HOW MANY BARN FIRES ARE STARTED.

"The cells in hay continue to live and breathe for some time after it is cut, and they alone in a close mow, heat the hay to a temperature of 132 degrees F. Added to this is the heat from the microscopic spores of fungi which continue to grow in the blades of hay during its fermentation, the heat created by the development of the hay seeds and the heat of the sun upon the roof. These three causes acting together may heat closely packed hay stored where there is no ventilation to a temperature of 212 degrees F. The hay then begins to char; the charcoal formed, absorbs oxygen and the mass grows still hotter. The hay reaches 265 degrees F. and then the mass blazes. Barn, grain and silo material may ignite spontaneously if placed under similar conditions."

SELECTING YOUR CAMP MATE.

After you have recovered from the case of brain fever induced by trying to decide which rifle is best, you reach the problem of selecting your camp mates.

If there is anything that will put the kibosh on an otherwise perfectly good hunting trip quicker than a grouchy, always-complaining fellow hunter, I don't know what it is.

The worst of it is that you can't tell how a man is going to act in the woods by the way he talks down the avenue or the number of good jokes he can tell.

Always bear in mind that the kind of man you want is the one who can smile when it starts to rain, who can eat sour flap-jacks without murdering the cook, and who doesn't go into a blue funk if he fails to connect with a deer the first day.

There really isn't any formula, by which you can tell to a certainty whether Bill Jones, for instance, will be game, but as a general thing the man who doesn't let little troubles worry him, probably won't let the big ones get his goat.

Picking a partner is like matrimony, somewhat of a chance any way you look at it.—(A. P. Lane in Target Tips and Hunting Helps).

Tawas City, Mich., Oct. 7, 1916. To the Hon. Board of Supervisors of Iosco County:

Gentlemen:—The board of county road commissioners of Iosco county submit the following as their annual report:

On Friday, April 14, 1916, board met and instructed the clerk to advertise for bids for building one and one-half miles of trunk line road commencing at quarter post between section 34 and 35, running north one and one-half miles to the section corner of sections 22, 23, 26 and 27, Reno township. Grading, ditching, shouldering and metalting with gravel, class "B" road.

Board met Saturday May 20, 1916, and opened bids for building above extension of Burleigh-Reno road.

Two bids were received, bid of John Decker was for \$9,350.00. Bid of Birt Fowler was for \$8,200.00. On motion Birt Fowler was awarded the job. This road is about completed, and is said by those who have been over it, to be a credit to the county.

At this meeting also motion was passed requesting the State Highway Commissioner to have survey made of piece of road commencing at the south corner common to section 24, Town 22 North, Range 7 East, and section 19, Town 22 North, Range 8 East; running thence north to the north of said sections.

At meeting of Sept. 29, 1916, on motion it was decided to build that piece of Grant-Sherman road previously adopted, commencing at the corner of sections 22, 23, 26 and 27, running north 21 hundred feet between sections 22 and 23, Town 21 N, R. 5 E, being part of the Grant-Sherman road as adopted.

This road will be built by day labor. (Continued on fourth page.)

A PRIZE ESSAY CONTEST FOR STUDENTS.

A prize essay contest open to the pupils in Michigan schools has been arranged by the Daughters of the American Revolution and the Michigan Federation of Women's clubs.

The Daughters of the American Revolution will have charge of the contest in towns where there are chapters of that organization.

The contest will be in charge of the Women's clubs in towns where there are clubs, but no D. A. R. chapters.

The Superintendent of public instruction will have charge of the contest in towns where there are neither chapters nor clubs.

Any student in high school, parochial school, or eighth grade, or any student of corresponding grades in any other school are eligible to compete.

"The First School and the Children who Attended it," in the city or town in which the essay is being written is the subject for the essay.

First and second prizes will be awarded for children under 15 years of age.

First and second prizes will be awarded for children over 14 years of age.

The superintendent of schools, the regent of D. A. R. chapter, and the president of the Women's Club will form the local committee.

If there is no chapter of club in the town, the local committee will consist of three people chosen by the superintendent of schools.

The first and second prize essays, having been selected by the local committee, are to be forwarded by them to the chairman of the state committee. The state committee to consist of:

Superintendent of Public Instruction, Hon. Fred L. Keeler, Lansing; State Archivist, Dr. G. N. Fuller, chairman, Lansing; State Regent of the Daughters of the American Revolution, Mrs. William H. Wait, Ann Arbor; President of the State Federation of Women's Clubs, Mrs. R. H. Ashbaugh, Detroit.

Publication by the Historical Commission of first and second prize essays in each group, with name of child, school and town affixed will be the state prize.

The Historical Commission will publish also such other essays, or portions of essays, as present facts of value in connection with the subject, with name of author in each case.

Essays must be handed in to the local committee on or before Washington's birthday, February 22, 1917. Announcement of the winners will be made by the state committee on or before June 1, 1917.

The conditions of the contest are:

First: Each essay must be written by the pupil, without help from any other person in so far as the composition is concerned.

Second: The length of the essay should be between fifteen hundred and two thousand words.

Contestants are encouraged to include as many illustrations as possible of old houses, buildings in which the first school was held, and pictures of the teachers, and of the boys and girls who were their pupils.

The papers submitted will be judged according to the following standards:

A. Original work done by the writer. This includes the use of original sources, such as interviews with participants in the events described; consultation of original documents and contemporary letters and newspapers.

B. Accuracy in the use of dates and citation of authorities. The authority for each statement of historic fact should be given in a footnote. For example:

Interview with John Jones on May 2, 1915. Michigan Historical Collections, Vol. 4, page 972. Sparta News and Journal, December 2, 1834. MS. letter from Samuel Brown, January 4, 1855, in possession of Miss Jane Smith of Allegan.

C. Method of treatment. Write simple, idiomatic English. Do not attempt fine writing. Avoid the use of slang, provincialisms or unnecessary technical phrases. Do not use foreign terms when there are English equivalents. On the other hand, picturesque phrases, good anecdotes, novel ways of looking at things, words in use during the time of the events described but now obsolete, when taken from original sources, add vivacity and flavor to the essay. It is suggested that the writing of the essay be made a part of the course in English as well as in history.

PAPER MILLS TO USE NEW WOODS.

Washington, Nov. 11.—As the result of studies which have been made at the Forest Products Laboratory on methods of handling wood chips suitable for paper pulp, it is announced that Wisconsin paper companies are now negotiating with the railroads for shipment to their factories of experimental train loads of chips of western woods adapted to paper making.

Previous investigations by the Forest Service have demonstrated that good grades of paper can be made from a number of western woods. The experts now estimate that some of these woods, when cut into chips and dried and baled, can be delivered to the mills in Wisconsin at a very small advance over the cost of chips made from local timber. If a favorable freight rate can be obtained, they say, the great quantity of pulpwood on the National Forests should prove to be a considerable factor in supplying favorably located paper mills with the necessary raw material. In Wisconsin alone, it is stated, there is an annual market for over 300,000 cords of pulpwood.

MARKET CONDITIONS.

East Lansing, Mich., Oct. 30.—The Markets Office desires to study some reported inadequacies of market conditions and services in the Northern counties especially north of the P. M. Ry. from Saginaw to Ludington—and provide such advice and remedies as is possible. Attention will be given and advice relating to the work necessary to secure loans under the new Federal Mortgage Loan law, for capital is an essential aid in marketing. It is requested that agricultural organizations and individuals write this office so that a comprehensive covering of the territory may be made later, and especially during the period of the Farmers' Institute season.

Michigan Director of Markets.

NEWS FROM THE IOSCO COUNTY SCHOOLS.

School District No. 4 Tawas Twp. Helen Wood has a perfect record in spelling this last month.

The eighth grade finish their study of "Evangeline" this week.

The snow storm affected our attendance the first part of the week.

The third and fourth grade are memorizing Longfellow's "The Arrow and the Song."

We each had a memory gem Wednesday. We enjoyed it so much that we think we shall continue them.

The little people began preparations for Thanksgiving. They have heard part of the story of the first Thanksgiving in America.

Two farm magazines, "Successful Farming" and "Farm and Home," have been loaned to us by members of the school district. We wish to thank them and state that if there are any others who would care to do the same we should be glad to receive them.

Corrigan School Notes.

Report cards were given out last Monday.

We have purchased four new pictures for our room.

The third grade is studying "The Barefoot Boy," for language.

The fifth grade geography class is having a general review of Europe.

Our Halloween box social was a success, the proceeds amounting to \$14.62.

The girls and one of our boys have been busy sewing sash curtains for our windows, they are all put up now and add greatly to the appearance of our room.

I wish to thank the people of Iosco county for the support they gave me on Nov. 7, and shall endeavor to serve the people of the county to the best of my ability. I also assure you that I shall be sober and industrious during my administration as sheriff of Iosco county.

Thanking you one and all, I remain
Your friend,
THOMAS H. HILL.

THE YOUTH'S COMPANION CALENDAR FOR 1917.

The publishers of the Youth's Companion are presenting, as always at this season, to every subscriber whose subscription is paid for 1917, a calendar for the new year. It is decidedly unusual and strikingly artistic. The colors are well chosen and richly blended. It was made primarily, however, for actual use, and is well named the Practical Home Calendar.

Do You?

Moved by Anschutz, supported by Searle, that report be received and spread on the minutes.
Carried by unanimous vote.

Whereas, There was a resolution presented to the board on June 26, 1916, which provided that there be no county tax raised for the year 1916, which said resolution was adopted; Now, therefore, be it resolved by this board that we confirm and readopt aforesaid resolution.
Moved by Anschutz, supported by Nunn, that resolution be accepted and adopted.
Carried by unanimous vote.

Whereupon on order of the chair committees retired to their duties, and balance of board were given a recess subject to call of the chair.

AUTUMN.

I can see the hop-vine creeping,
And the hazel sunshine sleeping
On the crumbling garden wall;
And the crimson leaves are falling,
And the whistling quails are calling
In the rustling cornstalks tall.

And the golden pumpkin's sunning,
And the wary chipmunk running
With the grain his bins to fill;
And the sheep bell tinkling, tinkling,
And the merry brooklet twinkling
As it chatters down the hill.

And the farmer like a miser,
Or a greedy grasping Kaiser,
Now reaps the prizes he has won;
With the shining steel he gained them,
Mid the dust of battle won them
From the weeds, the foeman's gun.

'Tis no orphaned children crying,
Or widowed mothers sighing,
Wandering in the cold in need;
But a granary filled o'erflowing,
Gathered from his days of sowing,
Hungry, homeless ones to feed.

And after the battle's ending,
When troops are homeless wending,
Like troops when the roll call comes;
The freight smiles with their returning,
Like ruddy campfires burning,
Says "mustered out" the summer's done.—Contributed.

Stop the First Cold.

A cold does not get well of itself. The process of wearing out a cold wears you out, and your cough becomes serious if neglected. Hacking coughs drain the energy and sap the vitality. For 47 years the happy combination of soothing antiseptic balsams in Dr. King's New Discovery has healed coughs and relieved congestion. Young and old can testify to the effectiveness of Dr. King's New Discovery for coughs and colds. Buy a bottle today at your druggist, 50c. adv-3

Trifle Fresh.

"Sir," said the fair courtesier, "I am selling stock in a peach orchard." "Are you a fair sample of the output?" he inquired. "If so, I think I'll invest."—Louisville Courier-Journal.

It Isn't Too Early

to commence to think about that Christmas list. Right now you can arrange for the gifts which you want to send, and then forget it.

Each year an ever increasing number of men and women order subscription for the Ladies' Home Journal, The Saturday Evening Post and The Country Gentleman as Christmas presents for friends.

Such a present is a constant reminder for a whole year. It doesn't get stale and isn't forgotten.

You needn't even write to your friends. Make out a list of those to whom you want to send gifts, order for each a year's subscription for one of these three periodicals, write a check or money order and the thing is done.

On Christmas morning each will receive the first copy of the subscription, and in the same mail a beautiful four page illustrated announcement of the gift, bearing your name as the giver.

Send \$1.50 for either the Ladies' Home Journal or the Saturday Evening Post, and \$1.00 for the Country Gentleman, (\$1.75 for any one sent to Canada).

Order now and then forget that much of your Christmas shopping.

Cuts the Fuel Bill in Half For Soft Coal, Lignite or Hard Coal

As you know fully one-half the carbon available for heat in soft coal is gas, the entire gas supply used for fuel and illumination in many cities and towns being made from common soft coal. The ordinary stove in burning soft coal allows this gas half of the fuel to pass up the chimney unburned, thus wasting it as a heat producer.

Cole's Original Hot Blast Stove, by means of the patented Hot Blast draft and other patented features, distills this gas from the upper surface of the coal, utilizing it as a heat producer along with the fixed carbon or coke in the coal, thus burning all the coal. This is why

Cole's Original Hot Blast

Saves the Dollars and makes a ton of common \$3.00 soft coal or lignite do the work of \$9.00 worth of hard coal.

Your old stove and imitation Hot Blast are not air tight, do not save the escaping gases and do not give you a warm house at night. You cannot afford to say to yourself "My old stove will have to do this winter." The old stove is eating up the price of a new stove every year. Not only that, but on top of the cost is the unsatisfactory result it gives. It is always out the coldest morning.

Even Heat Day and Night—Fire Never Out

Cole's Hot Blast is so perfect in construction that fire keeps all night, and when the draft is opened in the morning will burn two or three hours with the fuel put in the night before. No other stove does this. Fire, therefore, never goes out, and the rooms are kept at an even temperature all the time.

OUR GUARANTEE

- 1—We guarantee a saving of one-third in fuel over any lower draft stove of the same size, with soft coal or lignite.
- 2—We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with same heating surface.
- 3—We guarantee that the rooms can be heated from one to two hours each morning, with the soft coal or hard coal put in the stove the evening before.
- 4—We guarantee that the stove will hold fire with soft coal 36 hours without attention.
- 5—We guarantee a uniform heat day and night, with soft coal, hard coal or lignite.
- 6—We guarantee every stove to remain absolutely air tight as long as used.
- 7—We guarantee the feed door to be smoke and dust proof.

The above guarantee is made with the understanding that the stove be operated according to directions, and set up with a good flue.

For Hard Coal—Saves Half

The perfect control over the drafts, the slow economical combustion and the large positive radiating surface make Cole's Original Hot Blast the most economical and the best Hard Coal stove made.

Cole's Hot Blast is the modern heater and will save its cost in fuel every winter. Buy one for your home now.

Would You Lose \$50.00 in Fuel to Save \$1.00 on the Cost of Your Stove?

That is what you do when you buy a cheaply constructed, putty jointed, showy made imitation stove. Like all successful inventions, Cole's Original Hot Blast has many inferior imitations, avoid them.

They all lack the patented features and careful construction, which make the Original Hot Blast a great success. They do not stay tight and soon open seams and cracks which render them worthless as fire keepers. See the name "Cole's Hot Blast from Chicago" on the feed door. None genuine without it.

Overland

Model 75 B

31 1/2 Horsepower

Speedy and Easy Riding

There's little comfort in most low priced cars. You can't use their speeds. They jostle you—they ride roughly—they don't hold the road.

It has long 42-inch, easy riding, shock absorbing cantilever rear springs. In addition the 75 B Overland is a longer car—104-inch wheelbase. And it has 4-inch tires.

Its smoothness and ease of riding at any speed would do justice to a much larger and heavier car.

But you can use the full speed of its powerful motor when you need it.

There's little comfort in most low priced cars. You can't use their speeds. They jostle you—they ride roughly—they don't hold the road.

The \$635 Overland is different. It is not only the speediest of low priced cars—

Come in and let us demonstrate. That's the best kind of proof.

Flint Man Says He Is Thankful For Tanlac and Recommends It Strongly

Mr. Copp, the Tanlac man, says "I met still another enthusiastic supporter of Tanlac the other day, Mr. S. B. Currey, living at 1709 Montana Avenue, Flint, a metal worker. Mr. Currey said, 'Mr. Copp, I am glad of this opportunity to tell you how thankful I am for Tanlac, and you can count on my praising it at every chance. I really cannot recommend it strongly enough.'"

"Man, I had been troubled with my stomach for about fifteen years and lately it has been bothering me worse and worse all of the time. Honest it hurt me so that I could not work regularly and felt so tired out on the days when I did work that I did not care what became of me."

"Gas formed on my stomach and I was always belching. Some days the gas was so distressing I was confined to my bed with a sick headache."

"I was very careful of my diet as anything of a greasy nature would make me sick right away."

"I saw Tanlac advertised and thought from the way it was spoken of it looked better than 'if it were from Missouri' so I tried a bottle and got wonderful results."

"I can eat whatever I want, could, in fact after I had taken only four doses of Tanlac. No matter what I eat I have no pain or gas in my stomach. I formerly could not eat even half of my lunch at noon, now I eat all that is put up for me."

"That tired feeling is gone and I am working every day and enjoy it. I have tried many kinds of medicines in the last fifteen years but found nothing in all that time that gave me the relief that Tanlac did."

Tanlac can be obtained here only at the store of James E. Dillon.
Tanlac can also be obtained at the following stores: D. H. Masure at Oscoda; Henry Zeran at Prescott. adv
