The Bay City Tuesday morning, where he church had been appropriately decorexpects to reside for the summer at ated with American flags, bunting, been reserved for the members of the G. A. R., the W. R. C. and the city

A very interesting and soul-stirring Memorial address was delivered by Rev. William Roberts of the Presbyterian church. The following appropriate musical numbers had also been

Vocal duet, "He Giveth His Beloved Sleep," by Mrs. C. F. Klump and Miss Helen Applin; "Only Remembered," vocal solo by Mr. Johnson of Alabaster; "The Last March." anthem by the choir and "The Star Aksel Johnson of Flint, who had Spangled Banner" by the junior and senior high schools. Miss Nettie Roberts gave the "Gettysburg Speech" after the first hymn.

This service was one of the best attended and the finest Memorial service given in this city for years.

TO EQUALIZE TAX ROLLS.

The board of supervisors will convene June 26th as required by Act No. 44 of the session laws of 1911, for the purpose of equalizing the tax equalization which will meet in Lansing in August. An equalization of the counties is made by the state every third and fifth year.

CARD OF THANKS.

We wish to extend our heartfelt thanks to the kind friends and neighbors who assisted us during our bewife and mother, and also for the beautiful flowers.

E. S. Anschuetz and children.

BE KIND TO YOUR HORSE AND ALL DUMB CREATURES. IT SHOWS THE GENTLEMAN. adv Published every Friday and entered at the Tawas City, Michigan, Postoffice as secon class mail matter.

TAWAS CITY, MICH., JUNE 2, 1916

SENSE. By Gifford Pinchot.

Along with thousands of our citizens, I am deeply interested in the question of National defense. Like them, I am anxious to know the facts and to use whatever common sense as to what we ought to do for our own protection. I am not stampeded, and I do not propose to be, but I do want the United States to take what

Certain pacificists assure us that is no danger of war. Do they know, or are they merely asking us to acof the nation? Millions of pacificists stood by them. in the past have given the same assurance, and have been mistaken. Wars have come in spite of them. all their might any increase in arma-

trolled democracy on earth. can be a great democratic institu- price. tion, and that citizens trained to arms may possess the highest personal initiative and intelligence. Germany can not be offered as an example of what military training does to democracy, because Germany never has farmers' yellow peril.

But even if all this were not true, it would still be idle to make a bogey of universal military service, because even those who believe in it most heartily understand that it has not When a young couple strike a match the slightest chance of being adopted. No national leader in any political party is asking for its adoption. It is not an issue, and nothing less than the pressure of actual invasion could the pressure of actual invasion could the pressure of actual invasion could too closely related.

make it an issue in the United States. The American people have a way of or another is too often merely an exreaching common sense decisions after long and often bitter discussion. There in the present case. The reasonable advocates of National defense and the reasonable pacifists seem to be on the views. For example, the papers of April 23 report that Henry Ford said, in an interview given in New York:

An income tax bill is about it to convince that the people are calling.

An income tax bill is about it to convince that the people are calling. a week before this statement of Ford's I asked Colonel Roosevelt what he would consider reasonable preparedness. He replied: "The second navy in the world and an army of 250,000

In this case, pacifist and advocate tention from the man worth while.

Who can name off hand all the presiof preparedness are in agreement as to the size of a reasonable army. An Villa has all the refined and delicate army of 250,000 men means one soldier to about 430 people. There is one policeman for every 416 people in Philadelphia, and one to every 429 people in New York. To me at least people in New York. To me at least are high.

As to the navy, from 1905 to 1909, reach those with incomes just a notch our navy was the second in the world. higher than ours. Having it second did not endanger The republican bosses will agree to democracy then. I see no reason why any kind of a platform this year-for it should endanger democracy now. what's the use of being a boss if

So far as I am aware no one fa- there's nothing to boss. miliar with naval affairs believes that Talk about a married woman being submarines and mines at sea and guns the boss. Nine cases out of ten she on land, without a fleet, can be de- isn't half as much boss after marpended on to defend a coast like ours. riage as she was before.

TAWAS HERALD The whole teaching of the present war shows that they can not. German submarines, it is true, have succeeded in preventing any increase in the British merchant marine by destroying vessels about as fast as new tonnage could be added. But that is all they have done. They have not even threatened, much less endangered the supremacy of the British fleet. It is the British fleet which keeps England safe from invasion, just as our fleet must keep us safe.

It will not do, however, to forget PREPAREDNESS AND COMMON my are not enough. In modern war ler Foundation found hospital social nations fight not alone with weapons, but with all their natural resources, with the patriotic devotion of their citizens.

Rounded national preparedness on modern lines works not only toward securing peace, but also toward mak-I have in reaching a wise conclusion ing this country a better place to live in for all of us when peace has been secured. The great natural resources, like coal, iron, copper and waterpower, are the raw materials of prosperity as want the United States to take what precautions are reasonable in view of the facts. The situation looks to me able for the use of the people both in peace and in war. But above and be-Certain pacificists assure us that yound all else, we must have a country preparedness is useless because there defended against attacks from within and without by equal opportunity and cept their guess in a matter which vitally concerns the safety and welfare ple will stand by it because it has

Let no man imagine that because he lives inland he is safe from injury by war. The capture of New York or England was full of people who of trade, and the resulting dislocation the poor while teaching them methods San Francisco would break the routes one hand it offered practical relief to possible up to the very moment of its breaking out, and who opposed with more in the land. HELPING WOMEN IN CHINA

Practical Work That Is Being Done by League of American Ladies Working in the Orient.

To Mrs. Lotta Carswell Hume, an American, belongs the credit of organizing and pushing to success the Woman's Social Service league of Changsha, China. Changsha is the only city in the Chinese empire in that genuine preparedness includes far which the commission sent out by the more than arms. A navy and an ar- China Medical Board of the Rockefelservice actively developed.

The Woman's Social Service league of Changsha was organized in 1913, and since the beginning has been a distinctly Chinese institution, for Mrs. Hume, believing in native leadership, has steadily refused to assume any official position. Not only is the membership made up exclusively of native women, but all the funds except \$150 used during the first year of its work were given by Chinese. The wife of the governor of the province in which Changsha is located is an active member of the league and besides her regular membership fee gave \$30 to the

"Soon after organization we discovered that the work had a double significance," said Mrs. Hume when telling of efforts in establishing the league and getting it going. "On the of self-protection against disease and by offering facilities for relief from disease and unhygienic living. It also furnished the well-to-do, leisure class of Chinese women an opportunity for performing unselfish service for others. This is something they have sorely needed to save them from the deadening effect of life without outward expression. The enthusiastic response of these women proved that a definite point of contact had at last been found between the two classes of women in

Before going to China Mrs. Hume studied nursing at Johns Hopkins university under Adelaide Nutting. The methods employed at Changsha are American adapted to Chinese conditions. Even the book "Holt's Care of the Baby," was carefully adapted to the use of Chinese mothers before being distributed as a circular supplementing league lectures to mothers.

### have to say about cream separators this week

UYING a cream separator is good deal like hiring a man to work on your farm. A hired man that does poor work and is lazy is an expensive proposition, no matter how little you pay him. A cream separator that is hard to turn, hard to keep clean and doesn't skim close, would be expensive even if you got it as a gift.

Creamerymen and dairymen all over the world

recognize the superiority of the De Laval. About the only reason why any one ever buys any other cream separator is because they can get it a little cheaper. Then they soon find out they have lost ten times as much from separainconvenience, poor skimming and a machine that quickly wears out, as they saved in the

Remember that a De Laval will soon pay for itself, and if you have no separator now, or an inferior machine, we can sell you a De Laval on such terms that it will pay for itself while you

The best cream separator is the cheapest.

# What Do You Know About The Maxwell Car?

HIS is the time of the year when more people are considering the question of "what car to buy" than at any other time of the year.

This community has its full share of people who will soon be driving their first car or a new car to replace the old one.

Now, we know that we are going to sell Maxwell Cars to a great many of these people-depending upon how many we are able to acquaint with the merits of the Maxwell.

The generous value offered in the car is so evident-its past record is so full of good performance—owners speak so well of it—that when the buyer knows these things, he is eager to buy a Maxwell.

In order to tell as many people as possible about the merits of the Maxwell Car we are going to spend a lot of money in the next few weeks in this paper advertising Maxwell merits to those who do not know them.

The reason—we want to sell as many Maxwells as possible this season. Our future allotments will depend upon how many Maxwells we sell now.

You may know that the Maxwell market is a buyer's market, not a seller's market-broadly speaking. The demand for Maxwells the country over is greater than the supply.

For this reason cars are allotted to dealers by the factory according to the size of the dealer's

We want to make a showing and be in a position to get a generous allotment of Maxwells hereafter. Because the more Maxwells are sold in any community, the greater is the future demand. We realize the opportunity to do an ever-increasing Maxwell business.

This is only the first of the several messages we are going to print—a few days apart—concerning the Maxwell Car. But we don't expect to be able to adequately present Maxwell merits in printed words alone.

If you are one who is going to buy a new car you will find it decidedly to your advantage to find out all you can about the Maxwell before you place your order.

Come in and talk it over with us and let us demonstrate the car to you. Then, don't take our word alone, but ask those who now own Maxwells.

Get "posted" about the Maxwell and you will realize more satisfaction and get more "value received" for your motor car money than ever before.

And we are just as willing to have you investigate other cars just as fully as you do ours. The Maxwell will not suffer by the comparison.

Why not start your Maxwell investigation today?

Touring Car \$655

Roadster \$635

"I've been to congress, and oh, what I've seen!" Pussy cat, Pussy cat, what saw you there?'

Well, to tell the truth, it was the greatest collection of whiskers and war arguments this country ever saw gathered together in one

### 1916 Daffydils.

Wine may not make a black-eyed Susan but it will make a nose gay. A man may be religious and yet never think of his shoe's sole.

If you were stealing something to eat in a hurry, and there was nothing else in sight, would you bolt a door? If a hole in a coat dares to gap, who can blame boys' trousers for coming in short pants?

If you heard sweet music in a dirty hotel, would you necessarily think it a

### Many Cases of Blindness Unnecessary.

In the days of our Lord blindness was so appallingly frequent that an enormous percentage of men and women were sightless before they reached middle age, and blindness was even too frequent among children and young persons as well. Glasses are a modern institution, and little could be done to an eye once affected, although today the treatment might be very simple matter.

Knowing all this, it is still somewhat startling to hear that there are friends, won't we?" today at a rough estimate, about 2,390,000 bl'nd people in the world, of whom 57,000 reside in the United States, which is yet a smaller percentage of blind people to our population than found in most countries. It would seem that there is indeed good reason to have the children's eyes carefully watched, those at school and at home, in order to prevent in childhood at least the beginning of what might in later life put the sufferer at the worst of all disadvantages in the

Money is "tin" to the roofer. To the butcher it is "bones."

The circus man speaks of the "hino," "Quids" the tobacconist owns.

'Chink" does the laundryman term it, Taxidermists, "the stuk." It's "dough," of course, to the baker And "bucks" to the hunter rough. The cobbler refers to his "booty,"

Of his "wad" the gunman talks, It is "plunks" to the banjo teacher,

### Lemon Sherbet.

Extract the juice of three lemons and mx with one and one-half cup of sugar; then add slowly four cups of milk, stirring constantly. This is the secret of preventing the unsightly curdled appearance, which, while not affecting the quality of the sherbet, is far less appetizing than the smooth, properly made variety. Freeze and

### For Warts and Corns.

Many physicians recommend emedy containing the following: 11/2 drams each of chloral hydrate, glacial acetic acid and ether; 1 dram of salicylic acid; 1/2 ounce of collodion. Apply with a glass rod or camel's hair

### HALE AND VICINITY.

Next week is Pioneer week in Hale and we are looking forward in anticipation of good times. Of course, the Baptist church must rise to the occasion, so we are arranging for a A lamp is not necessarily in a bad special service on Sunday morning, when the pastor will take for his subject, "A Message From the Pioneers." This is a people's popular service and will hold for one hour only, 10 to 11. No cold creeds, no "isms"-

you're as welcome as the flowers in

# When a man knits his brows it is likely that he is about to spin a yarn. Company

### Disgusted the Minister.

"The new minister called upon the actory superintendent today." "How'd e come out?" "Boiling. The superintendent thought he was a man looking for a job and told him that he would give him a job in spite of his looks, if he could furnish first-class references and give a bond."-Houston

### When you allow someone to

**GUESS** At fitting your eyes with glasses?

You may wear glasses that 'clear" the type but that is not all that is necessary or even possible. The weariness caused by prolonged near work can be removed if your glasses are perfectly fitted. Glasses which seem to fit often put unnecessary strain on the converging mechanism of the eyes resulting in serious eye trouble after a short

Mr. G. E. Sloan is the only Graduate of an Optical College in this part of the state. He does no guessing but guarantees a perfect scientific fit in Glasses or no pay.
