DEATH OF LITTLE DOUGLAS MYLES.

No doubt there was an extra tug at each mother's heartstrings, and their little ones were held a little closer and seemed a little dearer last Friday when the news was circulated around the city that little Douglas, the four year old son of Mr. and Mrs. John A. Myles, had died that day after an illness of only two days.

The little fellow had apparently not been seriously ill until the day he died, though he had been slightly indisposed on Thursday, and as he never was ill in his life before, his parents thought it only a slight bilious attack. However, on Friday about 11 o'clock he appeared to be much worse and a doctor was called. Everything was done to relieve the boy and save his life, but without avail, and he steadily became worse until his death that afternoon. The cause of his death was pronounced poisoning from worms.

Douglas Herbert Myles was born in Tawas City June 24, 1912, and was four years, three months and 21 days of age. He was a member of the primary class in the Presbyterian Sunday school and was a favorite of both his teacher and classmates.

The funeral services were held at the Presbyterian church on Monday afternoon, Rev. Wm. Roberts officiating and he was laid to rest in the Tawas City cemetery. A large number of beautiful floral offerings testified to the love of the little fellow's associates and the sympathy of friends of the family.

C. E. NOTES.

Christian Endeavor Sunday evening at Baptist church 6 p. m.

Topic—"Manliness and Womanliness." Neh. 6:1-13; Esther 4:6-16.

Leader—Florence Smith.

Last Sunday's citizenship meeting was well attended and very interesting plans for some definite work for temperance and good citizenship were started. Further announcements later.

EPWORTH LEAGUE.

Sunday, Oct. 22, 6:15 std. time.

Topic—"Second Mile Religion" Matt. 5, 38-48.

Leader—Jas. F. Mark.

A topic for every one to get interested in.

A large number of leaguers and their friends became interested in last Sunday evening's topic on missions in India. A talk by Judge Widdis on the religions of the east was much enjoyed.

What would you think of a religion that thought of nothing but its forms and forgot the physical comfort of its people. Christianity does not come in this category.

Watch for the big rally Nov. 5.

HARBOR BEACH PASTOR TO DIG SEWERS FOR CITY.

Rev. O. E. Moffett, pastor of the Baptist church at Harbor Beach, made a novel announcement from the local press last week.

In order to induce the village officials and municipal employees to attend his or any other church he offers his services free to the city of Harbor Beach, and moreover will not ask a penny for his services. But, providing, that all the city officials and all those employed in constructing sewers in that city attend some church the following Sunday.

It was a provision that all such officials and trench diggers give their names to the ushers of the church they attend.—Pigeon Progress.

INTERIOR ELECTRIC WIRING.

If you wish to have your house, or other buildings wired in a manner which is absolutely guaranteed to pass inspection by insurance underwriters, you are requested to communicate with the undersigned. I do all kinds of interior wiring and will gladly furnish estimates. For further information telephone No. 41, Prescott's hardware store, Tawas City.

adv ED. WHITTAKER.

Oak is the most suitable wood for carving, on account of its durability and toughness, without being too hard. Chestnut, American walnut, mahogany and teak are also desirable, while for fine work Italian walnut, lime, sycamore, apple, pear or plum are generally chosen.

Loony Limericks.

A lady who wore much false hair,
Didn't realize what was up there;
Till one day, by a cough,
She shook it all off,
And found a large pillow and chair!

TRI-COUNTY S. S. CONVENTION.

The Tri-County S. S. convention held at Standish Oct. 9-11, was a decided success both in point of attendance and interest shown. 116 delegates represented the different Sunday schools of the three counties.

The following officers were elected for the ensuing year:

President for Tri-County—O. S. Nicholls.

Vice-Presidents—Iosco, Rev. Alex. Anderson; Arenac, R. J. Tranor; Ogemaw, Chas. Morse.

Sec-Treas., Tri-County—Mrs. J. A. Campbell.

Sec-Treas., Iosco, Miss Effie Graham; Arenac, Dr. A. McDowell; Ogemaw, Elmer E. Scott.

Elementary Supts.—Iosco, Mrs. O. S. Nicholls; Arenac, Mrs. Douglas Black; Ogemaw, Mrs. R. D. Scott.

Adult Class Supts.—Arenac, R. J. Armstrong; Ogemaw, Fred Scott; Iosco, J. A. Campbell.

Temperance Supts.—Arenac, Fred Black; Ogemaw, Arthur Nixon; Iosco, W. H. Price.

Purity Supts.—Arenac, Mrs. Stevens; Ogemaw, Mrs. Leander Hale; Iosco, Mrs. O. S. Nicholls.

Home and Visitation—Iosco, J. A. Campbell; Arenac, John Nuttall; Ogemaw, Rev. Brewer.

Supts. and pastors to be responsible for their own training classes.

It was suggested by the nominating committee that each county do some team work during the year.

More than a million jobs in the United States, it is authoritatively stated, are closed to the man who drinks intoxicating liquors. And this means that the employe should not only abstain while on duty but that he shall not frequent drinking places while off duty.

MICHIGAN FIRES.

During the month of September, fires, explosions, and the careless use of gasoline and kerosene caused nine deaths and thirteen injuries in the State of Michigan according to the report issued by State Fire Marshal Winship.

Of the deaths four occurred in the burning of the Salvation Army building at Detroit and three deaths were caused from the careless use of gasoline and kerosene.

Among the buildings used for public purposes, burned or partly destroyed by fire during the month, were one theatre, one hotel, one school and one county home. Fires in these buildings caused a loss of nearly \$40,000.

THE STEADY SUBSCRIBER.

How dear to our heart is the steady subscriber

Who pays in advance at the birth of each year.

Who lays down the money and does it quite gladly

And casts around the office a halo of cheer.

He never says: "Stop it, I cannot afford it,

I'm getting more papers than now I can read."

But always says: "Send it, my people all like it—

In fact, we all think it a help and a need."

How welcome his check when it reaches our sanctum,

How it makes our purse throb; how it makes our heart dance.

We outwardly thank him, we inwardly bless him—

The steady subscriber who pays in advance.

CARD OF THANKS.

We wish to extend our sincere and heartfelt thanks to our friends and neighbors for their sympathy and assistance during our recent bereavement in the death of our little Douglas. Also for the beautiful floral offerings, and to Rev. Roberts for his kind words and the choir for their music.

Thompson left for Detroit last Friday morning called there on account of the serious illness of the 3-year old daughter of his niece, Mrs. Max Schnoor, formerly Miss Ellen Adams of this city. The little child died last Friday. Mr. and Mrs. Fred Adams also left for Detroit last Friday evening.

Last Saturday evening a farewell party was given for Mr. and Mrs. John Scholer by Irene Rebekah Lodge No. 137 at the I. O. O. F. temple.

The evening was spent with games and music after which supper was served to about thirty persons. Mr. and Mrs. Scholer were presented with some beautiful silverware.

Rev. and Mrs. E. W. Frazee left for Pasadena, Calif., last Tuesday morning where they expect to reside hereafter. Rev. Frazee came here six years ago. The first year of his stay in our city he was pastor of the M. E. church. He then retired from the ministry and being pleased with this location bought a home on Bay street, think to settle here. However, Rev. Frazee found the cold climate not agreeable to his health and decided to try California. Many friends bid "farewell and God-speed" to Rev. and Mrs. Frazee at the reception given at the M. E. church last Friday evening.

A Half Hour With Robert Burns

Local Entertainer Writes Upside Down, Forward and Backward at Same Time.

In the above picture L. H. Emerson, called "The Backward Man," is shown in his mystifying method of writing backward equally well with either hand, reciting at the same time selections from the best poems of the Scotch bard, Robert Burns.

The other picture shows Mr. Emerson writing right side up and backward with one hand while with the other he is writing upside down and backward.

The Backward Man's Half Hours of Fun abound with happy surprises in which the writing is done with either hand, both

together, two different words at once, one word right side up the other upside down, accompanied all the time with droll dialect talks or recitations of poems like the German poem, "Mine Family." Included in his repertoire are half hours on Temperance, Religion, Citizenship, Gossip, Old School Days, etc. These talks are not merely entertaining, but also educational and serve to inculcate in the minds of his audiences splendid lessons which they would otherwise be slow to learn.

Mr. Emerson has been at work perfecting himself in this art for several years and his natural aptness and persistence have evolved an entertainment which for novelty and instructiveness is worthy to be classed with the best.

These entertainments have been given by Mr Emerson many times at various gatherings and have always elicited very favorable commendation from the audiences whose privilege it was to see and hear them. We can recommend Mr. Emerson most highly to anyone desirous of obtaining a clean, instructive and amusing entertainment.

BURT SAYS WETS GARBLED SPEECH.

Saginaw Millionaire Goes After Booze Interests For Misleading Advertising.

Recently nearly all the newspapers in the state carried an ad for the Michigan Home Rule League which contained extracts from a speech made by Wellington R. Burt the well known Saginaw millionaire.

Mr. Burt is a member of the Saginaw County Dry Federation and an active worker. He has given the wet interests a warm reply in the following interview:

"I see that the liquor men are again up to their old tricks. They are taking extracts from a speech I made when the new constitution for the state was being formed and have taken out a few lines here and there and have garbled it so the whole meaning is changed.

"Now for them to take a speech I made eight years ago at the constitutional convention and garble it and take extracts from it is unfair to say

the least and the men who are responsible should be ashamed of themselves.

"Now I simply want to say to my friends that eight years ago at the time the constitution was being formed, there was an effort made to put prohibition into the constitution. It was not in favor of it for I believed it would defeat the constitution, as I did not believe the sentiment for prohibition in the state was strong enough to enforce the provision at that time if it became a part of the constitution. In the eight years that have elapsed sentiment among the people has become stronger, and I believe now such a law could be enforced. am sure it must come, and the sooner the better."

LITTLE THINGS.

It was a little spark, but it touched off a powder magazine. It was a little match thrown into a pile of rubbish, but it burned half the village. It was a little cigarette stub, but it burned in the garage. It was a little crack in the chimney, but it was the cause of the house burning down. It was a little current in the forgotten electric flat iron, but it burned up \$10,000 worth of millinery. It was only a little kerosene thrown on the fire to "help it burn," but it was sufficient to cause a total loss. Come to think of it, little things possess a powerful force for evil. Keep your eye on the little fire hazards.

Success doesn't mean getting ahead of competition so much as getting ahead of yourself.

A woman may drive a man to drink, but she does not have to even coax him to eat.

CORN BREAD.

Contains Almost all That Man Needs For His Sustenance—Will be Extensively Used if Wheat Continues to Soar.

We can see where home-made bread is going to taste better than ever. And as for cornbread, when cooler weather comes, it'll be numbed among the joys of living, says Charles A. Steinwachs of Detroit, vice president of the National Association of White Corn Millers. He states that the nutritive value of corn and wheat is about the same, although the former is of course much cheaper. Mr. Steinwachs declared bakers mix it with wheat up to 15 per cent of bulk, but then housewives can't get it at all groceries, and that they have not the facilities for mixing it when they can. The popularity of corn bread has fluctuated up and down, and in a general way it may be said that the great mass of people living in the corn bread belt prefer wheat bread, or "white bread." However, a very respectable percentage of people remain true to corn bread, and the corn "pone" and the corn cake are by no means extinct in Washington. Washington is what was the corn bread belt, and many of its citizens and many thousands of their ancestors were nourished on bread made from the sweet meal of corn.

A Virginia authority on corn bread once wrote that the value of corn bread is not as a dentrifice only, but as a food it contains almost all that man needs for sustenance. "While man may not be able to live by bread alone," says the southern writer, "he can come nearer doing it literally on corn bread than any other kind, and corn bread has been for generations the staple article of food on southern tables, from the pine bench of the Negro to the mahogany board of the millionaire. It is distinctly southern bread and nothing can ever take its place in the eyes or the mouth of the southerner. But it must be bread from southern corn which has been dried or cured in proper fashion, and not the hasty, damp, unrecured product that too often comes from the mills of the north."

In referring to corn bread as a dentrifice it is interesting to recall that two or three years ago Allen Stuart of the naval recruiting station at Atlanta was reported as saying that "practically no southern boy applying for enlistment in the navy is rejected on account of bad teeth, because of the corn bread that it eaten in the south the mastication of it developing and strengthening the teeth."

Everybody knows that men can live, work and keep strong on meat and corn bread, but the researches, analyses and figures of good scientists show that there is more nourishment in the same amount of wheat flour than in anything made from corn. Experts prove that, weight for weight, wheat bread contains greater nutritive properties. It has also been proved that the human system requires something more for its support than "nutriment." It has also been said that it also needs something to fill the digestive tract with the proper waste matter, for this, apparently exercises a healthy function.

Origin of "Printer's Devil."

In early days printing was styled the "black art," and printers were supposed to be in league with Satan. But it was in the time of Aldus Manutius, in Venice, that matters took a serious turn. This was the famous printer who first published the Greek and Roman classics. He took into his employ a negro boy who was homeless on the streets in Venice. The people supposed the boy was an imp of Satan and helped in the printing. Mobs collected about to wreck the building when the boy was brought forward and exhibited, and it was shown that he was flesh and blood; but, he was still called "the printer's devil," and every boy in his position ever since has been so called.

When You are Weary

When you are worn and weary, when your pathway seems strewn with mire and stones and thorns, sit down and rest awhile. Then, summon all your power of thought, lift the veil from your eyes, and with your unobstructed vision, calmly look around you.

Compare your toilsome lot with the generally supposed easy condition and good fortune of your smiling neighbor.

Observe closely and weigh everything you see on scales whose weights are true.

Are your neighbor's burdens lighter than yours?

Is his road smoother?

Does it wind its way in the cool of green shade among fragrant flowers and beside still blue waters.

It does not.

His is the common heritage of man.

At the top of the hill the gods of Success are waiting for him and for you.

Climb and meet them there—they will welcome and bless you.—Townsend.

"Save-ty."

"Safety First" is the slogan of the hour, and its application is a broad one. To insure the safety of the nation, advantages must be taken of all the opportunities afforded at this moment; the resources of the country used to a practical end; the waste places made to bloom. Secretary Redfield has already issued a proclamation asking the people to save their old rag and papers. "Saving" is ever the first step toward "safety," and if there's any one thing our country needs today it is "save-ty" as well as safety.

THE VOICE REPLIES.

Mr. Editor:—
It is hardly worth while to make a reply to the item in the Gazette headed "The Second Wall" (without a head or tail). The only valuable part that I notice is the printer's ink, and that is wasted.

The Miss Editor says I had a lull of three weeks before I asked any explanation. The circulation of the Gazette in my part of the township is next to nothing, and over a week elapsed before I read the election returns in the Gazette. That accounts for my delay.

The Miss Editor has failed to explain the word hyphenate. If she would dig down in the constitution, she would find that there is no such animal in existence in that document. The constitution knows and recognizes only one class of citizens, men who prove law abiding, and says that they shall enjoy their full rights and liberty, party or nationality not being taken into question. That complies with my first item where I stated that we will intrust our safety in our constitution before we trust the wisdom of the editor of the Gazette.

Why did the republican candidates so heartily shake hands with the democrats before the primary? It seems there was no danger then of committing corrupt political practices.

I did not state or charge the republican party with that high price trip. It reads "which was played by some of the prominent men." The whole party did not go to West Branch. That sounds like misconstruing. The Miss Editor claims there is no man behind the gun. Then she must leave some of that strong legal seasoning out of her articles.

The primary election was not a party question. All fair minded men put their shoulders to the wheel to help restore public rights where they belong and the Gazette is the only local paper that opposed the good work, and in doing so the Miss Editor found them conspirators, plotters and schemers, and finally a clique.

I also have the satisfaction of not being the only fool in Tawas township, or in the county. The fools will support men with a full backbone, and if the Lord is willing we will fool the wise (?) men.

My not signing my name does not prove me a coward. For example a submarine does not always expose itself, but that does not prove by any means that the crew is composed of cowards.

I will close my chapter, and the last verse of the hymn will be sung on the 7th day of November. It rests in the hands of every voter to say his own benediction.

MILDREDINA HAIR REMEDY GROWS HAIR AND WE PROVE IT BY HUNDREDS OF TESTIMONIALS.

It never fails to produce the desired results. It enlivens and invigorates the hair glands and tissues of the scalp, resulting in a continuous and increasing growth of the hair. Letters of praise are continually coming in from nearly all parts of the country stating that Mildredina Hair Remedy has renewed the growth of hair in cases that were considered absolutely hopeless. A lady from Chicago writes: "After a short trial my hair stopped falling and I now have a lovely head of hair, very heavy and over one and a half yards long."

Mildredina Hair Remedy stimulates the scalp, makes it healthy and keeps it so. It is the greatest scalp invigorator known. It is a wholesome medicine for both the hair and the scalp. Even a small bottle of it will put more genuine life in your hair than a dozen bottles of any other hair tonic ever made. It shows results from the very start.

Now on sale at every drug store. 50c and \$1.00.

Mildredina Hair Remedy is the only certain destroyer of the dandruff microbe which is the cause of 98 per cent of hair troubles. These pernicious, persistent and destructive little devils thrive on the ordinary hair tonics. 45

What Michigan Farmers Think About The Saloon Men's Fake "Home Rule" Amendment

The following resolution was adopted unanimously by the Executive Committee of the Michigan State Grange at a meeting held at Lansing, Sept. 6, 1916:

Whereas, the president of an organization favoring the adoption of the so-called "Home Rule" amendment, intended to destroy the present County Local Option system by providing a smaller unit for its application, has advertised himself as a "member of the State Grange" with the evident intention of carrying the inference that he represents the sentiment of the Michigan State Grange.

And whereas, the State Grange in all its annual sessions in recent years has by unanimous vote enthusiastically endorsed the County Local Option system and opposed the reduction of the unit to the township, village and city.

Therefore Resolved, by the Executive Committee of the State Grange, acting for and with the full authority of that body between its annual sessions, that the action of the said person is entirely out of harmony with the sentiment and intent of the State Grange and that until state-wide prohibition of the liquor traffic becomes an actual fact, we are unalterably opposed to any decrease in the unit of territory for local option below the county and call upon every member in our order and every lover of sobriety, good government and clean manhood to work earnestly and persistently from now until the polls close on the evening of November 7 against this misleading and pernicious measure and we urge every voter to vote "NO" on this so-called "Home Rule" amendment, which is but another attempt to destroy what we have already gained in the fight against the saloon.

Supervisors' Proceedings

Monday Oct. 9, 1916.

The board of supervisors of the county of Iosco met at the court house in the city of Tawas City, said county, on Monday the 9th day of October, 1916, pursuant to statute in such case made and provided.

Board called to order by Chairman Thos. F. Robinson who ordered roll called.

Present—Supervisors Anschuetz, Bartlett, Belknap, Burt, Dickinson, Lindsay, McAuliffe, Minor, Myles, Nunn, Phillips, Pinkerton, Preston, Robinson, Schroeder, Searle, Selee, Smith, Stewart, Sullivan—20.

Quorum present.
Port Huron, Mich., Oct. 2, 1916.
To the Hon. Board of Supervisors of Iosco County:

Gentlemen:—The State Association of County Drain Commissioners is composed of the Drain Commissioners of Michigan, and hold annual meetings of three days each.

At these meetings all the difficult questions of drainage under our statutes are raised and discussed by old and experienced Drain Commissioners and from such discussion your county has been saved many expensive law suits.

If the people of your county would attend our annual sessions they would join the Governor of Michigan in saying that no body of men have done more for the development of our state than the Drain Commissioners.

The County Drain Commissioner is no doubt drawing the smallest salary of any county officer, and his duties require more tact, more real executive ability, a clearer conception of the laws than most any other office of the county, therefore we feel at liberty to ask you in the interest of the better drainage in your county, to make provision for defraying the actual expenses of your Drain Commissioner while attending our meeting in Lansing next February.

This will be a very important meeting, and he should not miss it, further, in order that you may fully understand the work we are doing, we invite any member of your board to attend our meeting at Lansing.

Thanking you in advance for consideration of this letter, we are,

Respectfully,

JOHN W. SMITH, President,
F. W. MATZ, Secretary.

Moved by Belknap supported by Sullivan, that communication be referred to committee on salaries of county officers.

Carried by unanimous vote.

Tawas City, Mich., Oct. 9, 1916.

To the Hon. Board of Supervisors: Gentlemen:—You are hereby notified that at a meeting of the board of county road commissioners of Iosco County, held at the court house in Tawas City, said county, on the 29th day of September, 1916, the following resolution was passed:

Moved by Grant seconded by Smith, that the board of Supervisors of Iosco county be requested to spread a tax of three dollars per one thousand dollars of assessed valuation of Iosco county for the year 1915, on the several tax rolls of the county for county road purposes, to be expended as follows:

Commencing at the SW corner of section 24 and 23, Town 22 N, R 7 East to SW corner of Section 23, Town 22 N, R 7 East.

Commencing at SW corner of section 19, Town 22 N, R 8 East; thence north on west section line of section 19, Town 22 N, R 8 East, to the NW corner of Section 19, Town 22 N, R 8 East.

Commencing at 1/4 post between section 18, Town 22 N, R 8 East, and Section 13, Town 22 N, R 7 East; thence north on section line to 1/4 post between section 7, Town 22 N, R 8 East, and section 12, Town 22 N, R 7 East.

Carried. Yeas—Grant and Smith—2. Nays—None.

I certify above to be a true copy.

JNO. A. MARK,
Clerk of Board.

Moved by Myles supported by Nunn, that same be referred to committee on finance and apportionment.

Carried by unanimous vote.

The clerk placed before the board the Auditor General's apportionment of state tax for Iosco county, which this year amounts to \$10,315.47.

Chair referred same to committee on finance and apportionment.

Tawas City, Mich., Oct. 9, 1916.

To the Hon. Board of Supervisors: Gentlemen:—It has been brought to my notice that there was an error in my report of Oct. 11, 1915.

On investigation I find that I either neglected to copy or in putting it together, left out one of the pages.

I herewith submit a correct statement of disbursements and respectfully ask that it be spread on the minutes.

Respectfully yours,

J. G. DIMMICK,
Deputy Co. Treasurer.

Report of Inspectors of Jails for the county of Iosco of inspection made Oct. 6, 1916.

To the Hon. Board of Supervisors and the State Board of Corrections and Charities:

The undersigned inspectors of jails for the county of Iosco, in compliance with the provisions of law (sections 2665-2670, compiled laws 1897, respectfully report:

That on the 6th day of October, 1916, they visited and carefully inspected the county jail of said county and found as follows:

1. That during the period since the last report and the date of this examination, there has been confined in different cells and quarters charges with offenses as follows:

Offense	Male	Female	No.
Insane	Yes	1	
Habitual drunkard	Yes	1	
Disorderly	Yes	3	
Entering Co. Treas. office through window	Yes	1	

2. There are now in jail detained for trial, none. There are now in jail awaiting sentence, none. There are now in jail serving sentence, two.

There are now in jail awaiting commitment, none.

3. Number usually confined in one room by day, one. Number usually confined in one room at night, one.

4. Employment, none.

5. Condition of bedding, good. Condition of cells, good. Condition of halls, good. Condition of water closets, good.

6. What distinction if any is made in the treatment of prisoners? None.

7. Are prisoners under sixteen years of age at any time, day or night, permitted to mingle or associate with adult prisoners in violation of section 5555 compiled laws of 1897? No.

8. Are prisoners arrested on civil process kept in rooms separate and distinct from prisoners held on criminal charge or conviction "and on no pretense whatever put or kept in the same room" as required by section 10534 compiled laws 1897? They are.

9. Are male and female prisoners confined in separate rooms as required by section 10535, compiled laws 1897? They are.

10. Is there a proper jail record kept, and is it kept properly posted, and does it comply with section 2680, compiled laws 1897? Yes partly; viz: that no record is kept of money received for care of prisoners, board, medical attendance etc., also no record of identification is kept of prisoners.

11. What, if any evils either in construction or management of jail are found to exist? None found to exist.

FAT FOLKS MAY NOW BECOME SLIM QUICKLY

Be Moderate in Your Diet, Breathe Deeply, and Take Tassco.

Fat persons, particularly those from 10 to 20 pounds above normal weight will be interested to learn that they may easily reduce their weight without starvation diet or tiresome exercise.

This can best be done by being moderate in your diet, so that you will not over-tax your assimilative organs, by getting plenty of fresh air, by breathing deeply and by taking tassco four times a day.

Tassco may be obtained from any druggist in 5-grain tablets, take one after each meal and one before retiring at night. They cost little, are absolutely harmless, are pleasant to take and are designed to reduce fatty accumulations in the system wherever located.

A few days' treatment should show a noticeable reduction in weight, the flesh should become firm, the skin smooth and the general health improved, in fact your footsteps should even become lighter, your work seem easier and a lighter and more buoyant feeling take possession of your whole being.

Every person who is 10 or 20 pounds over normal weight should surely give this treatment a trial. You will probably find that it is just what you need.

Everyone Should Drink Glass Of Water To Clean Kidneys

If Your Back Hurts or Bladder Bothers You Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with cold water and kidney which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any druggist about one dozen 5 grain kidney tablets, take one tablet before each meal and at bedtime with a glass of water for a few days and your kidneys will act fine. This famous remedy is made from perfectly harmless ingredients and acts quickly and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Kidney is inexpensive, cannot injure, make no mistake, insist on kidney which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking and no doubt you will wonder what became of your kidney trouble and backache. 45

Supervisors' Proceedings

(Continued from preceding page).

Moved by Nunn supported by Lindsay, that report be accepted and placed on file.
Carried by unanimous vote.
Annual Report of County Drain Com. To the Board of Supervisors of Isosco County.

Gentlemen:—In compliance with the provisions of section 7 of chapter 2 of act No. 254 of the Public Acts of 1897, I have the honor to submit my annual report as County Drain Commissioner of said County Drain Com. covering the period from the 1st day of Oct. A. D. 1915, to the 1st day of Oct. A. D. 1916.

The following named drains have been begun by me during the year, and are only partly completed to-wit:
1. Alabaster-Whitney Drain, commencing 80 rods north and 20 feet east of the section corner of section 21, east 22, 27 and 28, thence south between section 21 and 22, 27 and 28, 33 and 34 to the county line, Town 21 North, R 7 E; thence west along side of county line to the corner of sections 1 and 2, Whitney township, Arenac county; thence south on west side of section line to the section corner of section 11, 12, and 13, thence east 30 feet north of section line between section 12 and 13, to Saginaw Bay, that being place of ending, being in all 448 miles in length.

This drain is a dredge job, up to date about 390 rods have been constructed, the depth running from 9 to 18 ft. with a top width of from 24 to 40 ft. and width of bottom 10 to 12 ft. Cost of construction \$7.49 a rod.

2. Cleaning Gregory and constructing stone extension of Gregory drain. Contract was let on the 16th day of September, A. D. 1916, and was let as one job at \$1,529 per rod. Gregory Drain commencing at Elm creek at the 1/4 post in the center of section 33, thence running north on the 1/4 line through section 33 and 28 to the north 1/4 post of section 28, crossing the Alabaster road at said point, thence north about 80 rods on the 1/4 line of section 21; thence northwesterly 120 rods following the natural water course through section 21; thence west 140 rods crossing the highway on the section line between sections 20 and 21, following water course through section 20, running north-west through section 20; crossing highway between section 20 and 17; thence west on north side of highway to a point within 60 rods of D. & M. railway, also a spur commencing at station 112 of above described drain, thence north and west through section 21, crossing highway between sections 16 and 21; thence west on north side of highway for about 60 rods; thence northwest following water course through section 16, crossing Emery Junction road between sections 16 and 17; thence west 80 rods through the east 1/2 of SE 1/4 of section 17, and the stone extension commencing at the end of the above described spur on the 1/4 line between the SE 1/4 and the SW 1/4 of the SE 1/4 of section 17, Town 21 N, R 6 East, following water course running west and north crossing the SW 1/4 of the SE 1/4 of section 17, crossing the 1/4 line between SW 1/4 of SE 1/4 of the SE 1/4 of section 17, at the north west corner, then following water course crossing NE 1/4 of SW 1/4 of section 17, running northwest to D. & M. Ry. The width of bottom of said job to be from 2 to 6 ft. and is in the process of construction. Entire length of cleaning and extension 1566 rods in length.

The following named drains have been applied for, but not established during the year, for the reasons given in each instance, to-wit:

1. An application bearing date the 6th day of September was received by me: Commencing at South Londo lake in section 29, Town 33 N, R 5 East, thence north about 80 rods to 1/4 line of section 29; thence northwest to section line between sections 29 and 30; thence northwest to section line between sections 19 and 30; thence west about 1/2 mile; thence north 1 mile to section line between sections 18 and 19. I have not acted on the application because the application was not signed by a sufficient number of signers. I find the drain necessary and practicable, and I expect to hear from them again.

2. An application bearing date the 20th day of Sept. A. D. 1916, was received and filed with me. Commencing at west end of township line between section 31 and 6 of Plainfield township, and running east on south side of road on said line to D & M. right of way, being 140 rods; thence in a southeasterly direction to Long Lake, being about 10 rods ending at west end of lake. I have taken the preliminary steps towards establishing drain.

1. Have cleaned about 20 rods of East Branch drain, such part being clogged with drift wood and sand.
2. Have cleaned 120 rods of Burleigh drain, and repaired banks.
3. Cleaned about 20 rods of McEvoy drain.

And I do hereby certify that the above embraces a full and true report of all the drains constructed, finished or begun under my supervision, or applied for during the year now ending, and the financial statement of each drain submitted herewith is true and correct. All of which is respectfully submitted.

Dated this 2nd day of Oct. A. D. 1916.

TONOLINE IS BEAUTY AID ANNOUNCES SPECIALIST

Mildred Louise Talk of Interest to Women.

As health is a first aid to beauty this story, told by Mildred Louise, beauty specialist, of Boston, Mass., is of unusual interest.

"I can recommend no better health giver than tonoline," said Mildred Louise.

"I was for many months a victim of stomach trouble and nervousness. I had suffered terribly from pains that followed eating. Headaches also would add to my worries. Poor digestion finally brought on nervousness. Relief came, however, when I took the advice of several women who said, 'Take tonoline.'"

"Not long after I started the tonoline treatment, my patron began to remind me of the improvement in my condition. And because health is the quickest way to beauty, the improvement was particularly noticeable in my face."

"What tonoline really did for me I cannot say. I am so grateful that I am very willing to recommend tonoline publicly."

Tonoline is a purely vegetable preparation which goes to the seat of common maladies—stomach and kidney trouble, catarrhal affections of the mucous membranes, liver ailments and impurities of the blood—and quickly restores proper action. Tonoline is being explained daily to many people at all druggists.

Notice—As tonoline is a wonderful flesh builder it should not be taken by any one not wishing to increase his weight ten pounds or more. Although many reports are received from those who have been benefited by tonoline in severe cases of stomach trouble and nervous dyspepsia, chronic constipation, etc.

NEWS FROM THE IOSCO COUNTY SCHOOLS.

Whittemore High School Notes.
It seems natural to be in school again.
Several pupils entered school during the week.
The botany class studied the aster last week.
Ask the sleepy "eight" about promptness.
Its lots of fun criticizing rhetorics. Isn't it girls?
The commercial arithmetic class is reviewing in decimals.
Our school opened October 2nd with an attendance of thirty-nine.
We are glad to see such a large class of ninth graders this year.
Most of our pupils attended the Whittemore fair, Oct. 4th and 5th.
The fifth, sixth and seventh grades have organized a nature study class.
Robert Curtis visited our school Monday and Tuesday afternoon of last week.
The eighth, ninth and tenth grades agricultural class tested the apple Friday, Oct. 13th.
The ninth grade are taking practice work in bookkeeping as their sets have not yet arrived.
We have organized a society for Friday afternoons. Officers as follows: President, Vera Hurford; Vice-Pres., Alfrietta Koyl; secretary, Glen Cataline; executive committee, chairman Vera Hurford, Romanzo Hall, Mae Stapleton, Helen Sase.

Alabaster School Notes.
The seventh grade geography class began the study of Eurasia Monday.
The 11th history class are preparing an outline of the Battle of Saratoga.
Autumn leaves are used for black-board borders in the intermediate room.
The Alabaster school District No. 1 is well represented at the extension course.
The fifth grade language pupils have been writing descriptions of the past week.
The proceeds of the pie supper that

the school gave last Tuesday were about \$14.50.
We have decided to buy books with the money received as first premium at the Iosco county fair.

Hale School Notes.
A Good Lesson.
By Margaret Follett, sixth grade.
Once there was a very old man, whose eyes were dim, ears were dull, and his knees trembled. When he would go to the table his hand would tremble so he would spill his food on the table cloth, and his son's wife would scold.
So they made him sit in the chimney corner on a bench to eat his food. They did not give him enough to eat.
One day the old man felt so bad that his hand trembled so that he spilt his food on the floor, and broke the dish, the young wife felt very angry. Then they bought him a wooden dish to eat out of.
One day he was eating and his 4 year old grandson was making something out of wood. He asked him, what he was making. The little boy said that he was making a wooden trough for mother and father to eat out of when he got big.
The mother and father looked at each other and both began to cry. After that the mother and father let the old man eat at the table if he did spill a little bit of food on the table cloth at the meals.
It taught them a good lesson I think.

The Cat and the Parrot.
Gertrude Buck, seventh grade, age 13.
Once upon a time, there was a cat and a parrot.
The cat was to invite the parrot and the parrot was to invite the cat.
So today was the cat's day to ask the parrot. And he went to market and bought one penny's worth of rice.
Then the parrot came but the cat made the parrot cook it himself. But the parrot could not make a meal.
The next was the parrot's day, so he went to market and got a leg of meat, a whole fish even the head and tail, thirty pounds of flour and a tub of butter. Then he made a large quantity of spice cakes.

And he asked the cat over, so he put on the victuals and the cat took a seat on the table. He ate all of the victuals which were on the table. Then he asked, "if there was more." The parrot gave him the two cakes which he had saved for himself. And then he ate them. There was nothing left but the parrot. He swallowed the parrot feathers and all.
Then a woman saw the cat and picked up a stone and went after the cat, but the cat said, "I have eaten my friend the parrot and do you want me to eat you?" Oh! no. But he opened his mouth and down she went. Then he met a man whipping a donkey to make him let go.
The cat said, "I have eaten my friend the parrot, an old woman and do you want me to eat you?" The man said "no." But the cat swallowed the man and donkey.
Next he came to the king and queen. Behind them were a company of soldiers and some elephants. The cat said, "I have eaten my friend the parrot, a woman, man and donkey, and do you want me to eat you?" The king said "No." But the cat opened his mouth and swallowed the king and queen, the soldiers and elephants.
Next he went on, but he came to two crabs. He said, "I have eaten my friend the parrot, an old woman, a man and donkey, king, queen, soldiers and elephants, and do you want me to eat you?" "Oh! no." But he opened his mouth and down they went. When they were inside the cat, they thought they could see the king and queen and the cakes all in a heap. So they began to nip his sides and at last they nipped a hole through his sides. Out jumped the king, queen, soldiers, elephants, old woman, crabs, man, donkey and parrot.
The cat was one day and one night sewing up his sides.

LEMON CHEESE.
Three fresh lemons, with tender rinds; one pound of rough loaf sugar; quarter pound of fresh butter; six fresh eggs.
Rub all the oil from the rinds of the lemons with the sugar, then cut the lemons and pour the juice over the sugar. Add the butter, cut in pieces. Beat the eggs slightly, yolks and whites together and add to the mixture. Stir all together in a thin crock, set in another vessel of boiling water and cook an hour and a quarter. At first stir constantly until the butter and sugar are melted and to prevent the eggs from curdling. It can then be left and stirred every few minutes until done. This is excellent for tarts and cakes, but most delicious on thin buttered bread.

NOTICE OF MEETING BY DRAIN COMMISSIONER.
To whom it may concern:
Be it known, that on the 23d day of Sept. A. D. 1916, an application was filed with me, Robt. C. Arn, County Drain Commissioner of the county of Iosco, for the locating and establishing of a certain drain, which said drain was described in said application as follows, to-wit: Beginning at the west end of township line between sections thirty-one (31) and six (6) of Plainfield township and running east on south side of road on said line to D. & M. right of way, being 140 rods; thence in a south-easterly direction to Long lake, being about 10 rods, ending at west end of lake, that said drain will traverse the township of Plainfield.
Now, therefore, be it further known, that by virtue of the power vested in me by the statutes in such case made and provided, I hereby designate that on the 20th day of October, A. D. 1916 at 4 o'clock in the afternoon, at the school house of District No. 7 in the village of Long Lake and county of Iosco, state of Michigan, as the time and place of meeting to consider and take action on said application for the purpose of determining whether or not said proposed drain is necessary and conducive to the public health, convenience and welfare; at which time and place aforesaid all persons interested or owning land liable to assessment for benefits, or whose lands may be traversed by said drain, may appear for or against said drain proceedings, and are notified to meet and offer their reasons why said petition or prayer should or should not be granted.
Dated this 10th day of October 1916.

TO KILL ASPARAGUS BEETLE

Arsenate of Lead, Fish Oil Soap and Water Mixed and Sprayed Will Eradicate Pest.

During the cutting season the adult asparagus beetles are around busily eating holes into the young asparagus shoots and depositing hundreds of tiny little eggs on the shoots. These eggs are dark colored, about one-twenty-fifth of an inch long and are stuck fast on one end so they stand up. These can be easily seen by a close observer. Millions of eggs may be destroyed when the crop is being harvested for market, but the beetles and their larvae frequently become very destructive on the late summer growth.

It was formerly supposed that it was impractical to check this destruction because poison sprays would not stick to the greasy, wirelike leaves and stems. With the recent developments in machinery and spray material the work can be done effectively and economically. Fifty gallons of the material is made by using three pounds of arsenate of lead paste, three pounds of fish oil soap to make the solution stick, and 50 gallons of water. This is applied with a power spray or a barrel hand pump.

HOLDING CUTWORM IN CHECK

Where Pests Prove Troublesome in Garden Poison Mixture Will Be Found Efficacious.

(By J. S. GARDNER, Missouri College of Agriculture.)

If cutworms prove troublesome in the garden or cornfield, they can be held in check with a mixture of 25 pounds of bran, half a pound of paris green or lead arsenate and a quart of molasses. The lead arsenate is now cheaper than the paris green, and whichever is used should be dissolved in two gallons of water, to which the molasses and ground pulp of two lemons or oranges should be added.

This poison mixture should be scattered in the evening in order that it may stay moist as long as possible, as the worms refuse to eat it after it has become dry. The addition of the orange or lemon juice is important in making it attractive to the worms, but it is likely to be attractive to the chickens and some other farm animals also with fatal results.

USEFUL DEVICE ON TRACTOR

Automatically Steers Machine and Keeps Its Direction Parallel to the Furrow.

It is stated that this device automatically steers a tractor and keeps its direction parallel to the furrow. It is a rectangular frame which at the rear is attached to the front wheels of the tractor and at the front is supported by two wheels, one of which travels on the unplowed ground and the other in the furrow. The furrow wheel has a shield which is kept bearing against the land side by means of a strong spring. This arrangement keeps the new furrow parallel to the old one.—Wisconsin Agriculturist.

Fair Deal.

The joys, as well as the burdens, of life are pretty evenly divided between the sexes after all, and probably a little girl derives as much innocent pleasure from being a flower girl at a wedding as a little boy does from going to school with a five garter snake in his trousers pocket.—Ohio State Journal.
