OTTO LORENZ IN SHIPWRECK.

Shipwrecked within a week after graduating from the United States Marine Corps Recruit Depot at Port Royal, S. C., is the unusual and exciting experience of Otto A. Lorenz, of this place. Lorenz, in company with fifty other "soldiers of the sea," embarked on the collier Hector for expeditionary duty in Santo Domingo during the current revolution there, and, on July 13, off Charleston, S. C., the Hector was driven on to the rocks in a hurricane and pounded to pieces. Despite the fact that the ship was wrecked, there was no loss of life, due to the commendable efforts of Private Lorenz and the other Marines on the collier.

Otto, who is a son of Carl Lorenz, of Tawas City, enlisted in the United States Marine Corps at its Detroit, Mich., recruiting station on April 11, 1916, and is now serving at the marine barracks, Charleston, S. C.

BUILD YOUR HOME TOWN.

There is no place on earth so important to you as your home town. Every improvement even in the remotest part of your town adds to the value of every lot and building in its limits. The prosperity of the business houses of every kind adds value to each local holding. Don't blame the people of the town for your unpleasant personal condition, you will find the same kind everywhere. Don't criticize your neighbors—they must live their own lives in their own way, according to their habits and trainings, and as long as they don't interfere with your affairs, it is none of your business. But, whether you like each other or not, stick together in public affairs and boost your home town.

THE EDIBLE VALUE OF BEANS.

Beans are very nutritious, more so than many persons suppose. They are one of the best articles of food there is because they come more nearly to a balanced ration than any other food product.
Dry edible beans contain 13.2 per cent water, 22.3 per cent protein, 1.8 per cent fat, 59.1 per cent carbohydrates, 3.6 per cent ash and have a food value of 1,590 calories per pound, while the average of meats contain 55 per cent water, 14 per cent protein, 19 per cent fat, no carbohydrates, 4 per cent ash, 1,225 calories, balance refuse.
Compared with meat, always regarded as our most sustaining food, beans are the more valuable.
They have always held a high place in dietary standards because of their nutritive value and are destined to become more so as meats become more scarce and higher in price and the edible value of beans more fully recognized.

TO MAKE GOOD JELLY.

The canning-club specialists of the States Relations Service for the Northern and Western States recommend that the following points be observed to make certain that jelly will be good quality:
After the fruit has been boiled and the texture broken down it should be poured into a jelly bag and permitted to drain for a considerable time. Forcing the juice from the pulp will cause cloudy jelly. When the juice has been collected, place two teaspoonfuls of cold unsteeped fruit juice in two teaspoonfuls of grain alcohol and mix by shaking gently. Allow it to settle for one-half hour, preferably in a glass tumbler. If a jellylike substance collects in the bottom of the mixture it is evidence that pectin is present and the juice is suitable for jelly making. When the test shows absence of pectin, the white portion of orange peel, apples, or green citron melon may be added to the juice to supply the necessary pectin. Twelve ounces of sugar added to a pint of juice will make a jelly of the proper firmness and texture. Jelly is ready to be poured into the glasses when two rows of drops form on the end of a paddle or on the edge of a spoon held sideways.

FOREST FIRES NEAR MIO.

Large forest fires are burning in the plains region south and east of Mio. The National Forest officers and State wardens are cooperating in an effort to subdue the fires and have had fifty (50) men and a dozen teams on the fires. The fires are burning over a large front in several different places and one fire is no sooner put out than another breaks out. On Wednesday a shift of wind on two different occasions brought fires of a mile or more in front across the firelines constructed by the fire fighters and up to the fences of the Long Lake ranch. The buildings, however, were saved. At present fires are burning north of Ross City and are gradually working north. Conditions are so exceedingly dry that rain is the only means of completely stopping the fires. The work of the fire fighters can be only temporary since they are on one line then upon another because of the large number of fires, the frequent changes of wind and extreme dry conditions.

THE NORTHEASTERN MICHIGAN DEVELOPMENT BUREAU.

The Public Domain Commission and Immigration Commission has issued a very attractive booklet which is a partial reprint of the former publication "Michigan." This booklet treats Michigan from the agricultural, horticultural and industrial viewpoints. It is concisely written and profusely illustrated with views from all sections of the state, thus making a very attractive booklet to send to the prospective settler for Michigan farm lands.
Augustus C. Carton, Commissioner of Immigration and Glen R. Munshaw, Deputy Commissioner of Immigration are editors and compilers and much credit is due them for this splendid booklet.
Northeastern Michigan is particularly fortunate in having nine half-tones of views taken in this district included in the booklet. All of the nine views are ones which have been used in the Northeastern Michigan Development Bureau's publication, "North-Eastern Michigan," each one carries a message of the general farming activities in this district.
The Development Bureau, Bay City, has a supply of these booklets for distribution and will gladly send copies to people who desire them or on receipt of addresses will forward copies to people outside of Northeastern Michigan. In case where the booklets are to go out of Northeastern Michigan literature published by the Bureau which pertains to the district will also be sent. This is splendid material to spread the gospel of our state and everybody can co-operate by giving addresses to which literature can be sent.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists. Take Hall's Family Pills for constipation.

How Much Do You SAVE when you allow someone to GUESS at fitting your eyes with glasses

Very often glasses seem to fit and enable one to see better, and yet the glasses do not remedy certain muscular imbalances and nerve insufficiencies. Such glasses are highly injurious and the result is serious and incurable eye disease.

Mr. G. E. Sloan is the only graduate of an Optical College in this part of the state. He does not guess but guarantees a perfect scientific fit in Glasses or no pay.

TAWAS CITY, MICH., AUG. 11, 1916

HOW THE "GERRYMANDER" WAS BORN.

It was an early American newspaper editor who made the word "gerrymander." He was Major Benjamin Russell of the Massachusetts Centinel, which he and his partner Ward founded in 1784. He was a fighting man, and the Centinel was no tame journal, but whacked blithely and cared not where the chips fell, says the editor of the Mergenthaler Lines O' Type News.

In 1811 the Massachusetts Legislature under Governor Gerry made a neat new division of districts for Congress elections. The most insidious and ingenious arrangement of districts was the one for the County of Essex. With great glee Russell took a map of the county and colored the districts to show the heinousness of the device. Gilbert Stuart, the famous painter, saw the map and suggested that apportionment looked like a reptile. He made a few marks on it with his pencil and said: "There! it's a salamander!"

Russell jumped up, laughing. "Salamander!" he shouted, looking at the hideous figure. "Gerrymander!"

An engraving of the "gerrymander" was made and hawked through the State. Thus was born what probably is one of the most constantly used of all manufactured newspaper words.

FILL TRY.
When difficulties line his way, I like to hear a fellow say: "I'll try!"

Confronted by a task that's new, Perhaps a dangerous mission, too, I like to see him think it out, Sum up his chances and reply: "I'll try!"

There's something in the boy or man Who rules himself upon this plan: "I'll try!"

Too many say: "I can't" before They've ever looked a problem over; Responsibility they shirk, And seem to fear unusual work. This is the phrase of do or die, "I'll try!"

Would there were more young men today When duty calls to them, who'd say "I'll try!"

Would fear had not so strong a hold On mortals, and that more were bold; Bold in their willingness to face The tasks that are not commonplace— To answer doubt with this reply: "I'll try!"

POLITICAL ANNOUNCEMENTS.

FIVE CANDIDATES FOR CIRCUIT JUDGE.

What the editor of the Alpena County Review in his issue of that paper on August 3rd had to say of his neighbor, O. H. Smith, candidate for circuit judge.

Alpena county has two candidates for the high office of circuit judge. There are four candidates in the race for the Republican nomination, the other two hailing from Iosco county, Judge Widdis, the lone Democrat candidate, also comes from Iosco.

The two Alpena county candidates are Osmond H. Smith and Henry R. McGillis, and those voters who wish to vote for a "home grown" candidate must make a choice between these two.

Mr. Smith came to Alpena county in 1885, fresh from the University of Michigan, whence he graduated that year. He entered at once into the practice of the law and for thirty years he has continued that practice, being the oldest practicing attorney—the dean of the bar of the 23rd judicial circuit. In the point of age and experience his record is not approached by any other candidate and in ability he is not surpassed. With politics removed from the contest Mr. Smith would ascend to the bench without opposition.

He was prosecuting attorney of Alpena county for eleven years, being appointed to fill vacancy first in 1888. After that he served three successive terms. He was again elected in 1904 and 1906. During his early days as prosecutor he showed the stuff that is in him by cleaning out the notorious McNealy gang from the western part of the county, where they operated a den of prostitution and crime with a bold disregard for the law. Those, mind you, were the good old lumbering days when the enforcement of the law was not always an easy matter. This gang was strongly entrenched and only a courageous stand by a determined official could have driven them out—but they went.

Mr. Smith was chosen as one of the members of the Constitutional convention in 1907-1908, from the Tenth Congressional district, and here again he demonstrated his ability and justified the confidence placed in him by rendering valuable service in that important body.

After the death of Judge Conning a mass meeting of the citizens of Harrisville Mr. Smith's home town, was held and adopted a resolution urging Mr. Smith's appointment to the vacancy and giving their reasons therefor. This resolution was indorsed by the attorneys of the county—and Mr. Smith is just as much entitled to the office now as he was then.—Adv.

"CURRIE FOR CONGRESS"

While Not Expressing Its Preference the Bay City Tribune Recently Said in Part:

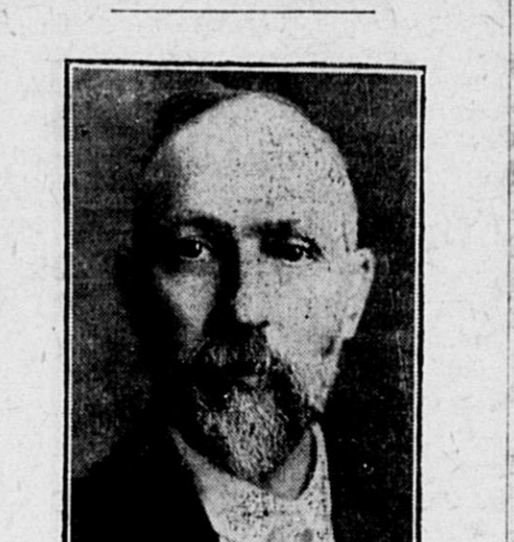

"Gilbert A. Currie is a great deal stronger in all sections of the district than he was two years ago. Political fortunes against him before are apparently with him now. It is said that western counties stand solidly behind him this year, whereas in 1914 he was obliged to split the vote with George A. Glerum of Ewart. Bay county's heavy Loud majority sent Loud to Congress. But the present congressman is now up against almost the same situation as Currie coped with in the last campaign. The district split has shifted from the west to the east. There is considerable Currie sentiment in Bay county, and the Midland county candidate anticipates polling harder here than he did before. The additional fact that Midland county has some 1500 voters more than it had before is an advantage which cannot be overlooked."

Fifteen Out of Nineteen Papers Which Have Expressed a Preference for Congressman Have Declared for Gilbert A. Currie for Congress. Why?

STANDISH HAS FALLEN.

Tawas humbles Standish on the latter's home grounds in a hard fought contest.

The mighty Harvie is humbled! In the eighth inning of Sunday's game after a triple and a single and no one down he was jerked by manager Myers and replaced by Milne. Of course those two hits alone didn't do it. In the seventh three singles in a row netted two runs. And in the sixth a double and a long single netted another. Oh yes, they got to him. Milne finished the game in good style.

Geo. Kobs was the story of the defense mostly. Musolf, Samuel and Swartz tried hard to throw the game away but George stubbornly insisted that it was his, by either fanning his man, or forcing him to an easy out at the crucial period. This was George's first hard game and he sure showed that he is there in the pinches. The offense was ably assisted by the best bunch of rooters that ever helped a ball team win a game and we venture the assertion that were it not for their loyal help in the pinches our boys would have had to bite the Standish dust. Go to it boys.

Score by innings:
First Inning.

Standish—Lectka walked, he stole. Pelton fanned, also Bird, and also Pomeroy. No run, no hit, no error.

Seventh Inning.
Tawas—Woizeschke sing ed to right. Moeller singled him along and both advanced when Moeller's hit got through Pelton. Woizeschke scored on Kobs' single and Moeller scored when the ball went through Bird, Kobs taking second. Swartz lined straight into Kossanke's hands. Johnson out, Harvie to Whiting. Mark out, Pomeroy to Whiting. 2 runs, 2 hits, 3 errors.

COL. LOUD OUR LOYAL FRIEND

ENTERPRISE EDITOR'S PERSONAL OPINION OF THE PRESENT CONGRESSIONAL SITUATION
Congressman Loud and His Work for the Commoner, for the Widows and For the Soldier.

The Colonel in His Lumberjack Days and His Great Kindness to Employes.

No man, No Matter How Poor, Ever Approached Col. Loud in Vain.

The editor of the Enterprise asks its readers to consider this article seriously and to realize that it is personal opinions of the editor. Again, we ask our readers to look back over the history of the Enterprise and if possible find a place where this newspaper has ever played false with them. This being true, it is only fair to expect that the editor will at least be credited with being honest in his convictions. Col. Geo. A. Loud is running in the primaries for congressman for this district. And this splendid representative of the district's interests expects his record will spell his success. His is a record that his district is proud of. He is the only congressman ever elected from this district that in reality has proved a public servant. There is no man who cannot approach Congressman Loud, at any time—and no matter how poor in this world's goods. He welcomes and shakes the grimy hand of the laborer with the same warmth as he greets the man of wealth. He listens to all, and if the conference be of an official nature, he goes back to Washington and at once gets busy. This fine big-hearted congressman never forgets the soldier's widow, and the pensions he has got for widows, who apparently had no possible show, have been numerous. Ask the soldier's widow about Col. Loud. They'll tell you how good and kind and zealous he has been in their behalf. Ask the old soldier about the Colonel, and in doing so, be mighty careful to speak no adverse words, unless you expect the fighting spirit of '65 to flash from his eyes. Ask the old-time lumberjack about George Loud. He'll tell you he was like a brother when they were hurt in the woods or were down at the heel—how George Loud wasn't above swinging the ax and canhook with them—how George, as they were wont to familiarly call him, was the first to be at the side of the injured or crushed woodsman with first aid, and ready to get the surgeon to reduce fractures—and at the expense of the company. O. Col. Loud is a man all through—a man above petty things—he loves his fellowman. AuGres would be the loser if we lose the Colonel in congress, for he has an eye on this locality, and has his interests at heart as much as he has the interests at heart of the more pretentious Bay City and other larger places in the district. Reader, think it over—consider everything—the worthiness and ability of this great big-hearted Colonel Loud. Let us give him a support at the primaries that will prove to him that the AuGres district appreciates his ability and his untiring efforts in behalf of this locality and his constant, loyal work in behalf of his constituents generally. And finally, readers of the Enterprise are asked to remember this is no paid political article. It is an editorial direct from the heart of the editor—a sincere expression of the belief of the editor of the Enterprise in Congressman Loud.—AuGres Enterprise.—Advertisement.

About the best thing we can say for the De Laval is that all the farmers around here who use it are boosters. It does good work for them and pleases them, and we know it will please you. Make it a point to ask your neighbor about his De Laval There are nearly two million satisfied De Laval users throughout the world. More De Laval Separators are in use than all other makes combined. It isn't the cheapest, but the majority of separator users have found out by experience that it is the best and by far the most economical separator to own. Come in and see us the first time you have a chance and talk it over. Sooner or later you will buy a DE LAVAL
