## TROOPS READY TO EMBARK ON A TRAIN

### GOOD TALENT AT THE IOSCO COUNTY CHAUTAUQUA.

"Sam Jones was the greatest nine-pin player that ever lived," said Col. Henry Watterson, the famous Kentucky editor, in speaking of the great evangelist. "He sets his audience up and then bowls them over. His lectures are a succession of set 'em up and knock 'em down."

This "nine-pin" characteristic of Sam Jones is emphatically illustrated in the following extract on "dead beats" taken from his lecture, "A Medley of Philosophy, Facts and Fun," which Denton C. Crowl, portrayerist, will deliver on the third night of the Chautauqua.

"If the devil doesn't get a dead beat, it's because he's so low down that the devil doesn't want him. When I ask a man if he is a good husband, if he lives right and if he loves right, if he is a good father, if he is sober and if he pays his debts, and he says yes, I give him the right hand of fellowship. But if he says no, I give him the left hand of fellowship, and that's the best way to settle the whole question."

On the first day comes the Hoosier Male Quartet—a group of talented musicians and gifted entertainers with novel xylophone selections and vocal quartets, duets and solos, ranging from classic or sacred favorites to the latest popular melody. Charles Daugherty, manager of the Hoosiers, is the "cut up" of the company, and his monologues, talking songs and mimicry of different musical instruments is unusually entertaining.

Appearing with the Hoosiers on the first day will be Dr. Lucian Edgar Follansbee, who will lecture on the expressive topic, "Genius and Gumption."

But fully as interesting a speaker as Dr. Follansbee, and with a message teeming with vital significance, is Hans P. Freece, who will lecture on "The Inside of Mormonism," on the second afternoon. Mr. Freece was born in Mormonism, his mother being a plural wife, but her hatred of polygamy, led her to place Hans, then but a mere boy, in a Christian school, where he was brought up free from all Mormon influences.

In his lecture Mr. Freece shows that adherents to Mormonism are steadily on the increase and that it is of the greatest importance that the American people stamp out once and for all the evils of this pernicious system.

Preceding Mr. Freece's lecture the Theresa Sheehan Concert company, headed by Miss Theresa Sheehan, dramatic reader, will give a delightful program of literary numbers and vocal and instrumental selections. With Miss Sheehan will be heard Miss Vivian Des Jardins, violinist, and Frank Grover, soloist and crayon artist. Miss Des Jardins is a beautiful French woman, fully capable of rendering brilliant support to her talented leader. Mr. Grover was prominent in the musical life of the University of Michigan and was formerly a member of the Detroit Male Quartet.

Among the other interesting numbers on the Chautauqua program are Robert O. Bowman, character impersonator, who appears on the second night; Angelo Vitale, the "Boy Creator" and his concert band, and Hon. Geo. E. Gorman, "Pork Barrel" lecturer, who appear on the fourth day and the Swiss Alpine Singers and Yodlers, with Byron C. Piatt, popular lecturer, to be heard on the fifth day.

Coniferous timber has been found better suited than any other for the production of ethyl alcohol.

### MINING OF CHROMIC IRON ORE.

Large Increase in the Production of Chromic Iron Ore.

Chromic iron ore is extensively used in making colors and dyes and refractory materials as well as for alloys in making steel for armor plate, projectiles, and high speed tools, and the demand for it has greatly increased since the war in Europe began.

The chromic ore mines of the Pacific coast have been recently examined by J. S. Diller, of the United States Geological Survey, who reports a remarkable increase in production since the transcontinental railroads have so reduced freight rates as to enable the chrome ore produced on the Pacific coast to compete with the ore imported on the Atlantic border.

For many years California has been the only state producing chromite, and it is still the chief producer. Its production is far greater than ever before. Its output during the first six months of 1916 was more than three times the greatest annual yield of former years and is still increasing. The chief producing areas are the belts of serpentine in the Sierra Nevada and Coast Ranges, which are distributed through a score of counties. Shasta county is still the greatest producer and contains the largest ore body yet discovered in the state.

Nearly chrome ore is taken out of open quarries. Most of the ore bodies are small and are lenticular in shape, containing from 1 to 200 long tons of ore. Few contain as much as a thousand long tons of ore, and many are the source of blasted hopes in those who exploit them with great expectations.

Bodies of chrome ore have recently been discovered in different parts of Oregon, where production has already begun. The development of some promising bodies is awaited with much interest.

### FOREST NOTES.

All of the 28 counties of Utah contain portions of National Forests and consequently all share in the 25 per cent of the National Forest receipts which is paid over to the road and school funds. This is true of no other state.

One hundred thirty thousand maps of the National Forests will be distributed to tourists this summer. These maps show the best camp sites, good hunting and fishing grounds, roads, trails, and telephone lines, and give directions how to reach points of interest.

## FOREST ROADS TO BE IMPROVED

Government to Spend \$10,000,000 on Good Roads in National Forests.

Washington, July 25.—One of the provisions of the Federal aid road bill, which was signed by the President on July 11, appropriates \$1,000,000 a year for ten years to be spent by the secretary of agriculture for the construction and maintenance of roads and trails within or partly within the National Forests.

The bill provides that, upon request of the proper officers of the states or counties, the money shall be used for building roads and trails which are necessary for the use and development of resources upon which communities within or near the National Forests are dependent. The work is to be done in cooperation with the various states and counties. Not more than 10 per cent of the value of the timber and forage resources of the National Forests within the respective county or counties in which the roads or trails will be constructed may be spent. Provision is made for the return of the money to the treasury by applying 10 per cent of the annual receipts of the National Forests in the state or county until the amount advanced is covered.

Officers in charge say that the bill will make possible the construction of many roads which are greatly needed. Since 1913 ten per cent of the receipts of the National Forests have been used in road and trail building, but the funds have been inadequate to meet the roads. Many isolated communities within the National Forests are entirely dependent on the government roads and trails. In some instances these settlements are said to be almost entirely without means of communication. According to Forest Service officials the money now

made available will permit the construction of many roads necessary to open up inaccessible territory, and will greatly facilitate the development of large areas.

It is said that detailed plans covering the policy to be followed in building roads are now being made.

## SNAP SHOTS

Next to a holiday, Sunday is the longest day of the year.

There is no doubt the Prodigal Son was hungry. He ate heartily of veal.

There are various ways in which trouble may be avoided. One of them is to sell your bulldog.

No crook is clever enough to permanently elude the wholly commonplace forces arrayed against him.

While the men speak in very complimentary terms of the modest violets, they seem to fall in love with the flaming hollyhocks.

No crusade against tipping carries far. The average man doesn't care for money, but he wants the waiter to think well of him.

It isn't particularly to his credit that, after working all of his life for the "house," a man needs to be pensioned in his old age.

The trouble with the man who quits drinking is that he always believes the matter of sufficient interest to the public to justify him in giving a parade.

It is not surprising that young men go in for football. A man may achieve prominence in football without having it said of him that his wife "made" him.—Jay E. House, in Pittsburgh Dispatch.

## WORTH REMEMBERING

Never display money openly in the street or in any other public place.

Never leave any money or jewelry in a room with a window opening on a porch.

Never take a servant into your home without references, and always verify the references.

Never ask for information while on a journey except from uniformed officials of the railway or steamship company.

Never start out on a journey to a strange town without previous information about a safe place to stay overnight.

Never answer an advertisement in person in a strange town without first thoroughly investigating the employer or agency.

Never get excited over any demonstration in the street; a person fainting in the street is a much-used ruse of pickpockets.

Never place your rings or jewelry on one side when washing your hands; drop them in your purse if only for ten seconds.

## JOSH BILLINGS' PHILOSOPHY

It is very easy to explain a defeat. We charge it to the bad-luk account.

The man who iz pleased with everything iz generally satisfied with nothing.

It doesn't require much genius to find fault with the crooks in a dog's tale, but to straighten them out does.

**Traveling Outfit**  
A little electric traveling outfit consists of an iron which, when not used for ironing, may be turned upside down in a rack with legs the depth of the handle, and on it may be placed a small toaster for bread, or a little saucepan the same shape as the iron that comes with it. The saucepan holds a pint of water, and it is easy to prepare a simple breakfast in one's room with the aid of the iron.

A practicing attorney for twenty years

**From the Iosco County Gazette, July 13, 1916**

AS OTHERS VIEW IT.  
"The following is an editorial which appeared in the Alpena News, under date of July 1, anent the circuit judge contest now on in this district. James Collins, the News editor, was for many years a practicing attorney in Alpena county, and his view of the situation here carries with it more weight than an opinion expressed by some one outside of the legal profession, or one who might be prejudiced.  
"The coming contest in the August primaries for the nomination for the office of Circuit Judge, in the 23rd Judicial Circuit—comprising the three counties of Alcona, Iosco and Oscoda—with four candidates in the race is somewhat interesting. \* \* \*  
"According to advices from East Tawas, Attorney William H. Flynn is the most interesting and picturesque of the candidates for circuit judge in this campaign. Mr. Flynn has resided in East Tawas about one year and in the circuit about three years. Prior to three years ago he resided in Detroit, where he evidently made a record for himself, for he has some glowing recommendations signed by certain judges and lawyers of that city. \* \* \*  
"A lawyer's best recommendations are his personal character and his actual work in court in the community in which he lives. The office of circuit judge is a responsible position. Aside from the required knowledge of the law, the candidate's character for honesty, independence and sense of justice, should be above suspicion. When the people lose confidence in the integrity of their courts, society is in bad condition. As practicing lawyers all over the state are deeply concerned in the character of our Michigan courts, the people of Alpena, and especially the practicing attorneys, are interested in the outcome of this contest for circuit judge in the 23rd Judicial Circuit."

The original letters of recommendation mentioned in the above item, all written during the past month of June, and attesting to Mr. Flynn's knowledge of the law, his character for honesty, independence and sense of justice as being above suspicion, to the number of forty or more, will be gladly shown to anyone interested at Mr. Flynn's office in Tawas City.

BYRON C. PLATT

**T**HE influence and power of Byron C. Platt, who will lecture on the fifth day of the Chautauqua, are illustrated by an incident which occurred when he was scheduled to speak in a town where the Superintendent of Schools had been trying hopelessly to get a High School. Mr. Platt spoke on the community's responsibility toward its young people, and that very night the County Judge told the Superintendent of Schools that he could have his High School as soon as the papers could be gotten ready.

Mr. Platt is a robust, red blooded American who possesses the charm and magnetism of downright, thoroughgoing sincerity. The subject of his lecture at the Chautauqua will be "Dead or Alive," which is an attack on ignorance delivered with all the force and power of a scholar and master orator.

**MAN WHO HAD THE HABIT**

Abilities of an Experienced Toastmaster Displayed at the Family Table.

The man who always acts as toastmaster was seated at dinner with his immediate family.

"Papa," began five-year-old Willie, "may I have—"

"Hush, Willie," corrected mamma. "Papa hasn't introduced you yet. Now, papa."

The man who had the toastmaster habit here clinked his tumbler with a fork and arose at his place.

"Some five years ago," he said, in his best banquet manner, "an interesting event occurred in this house. It was prefaced by considerable excitement and not a little anxiety. When the worst was over, my good friend, Doctor Soakum, administered a brisk but good-humored spanking to a very red atom of humanity, and a voice new to these premises was heard in shrill pipings.

"This voice has since grown in strength and range as its owner has developed in stature, and it affords me great pleasure to say that it has made this house cheerier and happier by its varied tones. The atom of humanity has expanded and thrived, and we have it with us tonight. Again I say that it is with great pleasure that I introduce my son, Willie. Now, Willie, what was it you were about to remark?"

"Papa," said Willie, "may I have another piece of steak?"

"No, my boy," said the man who had the toastmaster habit, "but you may have another baked potato."

**TUTOR HAD HER SUSPICIONS**

Gift of Roses From Tony Called for Searching Inquiry, and Truth Came Out.

Public school teachers in the Italian quarter are constant recipients of gifts from admiring scholars. When the intrinsic value of an offering is beyond a certain limit, and they vary all the way from ripe tomatoes to bits of jewelry, the teacher usually institutes an inquiry as to its original source.

One boy made frequent gifts of flowers. As long as they were somewhat faded the teacher accepted them unquestionably, but when Tony turned up one morning with a large bunch of expensive white roses she felt constrained to ask the boy where he got them. Heaven and earth were called upon to witness that the flowers had been purchased, later that they had been a gift, and finally Tony's mother had sent them as a token of her regard. The teacher grew more stern in her demand for particulars in regard to Tony's flowers—there was a flower stand near by.

"Tony," she said, "tell me the truth. Where did you get those flowers?"

"Teacher," said Tony, at the end of his inventive powers, "I gotta from da church on Brooma street. Da man, he no care—he's dead."—New York American.

**New Things From Old.**

What becomes of old sardine boxes, tomato cans, meat tins, fruit tins and tins of all kinds? In France, where nothing is allowed to go to waste, they gather them up and use them—to cut into tin soldiers. In France, too, the old boots and shoes are collected, and every part is used over again. The work is mostly done by convicts in prisons. They take the boots and shoes to pieces and soak them; then the uppers are cut over into children's shoes, or, if they are too far gone for that, a peculiar kind of pressed leather is made by some chemical action. The nails are saved and sold, and the scraps go to the farmers to fertilize the soil.

"Who would have thought it possible to make anything out of old saws?" asks London Tit-Bits. "Yet it is said that many of the finest surgical instruments and some of those used by engineers are manufactured from the steel that first did duty in saws. The steel of saws is of the very best quality and finest temper; and since it is good in the first place, it is always good."

**In the Sleeping Room.**

Sleeping rooms should be cold. At least one window should be opened top and bottom all the time. The bed should be as far from the windows as possible, in a corner out of the direct draft. The same treatment applies to small children and babies as well as to their parents. The mother who can convince herself of this will get results. She will discover that her baby, if properly clothed and with a blanket pinned around his crib to prevent a current of air, will sleep more quietly, learn to keep under his bed clothing and will not catch cold so easily. Of course this does not apply to ailing infants or those under six weeks of age.

**Ouch!**

It was 3 a. m., and Mrs. Gabb was awakened by her daughter, who stood by the bed shivering in her nightgown.

"Oh, mamma," whispered Miss Gabb, "I heard a funny noise and I can't sleep. I think there is a man in the house."

Mrs. Gabb glared at the other side of the bed, where Mr. Gabb was giving an imitation of a saw mill in full blast, and then she said:

"Go to bed and go to sleep, daughter. The noise you heard was your father snoring. And you can rest assured that there is not a man in the house."

They appear in the many colored national costume of their people, the most attractive of all Europe, and render a program of Tyrolean, Bavarian, German and Swiss folk songs, including the famous Alpine yodling songs.

To the Voters of the 28th Senatorial District of Michigan.

Having received the unanimous indorsement of the Republican County Convention for State Senator from the 28th District, and as Alcona County has never been represented in the State Senate, I have decided to become a candidate for this important office, and trust the voters will consider my candidacy with favor at the Primaries, August 29th.

If elected I promise faithful public service and will at all times work diligently for the interest of my district.

That we have great areas of good land in the 28th district not yet properly used, is thoroughly well known. Therefore, I am in hearty accord with the enactment of laws that will give practical aid to the settler, and in every way encourage greater agricultural development.

This organization is a regularly organized club. It has elected and advertised its list of officers. It has a bona fide, signed up membership list in each city and township in Isosco County. Its membership list is open for inspection. It is endorsing and recommending Albert W. Black for the office of Circuit Judge for the Twenty-third Judicial Circuit. Its members are actively engaged in the campaign. The most influential and representative citizens of this county are found to be members of this club. It is not an imitation nor a fictitious club—it is a force. Our candidate has lived his entire professional life among us. He is and has been a taxpayer at all times. His qualifications are well known. He is the logical successor to Judge Conine. We believe in him and we believe that as citizens it is our duty to take a keen and active interest in the selection of a Circuit Judge, because of the importance of the office and the close relation of this office to the people at large.

**TAWAS WINS FROM TURNER.**  
Perry St. John was in poor form Sunday and was the chief reason for Tawas City's win over Turner by such a large score. He handed our boys four runs by wild pitches with men on third, gave two bases on balls, muffed up a grounder, threw wildly to first, and misjudged a play by allowing a man to get first on a fielder's choice and throwing too late to get the man he was after. On the other hand he fanned fourteen men, his best work coming in third, fourth and fifth, also in the seventh when after allowing a single and a double he forced the next three men to easy outs. His infield made five errors behind him but the fumbled and missed grounders chalked up against the boys of both sides were because of the clay ground which in the hot sun (about 98 degrees at least) was hard and cracked.  
Tawas City earned but three runs while Turner earned two. The Tawas outfield had a gala day, pulling down nine flies, some of them after long runs.  
The way the Tawas boys looked Sunday it looks as though the lineup should never be changed again this season. No better could be devised.  
Score by innings:  
First Inning.  
Tawas—Swartz fanned. Johnson out, second to first. A. Mark doubled to left center. Halligan doubled him home. The ball went over the left field fence, but ground rules held him at second. Bigden popped to Rahl. 1 run, 2 hits, no error.  
Turner—Rahl singled. Heuckroth singled him to second. W. Menzer fied out to Moeller. Pearsall bunted, filling the bases. Geo. Kelly rapped a long sacrifice fly to Barkman, Rahl scoring. It was a good catch. Seymour popped to Bigden. 1 run, 3 hits, no error.  
Second Inning.  
Tawas—Musolf singled and stole. Barkman struck out. Moeller singled and stole. B. Mark fanned. Swartz doubled, the ball bounding over Rahl's head, Musolf and Moeller scoring. Johnson fied out to W. Kelly. 2 runs, 3 hits, no error.  
Turner—A. Menzer out, Musolf to A. Mark. W. Kelly fied to Johnson. St. John singled but was caught by ten feet fletching. No run, 1 hit, no error.  
Third Inning.  
Tawas—A. Mark tripled, he scored on a wild pitch. Halligan, Bigden and Musolf fanned in a row. 1 run, 1 hit, no error.

Mark's grounder get through him. Moeller taking third. Mark stole. Both advancing on a wild pitch, Moeller scoring. Swartz and Johnson fanned. A. Mark out Seymour to A. Menzer. 3 runs, 1 hit, 2 errors.  
Turner—Seymour fied to Johnson. A. Menzer singled. He died stealing. There was a big argument over this play that nearly ended in bad feeling at least. W. Kelly got a base on balls. St. John out, B. to A. Mark. No run, 1 hit, no error.

Ninth Inning.  
Tawas—On a balk Halligan took first before the eyes of his dumfounded teammates, he stole. Bigden got two strikes on him and struck at a wild pitch for the third, making first easily, he stole. Musolf singled Halligan home. Bigden scored on a wild pitch. Musolf taking third. Barkman safe when St. John attempted to get Musolf on home. Moeller struck out. B. Mark got to second when St. John threw wild to get him on first, Barkman scoring. Swartz fied to center. Johnson safe on Rahl's error, he stole. A. Mark out, St. John to A. Menzer. OF INTEREST TO THE FANS.  
Ever since the Arenac Independent came out July 18th with the batting averages, the Tawas boys have been grinning. Especially at the re-markable batting average of first baseman Whiting of Standish. The boys who have been perusing the score by innings of the Standish games and then running their eye over the hit column of the box score could not reconcile the two for some reason or other. And when last week's Independent came out showing that Whiting got two hits instead of the one credited to him by the official scorer, an inkling as to where the big batting averages come from gained.  
Of course it may have been a typographical error but the column totals up seven hits instead of the six hits made off By, Mark. We would sure like to see the extra hit explained. We believe that Whiting is a good batter and perhaps the best in the league but—don't cloud the title.  
The first half of the season closed with the Omer game the sixteenth and we give below some data which we are sure will be of interest to our readers:

Speaker of the House 1913-14  
Candidate for the Republican nomination FOR CONGRESS

**"CURRIE FOR CONGRESS"**

Good roads and other legislation in the interests of the people featured the session of which Gilbert A. Currie was Speaker. Send him to Congress and he will insist that some of the millions now expended solely for river and harbor improvement be used for the construction of good roads. He is from the interior of the district and his environments would naturally actuate him to take a deep interest in this subject. You know what he did at Lansing, give him a chance to show what he can do at Washington.

**THE MICHIGAN PATRON SAYS:**  
"He represents no interests but those of the people. He has fought the worst kind of machine politics for years. His private life and public record are without a flaw."

**THE GRANGE FORUM SAYS:**  
"Currie is a member of the Grange and has stood unequivocally for all Grange and Progressive measures in the State Legislature."

**MORTGAGE SALE.**

**They SATISFY!**

**How America's largest cigarette manufacturer has accomplished "the Impossible" by producing a MILD cigarette that SATISFIES. It is the CHESTERFIELD Cigarette**

ALMOST anybody can make a cup of coffee. But there are said to be not over a half-dozen restaurants in the United States where they know now to make it right.  
Similarly, almost anyone can make a cigarette. Just roll up some tobacco in a piece of pure paper—and there you are.  
There are, perhaps, over 800 brands of cigarettes sold in this country today. But not one of them does what Chesterfields do—for Chesterfields are MILD; and yet they SATISFY.  
Some cigarettes may be mild, but they don't satisfy. Only one cigarette does BOTH—Chesterfield!  
This truly unique cigarette has all of that refreshing taste—delicacy (or mildness) which any good cigarette must have. Yet, without sacrificing any of this delightful mildness, Chesterfields go one step further—they do more than merely "please your taste"—they let you know you've been smoking. They satisfy!  
And yet they're mild!  
A Step Forward in Cigarette-Making  
WE are proud to be the firm that has brought about this important new development in cigarette enjoyment—for that is exactly what the Chesterfield blend is.  
This cigarette is an outgrowth of long, earnest effort on the part of this, the largest cigarette manufacturing concern in the United States.

Chesterfields are an achievement.  
A New Thing for a Cigarette to Do  
CHESTERFIELDS do the one thing you have always wished a cigarette would do—they satisfy!  
Smoke them and we believe you will find that ordinary cigarettes seem by comparison almost flat.  
Give Chesterfields (20 for 10 cents) a trial. We believe you will be glad to learn what they can teach you about cigarette enjoyment.  
You have been reading here some rather unusual, almost daring, statements about a cigarette. If Chesterfields were an untried cigarette—if we had not been observing their behavior in other cities—if we did not KNOW that they make good with smokers, we could not afford to make these statements to you over our signature.  
But these statements, strong as they are, can mean little or nothing to you until you have actually smoked your first Chesterfield.  
You will find that your own dealer has Chesterfields waiting for you.

## Noted Artists to Be Heard When Theresa Sheehan Concert Company Appears at the Chautauqua

THE THERESA SHEEHAN CONCERT COMPANY.

Entertainment companies have enjoyed greater popularity than has the talented organization headed by Miss Theresa Sheehan, which appears on the second day of the Chautauqua. Miss Sheehan is one of the ablest readers on the platform today and presents humorous sketches and monologues in a refreshing manner that invariably leaves her audience clamoring for more. Miss Sheehan is ably supported in her company by Miss Vivian Des Jardins, a beautiful young French woman, who is fully as great an artist on the violin as Miss Sheehan is in the field of dramatic reading. The third member of the company is Frank Grover, whose piano solos, baritone solos and interesting "chalk talks" round out perfectly the delightful Sheehan program.

### Noted Impersonator As One of His Types of "Our Imported Americans"

Here you see Robert O. Bowman as the Italian selling "da banan," one of the many types of "Our Imported Americans" which he will impersonate and delineate in costume on the second night of the Chautauqua. Standing before the audience, Mr. Bowman changes his appearance to correspond with the character to be presented by means of the most cleverly conceived makeups, and a whole company of delightful entertainers seems to be hidden away within the depths of his dressing table, to come and go at his call. Mr. Bowman possesses rare dramatic ability and a powerful, well modulated voice and will supplement his program of more popular impersonations with renditions from the class-

**Sleeping Bag for Baby.**  
It is an annoying little trick babies have of kicking off their bedclothes every few minutes, and it is not always an easy thing to remedy. One young mother has solved the problem in a simple manner by giving her baby a sleeping bag. She shaped it like the sleeping bags for older people, but she fitted a hood to it as well, to slip on over baby's head when asleep in his buggy outdoors.  
Soft white lamb's wool was the material used for the sleeping bag, and the edges were bound with pale blue ribbon, and the hood trimmed with the same. It buttoned down the center front with big pearl buttons and pulled up with a drawstring at the neck. Of course, the bag was not quite square, but shaped towards the top so that there should not be any uncomfortable thickness around the neck.

## THE ETERNAL FEMINE

By IZOLA FORRESTER.

"Hello, hello! Yes, this is Milt. Oh!—Milton's tone breathed interest and surprise—"It's you, girlie?"

Beth turned around and stared with wide-open eyes, listening.

"Indeed, I will—right away. Not a bit of it. I'm awfully glad to help out Goodby."

He hung up the receiver and wheeled about, looking not at Beth, but at the clock.

"It's Mrs. Hewitt. Her husband's in Baltimore, and wired her to meet him, and the maid's gone, and there's no body to help her down with her suitcase. She wants me to run up to dinner and take her to the station after ward. You don't mind, of course, Beth?"

"Who is Mrs. Hewitt?" she asked frigidly.

"Why, she's a girl I knew out in Denver, you know."

"I don't know. How old is she and what does she look like?"

"Now, Beth"—Milton looked a bit bored as if he hated to go into the subject, it was so trivial—"I think we agreed that real love is above jealousy. This is only common courtesy. I've known 'Girlie' Cooper—she used to be a Cooper—since I was a boy at school. She's about twenty-four, I guess—around there."

At eighteen twenty-four looks worldly wise and experienced. Beth pursed her lips.

"I'll be back by nine," added Milton. Beth looked at him with growing suspicion.

"Do you think you'll need a cushion as a tame cat?" she inquired wistfully. "You needn't come back here, Milt. She could call a taxi and go down by herself. Of course, you can do just as you please, but you needn't come back here if you go carting suitcases around for old sweethearts."

"You know, Milt, you can't deceive me one bit." She leaned her adorable chin on her palm and looked up at him. "I've heard of 'Girlie' Cooper. Mrs. Daniels told me you were engaged to her and perfectly wild over her five years ago. I think it's terrible for the man you love to have memories of other girls."

She rose suddenly and left him standing there, expostulating.

She really did need a lesson, Milton told himself severely. Utter lack of faith in him was too much to bear unchecked.

All this he told himself going up to Girlie's, all the way through dinner, all the way downtown. Girlie talked incessantly of Hobart, her husband, of his congressional ambitions, his tastes, his achievements. She was a little, appealing sort of woman, with big brown eyes and a wistful chin. Milton found himself comparing her mentally with Beth's beautiful clear-eyed buoyant girlishness.

"You know the real reason why I asked you to see me to the station Milt," she said as they entered the taxi. "It's for Hobart's sake. I want you to see that his new bill is handled fairly by the papers. You will, won't you, Milt? I don't know myself just what it's about, but it must be a splendid measure or he'd never take it up. He's that type of man, you know, Milt. Just ask Miss Wharton."

"Beth?" asked Milton, alarmed, "what does she know about him?"

"Why, didn't you know?" The big brown eyes met his in surprise. "She saved his life. We've been married a year, and it was before he met me. She was hardly more than a child, he told me, and they were all down at Pinehurst for the late winter season. I believe he was accidentally shot, and she found him as she was riding through the mountains and saved him."

"Was—was he in love with her?" asked Milt feebly. "Quite romantic, wasn't it?"

"He was till he met me," Girlie answered complacently, "but he'll never destroy her pictures. He's got forty snapshots of her, I do believe, taken that season. I hated her till I heard you were going to marry her."

The next morning, Beth met him, radiant and ready for their usual walk in the park.

"I'm so sorry, dear," she said, "but you know you would go. I know women are perfect cats, and she only wanted to tell you about Hobart and me; so I tried to keep you from going. I refused him about ten times, Milt, and I'm not one bit jealous of her."

Milton stared thoughtfully at the spring vista ahead of them. And he had feared to wound her, had wanted to teach her a lesson.

"Why didn't you tell me you knew him?" he asked.

"I never even thought of him. Don't you know, Milt, her voice was strong with faith, "when the real big love comes into your life it seems to just sweep away everything else. Besides, I didn't want you to know I was—er—lobbying. Isn't that what you call it? The woman's club I belong to is behind a bill, something about fountains at street corners, and I wanted him to present it, so I wrote to him about it and it comes up tomorrow. Aren't you glad, dear? If you only could get something into the papers about it, I'd love you for it, Milt."

Milton gloomed at the landscape realizing for the first time in his life the underlying power of the eterna feminine.

### REPRESENTATIVE

Iosco District. Counties: Ogemaw, Arenac, Alcona and Iosco.

Has the unanimous indorsement of the Republican Convention of his home county.

Will work to have the burden of the tax to protect our forests, now imposed on the farmers of the northern counties, pro-rated on tax payers of the state.

### Press Comments

The Review has him sized up as being absolutely fair and square. He has the indorsement of the Republican county convention of Iosco county and is receiving favorable mention throughout the district. He is eminently fitted for the office of representative and we believe the people will make no mistake in sending him to represent them in the state legislature.

—Review, Harrisville.

By education and training is competent to successfully handle the affairs of the district in the legislature.

—Lincoln Herald.

Will McGillivray is a student of affairs of the state, familiar with law and law making... His integrity is unimpeachable. From the purely party patriot viewpoint, Mr. McGillivray merits party favor, but he merits the support of all men from the eminence of a higher patriotism, that points above the partisan to Will McGillivray, the citizen.—Telegram-News, Mio.

If elected to the position to which he aspires would undoubtedly make good.—Herald, Tawas City.

Is well qualified for this important office and if nominated and elected the district will be well represented in the state legislature.—Progress, Omer.

In our opinion a poll of its entire citizenship would find no one better fitted or who would make a more creditable representative of this district. We doubt if his candidacy will be contested. In any event we are for him, regardless of politics.—Au Gres Enterprise.

McGillivray's claim to the consideration of the voters is well established. He has always been found on the firing line of the party when every man was needed. He has never before asked for office and it would seem now is the opportune time to reward faithful service.—Iosco County Gazette, East Tawas.

### REASONS WHY YOU SHOULD PURCHASE SEASON TICKETS:

1. Is to help the public spirited men who have given their time and money to make the Chautauqua possible in this community. We are obliged to guarantee the sale of 500 season tickets and single admissions all go to the Chautauqua Association and do not help the committee at all in making up the amount.
2. You also assist in getting others interested in the Chautauqua by showing your approval of the enterprise and purchasing tickets.
3. You save money if you only attend half the time. The single admissions for adults total \$3.40 and children \$1.70 and season tickets good for 10 entertainments can be secured of the committee or any of the merchants for \$1.50.

**IN-SHOOTS**

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; none cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

## have to say about cream separators this week

**BUYING** a cream separator is good deal like hiring a man to work on your farm. A hired man that does poor work and is lazy is an expensive proposition, no matter how little you pay him. A cream separator that is hard to turn, hard to keep clean and doesn't skim close, would be expensive even if you got it as a gift.

**Creamerymen and dairymen all over the world recognize the superiority of the De Laval.**

About the only reason why any one ever buys any other cream separator is because they can get it a little cheaper. Then they soon find out they have lost ten times as much from separation inconvenience, poor skimming and a machine that quickly wears out, as they saved in the beginning.

Remember that a De Laval will soon pay for itself, and if you have no separator now, or an inferior machine, we can sell you a De Laval on such terms that it will pay for itself while you are using it.

The best cream separator is the cheapest. Let us prove it for you on your own farm.

**Sooner or later you will buy a DE LAVAL**
