C. E. NOTES. Christian Endeavor Sunday evening, 6 p. m.

Topic—"Blessings of Peace and How to get them." John 14:27.

Leader—Clara Latter.

Last Sunday's meeting was led by Miss Luella Patterson and enjoyed by all.

On Thursday evening an executive committee meeting was held at the home of Mr. and Mrs. Campbell. Methods were discussed and new plans made for the different committees.

"Efficiency" is the watchword of Christian Endeavor and our aim is to raise our standard each month.

DEATH OF MRS. WM. GROFF. Another of the pioneer residents of Tawas City passed to the Great Beyond last Thursday, when Mrs. Wm. Groff, who has been a resident here since 1878, died at her home after an illness of about two years. The cause of death was cancer of the stomach. Mrs. Groff had been confined to her bed for about a year.

Percilla Lane was born in the township of Gainsborough, county of Monk, Ontario, Canada, on Sept. 15, 1836, and was therefore 80 years of age. On August 15, 1854, she was united in marriage to William Groff. They came to Tawas City Oct. 22, 1878 and have since made this their home.

One child was born to them, Mrs. Charles Goodwillie, now of St. Catharines, Ont., who with the bereaved husband and an adopted son, Wesley Groff of Flint, survive her. There are also eight grandchildren and ten great-grandchildren.

The funeral was held Saturday afternoon from the M. E. church. Rev. John Pinches officiating, and interment was made in the Tawas City cemetery.

EPWORTH LEAGUE. Sunday, May 21, 6:15 std. time.

BE KIND TO YOUR HORSE AND ALL DUMB CREATURES. IT SHOWS THE GENTLEMAN. adv

IOSCO COUNTY PIONEER DAY.

On June 6, 1916, a pioneer day will be held at Hale under the auspices of the County Gleaner Federation.

This meeting is for the purpose of gathering the pioneers of this county together, listening to their experiences of early days and collecting written accounts of each one's early struggles here in their early days that their names and the history of what they endured to make our county the beautiful place it is to live in today, may be sent in to our State Pioneer Historical society at Lansing and used in a future history of this county, also that the proper steps may be taken to make this meeting an annual affair, that our pioneers may be duly honored and remembered.

Mrs. M. B. Ferrey, curator of the Pioneer museum at Lansing and for a long time connected with pioneer work in Michigan, will be present with us. She will talk on this subject and illustrate her talks by means of girls dressed to represent the different decades of our country's history.

There will be hot coffee and a free dinner furnished at noon by the Gleaners and farmers of the County Federation.

We wish to ask through the columns of this paper the hearty co-operation of everyone in this county. Names of pioneers sent into the secretary of the arrangement committee will be appreciated, also suggestions for the advancement of this meeting. A program will be published later.

Arrangement committee: Nellie Jennings, secretary; Hale; E. V. Esmond, Hale; Elmer Streeter, Hale; John Frasier, Tawas City, R. F. D.; Etta Froelich, Whittemore, R. F. D.

Old relics such as pieced quilts and handwork of early days. Indian relics and anything old you may bring will be put on exhibition and the articles well taken care of and returned to you at the close of the meeting.

Nellie Jennings.

THE IOSCO RIFLE CLUB.

At a meeting held last Saturday evening at the East Tawas city hall steps were taken toward the organization of a semi-military company to be composed of men from Tawas City, East Tawas and vicinity, to be known as the Iosco Rifle Club.

The object of the organization is the same as that being pursued in many places throughout the country where a citizen soldiery is being formed to give those interested an opportunity to secure training of a military nature and to fit them for service as soldiers should occasion require. The organization will have no connection with the federal army nor the state militia, but the equipment such as guns, ammunition, uniforms if desired, etc. are furnished at a nominal figure by the military department of the federal government. The guns will be Krag-Jorgensons, and will be sold at \$5 each to those who wish to buy, and with each five guns bought the government will loan one to the company for the use of those who do not wish to purchase.

A temporary organization was effected at the meeting mentioned by the election of A. W. Black as chairman and Ed. Pierson as secretary. Another meeting will be held next Monday evening at the East Tawas city hall to form a permanent organization and take whatever steps are necessary to put the company on a working basis. At the meeting last Monday night fifteen men signed the roll and the promoters have in prospect about 100 men, from whom it is expected to form a company of 60 or more.

There is a great deal to be said in favor of an organization of this kind, as it gives an insight into military training without compelling its members to bind themselves in any manner to perform military duty. In case of need the training received in this organization would fit a man to become a real soldier in time of war with a great deal less drill than would be necessary under ordinary conditions. It is to be hoped that enough interest will be manifested by the young men of the Tawas to make the move a success.

All those interested are urged to attend the meeting next Monday evening, and join the company. Some good times are anticipated the coming summer in the nature of "hikes" into the country, etc.

CARD OF THANKS.

We wish to express our sincere thanks to the kind friends and neighbors who extended to us their sympathy and assistance during the illness and death of our beloved wife and mother. O. Grise and Family.

MAY MUSICAL FESTIVAL WAS A BIG SUCCESS.

The May musical festival given at the Methodist church in this city on Wednesday evening under the auspices of the Epworth League, was voted by those who heard it one of the best musical events which has ever been given in Tawas City. The church was filled to its capacity and words of commendation for the participants and for those whose untiring efforts had made the entertainment possible were heard on every hand.

Lack of time and space prohibit our giving the individual mention they deserve to each of the numbers on the program, but suffice it to say that two or three times the admission fee charged in this instance is often paid for hearing an entertainment of far less merit. Indeed, two of the participants, Messrs. A. E. and A. P. Applin, have achieved considerable fame in musical circles and have been engaged for the Chautauqua circuit the coming season, the former as baritone soloist and the latter as trombone soloist. They expect to leave soon for the west to begin their engagement.

The first part of the entertainment was participated in by a chorus of 21 voices, while in the second part an orchestra of 13 pieces, composed of Tawas City and East Tawas talent, added greatly to the program.

During the intermission between the two parts of the program L. H. Emerson, "The Backward Man," entertained the audience with his feats of writing forward with one hand, backward with the other, and reciting a poem, all at the same time. Mr. Emerson's unique exhibition never fails to please his audience and is a valuable addition to any entertainment where he appears.

The gross receipts of the evening were about \$35, and after all expenses are paid the League will have in the neighborhood of \$21 to apply on the payment for the new organ recently purchased for the church.

DEATH OF MRS. O. GRISE.

Mrs. Odolon Grise, a resident of Tawas City for nearly 50 years, died at her home in this city last Friday afternoon, May 12, after a lingering illness. Her age was 78 years.

The funeral services were held from St. Joseph's church, East Tawas, Monday morning and interment was made in the East Tawas Catholic cemetery.

Hortense Dube was born in the Province of Quebec, Canada, on Sept. 4, 1837. In January, 1880 she was married to Odolon Grise, and in 1867 they moved to Tawas City and have made their home here since. Ten children were born to them, eight of whom with the bereaved husband are left to mourn her demise. They are: Philip, of Chicago; Wilfred, of Detroit; Peter, Charles, Edward, Eli, Dolph and Miss Elizabeth, of Tawas City.

One by one the old pioneers of this section of the country are passing to the beyond, and while we regret their going we cannot but believe that the trials and hardships they have undergone have earned for them a well deserved rest in the hereafter.

The sympathy of the entire community goes out to the bereaved family in the loss of a loved wife and a good mother.

SPRAY YOUR FRUIT TREES.

Now is the time to start spraying your fruit trees, and the best method to secure the best results is to continue spraying during all of the early part of the year—and then some. There is little danger from too much spraying, but there is much danger from too little spraying. And it is this last trouble that has been causing the damage for years past in Northern Michigan.

Orchards with a good crop of first-class fruit are hard to find in an average year in Northern Michigan, mainly because of the fact that there has been too little spraying. Of course, the care of the orchard in other ways also counts much in fruit growing, but spraying in spring time is one of the big things.

Farmers could just as well make large profits from their orchards if they would devote a little time to them, and the returns for the time and money invested would certainly be handsome. Not only would the farmer have plenty of fruit for himself but he would have plenty to sell at a good figure.

There is never any trouble selling first class fruit, but this section has been placing poor fruit on the market for so many years that buyers have become discouraged and few of them will come here for their best grades of fruit. This trouble can only be remedied through the orchard owners, and spraying is one of the big things demanded.

Most farmers spray their potatoes and some crops but forget to spray their orchards. As there is more money in good fruit than in good potatoes, why should not the orchard also be sprayed and treated as carefully as is the potato crop.

Spraying is not an expensive operation to the farmer and the increase in profit on the crop is so great that it does not seem creditable that so many farmers and orchard owners fail to spray. Material for spraying can be purchased of your local dealer, who will also sell small spraying outfits at a reasonable figure. Unless your orchard is a large one you need not put much money into your outfit to get the desired results. Spray now and keep spraying.—Petoskey Independent.

HALE AND VICINITY.

Mr. and Mrs. S. S. Long of Prairie Depot are looking after their interests in the place.

Rev. Joseph Dibley autoed through from Petoskey, arriving here Tuesday for a visit with relatives.

Rev. Marsh gave an illustrated lecture at Long Lake Wednesday evening.

A. Badour is putting an addition on his house.

There is to be a special "one hour service" at the Baptist church Sunday morning from 10 to 11 o'clock, when Rev. Thos. Marsh will speak on "If Christ Was Dead—?" A picture of the world without Christianity. The whole service will be bright, brief and brotherly. A people's popular service, with no "issue" and no cold creeds. We will do our best to make you feel at home.

DEATH OF MRS. JAS. MORRISON. Mrs. Minnie Morrison, daughter of Robert and Sarah Stevens, was born in Ontario March 20, 1877 and died Sunday May 14, aged 39 years, 1 month and 24 days.

She moved to Hale in the spring of 1897. She was united in marriage to James Morrison, November 29, 1897.

She leaves to mourn her loss three children, Nina, Rose and John Risdon and a husband, besides many other relatives and friends. She was a member of the local Baptist church.

She was of a quiet and generous disposition and most loved by those who knew her best.

CARD OF THANKS.

We wish to extend our heartfelt thanks to the kind friends and neighbors who assisted us during our bereavement in the death of our loved wife and mother, and also for the beautiful flowers.

James Morrison and Family.

WILLIAM REEVES, DECEASED. William A. Reeves, an old resident of this city passed into the Great Beyond, last Friday afternoon, May 12, at 3:15 at his home in this city. The cause of death was Bright's disease. The deceased had been ill for more than two years but for the past six months had been confined to his bed.

William Arthur Reeves was born in Salem, Ohio, Nov. 8, 1847 and was 68 years of age at the time of his death. In 1884 he was married to Miss Anna Fritts at Miles, Mich. He had been a resident of East Tawas since 1868 except for nine years spent in Detroit. In 1903 he returned to East Tawas and for a number of years was a successful merchant in this city.

Funeral services were held from the family residence last Monday afternoon at 2 o'clock, Rev. W. R. Blachford, rector of Christ church, Episcopal, officiating. The remains were laid at rest in the East Tawas cemetery.

The relatives who are left to mourn his loss are a wife of this city and one brother, Harold M. Reeves of Alpena. Mr. and Mrs. Harold Reeves were present at the funeral. The deceased was well known and respected by all in the community and many friends join with the relatives in mourning his demise.

STUDY OF EARLY FOSSILS. The fossil shells of the early invertebrates are of great importance to geologists, for they indicate the geologic period in which the rock beds containing them were formed—in other words, the age of the rock. Each fossiliferous rock bed contains characteristic forms or groups of forms that determine the period in which it was laid or sand. Former Director Powell of the United States Geological Survey once tersely explained to a Congressional committee the value of paleontology by saying that it is "the geologist's clock," by which he tells the time in the world's history when any rock bed was formed.

The economic importance of paleontology has been repeatedly shown in this country. In the earlier exploitation of anthracite coal thousands of dollars were fruitlessly expended in New York in search of coal beds until the New York geologists showed that the beds in that State could contain no coal. The fossils in the New York rocks exploited are of Devonian age, whereas the fossils of the Pennsylvania anthracite coal beds belong to the Carboniferous, a much later period. This discovery at once stopped a useless expenditure of money.

In times of doubt and perplexity the geologist therefore turns to the paleontologist for light on the age and original order of the rock beds he is studying. The study of the animal and plant remains that are embedded in the rocks has thus become an important part of geologic work, and although the specialists who are engaged in this study are few, their work is of high importance.

LIVING 100 YEARS. A specialist who declares there are more octogenarians in the world than general public suspects and that there ought to be a good many more there are lays down the following simple rules for living:

"Be moderate. Do not worry. Take plenty of sleep. Have lots of exercise. Eat plenty of sugar, rice, peas, fruit, potatoes, bread and milk. Eat sparingly of fish and meat."

"Almost any person with a healthy constitution and following these rules could live to be a hundred," says this authority.

Sir James Crichton-Bowen, the celebrated English physician, has declared that it is a "good working hypothesis to regard the natural life of man as 100 years."

These eminent authorities thus remove all excuse for death at the early age of 80 or 90.

The patriarch who has attained his "three score and ten" is but a blooming youth with a least 30 years of hard work before him.

But these specialists, who talk so learnedly, are, after all, only theorists. Neither of them has attained to 100 years himself.

For more thousands of years than can be accurately computed, men have made it their principal concern to live just as long as they can. Precious few, in modern times at least, have succeeded in passing 100 years. So the secret cannot be as simple as it is made to seem.

Maybe each individual is good for just so much wear and tear.

TAWAS CITY, MICH., MAY 19, 1916

Live, patriotic American citizens everywhere are beginning to express themselves freely regarding the slow, dilly-dallying methods being used by this government in handling the Mexican situation. Even President Wilson's staunchest supporters are deprecating the "watchful waiting" plan which has been followed so long and which has been so unproductive of the desired results. So long as the depredations of the bandits were confined to the seizure and destruction of the property of American corporations in Mexico, so much protest was not heard, for these people went into Mexico with their eyes open and knowing how precarious their position there might become. But when the situation develops to where the Greasers come across the border and attack harmless and inoffensive American citizens in their own homes, more drastic action should be taken than has yet been done. War under any conditions is to be deplored, but thousands of American soldiers have fought and died for a cause which had no more justification than this, and there are thousands of them today who only await the word to shoulder their arms, go down into Mexico and teach the Greaser to have respect for American life and rights. The puny expedition which is now in Mexico is only child's play compared with the job we ought to tackle. All the councils and exchange of polite "notes" will not accomplish half as much nor have the lasting effect that an adequate body of United States troops sent into Mexico on real business would have. Sooner or later the time is coming when Mexico must be taught a lesson with American bullets and bayonets and the sooner it is done the better, for the American people are tired of trifling.

The candidates for the nomination for governor of Michigan are all either men with abundant finances or else holding jobs with good fat salaries attached, but none of them seem disposed to part with any of their kale to advance their candidacy through the newspapers. Instead they are trying to boost their ambition by means of free plates and other publicity matter which they expect the newspapers to publish without remuneration. Some of the papers are "easy" enough to fall for this kind of dope, but the majority of them are asking to see the color of the candidates' money before giving them much publicity.

The nude has a place in the world, but there is some doubt if so much nakedness in the moving pictures in the name of morality is really moral.

Political Announcements

HON. E. B. FOLLET ASKED TO BE A CANDIDATE FOR RE-ELECTION.

It has been very gratifying to me that so many of my constituents and friends have approached me in regard to my being a candidate for re-election to the State Legislature from the Iosco district. I have therefore concluded to announce my name at this time as a candidate for re-election on the Republican ticket in the August primaries. I at this time wish to thank the people of the district for their loyalty in the past. Your support will be appreciated. adv-22

CANDIDATE FOR SHERIFF.

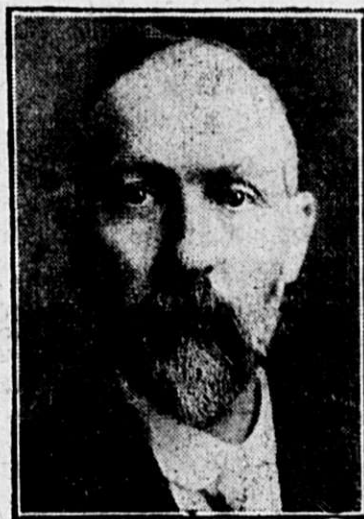

I wish to announce to the electors of Iosco county that I will be a candidate for the nomination for sheriff on the republican ticket at the August primaries. Your vote and support are respectfully solicited.
adv-21 Frank J. Long.

CANDIDATE FOR SHERIFF.

I wish to announce to the electors of Iosco county that I am a candidate for the nomination to the office of sheriff, on the democratic ticket, at the August primaries. Your support and votes are respectfully solicited.
adv-20tf Thomas H. Hill.

TO THE REPUBLICAN VOTERS OF IOSCO COUNTY:

I wish to announce that I am a candidate for nomination to the office of County Treasurer on the Republican ticket and will appreciate your vote at the primary election.
Thanking you for your generous support in the past, I am
Respectfully yours,
adv-21 Joseph G. Dimmick.

To the Voters of the 23rd Judicial Circuit of Michigan, comprising the Counties of Alcona, Iosco and Osceola:

I hereby announce that I will be a candidate for the Republican nomination for Circuit Judge at the August primaries and will appreciate any support that may be given me.

For the information of those who do not know me, I will say that I have been a resident of and have practiced law continuously in the Circuit for the past thirty years; I have served several terms as Prosecuting Attorney for Alcona County and was a member of the Constitutional Convention of Michigan for the years 1907-1908.

Respectfully,
OSMOND H. SMITH,
adv-tf Harrisville, Michigan.

INDORSED FOR STATE SENATOR Greenbush Man Honored by Repub- lican County Convention.

From Alcona Co. Review, April 20-16.
Hearty and unanimous endorsement of Duncan McRae's (of Greenbush) candidacy for the Republican nomination for State Senator from the 28th district was made Tuesday by the Republican county convention when his friends made it known that Mr. McRae had decided to make the race.

A general discussion of the situation followed and it was the unanimous sentiment of the delegates that Alcona county is clearly entitled to this honor this year—and in Mr. McRae they believe they have the logical candidate for the county and the peer of any in the district.

Beyond stating that he had given the matter considerable thought and had decided to "cast his hat in the ring," Mr. McRae has made no formal statement for publication, but will doubtless do so in the near future. In the meantime the voters should remember that Alcona has a candidate for this important office who is worthy and capable and entitled to their solid support.

The Review will have more to say of Mr. McRae's candidacy from time to time. adv-21

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

An Oven Economizer.
I had the tinsmith make me a flat tin for baking cookies the exact measurement of my baking oven. One end is turned up one-half inch, with hole for hanging punched; sides are neatly hammered flat, so there are no sharp edges. This utilizes all oven space, baking many more cookies with the same heat and requiring considerably less time.

1916 Daffydils.
If I were selecting a name for a boy who loved to stay in the woods, I would pick Nick. Even when he is in the prime of life a young man's arm is likely to go to waist. While it is waiting for the rest of the piano to be built, where does the key board?

How You "Catch Cold."

In a comprehensive study of the causes of "catching cold" just made by Dr. C. M. Ritcher, it has been determined that the quick witted and those who use their brains a good deal catch cold much more easily than those who do little brain work and are mentally slow. Wherever a case was found of some one who was extremely susceptible to influenza or even simple cold, either that person was engaged in some professional work or there was considerable tax upon him in fact—work in or office or else his work required some especially keen exercise of the mind. The mentally heavy, slow-going kind of a person very rarely has a cold. In working out this problem it was found that resistance to cold is not so much a matter of what one wears as of what one is. It is those people who suffer most keenly when it is very cold or very hot, who have a headache when they face a high wind, whose hair crackles with electricity when they comb it—in a word, those who are nervous and highly organized most readily fall victims to the insidious "colds in the head."

A Refreshing Drink.

Add a pinch of salt to a half glass of sour cream and a half glass of rich milk, and beat with an egg-beater until light and smooth. Pour into a tall glass, and cover over the top, put a thin coating of pulverized nut meats and a scant grating of nutmeg. Serve cold with crackers.

Learn a Little Every Day.

There are over 2,000,000 automobiles used in this country. The telephone service of this country represents a valuation of \$350,000,000. The birth rate in this, and all civilized countries, is being steadily lowered each year. Use a paint brush for removing dust from furniture, there is no service too small for it to enter. In Los Angeles, every house, hotel and apartment building must bear a tag with the owner's name. Gas engines taken into the mountains, lose one per cent of their horsepower, for every thousand feet elevation.

MAY—YOUTH'S MONTH.

By "Observer."
May is the month that makes men of boys. Their kites, marbles, balls and tops lead them into health-giving exercises that are not quite so enjoyable when the hot rays of the sun later on suggest less strenuous sports—swimming, fishing, etc. The boy, or shall we say kid, who has not learned to make his own kites, his own sling-shot, and his own fishing tackle, the boy who doesn't know what it is to suffer a nailless toe, isn't living just right. But the chances are his failings are not his fault. The probabilities are that such a boy is retarded by too much paternal guardianship. Turn the boy loose this spring—not, of course, wholly without supervision, but let him get all of the benefits of early spring by spending every minute possible out of doors. The chances are his day full of play will make him glad enough to remain in doors of evenings, and when a real boy is willing to stay at home of evenings his parents haven't much cause for worry over him.

TREASURE BOXES.

Great is the sentimental as well as the decorative value attached to the treasure boxes, which up-to-date girls and women now ride themselves on possessing. Caskets, caskets and chests are the old-time names by which our modern "mystery boxes" have been called. There is a distinction, of course, between these three styles of boxes. Originally the chest was made with a lid that opened upward. Caskets were much the same in shape, but cautiously reinforced, as they were designed for the keeping of trinkets and treasures. Hatches are in still another class. They are small chest-like boxes, but have stationary tops, and doors that swing down, or divide and open by swinging outward, in front, sometimes disclosing a series of small inside drawers. Caskets have lids like chests. Old-fashioned models are being sought for with activity. Owners will aver with great pride, "This box is an exact replica of an old Spanish chest that is now in Memorial Hall, Philadelphia." Veritable works of art are some of the antique models. Treasures of the Armada are carefully studied. Many of the old chests were made of leather, tooled with extraordinary care. The majority of them were on "buns," turned balls that raised them from the ground, and so preserved the contents from dampness. From a close and careful scrutiny of the new styles in surf costumes we come to the conclusion that the girls want to demonstrate that they are bona fide daughters of Mother Eve.

Demand These Features in Your SILEO

Five Big, Dominant Features put the Saginaw Silo at the head of the list. Each one is a feature that makes the Saginaw Silo a silo without any one of these features it is not the standard of construction you should demand in a silo.

The Saginaw Anchor uniformly distributes the enormous pull on all the staves. This device, with the Angle-Rib Silo, prevents the staves from being bent.

The Saginaw All-Steel Door Frame is a heavy structural steel frame that completely does away with the weak wooden backing of the silo walls.

The Saginaw Angle-Steel Rib inforcing the Silo, crisscrosses vibration of staves when silo is empty and prevents any possibility of cave in. The strongest silo cannot pass in the wall of the Saginaw Silo.

The Saginaw Spine-Dowel unites all the staves into a rigid, immovable wall. It makes an airtight joint between the silo sections, and each Dowel interlocks with the others in four places.

The Saginaw Base Anchor holds the Saginaw Silo to its permanent foundation with a powerful grip in the dirt.

Louis Dumond, Plaintiff,
vs.
Pack Woods & Company, a corporation whose existence has been terminated, and E. M. Robbins and their unknown heirs, devisees, legatees and assigns, Defendants.

In this cause, it appearing satisfactorily to the court on the sworn bill of complaint, and the affidavit of S. E. Hayes, one of the attorneys for plaintiff, that Pack Woods & Company, a corporation whose existence has been terminated, and E. M. Robbins, and their unknown heirs, devisees, legatees and assigns, who are made parties defendant to the bill of complaint filed herein, that plaintiffs do not know and have been unable, after diligent search and inquiry to ascertain the names of the persons who are included therein, without being named, and also do not know and have been unable to ascertain after diligent search and inquiry the present whereabouts of the said defendants named therein, or whereabouts of them are living or dead. Therefore on motion of S. E. Hayes, Attorney for Plaintiff, it is ordered that the appearance of the said defendants, Pack Woods & Company, and E. M. Robbins, and their unknown heirs, devisees, legatees and assigns, be entered in this cause on or before three months from the date of this order, and that in case of their appearance that they cause their answer to the bill of complaint to be filed and a copy thereof served upon the solicitors for the plaintiff within fifteen days after service of a copy of said bill of complaint, and in default thereof that the said bill be taken as confessed by the said defendants.

It is further ordered that the said plaintiff cause this order to be published in the Tawas Herald, a newspaper printed, published and circulating in said county, and that such publication be commenced within twenty days from this order, and continued therein once in each week for six weeks in succession, or that the said plaintiff cause a copy of this order to be personally served on the said defendants at least twenty days before the time prescribed for their appearance.

Dated this first day of May, A. D. 1916. ALBERT WIDDIS, Circuit Judge.

The above entitled suit is brought for the purpose of quieting the title to the following described lands, to-wit: the north half of lot two of Section 27, Town 24 North, of Range nine east in the County of Isoco and State of Michigan, containing twenty-five acres more or less according to the Government Survey excepting the right-of-way of the Detroit & Mackinac railroad.

The Cream Season Is Here

and you have started or are thinking of starting to sell cream soon.

If you are one of our old patrons the sun will shine out when you enter here again. If you are a new patron we are glad to see you. In either case, we will treat you as we want to be treated ourselves, and return the full value of your cream and poultry.

We shall pay as close to the market as possible where a policy of strictest accuracy in weighing and testing is adhered to.

No matter if you are bringing your first can of cream, or if you have sold to us every week for two years, have a surprise test made on us some day and tell us how it comes out. But have your full can of cream thoroughly stirred and have sample tested by a reliable party. We are proud of our confidence in the outcome.

The coming season promises to be one of high prices. No creamery is in a better position to give good returns, and none could wish more ardently to make this year a prosperous one for you than does
