HAPPENINGS OF THE WEEK

Local, Personal and General News Furnished in Condensed Paragraphs for the Convenience of the Busy Reader

Fire insurance. Henry Hanson. adv
W. M. Taylor went to Alpena on business Monday.
"Home Goods" sale at Buckle's hardware store till April 30. adv
Moses Minor of Detroit spent Sunday with his mother in this city.
Quick sales and small profits at Buckle's "Home Goods" sale. adv
Rev. D. Martin of Prescott was a business visitor in the city Wednesday.

A thousand articles to sell at 10 cents at Buckle's "Home Goods" sale. adv

Phone C. H. Prescott & Sons' office if you have any cattle, calves or hogs for sale. adv-tf

G. A. Prescott, Jr., left Tuesday for points in Ohio to purchase stock for the Prescott ranch.

Dr. A. B. Carson, dentist, is at his office in Tawas City every day of the week. Phone 111-W. adv

Mr. and Mrs. O. S. Nicholls returned to their home at Long Lake Monday after a visit with friends in Tawas City.

The life saving station and light-house on Tawas Point went into commission for the season last Sunday night at midnight.

If you are going to order a monument or marker for your departed friends see Alex Ross, East Tawas. No work too large, none too small. Write him. adv

In another column we publish a forecast of the talent which is to appear at the Chautauqua here next summer, dates having been fixed for August 20-27 inclusive.

I wish to cordially thank the voters of the third ward, Tawas City, who so fairly supported and elected me for Supervisor, regardless of party politics. J. W. Minor. adv

About twenty-five friends of Mrs. L. J. Patterson gave her a pleasant surprise at her home Tuesday evening, the occasion being her birthday. A very pleasant evening was spent by those present.

Don't forget the declamatory contest to be held at the high school building tonight (Friday). The high school orchestra will furnish music, and the entertainment promises to be an interesting one.

The board of supervisors were in session last Monday to canvass the local option vote at the last election. The next meeting will be held on May 2, when they will meet to equalize the tax rolls of the county.

Word was received here Tuesday from Mrs. Louise Sauve of Turner stating that her daughter, Eva, would be taken to the sanitarium at Madison, Wis., for treatment. Mrs. Sauve's son, Edmund, is a professor in the University at Madison.

Wm. McFarlane of Oscoda was in the city Tuesday in his capacity of one of the county canvassers board which was canvassing the returns of the late election on that day. The other members of the board are Eugene Bing of Tawas City and J. W. Tait of East Tawas.

Luke Murray, jr., came up from Detroit Monday, being called here by the serious condition of his father, Luke Murray, Sr. Mr. Murray suffered another stroke of paralysis last Saturday afternoon and has been in a serious condition since. This is the third stroke he has had.

John Mergener of Milwaukee came last Friday and visited over Sunday at the home of his brother-in-law, Henry Ziegler. Monday Mr. Henke and Mr. Mergener went to Detroit, from which place the latter drove by automobile to his home in Milwaukee. Mr. Henke returned Tuesday.

The Department of the Interior of the U. S. government has just issued a booklet entitled "Glimpses of our National Parks," which gives in a concise and simple form the principal points regarding the numerous national parks throughout the country. The booklet was issued primarily for the use of the public schools that the children might become familiar with the distinguishing characteristics of each park and impress upon their minds that for scenic beauty their own country is unsurpassed. But the book is also a mine of useful information for people of all ages and will be found interesting by anyone. It is a free publication and copies may be had by addressing Stephen T. Mather, Assistant to the secretary of the Interior, Washington, D. C.

Alex Ross, monuments, East Tawas. Buckle's "Home Goods" sale saves you money. adv

L. H. Emerson was at Lupton on business Monday.

Get your share of the bargains at Buckle's "Home Goods" sale. adv

N. C. Hartingh was at Detroit on business a couple of days this week.

W. M. McCaskey has been in Reno township on business a few days this week.

Phone C. H. Prescott & Sons' office if you have any cattle, calves or hogs for sale. adv-tf

Roy Howard of Prescott was in the city on business a couple of days this week.

E. Streeter and son, Glenwood, of Hale were in the city on business Thursday.

Insure your auto against fire, accident and theft. Cheapest rates. See F. F. French. adv

L. H. Braddock went to Bay City Wednesday to attend the funeral of his cousin, Mrs. E. B. Braddock.

Joseph Palm left Thursday for an extended visit with relatives and friends at Rose City, West Branch and Detroit.

Miss Claire Shaw returned Thursday from a weeks visit with her brother, George, at Pigeon, and friends at Saginaw.

Jas. McRae came up from Flint last Saturday and spent Sunday at the home of his parents, Mr. and Mrs. Alex McRae.

R. G. Hartingh, Tawas City, garage, auto supplies, all repairs. New and used cars, bodies, tops and radiators for sale. Call or write. adv-16

Dr. W. N. Yeager, the dentist, will make his next visits to his Tawas City office on Monday, May 1 and Friday, May 5. See him if in need of dental work. adv

Now is the time to clean up and burn the winter's accumulation of rubbish. Let's all do our share and make Tawas City a place to be proud of because of its cleanliness.

Epworth League plant and flower sale, April 22, at Taylor's store. Those wishing to order plants or flowers for Easter leave orders at Taylor's store by Wednesday, April 19. adv

In another column of the Herald appears a timely article by Boyd R. Swem, eighth grade teacher in the Tawas City schools, on "The Tawas Fly." Be sure and read it.

Mrs. Lizzie McMullen of Flint and her son, George, came last Saturday for a visit with her mother, Mrs. Minor, who is ill. George returned Sunday evening but his mother remained here.

An accident which might have resulted far more seriously than it did, occurred last Monday afternoon when an automobile driven by Fay Ocha of East Tawas collided with one driven by R. G. Hartingh. The accident occurred in front of the Burley Wilson residence. Hartingh was just turning into the driveway when Ocha drove into him. Both cars were badly damaged and Catherine Carpenter, daughter of Capt. Carpenter of the life saving station, whose car Ocha was driving, was thrown through the windshield, cutting her scalp and bruising her up severely. She was immediately hurried to her home and medical attention was secured. At last reports she was getting along nicely.

C. E. NOTES.

Christian Endeavor Sunday evening at Baptist church, 6 p. m.

Topic—"Good Prayer Meetings and How to have Them Always."

Leader—Mrs. W. B. Kelly.

Everybody cordially invited.

Last Sunday's meeting was well attended. The topic "What My Denomination Expects of its Young People," was discussed by the young people.

The points brought out showed good ideas and careful preparation. There was a very large number present at last week's business and social meeting.

Several new names were presented for membership. Plans are being perfected for the rally of Tawas City, East Tawas and Hemlock road societies to be held Saturday night and Sunday, May 6 and 7.

Field secretary A. LaVerne Spafford will be present. A committee was appointed to arrange the program.

Music in charge of the music committee. Get busy and help to make this rally a success.

TEACHERS ATTENTION!

The next regular teacher's examination will be held at Tawas City April 27 and 28. Reading based on "The Man Without a Country."

J. A. Campbell, Commissioner of Schools.

Old newspapers for sale at this office.

SPLENDID GET-TOGETHER MEETING.

The smoker given by the Board of Trade of Tawas City to the East Tawas Board of Commerce last Friday evening was a very pleasant affair, there being about 100 members of both organizations present.

President W. J. Robinson of the Board of Trade presided at the meeting and called upon prominent members of both organizations for short addresses. Every speaker expressed a spirit of optimism regarding the future of the sister cities and placed emphasis upon the need of co-operation in our efforts to advance the commercial and industrial interests of the Tawas Bay district.

The entertainment features of the meeting were a Scotch dialect story by Rev. Alex Anderson, a character impersonation by Jas. F. Mark and an exhibition of "Backwardness" by L. H. Emerson, the "Backward Man," consisting of writing backward and upside down at the same time. Each number was well received and elicited deserved applause.

The spirit manifested at this meeting augurs well for the future welfare of the two cities and demonstrated that the jealousy and ill will which formerly existed here is about eliminated. In union there is strength, and by joining forces and pulling together the citizens of Tawas City and East Tawas can accomplish much more in the way of civic betterment than could be done by either working alone.

Let's have more of these get-together meetings and we will come to a better understanding and all be the better for it.

AN ANNOUNCEMENT BY THE BACKWARD MAN.

With a desire to increase the get-together feeling started at the "smoker" given to the Board of Commerce of East Tawas by the Board of Trade of Tawas City, and to provide an addition to the funds of each board, I will make the following proposition: I will pay for the rental of the East Tawas opera house personally and Tawas City talent will provide one half an evening's entertainment providing the Board of Commerce provides the other half. The proceeds to be divided equally between the two organizations. Hope this proposition appears as a neighborly idea of getting better acquainted.

Sincerely,
L. H. Emerson.

DEATH OF MRS. SHAMPINE.

Mrs. Ellen Shampine died very suddenly on Wednesday evening of last week at the home of her daughter, Mrs. Frank Howey, where she had been making her home for the past few years. She had been in ill health for some time, but not confined to her bed. The cause of death was paralysis and heart disease.

Mrs. Shampine's maiden name was Ellen Akens. She was born at Vicksburg, Mich. Oct. 16, 1846, and was aged 69 years, 5 months and 11 days at the time of her death. She came to Tawas City in 1890 and has made her home here since that time. She was the mother of nine children, seven of whom survive her.

The funeral services were held at the residence Saturday afternoon, Rev. John Pinches officiating, and the remains were laid to rest in the Tawas City cemetery.

EPWORTH LEAGUE.

Sunday April 16, 6:15 std. time.

Topic—"Getting Along with Disagreeable Folks." Gen. 13: 8, 9; Luke 5: 25-32, 10:40-42; Prov. 15:1.

Leader—Miss Thelma Eldridge.

You can't afford to miss a meeting.

The Epworth League library started business last week with twenty-two volumes. The books are in charge of Miss Young and are for the use of any and all League members, being on exhibition after the devotional meetings every Sunday evening.

New equipment has been added to the Junior League work so the increased attendance can be taken care of easily. There is still room for a few more.

Keep in mind the sunrise meeting Easter morning at seven o'clock.

Special attractions.

TEACHERS ATTENTION!

The next regular teacher's examination will be held at Tawas City April 27 and 28. Reading based on "The Man Without a Country."

J. A. Campbell, Commissioner of Schools.

CENTRAL COMMUNITY CHAULTAUQUA SYSTEM.

Outline of 1916 Program. Five Days, Sunday, August 20 to 24.

First Day

The Hoosier Male quartet will give the full afternoon program and a prelude at night. This organization has made one of the greatest successes of any male quartet in the lyceum field. Each member is a soloist of more than ordinary ability, and their ensemble singing shows careful training and sympathetic blending of voices. They carry a harmonious grand xylophone, and there will be solos, whistling, and sketches.

Dr. Lucian Edgar Follansbee, a man of the Col. Bain type, will lecture at night. For years he has been on the platform and recently completed his 1600th lecture under the auspices of a single Bureau. He not only pleases his audience and touches chords of human interest, but he arouses new enthusiasm in the community, in the town and in the whole problem of right living.

Second Day

The Venetian Entertainers which will give precludes both to the afternoon and evening programs, is a company composed of two men and two women led by Oscar Kaufmann, and wearing Venetian costumes. Many of our town will remember Mr. Kaufmann as the greatest individual star in Skelton's University orchestra which appeared on our western circuit two years ago. This company will use the violin, cello, piano, flute and cornet, and the program will be as varied as there are numbers.

In the afternoon Hans P. Freece will lecture on the part Mormonism is now playing in the social and political life of our country. Mr. Freece was born in Mormonism and his mother was a plural wife, but her hatred of polygamy and other Mormon practices made her send her son to a Christian school. Mr. Freece has lectured on Mormonism all over the world. He presents in the most convincing and sincere manner things that are a revelation to every audience that hears him.

At night Robert O. Bowman, impersonator and character portrayal, will appear. He has come to be recognized as one of the foremost exponents of his art in the lyceum. Standing on the platform before the audience, he changes his appearance by means of the most cleverly conceived make-ups. Whether giving a humorous portrayal such as the German stump speaker, or a serious one such as Shylock, Mr. Bowman never fails to win his hearers.

Third Day

The full afternoon program and the prelude at night will be given by the Theresa Sheehan Concert company, composed of Miss Sheehan reader, Miss Des Jardins, violinist, and Mr. Frank Grover, soloist and crayon artist. For three successive years this company has gone over the circuits of one of the western chautauqua systems and they desire to repeat it again in 1917. Miss Sheehan is a reader of unusual ability. Many of her numbers, such as "The Sinking of the Titanic," have been written especially for her and are delivered by no other readers on the platform.

At night Denton C. Crowl, the "Sam Jones" man, will give his lecture "A Medley of Philosophy, Facts and Fun." On the death of Sam Jones, Mr. Crowl was given the exclusive right to use his lectures. Mr. Crowl has taken the privilege of keeping these messages alive and up to date and while he retains the same vocabulary as Sam Jones, he handles the problems of now in the same manner that Sam Jones would handle them were he alive. In all the beauty of his imagery, in all the rugged virility of his language, and in all the homeliness of his fun and philosophy, Mr. Crowl makes Sam Jones live again.

Fourth Day

The afternoon prelude and the full evening program will be given by Master Angelo Vitale and his concert band. In this organization we have a band which from a musical standpoint really outdistances the Kilties used on this circuit last year. Its leader is a lad in his teens, but known as the "Boy Creator." He is a rare genius, found only once in a generation, and his work has astounded musical critics everywhere. Master Vitale and his band were used last season over our New York and New (Continued on Supplement).

THE TAWAS FLY.

By Boyd R. Swem.

The writer is not personally well acquainted with the Tawas City fly, but from intimate knowledge of members of the same family in other places, feels safe in making some predictions regarding him.

First, he will multiply very rapidly—yes, more rapidly than Flanagan's guinea pigs (in "Pigs is Pigs"). Give one healthy pair of flies as good a chance as those guinea pigs had, and in the short space of one summer, their offspring would form a single file parade, three flies to the inch, reaching from East Tawas to Alabaster. Or crowd the descendants of this one unwashed pair on top of an eight inch cake and they would form a solid stack of insects from your floor to your ceiling, estimating about 150 to 200 flies per cubic inch.

Second, he will be a filthy fly! Not that Tawas is filthy; no, not that. But filthiness seems to run in the fly family. They have been born and brought up in filthiness so long, that they just can't help it! To be sure they fry to, and when nearly mature they leave their filth and seek the cleanest place they can find, whether it be the dinner plate, the drinking water, or the dainty decorations of your beautiful birthday cake. But they tire of cleanliness just in time to go back to the piles of manure, or miscellaneous dirt and filth to lay their eggs. In fact if it were not for these places, the eggs either would not be laid or would not hatch. But there they lay them, and the new generation comes out just as filthy as the first, with the instinct to migrate with its filth just before maturing.

Thirdly, the Tawas fly will be a deadly fly. We are not disturbed by a fly. Not at all. No more than the composure of the world was disturbed by an unknown European bomb-thrower a couple years ago. But when that bomb, like a heaven-wide flash of lightning, gave excuse for the tramp, tramp of millions of soldiers to make the earth tremble, it was a different matter. And when the fly brings millions of disease-causing germs to sap our strength and empty our purses by fighting them, and to take the lives of those who lose out in the fight, the fly becomes our deadly enemy. And the Tawas fly, like every other fly, will do exactly that; he will carry the germs of disease, and give them to us by placing them on our food.

"A stitch in time saves nine," but a swat in time will save thousands; and a community campaign for fly prevention will save not only the tempers of hundreds of housewives, but certainly the health and maybe the lives of those who are weak to resist. Now is the time to prevent flies. Do it first, by killing every new comer; then, by removing or disinfecting all piles of filth that could serve as breeding places, for as said above, they always hatch in filth. With a little practice, a fair swatter, and a reward for diligence a little child can clear the house daily and the older ones can carry on the work of sanitation and prevention. But do it now. Once started, every few days will mean a new fly-crop. Moral: Swat the fly!

BASEBALL ORGANIZATION.

A meeting of the baseball enthusiasts of Tawas City was held at the city hall immediately following the meeting of the Board of Trade Wednesday evening, and a baseball association was perfected with the following officers:

President—Eugene Bing.
Vice-President—Martin Musolf.
Secretary—Carl Fahselt.
Treasurer—Fred Swartz.
Director—Frank F. Taylor.

It is proposed to incorporate the organization with a capital stock of 100 shares at \$5 per share, and a committee was appointed to formulate a constitution and by-laws and find out the necessary steps to make it a legal organization.

The matter of joining the North-eastern Michigan League was discussed and it was proposed to try and obtain a week-day date for the games here if the business men of the city would consent to close their places of business on the afternoons when games were played. Business men present and the baseball players spoke in favor of this proposition, and it is believed that the plan can be accomplished.

Another meeting of the association will be held at the city hall next Tuesday evening.

EAST TAWAS DEPARTMENT

Devoted to the General and Personal News of the Week From Our Neighboring City on the East

Films developed and printed. Art Applin. adv

Miss Lillian McMurray visited last Saturday in Bay City.

Miss Wacile Halligan visited in Bay City last Saturday and Sunday.

Miss Jane Larmer visited with friends in Bay City over Sunday.

Miss Ruby Wilson visited at her home in Prescott the latter part of the week.

Mrs. Edward Alford visited with friends at Prescott last Friday and Saturday.

Floyd Smalley left for Bay City last Monday, where he will visit with friends for a time.

The W. C. T. U. will hold a business meeting at the home of Mrs. H. C. Bristol next Friday afternoon.

The Presbyterian Ladies' aid will hold a food sale at Mrs. Dease's store Saturday afternoon of this week. adv

Rev. William Roberts attended a meeting of the Presbytery at Mt. Pleasant the fore part of this week.

Herbert Boldt, who has been visiting at his home in this city for some time left Thursday morning for Flint.

Mrs. James LaBerge left for Turner Thursday morning where she will visit with her friend, Mrs. Sauve, for a few days.

Miss Selma Hagstrom left this Friday morning for Detroit, where she will visit with relatives and friends for two weeks.

Elsworth Wright who has been in Detroit for more than a month returned to his home in this city last Wednesday afternoon.

W. A. Bisbee of Mikado arrives the latter part of the week and will take his place as a regular surferman at the life saving station.

The Tawas life saving service will go into commission next Saturday at twelve midnight. The light house opened up last Saturday night.

Fred Courter of Alpena, who is employed in the life saving service at Tawas Point, will arrive Saturday of this week to take up his position at that place.

Albert Wheeler left Detroit Thursday morning of this week. From there he will leave on the "Luske" and will be gone on the Great Lakes until next fall.

Valmore Cadorette left for Detroit Thursday morning. He expects to leave from there on the "Luske" and will be employed on this boat during the coming season.

The Monday Musical will meet at the home of Miss Mary Gardner next Monday afternoon. The composers Bach, Foote and Goddard will be studied and selections will be given from these composers.

Presbyterian church services next Sunday: Sunday school, 11:30; Christian Endeavor, 6:00 p. m. Topic, "Good Prayer Meetings." Evening service, 7:00. Mid-week service Wednesday, 7:30 p. m. William Roberts, minister.

Mrs. Fred Harrington, formerly of this city died at her home in Hermansville, Upper Peninsula, last Tuesday morning. The cause was tuberculosis.

Jed Harrington, a brother-in-law of Mrs. Harrington left Thursday on the midnight to attend the funeral which will be held at Onaway Friday afternoon, interment to be made in the Onaway cemetery. Mrs. Anna Nash of this city will also attend the funeral. Mrs. Nash is a sister-in-law of the deceased.

Quite a serious accident happened late last Monday afternoon in front of the Tawas City court house. Fay Ocha of this city and his nine year old step-sister, Catherine Carpenter, daughter of Captain Carpenter, were driving past in Mr. Carpenter's new auto. Richard Hartingh who was driving his car ahead of them suddenly turned in front of the Carpenter car to turn into the court house driveway. The two cars collided and Catherine was thrown through the glass in front of the car and was badly cut about the head, two large gashes across the top of her head and around the forehead. Mr. Hartingh picked her up and in less than a minute he had taken her into Dr. Cane's office two blocks away. At present she is improving rapidly and has suffered very little pain. It was thought at first that the child could not live and considering the extent of her injuries the doctor claims it is miraculous that she is recovering so nicely. The car ran into a tree and was damaged to the extent of hundreds of dollars.

Mrs. Harry Deacon of Bay City spent Saturday and Sunday with her mother, Mrs. James Murray, in this city.

Mrs. Herbert Gordon came from Curtisville last Saturday for a few days visit with her mother-in-law, Mrs. A. Gordon and her son, Caius.

Miss Willena Deacon who is teaching in the schools at Bay City arrives this, Friday, night for a weeks visit at the home of her grandmother, Mrs. James Murray.

Miss Alice Hewson left for Detroit last Friday morning, where she will remain indefinitely. She has been visiting with her parents at Tawas Beach for several months.

M. E. church services next Sunday: morning service, 10:00; Sunday school, 11:30; Epworth League, 6:00 p. m. Prayer meeting Wednesday evening, 7:00. Rev. John Pinches, pastor.

The Presbyterian Christian Endeavor society held a social and business meeting at the home of Miss Ethel Wright on Thursday evening. A large number attended and a pleasant time was spent by all.

A large number attended the musical held at the home of Mrs. W. M. Gardner last Monday evening for the benefit of Christ church Episcopal. A good musical and literary program was given after which punch and wafers were served.

Last Monday evening fire broke out in the roof of the residence of C. E. Phillips of this city, caused by sparks from the chimney. An alarm of fire was sounded and the fire department turned out but the flames were extinguished without any help from the department and no damage resulted.

Last Tuesday evening the boys and girls intermediate classes of the Presbyterian church gave Miss Ida Jenne a pleasant surprise party at her home in this city, the event being the anniversary of her birthday. Games were indulged in after which an appetizing lunch was served and everyone reported a fine time.

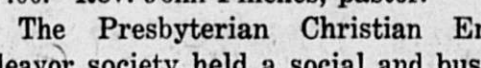

Wanted—A good girl for general housework. Apply to Mrs. F. F. French, East Tawas or at office of F. F. French. adv

CHRIST CHURCH.

Services next Sunday: Holy communion, 7:30; morning prayer, 10:00; evening prayer, 7:00.

Lenten services, Wednesday, 3:30; Thursday, 9:00; Good Friday, 1:30 and 7:00.

On Good Friday members of the congregation are requested to assist in the devotion of perpetual prayer from 12 o'clock to 3 sun time.

FOR RENT.

This fine home with electric lights, city water, barn and basement on the shore of Tawas Bay, East Tawas. adv

W. B. Murray.

CARD OF THANKS.

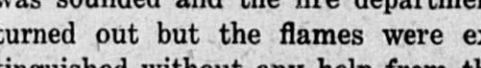

We wish to extend our sincere thanks to our friends and neighbors for their kindness at the time of the death of our dear mother, Mrs. Ellen Shampine. Also to the Epworth League for the floral offering.

Mr. and Mrs. Frank Howey, Mrs. Mary Shaw, Mr. and Mrs. Jos. Shampine, Mr. Charles Shampine, Mr. William Shampine, Mr. Peter Shampine.

CANDIDATE FOR SHERIFF.

I wish to announce to the electors of Iosco county that I will be a candidate for the nomination for sheriff on the republican ticket at the August primaries. Your vote and support are respectfully solicited.

adv-tf Frank J. Long.

TAWAS CITY, MICH., APR. 14, 1916

NOW IS TIME TO GET AND TEST SEEDS.

This is the time of year when the farmer's mind usually turns to thoughts of seeds and especially to the seeds he is planning to place in the ground within a few weeks. After last year's frost this matter of seeds appears a much more serious one than for some time past, and it will require more time and care to secure a good supply.

Not all local grown seeds are good this year and the seed for every crop should be carefully tested and treated before being planted. If you would secure the best crop returns, get the best of strong, healthy seed, and seed that you know will grow.

Beans, potatoes, corn and some other crops failed to produce the best of seeds last season and this makes it necessary that more careful testing be made than in former years. In this work the young people of the farms could not only be of valuable assistance but might find the work fascinating and of considerable interest.

In other sections of Michigan, and in other states, the young people of the country are organized into corn clubs, potato clubs, fruit clubs, etc. and render valuable assistance to their parents in this little matter of seed selection and testing.

There are few of these clubs in Northern Michigan and it seems only proper to suggest that no more appropriate time could be found for the organization of a dozen or more of such clubs than right now. Surely the importance of the movement will be recognized if one considers the value such clubs would bring to the farmers of the sections in which they might be located.

Young people, or most of them, are interested in seeds and might easily be interested in testing them this spring. If the residents of the farms will get busy on this plan it may mean thousands of dollars to them next fall.—Petoskey Independent.

ELBERT BEDE SAYS:

Senator Clapp of Minnesota may be just the encore.

Kissing is said to spread the grip. Kissing does not quiet a grip on us.

After an automobile turns turtle it does not travel as fast as it did before.

The man of 80 hasn't much sympathy for the man of 45 who talks about getting old.

The folks who are looking forward to the end of the world are going to injure their eyes.

When we hear a person say that he always calls a spade a spade, we feel like saying, "O, Shovel!"

Sometimes we suspicion that a woman's tears are for the purpose of getting a chance to laugh at us.

The man who talks about flying machines these days is no longer accused of having a flight of fancy.

The trouble with doing a favor sometimes is that others will consider that you have done them a wrong.

The easiest way to swindle a man is to tell him he is capable of certain great things when he knows it is a doggone lie.

Sometimes a man thinks he is making a noise that should impress the world, while those who watch him wonder what he is making such a face about.

A girl in skin tights on the stage doesn't attract as much attention as she would on the street the next day in full dress holding her skirts a foot too high.

About the worst pessimist in the world for the time being is the little boy who has been shown a cord of wood which he must saw and split during vacation.

Uncle Sam trying to act as a peace intermediary at the present time would probably be in about the same position as the umpire in a ball game between two home teams.

A person shouldn't be considered a pessimist merely because he finds that the opposing administration has done everything wrong, nor an optimist because he can see nothing wrong in the action of the members of his own party.

Discussing the law against cigarettes with a group of actresses in New York, Douglas Fairbanks said:

"I agree with you. When the cigarettes are extracted painlessly from the living bird—which, you say, is the new method—then this law against them becomes absurd."

"It is like the girl at the shore who was a great bird lover. A man said of her:

"A great bird lover, but she carries the thing too far. She refused to take a moonlight row with me the other night because someone told her that I feathered my oars."

World's Busiest Port.
Vladivostok, it is reported, is now one of the busiest ports in the world. The supplies for Russia's armies are to go through this port during the fall, and vast quantities are already arriving. To transport the cargoes across Siberia by rail, 400 locomotives and 20,000 freight cars are on their way from the United States.

PUPILS AND TEACHERS ATTENTION.
Pupils, 8th grade examinations will be held May 11-12, 1916, at the following places: Tawas City, Oscoda, Alabaster, Grant township hall, Hale and Whittemore.

Reading based on Longfellow's "Birds of Killingworth."

Respectfully,

Because they contain the best liver medicines, no matter how bitter or nauseating for the sweet sugar coating hides the taste. Dr. King's New Life Pills contain ingredients that put the liver working, move the bowels freely. No gripe, no nausea, aid digestion. Just try a bottle of Dr. King's New Life Pills and notice how much better you feel. 25c at your druggist. adv-2

Optimistic Thought.
A well-regulated home is a millium on a small scale.

FIGHT ON SUBMARINES

DETECTOR SYSTEMS CONSIDERED BY THE SCIENTISTS.

Thought to Be Most Effective Method of Combating This Most Deadly of All Modern Naval Weapons of Warfare.

The prime advantage of the submarine—its ability to escape detection through sight—has been overcome by the invention for use by the entente allies of a means of detecting its presence through hearing. The exact nature of some of the most essential features of this invention has, of course, been kept secret, but a general description of its manner of working is given in the Scientific American. One of those who contributed to the development of this detector system is William Dubilier, an American electrical engineer with numerous wireless telephone and wireless telegraph inventions to his credit. He had gone to France on the mission of installing wireless telegraph apparatus on air craft, when he was called upon to aid in solving the submarine detector problem. Dubilier went to Cherbourg, an important French port on the English channel, where he found Professor Tissot of the French Academy of Science, hard at work on the detector system.

For some time before this, devices had been contrived by which it was possible to detect the sound waves made by submarines, but these devices also conveyed the noises made by the propellers of all kinds of craft, and they were of little value, because it was practically impossible to distinguish the sounds made by a submarine from those coming from other vessels. Fortunately for the inventors, however, it was discovered, in the course of the tests, that the underwater craft were the sources of sound waves of exceedingly high frequency, quite distinct from any other subaqueous sounds. While the cause of the high-pitched sound is known to the inventors, it cannot be divulged since it would, then, be possible for submarine constructors to eliminate the source of the telltale sound waves.

It still remained to the inventors to eliminate all other sound waves from affecting the detector and also to devise means by which the distance of the submarine and the direction of its travel could be determined. It required several months of careful experimenting to develop suitable resonance tubes for filtering out undesirable sounds. At first the device finally developed, worked at a distance of a few miles and then its range was increased to 55 miles, by use of the Audion amplifier, an American invention. This system is used all along the coasts of the British Isles and France. It is not available for use on vessels because of its extreme sensitivity. An illustration shows the form of the device as it lies in the water—a cable reaching out from shore and ending in the sea in eight branches, each with a rounded object at the end, somewhat resembling a telephone receiver—a microphone. Each microphone is placed in such a manner as to receive sound waves best in one direction. Accordingly, by listening to the sounds received by the different microphones, and slowly moving a switch over the several contacts, the operator can determine in what direction the submarine is moving. How the distance of the submarine is detected is kept more strictly secret. Means of communication are maintained between these detectors on shore and numerous vessels which are sent out to attack the submarines.

Since the appearance of the Scientific American article, the New York Times relates that Dr. Lee de Forest of New York, inventor of the Audion amplifier, has received a hurry-up call from the British government and has sailed for London. The use of his amplifier in the submarine detection device attracted the attention of the British to him, and his services are desired for contrivance of a system by which the approach of Zeppelins can be detected at a great distance. The Times says that the form of Audion used by the British in detecting submarines is not so highly developed as the most recent of the De Forest inventions. Doctor de Forest proposes to work out a system similar to that used for detecting submarines by which not only their sounds will be recorded, but their distance and the direction in which they are traveling will be known.

Extremist.
Discussing the law against cigarettes with a group of actresses in New York, Douglas Fairbanks said:

"I agree with you. When the cigarettes are extracted painlessly from the living bird—which, you say, is the new method—then this law against them becomes absurd."

"It is like the girl at the shore who was a great bird lover. A man said of her:

"A great bird lover, but she carries the thing too far. She refused to take a moonlight row with me the other night because someone told her that I feathered my oars."

World's Busiest Port.
Vladivostok, it is reported, is now one of the busiest ports in the world. The supplies for Russia's armies are to go through this port during the fall, and vast quantities are already arriving. To transport the cargoes across Siberia by rail, 400 locomotives and 20,000 freight cars are on their way from the United States.

ACROSS THE BROOK

By CLARISSA MACKIE.

"Oh, wait a moment, Mr. Winters, Grace called. 'I want to tell you something—a very special friend of ours is coming on this afternoon's train. Will you take me to meet him, please?'"

"Certainly. A—man, I suppose?" She nodded. "Mr. Carver—you will like Horace immensely," she said enthusiastically.

"I don't suppose you'll have time to take any more rides in the little red car," he said glumly.

"I'm afraid I won't have much time," she admitted. "You have been so kind—and given me so many delightful excursions in the car. I shall always remember the dear little red car," she smiled.

"Long after you've forgotten the owner?" he asked quizzically, as he strode away.

She called after him to tell him that Horace Carver was coming on the 4:10 train. He nodded grimly and went on his way.

Grace watched him, a fine, upstanding young man, a successful farmer, a power in the village, a man with a future ahead of him, people predicted.

"If he were only our sort," thought Grace, remembering Horace Carver and his social prestige. She had often wondered why her plain, practical parents criticized the indolent Horace and his pleasure-seeking life. Only last night Mr. Pitt had declared that the girl who married young Winters would be mighty lucky.

She amused herself with this thought and then, finding that it was not unpleasant to consider, dismissed it in a panic of fear.

Ferd's little red car was at the door. But the little red car seemed reluctant to meet Horace Carver and by the time Ferd had coaxed it up to the railroad station the 4:10 train had come and gone and the station agent reported that the solitary arrival had crossed the road and taken the short cut through the woods to Mapleshade farm.

"We will overtake him on the wood road," said Ferd confidently.

The wood road wound through miles of oak trees. Thunder rumbled ominously, the sun darkened and was hidden from view and warm drops of rain pattered on the leaves.

"We can reach the top of the hill and run home across the pasture," called Ferd above the pattering rain.

"What shall we do with the car?" shivered Grace. She was afraid of the sharp lightning flashes.

"Leave it up at the top of the hill. I'll spread a rubber blanket over it," "Poor Horace," sighed Grace. "I'm afraid he will get awfully wet."

"He won't mind that," reassured Ferd carelessly.

Grace wondered if Horace would mind. She knew he would; he was very particular about his clothes. She liked to see a man fussy about clothes, although Ferd wore his well-fitting garments with a careless unconcern that was vastly becoming.

"Why am I always comparing these two men?" she asked herself indignantly. "I expect to marry Horace some day—oh, is it time to leave the car?" she asked as Ferd stopped the machine and got out.

"Yes. Let me help you put this dust coat on. There you are!" He covered the little car with a rubber blanket, and together they hurried down the hillside through the driving rain.

When they reached the brook, Horace Carver stood there hesitating.

"This is certainly a long way from civilization," he muttered, gripping his suit case and hatbox with dripping fingers.

"Why didn't you wait?" asked Grace. "We were on the way to meet you when the car became—"

"Very balky," finished Ferd crisply. "And now, Mr. Carver, we have to cross the brook to get home—the sooner we get there the more comfortable we shall be."

"Cross the brook—how?" demanded Horace, glancing across the fifteen-foot space.

"Wade—or I'll carry you over," proposed Ferd.

"You'd better carry me—I'll get pretty wet the other way," agreed Horace, and he permitted Ferd to take him on his shoulders and convey him across the stream.

Ferd made another trip with the suit case and hatbox and then went back to Grace, looking rosy and moist with the rain.

"Shall I carry you over—or will you wade?" he asked in a low tone.

With a fluttering heart Grace made her decision. "Carry me, please," she whispered, knowing that she wanted to feel his arms about her.

Horace watched them coming, his eyes narrowed jealously. How long the rustic took to wade through the shallow stream. Once his foot slipped on a smooth stone and he held Grace tighter. At last they were ashore, Ferd's white shoes and trousers dripping from the brook.

Reluctantly he released the girl and she slipped to the ground. But she still clung to his wet hand. "Come, let us hurry, Ferd!" Together they ran, and forgot all about poor Horace trudging behind with his luggage.

"Are you sure?" asked Ferd as they ran.

"Sure!" panted Grace, flashing a glance up at her bronzed giant.

NEWS FROM THE IOSCO COUNTY SCHOOLS.

Tawas City High School.

This is test week throughout the school.

Louise Anschuetz has returned to school after an absence of four days. The high school orchestra has been strengthened by the addition of a bass and a snare drum.

The American literature class are each reading a volume of modern fiction which they will review, paying special attention to modern style, as it differs from that of the earlier fiction.

Tickets are being sold for the declamatory contest Friday evening. The tickets will admit the holder to the first of a course of lectures which is to be given soon. Buy your ticket and attend the two entertainments.

The chemistry class has been working at water analysis for some time, and will now analyze samples of drinking water. The samples may be sent to the high school. This is a good chance to learn the minerals contained in water from the various flowing wells that are in the city.

Eighth Grade.
Miss Bessie Black of Maple Ridge was a visitor here last Friday afternoon.

Last Friday afternoon we enjoyed an adding contest. Nona Long was first in this contest having a score of 99.

"The Birds of Killingworth" have arrived and the eighth grade have begun the study of this poem for the state examination.

Four eighth grade students will participate in the high school declamatory contest Friday night. They are Florence Smith, Luella Brown, Blanche Brown and Keith Baguley.

The agricultural class have been doing some collateral reading from other textbooks and from government bulletins. Twenty-five or thirty such bulletins have been procured for this purpose.

A list of experiments has been mapped out for home work in agriculture. Five per cent for the semester on the standing of any pupil is offered for doing a specified amount of home gardening, stock feeding, etc., and making the required reports on the work done. It is hoped that many of the experiments will be carried through the summer, although it is required only up to June 16.

Alabaster School Notes.
The library room is now partly completed.

Lillian Anderson is ill with the chicken pox.

The second grade is reviewing some favorite stories in their reader.

We received from Margaret Lewis of Center, Colorado, gold, lead and silver bearing ore.

We are practicing the play, "The Real Thing," also the songs and play for our Easter entertainment.

Some people in addition to those last week who contributed work for the library room were, Eddie Baker, Eddie Mielock, and Leslie Nash.

Emil and Victor Lake of the intermediate room and Hilma and John Lake of the primary room are moving away. We are sorry to see them go.

The third grade is becoming much interested in spelling and as a result only one word was missed by the entire class during the week of March 27th.

Whittemore School Notes.
The ninth and tenth rhetoric class are studying the theme.

Stella Barnum acted as current event leader last Friday.

The eighth grade had a temporary test in grammar Thursday.

I don't know how we could get along without Hazel, do you girls?

The weather being so nice we have an average attendance of thirty.

Romanzo and Erma Hall were absent last week on account of sickness.

The tenth grade is busy reviewing for their final test which will be held next week.

Stella and Phoebe had better leave their conversations till recess. It doesn't pay to write notes as Mr. Jackson is always on the lookout.

Celia Abbott was absent last week. The fifth, sixth and seventh grades have organized a "Bird Lore" class of which there are sixteen members.

A temperance play will be given under the auspices of the executive committee of the W. C. club on April 28, 1916. Casts will appear next week.

An Accident.
It was last Friday afternoon, when we were all at work.

You know we're more industrious. Our duties we never shirk.

Alfrietta gave a little squeal and down she sat on the floor.

She had broken the seat, so we can't use it anymore.

This also frightened Bessie and she jumped up from her seat.

But when she went to sit down again she stepped on Alfrietta's big feet.

Alfrietta got up again and after a minute or so

She found that all her injuries amounted to a sore toe.

Lower Room Notes.
Ivan and Elgin O'Farrell entered school Tuesday.

Several of the pupils are sending for new knapsacks.

Basil and Wallace Goupil are very sick with pneumonia.

The fourth grade had a written test in arithmetic last Friday.

The third and fourth grades have begun using their drawing books.

The second and third grade language class are learning the poem, "The Bluebird."

The pupils are very interested in the book "The Hoosier School Boy," which is being read by the teacher.

The pupils of the second, third and fourth grades enjoyed a game of geography fruit basket last Friday afternoon.

Wonder What He Was Saying.
Observant Kiddy—"Oh, look at that funny man, mother. He's sitting on the sidewalk talkin' to banana peel!"

—Judge.

Optimistic Thought.
An honest man is believed without an oath, for his reputation swears for him.

Watch Child's Cough.

Colds, running of nose, continued irritation of the mucous membrane if neglected may mean catarrh later. Don't take the chances—do something for your child! Children will not take every medicine, but they will take Dr. King's New Discovery and without bribing or teasing. Its a sweet pleasant Tar Syrup and so effective. Just laxative enough to eliminate the waste poisons. Almost the first dose helps. Always prepared, no mixing or fusing. Just ask your druggist for Dr. King's New Discovery. It will safeguard your child against serious ailments resulting from colds. adv-2

NOTICE.

To Hannah S. Bulles, James H. Watson and to the owner or owners of any and all interests in or liens upon the land herein described:

Take Notice that sale has been lawfully made of the following described land for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a reconveyance thereof at any time within six months after return of service of this notice, upon payment to the undersigned or to the Register in Chancery of the county in which the lands lie of all sums paid upon such purchase, together with one hundred per cent additional thereon, and the fees of the sheriff for the service or cost of publication of this notice, to be computed as upon personal service of a declaration as commencement of suit, and the further sum of five dollars for each description without other additional cost or charges. If payment as aforesaid is not made, the undersigned will institute proceedings for possession of the land.

Description of land: Situated in Iosco county, state of Michigan, lot 2, section 11, town 22, range 6, amount paid \$9.09, tax for year 1911.

Amount necessary to redeem, \$23.18, to which must be added the fees of the sheriff and publication.

Yours respectfully,
NICHOLAS C. HARTINGH,
Place of business: Tawas City, Mich.
Dated Feb. 9, A. D. 1916.
State of Michigan
County of Iosco

ss. I hereby certify and return that, after careful and diligent search and inquiry, I have been unable to find the whereabouts or post office address of any person having any interest of any kind in the land described in the within notice of reconveyance, except Nevada and Charles Cottrell, the persons in actual possession of said land.

Dated April 5th, 1916.
ERNEST CHASE,
Under-Sheriff of Iosco County.

How Much Do You SAVE When you allow someone to GUESS At fitting your eyes with glasses?

Very often glasses seem to fit and enable one to see better, and yet the glasses do not remedy certain muscular imbalances and nerve insufficiencies. Such glasses are highly injurious and the result is serious and incurable eye disease.

Mr. G. E. Sloan is the only Graduate of an Optical College in this part of the state. He does no guessing but guarantees a perfect scientific fit in Glasses or no pay.

East Tawas, 2 Blocks west of Postoffice

Saturday Special

We will offer you

- 50 pounds of Bread Flour..... \$1.75
- 6 bars of any 5c Soap..... 25c
- 3 pounds of Crackers..... 25c
- 3 pounds of Ginger Snaps..... 25c
- 3 cans of Corn..... 25c
- 3 cans of Peas..... 25c
- 3 pounds of Best Rice..... 25c
- 6 pounds of Rolled Oats..... 25c
- A five pound Jelly..... 25c

W. J. ROBINSON

Tawas City, Mich.

The Anker-Holth Self-Balancing Cream Separator

is the FORD in its field. It is superior to any other make of cream separator. The bowl is guaranteed to balance throughout the life of the machine, and every moving part on which there is any wear is continually being oiled by the most up-to-date splash system in existence. It is a very close skimmer, easy running and simple.

In regard to the bowl, the disks are not numbered or notched at all and will go on the core three different ways, and it matters not which way they fall in place. We think you will agree with us as to this being the most simple bowl you have ever heard of. It will do away with notches and numbers which take a lot of time and patience. The more simple the bowl and the machine, the longer it will wear. And This is to your advantage.

We will put one in your home for 15 days free trial if you will call phone 67-F2 and state size you desire. They are also sold on easy terms to suit the buyer's convenience.

We will also take your old cream separator, overhaul it thoroughly and sell it for you at your risk, and allow you all that we can get for it when sold as payment on the note or notes that you give for a new one.

If you are not interested in a new machine we have several good second hand cream separators for sale cheap. Come and look them over. Some as good as new.

Don't Kill Your Wife

but let us do your churning and save her the work. We have hundreds of satisfied customers and if you will give us a trial we are sure we can please you.

Bring us your Eggs. We will pay you the highest market price

Tawas Butter Company
Tawas City, Michigan

Wood Fiber Plaster

We have just received a carload of this material from Alabaster and are ready to supply your needs. Every sack guaranteed.

We carry a full stock of Fertilizer, one per cent Potash, and a line of Feeds and Seeds as follows:

- June Clover
- Alyske Clover
- Mammoth Clover
- Timothy Seed
- Seed Beans
- Seed Barley
- Seed Buckwheat
- Oil Meal
- Cull Beans
- Winter Wheat Bran
- Winter Wheat Middlings
- Calf Meal
- Barrel Salt
- Spring Wheat
- Salvet

Look this list over; we are here to do business; if there is anything you want that we haven't got, we will be pleased to get it for you.

Wilson Grain Co.

Tawas City

Michigan

Two More Days

Our big bargain sale is still on and will last two more days, Friday and Saturday, April 14 and 15. We are making some exceedingly low prices on all kinds of merchandise and you will do well to take advantage of this sale today and tomorrow.

And don't forget that we have our New Spring Goods in and are ready to show you the latest styles and best fabrics for spring and summer.

Bring in Your Butter and Eggs. We will Pay You the Highest Market Price

A. BLUMENAU

Whittemore Michigan

Farm Machinery

Spring work is at hand on the farm and you will doubtless need some new tools. We carry the largest and most complete stock in this section and will be glad to show you our line and quote prices.

Wagons, Plows, Harrows, Discs

And all the smaller tools used in farm work are here in profusion

If you are thinking of buying a New Harness we can show you the best at prices which cannot be beaten for the quality. Let us prove it to you.

E. LOUKS

Whittemore Michigan

WAR! What Is It All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armor glistening, just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time—over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an ineffable impression.

Your War News Clarified

It is not enough to read the daily news reports. Your ability to comprehend conditions and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos and the "Review of Reviews" will do it for you.

Get the Review of Reviews for a Year

Send the Coupon only. It brings the big, handsome book, charges prepaid, absolutely free. All we ask is that—after you get the book and like it—you send 25 cents for shipping and \$1.00 a month for three months to pay for the "Review of Reviews" for one full year.

Review of Reviews Co.
30 Irving Place, New York

Review of Reviews
30 Irving Pl.
New York

Send me, on approval, charges paid by you, The Big Red Book, "Europe at War," bound in cloth. Also enter my name for the Review of Reviews for one year. If I keep the book I will remit in 10 days 25 cents for shipping and \$1.00 a month for three months for the magazine and retain the copy of "Europe at War." Without charge, otherwise I will, within 10 days, return the book at your expense.

Name _____

Occupation _____

For cash with order send only \$3.00 and we will pay shipping charges. The beautiful 3-4 leather edition costs only a few cents more. For a copy of this luxurious binding, charge \$1.00 to \$1.50, or send \$3.00 cash in full.

A PIECE OF RED GLASS.

The child's sense of beauty is the subject of a sketch in the Graded Sunday School Magazine:

One of the child's choicest possessions was a piece of red glass. He kept it wrapped in cotton in a shell-covered box. In this same box were a piece of blue glass, a stone with a line of pink running through it, and seven rattles from a rattlesnake's tail. These treasures were not for everyday use or display. He kept them for days when the world had gone wrong and nobody loved him, when he was obliged to stay indoors because of a cold, or when the boy he liked best to play with had gone downtown with his mother.

On such occasions he drew the box from its hiding place and found comfort in handling the treasures that were stored within it. He viewed his surroundings through the red glass until his world became rosy once more and he felt ready for work or play. He admired the stone, and dreamed dreams about the time when he should be so strong and big that "a rattlesnake coiled and ready to spring" would have no more terror for him than it had for Arnot, the man on the farm who had killed the rattler with the seven rattles. The blue glass had no special interest other than its prettiness.

The child's idea of what was pretty and beautiful was so different from that of his elders. Often he heard his father talking about the rug on the living-room floor, and his mother about a certain picture. The pictures he liked best hung in his mother's sewing room. In one a boy was trying on his first boy-suit of clothes, and the boy and his mother were laughing and having a happy time together. In another a blacksmith was shoeing a white horse. Both of these pictures were in color. Each told a story which the child understood and enjoyed. They were like the piece of red glass; they pleased and satisfied him.

Today we are beginning to realize that the child has a sense of beauty which, while it is the child's own, is acute. This sense of beauty needs to be recognized, understood, satisfied and developed. We believe that whatever we bring to the child he builds into himself and his character. When we hang pictures in a child's room we are hanging them on memory's walls. When we furnish a room for him and make it beautiful and appropriate to his use, we are bringing into his life a most helpful influence. It is said, "Every hour the children spend in a beautiful room etches deeper in a subconscious ideal," and that whatever children look upon becomes a part of them.

Learn a Little Every Day. Nearly two hundred and fifty million dollars were spent in this country last year for good roads.

In this country from 30 to 40 per cent of the cases requiring charity are due to sickness.

Since the American occupation of Hawaii the leper population has decreased fifty per cent.

CHAUTAQUA PROGRAM.

England circuit and produced a sensation wherever they appeared. In the afternoon, Hon. George E. Gorman of Chicago, will lecture on Pork Barrel Appropriations. This is not to be a partisan talk but a frank and fearless presentation of facts on a matter of vital importance to the American people. Mr. Gorman is an ex-Congressman and knows whereof he speaks. His lecture will be calculated to arouse a new patriotism in all that hear it.

Fifth Day

The full afternoon program and the prelude at night will be given by the Swiss Alpine Yodlers, who will be one of the most novel and spectacular attractions that will appear during the Chautauqua. This company is composed of two men and four women, most of whom were in the company which travelled with Mr. Bryn some years ago and which has been given so much publicity. They will appear in the picturesque vari-colored costumes of the native mountaineers of Switzerland and will sing their songs and yodels in their tongue to the accompaniment of their native instruments, the zither and harp guitar.

At night Byron C. Piatt, one of the great professional lyceum lecturers of America, will speak on the subject "Dead or Alive." Mr. Piatt is a dramatic orator and his long experience in the lyceum and his wonderful success in Chautauqua work has stamped him with the title of "The Prophet of a New Era." The Chautauqua will close with this lecture which cannot be excelled by any on the American platform.

Daily Thought.

They are such dear familiar feet that go along the path with ours—fast, fast or slow, but trying to keep pace; if they mistake we must be mute, not turning to impute grave faults, for they and we have such a little way to go, can be together such a little while upon the way, we must be patient, while we may.—George K. King.

CHARACTER TOLD BY HAND

Expert Criminologists Have by Direct Tests Proved Their Theories to Be Correct.

A French savant contends that the murderer has a distinctive hand. His face may not be hideous, but the hands always are, and self-characteristic. Evidence on the latter characteristic is scanty, and rests upon the investigations of the French criminologists; but as to the former it is a fact that some of the most brutal murders on record have been perpetrated by men whose countenances habitually wore a very mild expression. Deeming was a pleasant man to speak to until crossed; but some of the authorities who examined his hands declare his broad thumb indicated the born murderer. The true ball-headed thumb gives to the first phalanx a round, bulbous appearance. It is short, and the nail is so abbreviated as to suggest that it has been gnawed. It is embedded in the flesh, which rises on either side and beyond it. Dumoullard, a wholesale murderer, had a hand remarkable for its thickness and length of palm in proportion to the fingers. He had a significant sign, common to most murderers—namely, the almost entire absence of lines in the palm, save the three principal—the lines of life, head and heart. These lines were very strongly defined. The line of the head—the center line extending across the palm—was violently cut by the line of life running upward from the wrist. Chironomy interprets this to foretell a violent death. His fingers were knotty and uneven at the nail phalanges. To sum up, the signs of the murderer's hand are: Firstly, the "pouce en bille." Secondly, and only less important, the thickness of the Mount of Mars at the edge of the hand, from which flows the blood direct to the brain at the slightest motion, and causes the man to "see red." Thirdly, the scaffold sign in the severance of the "line of the head." Fourthly, the presence only in the palm of the three principal lines occasionally reduced to two, and almost always of a bright scarlet. Fifthly, crooked fingers with spatulate tips, the nails small and uneven. According to the rules of art, therefore, a murderer, if a murderer by disposition, and not (as in most cases) by accident, ought to have a hand with all, or nearly all, these characteristics.

Alaskan Timber.
In accordance with the recent act of congress, the wood needed in building the government railway in Alaska, from Seward, on the Pacific, 471 miles to Fairbanks, in the interior, will be taken free of charge from the Chugach national forest. The forest service has issued a permit to the Alaskan engineering commission to cut 85,000,000 feet of timber in designated areas along the right of way of the new railway, which will run for several miles through the Chugach national forest. Forest service employees are now marking the timber to be cut—only mature trees, the removal of which will improve the forest. That will be the largest quantity of timber ever felled in the Alaskan forests as a part of one undertaking. It will be nearly twice as large as the total quantity of timber now cut in the national forests and annually put to local uses throughout Alaska, but only a little more than one-tenth of the estimated annual growth of the Alaskan forests. The two national forests of Alaska contain about 78,000,000,000 feet of merchantable timber, and the forest service estimates that not more than 800,000,000 feet could be cut every year forever without lessening their productivity.—Youth's Companion.

Pan-America's Vast Area.

The combined area of Pan-America, exclusive of Canada, is 12,000,000 square miles, of which the Latin-American countries occupy approximately 9,000,000 and the United States 3,000,000. This physical extent of Pan-America is better realized when it is compared with that of Europe, which has 3,750,000 square miles; with Africa, which has 11,500,000, and with Asia, which has 17,000,000, a writer in the North American Review says.

Remembering that commerce is often described as "the life blood of nations," the Pan-American family certainly can be classed as lusty and full blooded, for in the last normal year before the war—1913—Pan-America's foreign trade, including both imports and exports, was valued at \$7,000,000,000, of which the share of the United States was about \$4,200,000,000 and of the Latin-American countries \$2,800,000,000.

Reconstructed Man Costs \$500.

With exhibitions and catalogues of artificial limbs brought to notice one gets to calculating the cost of a reconstructed man. Seemingly a little more than \$500 would suffice. A pair of articulated legs cost about \$150, and a pair of arms about \$100. Ears, with drums, etc., cost \$75 each; eyes \$30 a pair, and so on. Without heart and brain a man is worth about \$500. With them—the price might change.

Kills Two at a Shot.

Since Howard Beech shot a deer in his garden in Lee, Mass., a few days ago, it has been found that he killed two deer with one bullet. There was a herd into which he fired and all ran into the woods. He followed and disturbing the body of one through which the bullet had passed. Next day Isaac Vreeland found the remains of the other, a fawn, in which was the bullet Beech had fired.

OUR SCRAP BASKET

Crippled Mother Goose Rhymes.
Little Miss Muffet,
Sat on a tuffet,
Eating canned curds and whey;
But pomaine poison spied her,
And sat down beside her,
And of course, knowing that she was
in great danger, Miss Muffet refused to eat any more.

Home Grown Daffydills.
If you had been designing a new flag in colors, and found it would look better in black and white, would you use Pennon ink?

When a book is so bad that it gives you pain, who not have revenge by putting it on the rack?

If music were taught in the ocean, would it take long for a salmon to learn the fish scale?

Could a pair of black knitted gloves be called crow shade?

If a button was broken through the middle, could a needle and thread make the button whole?

Learn a Little Every Day.

A vessel is being built on Lake Michigan, to ply between California and Alaska.

Magnesia is being shipped from Skagway, Alaska, in large quantities, much of it for European countries.

The oxygen inhaler has made it possible to make balloon flights above 25,000 feet.

New York has 4,500 hotels and restaurants.

Washable Toys are the Safest.

Childish ailments are often difficult to account for, and even doctors are puzzled at times. But in cases like this one medical man, with children of his own, always asks: "Where are the children's toys?" Then often the problem is solved, and the case can easily be diagnosed as one of mild poisoning.

Most toys find their way into the children's mouths, the gaudy paint is sucked off, and trouble naturally follows. Some toys, wooden or tin trumps, for example, have the paint actually on the mouthpiece or within an inch of it. India rubber toys are favorites, but they should be uncolored, as the paint becomes brittle, breaks off, and a piece may be swallowed and cause severe stomach trouble.

Washable toys are always the best.

"OBSERVATIONS."

By Our Man About Town.

He was only a young man—surely not more than twenty-two or twenty-three years old, yet he was at once recognized as a "tramp."

He approached me while I was standing on the platform at the depot, and asked for a match. Given the match, he thanked me in such a way that I was agreeably surprised and, seeing that he was not anxious to get away, I decided to work into a conversation with him and, if possible, learn for my own satisfaction just why he was a tramp.

"No," he answered me, "I do not consider myself a tramp, although I do look like one and I imagine that is what I am in the eyes of all I meet."

I told the young fellow that people now-a-days consider every idle, ragged stranger a tramp and asked how he had fallen into his misfortune if he did not wish himself to be classed with other tramps.

"Well, sir," he told me. "I guess I have only myself to blame, but really I am not a bad sort. I left my little home town a few years ago and worked in different cities. But I started traveling in the summer, found it pleasant, and it's a fact that 'tramping' as the world calls it, is not such a hard lot. Of course I've been pretty hungry at times, and I've slept on bare floors, but I consider the experience worth it. I am getting to see the United States, and I probably never would have seen it had I stayed in my home town. I work now and then and very rarely have to beg. Sometime and soon, I think, I am going to find work, prove myself capable, and climb to a respectable position."

WANTS, FOR SALE, ETC

Help Wanted—For farm and mill work. Apply U. S. Gypsum Co., Albaster, Mich. 16

For Sale—Good house and lot for \$750. Mrs. John Fiedler, 783 15th St., Detroit, Mich. 18-pd

For Sale—11 head of heifers, some fresh and some due now. Jos. Fisher, Meadow Road. 17pd

Wanted—Small house or cottage suitable for a summer home. Must be on the lake. John C. Davies, Saginaw, Mich. 14

A Bargain—One surrey, nearly new and one set double driving harness. Call on W. H. Pringle, Emery Junction, Mich.

For Sale—Two farms near East Tawas, house and lot in East Tawas, two lots with large barn, and a quantity of farming implements and live stock. Inquire of Matt Haglund, East Tawas, Mich. 16

Room, board, heat, light, the use of the laundry and the comforts of the house at the Company's boarding house for \$3.00 a week. Will give men work who come with their wife or daughters prepared to work in our mills. For information write Western Knitting Mills, Rochester, Michigan. 17

Way With Some Men. It is sometimes difficult for a parent to threaten his son with chastisement without giving the impression that he is merely bragging about his superior strength.

Voice of Envy. When you've been walking all day and your feet hurt, some people in automobiles can look and do look devilishly, arrogantly comfortable.—Chicago Journal.

Demand These Features in Your SILO

Five Big, Dominant Features put the Saginaw Silo at the head of the list. Each one strengthens and fortifies the Saginaw silo structure. A silo without any one of these features does not measure up to the standard of construction you should demand in your silo.

- The Saginaw Inner Anchor** uniformly distributes the anchoring pull on all the staves. This device, with the Angle Steel Rib, prevents the staves from caving in.
- The Saginaw All-Steel Door Frame** is the key-stone of the Saginaw Silo, a heavy structural steel frame that completely does away with bulging or buckling of the silo walls.
- The Saginaw Angle-Steel Rib** encircling the silo, overcomes vibration of staves when silo is empty and prevents any possibility of caving in. The strongest winds cannot push in the wall of the Saginaw Silo.
- The Saginaw Spine-Dowel** unites all silo sections into a rigid, immovable wall. It makes an air-tight joint between the silo sections, and each dowel interlocks each silo with the others in four places.
- The Saginaw Base Anchor** holds the Saginaw to its cement foundation with the powerful grip of the giant oak.

To Build Permanent Build of Redwood
Redwood will not shrink, swell or decay. It resists fire. Government reports show that Redwood has resisted rot and decay for centuries. Redwood staves with the stomach, steel-bull features of the Saginaw Silo give it permanence and the perfect silage qualities of wood—sweet, clean, succulent silage.

Erect A Saginaw Silo
Saginaw Silos are built of Redwood, Bluelined Yellow Pine and Yellow Pine, the best woods for silo building. Whatever wood you choose, you get the Saginaw's fire-resisting construction that fortifies the Saginaw against wind and storm.

Behind every Saginaw Silo you have the reputation of the largest and most successful makers of silos. Saginaw Silos represent full value. Whatever you pay, you can't get as much dollar for dollar value in silos. Send for Silo Book No. 1. See agents in your locality. He will help you choose the silo best for your needs.

Talks With Screen-Struck Girls

Series Two. By Beatriz Michelena.
Copyright January, 1916 by Beatriz Michelena.

Beatriz Michelena

Every girl who has had aspirations to become a motion picture star, has probably some time come upon an advertisement that reads after this fashion:

"Be a motion picture performer and earn from \$50 to \$500 weekly. No experience necessary. Full particulars by mail."

Maybe she has answered it in a burst of enthusiasm, and then in due time found it to be the bait of some so-called school of motion picture acting. She doubtless received an elaborate prospectus, breathing in naive confidence the secrets to the golden El Dorado of the motion picture profession. Things were painted in a brilliant hue, well intended to whet her appetite for a course of gullibility? Were not instances, almost without number, cited of women who had succeeded in pictures just as the prospectus promised she would succeed? Undeniably the entire matter had a tone of plausibility. That is the prospectus man's business.

If she took the course, however, she has by now profited largely in experience, if not in the art of motion picture acting. She can tell you better than I how empty were the sweet promises of that prospectus. They erected for her a magnificent palace too, but it is shattered now and her pocketbook has suffered too. Worse, still, unless she is a girl of unusual metal, she is broken in spirit. If she had expected less, she might have accomplished more. But she expected too much, and the bitter disappointment of it has wrung out the ambition that she once had. That is one reason why the fake school of motion picture acting is such a crime.

However, like many other forms of crime it continues to flourish. Nearly every city has its fake schools now. It is merely a case of a lot of scoundrels, more or less shrewd in their villainy, trying to capitalize the motion picture craze that has swept the country, and especially the craze, found in some quarters, to become a motion picture actor or actress. Please my "screen struck" friends, beware of these prospectuses and their rosy promises. They can bring you nothing but disappointments.

HOW TO RAISE WILD DUCKS ON THE FARM.

"Why not grow wild birds on the farm, both for pleasure and for profit?" inquires Fred L. Holmes in the Country Gentleman, and proceeds to tell how, thusly:

"Prof. J. C. Halpin, of the Wisconsin Experiment Station, has demonstrated that the wild mallard is readily domesticated and may easily be raised by farmers who have small ponds or streams. Professor Halpin started about five years ago with a single pair. Although he sold many last year, he now has a flock of more than 200. The bird propagates so rapidly—from thirty to forty eggs a season—and shows the inherent ability to shift for itself at so early an age that the plan has evidences of being a good commercial proposition.

"Naturally the first question asked is how these birds may be kept in captivity. The original stock was lagged by hunters. When turned over to Professor Halpin he clipped one wing of each bird to the first joint. The following spring the thirty-odd eggs laid were divided between the incubator and the mother. The little ones became so domesticated from handling after hatching that they were even greater pets, than the domesticated ducks on the farm. Their rapid increase in numbers has not changed this condition.

"It is a sight worth seeing to behold these 200 mallards start on their exercise flights about four o'clock in the morning and just before sundown, sometimes in groups, then in an unbroken straight line. At times during the day they may take a spin, but when the weather is hot they prefer to lie in some shady place and quack family gossip. Sometimes they will go miles away or alight in pastures long distances from the yards that have been fenced off for them. A word to the farm dog with whom they have been raised and he is after them. As if they understood the message they rise and circle to the yards.

"Occasionally one or more pairs of these mallards may leave, but this happens too seldom to be considered of importance. On the leg of each duck, a few weeks after hatching, is placed a registration seal. This gives an opportunity to keep an exact record of each bird as to laying and breeding qualities.

"Not unlike guineas, these domesti-

cated mallards retain many of the instincts peculiar to their wild nature. When mother and baby ducks are out in the field, let a strange object approach and with one quack the little brown birds hide in the grass close to the earth. Moreover these wild ducks are habitual imitators. Let one mallard start limping and in ten minutes, unless there is something to attract attention elsewhere, a majority will be limping. A strange noise, the appearance of the dog, and all will again be walking naturally.

"Little feed is given these mallards because they fatten quickly and become logy. The 200 are given fourteen quarts of cracked grains each morning. Without any feeding, five mallards that were hatched on October 12, 1914, weighed three pounds apiece on Thanksgiving day. At four to five pounds the birds give up their regular flights.

"No special houses are demanded for them, even in winter. A shed is provided where they can get grain and drink, but during the daytime they sit on the snowbanks with their feet tucked in their feathers.

"On the market these birds sell for twenty to twenty-five cents each more than the domestic ducks.

A Delightful Desert.

Is well worth getting acquainted with because it will serve a company of 30 people at a cost of thirty cents. It requires one quart of milk, one pint of cream, two cups of sugar, one pint of dates and the juices of one lemon and one orange. Wash and chop dates and blend with the milk, then add cream, sugar and lastly the fruit juices. Pack in ice and salt and freeze. Could anything be simpler?

Woman's Ingenious Handbag Seat

With a woman's ingenuity, Katherine V. Minehart of Philadelphia has patented No. 1,490,997, a hand bag composed of two similar sections hinged together at one end to form the bottom of the bag and connected at their edges by the flexible sides of the bag of such size as to permit the bag to be opened, so that one of its similar sections may serve as a seat, and the other as a back rest for a person sitting on the seat, when the latter is flat on the ground or other support.

Dietetic Value of Onions.

Some dietetic experts believe that onions have a pronounced medicinal value, and that persons who eat them regularly are less liable to infectious diseases. There is no doubt whatever of the excellent effect which onions have upon the complexion.

Supervisors' Proceedings

Monday April 10th, 1916.

The Board of Supervisors of the county of Isosco, met in the court house in the city of Tawas City, said county on Monday the 10th day of April, A. D. 1916, to canvass the votes cast in the several townships and wards of said county on Monday the 3rd day of April, A. D. 1916, relative to the proposition, "Shall the manufacture of liquors and the liquor traffic be prohibited within the county?" pursuant to statute in such case made and provided.

Board called to order by clerk, Jno. A. Mark, who proceeded to call the roll.

Present—Supervisors Anschuetz, Bartlett, Belknap, Burt, Dickinson, French, Lindsay, Minor, Nunn, Phillips, Pinkerton, Preston, Robinson, Schroeder, Selee, Sullivan, Weir—17.

Quorum present.

Fremont F. French nominated for chairman.

There being no other nominations, on motion the rules were suspended and clerk was instructed to cast the

votes of all supervisors present for Fremont F. French for chairman of this meeting.

Number of votes cast, 17; of which Fremont F. French received seventeen.

Fremont F. French having received a majority of the votes cast is hereby declared elected chairman of this meeting.

Supervisor French then took the chair.

Moved by Sullivan, seconded by Nunn, that chair appoint a committee of five to canvass the local option vote and report to this board.

Motion carried. Whereupon chair appointed as such committee Supervisors Belknap, Anschuetz, Minor, Phillips and Nunn.

On order of chair committee retired to their duties and balance of board were given a recess until 1:30 o'clock p. m.

Board called to order at 1:30 o'clock p. m. by the chair.

Tawas City, Mich., April 10, 1916. Tabular statement of all the votes cast in the several townships and wards of the county of Isosco, at the election held on Monday, the 3rd day of April, A. D. 1916, on the proposition of county prohibition.

Shall the manufacture of liquors and the liquor traffic be prohibited within the county?

Townships and Wards.	Yes	No	Blank	Total
Alabaster township	34	39	1	74
AuSable township	7	16	2	23
AuSable City, first ward	7	12	1	19

Whittemore City, second ward	18	17	3	35
Wilber township	40	30	7	70
	840	914	10	1764

Whereas, From the returns of the votes given in the several townships and wards in said county of Isosco, at the election held in and for said county on Monday the 3rd day of April, A. D. 1916, on the proposition whether or not the manufacture of liquors and the liquor traffic should be prohibited within the limits of said county, it appears that the number of votes cast on such proposition is seventeen hundred fifty-four, and it further appears that the whole number of votes cast in the affirmative of such proposition is eight hundred forty, and that the whole number of votes cast in the negative of such proposition is nine hundred fourteen;

Now, therefore, it is hereby determined and declared by the board of supervisors of Isosco county, as the result of said election, that a majority of the votes of the qualified electors of said county, voting on said proposition has been cast in the negative of said proposition, and that the majority of the votes so cast in the negative of said proposition is seventy-four.

H. M. BELKNAP,
J. W. MINOR,
C. E. PHILLIPS,
GEO. C. ANSCHUETZ,
LEWIS NUNN,

Committee.
Moved by Belknap, seconded by Nunn, that report of special committee on canvass of local option vote be accepted and adopted.

Carried. Yeas—Anschuetz, Bartlett, Belknap, Burt, Dickinson, Lindsay, Minor, Nunn, Phillips, Pinkerton, Preston, Robinson, Schroeder, Selee, Sullivan—15.

Nays—None.
On motion chair appointed as special committee on mileage and per diem, Supervisors Robinson, Belknap and Preston.

Tawas City, Mich., April 10, 1916. To the Hon. Board of Supervisors of the County of Isosco:
Your committee on mileage and per diem respectfully submit the following as their report, recommending the allowance of the several amounts as given below, and that the county treasurer pay the same:

Name	Days	Miles	Amt.
Geo. C. Anschuetz	1	3	\$4.36
Edw. J. Bartlett	1	2	4.24
H. M. Belknap	1 1/2	15	7.80
Jno. C. Burt	1	10	5.20
W. H. Dickinson	1	16	5.92

Lewis Nunn	2	23	10.76
Chas. E. Phillips	1	2	4.24
Chas. A. Pinkerton	1	7	4.84
Jno. Preston	1	0	4.00
T. F. Robinson	1	7	4.84
Geo. W. Schroeder	1	11	5.32
Win. V. Selee	1	16	5.92
Jno. Sullivan	1	5	4.60
Alfred R. Weir	1	16	5.92

THOS. F. ROBINSON,
H. M. BELKNAP,
JOHN PRESTON,
Committee.

Moved by Robinson, seconded by Belknap, that report of committee on mileage and per diem be accepted and adopted.

Carried. Yeas—Anschuetz, Bartlett, Belknap, Burt, Dickinson, Lindsay, Minor, Nunn, Phillips, Pinkerton, Preston, Robinson, Schroeder, Selee, Sullivan—15.

Nays—None.
The clerk read the minutes of the days proceedings.

Moved by Anschuetz, seconded by Belknap, that minutes be approved as read.

Carried. Yeas—Anschuetz, Bartlett, Belknap, Burt, Lindsay, Minor, Nunn, Phillips, Pinkerton, Preston, Robinson, Schroeder, Sullivan—13.

Nays—None.
Thereupon on motion board adjourned.

JNO. A. MARK, Chairman.
Clerk.

Appropriate.
Dix—"A fire broke out at the prison last night. Dix—"Broke out, did it? Then you might call it a fire escape-what!"—Boston Transcript.

MEETING UNNECESSARY.

He—So you know my wife?
She—Oh, very well indeed.
He—I wasn't aware you had met.
She—We haven't but I have a maid who was employed in your house for two months.

IN AGREEMENT.

The milkman was new to his job and lacked the wisdom of more experienced members of the species.
"It looks like rain this morning, m'm," he said, pleasantly, gazing skyward, as he poured the milk into his customer's jug. "It always does," said the customer.

But Few Are.

A cynic is usually a person who imagines he is smart enough to be polite and ill-natured at the same time.—Washington Star.

Statement of the Ownership, Management, Circulation, Etc., Required by the Act of Congress of August 24, 1912.

Of Tawas Herald, published weekly at Tawas City, Mich., for April 1, 1916. State of Michigan

County of Isosco

ss. Before me, a notary public in and for the state and county aforesaid, personally appeared Jas. E. Ballard, who, having been duly sworn according to law, deposes and says that he is the editor and proprietor of the Tawas Herald, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business manager are:

Publisher, Jas. E. Ballard, Tawas City, Mich.; editor, same; managing editor, same; business manager, same.

2. That the owners are: (Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock).

Jas. E. Ballard, Tawas City, Mich.
3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state).

Len J. Patterson, Tawas City, Mich.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is: (This information is required from daily publications only).

Jas. E. Ballard.
Sworn to and subscribed before me this fourth day of April, 1916.
Frank F. Taylor,
Notary Public.
My commission expires Jan. 6, 1917.

OFFICIAL CALL FOR THE REPUBLICAN COUNTY CONVENTION

To the Republican Electors of the county of Isosco:
A county convention of the Republicans of the county of Isosco is hereby called to meet at the Court House in the city of Tawas City, on Thursday, the 27th day of April, 1916, at 10 o'clock in the forenoon for the purpose of electing five delegates to the Republican state convention, which convention will be held in the city of Lansing on the third day of May, 1916. The county convention will be for the transaction of such other business as may properly come before it.

In accordance with a resolution adopted at a previous Isosco county convention, the apportionment of delegates is on a basis of one delegate for each 25 votes or portion of 25 votes of the Republican party vote for the secretary of state at the last preceding general election, provided that all townships and wards are entitled to at least two delegates.

Apportionment: Alabaster, 2; AuSable, 2; Baldwin, 2; Burleigh, 2; Grant, 2; Oscoda, 3; Plainfield, 2; Reno, 2; Sherman, 2; Tawas, 3; Wilber, 2; AuSable City, three wards, 6; East Tawas, 1st ward, 3; 2nd ward, 3; 3rd ward, 3; Tawas City, 1st ward, 2; 2nd ward, 2; 3rd ward, 2; Whittemore, 1st ward, 2; 2nd ward, 2. Total 49.

Caucuses to elect delegates to the county convention should be called by the members of the county committee in the various wards and townships.
Frank F. Taylor,
Chairman.
Will McGillivray,
Secretary.

Dated Tawas City, Mich., April 6, 1916.

New Line Faultless Wear-Ever Rubber Goods

The Shadow of the Dollar

need not hang over you all your life.

Not only those in actual want, but every man and woman knows that shadow at some time. The fear of being without money is a powerful, driving force. It can take most of the pleasure out of life. This fear is shared by all but one class of people—those who have moved out of the shadow of the dollar by accumulating a cash reserve.

Little by little, YOU can accumulate a reserve. Why not keep your money SAFE in the oldest State Bank in Northern Michigan, while you are getting out of the shadow of the dollar.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

HEMLOCK SLIVERS.

Listen to those wedding bells. Clifford Hayes arrived home from Flint Saturday.

Mr. and Mrs. Burt Pappel of Reno visited at Wm. Pappel's Sunday.

J. B. Brown has returned to Elm Forks ranch to spend the summer.

Mr. and Mrs. Frank Schneider spent Sunday at the home of Wellington VanSickle.

Henry Smith is building a house on his farm on the Meadow road. Another bachelor added to our list.

The ladies of the Greenwood Baptist aid will have a necktie social at the Grant town hall, Friday evening, April 21.

Mr. and Mrs. Streeter and Mr. and Mrs. Jennings of Hale attended the Gleaner federation at the Grant town hall Tuesday.

Word was received here that Miss Lillian VanSickle and Melvin Mosher of Tivning were united in marriage on Monday April 3. Miss VanSickle was formerly of this place and her many friends here extend congratulations.

Owing to the rainy weather not a very large crowd attended the Gleaner federation at the town hall Tuesday, but what was lacking in number was made up by appetite when they came to that chicken and ice cream dinner and supper.

On Sunday night, April 9, death came to the home of Mr. and Mrs. Alfred St. Martin and claimed their oldest daughter, Miss Gertrude, aged 13 years and 10 months. She had been unable to attend school during the past winter and for the past month has suffered a great deal. The family have the sympathy of the entire community in their sad bereavement. The funeral was held Wednesday morning from the Catholic church in East Tawas.

RENO RUMBLINGS.

Buzzing wood is the order of the day.

Ernest Vance moved to his farm Tuesday.

Mrs. Chas. Harsch returned home Saturday.

Mr. Corrigan was at Hale on business Monday.

Miss Effie Westervelt spent the week end at home.

John Brudley went to Buffalo with a car load of stock one day last week.

Sam Bronson's family have all been sick with tonsillitis, but are some better.

Stanley Williams returned to his home in Bad Axe Tuesday of last week.

A car load of building material including a team for Mr. Adams came to Taft Tuesday.

Chas. Thompson loaded out a car load of hay last week. It was shipped to the Gates ranch.

The double arch bridge on the Hemlock road was quite badly damaged by the high water this spring.

Mr. and Mrs. Williams of the Canadian N. W. are visiting Mrs. W.'s sister, Mrs. J. A. White, this week.

A number of Grangers met at the town hall Wednesday of last week and enjoyed a good dinner and meeting.

Mrs. Jos. Harsch entertained a few of her friends with a quilting Monday. Aside from sore fingers they all report a good time.

J. M. Johnston and family moved to Flint Friday. They will be greatly missed by their many friends, but we wish them success in their new home.

Sam and Joe Barnes were called to Flint one day last week by the death of their father. Mr. Barnes was quite well known in this vicinity and although we have heard from time to time of his poor health the news of his death came as a shock and to those who are left to mourn his loss we extend our sympathy.

Old newspapers for sale at this office 5c per bundle.

John and Adam Dirker and Geo. and Michael Zurn, also Geo. Neurminger and Mrs. Henry Hinty all of Saginaw were called here on Wednesday on account of the death of their aunt, Mrs. Margaret Anschuetz.

Another of the pioneers of Iosco laid to rest.

Died at the home of her son, John Anschuetz, in Tawas township on April 3, 1916, at the age of 79 years, 9 months and 9 days. Mrs. Margaretha B. Anschuetz, widow of John L. Anschuetz.

The deceased was born at Moshach Kingdom, Germany, June 25th, 1836 and emigrated with her parents, April 6, 1852, to this country. Arriving at Castle Garden after a voyage of eight weeks on the ocean. On Oct. 21, 1855 she entered into the bond of holy matrimony with John L. Anschuetz at Saginaw, Mich. In July, 1866, they came to Tawas and located on the homestead near Cold creek, where the youngest son, John Anschuetz and family now resides and with whom father and mother had their home.

The union was blessed with nine children of which three died in early infancy. There are five sons, Geo. C., John H., Ernest S., Chas. H., and John, Jr., and one daughter, Mrs. Henry Hoshack, all of Tawas township and 19 grandchildren and eight great grandchildren to mourn her loss.

The funeral service was held from the Emmanuel Lutheran church on Thursday afternoon and was largely attended. Rev. C. C. Henning officiating. The remains were laid to rest beside her husband in the German Lutheran cemetery in Tawas City.

The Tawas Herald \$1.50 per year.

FOREST SERVICE NOTES.

(From East Tawas office).

Walter B. Cornett of Wilber has been appointed as forest guard for the coming season on the Michigan National Forest, and will be stationed at Silver Creek where he will assist Forest Ranger Johnson in fire protection work.

Asst. Forest Ranger Harry A. Goodale leaves on Saturday for the Mio district. Mr. Goodale will have his headquarters this year at the Long Lake Ranger station where it is planned to erect a 60 foot steel lookout tower. The construction of this tower will equip all the ranger districts in the southern and northern peninsulas with fire towers, with the exception of the AuSable district.

E. B. Follett of Hale, Richard Cornett of Wilber, Clifton Scott of Hale, and Henry Fahselt of Tawas City have been appointed as per diem guards upon the Michigan National Forest for the coming season. The per diem guards will constitute an additional protective force and will work in connection with Asst. Forest Ranger Johnson and Forest Guard Cornett in the work of the protection of the Tawas district.

The Forest Service is placing a number of galvanized iron fire tool boxes or caches upon the Tawas division of the National forest. These fire tool boxes are sealed and contain a supply of tools which can be used in putting out a small fire. The boxes are being placed along the main travelled roads where the tools can be secured by breaking the seal in an emergency by travellers through the Forest.

The Forest Service is cleaning up the brush for a strip 35 feet wide upon each side of the Baldwin or Thompson road. A fire line will be constructed for a distance of 6 miles along this road to Silver Creek, which will then be extended to the north.

AUTOMOBILE OWNERS—ATTENTION.

The statute requires automobile owners to pay a license fee to the Secretary of State and procure number plates which must be placed on automobiles used on the highways, one number plate in the front and rear of each car. Several owners have neglected to procure their licenses, consequently, notice is hereby given that the law will be enforced immediately. Owners are subject to arrest and fine for operating cars without licenses. Having made application only for a license does not give anyone the right to operate a car. Applications can be procured from the Secretary of State, Lansing, Michigan.

By order of Collie Johnson, Sheriff. Dated, April 13, 1916.

\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known for the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

NOTICE OF ROAD LETTING OF ASSESSMENT DISTRICT ROAD NO. 35.
Sealed bids will be received until noon April 19th, 1916, by Frank F. Rogers, State Highway Commissioner, Lansing, Michigan, for the construction of 7.775 miles of twelve foot trunk line class C, stone bottom, gravel top road located as follows:
Commencing at the west city limits of Whittemore, Iosco county, and continuing thence west on the state trunk line route to the corner common to sections 22, 23, 26 and 27, Richland township, Ogemaw county.
This road is to be built under the direction of the State Highway Department, funds being secured by the sale of bonds based on a tax upon a special assessment district and upon the townships of Richland, Ogemaw county, Burleigh, Iosco county, and upon the counties of Iosco and Ogemaw at large.
Bids will be received in lump sum for the road complete, according to plans and specifications, but unit prices must be given as shown on the bidding blanks which will be furnished by the State Highway Department and used by every bidder.
Road must be started within fifteen days from date of signing the contract.
Road must be completed December 1st, 1916.
Plans, specifications and proposal blanks may be examined at the office of H. M. Belknap & Sons, Whittemore, Michigan, or may be had by writing the undersigned, enclosing a deposit of \$5.00 which will be refunded upon the safe return of the plans.
A certified check of \$1,000.00 is required with each bid.
The right is reserved to reject any or all bids.
FRANK F. ROGERS,
State Highway Commissioner.

Probate Notice.
STATE OF MICHIGAN, The Probate Court for the county of Iosco.
At a session of said court, held at the probate office in the city of Tawas City in said county, on the 31st day of March A. D. 1916.
Present: Hon. David Davison, Judge of Probate.
In the matter of the estate of Frank Korner, deceased. Catherine Korner having filed in said court a petition praying that a certain instrument in writing, purporting to be the last will and testament of said deceased, now on file in said court be admitted to probate, and that the administration of said estate be granted to Frank Miller or to some other suitable person.
It is ordered, That the TWENTY-EIGHTH day of APRIL A. D. 1916, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition;
It is further ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing in the Tawas Herald, a newspaper printed and circulated in said county.
DAVID DAVISON,
A true copy. 17 Judge of Probate.

Power

DON'T overlook this matter of power. It is important. You want an automobile that will carry you through mud, sand and snow, and do it easily. You want a car that will climb hills, that will get away quickly without laboring and straining its every part.

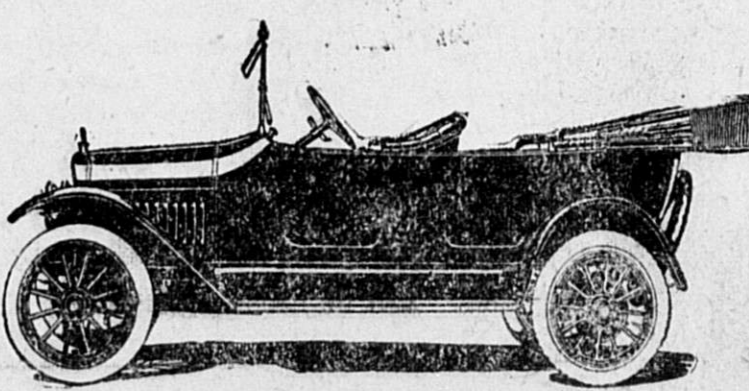

Not all cars can do these things, but you *know* that the Maxwell can because you have the proof.

When the Maxwell stock touring car set the World's Motor Non-Stop Mileage Record a few weeks ago, it encountered all sorts of unfavorable conditions—rain, mud and hills, over country and city roads—yet it covered 500 miles per day, day after day, for more than six weeks.

Power, plenty of power, unflinching power, is absolutely essential to such a wonderful performance as this.

Let us give you a booklet telling all the details of this record breaking Maxwell car. And let us tell you about our partial payment plan, by means of which you can make a cash deposit and pay the balance while you use the car. Give us the opportunity and we'll prove our case.

Touring Car, \$655
Roadster, \$635
