A Merry Christmas

COUNCIL ACT QUESTIONED

Let Steel Contract Without Securing Bids as Required by Statute.

Considerable dissatisfaction has been manifested during the past two weeks over the action of the city council at the special meeting held Thursday evening, Dec. 10, when the purchase of \$1700 worth of steel for bridges across the river on Third street and Mathew street was authorized. There is a serious question as to the legality of the proceeding and an emphatic protest will undoubtedly be made if the council attempts to carry out the transaction as authorized at the special meeting.

It appears that a representative of the Beach Mfg. Co. of Charlotte, Mich. came into the city on the date mentioned and held a conference with the mayor, who ordered a special meeting for that evening to consider the proposition. The meeting was held and the council voted to award the contract to the Beach Mfg. Co. at \$1700, without attempting to secure figures from any other source.

In letting this contract the council acted as a board of public works, and the law is very specific as to the method to be used by that body in awarding contracts for public improvements. Following is the text of the law as given in paragraph 3271 of the compiled laws of Michigan:

"Whenever the expense of constructing or repairing any public work placed under the control of the board of public works shall not exceed the sum of two hundred dollars, the work shall be done by such board in such manner as they may deem proper; but whenever such expense shall exceed the sum of two hundred dollars, then the said board shall submit the plans, diagrams, profiles and estimates thereof to the council for their approval, and when so approved the board shall, subject to the approval of the council, cause such work to be done by contract, or otherwise as they may deem proper; PROVIDED, That if the expense shall exceed the sum of five hundred dollars, the board shall advertise for sealed proposals, and shall give such notice as the council may direct, and shall let the contract to the lowest responsible bidder who shall be deemed competent to do the work and give adequate security for the performance thereof, which contract and security shall be approved by the council."

Manifestly, the construction of these bridges should have been the business of the board of public works, but as the council chose to assume the duties of that body they should have proceeded along the lines provided by law.

There were no plans or specifications submitted to the council, nor approved by them, except the plans shown by the agent of the Beach Mfg. Co., nor did they advertise for or secure bids from other than the one firm. It is altogether likely that had they advertised in some of the trade magazines reaching bridge and steel manufacturers, a much better figure could have been secured. At any rate it was the duty of the council to secure such bids before letting a contract calling for so large an expenditure of the taxpayers' money. If one of these men who compose the council intended to build a house he would not accept the figures of one contractor only, but would consult others before letting the contract. And because the money to be spent comes out of the community at large is no reason why the same caution should not be used as in private business.

There is no question but that these bridges are badly needed, but those in charge of the work should make sure that they are getting full value for the money expended.

We would like to hear the views of others on the subject and the columns of the Herald are open to either members of the council or others who may wish to express an opinion.

School Children to Memorize National Anthems.

County School Commissioner Campbell received recently from the state superintendent of public instruction the following letter which is self-explanatory. The plan outlined therein is an excellent one and should receive the hearty co-operation of every teacher in the country.

Lansing, December 1, 1914.
To County Commissioners of Schools,—
I am convinced that the people of our state are not familiar with our national anthems. In thinking over the matter I have come to the conclusion that the only remedy is to have the children memorize the songs. We all know that anything which is committed to memory in childhood is seldom forgotten. I am therefore about to request the school men and women of the state to assist in carrying out a campaign of two weeks' duration in which the school children of Michigan shall memorize "America" and "The Star Spangled Banner." The second week in January, 1915, is to be used for memorizing "America" and the third week in January for "The Star Spangled Banner," one day being devoted to committing a stanza and the whole song to be sung on Friday.

I trust that you will at once take this matter up with the teachers of your county and make sure that the plan is carried out. A little later I will send you a package of leaflets containing copies of each of the songs and these should be distributed among the rural schools of your county. I have mailed copies to the city and village superintendents. I have had the songs printed for distribution in the schools because I have found that in many cases the correct words are not used.

I am sending letters to the G. A. R. posts and chapters of the Daughters of the American Revolution, telling them of my plan. In this way I hope to arouse an intelligent interest in these two songs which should be entirely familiar to every resident of Michigan.

Yours very truly,
FRED L. KEELER.

A Terrible Accident.

Fred Lomas, a fireman on the D. & M. Ry., was the victim of a terrible accident last Tuesday morning. The freight was at Pinconning and while Mr. Lomas was taking water the iron waterspout of the tank hit him in the forehead, cracking the skull. He was thrown backward and fell off the tender into the cab, striking his head on a piece of iron cutting a great gash in his scalp and cracking the skull back of the ear.

When the engineer found him he was unconscious, and the freight backed up with him to Bay City, where he was taken to Mercy hospital. He was so seriously injured that he was not expected to live until night. Later reports state that his recovery is still doubtful, but Mr. Lomas has a strong constitution and it is hoped that he will be able to leave the hospital soon. The doctors say that as things look at present he may be moved to his home in two weeks time.

SHERIFF FOR TEN DAYS

Supreme Court Reverses Circuit Court Order and Reinstates Jordan in the Office.

The latest phase of the famous Johnson-Jordan case, to decide who was legally elected sheriff of Iosco county in 1912, developed last Friday when the supreme court handed down a decision in favor of Jordan, and sending the case back to the circuit court for re-trial.

The decision reversed the order of the circuit court and ordered that Jordan be reinstated in the office pending a new trial. This was done Tuesday of this week and Jordan is now in possession of the office until Jan. 2, when Johnson will again assume the office by virtue of his election in November.

The history of this case dates back to the election of 1912, when Johnson was elected on the face of the returns by a majority of two votes. Jordan called for a recount and when this was concluded it showed that Jordan was elected by nine. Johnson claimed that the ballot box in Sherman township had been tampered with between the time of the election and the recount, and took the matter into the circuit court to be decided.

In the first trial, held in Iosco county, the jury disagreed and a change of venue was then made and the case tried in Alcona county. That jury rendered a verdict in favor of Johnson, and the court thereupon issued the order ousting Jordan and placing Johnson in the office. The case was then appealed to the supreme court by Jordan, with the result above stated.

Much criticism has been heard in all quarters, regardless of party, upon the delay of the supreme court in deciding this case, which was submitted to them last January. The case has already put the county to a considerable expense, and there is a question as to whether Jordan cannot recover the fees of the office during the time he has been out, which would mean additional expense.

We are not informed at present as to whether Johnson will call for the retrial ordered by the supreme court or not. The only question which this would decide now would be the responsibility for the costs in the case.

M. E. Sunday School Officers.

The election of officers of the M. E. Sunday school was held last Sunday and the following officers were elected for the ensuing year:

Asst. Supt.—Mrs. Thomas Davison.
Secretary—Elizabeth J. Mark.
Treasurer—Lulu Murphy.
Organist—Addie Hunt.
Asst. Organist—Lulu Murphy.
Chorister—James F. Mark.

Of Interest to Women.

There is nothing better to remove tar from white clothing than lard. Rub it well into the spot and then wash it out with soap and warm water.

When you find fruit stains on table cloth or napkins wet with a little camphor. If this is done before the stain has been wet with water it will entirely disappear.

Cut brown bread in rings and spread the following mixture between the slices: A can of mushrooms cooked in a rich white sauce. When done take mushrooms from the sauce and spread between buttered slices of the bread. Serve with browned slices of onion that have been fried in butter. This is a hearty sandwich, and very good.

TAWAS CITY, MICH., DEC. 25, 1914

The need of some more speedy method of handling cases in the supreme court of Michigan is amply exemplified by the decision just handed down by that august body in the Johnson-Jordan case. This case was heard in the supreme court last January, and it has taken the judges nearly a year to arrive at a decision. During that time the man whom they decided was rightfully entitled to the office has been kept out and deprived of whatever honor may be connected with the office and also the emoluments thereof. The Herald, as an independent newspaper, holds no brief for either party to the controversy, but it is a manifest injustice for a man to be denied his rights so long through the inadequacy of our courts to handle the matter more speedily. And this is not an isolated case by any means, but is only a sample of the manner in which nearly all the business of the supreme court is handled. The judges might well take a lesson from some of the financiers and business men of the country, who do not take a year to make up their mind on a given subject. If they did the wheels of progress would move rather slowly.

Charitably inclined people who have been investigating conditions in Tawas City state that they fail to find a single case of real poverty in the city. There are many families who have no more than they really need, but as for absolute destitution there is none. This is a condition to be truly thankful for on this glad Christmas day, yet we should not be content to sit down in smug satisfaction, for undoubtedly there may be found some homes where Santa Claus has not made his annual visit and where there are little ones to whom the gift of a toy or so would give untold happiness. If you know of such it is not too late even today to open your heart and purse-strings and bring joy to "one of the least of these," who were so beloved by Him whose birthday we celebrate today.

The saloon business received a hard wallop from the supreme

court last week when it held that it was unlawful for saloon keepers to sell liquor to students anywhere. The case in point was from Ann Arbor, where a saloon keeper had sold liquor to one of the U. of M. students. This decision will undoubtedly put out of business many of the saloons in college towns where a great deal of the trade came from students.

Only two Michigan congressmen voted to cut out the mileage graft when the question came to a vote on the floor of the house last week. The bill was defeated by an overwhelming majority, showing conclusively that the members of congress believe in getting all they can while the getting is good. They may not be returned for another term, you know.

John D. Rockefeller is getting a lot of credit these days because he is using some of his millions to send relief to the suffering Belgians. That's all right, but where did John get those millions? The people who really gave the money are not being thought of in connection with the philanthropy.

Colds are Often Most Serious-- Stop Possible Complications

The disregard of a cold has often brought many a regret. The fact of sneezing, coughing or a fever should be warning enough that your system needs immediate attention. Certainly loss of sleep is most serious, it is a warning given by nature; it is man's duty to himself to assist by doing his part. College Training For Michigan Farmers.

Beginning January 4 there will be offered at the Michigan Agricultural College five separate courses along agricultural lines. These include General Agriculture, Creamery Management, Fruit growing, Poultry Husbandry and Cheesemaking, and are each eight weeks in length. Nearly 3400 men have taken advantage of the opportunity offered since the organization of these courses in 1897, which is evidence of their popularity.

These courses are offered during the winter months when it is most convenient for the farmer to leave home and aside from the direct benefits from the class room and laboratory work, many opportunities will be offered for his education and entertainment while at M. A. C.

The new dairy building is complete in every detail and its splendid class rooms and laboratories will be available for those taking work along dairy lines. The laboratories in soils, farm crops, farm mechanics, entomology, chemistry etc., will all be utilized to make the courses complete and the herds of cattle, sheep and swine will be available in the study of live stock problems.

No entrance examinations are required, thus making it possible for every man who has a desire for more knowledge along his chosen line to better prepare himself for his work. The expense is surely very reasonable, there being a course fee for residents of Michigan of \$5.00 and for non residents \$10.00.

Some of the subjects to be considered will be the feeding, breeding and care of live stock; formation and treatment of soils, farm crops, forge and bench work, fruit growing, poultry husbandry, creamery management, cheesemaking, forestry, farm engineering, and farm management. All work is made intensely practical and is, therefore intensely interesting. Those who have taken the work in the past have returned to their homes with a new vision of the possibilities of the farm.

About 35 of the friends of Charles Woyahn, including a load from Tawas City, gathered at his home in Laidlawville Tuesday evening to assist him in celebrating his 49th birthday. The evening was pleasantly spent with music and games and a fine lunch was served at midnight.

The Herald editor received this week from the Bureau of Printing, Manila, Phillipine Islands, a beautiful calendar printed in fine colors and embossed. Besides the regular calendar leaves showing the days and dates, there are several extra leaves giving weather information, typhoon signals, rainfall, temperature and conversion of time. It is a work of art, and a card accompanying it states that the calendar in its entirety is a product of the Bureau of Printing, Manila. It was sent with the compliments of John F. McLennan, a former Tawas City boy, who started his trade in the Herald office and who now holds a responsible position in the Bureau of Printing, Manila. Thanks John.

RESOLUTIONS.

Sorrowing over the loss of their fellow member, William McDonald, who has been called from the shadow of earth to the sunlight of an endless day in the home above, the Reno Gleaner Arbor regrets his death, and deem it most fitting to express their sincere sorrow and sympathy to the wife and family.

May the memory of his life and character be a benediction as the days go by and they long for the touch of a vanished friend and a sound of a voice that is stilled.

Be it resolved, that a copy of these resolutions be sent to the bereaved family, also spread upon the minutes.

An article in the Las Vegas Daily Optic of Dec. 14 will be of interest to Tawas readers. C. H. Bailey, a prominent business man of Las Vegas, New Mexico, died suddenly Dec. 13. Mrs. Bailey was formerly Mrs. Cora L. Mann of this city. Her father, Henry Bearinger, was owner of the Bearinger mill in East Tawas many years ago. Cora Bearinger was married in this city to Mr. Mann, who was employed as druggist in Jas. E. Dillon's store. Mrs. Bailey worked in the postoffice at the time Jas. E. Dillon was postmaster. She was one of the most popular of the young ladies of the Tawasites at that time and very well liked by all her friends. About twenty years ago they moved from here and resided at Ann Arbor for a time, later moving to New Mexico.
