When you have read through this issue of the paper just take time enough to let one fact sink into your active brain. The paper on which this issue was printed has cost us approximately double what it cost us two years ago. The ink we used is away up in price. The oil that keeps the press revolving is up in price. The power that moves the machinery is sky high. In fact, every item of expense is up in the clouds and many are way above them, and every dollar of expense means just that amount of money right out of our pocket. A great many subscribers are in arrears on subscription, and we need that money in order to meet the rapidly increasing cost of producing this paper. It is simple thoughtlessness on your part, we know, but our own creditors do not recognize that word. It don't go with them for an instant. Do we get "ours," brother?

Three hundred million Red Cross Christmas seals are being printed in Cincinnati for the annual holiday campaign to be conducted under the joint auspices of the American Red Cross and the National Association for the prevention of tuberculosis.

Henry Kane has broken ground for a large new garage on his lot across the street from the Iosco hotel. Mr. Kane plans on building a substantial cement structure which will be a creditable addition to the business street of Tawas City.

At the republican county convention held at the court house Tuesday the following were elected as delegates from this county to the state convention which meets in Saginaw on Sept. 28: Jas. E. Dillon, F. F. Taylor, E. B. Follett, L. A. Chichester and David Davison.

The best way to build up a city is for each and every man in it not to strive to rend or tear down. Whenever a man in the town is doing well do not try to tear him down. All the residents of a town are partners, not opponents. In all likelihood the more business done by your rival the more you will do.

Married, at Detroit, Sept. 2, Miss Gertie Moore, daughter of Mr. and Mrs. Thos. Moore of this city and Mr. Fred Schriber, son of Mrs. John Schriber of East Tawas. The happy couple left immediately for Jackson where Mr. Schriber has a position with the Eastern Michigan Power Co. Their many friends extend their heartiest congratulations to Mr. and Mrs. Schriber.

On account of the increased cost of print paper and everything else entering into the publication of a newspaper, the Osego County Herald and Times published at Gaylord, has reduced the size of that paper from a seven column to a six column paper, the subscription price being the same. Excessive costs in the printing business are forcing the publishers to adopt different expedients to cut down expenses and eliminate loss. The Tawas Herald, for the present at least, will remain the same size as in the past, but on October 1st will go on a strictly cash in advance basis. If your subscription is not paid in advance of October 1st, better send in your renewal at once, as only two weeks remain. The date on the label on your paper will tell you the date to which you are paid.

**THOSE SONGS OF YESTERDAY**

We ain't so awful up-to-date,  
Ner don't pretend to be;  
I guess, however, we can wait,  
An' hide a little wee,  
Our square planer's jes' as good  
As on our wedding day;  
No pianoller ever could  
Such golden music play.

New-fangled songs may be more smart  
An' may be all the rage  
But somehow they don't reach the  
heart  
Like those of yester-age  
"Kathleen Mavourneen," "Bonnie  
Doom,"  
An' "Comin' Thro' the Rye,"  
An' "Silver Threads," old fashioned  
tune,  
But one that cannot die.

Popular music? I'll admit  
We're jest a leetle slow;  
We wouldn't know the latest hit  
From Mr. Ziegfeld's show;  
But "Annie Rooney," "Sweet Marie,"  
"Comrades," "After the Ball,"  
Retain the same charm as when we  
First heard and loved them all.

**MARKETING PEACHES WITH MICHIGAN FLAVOR.**

East Lansing, Mich., Sept. 5.—"The peaches with the famous Michigan flavor says James W. McBride, Michigan Director of Markets, are now being marketed. For several weeks there have been peaches in the market, but the big freestone yellow peaches are just reaching their best. The fruit associations along the west side of the state from New Buffalo to Northport are going into high gear for the handling of the fruit that will be ready for market during the next four weeks. A much larger share of the total crop will be graded and packed this year in central packing houses than ever before and the grading rules that will be observed are a little stiffer than has been the case in seasons past. On the whole the peach buyers will get a better quality of fruit than what they might expect from former experiences.

An effort has been made this year to interest Michigan peach consumers in the home grown article. Attention has been called in various ways to the Michigan flavor and there has been a fair response to the efforts made. Last year no less than 200 cars of peaches were shipped into Michigan from other states particularly New York, Ohio, and West Virginia. It is expected that the figures telling the story of this year's importations will be much smaller.

Many of the granges in non-peach producing sections of the state are placing orders with the marketing associations for fruit for canning purposes. From this source alone it is expected that a noticeable increase in demand will occur. If Michigan farmers eat and can Michigan peaches instead of using fruit from other states the producers of the Michigan fruit will enjoy substantial gains.

**RULES FOR GARAGE OWNERS.**

Absolutely prevent smoking in the garage by anyone—yourself, your friends, your employees, your customers.

Keep the garage immaculately clean. Have a self-closing can in which to throw oily waste and other refuse.

Keep the car, and particularly the drip pan, clean and free from oil.

Install in the garage an efficient drainage system, which will keep the floor free from pools of gasoline and oil drippings.

Never allow an unguarded flame of any kind to be brought into the garage.

Use no lighting system but electricity and protect the bulbs with wire guards.

If any lights but electric are used on the car, see that they are put out before the vehicle enters the garage.

Be certain that the heating system that you install is absolutely safe.

Be sure that the gasoline and oil storage outfit that you are using is approved by the fire underwriters.

In handling gasoline, always treat it with the respect due a potential explosive.

Have an adequate number of fire extinguishers and buckets of sand at strategic positions in the garage.

**IMPORTANT TO BEAN GROWERS.**

East Lansing, Mich., Sept. 6, 1916. "The Director of Markets shall assist in organization of cooperative and other associations for improving the relations and services among producers, distributors and consumers"—Section 6, Act No. 91, Public Acts of 1915, State of Michigan.

The second annual meeting of the Michigan Bean Growers' Association will be held at Grand Rapids, Wednesday and Thursday, Sept. 13 and 14, 1916, probably at the court house, where notice will be posted if any change is made.

First. The United States Department of Agriculture will make the crop estimate for beans and this report will be available September 10.

Second. The most recent advices as to crop conditions effecting beans will also be made public. It is hoped and desired that every portion of the bean growing counties will be represented, so that on roll call of counties the last word as to crop conditions may be known, and a proper market value be placed on the crop soon to be offered for sale. Conservative marketing plans with adequate prices are necessary to maintain the bean growing industry.

This is one of the opportunities of the producer to participate in discussions where the subject of price is an important one, and where plans for the marketing of a crop are under consideration. Cooperation, organization, and salesmanship should go together. Consult with your neighbor and see that your community is represented. All farmers' organizations are especially urged to send representatives who will take part in the meeting.

The meeting will be open to every bean grower. Several County Agricultural Agents are to be present. It is expected that the United States Office of Markets will be represented at this important meeting.

The Michigan Bean Jobbers Association meets on the same dates at Grand Rapids and the producer and dealer discuss market conditions as business men. W. J. Orr, Saginaw, is President of the Bean Jobbers. The officers of the Michigan Bean Growers' Association are President, A. B. Cook, Owosso; Secretary, Alexander Pullar, Freeland.

Respectfully yours,  
JAMES N. MCBRIDE,  
Michigan Director of Markets.

**RED CROSS CHRISTMAS SEALS FOR 1916.**

The Red Cross Christmas Seal for 1916 was designed by Mr. T. M. Cleland of New York City. It shows a Santa Claus in red on a green background in the center panel with a pack on his back bearing a red cross.

The lettering "A Merry Christmas" and "A Happy New Year" is carried vertically up and down the sides of the seal, while the date and words "American Red Cross" are across the bottom of the seal. The poster effect given by this seal is very striking and makes an unusually handsome design.

**ROAD BEE NEXT MONDAY.**

A road bee will be held next Monday, Sept. 18 for the purpose of improving the Hemlock road at Hadwin's hill. This has been a particularly bad spot and it will be to the interest of all who travel that road to have it fixed.

It is expected that a carload of gravel will be here Monday for this purpose and all who have teams that they will donate for the work of hauling the same are requested to notify E. S. Anschuetz. Mr. Anschuetz is taking subscriptions to aid in this work and any who wish to subscribe will please notify him, and he will see them.

Turn out boys, and lend a hand to this good work.

**THE ROLL OF HONOR.**

Following are the names of those who have renewed their subscription to the Herald during the past week:

Mrs. L. B. Smith, O. L. Fox, Jas. T. Baguley, Birt Fowler, Allie Bigelow, Frank Binder, Wesley Groff, Neil McDonald, Geo. A. Jackson, Chas. Hartman, Steve Micalski, Irving Beardslee, Dwight Arthur, Dr. A. H. Cowie, Mrs. Alfred Waters, Eugene Bing, Mrs. Robert Brooks, John Sullivan, Mrs. Glen Weaver, Andrew Sasse, Harry Preston, Fred W. Rollin, Mrs. W. B. Kelly, Mrs. L. C. Colegrove, William Allen, Elmer Streeter.

If you want to know all you have ever done, and many things you never thought of doing, just run for office, and you'll get your character aired in good shape.

**DEATH OF JOHN ALFRED QUICK.**

After a long and painful illness, John Quick of this city, only son of Mr. and Mrs. Alfred Quick, breathed his last on Wednesday morning, Sept. 13. Death came at 3:15 after several days of terrible suffering.

John Alfred Quick was born in East Tawas May 24, 1892 and was 24 years, 3 months and 19 days old. He was brought up in this city and attended the public schools here. About seven years ago he left home for Flint where he was employed but in a short time he left that city for Detroit, where he worked for five years. While in the employ of the Cadillac Motor company he contracted tuberculosis from breathing in emery dust in the factory. He came home in May 1915 and began to take medical treatment. Not getting much relief he with his sister, Miss Selma, decided to try the climate in the west and in September 1915 they left for Montana where they visited with relatives, an aunt and uncle, for two months. He did not seem to improve and so returned home. Since that time he has been gradually failing although he had been able to be out of doors a good deal of the time until August. He was confined to his bed for two weeks before his death.

John was a member of the Swedish Lutheran church of this city having been confirmed in the Lutheran faith. The funeral services will be held on Friday afternoon of this week at 2 o'clock, local time, from the Swedish Lutheran church. Rev. William Roberts of the Presbyterian church will officiate and the remains will be laid to rest in Greenwood cemetery. The pallbearers will be Russell Anderson, Sanford Jacobson, Arvid Anderson of Detroit and Joe Bigden.

The parents of the deceased, Mr. and Mrs. Alfred Quick and an only sister, Miss Selma Quick are left to mourn his loss. Many friends extend their heartfelt sympathy to the sorrowing relatives in their present bereavement.

**J. FRANK ALLAN.**

The fore part of this week the following clipping from the Utica paper of last week was received by Mrs. E. G. Ash of this city. Mr. Allan was formerly a resident of this city and a prosperous business man and will be remembered by many friends.

"Ritualistic services by the Utica Elks under the direction of Exalted Ruler Harry Atkinson, were conducted at 3 o'clock yesterday afternoon in Forest Hill cemetery at the grave of J. Frank Allan a native of Utica, who died Sunday at a hospital in Ann Arbor, Mich., following an operation.

Mr. Allan was born in this city, June 23, 1855, the son of Moses and Catherine Allan. After his marriage to a daughter of the late William Lent, he went to Michigan, where most of his life had been spent. Five years ago he lost his eyesight and was taken to Ann Arbor recently for an operation, in hopes that it could be regained. Mr. Allan failed to rally from the operation.

Surviving are two sons, William of Detroit and Chester of Bay City; four sisters, Mrs. Mary Harley of Marshall, Ill., Mrs. David Cole of Oneida, Mrs. Ida Burdick of Evanston, Ill. and Mrs. Katherine Walker of Midland, Ont., Canada. His wife died about 30 years ago."

**ROSE IRENE BUTLER.**

Last Monday, morning at 7 o'clock Rose Irene, infant daughter of Mr. and Mrs. H. N. Butler died at the family residence in this city. The child had been ill since the time of her birth on August 17.

On Wednesday morning the family left for Otisville, Mich. where the funeral will be held from Mrs. Butler's home in that city.

## SEEK TO AVOID THE BLUES

One's Troubles Frequently Will Be Found to Exist Only in the Imagination.

There are a lot of people in this world who seem to take a fenshish delight in being miserable and in making others feel that way, too, remarks the Brockton (Mass.) Times.

Some men, and some women, too, surround themselves with an atmosphere of gloom that eternal sunshine couldn't dispel and through this distorting medium molehills grow to mountains and there are tears and groans where there should be smiles.

They wake up in the morning with a face that looks like a sodden doughnut, and perhaps the sun is bright and the birds are singing. They will grumble and say, "O, well, this won't last; we'll have had weather yet before night." And should the sky grow clouded and a refreshing rain moisten the thirsty earth they shout in glee, "I told you so."

When they sit down to breakfast they almost sour the cream they put in the coffee, and the most tempting breakfast does them about as much good as a carpet tack sandwich would. They grow dyspeptic, morose, pessimistic, cynical, hypochondriacal and get to be downright nuisances.

If you ever get to feeling blue about things stop and think what it will mean if you keep it up and then pin your mind so hard on your daily task that there isn't room for another thing in your head. That's the way to keep the haunting spirit of pessimism and despondency out of your heart.

And remember the world has no time to listen to your troubles, for every one has troubles of his own, and the chances are a good many have a great deal heavier burden to bear than you have.

## ALL AT "GENERAL MUSTER"

Everybody Was More or Less Interested in the Militia Some Decades Ago.

In considering the subject of preparedness it might be wise to look up the old militia system that prevailed sixty or seventy years ago, when states were divided into districts, each one having a company to which all men of soldier age were required to belong, and give a few days each year to military drill, the Columbus Journal observes.

Every year there would be a "general muster," at which the various companies would gather, and under the command of a plumed and bespangled officer would perform the various evolutions and go through the manual of arms that would strike with awe the surrounding crowd of women and children, gathered to witness the heroic displays of fathers and brothers.

These general musters were great events in the times of our grandfathers. They were social as well as military, and often adorned with feasts of warlike provender. In one of his speeches Tom Corwin tells of a general muster in which the brave militiamen, with bayonet and sword, charged on a pile of watermelons and cut the red hearts out of the enemy.

### Shakespearean Humor.

McKean Buchanan, a California tragedian in the olden days, was noted for the roaring style in which he played Shakespearean characters, also for his fondness for litigation, and for never paying his lawyers. J. Gordon Eastman was posted as to this last peculiarity of the "great Shakespearean delineator," as he styled himself, and when Buchanan, filled with wrath at an adverse criticism in a city paper, determined to sue the editor, burst into the lawyer's office and said: "Sir, I wish to retain you," the man of the law replied: "Awfully sorry, Mr. Buchanan, but I am retained on the other side." Buchanan replied: "The other side; what other side? Who has retained you against me?" The attorney replied, "Shakespeare's ghost," and the interview closed.—T. F.

### Recognize the Death Song.

Walrus and seals and all true mammals that have lungs and live in the water have a bark that sounds strange enough as it comes up from hidden depths. Every lookout from the masthead notices that, when one whale is struck, the whole school is stampeded at the very impact of the harpoon. They have heard the death-song.

The sound that the bowhead makes is like the long-drawn-out "hoo-hoo-hoo-oo" of the hoot-owl. A whaler says that the cry begins on F, and may rise to A, B or even C before slipping back to F again. He avers that with the humpback the tone is much finer, and sounds across the water like the note from the D string of a violin.

If silver is to be stored away for some time, pack it in dry flour, it will not be tarnished.

If fruits are canned as soon as they are picked there will be less loss by fermentation.

## World Will Always Be Able to Support Its Population

By JOHN M. HESS of Chicago

Government statistics show that approximately 1,500,000,000 acres of land are subject to cultivation—an area equal to 32 states as large as Illinois. These statistics further show that an area equal to about thirteen such states is being cultivated. All the rest, or 19 states, lies unplowed. That is to say, only three-eighths of the land susceptible of cultivation in the United States are now under cultivation.

Oh, the need there is and the room there is for the millions that are being slaughtered in Europe!

The same statistics show that a farmer of today can and does produce 28 times as much as a farmer could produce 100 years ago. These facts, well established and certain, thunder forth the falsity of the Malthusian theory. The earth can and will support its population not only now but for all time to come.

In America we believe that we can take care of the entire population of the earth and do it better than it is now being done. This is the very opposite of the Malthusian theory, which prompts men to kill each other.

What folly is this Malthusian theory, when we stop to think that the entire population of the earth could live in the single state of Texas, in families of five, and still have a half acre to the family!

## MOTHER'S COOK BOOK

### How to Boil Meat.

In boiling meat it should be dropped into boiling water and boiled for five minutes to sear over the outside and keep in the juices, then the heat is lowered and the meat simmers until tender. Too long cooking reduces meat to rags and makes it unpalatable and lacking in nourishment.

### Raisins Keep Indefinitely.

Raisins are advancing in price; at one time a package cost ten cents, now they are often fifteen. In buying in large quantities one can save quite a sum, and they keep indefinitely if properly packed.

### A Delicious Sherbet.

A delicious sherbet is made of one lemon, two oranges and three cupsful of thin cream, with sugar to sweeten as desired. Freeze as usual and serve in orange or grapefruit cups.

### Cottage Cheese Salad.

Cottage cheese mixed with canned red peppers which have been put through the ricer or sieve then well seasoned served on lettuce with a little boiled dressing, makes a most tasty salad.

### Parsnip Fritters.

Parsnip fritters are another delicious way of serving this good vegetable. Cook them until tender, mash and season, dip in fritter batter and fry in deep fat.

### Cheese Ball Salad.

Cheese balls of seasoned cheese rolled in chopped chives and arranged in a blanched lettuce leaf, served with any boiled dressing makes a most satisfying salad.

## Fashion's Decrees

Narrow bands of tulle are still used for evening gowns of tulle.

Quaint turbans are fashionable; so are large picture hats.

Sport suits of mouse-gray corduroy are extremely natty. Gray buttons are the fasteners.

Some of the new sweaters have silk linings, which are very effective when displayed as a backing to the flowing belt sashes.

Small fruit has been used from time to time for trimming hats, but this season pears, crab apples, as well as berries of all kinds, are seen.

The fashionable coiffure is largely a matter of individual taste. The hair may be worn high or low, may be in wide or narrow effect.

Short-winged sleeves of filmy stuff are characteristic of the latest evening gowns. They are often wired to stand up straight from the shoulders.

### Matches Luxury in Leeds.

The scarcity of matches in Leeds that was threatened in the fall of 1915 has become a reality. The prices have been high and the quality has been poor. The Yorkshire Evening Post of Leeds said recently: "It sometimes takes three matches to raise a light nowadays, and with the price increased some 250 per cent, that makes them a rather costly luxury."

Much interest was manifested recently in the arrival at London of a cargo of matches from Japan. Up to the present time no matches of American manufacture have been noticed in Leeds.

### A STRAIGHT TIP.

## A Few Smiles

### Annihilating Distance.

Bacon—Do you think the automobile has done much good to civilization?

Egbert—Sure. Why, I don't believe my wife ever would have had anything to do with that woman next door if our neighbor hadn't got an automobile.

### Not Necessary.

"Do you have to put a scarecrow out in the cornfield to keep away the birds?" asked the city man.

"Oh, no," replied the farmer, taking another pull at his pipe; "my wife's out there every day, hoeing."

### Can't Believe It.

Bacon—By examining the soles of a baby's foot a French woman claims she can tell what kind of a man or woman it will become.

Egbert—I don't believe she can really tell if they are to go through life cornless.

### Against Deals.

"I see a Frenchman has invented a machine for dealing cards that is said to make misdeals impossible," said the business man.

"Well, I'm against those machine deals," said the disappointed politician.

### Touches of Life.

Bacon—Switzerland normally sells \$2,000,000 worth of cheese yearly to the United States.

Egbert—Well, it's an even break. American tourists put a lot of life into Switzerland, too.

### She'll Finish Him.

Patience—Is she going to marry that man?

Patrice—I believe so.

"He's a self-made man, isn't he?"

"Yes; but she's going to put the finishing touches to him."

### Tramps.

"What did the lady up at that house give you?" asked one tramp.

"Advice," replied the other tramp. "And it made me sick."

"Well, the other day she gave me pie, and it had the same effect."

### How It Looks.

Bill—He says his father has a flowing beard.

Jill—That's right.

"But what is a flowing beard?"

"Why, it's one that reminds you of water coming out of a hydrant."

## POINTED PARAGRAPHS

For each disease there are a dozen cures that don't.

There are lots of good women in the world in spite of the men.

A man's always satisfied to be out when a bill collector calls.

Truth in a nutshell is not always what it is cracked up to be.

A man usually has to change cars several times on the road to success.

Some girls have the white habit almost as badly as some married women.

Ever notice how you appreciate the company of people who admire you? Money may make the mare go, but it takes more than that to start a stubborn mule.

When a man tells a woman she is all the world to him, she doesn't blame him for wanting the earth.

### Round Dolly Boxes

Instead of the flat case for dollies that has enjoyed much popularity for the last few years, one may use a round box, just big enough to hold the dollies in question, and an inch or two high. This box is covered with cretone and is both attractive and convenient.

## JAVA IN HELPLESS STATE

People of Tropical Garden of the World Are Without Ambition to Advance.

The garden par excellence of the tropic world is Java, yet intellectually it is but a cemetery of withered hopes and ambitions wrecked in mockery, for over all there broods the dull fatalism of despair—the "sufficient unto the day" of the conquered follower of Mohammed. Ambition, if it exists in the Java of today, seems powerless to raise its people above the condition of the Asiatic peasant, Dr. Alfred G. Mayor writes in the Scientific Monthly. There is no well-to-do class of native artisans, and one may travel throughout the land and find hardly a native shop upon whose wares the European may bestow a glance of admiration, save only for the vanishing art of batik cloth, and the still more moribund manufacture of the Krees. Unlike over the whole land, in every view, there swarms the full-faced, docile coolie of the soil. Measured by standards of mortality, a source of commercial weakness, and Java has not always "paid," despite her conquerors' efforts to secure as much profit from her as their conscience and the public spirit of their times would permit. The water supply of her countless mountain streams might turn the wheels of many a mill but Java still sends her products abroad in the form of raw material, and the cultivation of cotton is not even attempted.

### His Explanation.

The streets were crowded with idle miners and the city authorities, taking advantage of the fact, had a good amount of work done putting in sewers, paving streets, etc.

Mulligan, who was not above earning a little extra money whenever possible, had taken over a job at digging ditches.

One morning his friend chanced to pass him as he was laboring shoveling earth.

"Hallo, Mulligan! What are yez doing there?"

The workman leaned on his spade and made a long pause before answering:

"Oh, Oi thought Oi would work just whole Oi was idle, boy."

### Not Creatures of the Sea.

The National museum at Washington, contains a notable display of the bones of several species of extinct mammals which, if seen alive in the ocean, would be called huge sea serpents. They were carnivorous and their long, slender jaws were armed with formidable teeth. Although a few remaining individuals of the group may have given actual basis for the sea-serpent stories, these extinct animals were not reptiles, but mammals which, like the whale and seal and otter, had happened to evolve in an aquatic environment.

### Not Such a Fool.

"Here's a strange case," said Mrs. Spotter to her husband. "A man they called the town fool up in New Hampshire died, and they weighed his brain. It was heavier than the average."

"Is that all it says about him?"

"Yes—except that he was for many years entirely dependent on well-to-do relatives."

"Huh—he was no fool. If you have well-to-do relatives, why use your brains?"

Old newspapers for sale at this office.

### In Perfect Faith.

Grandma and granddaughter of four were watching grandpa cover their faithful old friend Jack with sod. Little May looked up and saw grandma crying. It moved her so that she thought she would say something to comfort her, so she waited a little while until the task was completed, and then looked up at the aged pair and said: "Well, don't cry, grandma. Poor old Jack has gone to dog heaven."

### Yaquis Fond of Music.

A noteworthy characteristic of the Yaquis is their fondness and talent for music. They have retained many of their primitive dances, but the custom of tattooing the chin and arms is no longer practiced to any general extent.

### Usefulness Better Than Display.

"Speakin' of de uplift," said Uncle Eben, "an' elevator dat keeps runnin' reg'lar 'bout makin' no fuss does a heap more service dan a skyrocket."

## AN EASY WAY TO REDUCE FLESH

Drink Hot Water and Take Tassco.

Haven't you often wished for a medicine to reduce your flesh? Something that does not require dieting or calisthenics? Well, right here you have it in 5-grain tassco tablets, which you may secure at any drug store.

They are pleasant to take, perfectly harmless and cause no restrictions of habit or eating, and reduce the flesh, little by little, until you are down to the number of pounds you wish to weigh. Too much flesh is undesirable, as most quiet stout people will readily admit, and it detracts from one's good appearance; makes one clumsy and short of breath.

There isn't any reason why anyone should be too stout, when there's this much-tried, perfectly satisfactory remedy at any drug store. Tassco tablets (don't forget the name) are recommended by physicians and are guaranteed to be perfectly harmless. Refuse substitutes, if you can not come to our store, we will mail tassco to you.

### That Awful Word!

Even after a woman finally persuades her husband to get a pair of white flannel trousers and look as if he had a little social position she is constantly tortured by the gnawing fear that he will refer to 'em as pants in some select company.—Ohio State Journal.

### Effort to Elucidate.

"Father," said the small boy, "a critical situation is something terribly serious, isn't it?" "Not invariably, my son. Sometimes a critical situation is one in which each person regards himself as so secure that he feels perfectly at liberty to criticize everybody else."

**SAYS BIG EATERS GET KIDNEY TROUBLE**

Take a Glass of Cold Water and Kidneco to Flush Kidneys if Back Hurts.

Omit All Meat From Diet if You Feel Rheumatic or Bladder Bothers.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, rheumatic spells, acid stomach, or have rheumatism when the weather is bad, get from any druggist about one dozen Kidneco tablets; take one with a glass of water before each meal for a few days and your kidneys will then act fine. This famous remedy is made from perfectly harmless ingredients and acts quickly and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it is no longer a source of irritation, thus ending bladder disorders.

Kidneco is inexpensive; cannot injure, make no mistake, insist on Kidneco, it belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

**OMER WINS DECIDING GAME IN PENNANT CHASE.**

Defeats Tawas on Turner Grounds last Sunday Before the Season's Largest Crowd.

Errors again defeated Tawas City last Sunday in the game that decided who was the winner of the pennant in the Northeastern Michigan Baseball League. Kobs, pitching for Tawas City, allowed Omer but eight hits, these coupled with eleven errors piled up a lead for Omer that our boys were unable to overcome. Eleven hits were made off Matuzak, but his teammates played faultless ball and cut off drives that were tickled for almost sure hits, Warren, Omer's shortstop was the star of the day, handling 13 chances with only one error. It was almost impossible for the boys to hit the ball where Warren wasn't. He is the man that saved the day for "Big Frank."

Had the Tawas boys showed their usual playing style, the game would have been an easy win for George, his pitching was faultless.

**First Inning.**  
Omer—D. Adair out, Musolf to Samuel. Mead safe on Swartz's fumble. Warren struck out. Mead stole. Hayes struck out.

Tawas—Swartz flied to S. Matuzak. Johnson out, J. Adair to Holland. Mark singled through third. Mark out, D. Adair to Mead to Holland.

TESTIMONIAL FROM MRS. THEO. HILTS.  
406 N. Michigan Ave.  
Saginaw, Mich., Sept. 11, 1916.  
Dear Mr. Bristol:—You asked me to tell you about Mr. Hilts having used your remedy for cancer, also of his having been treated by a doctor in Oscoda. The first cancer was in his right cheek, and Dr. Wier treated it by using a plaster which took three weeks to draw the cancer out. The doctor told me that it would return in some other part of the body. As soon as Mr. Hilts' health began to fail, which it did some seven or eight years later, when one started on the right side of his nose. He brought home a tiny bottle of Bristol's Diphtheria Remedy which, he said, you had given him to try. There was not over two teaspoonsful, but I knew it cured him. Of course he was faithful with the remedy and used it several times a day, applying to the affected part with his finger, and it certainly cured him by the time the remedy was gone.—Mrs. Myra Hilts.

Mr. Joseph Jolie, formerly of East Tawas was on his way to the train to go away for treatment by a specialist for cancer on his face. He was induced to wait and try Bristol's Diphtheria Remedy first, with the result that he was entirely cured by the use of one small bottle. That was twelve years ago and he has never had a recurrence of the trouble. adv.

**We Extend a WELCOME to all Detroit Visitors**

Again we have the pleasure of extending our courtesies to visitors from Michigan and near states. This store, located on Woodward at State Street—the business center of this big, hustling town of nearly 800,000 people, is typical of the highest commercial service to its patrons. Every visitor is invited to make free use of all its conveniences—Rest Rooms, Correspondence Desks, Telephone and Telegraph Service and other conveniences. Displays of women's, misses' and children's FALL garments at special early season prices. We are sure you will be interested. COME.

**SATISFY!**

— what does that mean?

It means that NEW quality, in a cigarette, that does for your smoking exactly what a drink of cold water does for your thirst!

To satisfy, a cigarette must do far more than just "please" you—it must let you know you've been smoking.

That's what Chesterfields do—they satisfy! And yet they're MILD!

For the first time in the history of cigarettes, here's a cigarette that satisfies and yet is mild! Chesterfields!

Other cigarettes may be mild, but they don't satisfy. BUT, Chesterfields satisfy—yet they're mild!

This is new enjoyment for a cigarette to give. It is something that no cigarette, except Chesterfields, can give you—regardless of price.

Why?

Because no cigarette maker can copy the Chesterfield blend!\*

Try Chesterfields—today!

**Chesterfield CIGARETTES**

\*No Wonder They Satisfy! (—and yet are MILD)

It's the pure Turkish tobacco in Chesterfield Cigarettes that does it. The famous Chesterfield blend contains the highest-quality Turkish tobaccos:—CAVALLA for its aroma; XANTHI for its fragrance; SMYRNA for its sweetness; SAMSOON for its richness.

The world's record—twenty-two thousand and twenty-two miles without stopping the motor—is held by a Maxwell stock touring car.

NO other car at any price has ever approached this wonderful record of endurance.

In addition to this proven sturdiness, remember that the Maxwell averages between 25 and 30 miles per gallon of gasoline.

Moreover, the Maxwell is complete. It has electric starter and lights; demountable rims; one-man mohair top; speedometer; roomy, comfortable seats and an attractive appearance.

Are you particular about details? Do you demand evidence of value? If so, you will investigate the Maxwell, the features, record and reputation of which proclaim it the world's greatest motor car value.

### CANDIDATE FOR SHERIFF.

Having been nominated on the democratic ticket as a candidate for the office of sheriff of Josco county, I respectfully ask the electors of the county for their votes and support at the election to be held on November 6. If elected I will strive to give an administration of this office that will be satisfactory to the people and will justify their confidence in me.  
 Yours very truly,  
 THOMAS H. HILL.  
 TO THE ELECTORS OF JOSCO COUNTY:  
 I wish to thank the electors for giving me such a large vote for the office of County Treasurer. I am confident if it had not been for the deliberate falsehoods circulated by one of my opponents I would have been nominated by a large majority. Unless something happens to prevent I shall be a candidate for the office of County Treasurer two years hence.  
 JOHN SULLIVAN.
