East Lansing suffered two disastrous fires Sunday, when the engineering building belonging to the M. A. C. was destroyed entailing a loss of \$250,000 and the East Lansing high school burned with a loss of \$13,000. It is believed that the fires were of incendiary origin.

The Women's Society of the Baptist church will serve a St. Patrick supper Friday evening, March 17, in their rooms. These suppers are always good, everyone is invited. The society needs the money. The price is 17c if you make your own change, otherwise it might cost more. adv

As stated a few weeks ago, Henry Kane of this city has secured the agency for Dodge Bros. automobile. Mr. Kane now has some of these cars in stock and has already made some sales. It is claimed that for the money the Dodge Bros. car is not excelled, and Mr. Kane anticipates an excellent business the coming season.

J. H. Foote and B. L. Huff of Jackson, representatives of the Consumers' Power Co., have been in the Tawas this week making estimates as to the power which will be used here. These gentlemen state that work on the construction of the line will be started very soon and that it will probably not be more than three months before the company will be furnishing power here.

The Herald is in receipt of a copy of the Dogwag Daily News, in which the announcement is made that a controlling interest in that paper has been acquired by Harry H. Whitely, formerly of the Presque Isle Co. Advance, and representative in the last legislature from the Presque Isle district. Mr. Whitely's friends will be glad to learn of his continued success in the newspaper field and wish him every success.

W. W. Britt of Turner was in the city on business a couple of days this week and was a pleasant caller at the Herald office. Mr. Britt is one of the progressive farmers of this section of the country. He informs us that he raised last year over 600 bushels of beans on 30 acres, despite the wet weather which destroyed two or three acres. This year with the help of a Mogul tractor he expects to plant 75 acres of beans. He is very enthusiastic over the tractor question, and claims that if he can raise 10 additional acres of beans it will pay for his tractor. Mr. Britt also has 95 head of cattle, 40 of which are milk cows which are milked with a machine. He states that he will be able to turn off about 30 head of young stock every year hereafter, as he raises all the calves from his herd.

The past week has been observed in the Iosco county schools as "tuberculosis week." Special attention has been paid to teaching the pupils how to take care of themselves so as to escape the disease and literature has been distributed along the same line. This is in line with the state-wide campaign being waged by the state health department, and which is working much good in arousing the people to combat this dread disease.

NORMAL PLAY A SUCCESS.

The play given by the students of the Iosco county normal at the Star theatre on Friday evening, Feb. 25, was repeated by them at Alabaster last Friday evening to a good house. It seems to be the general opinion that one would go a long way to find a lot of young people who could put on an amateur play better than the young folks attending the Tawas City schools and Normal. The sentiment expressed by one person who saw the play that "every one was a star" seems to cover the ground as completely as possible. It would be a manifest injustice to give one actor more praise than another, for each took their part in a manner that betokened much study and attention to details. Financially the play was also successful, the entertainment netting the class about \$60 which will be used toward defraying their expenses of graduation.

AMATEUR BASEBALL LEAGUE

A meeting of the baseball enthusiasts of Tawas City was held over Ferguson's store last Saturday evening to lay plans for the forthcoming season. A movement is on foot to form an amateur league taking in the towns of Tawas City, Turner, Omer, Standish, Pinconning, Gladwin, West Branch and others if they wish to join. This subject was broached at the meeting Saturday evening and an committee composed of L. J. Patterson, Burley Wilson and Carl Samuel was appointed to attend a meeting to be held at Standish in the near future to consider the league formation.

It is proposed to sell stock to the amount of 100 shares at \$5 per share to equip the Tawas City team, fence in their grounds and otherwise put them on their feet.

Further particulars will be given regarding the proposition as soon as the meeting is held and the committee reports.

COUNTY DRY FORCES ORGANIZE

On Thursday afternoon of last week a large representation from various parts of Iosco county gathered at the court house in this city and organized the Iosco Dry Association.

A. C. Graham of Saginaw was present and gave a spirited talk on the question at issue and assisted in the organization of the association.

Officers were elected as follows: President, W. H. Price, Whittemore; secretary, N. C. Harting, Tawas City; treasurer, W. G. Richards, East Tawas; vice-presidents, V. E. Rix, Oscoda; Wm. Roberts, East Tawas; C. T. Prescott, Tawas City; H. M. Belknap, Whittemore; O. S. Nicholls, El-lake.

The local option campaign was opened at the East Tawas opera house Tuesday evening with a rousing meeting, an account of which appears elsewhere in this paper. The dry forces intend to conduct a vigorous campaign for the next three weeks and it is believed that Iosco county will go dry by a bigger majority than before.

EPWORTH LEAGUE.

Sunday, March 12, 6:15 o'clock std. time. Topic—"The Urgency of a Great Task."

Leader—Miss Elena V. Groff. You cannot afford to miss this meeting.

Big times the eighteenth and nineteenth of this month.

If you are one who is missing Bible study you are missing one of the best things we have seen in sometime. Drop in Tuesday evenings at the home of Mrs. W. H. Murphy.

A fine time was enjoyed by everyone at the business meeting last Wednesday evening and anyone who thinks that an Epworth League cannot have a good time with the minister around should have seen the bunch that night. Momentous things are going to happen as the result of the business session. A junior Epworth League will be organized next Sunday, a number of new members were taken in, many pledge cards were signed, and the League decided to buy a new organ for Easter.

FINE TEMPERANCE TALK

Large Audience Hears Dr. Cairns on "Uncle Sam on the Water Wagon."

(By East Tawas Correspondent)

Last Tuesday evening a large number of men, women and children assembled at the East Tawas opera house to hear Dr. Tim Cairns of Newark, New Jersey, on the dry question. This was one of the rare treats offered to people of small cities and was the most wonderful temperance lecture ever given in these parts. The evening's program opened with a vocal solo by Rev. Alex Anderson of Tawas City. J. H. Nisbet of Maple Ridge gave a short opening address, followed by an address by W. H. Price of Whittemore, president of the Iosco County Dry association. Mr. Price said he always chose to live in a dry city for the sake of his boys and girl and appealed to the men of East Tawas to purify their city to the extent that they remove these dangerous pitfalls from their streets. District Supt. of the Michigan Anti-Saloon league, A. C. Graham of Saginaw gave a short address and introduced Dr. Cairns of N. J.

Dr. Cairns' lecture was very instructive as well as entertaining and wit and humor were intermingled with pathos. He began by stating how interested he was in the welfare of Michigan, having attended Adrian college for five years and graduated from that institution. The following is a brief outline of the facts he brought up:

In speaking of the condition of the booze business today he said it is a beggar at the gate just crying out that it may live a little longer. The booze business is an alien of democracy, the rule of the people for democracy says to the saloon "depart from me." The big politician who stands for the booze business is there only for his own selfish interests and not for the good of the people.

Hungry childhood, ragged and ignorant, widows, sorrowing wives and mothers are waiting for justice and justice says the saloon isn't fair to the drinking man, to the tax payers, the city and the state. He spoke of people discussing the social problems. Taking one city, New York for an example. The slum population of New York is increasing by thousands, every 14th family is sent out of their homes because they can't pay their rent. There are 23 sweat shops employing 60,000 children; 70,000 children are subjects of malnutrition or in other words starvation; 516,000 men are hunting jobs; 97,000 do not own their homes. In New York City there are 14,000 saloons, one for every thirty families, more than there are in 36 states of the union.

New York spends \$1,000,000 a day for drink. This amount of money would solve the social problem. In speaking of conservation, he stated that far above all is the value of human life. The saloon takes from 100,000 to 300,000 of our boys every year. The liquor man argues that he pays the license and that \$65,000,000 a year goes into the U. S. treasury but this is money taken from other men so the liquor man doesn't pay the license. Some argue that if this sum isn't paid and liquor dealers go out of business taxes will be higher. If they should be a few cents on a thousand dollars, who would sell his boy for \$100,000 and give him to some one to make a drunkard out of him and plant him in the potter's field.

Dr. Cairns then gave a sketch of the life of a pure, happy innocent boy, the possibilities in that life, and that one boy alone is rated higher than all the millions that were ever paid for revenues. The value of a boy cannot be rated too high not if it's "our" boy.

He said if Uncle Sam didn't get "soused" every Saturday night it would help the high cost of living. Over \$2,500,000 was the drink bill of the United States last year. The farm products of the state of Michigan alone would feed the whole United States and still Uncle Sam drinks up his whole profit on farm products every 10 years. These billions wasted in liquor would help the high cost of living.

To the working man he said, "you need a clear head for your labor, your conflict"—but liquor only dulls and confuses your brain. Out of the thousands of working men every 8th man is hunting a job. The booze business employs less men and pays less wages than any other concern. A working man voting for the liquor traffic is voting against his work, his home, his wife and children, and when did a saloon keeper ever help a working man or his family when they are in need.

But some men argue that they have a right to drink as much as they like on account of personal liberty. But this personal liberty is limited by the rights and desires of others. There are limitations to our personal liberty of our own possessions. The liquor traffic is an alien of personal liberty. What about the personal liberty of wives killed by husbands crazed with drink—and children, destitute, ignorant, because of drunken fathers?

Some say prohibition doesn't prohibit—that there is more booze sold in a dry than in a wet county. If prohibition doesn't prohibit then why are the liquor men so against prohibition. They know it does prohibit. There are always more "blind pigs" in a wet town than in a dry town. New Jersey is the wettest state in the union and with 25 saloons in Newark there are 29 blind pigs. If prohibition does not prohibit altogether, is that any reason why we should not

have prohibition. We prohibit murder, stealing and various other crimes committed daily. Should we then say a law punishing murder does not prohibit, of what use is the law, or that prohibition does not prohibit.

Twenty-three years ago the anti-saloon league was organized and has been doing business since with the result that during the year 1916, 16,000 saloons have been closed up and that during this past year every 32 minutes a liquor dealer went out of business. In 1914 when national prohibition was voted upon in congress the year carried by a majority of 8 but a two-thirds majority is necessary. It takes 36 states to get nation-wide prohibition; there are 30 states now ready and 13 voting this year on state-wide prohibition.

Dr. Cairns ended with a poem of his own composition an appeal for the women and children of this country. He showed his great love for children and made a pathetic appeal to the voters that for the sake of mother and child they would vote dry and do everything in their power to make others do so.

Iosco Co. Bowling League Standing

Won	Lost	Perct.
Whittemore	1	1 .500
East Tawas	1	1 .500

On Feb. 23, 1916 it was the misfortune of Baldwin Lodge No. 377, I. O. O. F., East Tawas, to have their temple catch on fire at about 11:30 o'clock. It was on account of the late hour that it was so difficult to extinguish the fire before a great deal of damage had been done by fire and water. And it was for this reason that the bowling alley was put out of commission. It is understood from reliable source that the alley will be in A-1 condition for the fall opening and the interior of the building will also have a new appearance. This list of prize winners will be the last for the first half of the 1916 bowling season. Oct. 1st, 1916 will be the opening date for the fall bowling.

C. E. NOTES.

C. E. meeting 6:00 p. m. Sunday evening.

Topic, "Causes of Failures in Life." Leader, Mary Walker.

The reading of mission study book, "The White Man of Uganda at Work" will start at this time. Everybody welcome.

Last Sunday's topic "The Consecration of Strength," was well handled. The leader brought out very clearly the development of our physical, mental, moral and spiritual strength.

PATRIOTISM.

By Lyman Abbott.

A nation is made great, not by its fruitful acres, but by the men who cultivate them; not by its great forests, but by the men who use them; not by its mines, but by the men who work in them; not by its railroads, but by the men who build and run them. America was a great land when Columbus discovered it; Americans have made of it a great nation.

In 1776 our fathers had a vision of a new nation "conceived in liberty and dedicated to the proposition that all men are created equal." Without an army they fought the greatest of existing world empires that they might realize this vision. A third of a century later, without a navy, fought the greatest navy in the world that they might win for their nation the freedom of the seas. Half a century later they fought through an unparalleled Civil War that they might establish the inalienable right of life, liberty and the pursuit of happiness. A third of a century later, they fought to emancipate an oppressed neighbor, and, victory won, gave back Cuba to the Cubans, sent an army of schoolmasters to educate for liberty the Filipino, asked no way indemnity from their vanquished enemy, but paid him liberally for his property. Meanwhile they offered land freely to any farmer who would live upon and cultivate it, opened to foreign immigrants on equal terms the door of industrial opportunity, shared with them political equality, and provided by universal taxation for universal education.

The cynic who can see in this history only a theme for his egotistical satire is no true American, whatever his parentage, whatever his birthplace. He who looks with pride upon this history which his fathers have written by their heroic deeds, who accepts with gratitude the inheritance which they bequeathed to him, and who highly resolves to preserve this inheritance unimpaired and to pass it on to his descendants enlarged and enriched, is a true American, be his birthplace or his parentage what it may.

PARCEL-POST MARKETING

Suggestions for Producer and Consumer Each to Consider in Dealing Through the Post Office.

The farmer who wishes to sell his products by parcel post, and the housewife who wishes to use this method of securing country produce for her table, will find many useful points in Farmers' Bulletin 703, of the U. S. Agricultural Department, "Suggestions for Parcel-Post Marketing." This bulletin, in addition to explaining the postal rates and measurement limits for parcel-post matter, discusses in some detail the types of containers which are most successful, and the methods of grading and packing produce so that it will reach the consumer in good condition and be attractive in quality and appearance. In treating standards for parcel-post shipments, the bulletin tells how to select, handle, and pack poultry, and how to grade and pack the various fruits and vegetables which the average farmer is likely to market through the post office.

Along Came Ruth.

"What in the world are you trying to do auntie?" asked Ruth, seeing her aunt trying to stuff a rag into a small crack where the window was broken. "Well, I'm trying to fix this crack, can't you see?" answered the woman, plainly provoked. "If I were you," answered Ruth, "I would merely dampen a piece of adhesive plaster and paste it along the crack. That will keep out every bit of wind, and will strengthen the glass, too." "Fine," exclaimed her aunt. "That's just what I'll do." And she did.

The Road to Hell.
An old document issued by the school board of Lancaster, Ohio, in 1828, and brought to light by being recently published in "Railway Engineering," brings a broad smile to our faces as we read it, but how many of us will make application to our own time? Here it is: "You are welcome to use the schoolhouse to debate all proper questions in, but such things as railroads and telegraphs are impossibilities and rank infidelities. There is nothing in the word of God about them. If God has designed that his intelligent creatures should travel at the frightful speed of 15 miles an hour, by steam, he would have clearly foretold it through his holy prophets. It is a device of Satan to lead immortal souls down to hell."

DISCOURAGED HER.

A Kansas man says this is one of the best ones he has heard recently: "I was on a small western railroad. The train was a little more deliberate than usual on this occasion, and the only passenger besides myself was a woman, evidently a stranger on the line. She was becoming very nervous, fidgeting about, and every time the conductor or brakeman passed she would ask: "Aren't we ever going to get to W—?" "At last the conductor grew tired of it, and replied rather snappily, 'Please have a little patience madam. Why, I've been on this line 3 years.' "Before he could finish his sentence the woman exclaimed: "My gracious! What station did you get on at?"—Ex.

GAINED 17 POUNDS BY USING TANLAC

Decatur Man Tells of Most Profitable Experience With The Remedy.

After gaining 17 pounds, while taking the Tanlac treatment, Charles Labadie, a prominent and highly respected Decatur, Michigan, man, states that the "Master Medicine" is possessed of exceptional merit, and says that all should try it. While talking with friends recently, he said: "I suffered from a nervous breakdown and for more than a year was in extremely poor health. I tried various remedies but got no help until I began using Tanlac not long ago. As I say, my general condition was bad. I could not sleep well, had very little appetite and poor digestion. I lost much weight.

"My daughter in Battle Creek had gained much relief from using Tanlac, so I decided to try it. I began to mend as soon as I started taking the medicine. I gained in weight. I regained my appetite and energy. I eat anything I have the slightest desire for now, and am still hungry all the time. I sleep fine. Tanlac is certainly all right."

Tanlac may be obtained in Tawas City and in East Tawas from James E. Dillon.—Advertisement.

WORLD'S LEADING TOBACCO TOWN

Following are extracts from an address delivered by Col. A. D. Watts, Collector of Internal Revenue for the Fifth District of North Carolina, at a smoker given by The Twin City club, Winston-Salem, February 4, 1916:
"Winston-Salem is supplying one-fourth of all the chewing and smoking tobacco consumed in the United States, besides exporting vast quantities to foreign lands. This statement is taken from the report of the Commissioner of Internal Revenue for the first quarter of the present fiscal year and from private advices from Washington, as to the second quarter, which ended December 31st, last.
"Your city is making one-seventh of all tobacco products—chewing and smoking tobacco, cigars, cigarettes and snuff—manufactured in the United States. Your manufacturers are paying on an average about \$37,000 a day revenue taxes to the government and the amount is increasing from month to month. When your government building, much the handsomest in the State, was completed last July at a cost of \$260,000 your newspapers made the statement that the taxes paid in your city to Uncle Sam for the first eight days of its occupancy would pay for it. Since September, it has taken only a fraction over seven days collections here to equal its cost. So far this week, Mr. Cranford has taken in \$206,428.50. I predict that before 1916 shall have ended our average weekly payments to the government on tobacco will more than pay for this magnificent building, leaving the collections for the other fifty-one weeks as clear profit to the government.
"Winston-Salem is shipping on an average each week to all parts of this country and to foreign lands at least \$150,000 of tobacco products.
"In conclusion, Winston-Salem manufactures more tobacco, all tobacco products are taken into this statement, than any other city on earth, little or big. Industrially, she is easily the first in North Carolina, population considered, first in America and I believe, in the world; socially, a never failing delight to her friends."

PATENTS ENGAGEMENT RING

How to place an engagement ring on the finger of a woman who had unusually large knuckles was the problem which, until recently, bothered a California ranchman and occupied many thought-laden days and restless nights. The fingers were of normal size except just at the joints, and hence a ring that would go on was too large when in position.

The subject was studied from every conceivable angle, and the fingers measured and remeasured and pressed for hours, with a view of reducing the obstruction, but with little effect.

At last, just as matters were assuming a desperate state, the California man invented a ring that could be taken apart and adjusted to the finger and then fastened together with two minute pins. A miniature lock and key can be used instead of the pins, in case there should ever be danger of the ring being tampered with. A patent for the device has been issued by the United States patent office, and Cupid is now entitled to be ranked among the inventors.

GOV. FERRIS ENDORSES OPEN AIR SCHOOLS.

Lansing, March 6.—"If the open air school is good for the child who is physically run down, why should it not be good for the child who is well and strong," said Gov. Ferris endorsing the efforts of the state board of health, in its statewide campaign against tuberculosis, to encourage the establishment of more of such schools.

"We should not allow children to get to the state where they are run down, and I believe the open air schools for all children is one of the best means of preventing pupils from getting ill. If at the end of the next decade or two we shall have stamped out tuberculosis in the United States you will find that all the children of this country are in open air schools. Not only will this conserve the health of the children themselves but it will revolutionize health conditions in the average home."

NEWS FROM THE IOSCO COUNTY SCHOOLS.

Whittemore School Notes
Bessie Leslie was on the sick list Thursday.
Glen Catalina was on the sick list last week.
The dictionary disk isn't very solid, is it Stella?
The girls enjoy crocheting during their recesses.
The sixth grade arithmetic class is studying in decimals.
"Home Life" is a good story paper.
How about it Clifford?
The attendance was small Monday on account of the storm.
Part of our afternoons are spent in the study of tuberculosis.
The recesses seem rather long to the boys as their foot ball is busted.
The seventh grade history class are progressing rapidly with their lessons.
The seventh and eighth grade geography classes are studying from an outline.
Mr. Jackson attended the Masonic school of instruction at Tawas City last Wednesday evening.
Several of the pupils acted as teacher for the eighth, ninth and tenth grade agricultural class Friday.
The fifth, sixth and seventh grades tested corn for their agricultural lesson Friday. Some fine tests were given.
The W. C. society enjoyed a debate on "Preparedness" last Friday afternoon, which was won by the negative side with a majority of four to one. Those representing the affirmative were: Hazel Jacques, Stella Barnum, Helen Louks. Negative: Vera Hurford, Harvey Ostrander, Bessie Leslie. Judges: Mr. Jackson, Romanzo Hall, Phoebe Lail, Celia Abbott, Alfrida Kayl. Some very interesting facts were given on both sides.

Primary Room
The physiology classes are having lessons on tuberculosis this week.
Only thirty-eight pupils were present Monday, sixteen being absent on account of the storm.
The second and third grade language class have memorized the poem, "The Meeting of the Winds."
The pupils of the primary room received a Michigan pennant for collecting the sum of \$7.26 for the Michigan Child Welfare League.
The fourth grade had a picture lesson on the picture "Can't You Talk," by Holmes. Each child was presented with a picture by their teacher.
The following pupils received prizes for the money they collected for the Child Welfare League: Elizabeth Price, Lucile McLean, Donald Price, Waldo Leslie, Adelbert Catalina, Myrtle Campbell, Elwood Jacques, Mark Beardslee, Leslie Catalina, Ruth Vaughan.

High School Notes
Three freshmen, Mary Blust, Louise Anschuetz and Elsie Marzinski have yielded to the sore throat germs and have been staying home this week.
The ninth grade will begin the study of "The Merchant of Venice" Friday. They finished reading "The Lady of the Lake" last week.
We are trying out the value of a five minute recess twice a day. So far it has been very satisfactory.
This is the regular test week and one girl in the junior class is nervous over it.
Dewey Holloway has entered this semester to finish up the ninth grade work which he left unfinished two years ago.

Eighth Grade.
The eighth grade are studying "The Lady of the Lake."
The eighth grade has finished physiology and has begun the study of agriculture. A number of experiments are being carried on before the class, greatly increasing the interest. An elaborate agricultural chart just purchased by the school board is being used in this room.

At the Fork in the Road

When you come to a fork in the road and one highway turns slightly to the left and the other slightly to the right, the roads are only a little way apart at first yet you know that eventually they lead to entirely different places.

So it is in your finances. When you first start to save there is not much difference in your situation, but eventually the saver's road leads to independence, even affluence, while the fork of the road taken by the non-saver ends in a blind trail.

Are you at the fork of the road today?

Last Thursday evening a few of Fred Latter's friends gave him a pleasant surprise. The occasion being his birthday. A very pleasant evening was spent in music and games. All reported a good time.

The Gleaner Federation meeting at the Reno town hall was a decided success, being instructive and beneficial to all present. The various subjects discussed were, "Preparedness," discussion led by John Frasier followed by others. The "Binder Twine Question" and its effects was explained by Fred Jennings. "Good Roads" subject was ably handled by Louis Nunn. Several entered into the discussions freely, a good dinner served at noon with hot coffee and Frockins' mashed potatoes were not so bad. All report a good time.

Mr. and Mrs. William Latter and daughter, Violet, attended the "Round-Up Farmers' Institute" at Lansing

last week. Mr. Latter says they not only had a good time, but a very profitable one. On their way home Saturday Mrs. Latter went to Bay City hospital, for a slight operation and was unable to return home for a few days. Mr. Latter Sundayed at Bay City attending the Baptist church services and calling on old acquaintances. He and Violet returned home Monday.

Mr. and Mrs. Robert Brooks were pleasantly surprised last Saturday evening, when a number of their relatives and friends gathered to help them celebrate their 49th wedding anniversary. The evening was spent in a social way, after which a dainty lunch was served. All left at a late hour wishing Mr. and Mrs. Brooks many more happy anniversaries.

ALABASTER DUST.

"The Dream That Came True" given by the Isoco County Normal at Alabaster was given in a workmanlike manner. There were many people who showed unmistakable signs of Alabaster dust but there were none who were dusty. We know some people in our town are noted for their gum chewing but we can never believe that Hilda Hendrickson left our town quite the artist that she now is. And we never noticed that the Tawas teachers made any pretense at this profession. We never thought Mildred Hinman quite so sincere in love affairs, though truly one was heard to say that she felt like crying, and pray why not, there would have been followers. Selma Bannon would make a good American housekeeper if she would only improve that language. We easily recognized Hilda Swenson, but not her ability in giving Christmas gifts, though this kind is quite fashionable here. And Willard Shotwell, we know that you have had considerable experience as a nobleman, truly we did not know you to be so S-L-O-W, and that note book is an addition. There was no one who was not a star but these individuals were the ones who were particularly known to us. The high school orchestra were appreciated very much, moving the heart as well as the feet of more than one individual.

Miss Young may be highly complimented upon the manner in which the whole entertainment was carried out. We will say to the class president that your "May Come Again" will be answered by: "So so say we all of us," soon.

HALE AND VICINITY.

Rev. Thos. Marsh will commence a series of special blackboard talks at the Baptist church on Sunday morning next, on "The Certainties of Our Faith." Next Sunday's subject will be: "What Do We Know About God?" A special invitation is given to any who have religious doubts and difficulties, as it is hoped the meeting will be instructive and constructive.

In connection with the Sunshine committee of the C. E. society there is to be a "Sunshine Evening" in the church on Sunday at 7:30. A special program consisting of songs, recitations, short addresses, etc., has been prepared and a very happy time is anticipated. An offering will be taken on behalf of the work of the Sunshine committee. A very hearty invitation is given to all.

Amil Herriman received a message on Saturday from Oscoda, stating the death of his brother-in-law, R. Damerau. He left here Saturday to attend the funeral on Sunday.

About 40 neighbors and friends gave Mr. and Mrs. C. H. Mark a very pleasant surprise on Tuesday evening, the occasion being their fifth anniversary of coming to Michigan. After some music, many interesting games were played by young and old. At a late hour, a lunch was served. The evening was very pleasantly spent by everyone.

Last Thursday evening about 60 neighbors and friends gathered at the home of Will S. Mark and gave him a very pleasant surprise, the occasion being his birthday anniversary. The M. E. Ladies' Aid served a 10c supper after which the remainder of the evening was spent in music and games. The guests departed at a late hour, wishing Mr. Mark many more happy birthdays.

OBITUARY.

Mrs. Mary Hampan passed away at the home of her son, Peter, Saturday March 4, at 2 a. m. The deceased was born at Waverly, Ohio, and came to Michigan eleven years ago. She suffered a severe stroke of paralysis nine years ago and since that time until her death she was confined to her bed and was under the tender care of her faithful son. She was 65 years, 4 months and 9 days old, and was a widow for 15 years. Her son left with the remains Saturday evening for Sabina, Ohio, where she will be laid to rest beside her husband at the Sabina cemetery. She leaves to mourn her loss three sons, Peter E. of Emery, George of Cedarville, O., Philip of Washington, C. H., O.; one daughter, Mrs. Newt Bumgarner of Washington C. H., O.; two sisters, one at Columbus, O., and one at Proctorville, O., and one brother in Kansas, six grandchildren and a large circle of friends. The sorrowing relatives have the sympathy of this community in their sad hours of bereavement.

MARINE'S MARCHING SONG

Washington, D. C., March 7.—The United States Marine Corps is unique in all branches of the American services, in having a distinctive marching song that is as swiny and catchy, as many of the foreign march songs. True, West Point has its Benny Havens song and the Seventh Cavalry marches to the inspiring tune of Garry Owen, but the "Halls of Montezuma" is sung by all who wear the Marine's uniform. One verse of the song—a favorite one—runs:

"Our flag's unfurled to every breeze,
From dawn to setting sun,
We have fought in every clime and place,
Where we could take a gun:
In the snow of far off Northern lands
And in sunny tropic scenes,
You will find us always on the job,
The United States Marines."

An expert penman has written 8,000 words on a postal card, so we may expect the mail service to be crippled until the card passes through its last hands into those of the person it is addressed to.

At Last—A One-Adjustment Cream Separator

BEFORE you buy any cream separator, come in and look at the **Primrose**. One adjustment is all that is necessary to keep it in perfect operating condition at all times. This adjustment is a simple one for keeping the bowl at the correct height—an adjustment that you or your wife can safely make, whenever it's necessary. The adjustment is made from the outside of the separator by either raising or lowering the bearing containing the hardened steel point, upon which the spindle revolves. A slight turn with a screwdriver, perhaps once a year, does the work. The **Primrose** is a well-constructed, close-skimming, durable cream separator. It will make a saving of \$10.00 to \$15.00 per cow in your herd every year. It is made in four sizes to separate 350 to 850 pounds of milk per hour, or from about 40 to 98 gallons. Ask for a catalogue giving a complete description, or, come in and look over the **Primrose** yourself.
