HAPPENINGS OF THE WEEK

Local, Personal and General News Furnished in Condensed Paragraphs for the Convenience of the Busy Reader

Rev. Alex. Anderson was at Bay City Tuesday.

Irl Baguley of Linwood visited with his parents over Sunday.

A. Steinhurst spent Saturday and Sunday with relatives at Standish.

E. Streeter of Hale was a business visitor in the city Tuesday and Wednesday.

Harry Whittemore of Detroit was called here Tuesday night by the illness of his mother.

Don't forget the farm loan association meeting at the court house at 10:30 today (Friday).

Mrs. Anna Birney spent a few days last week with her daughter, Mrs. Geo. Otto, at Bay City.

Dr. A. B. Carson, dentist, is at his office in Tawas City every day of the week. Phone 111-W. adv

Mrs. Edith Marsh returned home Tuesday from a few days visit with relatives at Port Huron.

C. T. Prescott went to Saginaw last Friday to attend the Shrine meeting, which was being held there.

Sr. M. Alberta and Mrs. Martha Murray were business visitors at Bay City Wednesday and Thursday.

Mr. and Mrs. Neil McDonald of Prescott visited relatives and friends in the Tawas area a day or two this week.

Miss Catherine Lanski, who teaches near Lansing, came home Monday night, her school being quarantined for scarlet fever.

E. B. Ellett of Hale was in the city last Saturday enroute home from Detroit and Lansing where he had been on business.

Henry Kane and Chas. Curry went to Bay City Tuesday morning to drive back some new cars which Mr. Kane had stored there.

Miss Maud Budd of Bay City was the guest of her sister, Mrs. Geo. Hadwin, and her friend, Miss Edna Gates, for a few days last week.

The annual meeting of the Presbyterian Ladies' Aid society will be held at the home of Mrs. S. Ferguson on Thursday, March 8. A full attendance is desired.

The coal shortage which has been severely felt in the big cities for some weeks past, struck the Tawasites this week. On Monday morning there was not a pound of soft coal to be had of the dealers in either Tawas City or East Tawas.

Peter Anderson and his daughter, Mrs. Louis Phelan, were called to Bay City Saturday by the serious illness of his daughter, Miss Amelia. They returned home on Monday stating that she was much improved and did not have to be operated upon.

The communion service will be celebrated at the Presbyterian church next Sunday morning at the usual hour. In connection with this service the pastor will preach a sermon on the subject "The Importance of Church Membership and the Communion Service."

Rev. H. Reithmeier goes to Mikado today to officiate at the funeral of Miss Esther Waldeck. Rev. Reithmeier went to Mikado a week ago today to officiate at this young lady's wedding, but she had been taken ill the day preceding and died after an illness of but a few days.

John A. Mark left Wednesday for the Foote dam on the AuSable river where he has been employed as sanitary officer. It will be John's job to see that the workmen's quarters are kept clean and sanitary, and as he has been made a deputy sheriff he will also have authority to keep order in the camp.

Owing to the fact that there is but one candidate for the nomination for circuit judge in the 34th judicial circuit there will be no primary election held in that district this spring. Judge Sharpe was the only candidate mentioned. Several other districts in the state will also be able to dispense with the primary.

Announcements have been received here from Manila, P. I., of the marriage of John F. McLellan of that city and Miss Louise Alice Johnson of Australia. Mr. McLellan started to learn the printing trade in the Herald office in this city about 25 years ago. He was employed at the government printing office at Washington, D. C. for a number of years and later was transferred to Manila. His many friends here wish him a long and prosperous wedded life.

Republican ward caucuses for the nomination of candidates for city offices have been called for Friday evening, March 9. The first and second ward caucuses will be held at the court house and the third ward caucus at the city hall. The city convention will be held at the city hall at 8 o'clock the same evening.

Little six year old Helen Gates, daughter of Mr. and Mrs. Geo. Gates, suffered a very painful accident on Thursday of last week when she slipped on the kitchen floor and broke her leg just at the ankle. Medical attention was at once given and at last reports the little miss is getting along as well as can be expected.

The Herald will soon start a new serial, "Nan of Music Mountain." This is a gripping story of the west, and will hold the reader's attention and interest from start to finish. It appeared a short time ago in Everybody's Magazine and was rated one of the best serials that magazine ever published. Watch for the opening chapters.

JOHN SCOTT BURNED OUT.

Thursday forenoon about 11 o'clock the alarm of fire was sounded, the house owned by Otto Kasischke and occupied by John Scott and family being on fire.

The fire started in the roof and was probably caused from the chimney burning out. By the time the volunteer fire department reached the scene the roof was almost entirely destroyed and the house was so damaged as to be almost a total loss.

Fortunately enough assistance was at hand to save all or nearly all the household goods. There was some wind at the time and it was feared that the fire would spread to the residence of Ernest Kasischke, only a few rods distant, but fortunately this did not occur, and when the hose was stretched it was only a short time until the flames were under control.

It is rather odd weather to be forced out of one's house, but Mr. Scott was fortunate in having his inconvenience limited to a forced move, without losing any of his goods.

PREPARING FOR 1917 IOSCO COUNTY FAIR.

The directors of the Agricultural Society met at the court house Monday and started the ball rolling for the next annual fair, which will be held September 26, 27, 28.

The board authorized the executive committee to complete all necessary arrangements and authorized extensive improvements on the grounds, including a new dining room, a rest room and horse barn.

The sum of \$800 was appropriated for horse races, which is double the amount usually hung up, and should result in bringing a lot of good horses this year. The race program will be published shortly.

A special committee was appointed to re-arrange the county school exhibit program and an extra effort will be made this year to even excel the wonderful exhibit made by the schools last year. The prizes this year will be of a nature that will appeal to every teacher, pupil and parent in the county.

The society is now clear of debt and has a small balance on hand. The grounds have been greatly improved during the past two years, and the efforts of the officers should be shown the proper appreciation by the people of the county by loyal support.

If the proposed improvements are carried out this summer, the officers will be compelled to incur some indebtedness, and they should be made to feel they were being supported by the county at large.

BILLS MAY BE SETTLED. Prosecuting Attorney F. F. French informs the Herald that a proposition has been made to him to settle the bills of Wm. H. Flynn and Chas. T. Wilkins against the county of Iosco for work performed in the disbarment proceedings against Albert W. Black.

These are the bills which caused so much discussion on the board of supervisors and which were turned down by them, with the result that suit was entered by the two attorneys to recover their claims.

We understand that these bills can be settled at about 50 per cent of their original figures, and if this be true it will be a much cheaper proposition for the taxpayers if the board of supervisors proceed to settle instead of forcing the county into a long and expensive suit which would cost a great deal more than to settle now.

The special session of the board to authorize the employment of counsel to assist the prosecuting attorney in this case cost the county over \$100, and at that session they appropriated \$1,000 for the employment of such attorney and the chances are that this amount would not be one-half of the total cost of the suit. And it is probable that the plaintiffs would recover some portion of their claims.

Mr. French informs us that he will lay the proposition before the chairman of the board of supervisors and that further action in the matter will be up to the board.

CARD OF THANKS. Words cannot express our appreciation for the liberal donations and assistance given us during our recent fire, and we wish to thank our many friends far and near, over and over again for their kindness in the hour of need.

THE JUDICIAL SITUATION

One Democrat and Three Republican Candidates at the Primary Next Wednesday.

As compared with the judicial primary campaign of last fall the one this spring has been exceedingly quiet, though there are nearly as many candidates in the field and the election this spring is for the full term of six years instead of a one year vacancy as was the case last fall.

The democrats have only one candidate, and Judge Widdis will therefore be renominated as a candidate to succeed himself.

On the republican ticket there are three candidates, Wm. H. Flynn and John Stewart of East Tawas and Edwin Rawden of Lansing. With this three-cornered race and the prospect of a light vote it would be a hard matter to prophesy with any certainty who will be the successful candidate.

Mr. Stewart was a candidate for election as prosecuting attorney in last fall's election, but was defeated by F. F. French, who made the campaign on slips, and was elected by a good working majority. Mr. Stewart is a comparative newcomer in Iosco county and it is doubtful if his vote here will be a large one.

Mr. Rawden is a former Iosco county attorney who served two years as prosecuting attorney and was defeated for a third term. He then accepted a position as attorney for the State Anti-Saloon League and has resided in Ann Arbor and Lansing for the past few years. He was induced to enter the race for judge in the hope of promoting harmony in the party in this district, but from some of the remarks made by different members of the party the plan has only resulted in a further division in the ranks and a worse muddle than before.

Wm. H. Flynn, the other candidate, is the only one of the trio who was a candidate for the nomination for judge last fall. In that contest he carried Iosco county by a plurality of 43 votes with four candidates in the field, but was defeated by the vote in the other two counties. In the opinion of the Herald Mr. Flynn is the logical candidate and should be nominated in the primary next

Wednesday by a large majority. He has been a resident and taxpayer in Iosco county for the past six years, and in the practice of his profession has shown a spirit of fair dealing which has won him a host of friends.

In advocating the nomination of Mr. Flynn the Herald has no axe to grind, but is animated solely by a feeling of loyalty to our own county and a desire for fair play. We do not cast any reflection upon the qualifications or ability of Mr. Rawden, but believe that those of Mr. Flynn are fully equal to his, and this being true we believe that preference should be shown to the man who is living among us, and whose interests, both family and professional, are in Iosco county. And this is not only the personal opinion of the editor of the Herald, but also of a great many others with whom he has conversed upon the subject.

If the republican voters of the 23rd judicial district wish to best conserve the interests of their party we believe they can do so by casting their vote for Wm. H. Flynn for the nomination for circuit judge.

PRELIMINARY FIGURES ON 1916 WOOD PULP PRODUCTION.

Washington, February 27—Returns from 160 woodpulp mills throughout the country, received in connection with the census of pulp-wood consumption and wood-pulp production being made by the Forest Service in cooperation with the Newsprint Manufacturers' Association, show that the reporting mills used in 1916 3,419,000 cords of wood and had an output of approximately 2,229,000 tons of pulp.

It is expected that by the middle of March reports from practically all of the mills in the country operating in 1916 will have been received. Complete figures are to be made public as soon as the remaining mills have been heard from.

Of the total production of wood pulp thus far reported 973,329 tons was made by the mechanical process, 892,110 tons by the sulphite process, 134,085 by the soda process and 49,053 by the sulphate process.

No figures on pulp-wood and wood-pulp consumption have been compiled by the Forest Service since 1911, and it is expected that the present census will reveal a number of changes both as to amount and kinds of wood used. It is stated that the higher stumpage values and the decreasing supplies of spruce and hemlock, as well as improved methods of manufacture, have caused pulp makers to use increasing quantities of other woods.

The final report of the census by the Forest Service will show by States the number of cords of each kind of wood going into each of the four processes of pulp-making, as well as the average cost of the wood in the rough, peeled or rossi stage. Figures showing the production of each kind of wood-pulp and the average value per ton at the mill will also be given.

TIME FOR HATCHING.

The purpose for which birds are needed and the class to which they belong decide the season for beginning incubation. Those who raise broilers in any appreciable numbers must begin hatching late in December. If one has a good market and understands how to care for winter hatched chicks, this is a very profitable end of the industry, though the fertility of eggs is low in cold weather and the life germs of the fertile eggs may be poor.

Small breeds, as Leghorns, Hamburgs and Polish may be hatched as late as May and mature before cold weather, but heavy birds should be hatched in February and forced to early maturity if intended as layers. If so managed, they will lay all winter, but if hatched as late as April or May, it will require expert care to get a pullet of the Asiatic or American class into laying condition before autumn and they may not lay until nearly a year old. If possible, Asiatics should be hatched before the middle of February and Americans before the first of March, as both classes are slow to mature under average conditions.

Highly specialized layers like the Mediterranean should not be hatched before the first of April, as they may moult in the fall if they mature too early, in which case they may not resume laying until very late in the winter. They make better winter layers when hatched in April or May, and it is the winter layers which make the big egg money. June and July chicks rarely begin to lay until early spring.

Three or four times as many chicks should be hatched as there are hens to be discarded, because at least half the chicks will be males and there will be some inferior pullets to be culled and sold in market unless used on the home table. The sale of culls and cockerels should pay for all the eggs used in hatching and for the feed needed before they reach marketable age.

After deciding how many pullets will be required to replace the old hens, and the probable amount of males and culls, fifty per cent more eggs should be allowed, as a hatch of two-thirds of the eggs is fairly satisfactory provided the chicks are vigorous.

Average Period of Incubation. Chickens, 20-22 days. Geese, 28-34 days. Ducks, 28 days. Turkeys, 27-29 days. Guinea fowls, 28 days.

RUSSELL ST. MARTIN DIES IN DETROIT FROM INJURIES.

East Tawas was shocked and grieved last Tuesday to hear of the death of Russel St. Martin, one of our home town boys. Death took place at Grace hospital, Detroit, last Tuesday morning, Feb. 27, at 10.00 o'clock.

A week ago last Tuesday, on Feb. 20, while he was pressing steel ribs on wheels at the Cushion Wheel Company, he fell on a large wheel striking his chest against the wheel. He worked for a short time afterwards and again on Wednesday, but was taken sick and later taken to Grace hospital. It was found that he was injured internally and that a rib had pierced one of the lungs. His bride of not quite three weeks had been called to Cheboygan six days after their marriage, on account of the illness of her mother and on Saturday last she was sent word of the illness of her husband and left directly for Detroit and was with him until his death on Tuesday morning. His mother, Mrs. Simon St. Martin, who had been visiting in Detroit was also with him through his illness. Most of the relatives arrived here on Wednesday afternoon train and the body was brought on the Wednesday mid-night train, accompanied by Andrew St. Martin, brother of the deceased. The remains were taken to the family residence and funeral services were held this, Friday, morning at 9 o'clock from St. Joseph's Catholic church. Interment was made in the East Tawas Catholic cemetery.

Russell St. Martin was born in East Tawas, May 4, 1897 and was 19 years, 9 months and 16 days old at time of death. He attended our public schools and two years ago last August, he left East Tawas and has spent the past over two and a half years at Onaway and Detroit. On Feb. 8, this year, he was married in Detroit to Miss Lena Lovelly of Cheboygan.

Relatives who are left to mourn are the wife in Detroit, father and mother, Mr. and Mrs. Simon St. Martin of this city, one brother, Andrew, of Detroit, two sisters, Mrs. Fern Juergern of Detroit and Miss Ruth of this city.

Relatives from out of the city at the funeral were Mr. and Mrs. Andrew St. Martin, Mrs. Fern Juergern, Mrs. Russel St. Martin, Mr. and Mrs. Lovelace, the latter a sister of Mrs. Russell St. Martin, all of Detroit, Mr. and Mrs. Lovelly of Cheboygan, parents of Mrs. R. St. Martin, and a friend Mr. Layman of Detroit.

Russell will be sorely missed by the young people of East Tawas as he had won many friends during his life in this city among both young and old. The heartfelt sympathy of the community is extended to the bereaved family and bride in this hour of sorrow.

We hardly believe the Wisconsin editor meant just what he said when he wrote:

"Our merchants are doing a flourishing business this cold weather for they are selling men's underwear and ladies' garments cut so low there is almost nothing left of them."

TREES FROM CENTRAL NORMAL

Black Walnut, Butternut and Maple Trees and Concord Grapes for Spring Planting.

The annual campaign of the Central Normal of Mt. Pleasant for the distribution of black walnut, butternut and maple trees and Concord Grapes is being planned for Arbor Day.

This movement began a few years ago by growing a few trees on the Normal grounds and distributing them to the school children of Isabella county. The idea grew, and for seven years 5000 nut trees and 2000 Concord grapevines have been sent out annually. They are distributed by parcel post at cost; a nut tree for 2 1/2 cents and two year old Concord grapes for 7 cents each.

Any organization or person may secure the plants by agreeing to give them good care but they are largely distributed through the school. Hundreds of schools order varying amounts from 25 cents (the smallest order accepted) to hundreds of plants; 200 Concord grapes, 441 nut trees and 300 peach trees were sent to the Holland school and 204 walnut trees and 191 grape vines to the Bay City schools largely through the efforts of a Women's Club.

There will be distributed this year butternut as well as walnut trees, grape vines and there has been added a hard maple tree, the sugar maple, 4-6 ft. high, transplants at 4 cents each. The distribution of maple trees will prove especially de-

sirable as there is a need for such a tree at a low price for community planting. Civic societies, Women's Clubs, Schools, etc., will have an opportunity to enlist citizens in extensive planting along the streets and roads when shade trees may be obtained for 4 cents each.

Myron A. Cobb of the Department of Agriculture of Central Normal originated this movement and all inquiries should be sent to him.

POLITICAL ANNOUNCEMENT.

WILLIAM H. FLYNN
Candidate for the Nomination on the Republican Ticket for
CIRCUIT JUDGE

A practicing attorney for twenty years and more.

A resident of Iosco county for the past six years, his record for all that makes for the ideal judge is open to all for investigation. The voters are requested to cast their ballots for him on March 7th and, if nominated, Republicans can safely place him on the bench with every confidence in his qualifications and his irreproachable character.

The candidate should at this time be a strong man. adv

SAILORS WIN CASH PRIZES FOR SAVING

Although both song and story tell of the extravagances of the sailor while on shore the popular belief that seamen are not thrifty no longer maintains in so far as the sailors of the Great Lakes are concerned. In a contest just decided in which pecuniary prizes were offered by the Cleveland Trust Company to the five sailors making the best record in bank deposits during a stated period of the sailing season of 1916 there was keen competition between hundreds of men employed on the vessels. As the contest hinged upon the largest earnings deposited all grades aboard ship had an equal opportunity and the committee, consisting of the marine editors of the Cleveland Leader, Plain Dealer and Marine Review, found that first prize of \$50 was won by C. F. Kennedy of Yale, Michigan, first cook on the steamer L. B. Miller; second prize of \$25 went to Joseph White of Charlottetown, Prince Edward Island, an oiler on the steamer F. E. House; third prize of \$15 to Mrs. Harry Bittner of Cleveland, second cook on the steamer Sirius; fourth prize \$10 to Wm. Bentner of Tonawanda, N. Y., first cook on the Centurion; and fifth prize of \$5 to J. Duncansen of Amherstburg, Ont., second mate on the Thomas Adams.

Since the starting of the savings plan in 1911 by the Welfare Plan of the Lake Carriers' Association, the sailors have become so accustomed to putting by a part of their earnings that a large proportion now have permanent savings accounts, and the balance that remained on deposit at the close of 1916 was \$200,000 more than at the corresponding period in 1915. The lake marine saving department also show that during the six years the number of accounts opened totaled 10,230.

POLITICAL ANNOUNCEMENT.

"Complying with the request of a considerable number of the citizens of the 23rd Judicial Circuit, I have consented to become a candidate for Circuit Judge. These citizens have evidenced their wishes in the matter by securing and filing petitions to place my name on the primary ballot.

"I lived and practiced law in Iosco county for ten years, and during that time held the office of prosecuting attorney for two terms. My record as a citizen and an official is well known to the citizens of the district. With that record before them, if the people of the 23rd Judicial Circuit want me for Circuit Judge, I shall be very glad indeed to serve them in that office with fairness, intelligence, and due regard for public welfare." adv

POLITICAL ANNOUNCEMENT.

TO THE VOTERS OF THE 23RD JUDICIAL CIRCUIT:

At the earnest solicitation of friends in the 23rd Judicial Circuit, I have consented to become a candidate for Circuit Judge.

Petitions necessary to place my name on the primary ballot were secured and filed by those friends and my name will appear on the republican ballot at the primary election, March 7, 1917.

The trust and confidence thus shown in me and my integrity and ability touch me deeply, and if the citizens of the 23rd Judicial Circuit should see fit to elect me to this position, it will be my constant endeavor to conduct the affairs of the office honestly, fairly and with a due regard to the rights of every person.

For your information I will say that I practiced law at East Tawas for ten years; was prosecuting attorney of Iosco county for two terms and member and president of the Board of Education of East Tawas for a number of years. I am a graduate of the Law Department, University of Michigan, and am 45 years of age.

My record as a man and an official is before the people of the Circuit. If, with this before them, they see fit to elect me, I shall be pleased to serve them.

Your vote for me at the primaries, March 7, 1917, will be deeply appreciated.

Yours very truly,
EDWIN RAWDEN.

NEWS FROM THE STATE CAPITOL

OUR SPECIAL CORRESPONDENT RELATES DOINGS OF THE LEGISLATURE AT LANSING.

MANY BILLS ARE PASSED.

By Lewis W. Bailey.

Lansing, Mich., Feb. 27.—Events moved in rapid succession in the prohibition controversy last week and paved the way for this week's consideration of the subject by the legislature. The liquor committee abandoned its idea of a referendum on a constitutional amendment to determine the demand of the people for bone dry prohibition. It abandoned its position that it would report out no bone dry bill and announced that it would report both a bone dry bill and a bill dealing only with the restrictions of the present prohibition amendment. The Anti-Saloon league swung from its position that Michigan should keep faith with its citizens who believed they were voting down the saloons but not absolutely prohibiting personal use of liquor, and declared the passage of a bone dry law the only course. Largely the rapidly shifting conditions were due to the passage of the Reed amendment to the postal bill in congress prohibiting the importation of liquor for beverage purposes into any state which has a dry law. When the news came of the passage of this measure it was believed that Michigan legislators' differences over the dry bills were at an end, but on its heels came the liveliest scrap the legislature has seen in years. One group immediately declared the only thing to do was to pass a bone dry bill in accordance with the national law, the other that it was only necessary to make effective the constitutional restrictions on use of alcoholic liquors for scientific, medicinal, mechanical and sacramental purposes, leaving to

On a motion to adopt the resolution, after other members had spoken for and against it, it was defeated by a vote of 30 to 55. Now that the test had been made and the bone dryers knew their strength, these voted with the supporters of the committee from the first against what had been termed a slap at that body: Chew, Deuel, Edwards, Fox, Gayde, Gettel, Green, Hall, Leighton, Leveque, Newkirke, Olmstead, Quintel, Toepel, Ward, Weissert.

The first fight over liquor legislation is out of the way. The committee is working almost continuously between sessions of the house and senate on the bills to be reported out. It has added to its sub-committee which is doing the drafting, Rep. McArthur, the "bone dry" who has started most of the opposition it has experienced. It has said it would report out a "Wiley bill" and a "McArthur bill." The next battle is likely to be staged on the floor of the house and is reasonably certain that a bone dry bill will be passed.

Republican pledges for a budget system for the state are recalled by a conference between the governor, Senator Roberts and George Lord, of Detroit, and others interested in the budget legislation. Governor Sleeper has believed that the best study of budget systems could be made by a committee of citizens outside of the legislature upon whose recommendations either this legislature or the next one should pass budget legislation. Rep. Foote's original bill was for a commission of three members all appointed by the governor and with no reference to members of the legislature serving. This commission was to investigate and report on a suitable budget system for Michigan at this session or the next. The committee to which the bill was referred amended it to provide for a board of two senators and two representatives and three citizens appointed by the governor; the citizen members to receive \$15 a day, the legislators only their expenses. The house in committee of the whole changed the bill to provide for three senators and three representatives with no compensation. Rep. Foote then introduced a substitute bill providing for a commission of five appointed by the governor.

Meantime over in the senate the Roberts-Deland bill for a budget commissioner who shall with the governor and the auditor-general pass on the institutional needs of the state is awaiting action. Senator Foster's bill for a budget study has with his approval been merged with the house bill of Rep. Foote, but Senator Roberts has sought an agreement with the governor whereby budget survey work might be undertaken for the 1919 legislature while the study of systems which the governor desires made is going on. To this end, it is proposed that there shall be introduced a measure which will comprise the study commission features approved by the governor in the Foote bill and the budget commissioner provisions of the Roberts-Deland bill, the latter to be superceded by amendments wherever the governor's commission finds amendment advisable, when the next legislature meets. The governor has not yet expressed himself on this proposal.

Last week saw a number of bills pass one house or the other, though the work of the session was shortened to two days by the holding of the Republican convention in Detroit early in the week.

The senate passed the bill raising the bounty on wolves and coyotes to \$50, raising tuition ungraded districts must pay for students attending high schools from \$20 to \$25; permitting state game warden to call a closed season on any county or group of counties on petition of 25 voters after an open hearing, permitting villages to be incorporated without appeal to supervisors and requiring registration of cremations.

The house passed the resolution for a constitutional amendment permitting the purchase of the D. G. H. & M. railroad, the bill providing for forfeiture of license for 90 days for violation of automobile laws, putting private banks under state supervision, prohibiting spearing fish through the ice in Lake of the Woods, repealing an Emmett county fish law and regulating fishing in Long Lake, Genesee county, providing for the printing of all constitutional amendments submitted on one ballot, authorizing supervisors in counties owning fair grounds to appropriate money for buildings and authorizing township boards to borrow money in certain cases where appropriations are not made by the voters.

Senator Covert started a bill last week which would make Sunday theaters, baseball and other things, now under the blue law of the state, punishable by fines of \$50 or 30 days in jail or both. Under the old law penalties were collected by civil suit, but this bill puts offenses in the category of the criminal and gives the law teeth.

Rep. Koehler has introduced a measure permitting two or more contiguous townships to employ a full time health officer and Senator Wood a bill to increase the amount which counties may spend on good roads.

A bill for the organization of industrial banks has been introduced in each house, by Senator Morford in the one, by Rep. Foote in the other. Senator Scully has introduced a bill to make it an offense to make candy in the form of cigarettes, cigars or chewing tobacco.

Catarrrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

the national government the stopping of liquor at the borders of the state, under the Reed amendment.

Rep. Sigurd Nelson, of Gogebic, forced the issue with the introduction of a resolution panning the liquor committee for not taking a poll of the house, for not reporting out a bone dry bill, for announcing that it would report a "moist" bill and on a motion to table his resolution the first test vote of the legislature on the dry question came. It resulted in the following representatives voting against the motion to table, and thus showing their sympathies to lie with the bone drys: Anderson, Chew, Cowan, Culver, Daprato, Deuel, Dieli, Eaton, Edwards, Ewing, Farrier, Sheridan, Ford, Fox, Francis, Gayde, Gettel, Green, Hall, Harris, Hassenger, Hopkins, Houghton, Jones, Kistler, Leighton, Lemire, Leveque, Moore, Nelson, Newkirke, O'Brien, Olmstead, Ormsbee, Peterson, Quintel, Thomas Reed, Henry L. Schmidt, Milton H. Smith, Samuel J. Smith, Stevenson, Taube, Toepel, Upham, Ward, Weissert, Welsh, Woodruff, Young.

The resolution aroused a heated debate in which Rep. Nelson referred to the proposals of the liquor committee as deformed children. "It is the impression of the commonwealth," he said, "that the 100 members of this body are the fathers of these deformed children. This resolution, spread on the records of this house, will deny the paternity of this wierd brood." Statements that the bone dry supporters had been led into a trap by the wets were branded as "Twaddle."

Rep. Sheridan Ford declared the committee "weak, inform and spineless," and declared it proposed to "pass the buck to the voters of Michigan." "We want an 'honest-to-God' prohibition bill and not a hypocritical pretense," he concluded.

Rep. McArthur, father of the bone dry bill, related the statements to him by members of the committee that they would not report out a bone dry bill and branded as absurd the statements that the bone dry measure was inspired by the wets.

Sell the Champion Cream Saver

THE NEW DE LAVAL

THE worth of a separator depends very largely upon its bowl. A separator bowl must be scientifically designed, properly constructed and perfectly balanced or it will not only lose some cream to begin with, but will soon get out of balance and lose a great deal more cream, besides wearing out the bearings and gears in a short time. That is why the average life of a cheap separator is only two or three years.

The bowl of the NEW De Laval is self-centering

The new De Laval bowl is so constructed and so balanced upon its detached spindle that it will run true and do perfect work even after the machine has been in use for a long time.

The De Laval bowl has always been noted for its close skimming under all conditions, but the new De Laval patented milk-distributing device, together with the larger discs, makes the new De Laval bowl an even closer skimmer than the old one and gives considerably greater capacity into the bargain.

The new De Laval bowl has been called by people who ought to know, "the greatest improvement in cream separator construction in the last thirty years."

Come in and see one of the new machines. We'll be glad to explain it to you in all its details, and we know you will be interested in examining the new bowl, the bell speed-indicator, and the many other improvements.

Cross-section of new bowl, showing new method of distributing milk between the discs.
