepted, by the drain commissioner and conjunction with myself to establish said drain, but cannot get him to do 2. The Pringle drain, commencing anything in the matter., and I am at the Gregory drain on north side of about to make an appeal to the State highway between secs. 21 and 28, T. hwy. comr. to have his department do 21 N, R. 6 east; thence running west Mr. Agans' work on this drain and, along said sec. line to sec. line be- if possible, have the expense of said tween secs. 21 and 20, thence north department's work on the drain charg-

northwesterly direction to D & M R R. cing at a point in the east branch of Total length of drain is 11,353 feet. AuGres river, which is 119 feet north Said drain has been completed and ac- and 94 feet east of the east 1/8 post cepted by drain commissioner and coun- common to secs. 25 and 36, T 21 N, R 6 E, thence in a northeasterly course 3. The East Branch drain, com- across the se 4 of the se 4 of sec. mencing at a point where D & M Rail. 25, to the east side of town line beway crosses East Branch river in sec. tween Sherman and Alabaster twps. 10, thence southerly following course thence north along said town line to of river across secs. 10, 15, 14 and the 4 post between secs. 19 and 24, 23, this part of drain was let in order thence in a northwesterly direction across the se 1 of the ne 1 of sec. same. Thence commencing at a point 24 to the 1 post in center of the n e on the south side of sec. 23, 710 feet 4 of sec. 24, thence along 1 line on west of corner of secs. 23, 24, 25, east side running south to the 1/8 post and 26; thence running in a south- on east and west 1 line of sec. 13, easterly direction to place of ending, thence north 10 deg. west 2806 feet which is 1020 feet east and 300 feet to end of drain, which is north 87 north of the 4 post on south side of deg. and west 579 feet, of east 1 post sec. 25; this part of drain is a dredge common to sec. 12 and 13, T 21 N, R cut with a 20-foot bottom, total 6 E. Total length of drain is 16,934 length of dredge cut is 6,889 feet. I have had a survey made of Said drain has been completed and ac- this drain, and would have had the cepted by drain commissioner and same advertised for letting but all the parties through whose lands the drain traverses not having signed the release of right of way, I have now an appeal pending in the Probate of Iosco county for the appointment of three special commissioners to determine the necessity therefor, and for taking of private property for the use and benefit of the public.

3. The Grass Lake drain: Commensecs. 6, 35, and northeast corner of cing at a point 40 rods west from the sec. 34, Burleigh twp., to place of corner of secs. 9, 10, 15, and 16, in ending, which is 225 feet west and 20 the township of AuSable, where said corners intersect, thence running west 77 rods into Grass lake, thence one has got same dug through to the State tion about 160 rods and the other road, leaving about 30 rods more to branch starting at the same place as dig on upper end of drain, but on ex- said first branch but running in a amination find that about two miles southerly direction about 460 rods, of the drain has not the required and that the channel of the dead Auwidth as given in the specifications Sable river; the proposed outlet from and contract and have given contractor drain be cleaned out from the outlet to the 25th of October to complete of said drain to Lake Huron. If the above proposed route is found to be not feasible, then the following route been applied for, but not established is to be adopted: commencing at the sec. 9, T. 23 N R 9 east, thence running northerly through secs. 16 and 9 to the outlet of what is known as cold creek in the se 1 of sec. 9; thence following the course of said cold creek to a point in the ne 1 of the ne 1 of sec. 9, where the D & M Ry crosses said Cold creek.

After receiving the application for Arenac county, thence south on west the above mentioned drain, I returned same for correction, then for more signers, and as Grass lake is a meandered lake and the applicants for said tween secs. 12 and 13 to Saginaw drain whose land abuts on said lake bay, that being place of ending. did not want the drain established unless the land from said lake after it versing the township of Alabaster, was drained would revert back to the Iosco county, and the township of lands abutting on same. It took some Whitney, Arenac county. This is the time to get the Attorney General's same drain I mentioned in my last an- opinion in the matter; his opinion is nual report, in which report I then that the land from said lake after it stated that I could not get Mr. Agans, is drained will revert back to the lands the drain comr. of Arenac co. to pro- abutting on same. I have mailed a ceed to establish same. Mr. Agans copy of said application to the twp. had a survey made of that part of clerk of the Ausable twp., and if the drain in Whitney twp., and I had a twp. board of that twp. acts favorably survey made of that part of drain in on same, I will have a survey made Alabaster twp. in August, 1912; but of the above proposed route, and if

same. On Dec. 6, 1913, I appealed 4. An application for a drain in to the State highway commissioner Baldwin twp., signed by Chas. Zink Saturday. in the matter, asking him to make his and others, drain commencing in sec. determination as to the necessity of 13 and running into Cold creek, apthe said drain. Mr. Rogers, the State plication returned for not having the highway comr., then detailed Mr. K. required number of signatures, as re-

5. An application for a drain sign-Supervisors' Proceedings. this drain, who on Jan. 5th and 6th, 5. An application for a drain sign-

embraces a full and true report of all the drains constructed, finished, or bely submitted.

money as needed to an amount not to exceed \$6,000.00. Carried. Yeas 18, nays 0. (Continued Next Week.)

# MICHIGAN'S CALL TO GOVERNOR FERRIS

## The MICHIGAN PATRON, organ of the State Grange, says---

"Governor Ferris acted wisely in signing the appropriation bills.

"The needs of the state institutions had become acute, because of the cutting down of appropriations of the previous session."

## Former Republican Governor Fred M. Warner,

In a letter to the Republican State Committee, October 9, 1914, declining to campaign for Osborn, said---

> "Mr. Osborn has already severely attacked Governor Ferris in many particulars, not only unjustly, but in a way that will injure the chances of election of every Republican member of the legislature who is up for re-election.

> "The former governor has stated that the appropriations by the last legislature were \$3,000,000 more than was necessary. Any reasonable man knows that this is not so. Such a cut could not have been made without injuring state institutions. There are too many untrue and insincere statements going around, and in this campaign they are apt to center mostly around the governorship fight, so I prefer to keep out."
